COUNTY GOVERNMENT OF SIAYA

COUNTY ANNUAL DEVELOPMENT PLAN 2022-2023

August 2021

ANNUAL DEVELOPMENT PLAN

2022-2023

VISION

A model county committed to quality service delivery and sustainable development

MISSION

Achieve sustainable development and excellence using world class methods of service delivery and technology with emphasis on public participation.

Foreword

This is the fifth and last plan in a series of Annual Development Plans implementing the County Integrated Development Plan 2018-2022. Priority programs and projects captured in this plan have been carefully designed to feed into the broader agenda of "*Transforming Siaya County through:* socioeconomic empowerment, agribusiness and infrastructural development"

Development planning is critical to organizations and Government as it is used to balance the reality of scarce resources and the unlimited needs. This therefore leads to selecting key programs and projects for implementation in any fiscal year out of the many development aspirations that may prevail at any given time. The preparation of the Annual Development Plan is anchored in section 126(3) of the PFM Act 2012 that among other things requires the County Executive Committee Member responsible for planning to not later than 1st September of each year submit the Annual Development Plan to the County Assembly for approval.

Implementation of programs and projects in the 2013/17 CIDP was largely characterized by micro projects dotted across the various wards of the county, while these projects were critical in bringing services closer to the citizenry and opening up the county for investment, minimal budgetary allocations and large number of projects across the country led to delayed completion and therefore transfer of benefits to the target beneficiaries. The 2018/2022 planning period therefore endeavored to shift focus from micro-projects to major capital investments and the 2022/23 ADP captures that spirit.

Implementation of this plan will require the input of various stakeholders operating within and without the borders of the County. This will be achieved through networking and collaboration to bring on board Public Private Partnerships (PPP) and other development partners for the benefit of the citizenry, further it is critical to enhance coordination and collaboration with other devolved Funds in the county during plan implementation so as to eliminate duplication of effort. In conclusion, all programs and projects captured in this plan are critical in unlocking the economic potential of this county and I therefore invite all players to be part of this transformation agenda.

ANNUAL DEVELOPMENT PLAN

Acknowledgement

In preparation of this document, the entire county leadership has played a significant role. I wish to

express my gratitude to the following leaders and offices for ensuring successful preparation of the

document.

First and foremost, I thank the Governor and the entire County Executive Committee for providing

leadership, vision, and resources for the preparation of this plan. Secondly, I thank my fellow Chief

Officers for ensuring that submissions necessary for the preparation of the CADP were made

available in good time. Thirdly, I wish to acknowledge the monumental role played by directors

and other members of staff working under them for their steadfastness in providing information

whenever called upon.

Finally, I wish to thank the entire CADP Secretariat for working tirelessly to ensure timely

collection, collation and analysis of information incidental to the preparation of 2022-2023 CADP.

.....

William Ooko

Ag. Chief Officer: Finance and Economic Planning

Executive Summary

Siaya County Annual Development plan 2022-2023 is a policy blueprint that will guide development in the county for fiscal year 2022-2023. The plan starts by providing a brief background from which development programmes, projects and priorities are identified and continues to outline key projects and programmes that will be implemented by the County government departments and agencies during the plan period.

The Plan is divided into five chapters as follows;

Chapter One gives the background information on the socio-economic and infrastructural status of the County. The chapter provides a description of the County in terms of the location, size, demographic profiles as well as the administrative and political units. In addition, it provides information on the linkage between ADP and other planning documents as well as the preparation process of the ADP.

Chapter Two reviews the performance of the county in terms of implementing the 2020-2021 ADP giving the achievements (CIDP Implementation milestones), challenges, lessons learnt and strategies to mitigate the challenges. it also reviews the strategic capital and non-capital projects; grants, benefits and subsidies; as well as planned versus allocated budget

Chapter three presents development programs, projects and priorities to be implemented in the 2022-2023 plan period. These priorities have been categorized into, Capital and non-capital projects with information on name of project; description of activities; target; location; provisional budgetary allocation in the financial year; the key performance indicator that will be used to measure progress and the expected key output of each project. The chapter further, provides for measures to harness cross sector synergies and remedies to mitigate adverse cross sectoral impacts of the projects where necessary.

Chapter four presents a summary of the proposed budget by programme and sector/ sub sector. It also provides a description of how the County Government is responding to changes in the financial and economic environment. it also gives resource allocation criteria; proposed budget by program and sector and finally risks, assumptions and mitigation measures.

Lastly, chapter five discusses the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES). This section contains the following: Introduction (a brief description of the M&E structure in the county); Data collection, Analysis and Reporting mechanisms

CHAPTER ONE BACKGROUND INFORMATION

1.0 Introduction

This chapter provides background information on the socio-economic, political and infrastructural information that has a bearing on the development of the county. It provides a description of the county in terms of the location, size, physiographic and natural conditions, demographic profile as well as political units. In addition, it provides information on Annual Development Plan linkage with CIDP and a summary of ADP preparation process.

1.1 County Overview

1.1.2 Position and Size

Siaya County is one of the six counties in Nyanza region. It has a land surface area of approximately 2,530 km² and water surface area of approximately 1,005 km². It borders Busia County to the North West, Vihiga and Kakamega counties to the North East, Kisumu County to the South East and Homa Bay County across the Winam Gulf to the South. The water surface area forms part of Lake Victoria (the third largest fresh water lake in the world). It approximately lies between latitude 0° 26′ South to 0° 18′ North and longitude 33° 58′ and 34° 33′ East.

Figure 1: Figure 1: Location of Siaya County

1.1.3 Physiographic and Natural Conditions

1.1.3.1 Physical and Topographic Features

There are three major geomorphological areas in the county namely: Dissected Uplands, Moderate Lowlands and Yala Swamp. These areas have different relief, soils and land use patterns. The altitude of the County rises from 1,140m on the shores of Lake Victoria to 1,400m above sea level on the North.

Figure 2: County Natural Resources

There are few hills found in the County namely: Mbaga and Akara in Alego Usonga; Odiado in Ugenya; Regea, Rawalo and Nguge in Gem; Usenge, Ramogi hills, Got Abiero, Sirafuongo in Bondo and Rambugu and Naya hills in Rarieda. Rivers Nzoia and Yala traverse the County and enter Lake Victoria through Yala Swamp. The features have a bearing on the overall development potential of the County. High altitude areas of Ugenya and Ugunja sub-counties and parts of Gem sub-county experience higher rainfall hence suitable for agriculture and livestock keeping. The low altitude areas of Bondo, Rarieda, parts of Alego Usonga and part of Gem Sub Counties experience less rainfall and thus are suitable for cotton growing and drought resistant crop varieties. The geology of Siaya County ranges from early Precambrian to Quaternary and can be divided into the following well defined groups based on their relative age and lithology. Precambrian Intrusive, Nyanzian system rocks, Kavirondian system rocks and Pleistocene to Recent formations.

1.1.3.2 Ecological Conditions

The County spreads across agro-ecological zones LM1 to LM 5. According to the Kenya Soil Survey and Integrated Regional Development plan for the Lake Basin Development Authority, the lower part of the County and especially the shores of Lake Victoria can be categorized into semi-humid, semi-dry Lower Midland zones (LM4 and LM5). These zones cover the whole of Uyoma in Rarieda Sub-County and Yimbo in Bondo Sub-County. The lower central parts of the County, covering the whole of Sakwa and Asembo in Bondo and Rarieda Sub-counties respectively and the lower parts of Boro Division are classified as the midland zone LM3. The northern part of the County comprising Gem, Ugunja and Ugenya Sub-counties and the upper parts of Boro Division in Alego Usonga Sub-County are classified as the low-midland zones (LM2 and LM3). These are sub-humid and humid zones with reliable precipitation. There are also pockets of upper midland zones (about 30sq.kms) in Yala Division, Gem Sub-County with a high potential for agricultural activity.

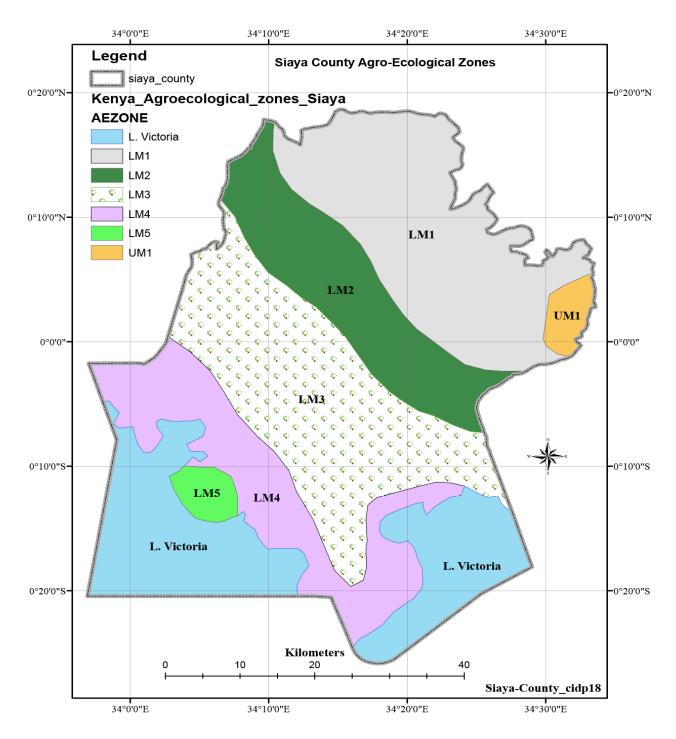

Figure 3: County Agro-Ecological Zones

1.1.3.3 Climatic Conditions

The county experiences a bi-modal rainfall, with long rains falling between March and June and short rains between September and December. The relief and the altitude influence its distribution and amount. Siaya County is drier in the southern part towards Bondo and Rarieda sub-counties and is wetter towards the higher altitudes in the northern part particularly Gem, Ugunja and Ugenya sub-counties. On the highlands, the rainfall ranges between 800 mm - 2,000 mm while lower areas receive rainfall ranging between 800 - 1,600 mm.

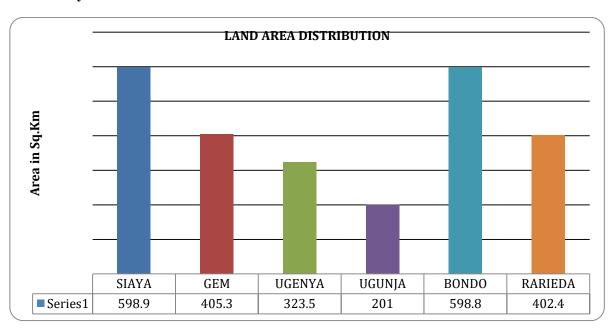

Temperatures vary with altitude rising from 21° C in the North East to about 22.50° C along the shores of Lake Victoria while in the South, it ranges from mean minimum temperature of 16.3° C and mean maximum temperature of 29.1° C. Humidity is relatively high with mean evaporation being between 1,800mm to 2,200mm per annum within the County. The relative humidity ranges between 73 per cent in the morning and 52 per cent in the afternoon. Climate variations are evident in all these areas due to human activity distorting some of the statistics above.

1.1.4 Administrative and Political Units

1.1.4.1 Administrative Sub Division

The county consists of seven sub-counties and thirty wards. Alego Usonga and Bondo sub counties have six wards each; Rarieda sub county has five wards; Gem Yala and Ugenya Sub Counties have four wards each; Ugunja Sub County has three wards while Gem Wagai Sub County has two wards. Of the seven sub-counties, Alego Usonga is the largest with an approximate area of 605.8 km² while Gem Wagai is the smallest with an approximate area of 148.5 km². Table 1.1 shows details of the administrative units forming Siaya County.

County's Administrative / Political units

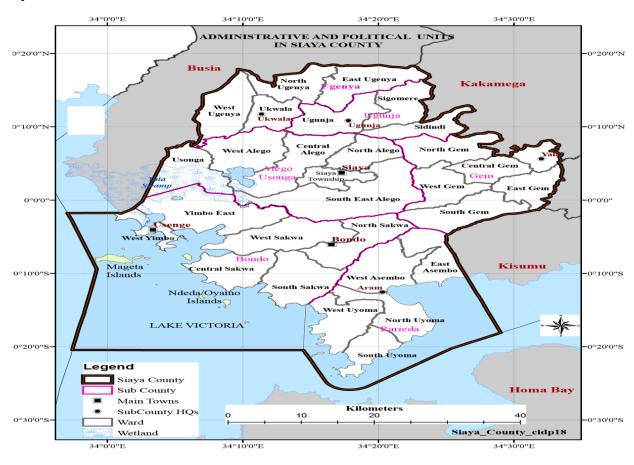

Figure 4:Administrative and Political Units

1.1.4.2 Political Units

The county consists of six constituencies and thirty wards. Alego Usonga, Bondo and Gem constituencies have six wards each; Rarieda, Ugenya and Ugunja constituencies have five, four and three wards respectively.

