There will be a Housing Component, composed of 602 residential houses of various categories, for the Community members of staff. Finally, there will be an Industrial Area Component. 5. The Finance Council of the East African Community has already given its approval for this Project, and has advised Condotte accordingly.

6. The total cost of this Project is estimated at K.Shs.120,000,000. Twenty per cent(20%) of this amount, i.e. Shs.24,000,000, shall be provided by the three Partner States and the East African Community, in four instalments of 5% each in Tanzanian Currency, each of them contributing a quarter of the amounts involved. The first 5% instalment becomes payable upon the execution by both East African Community and Condotte of a Deed of Ratification. The second, third, and fourth instalments will be paid three, six and fifteen months after the commencement of the construction of the Project, scheduled for February, 1974. Condotte as the Contractor has arranged for the remaining 80% of the total cost to be financed by the issue of the above mentioned promissory notes for Shs.96,000,000, the notes to be negotiated to various Italian financial institutions. The Credit has been approved formally by the Italian Government. Furthermore Condotte's obligations under the Agreement and Building Contract with the Community have been guaranteed by Italstat, an Italian Company which is wholly owned by the Italian Government and which in turn holds 51% of the total shares in Condotte.