1.1.5 Demographic Features

This section gives information on population size and composition; population density and distribution, population projection for special age groups and demographic dividend potential. Kenya in her implementation of United Nations principles and recommendations for census has been undertaking decennial census since 1969. The 2019 Kenya Population Housing Census (KPHC) was the latest census conducted premised on a theme "Counting Our People for Sustainable Development and Devolution of Services".

1.1.5.1 Population Size and Composition

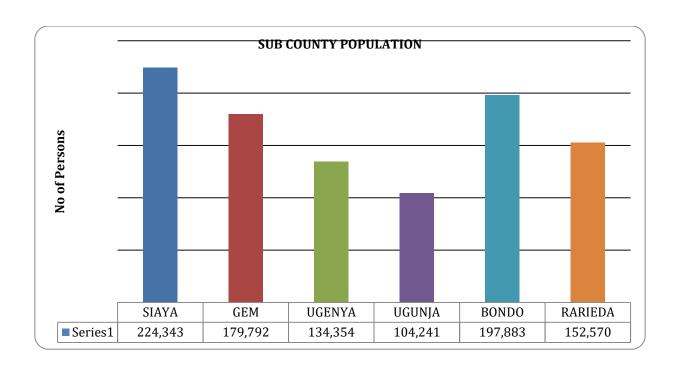

Population size, structure and distribution against the county resource endowment are major challenges to the setting of priorities for development and in implementing plans. In 2019, the population of the county was 993,183 consisting of 471,669 males, 521,496 females and 18 intersex. The population of the county is dominated by females at 52.5 percent against 42.1 per cent males due to high mortality rate for males between ages 0 years to 19 years and high life expectancy for females. The rapidly increasing population requires increased investments in basic social infrastructure and utilities such as schools, health facilities, water, sanitation and services.

1.1.5.2 Population Density and Distribution

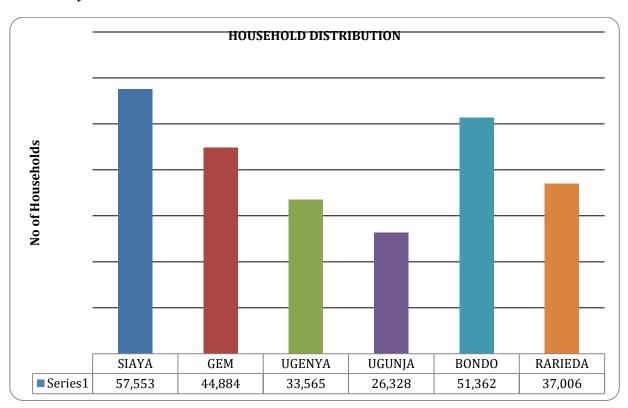

The county's population density stands at 393 people per square km. It is further anticipated that with the increase in projected population the population density will increase significantly between 2022 and 2030.

Population density

1.2 Annual Development Plan linkage with CIDP

This ADP implements departmental priority programs and projects for the last year of the 2018-2022 County Integrated Development Planning period. Departments have been classified into four pillars i.e.: (i) social transformation through investment in healthcare services, water, education, youth, culture and social services; (ii) improvement of governance and administration through investment in devolution structures for effective service delivery; (iii) transformation of county infrastructure and communication through Investment in road network and ICT services; and (iv) agricultural transformation for improved food security through investment in crop production, fisheries and livestock production in line with the CIDP.

1.3 Preparation Process of the Annual Development Plan

The ADP is prepared pursuant to the provisions of section 126 (3) of the Public Finance Management Act (PFMA), 2012 that requires the County Executive Committee Member responsible for planning to not later than the 1st September in each year, submit the Annual Development Plan to the County Assembly for approval. Preparation of this document commenced with issuance of circulars to county government entities to submit priority programs and projects for inclusion into the document followed by preparation and validation of the draft, public engagement on the document and approval of the document by both the county executive committee and county assembly.

CHAPTER TWO REVIEW OF THE PREVIOUS ADP 2020/2021

2.1 INTRODUCTION

This chapter reviews performance of the 2020/2021 ADP by comparing programs and projects planned in the said ADP against the budgeted ones. It further analyses sectoral strategic priorities, planned and allocated budget. The chapter concludes by highlighting the challenges experienced, lessons learnt and a list of payments of grants, benefits and subsidies. The decision to review the 2020/2021 ADP is informed by the fact that implementation of the 2021/2022 ADP has just commenced and as such a comprehensive review is not feasible.

The ADP for the period under review proposed a budget of Ksh. 10,429,990,430. The actual budgetary allocation for the review period was Ksh. 8,951,560,005 creating a variance of Ksh. 1,478,430,425 against the ADP budget. The actual budget consisted of Ksh. 5,855,250,000 as equitable share, Ksh. 351,000,000 as Own Source Revenue (OSR), Ksh. 1,038,751,950 as conditional grants and Ksh. 1,706,558,055 as balances brought forward from the 2019/20 Budget. The supplementary budget revised the total estimates downward to Ksh 8,221,104,984 comprising Ksh. 5,791,950,000 as equitable share, Ksh. 420,000,000 as Own Source Revenue (OSR), Ksh. 773,169,673 as conditional grants and Ksh. 1,235,985,311 as balances brought forward from 2019/20 Budget.

In the course of implementing the 2020/2021 ADP, a number of cross sectoral challenges were experienced. These include; work disruptions caused by emergence of COVID-19, inadequate technical staff, budgetary constraints, Re-allocation of funds from other priority areas to manage COVID-19 pandemic, late exchequer releases, inadequate operational tools, equipment and machinery.

2.2 Sector Achievements

Various sectors registered diverse achievements in the course of implementing the 2019/20 ADP. These achievements are as below.

2.2.1 Roads, Public Works, Energy and Transport

The sector is mandated to: Construct and Maintain County Roads and Bridges; offer technical supervision of all County Public Works; regulate County Public Transport including ferries, jetties, airstrips, harbours; offer quality assurance in the built environment; Standards Control and Maintenance of County Buildings. The sector envisions a premier county in infrastructure and

energy. The sectors' mission is to provide a quality road network system and efficiently utilize energy resources for sustainable socio-economic growth and development.

Strategic Sector Priorities for 2020/2021

Infrastructure Development the department planned to improve road infrastructure development through upgrading of 5 Km of roads to bitumen standards of selected link roads, opening, grading and gravelling of 480 Km of earth roads, construction of 1 bridge and 1 foot bridge; maintenance of 3 bridges; construction and maintenance of 2 jetties and 2 drainage systems; upgrading of airstrip; construction of 1 bus park and 3 parking bays. Under county government building services: construction of governor's residence and equipping of 1 material laboratory and inspection of building. In General Administration, planning and Support Services the department planned to establish a Mechanical Transport Fund policy, construction and equipping of a firefighting station, installation of street lights in off grid market areas and maintenance of existing solar lights.

Analysis of Planned Versus Allocated Budget

To implement priorities highlighted above, the sector planned to invest Ksh. 2,564,000,000 out of which Ksh.2,181,000,000 for Transport and Infrastructure development; Ksh. 55,000,000 for County Government building and Ksh. 328,000,000 for General Administration and support services. To execute her mandate and implement the priority projects and programs, the sector was allocated Ksh. 1,058,973,497 out of which Ksh. 1,057,186,461 for Transport and Infrastructure development; Kshs.627,241 for County Government buildings and Ksh. 1,159,795 for General Administration and support services.

Summary of Key Achievements

To ensure Transport infrastructure development, the department during the period under review, rehabilitated 1.3 of Yala Ring Road; initiated upgrading of the 2.18 km Opoda Bondo Township Road to bitumen standard; opened 635 km of new roads and maintained 1704km of existing roads.

To ensure quality control, the department inspected all government buildings constructed during the period.

Under energy the department in collaboration with Kenya power, installed street lights in all major towns across the county.

To facilitate general administration, planning and support services the department procured one vehicle for field supervision, refurbished their headquarter offices and developed policies such as

Labour Based Policy and Mechanical Transport Fund Policy whose drafts are ready for cabinet approval

Challenges Experienced During Implementation of the Previous ADP

Implementation challenges include; difficulty in establishment of mechanical and transport policy fund, flooding because of heavy rainfall, which interfered with the quality and timeliness of project implementation and Encroachment on rural access roads that exist in government maps.

Lessons Learnt and Recommendations

To address the emerging challenges, the department will complete the process of establishing mechanical transport fund policy and its establishment, expedite procurement of projects before the onset of rainy season, mark all county roads, and collaborate with other implementing agencies to support implementation of some projects.

2.2.2 Water, Environment and Natural Resources

The sector is organized around three programs of Water resources development and management, Natural resources conservation and management and general administration, planning and support services with strategic objectives of increasing access to water and sewerage services, attaining a clean, secure and sustainable environment and improving Efficiency and Effectiveness in service delivery.

Sector Strategic priorities in the 2020-2021 ADP

Key strategic priorities under Water resources development and management program included: construction and improvement of dams/pans; rehabilitation and expansion of Community managed water supplies; Phased Construction of water supplies; expansion and rehabilitation of Gazetted water supplies; drilling new boreholes. Under the Natural resources conservation and management program the priorities included development of tree demonstration sites; reclamation of Got Abiero hilltop; conservation of River Nzoia Banks; beautification of parks; development of woodlots. Under General Administration, planning and support services priorities include; human resource management and renovation of offices.

Analysis of Planned Budget against Allocated Budget

To implement priorities highlighted above, the sector in the 2020-2021 ADP planned to invest Kshs. 1,329,600,000 out of which Ksh. 1,151,500,000 for Water resources development and management including 1 billion for The Ugunja, Sega, Ukwala water project funded by Africa Development Bank through Lake Victoria South Water Works; Kshs. 120,100,000 for Environmental and natural resources conservation and management, and Kshs. 58,000,000 for General Administration and support services. To execute her mandate and implement the priority projects and programs, the sector was allocated Kshs. 420,282,518 out of which Ksh. 340,314,975 for Water resources development and management; Kshs. 43,161,997 for Environmental and natural resources conservation and management, and Kshs. 36,805,546 for General Administration and support services.

Sector Achievements in the Previous Financial Year

During the period under review, the sector improved access to water through construction of 15 water pans against a target of 18, protection of 33 water springs against a target of 43; drilling and equipping of 46 boreholes with solar pumps, Rehabilitation of 8 shallow wells, Installation of 4 Rainwater Harvesting systems, Rehabilitation of 4 Water Supply Schemes, and Extension of 80km of Water Pipelines.

Under Natural Resources Conservation and Management; 11 tree nurseries were established against a target 5; 5 woodlots were developed against a target of 6; 25,000 seedlings distributed to community members from the nurseries and the 5,000 seedlings planted in woodlots are estimated to increase the tree cover by 0.0046%. The sector registered under performance on number of hilltops afforested and kilometers of riparian land protected as further indicated in Annex 11.

Under General Administration, Planning and Support Services, the sector improved service delivery through recruitment, training and provision of operational tools; development of relevant policies, plans and laws such as Water and Sewerage Act 2018, Environmental & Natural Resource Management Bill 2019, County Environment Performance Index 2019; County State of Environment Report and County Environment Action Plan 2018-2022

Challenges experienced during implementation of the previous ADP

The challenges experienced by the department during the implementation of the previous plan include: vandalism of water infrastructure and equipment; destruction of water infrastructure by road contractors; lack of governance structure for management of the community managed water schemes; old and dilapidated water supply infrastructure; frequent electricity disconnections/interruptions of water supplies; low budgetary provision for some projects; engaging contractors with low capacity; dynamic weather patterns which may not be convenient during some project implementation e.g. construction of water pans during rainy seasons and finally, slow procurement processes.

Lessons learnt and recommendations

There are delays when the department forward the bills of quantity to the procurement section through the budget office. Going forward, there is need for the departments to requisition directly to the procurement section rather than passing the same through the budget office. There is need to recruit more technical staff in the department of Water, Environment and Natural Resources as per the establishment and organizational structure.

2.2.3 Finance and Economic Planning

During the plan period, the sector aspired to be a leader in fiscal Policy formulation and public financial management with a mission of formulating sound fiscal policies and managing public resources prudently. To effectively execute its mandate, the sector has five directorates (Planning and Budget, Accounting Services, Supply Chain Management, Internal Audit and Revenue Services) and operates the following programs; Financial services; Economic planning and budget supply services; General administration, planning and support services.

Strategic Priorities in the 2020-2021 ADP

Priorities for the sector included strengthening of office operational capacity, implementation of KDSP related activities, operationalization of statistics function, strengthening of own source revenue collection, improvement of budget formulation, execution and reporting processes, coordination of policy formulation and dissemination and improvement of document storage, retrieval and usage processes

Analysis of Planned Budget Against Allocated Budget

To implement priorities highlighted above, the sector planned to invest a total of Ksh 521,000,000 out of which Ksh.207,000,000 was allocated to financial services; Ksh. 34,000,000 was allocated to Economic planning and budget supply services and Ksh. 280,000,000 was allocated to general administration, planning and support services. The actual budgetary allocation for the sector was Ksh. 663,522,065 out of which Ksh. 83,696,040 for financial services; Economic planning and budget supply services allocated Ksh. 16,671,189 and general administration, planning and support services allocated Ksh. 563,154,836.

Sector Achievements

Sectoral achievements for the period under review are as tabulated below:

| Programme/Su b Programme | Key Output | KPI | Estimate d cost in Ksh. | Sourc e of fund | Time fram e | Target | Achieveme nt | Remarks | | | |

Challenges Experienced During Implementation

Despite the achievements, key challenges experienced include: Poor Project Cycle Management; Weak financial management and reporting system; failure to meet Own Source Revenue target, weak development partner management, non-disbursement of donor funds and irregular exchequer releases.

Lessons Learnt and Recommendations

Optimize the use of ICT in service delivery, diversification of OSR sources and provide adequate budgetary allocation to projects and services.

2.2.4 Health and Sanitation

The sector is divided into three Divisions: public health and sanitation, medical and biomedical services and administration, planning and support services. It endeavors to provide quality healthcare to all for a competitive, healthy and productive county. The sector executes its mandate through three programs namely; Curative services; preventive services; General administration, planning and support services.

Sector Priorities for FY 2020/2021

During the period under review, the sector prioritized improvement of infrastructure for comprehensive and basic health care, strengthening of administration and support services, Reduce the burden of communicable diseases, improve availability of health products and referral system, improve Reproductive, Maternal, new born child and adolescent healthcare, Halt and reverse the rising burden of non-communicable diseases and provide Universal health coverage. Significant capital and non-capital projects prioritized include Construction and equipping of a blood Bank, Universal Health Care Coverage scheme, and the establishment of Biomedical Research Centre. Theaters Administration block, Amenity ward in Siaya referral, Psychiatric ward. Surgical ward.

Analysis of Planned versus Allocated Budget

To implement the above priorities, the sector planned to utilize Ksh 1,308,700,000 out of which Ksh. 142,000,000 on general administration, planning and support services; Ksh. 735,700,000 on curative services and Ksh. 431,000,000 on preventive services. The budgetary allocation for the sector was Ksh. 2,520,490,313 out of which general administration was allocated Ksh. 1,878,682,982; Curative services allocated 442,460,845 while preventive services was allocated Ksh. 199,346,486.

| Programme | Planned 2020/21 | Budgeted | Variance | |
|-------------------------------------|-----------------|---------------|----------------|--|
| General Administration and planning | 142,000,000 | 1,878,682,982 | -1,736,682,982 | |
| Curative and Rehabilitation | 735,700,000 | 442,460,845 | 293,239,155 | |
| Preventive and promotive | 431,000,000 | 199,346,486 | 231,653,514 | |
| Sub-Total | 1,308,700,000 | 2,520,490,313 | -1,211,790,313 | |

Sector achievements in FY 2017-2019

- 1. Recruitment of a total of 83 health workers and capacity building for health staff on ophthalmic Nursing and Cataract surgery
- 2. Improvement of health infrastructures through construction of maternity unit in Bondo Sub County Hospital; renovation of Maternity Unit and MCH in Yala SC Hospital; Sigomre and Ukwala SCH and completed dispensaries Lwero, Lur, Nyamsenda, Nyalweny, Mudondo, Muhwayo, Obambo, Masita Mago, Udimba, Minyiri, Jar, Lwala and Tatro
- 3. Establishment of specialized units in SCRH and equipping with CT scan and endoscopy; Yala SCH and equipping new X-ray machines and Madiany SCH and equipping with Ultra sound machine
- 4. Improvement of ambulatory services through acquisition of more ambulances supported by THS funding
- 5. Enhanced mobility through acquisition of two utility vehicles funded by THS and Ngima for SURE programs.
- 6. Improved diagnostic services through completion of Laboratory in Rwambwa SC Hospital and Uyawi SC Hospitals, Obaga Dispensary, Dienya Dispensary and purchase of Laboratory equipment
- 7. Enhanced service delivery by facilitating the enactment to law of Siaya Health services and Siaya County waste and sanitation pieces of legislations.

8. Improvement in access to health care services through construction of staff houses within Bar Agulu; Pap Oriang; Got Winyo and Ulafu dispensaries.

Payments of Grants, Benefits and Subsidies

During the period under review, the sector received conditional grants as tabulated below:

| | O | Actual Amount paid (Ksh.) | Beneficiary |
|--------------------------------------------------------|------------|------------------------------|-------------------------------------------|
| Transforming health Services for Universal Health Care | 50,199,253 | 48,751,496 | |
| DANIDA | 16,470,000 | | Community/Health centers and Dispensaries |

2.5 Challenges experienced during implementation of the previous ADP

- 1. Erratic cash flow to the department.
- 2. Frequent commodity stockouts

2.6 Lessons learnt

- 1. Based on COVID-19, restriction on movements which affected supervision of projects, there is need to set aside some emergency funds.
- 2. Political commitment and goodwill are crucial for the success of service delivery
- 3. Insufficient budgetary allocation to the department may hamper efficient and effective service delivery.
- 4. There is need for Involvement of Public Private partnership for the continued success of the Sector.
- 5. Continued provision of free maternal health care, increased access to Primary Health care in Public Health Centre's and Dispensaries and finally training in relevant specialized areas reduces inter county referrals of patient.

Recommendations

- 1. Review staff establishment to inform recruitment and training on relevant specialized areas
- 2. Improve and expand infrastructure through rehabilitation, construction and equipping of required diagnostic and specialized units within the existing health facilities to provide comprehensive outpatient and inpatient health services (including MNCH services)
- 3. Prioritize operationalization of newly and rehabilitated health facilities
- 4. Strengthen the preventive health care services such as indoor residual spray (IRS) as a way of vector control.

2.2.5 Agriculture, Food, Livestock and Fisheries

The sector is organized around four execution areas namely crop and land management, livestock management and development, fisheries development and animal health. It envisions a food secure county and commercially oriented agriculture. This will be achieved through transformation of agriculture, livestock and fisheries industry to ensure sustainable food and nutrition security, income generation and employment creation.

Sector Strategic priorities in FY 2020/2021

The broad strategic priorities for the period under review included; Fish quality assurance and marketing, Subsidized Fishing Gear, Enhancement of Fish Stocks in Natural Water Bodies, Support to Fish Farmers, Scaling up county irrigation system, Seed subsidy, Mechanization subsidy, Agri-Business and information management, Dairy production; Poultry production and marketing, Meat production and marketing; Disease and vector management and Animal Breeding

Analysis of planned budget verses allocated budget

During the period under review, the sector planned to utilize Ksh **298,600,988** for both development and recurrent expenditure. Actual allocation was however Ksh **716,600,900** for the same period creating a variance of Ksh.417,999,912. Analysis of planned against actual allocation is as summarized below;

| Programme | Planned 2020/21 | Budgeted | Variance |
|----------------------------------------------------------|-----------------|-------------|--------------|
| General Administration, Planning and Support Services | 21,000,000 | 57,661,646 | -36,661,646 |
| Livestock Development and Management | 36,200,000 | 59,896,529 | -23,696,529 |
| Crop Management | 130,000,000 | 486,307,298 | -356,307,298 |
| Fisheries Management & Development | 100,000,000 | 69,185,570 | 30,814,430 |
| Veterinary Services | 11,400,988 | 43,549,857 | -32,148,869 |
| Sub-Total | 298,600,988 | 716,600,900 | -417,999,912 |

Achievements

- The sector registered the achievements listed below during the period under review. Detailed analysis of planned targets against actual achievement is shown in the matrix:
- ➤ The 24 vehicles in the department had 10 maintained in good condition and 14 grounded owing to inadequate funds for repair.
- Revenue amounting to KES. 15,348,177.39 was collected from seven streams over the 2020-21 implementation period. Cattle auction was the best performing stream as it achieved

- 247% of its set target. The worst performing stream was the agricultural income which only generated 11% of the set target.
- Anyiko Irrigation scheme feasibility study was completed with the project being declared feasible and development works estimated at 179 million shillings.
- ➤ 1,157 cattle were inseminated with 330 successfully calving down.
- ➤ 2 dairy cows were procured and distributed to 2 groups in Sidindi and North Ugenya wards at total costs of KES 174,000.
- ➤ 10 fodder shredders were procured for support to dairy farmers on dairy equipment and fodder project.
- ▶ 8,437-month-old chicks were procured at a cost of KES 2, 649,570 and distributed to 224 groups in West Gem (625), East Asembo (1562) and Yimbo East (6250).
- ➤ 2 meat inspectors were trained at Kenya Meat Institute –Athi River and all meat inspectors were equipped with kits and protective gear to enhance hygiene during meat inspection. 17,130 carcasses were inspected to ensure consumption of safe meat by the public.
- ➤ Various vaccinations were carried countywide out during the same period as follows; a) Foot and Mouth Disease (FMD) -18,960 (sheep, goats & cattle), Rabies 106,024 (dogs), Lumpy Skin Disease (cattle) and New Castle Disease 200,126 (chicken). This impacted on famer's lively hoods by reducing incidences of disease outbreaks and loss of livestock.
- Fixed Time Artificial Inseminations (FTAI) was carried out in Yimbo East and Sakwa where 800 cows served belonging to 600 famers were served. This was possible as a result of department procuring 10 liquid nitrogen cylinders and 1425 straws of Aryshire and Jersey semen.
- ➤ Construction of one modern crush pen was completed in South Sakwa with a capacity to handle up to 3,000 heads of cattle during vaccinations, spraying and artificial inseminations.
- ➤ Completion of 3 fish landing bandas (Obondo, Kopiata and Kunya) and 1 toilet at Obondo beach.
- ➤ Delivery of 10 motorized boats to various BMUs and fishing gears to Luanda Kotieno and Madundu BMUs.
- > 20 tons of fish feeds were procured and distributed to 1,590 to fish farmers in all the wards in the county

The table below provides a summary of the achievements;

| Key output | Indicator | Target (2020/21) | Achievement | Remark | | | |
|-------------------------------------------------------------------------------|---------------------------------------------------------------------------|-------------------|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| Programme: General Adı | ministration, Planning and | l Support Se | rvices | | | | |
| Objective: To strengthen coordination of sectoral and inter sectoral programs | | | | | | | |
| Outcome: Improved sector | or performance | | | | | | |
| Improved Extension Services | % Increase in number of farmers reached by extension services (40%) | 20% | -10. % | Low achievement due to COVID restrictions. This was achieved through farmer field days (20030), public barazas (28679), farmer trainings (4598), individual farm visits (2347), demonstrations (98), eextension (16875). | | | |
| | No of farmers reached with extension services | 80,000 farmers | 72,627 farmers | 72,627 farmers. Were reached with extension messages | | | |
| Improved staffing level | Number of staff trained | 498 | 611 | Data comprise of staff being trained on different areas of expertise. Its cumulative | | | |
| Strengthened operation capacity | No of motor cycles procured | 25 | 5 | 5 motorcycles were procured (veterinary-4, fisheries-1) | | | |
| | No of vehicles rehabilitated | 4 | 3 | 3 vehicles were rehabilitated | | | |
| | No of MC rehabilitated | 6 | 8 | 8 motorcycles were rehabilitated (agrc-6, livestock -2) | | | |
| | No of office blocks refurbished and maintained | 6 | 2 | Two offices rehabilitated (CECMs compound and Fisheries offices) | | | |
| | Photocopiers | 2 | 2 | 2 photocopiers procured | | | |
| Developed legal and policy frameworks | No of policies / strategies developed and approved | 4 | 6 | Agric sector, dairy sector, soil management, inputs &subsidy, roots & tuber crops, youths in agribusiness, Fisheries management &Aquaculture All are in draft form (3 policies,2 strategies,1 Act) | | | |
| Improved Collaboration & coordination of the Agriculture Sector | Agric. Sector Coordination mechanism established and operational | 1 | 1 | County Agriculture sector coordination committee (CASCCOM). 4 meetings held over the reporting period. | | | |
| Program: Livestock Mana | agement and Development | t | | | | | |

| Kenya Climate Smart Project | 319,185,080 | 249,610,461 | Farmers | Increasing productivity and climate change mitigation |
|---------------------------------------------------------|-------------|-------------|---------|-------------------------------------------------------|
| Agricultural Sector Development Support Programme | 12,874,560 | 12,874,560 | Farmers | Capacity building |

Challenges in the review period

During the period under review the department faced the following challenges in implementing the annual development plan; budgetary constraints, unpredictable weather patterns, land ownership wrangles, prolonged procurement process, low capacity of contractors, Limited staff, Covid 19 effect that disrupted normal operations, programs and activities

Lessons learnt and Recommendations

- Timely release of funds enhances project execution
- Resolution of land issues should be addressed before execution of projects
- Water harvesting and irrigated agriculture promotion was key to food security.
- Adequate financing for projects will lower cases of incomplete projects
- > Capacity building of contractors on e-procurement procedures is necessary

2.2.6 Lands, Physical Planning, Housing and Urban Development

The sector comprises public land management, survey and mapping, physical planning, housing and urban development. The sector envisions efficiency in land and housing management for sustainable development through facilitation of administration and management of land, access to adequate and affordable housing.

Strategic Priorities for the sector

Sector priorities were county spatial planning; survey and mapping of public land, land banking, management of public land, Spatial planning, development control, Maintenance of government housing estates and Urban Infrastructural Development.

Sector Priorities for FY 2020/2021

During the period under review, the sector prioritized: Implementation of Kenya Urban Support Program, Purchase of land for investment; development of housing units under the Big Four Agenda, Survey of public land, market, natural resources; completion of valuation roll; title deeds for vulnerable groups & public land, automation of land records and physical planning of urban centers in the County.

Analysis of Planned Versus Allocated Budget

To implement the above priorities, the sector planned to utilize Ksh. 564,100,000 whilst the budgeted allocation was Ksh. 254,240,256 creating a variance of Ksh. 309,859,744 as tabulated below;

| Programme | Planned Estimates 2020/2021 | Budgeted Estimates 2020/2021 | Variance |
|-------------------------------------|-----------------------------------|------------------------------------|--------------|
| County Land Administration | 221,500,000 | 36,290,337 | 185,209,663 |
| Land Use Planning | 277,600,000 | 14,476,800 | 263,123,200 |
| Housing development and management | 15,000,000 | 135,723,088 | -120,723,088 |
| Urban development | | 16,718,000 | -16,718,000 |
| General Administration and planning | 50,000,000 | 51,032,031 | -1,032,031 |
| Sub-Total | 564,100,000 | 254,240,256 | 309,859,744 |

Sector Key Achievement

- 1. County Spatial Plan report was presented to all 30 wards in public participation for before submission to the County Assembly for approval,
- 2. Prepared Valuation Rating Bill which was subsequently presented to members of the public in all the Sub-Counties and approved by the County Executive Committee. The Bill has been submitted to the County Assembly for approval in line with their legislative mandate.
- 3. Retrieved public land records from five sub county offices(Alego Usonga, Bondo, Rarieda, Gem and Ugenya) for purposes of digitization at the headquarters
- 4. Survey and planning for intermediate urban centres for three centres, namely Boro, Nyamonye and Sega. Public participation for the proposals were also conducted where members of the public validated the plans. Completion notices have since been prepared to finalize the process.
- 5. The Department benefitted from donor funding and earmarked improvement of recreational hubs, namely Ahindi Garden and Governor's Park. Further non- motorized transport facility has been constructed in Siaya for a length of 1 km around CBD.
- 6. Renovation of 2 Blocks 4Doors Staff Houses at Ugenya and Gem Sub Counties, Construction of 3 Door Pit Latrine at Ugenya Staff Houses
- 7. Construction of Sewer Line at Alego Usonga Sub County Staff Quarters, Construction of Storm Water drainage at Bondo Misori Road in Bondo Town and
- 8. Delineation of proposed 12 Urban area boundaries in Siaya County; Siaya Municipality, Ugunja, Ukwala, Nyadorera, Yala, Ndori, Akala, Usenge, Madiany, Sigomere, Sega & Bondo. The Delineation of urban area boundaries report has been submitted to the County Executive Committee for approval and onward transmission to the County Assembly.

| Output/outcome | Indicator | | Target at end of the CIDP period | | Target in Review Period (Target 2021) | Achievement | |
|---------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|----|-------------------------------------------|----|---------------------------------------------------|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| revenue collection in our markets. | surveyed and planned | 7 | 16 | 4 | 3 | 3 | Target achieved by survey and planning of Boro, Nyamonye and Sega intermediate urban centres |
| Increased land banking for public investment and development across all the Departments. | Number of acres purchased | 51 | 160 | 40 | 40 | 1 | The target affected by supplementary budget |
| Optimal utilization of land as a resource. | County Spatial plan approved | 0 | 1 | 1 | 1 | 0 | At County Assembly awaiting approval after consideration by County Executive |
| revenue collection in our markets. | within Siaya County | 0 | 0 | 12 | 12 | 12 | Reports proposing urban status for 12 centres (Siaya and Nyadorera in Alego Usonga Sub County, Bondo and Usenge in Bondo Sub County, Yala and Akala in Gem Sub County, Madiany and Ndori in Rarieda Sub County, Ukwala and Sega in Ugenya Sub County and Sigomere and Ugunja in Ugunja Sub County) |
| Improved conducive settlement for county staff | Number of staff Houses refurbished. | 6 | 50 | 20 | 10 | 6 | Target achieved |
| Increased revenue collection for service delivery | Number of approved Siaya County Valuation and Rating Bill,2019 | 0 | 1 | 1 | 1 | 0 | At County Assembly awaiting approval after consideration by County Executive |
| Reliable and | Digitization of Public Land records | 0 | 1 | 1 | 1 | 0 | Work in progress and scanning of all records done |

Challenges

During the period under review, the Department of Lands, Physical Planning, Housing and Urban Development faced the following challenges:

- 1. Projects implementation scaled down due to corona virus epidemic resulting in dispensing of essential services only.
- 2. Delay in availing of budget following late approval of supplementary budget
- 3. Land purchases affected the department absorption rate as most of them stalled at the procurement process.
- 4. To some land owners, succession becomes a hindrance to sell land to the County government.
- 5. Budgetary constraints on digitization of land records
- 6. The sub county officers have long running issue of office furniture and imprest for running sub county offices.
- 7. At the Headquarters, there is shortage of office space to accommodate all staff.
- 8. Low staffing levels in both Physical Planning and Housing & Urban development directorates.
- 9. Lack of Capacity to undertake effective Urban Management due to lack of Urban Administrative Systems in place.
- 10. Low Budget Allocation for Housing. Cannot finance new housing projects.

Lessons Learnt

- 1. Participatory planning, budgeting, monitoring and evaluation of projects and programmes leads to effective implementation of programme activities.
- 2. Adequate staffing and continuous skills training impacts on service delivery.

2.2.7 Governance and Administration

Introduction

The department provides leadership, administrative and governance structures that are instrumental for public service delivery. It oversees formulation and implementation of public policies and regulations, intergovernmental relations, intervention programmes such as disaster management, sub-county and ward administration, public participation in government decision making, ethics and integrity of public officers and human resource management development. Public Service Board which is a Semi-Autonomous Government Agency also falls under the department. Planned activities during the period are contained in the table on summary of key achievements.

Sector priorities in 2020/2021

Significant capital and non-capital prioritized include; County Government Headquarters, Governors' Official Residence, Ward Offices and the Construction of Public Service Board Complex, County Disaster Management, Drug and Substance Abuse and Enhanced Public Participation.

Analysis of Planned Budget Versus Allocated Budget

To implement the above priority projects, the sector planned to utilize Ksh. 901,000,000 however, in the budget the sector was allocated Ksh. 601,002,084 creating a variance of Ksh. 299,997,916 against the ADP target as indicated in the table below;

| Program | ADP Estimates 2019/20 | Budget Estimates 2019/20 | Variance |
|----------------------------------------------------------|-----------------------|--------------------------------|--------------|
| General Administration, Planning and Support Services | 370,437,319 | 158,977,147 | 211,460,172 |
| Human Resource Management Development | 400,562,681 | 38,094,295 | 362,468,386 |
| County Governance and Administration | 130,000,000 | 403,930,642 | -273,930,642 |
| Sub-Total | 901,000,000 | 601,002,084 | 299,997,916 |

Sector Achievement

During the period under review, the department:

- > Improved payroll management by conducting two staff head-counts; processing payroll and time management through personnel biometrics.
- > Strengthened institutions through inauguration of the second board, establishment of GSDU and establishment of Strategy, Monitoring and Evaluation directorate.
- ➤ Improved staff welfare through provision of Medical Cover; payment of liabilities of the defunct Local authority; processing of Gratuity and Pension and discharging disciplinary case.
- > Strengthened performance management framework trough adoption of RRI; monitoring, evaluation, reporting and learning; performance contracting; Organization structure and staff establishment
- ➤ Improved policy and regulatory framework through: enactment of Siaya County Village Administrative Units Act, 2020; Siaya County Inspectorate, Compliance and Enforcement Act, 2019; Siaya County Public Participation and Petitions Act, 2018 and Guidelines, and LREB Act
- Improved communications services through social, print and electronic media leading to improved county visibility

- ➤ Enhanced capacity building through partnership with USAID-AHADI and World Bank (KDSP)
- ➤ Coordinated containment measures of COVID-19 Pandemic and other disasters

Challenges

Challenges experienced during the period under review included;

- Delay in processing bills forwarded to the legislature of key programs and projects within the County
- ➤ Poor transport management leading to misuse of County Government vehicles
- Lack of effective intra and inter departmental coordination and communication
- Weak decentralized structures due to inadequate funding of their operations
- Non-operationalization of Reward and Sanction policy
- ➤ Delayed segregation of payroll data for all the departments to help streamline the County wage bill
- > Delayed implementation of internship policy
- Inability to roll out the car loans and mortgage schemes due to lack of enabling policy

Lessons learnt and recommendations

- ➤ There is need for an improved working relationship between the County Assembly and The Executive,
- ➤ Proper and periodic market survey to facilitate the identification of appropriate projects requirements and improve the workforce skills.
- > Enforce transport policy guidelines
- > Strengthen and communication and coordination of service delivery within the County

2.2.8 Tourism, Culture, Sports and Arts

Introduction

The sector is mandated to promote tourism in the county, preserve county cultural heritage, promote use of Information and Communication Technology, and facilitate sports and art talent development. To attain her core mandate, the sector envisions a globally competitive tourist destination and world class ICT infrastructure facilities for sustainable socio-economic development. The sector shall continue to establish integrated socio-economic and environmentally friendly policies and programs for hospitality, sports & arts, wildlife conservation and ICT for a vibrant economy.

Siaya prides herself on great Luo heroes, scholars, politicians as well as great chief cognizant of Odera Akangó who is well remembered for his powers being the first chief in Kenya to instill formal education. Siaya County has diverse tourism attractions, ranging from natural, historical, flora and fauna and cultural attractions. The county potentially harbors different forms of tourism including agro tourism, sport tourism, eco-tourism, cultural tourism and culinary tourism.

Sector Strategic priorities in the 2020-2021 ADP

Key strategic priorities under Tourism Development and Promotion included: Tourism infrastructure development; Cultural performances and exhibitions; Talent Promotion and Training of tourism industry stakeholders. Under Sports Development, key priorities included: Sports infrastructure development; Sports Tournaments and Training of sports officials.

Analysis of Planned Budget Verses Allocated Budget

To implement priorities highlighted above, the sector planned to utilize Ksh. 213,000,000 in the 2020/2021 ADP whereas in the budget, the allocation increased to Ksh. 267,011,651 creating a variance of Ksh. 54,011,651

| Program | Planned (Ksh.) | Budgeted (Ksh.) | Variance |
|----------------------------------------|----------------|-----------------|--------------|
| Information and Communication Services | 42,000,000 | 5,890,000 | 36,110,000 |
| Tourism development and Promotion | 107,000,000 | 63,657,739 | 43,342,261 |
| Sports & development | 64,000,000 | 197,463,912 | -133,463,912 |
| Sub-Total | 213,000,000 | 267,011,651 | -54,011,651 |

Sector Achievements in the review period

During the review period, the sector achieved the following: implemented the Homestay concept, undertook construction of Odera Akango colonial cells and other facilities at the Odera Akang'o and Got Ramogi Heritage Centers; installed Computers and related accessories in various offices. Specific achievements in the review period are;

- ➤ Held capacity building workshops for tourism stakeholders
- ➤ Conducted Environmental Impact Assessment (EIA) at Got Ramogi
- Developed County Tourism policy
- Marketed and branded the county in various for through exhibition and social media
- ➤ Maintained and updated the county website

- ➤ Implemented a number of ICT systems to improve service delivery (IPPD, Revenue collection system, Internet connectivity to all county departments, and Health Management System)
- > Carried out Continuous capacity building of county staff on ICT applications

Summary of Key Achievements

| Program/ Sub- program | Key outputs | Key Performance Indicators | Planned Targets | Achievements | Remarks | | | |
|------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|--------------|-----------------------------------------------------------------|--|--|--|

| | Cultural performances and exhibitions conducted | One Cultural exhibitions | 1 | 0 | Not achieved due to budgetary constraint |
| | Tourism policy in place | One Tourism policy in place | 1 | 1 | Target achieved |

Challenges experienced during implementation of 2020-2021 ADP

Challenges experienced include lack of county policies and legislation governing county tourism, culture, and ICT sectors; limited budgetary allocation; political interference in project identification and prioritization; Poor project cycle management; Failure to integrate ICT in service delivery; Dynamic nature of ICT leading to high incidence of obsolescence of ICT infrastructure; limited Security of County government data; High capital outlay for ICT infrastructure; Unclear roles in wildlife management between County and national government and Lack of data on tourist arrival and classified hotels in the county.

Lessons learnt and recommendations

To address challenges above, the sector shall seek to develop policies and legislation for tourism, culture, sports and ICT sectors; seek partnerships to actualize sector programs; enhance project cycle management; Partner with National Government on wildlife management; invest and Integrate ICT in service delivery; establish database of tourist arrival and classified hotels in the county

2.2.9 Education, Youth Affairs, Gender and Social Services

The sector's mandate is anchored on the following programs; County Pre-Primary Education, Vocational Education, Youth Training and Development, County Social Security and Services; General Administration, Planning and Support Services. The department envisions having a socially secure and empowered community through provision of sustainable quality education and training, social protection, quality empowerment, mentorship and leadership programmes.

Strategic Priorities in FY 2020-2021

The sector prioritized the following projects in the planned period: Additional funding for the Siaya County pre- primary feeding Programme; Completion of on-going ECDE centres and scale down on construction of new ECDE centres; Equip existing ECDE centres and youth polytechnics with both equipment and learning materials, Award bursary to needy and bright students. Implement mentorship and leadership programmes for youths and parents; Empower youth on sustainable projects, train women groups on entrepreneurship and provide PWDs with mobility aids; Recruit

25 Polytechnic Instructors and 200 ECDE Instructors; Renovate selected VTCs, completion of VTC workshops, provide modern hostels and support trainees through capitation, construct sheltered workshops for persons with disability (PWDS)

Analysis of Planned vs Allocated Budget

To implement the above priorities, the department planned to utilize Ksh 914,750,000. The actual budget was Ksh.779,219,619 creating a deficit of Ksh.135,530,381. The table below provide fiscal provisions per programme of planned against allocated budget;

| Programme | Planned budget | Actual budget | Variance |
|-------------------------------------------------------|----------------|------------------|--------------|
| County Pre-Primary Education | 438,700,000 | 312,254,035 | 126,445,965 |
| Vocational Education and Training Development | 120,750,000 | 113,757,871 | 6,992,129 |
| County Social Security and Services | 164,800,000 | 47,203,274 | 117,596,726 |
| General Administration, Planning and Support Services | 190,500,000 | 306,004,439 | -115,504,439 |
| Sub-Total | 914,750,000 | 779,219,619 | 135,530,381 |

Key Achievements in 2020-2021

Despite the variances in the planned budget against the actual budget allocated, the sector recorded several achievements including:

- ➤ Construction of 30 ECD centres
- > Equipping of 5 ECD centres
- ➤ Equipping of 18 polytechnics, construction of 4-door pit latrine in 11 polytechnic and construction of classroom and administration blocks in 4 polytechnics
- > County bursary fund benefiting 9319
- > Empowering of 30 youth groups on tree planting

Other key achievements are as tabulated below;

| Programme/Sub programme | Key Outputs | Key Performance Indicators | Planned Targets | Achieved Targets | Remarks | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------|--------------------------------------------|-----------------|---------------------|---------------------------------------|--|
| Programme 1: County Pre-Primary Education Objective: To Provide Accessible Quality Pre- Primary Education in The County Expected Outcome: Improved Access to Early Childhood Education | | | | | | |

| | quality training | | | | Service Board |
| | Recruitment of ECD Instructors | Number of ECD Instructors Recruited and Employed | 200 | 0 | Late constitution of Public Service Board |
| County Education Bursary: needy students | Improved retention and completion rates | No of beneficiaries | 10,000 | 9,319 | Threshold attained |

Payment of Grants, Benefits and Subsidies

| Type of Payment | Amount (Ksh.) | Beneficiaries | Remarks |
|-----------------|---------------|-----------------|----------------------------------------------|
| Bursary | 75,000,000 | 10,000 students | To improve retention in schools and colleges |
| SYPT | 40,000,000 | 1,700 students | To improve retention in schools and colleges |

Challenges Experienced During Implementation

Despite the achievements, the sector faced some challenges during implementation. They include; long procurement processes, delay of Funds from National Treasury for operations and Development, high demand for bursaries, understaffing of technical and non-technical staff, delayed overdue promotions/ designation and right placement of staff. Other challenges include shortage of vehicles for logistic purposes and Covid-19 Pandemic affecting normal operations.

Lessons learnt and recommendations

To address the challenges, the sector recommends; Align the budget documents to CIDP, ADP and Strategic Plan; Early Disbursement for funds for project Implementation; Creating awareness on courses offered by VTCs through intensive advertisement; Capacity building of staff for effective and efficient performance; Full implementation of Covid-19 protocols at all levels; Provision of additional funds to cater for increasing bursary demands

Some of the lessons learnt from the review period include; adequate funding of projects reduce stalled projects; awareness creation of courses offered at the VTCs will increase enrolment in the institutions, capacity building of technical and non-technical staff will improve service delivery, covid 19 protocols to be implemented at all levels of service delivery and increased demand for bursary calls for increase in budgetary allocation for bursary.

2.2.10 Enterprise and Industrial Development

The sector mandate is to formulate and coordinate policies, strategies and programmes for Enterprise and Industrial Development. In addition to this, it promotes Fair Trade Practices and Consumer Protection through enforcement of Weights and Measures regulations, retail and wholesale markets through rehabilitation and business infrastructure development, provision of credit facilities to Cooperative Societies through Cooperative Development Fund, capacity building and cooperative development through value addition activities and savings mobilization; improvement of market hygiene through Market Solid Waste Management and alcoholic drinks control through liquor licensing.

Sectoral Planned Strategic Priorities in FY 2020/2021

The department planned to implement the following strategic interventions in the following programmes:

Under Trade Development and Promotion, the department planned to improve market infrastructure through construction of market shades, pit latrines and drainage systems; installation of High mast and construction of boda-boda sheds; Under Co-operative Development and Management, the department planned to operationalize County Co-operative bill; promote value addition via rehabilitating processing and storage plants and promote extension services on cooperative services; Under Fair Trade Practices and Consumer Protection, the department planned to ensure improved value for money for consumers, undertaking bi-annual calibration of the county's working standards and conduct stakeholders awareness campaign programs on legal metrology matters.; Under General Administration, Planning and Support services, the department planned to continue building capacity of staff, recruit waste management casuals, procure and maintain existing operational tools and renovate an office block; Under Liquor Licensing, the department planned to ensure management and control of liquor and alcoholic drinks in the County.

Analysis of Planned Versus Allocated Budget

To implement the above priorities the sector planned to utilize Ksh 594,300,000 however the actual budgetary allocation was Ksh 282,144,992. Comparative figures between ADP and budget allocations are as tabulated below;

| Programs | Planned (Ksh.) | Budgeted (Ksh.) | Variance |
|-------------------------------------------------------|----------------|-----------------|-------------|
| General Administration and planning | 124,000,000 | 92,783,195 | 31,216,805 |
| Trade development and promotion | 269,900,000 | 184,811,797 | 85,088,203 |
| Fair trade practices and consumer protection services | 103,700,000 | 2,360,000 | 101,340,000 |

| Cooperative Governance and Accountability | 96,700,000 | 2,190,000 | 94,510,000 |
|-------------------------------------------|-------------|-------------|-------------|
| Sub-Total | 594,300,000 | 282,144,992 | 312,155,008 |

Key Achievements

Under general administration, planning and support services, the sector improved service delivery through development of one policy (Cooperative Development Fund Bill); renovation of two office blocks and capacity building of four staff.

Under trade development programme; the sector provided a conducive environment for trade through facilitating 16 SMEs to attend East Africa Juakali Exhibition in Kigali, capacity building of 989 SMEs on various business skills. The sector also improved market infrastructure through installation of 33 high mast floodlights; construction of 74 sanitation facilities; completion of phase I Ramba modern market; construction, gravelling and fencing of 19 markets; refurbishment of 21 market sheds and construction of 9 boda boda sheds.

Under waste management, the sector improved market solid waste management through recruitment of 2,260 casuals to clean up markets; conducting seven clean-up days in markets; collection and dumping of 18,720 tonnes from all the 240 markets.

Under cooperative development programme, the sector expanded cooperative business through conducting 26 audits against a target of 56; inspection of 6 cooperatives against 39; facilitate registration of 15 cooperatives societies; revival of 9 dormant cooperatives; facilitate development of 107 by laws for various Cooperatives; 29 pre cooperative trainings were held; 38 members education held; and 39 committee training conducted, 14 value addition to products were done out of the targeted 11.

Summary of Achievement.

| | No of assorted tools and equipment procured | 0 | 0 | 852 | 0 | 0 | 0 | Con tent removed during the supplemen tary |

Challenges include;

- > Delays in receipt of BQs from the department of public works,
- > Destruction of market infrastructures due to flooding

- ➤ Low awareness on the departmental mandates.
- ➤ In adequate resources to implement departmental mandates
- ➤ Poor inter-departmental coordination
- > Insecurity in markets
- ➤ Poor market infrastructure
- ➤ Lack of designated dumpsites
- ➤ Inadequate staff
- > Inadequate office operation
- ➤ Weak governance structures in cooperative societies
- Weak compliance with weight and measures regulations

Recommendations

- > Strengthen preparation of BoQs
- ➤ Improvement of market infrastructure and security
- > Create awareness on the departmental mandates
- ➤ Lobby for internal and external funding
- > Strengthen inter-departmental coordination
- > Establish dumpsites
- > Develop and implement human resource plan
- > Strengthen governance structure in cooperative societies
- > Strengthen compliance in weight and measure
- > Procure office operational tools

Lesson learnt

- Progress tracking is key in performance management
- ➤ Goodwill by stakeholders is essential in implementation of strategic plan projects and programs
- Participatory planning, budgeting, monitoring and evaluation of projects and programs leads to effective implementation and ownership
- > Streamlining of the human resource function leads to effective service delivery
- > Provision of good working environment and working tools enhances staff productivity
- Adoption of ICT improves revenue collection and service delivery

CHAPTER THREE STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.1 Introduction

This chapter discusses sectoral priority programs and projects for implementation during the 2022/23 FY. Identification of these priorities involved mainstreaming of cross cutting issues of climate change; covid-19 related interventions; environmental conservation; disaster risk management; HIV/AIDS; gender, youth and persons with disability and ending drought emergencies into proposed interventions to create projects that are sustainable in the long run and offer greatest benefits to the citizenry.

3.2: Sector Priorities, Programs and Projects

Strategic Priorities in this document are sector specific and geared towards realization of the objectives of the political, social, economic and enablers pillars that have guided resource allocation during the 2018-2022 planning period. The political pillar aims at improving governance through strengthening of devolved structures while the social pillar aims at transforming social services through improvement of healthcare Service delivery system, strengthening early childhood and vocational education; Youth, Culture and Social Safety net system and improving access to safe water through investment in water supply infrastructure. The economic pillar on the other hand aims at improving agricultural production to improve food security and stimulate growth of agro based industries and other enterprises. The pillar will also ensure the existence of a conducive fiscal environment and sustainable financial solutions for the business community, enablers of ICT and roads will provide accessible road networks and quality ICT solutions that the above three pillars can leverage on and optimize their performance.

3.2.1 Governance and Administrations

This sector is responsible for coordinating the delivery of public services across all county government entities. It intends to have an ICT driven public service delivery system that is accountable, transparent and efficient. To achieve this, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic Issue | Proposed strategic intervention |
|-------------------------------------------------------------------|-----------------------------------------------|-------------------------------------------------------------------------------|
| Provide strategic leadership in service delivery | Strategic leadership in service delivery | Reorganize the department and off load some directorates to other departments |
| | | Strengthen policy formulation, coordination and implementation |
| Strengthen decentralized service delivery | Decentralized services | Establish village administrative units |
| Coordinate public participation and civic education in the county | Public participation and civic education | Implement public participation and petitions Act |
| Strengthen human resource management | Human resource management | Adopt modern human resource, records and fleet management system |
| | | Develop and implement human resource plan |
| | | Develop and implement records, data management and protection policy |
| Coordinate Information and communication services | Information and communication services | Develop and implement communication strategy |
| Strengthen performance management | Performance management | Strengthen inter and intra departmental coordination |
| | | Strengthen performance management system |
| Effective administration, planning and support services | Administration, planning and support services | Invest in pandemic and disaster mitigation measures |
| | | Map out operational tool requirement to inform budgetary provision |
| | | Strengthen compliance and enforcement unit |
| | | Adopt ICT based service delivery system(E-platform) |
| | | Improve working environment |
| | | Invest in research and development |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities, the sector will partner with relevant national government institutions, development partners, training and research institutions, civil society organizations, nongovernmental organizations and members of the public.

Significant Capital and Non-capital Development

During the 2022/23 planning period, the department has prioritized to:

- 1. Strengthen strategy, monitoring, evaluation, learning and reporting function to strengthen the linkage between policy formulation, project execution and performance management
- 2. Strengthen Information and communication services to improve county visibility
- 3. Develop an integrated human resource planning and management system
- 4. Strengthen service delivery in devolved units by constructing ward offices and equipping ward offices and establishing village councils and disaster response centers
- 5. Strengthen Public Participation and Civic Education to improve community ownership of government projects.

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under each program are as shown in the matrix below;

| Programme | Key Output | KPI | Target | Indicative Budget | Sourc e of | Implementing agency |

3.2.2 Finance and Economic Planning

This sector provides policy direction in economic planning and public financial management. It is organized around five execution areas namely: Budget and Economic Planning; Resource Mobilization; Internal Audit; Accounting Services and Supply Chain Management. It aspires to be a leader in fiscal Policy formulation and public financial management. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Issues | Strategic objective | Strategic priorities |
|-----------------------------------------------|------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Administration, planning and support services | Effective administration and support services | Develop appropriate policy and enabling legislations Recruitment and training of staff Strengthen office operational capacity Carry out job evaluation and right placement of staff Carry out staff needs assessment Carry out staff right sizing |
| Fiscal policy formulation and implementation | Enhanced formulation and implementation of sound fiscal policies | Fiscal policy formulation Operationalization of statistical function Strengthening information and documentation services Budget formulation Expenditure control Procurement of goods and services Contract management and supplier performance Publication of contract awards Disposal of idle and excess assets Processing of payments Mapping of revenue streams Diversification of revenue sources Strengthen operational capacity of revenue collection Establishment of an autonomous county revenue collection authority/PPP arrangement Complete automation of revenue collection Strengthen enforcement capacity Strengthen intra and inter departmental coordination of revenue collection |
| Statutory and administrative reporting | Effective statutory and administrative reporting | Archiving of contract documents and payment vouchers Sourcing and control of accountable |

| Strategic Issues | Strategic objective | Strategic priorities |
|------------------|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | documents Prepare and submit quarterly and annual stator Financial statements Undertake systems audits undertake special audits Facilitate Audit committee meeting Undertake spot check audits |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities, the sector will partner with relevant agencies of the national government including Controller of Budget; National Treasury; Kenya National Bureau of Statistics, Commission for Revenue Allocation, Kenya Revenue Authority. Members of the public, service providers and development partners play key and strategic roles in ensuring successful implementation of county government priorities. These roles include providing oversight on budget execution, availing development priorities to be implemented and providing budgetary support among others.

Description of significant capital and non-capital projects

Major interventions prioritized during the 2022/23 planning period are:

- 1. Improvement of office operational capacity by procuring relevant equipment, tools and machinery.
- 2. Strengthening of fiscal Policy environment by preparing requisite statutory policy documents
- 3. Operationalization of statistics office and preparation of statistical abstract
- 4. Preparation and submission of statutory and administrative reports to relevant offices.

3.2.3 Agriculture, Food, Livestock, Fisheries and Irrigation

Introduction

This sector is responsible for coordinating agricultural production both for commercial and domestic consumption in the county. It is organized around four directorates i.e., crop production, livestock production, fisheries production and veterinary services and an administrative unit that coordinates smooth operation of the directorates. It envisions a food-secure county with commercially oriented agriculture. To ensure effective application of resources, the sector has

analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic Issue | Strategic Intervention |
|---------------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------------------------|
| Improvement of agricultural production and productivity | Agricultural production and productivity | Promote appropriate farming/fishing methods |
| | | Improve access to agricultural finances |
| | | Improve access to farm inputs |
| | | Create awareness towards investment in agriculture |
| | | Promote irrigated agricultural production |
| | | Improve access to appropriate agricultural technologies |
| | | Improve soil fertility |
| | | Build resilience to climate change |
| | | Control pests and diseases affecting crops, animal and fisheries |
| | | Control human diseases |
| Value addition across agricultural value chains | Value addition and access to markets for agricultural produce | Improve aggregation of agricultural produce |
| | | Strengthen producer- consumer linkages |
| | | Enhance access to market information |
| | | Improve harvesting and post-harvest management of agricultural produce |
| Improvement of extension services | extension services | Improve extension infrastructure |
| Improvement of administration and | | Increase staff to farmer-ratio |
| support services | | Improve staff morale |
| | | Develop and implement human resource plan |
| | | Improve staff skill and knowledge |
| | administration and support services | Improve coordination in the sector |
| | | Leverage on ICT to improve service |

| Strategic Objective | Strategic Issue | Strategic Intervention | | |
|---------------------|-----------------|--------------------------------------------------------------------------|--|--|
| | | delivery | | |
| | | Domestication and formulation policies, regulations and legal frameworks | | |

Key Stakeholders and Their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders. These include relevant agencies of the national government (ministry of agriculture) who provides overall policy direction for the sector, research organizations (ICIPE, KARI, KALRO, ICRAF, KEMFRI etc.) who develop various agricultural technologies for transfer to farmers, farmers and farmer groups who are recipients of various interventions targeted at improving agricultural production and productivity and development partners (USAID, GIZ, WHO etc.) who provide budgetary support to the sector

Description of Capital and Non-Capital Development

The broad objective of the sector is to improve agricultural growth, nutrition and food security and maximize incomes through optimal utilization of resources. Specific priorities shall include:

- 1. Policy development KES. 5,000,000
- 2. Setting up a sector Information Management System KES.5,000,000
- 3. Subsidy and grants program start-up capital at KES. 99,000,000 (3.3 million per ward). This will go towards tractor hire services, purchase of fingerlings, fish feeds and fishing gear, chicks, dairy animals, fertilizer, seeds, fishing patrol equipment, crush pens and AI provision.
- 4. Establishment of fish landing infrastructure KES 20,000,000
- 5. Scaling up County Irrigation at KES. 200,000,000.
- 6. Investing in 2,400 hectare-Cotton development project at KES. 10,000,000.
- 7. Equipping agricultural laboratory at KES. 20,000,000.
- 8. Completion of Bondo slaughter house KES.5,000,000
- 9. Rehabilitation and operationalization of Yala Fish Multiplication Centre at KES. 10,000,000
- 10. Livestock disease control project KES. 15,000,000
- 11. Enhancing extension services KES.220,000,000
- 12. Staff recruitment KES. 40,000,000

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various programs are as shown in the matrix below;

3.2.4 Water, Energy and Natural Resources

Introduction

This sector is responsible for delivery of clean, safe and accessible water for both commercial and domestic use. It is also responsible for sustainable utilization and management of the environment and natural resources within the county. The sector is organized around three execution areas namely water resource management and development; environment and natural resources and general administration, planning and support services. It envisions sustainable access to safe water and sanitation in a clean and secure environment.

| Strategic Objectives | Strategic Issue | Proposed Interventions | | |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Improve access to water and sewerage | Water supply Infrastructure To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below: | Protection of water pans & dams Protection of water springs Rehabilitation of & Augmented Water Supplies Construction of shallow wells Construction of boreholes Development support to SIBO and community water supply schemes | | |

| Strategic Objectives | Strategic Issue | Proposed Interventions |
|----------------------------------------------------------------|-------------------------------|----------------------------------------------------------------------------------------------|
| | Sewer Infrastructure | Construct of new of sewer lines Rehabilitation and maintenance of existing sewer lines |
| Environmental conservation and | Environmental conservation | Tree nurseries establishment |
| management | | Establishment of woodlots &Hilltops Afforested |
| | | Beautification of urban centers |
| | | Build Resilience to climate change |
| | Environmental management | Pollution control |
| | | Documentation of records of available natural resources |
| Improved General Administration, planning and support services | General Administration | Develop and implement human resource plan |
| | | Promotion of National values |
| | | Performance management |
| | Planning and Support services | Strengthen policy coordination and implementation |
| | | Invest in pandemic mitigating measures |
| | | Domestication of relevant national government policy frameworks and guidelines. |
| | | Prioritize programs towards environmental management |
| | | Strengthen collaboration with development partners |
| | | Improve community engagements in program identification and implementation |
| | | Strengthen collaboration with development partners |
| | | Improve work environment |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will partner with various stakeholders that include relevant agencies of the National Government (Ministry of Water and Sanitation, LVSWSB, Water Resources Authority, KFS, KMD etc.) who provide overall policy

direction in the sector, service providers who offer critical services necessary for effective operation of the sector, members of the public who are recipients of services offered by the sector and development partners who offer budgetary support to the sector.

Capital and Non-Capital Projects

Major development interventions during the 2022/23 planning period are:

- 1. Protection of water pans, dams and springs
- 2. Rehabilitation and augmentation of existing water supply schemes
- 3. Drilling and equipping of shallow wells and boreholes
- 4. Establishment of tree nurseries and woodlots
- 5. Establishment of urban parks
- 6. Build resilience of communities to mitigate the impact of climate change.

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various programs are as shown in the matrix below;

| Sub program | Key Output | Key performance indicator | Target 2022/23 | Estimated Cost | Source of Fund | Implementing agency | | |

3.2.5 Education, Youth Affairs, Gender, Sports and Social Services

This sector is responsible for coordinating preprimary and vocational training, social security services and sports talent and arts. It executes its mandate through the following programs; County Pre-Primary Education, Vocational Education, Youth Training and Development, County Social Security and Services; General Administration, Planning and Support Services. The sector envisions having an educated, socially- secure, and empowered citizenry. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic Issues | Strategic Interventions | |
|-------------------------------------------------------------------------|----------------------------------|----------------------------------------------------------------------------|--|
| Improve access to quality pre- primary education | ECD infrastructure and equipment | Improvement of ECD infrastructure | |
| F, | | Provision of ECD Equipment and instructional material | |
| | ECD Human resource | Develop and implement ECD human resource plan | |
| | School feeding | Scale up school feeding program | |
| | ECD Policies and Legislation | Domesticate relevant national government policy frameworks and guidelines. | |
| | | Develop and implement school feeding program policy | |
| Improve access to quality education and training in Vocational Training | VTC infrastructure and equipment | Improve VTC infrastructure | |
| Centres | | Provision of VTC Equipment and instructional material | |
| | VTC Human resource | Develop and implement VTC human resource plan | |
| | Enrolment in VTCs | Conduct campaigns to encourage youths enrol in Vocational Training Centres | |
| | VTC Policies and Legislation | Domesticate relevant national | |

| Strategic Objective | Strategic Issues | Strategic Interventions |
|-------------------------------------------------------|--------------------------------------------------|------------------------------------------------------------------------------------|
| | | government policy frameworks and guidelines. |
| | | Develop and implement school feeding programme policy |
| Strengthen social services to special interest groups | Sheltered workshops infrastructure and equipment | Improvement of sheltered workshop infrastructure |
| | | Provision of sheltered workshop Equipment and teaching material |
| | Low enrolment in sheltered workshop | Create awareness and advocacy on services offered in sheltered workshops |
| | | Enrol more persons with disability for various courses on skills development |
| | County special interest groups | Invest in special interest groups empowerment programme |
| | Human resource in sheltered workshop | Develop and implement human resource plan |
| Effective Administration, Planning | Administration | Bursaries |
| and Support services | | Develop and implement human resource plan |
| | | Promotion of National values |
| | Planning and Support services | Strengthen policy coordination and implementation |
| | | Invest in pandemic mitigating measures |
| | | Domestication of relevant national government policy frameworks and guidelines. |
| | | Deliberate programmes towards environmental management |
| | | Strengthen collaboration with development partners |
| | | Improve community engagements in |

| Strategic Objective | Strategic Issues | Strategic Interventions | |
|---------------------|------------------|-------------------------------------------------------|--|
| | | programme identification and implementation | |
| | | Ring-fencing of funds for departmental programmes | |
| | | Strengthen collaboration with development partners | |
| | | Use their numerical strength to push for Youth Agenda | |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders that include relevant agencies of the national government (Ministry of Education, Universities, Colleges, KNEC etc.) who provide overall policy direction in the sector, service providers who offer critical services necessary for effective operation of the sector, members of the public who are recipients of services offered by the sector and development partners who offer budgetary support to the sector.

Description of Significant Capital and Non-Capital Development Projects

Major capital to be implemented during the period include;

- 1. Completing and equipping ongoing ECDE centres,
- 2. Constructing and equipping of new ECDE centres,
- 3. Construction of workshops and classrooms in VTCs,
- 4. Completion and equipping of workshops in existing VTCs,
- 5. Renovation of existing VTCs,
- 6. Construction of modern hostels in VTCs,
- 7. Completion of siaya stadium
- 8. Architectural design for sport talent academy at Migwena.

Significant Non-Capital projects to be implemented include;

- 1. School feeding programme for 105,000 ECDE learners,
- 2. Economic empowerment for pwds, youth and women in income generation activities
- 3. Conducting sports tournaments
- 4. Mentorship of boys and girls in sporting activities
- 5. Organizing annual lake kanyaboli half marathon

6. Provision of bursary to needy students

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various programs are as shown in the matrix below;

| Program/sub | Key Output | KPI | Target | Estimated | Source of | Implementi |

| name | | Synergies | Adverse impact | mitigate the impact |
| Vocational | | institutions and other areas of work | during the rainy period | |
| Educational and Training Development; County Social Security and Services | Agriculture, livestock and fisheries development | The department plays a key role in the production of food resources that can be used in institutions of learning, the department will play a key role in the provision of milk once the school milk programme is rolled out | The over reliance on rain fed agriculture greatly affects yields | There is need to strengthen irrigation to reduce the over reliance on rain fed agriculture |
| | Water, Environment and Natural resources | The department will provide water for use in the institutions and homes Provision of clean water for handwashing. | Weather changes affect the supply of water especially during the dry periods | Conservation measures including water harvesting to be employed |
| | Health and Sanitation | Helps in immunization, deworming and monitoring growth in the ECD children, helps in ensuring that the institutions maintain hygienic standards for habitation, helps in sensitization campaigns on HIV/AIDS Sensitization of Covid 19 regulations and protocol. | Sometimes the staff may be overwhelmed with work hence not be able to effectively deliver on the programmes | Staff in the institutions may be inducted to perform some of the functions |
| | Finance and Economic planning | Facilitates the smooth functioning of all programmes by providing the necessary financial resources, takes a lead role in guiding the preparation of the necessary statutory documents required to expend the financial resources | Delay in the release of funds for various programmes | Early requisition of the required funds |
| | ICT | Provision of internet infrastructure for online training, meetings and classes | To enable compliance with social distance | The institutions to be inducted on online training. |

3.2.6 Health and Sanitation

This sector is responsible for coordinating delivery of health services in the county. It is organized around three Divisions: public health and sanitation, medical and biomedical services and administration, planning and support services. It endeavors to provide quality healthcare to all for a competitive, healthy and productive county. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Issue | Strategic Objective | Strategic Intervention |
|-----------------|--------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| | Effective administration and | Recruitment, career growth, skills development succession planning and remuneration |
| | support services | Provide adequate office accommodation and operational equipment |
| | | Strengthen partner and resource mobilization |
| | | Improvement of technology uptake in the sector |
| | | Strengthen policy formulation and implementation framework |
| | Improvement of health | Construction of health infrastructure |
| | infrastructure | Maintenance of existing infrastructure |
| | | Renovation of existing infrastructure |
| | | Provision of medical and biomedical equipment |
| | Provision of universal | Implementation of universal health care |
| | health care | Capacity building on UHC agenda |
| | Strengthen health | Reduction of stock outs |
| | product delivery framework | Improve product storage and transport |
| | Strengthen research and uptake of ICT in healthcare delivery | Linkage with academic and Research institutions Increase ICT adoption in health provision |
| | Strengthen service delivery framework | |

Stakeholders

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders that include relevant government agencies (MoH) who provide overall policy direction in the sector, service providers who offer critical services necessary for effective operation

of the sector, members of the public who are recipients of services offered by the sector, development partners(world bank, DANIDA, UNICEF etc) and non-profit organizations(CHS,AMREF, CARE Kenya etc) who offer budgetary support to the sector.

| DANIDA | 16,470,000 | Health Centers and Dispensaries | Payment for recurrent expenditures |
| User Fee | 18,194,808 | Health Centers and Dispensaries | Payment for recurrent expenditure |
| Universal Health Care | | Community | Promotion for RMNCAH |

3.2.7 Lands, Physical Planning, Housing and Urban Development

This sector is responsible for managing public land, ensuring development control in urban spaces and development of affordable housing units in the county. It is organized around three directorates of survey, physical planning and housing and runs the following programs; General Administration, planning and support services; public land management, survey and mapping; physical planning; housing and urban development. The sector envisions sustainable land and urban management and provision of quality, adequate and affordable housing for all. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic Issues | Strategic Priorities |
|-------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Provide a suitable legal and policy environment for management and administration of land resources in the County by a skilled workforce. | Legislation and policy framework | Enactment of appropriate laws for implementation of Departments mandate Development of relevant policies to guide implementation of Departments mandate |
| | Improved institutional capacity | Recruitment of qualified staff Capacity building of staff |
| Provide a spatial framework to guide and coordinate land use, land information and sustainable development | County land management and administration | Audit and inventory of public land Establishment of manual public land database Automation of public land records Land banking Preparation of valuation rolls urban centres and markets |
| | Secure land ownership rights | To place beacons on public and community land To fence key facilities |

| Strategic Objective | Strategic Issues | Strategic Priorities |
|------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | Facilitation of the title deed acquisition |
| | Sustainable land use planning | Preparation of County spatial plan Preparation of Local Physical and Land Use development plans |
| | Planned and balanced development in urban areas and markets | Processing development applications Enforcing development control |
| Facilitate development of urban management systems and infrastructure with quality, adequate and affordable housing for all. | Improve the quality of life of the County Staff and Residents | Renovation of County Government houses Developing affordable housing units through Public-Private partnership or private investors Designing and Constructing more Houses in Core Urban Areas Use of appropriate building and technology for housing |
| | Urban Development | Delineation of urban boundaries Initiating process for conferment of urban area status Constitution of management structures including Municipality Boards and Town committees Setting up offices for Municipal boards and town committees Induction and Capacity building of Urban area management institutions Sensitization of urban development stakeholders Infrastructural development in the designated urban areas |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders that include relevant agencies of the national government (Ministry of lands, National land commission etc.) who provide overall policy direction in the sector, service providers who offer critical services necessary for effective operation of the sector, members of the public who are recipients of services offered by the sector and development partners who offer budgetary support to the sector.

Description of Significant Capital and Non-Capital Development Projects

Major capital to be implemented during the period include;

3.2.8 Siaya Municipality

This is a Semi-Autonomous Government Agency under the department of Lands, Physical Planning, Survey and Housing. It is responsible for coordinating service delivery within the jurisdiction of the municipality and is managed through a management Board. The objects of the Municipality are to provide for efficient and accountable management of the affairs of the Municipality, to provide for a governance mechanism that will enable the inhabitants of the Municipality to enjoy efficiency in service delivery, to vigorously pursue development opportunities, provide high standard services in a cost-effective manner and Foster the economic, social and environmental well-being of the community. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic objective | Strategic issue | Proposed Interventions |
|----------------------------------------------------|-------------------------------------------------------|-------------------------------------------------------------------------------------------|
| Improve urban infrastructure and management system | Urban infrastructure development and management | Amend the Municipal charter in line with the provisions of Urban area and cities Act 2011 |
| | | Develop and implement own human resource plan to address staffing need |
| | | Develop and implement OSR collection action plan |

| Strategic objective | Strategic issue | Proposed Interventions |
|-----------------------------------------------|-----------------|------------------------------------------------------------------------------------------------------------------------------------|
| Effective administration and support services | | Construct additional offices; Procure operational equipment and tools; |
| | | Optimize on existing tools and equipment |
| | | Lobby for more resources for the Municipality |
| | | Amend the Acts through the regulations to include the operations and mandate of the Municipality |
| | | Strengthen inter-departmental communications |
| | | Align the work plans to the exchequer release trends |
| | | Strengthen civic education among citizens |
| | | Review programmes and sub programmes |
| | | Develop Municipal indicator handbook |
| | | Adhere to the land use plan for the Municipality in urban development |
| Improve socio-economic | | Tarmac additional Km of roads(Data) |
| and business environment | | Repair and maintain street lights and payment of electricity bill |
| | | Increase water supply and connection |
| | | Construct modern market/ business hubs |
| | | Ensure management of recreational parks |
| | | Escalate the non motorized system |
| | | Connect sewer lines to the main trunk |
| | | Partner with KURA in improvement of roads within the Municipality; source for donor support to implement additional projects |
| | | Leverage on ICT in service delivery within the Municipality |

| Strategic objective | Strategic issue | Proposed Interventions |
|---------------------|-----------------|--------------------------------------------------------------------------------------------------------------------|
| | | Engage the political class on the roles of the Municipality |
| | | Invest more resources in improving facilities within the Municipality to meet the demand of the growing population |
| | | Invest in pandemic and disaster mitigation measures |

Key Stakeholders and their Responsibilities

The sector works in collaboration with relevant agencies of the national government (ministry of lands, housing and urban development) who provide overall policy direction for the sector and contribute towards housing development in the county, service providers who offer critical services necessary for effective operations, county government agencies who are consumers of services provided by the sector and development partners who provide budgetary support to the sector.

Analysis of Capital and Non-Capital Projects

Significant capital projects include land banking, housing development and infrastructural development of identified urban infrastructure. Non capital projects include land use planning projects, surveying and mapping of public utility parcels as well as maintenance of staff houses.

3.2.9 Enterprise and Industrial Development

Introduction

This sector is responsible for promoting large scale and Medium, small and micro enterprises and fair-trade practices and consumer protection across the county. It is also responsible for liquor licensing and alcoholic drinks control and solid waste management in the county. The sector is organized around three directorates of trade development, cooperative development and fair-trade practices together with an administrative unit that coordinates all the directorates, the sector envisions a globally competitive and sustainable Enterprise and Business environment. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic objective | Strategic issue | Proposed intervention |
|-------------------------------------------------------------|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Effective general | general | Develop and implement human resource plan |
| administration planning and support services delivery | administration planning and support services | Improve working environment Strengthen policy coordination and implementation framework |
| | | Develop and implement succession management plan Develop a framework for strengthening networks and partnerships with key stakeholders Leverage on bilateral agreements to access opportunities Invest in pandemic mitigation measure Re-align the strategic plan with the priorities on the new leadership |
| | | Enhanced sensitization forums |
| | | Public participation on departmental key activities Strengthen cyber security capacities and awareness among staff Seek enhanced budgetary allocation to the department. |
| Improve socio- | Business and | Improvement of market infrastructure |
| economic and business environment | investment environment | Capacity building for the MSMEs and Cooperative societies |
| | | Develop appropriate credit access framework |
| | | Leverage on bilateral agreements to access opportunities |
| | | Develop appropriate framework to eliminate tariff and non-tariff barriers. |
| | | Strengthen a multi-agency operation to eliminate the contraband goods |
| | | Leverage on financial institution to access credit facilities |
| | | Strengthen partnership with Law enforcement agencies to enhance conducive business environment, peace and stability |

| Strategic objective | Strategic issue | Proposed intervention |
|------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | Provide employees with regular updates on travel, safety and security advisories. |
| Improve consumer confidence on value for money | Value for money | Enforce adherence to Weights and Measures Act Cap 513 Facilitate for the approval of Weights and Measures draft policy Provide weights and measures equipment |
| Provide an enabling environment that facilitates sustainable growth of cooperative sub sector for socio-economic development | Facilitate MSMEs and Cooperative societies | Strengthen the governance structures in saccos Capacity build the SHGs and CBOs with a view of transforming them to Cooperative Societies Capacity build MSMEs and Cooperative societies Develop appropriate framework towards financing Source for funding from other partners to support Cooperative societies Leverage on bilateral agreements to access opportunities for cooperatives Intensify Cooperative Education, Training and information in the existing Cooperative Societies |
| Control and Management of alcoholic drinks and reduction of drug abuse | Management of alcoholic drinks | Mainstreaming HIV/ Other emerging issues e.g. alcohol and drug abuse |
| Improve county solid waste management system | county solid waste management | Establish designated dumpsites |

Key Stakeholders and their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders that include relevant agencies of the national government that include the Ministry of Trade and Cooperatives. Other agencies include: Kenya Bureau of Standards, KIRDI, KENINVEST, Anti-Counterfeit Agency, Competition Authority of Kenya (CAK), Kenya Consumer Advisory Committee (KECOPAC), who provide overall policy direction, stakeholders awareness campaigns, arbitration where necessary and multi-agency enforcement to enhance compliance. The Cooperative sub sector stakeholders include: KUSCCO (Kenya Union of Savings and Credit Co-operatives Ltd and Cooperatives Alliance of Kenya (CAK), who play a vital role in Cooperative's education and extensions and mobilization of resources for financing cooperatives. Other key stakeholders include National Environmental Authority (NEMA) and National Authority

for the Campaign against Alcohol and Drug Abuse (NACADA), who play a key role in policy execution in areas of waste management and alcoholic drinks control respectively.

Analysis of Capital and Non - Capital Projects

Major Capital and Non-Capital projects to be implemented in the 2022/2023 plan period include:

Significant Capital projects to be implemented include:

- 1. Refurbish office block
- 2. Construct modern washrooms in strategic markets with potential for revenue generation
- 3. Construct modern market sheds in strategic markets with potential for revenue generation
- 4. Invest in high mast market lights in strategic markets with potential for revenue generation
- 5. Enhance and promote value addition in Cooperative Societies
- 6. Enhance cooperative funding through Cooperative Development Fund
- 7. Development of Industrial Park

Significant Non-Capital projects to be implemented include;

- 1. Improved sector's legal capacity by formulating Boda Boda policy, Alcoholic drinks Control Policy and Legal Metrology policy, waste management policy, CDF regulations and Investment policy,
- 2. Recruitment and training of staff that includes the Director of Industry.
- 3. Sensitization /Awareness campaign programmes on legal metrology, Cooperative Governance and alcoholic drinks control
- 4. Undertake annual verification of traders' equipment and bi-annual calibrations of working standards
- 5. Recruitment of casual staffs for market solid waste management
- 6. Improve cooperative governance
- 7. Acquire a mobile verification Unit
- 8. Oversee the establishment Market Management Committees
- 9. Facilitation of Investment and Exhibition conferences
- 10. Maintenance of market infrastructure facilities

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various programmes are as shown in the matrix below;

3.2.10 Tourism, Culture, Arts and ICT

Introduction

The sector is mandated to promote tourism in the county, preserve cultural heritage and facilitate sports and art talent development. The sector shall promote use of Information, Communication and Technology. To attain her core mandate, the sector envisions a globally competitive tourist destination and world class ICT infrastructure facilities for sustainable socio-economic

development. The sector shall continue to establish integrated socio-economic and environmentally friendly policies and programs for hospitality, sports & arts, wildlife conservation and ICT for a vibrant economy. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic issue | Proposed Strategic Intervention | | | |
|----------------------------------------|-------------------------------|---------------------------------------------------------------------------------------------------------------------|--|--|--|
| Conserve and Promote | Cultural heritage | Cultural preservation | | | |
| cultural heritage | conservation | Promote cultural preservation initiatives including mausoleums, cultural centres, Libraries, education and symposia | | | |
| Develop, diversify, | Tourism promotion | Partner with Tourism Board to classify hotels | | | |
| promote and market Tourism Products | and marketing | Promote eco-tourism, eco-culture and eco-sports | | | |
| | | Improve access to tourism sites | | | |
| | | Market the profiled tourism products | | | |
| | | Promote homestay concept | | | |
| | | Promote Siaya as a tourist destination Diversification of tourism products | | | |
| | | | | | |
| | | Promote and Invest in domestic tourism | | | |
| | | Market Siaya County as the leading culture, tourism and sports destination | | | |
| Promote ICT-driven | ICT-driven service | Improve ICT infrastructure | | | |
| service delivery | delivery | Promote ICT in service delivery | | | |
| | | Strengthen and entrench cyber security programmes to prevent and minimise impacts of security breaches | | | |
| Promote sports and talent development | Sports and talent development | Improve sporting infrastructure Organise and conduct more sports tournament | | | |
| | | Sensitize the public on the negative effect of electronic games | | | |
| Effective administration, | Administration, | Strengthen project cycle management and embrace PPP | | | |
| planning and support | planning and | Develop and implement human resource plan | | | |
| services | support services | Strengthen policy coordination and implementation | | | |
| | | Conduct Anti-doping crusades and implement anti doping policies | | | |
| | | Align work plans to cash flow trends | | | |

| Strategic Objective | Strategic issue | Proposed Strategic Intervention |
|---------------------|-----------------|----------------------------------------------------------------------|
| | | Improve working environment |
| | | Lobby for additional budgetary allocation |
| | | Develop collaboration and partnership framework |
| | | Enhance coordination with national security agencies |
| | | Disseminate timely security information to visitors and stakeholders |
| | | Invest in pandemic and disaster mitigation measures |

Stakeholders and their Responsibility

To effectively discharge its mandate and implement its priorities the sector will collaborate with various stakeholders that include relevant agencies of the national government (Ministry of Tourism, Ministry of Sports and Culture, ICT Authority etc.) for overall policy direction; service providers who provide critical services necessary for effective operation of the sector, county government entities who are recipients of services provided by the sector and development partners who provide budgetary support to the sector.

Analysis of capital and non-capital projects for the FY 2022-2023

Major projects to be implemented in the 2022/22 plan period include:

- 1. Improve sector's legal capacity
- 2. Improve work environment ie workspaces, operational tools & equipment acquired and maintained
- 3. Tourism infrastructure development i.e., Got Ramogi Forest Phased Development, operationalization of Odera Akang'o Center
- 4. Cultural performance and exhibitions participation,
- 5. Talent identification and nurturing
- 6. Training of local guides & tourism practitioners
- 7. Classification of Siaya County Hotel
- 8. Improve efficiency through integrated on-line services
- 9. Improve access to information by the public
- 10. Development of Siaya County Stadium in phases
- 11. Operationalization of Akala Stadium

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various programmes are as shown in the matrix below;

| Programme/ Sub- Programme | Key Outputs | KPI | Time Frame | | Estimated Cost | Source of Funds | Implementing Agency | |

3.2.11: Roads, Public Works, Energy and Transport.

Introduction

This sector is responsible for providing integrated transport solutions and regulating quality in the built environment across the county. The sector envisions a premier county in infrastructure and energy. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic issue | Proposed Intervention |
|----------------------------------------------------------------|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Improve transport infrastructure and management | transport infrastructure and management | Map all county roads Conduct feasibility studies to inform project budgeting Strengthen application of modern technology in project implementation Opening, grading and gravelling of new roads Routine maintenance of existing roads Upgrading to bitumen standards of selected link roads Construction of bridges/ box-culverts Strengthen partnership with national government in road, air and water transport |
| Provide quality and standard in the built environment | Quality and safe built environment | Capacity build contractors on technical Liaise with meteorological unit before project implementation Preparation of designs and BQs for government buildings and projects Approval of all development designs Material testing Effective supervision of government buildings Inspection of buildings to conform to the designs |
| Provide sustainable energy solutions | Sustainable energy solutions | Operationalize the energy function Collaborate with Kenya Power in rural electrification Create awareness on alternative energy sources Construct energy centers |
| Effective general administration planning and support services | General administration planning and support services | Adhere to MOH guidelines in project implementation Proper planning on the development and maintenance of county roads and ARICSMonitor and Evaluate the use of County roads Recruit new and train existing staff Develop Relevant policies and legislations (Labour and Performance based roads maintenance, MTF, public transport policy, County Energy Policy) Operationalize Mechanical Transport Fund Capacity building of technical staff and contractors |

Key Stakeholders and Their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with the following agencies of the National Government (Ministry of Transport, KRB, KeRRA, KuRRA, KeNHA), service providers and development partners (ADB and World Bank). These stakeholders have diverse roles in line with the overall policy direction for the sector; they execute County Government works as per contractual obligations and provide budgetary support to the County Government among others.

Analysis of Capital and Non - Capital Projects

In the FY 2022-2023 plan period, the sector will implement the following programmes;

- 1. Open, grade and gravel 150 Km of new road
- 2. Maintain 1,900 Km of existing county roads
- 3. Tarmac 7.5 Km of county roads
- 4. Phased Construction of one county Bridge
- 5. Construct 19 box culverts
- 6. Construct and equip one energy demonstration unit
- 7. Invest in solar powered high masts

Detailed analysis of key outputs, performance indicators and tentative budgets for each of the activities under the various program are as shown in the matrix below;

| Sub program | Key Output | Key performance | Target 2022/23 | Estimated Cost | Source of | Implementing agency |

Cross - Sectoral Implementation Considerations

The department is responsible for preparing designs, bill of quantities and supervision of all county projects. Implementation of the 2022/23 roads projects shall provide access to ECDs, Health facilities, fish landing beaches, transportation of agricultural produce and inputs to ensure ease of movement in major trading centers.

| Sector name | Sector | Cross- se | ctor impact | Mitigation measures |
|--------------------------------------|------------------------|----------------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| | | Synergies | Adverse impact | |
| Roads | Water | Roads to access water sources (production plants) and pipeline roads | Interference with water pipelines | Partnering such that where infrastructural works are to be done we program for relocation of pipes if they are on road reserves |
| | Health | Roads to access Health facilities | Increased accidents due to speeding vehicles/ noise pollution | Erect bumps to slow down vehicles |
| | Agriculture | Roads to facilitate transport of crops and animals | Increased accidents due to speeding vehicles/ noise pollution | Erect bumps to slow down vehicles |
| | Enterprise | Roads for markets and beaches | Increased accidents due to speeding vehicles/ noise pollution | Erect bumps to slow down vehicles |
| | Education | Roads to education facilities | Increased accidents due to speeding vehicles/ noise pollution | Erect bumps to slow down vehicles |
| Roads, Public Works, Energy | Water (Environment) | The infrastructural development projects require to undergo EIA | Non-compliance to EMCA,2015 | Advisory circulars to all departments to ensure compliance |

3.2.12 County Attorney

Introduction

This sector is responsible for providing legal services to county government entities. The sector envisions providing quality legal services to county government entities. To ensure effective application of resources, the sector has analyzed its strategic objectives and issues, and proposed strategic interventions for addressing the issues as shown in the matrix below:

| Strategic Objective | Strategic issue | Proposed Intervention |
|------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| Provide quality legal services to the Siaya County Government and public | Reduce financial liability in all cases filed against the County government | ➤ Promote the use of ADR mechanisms in resolution of disputes |
| Facilitate effective implementation of the Constitution, National Legislation and County legislation | Harmonization of existing laws with the Constitution | > Review of the current existing Laws |
| Strengthen legal, policy and institutional framework on anti- corruption, ethics and integrity | Reduce corruption cases within the County | Enhance transparency and accountability of public officers and the private sector |

Key Stakeholders and Their Responsibilities

To effectively discharge its mandate and implement its priorities the sector will collaborate with county government entities, attorney general's office, law society of Kenya, judiciary, members of the public and service providers

Analysis of Capital and Non - Capital Projects

| Sub programme | Key Output | KPI | Target 2022/2 3 | 2022/23 | Source of Fund | Implementing agency |
|------------------------|------------|-----|-----------------|---------|-------------------|---------------------|
| Programme: Legislation | | | | | | |

| Objective: have | published count | y laws in place | | | | |
|-----------------|---------------------------------------------------------------------------|-------------------------------------------------------------------------------|----|------------|-----|------|
| Outcome: Numl | | | | | | |
| County Laws | Publication | No of bills and acts published. | 10 | 5,000,000 | CRF | CGS |
| | | Drafting and Review of MoUs and agreement | 30 | 1,000,000 | CRF | CGS |
| | Litigation | No. of matters settled out of court | 3 | 5,000,000 | CRF | CGS |
| | | No.of settled pending judgments | 3 | 20,000,000 | CRF | CGS |
| | Sub Total | | | 26,000,000 | | |

| | 1 Utai | | | 34,000,000 | | |

CHAPTER FOUR RESOURCE ALLOCATION

This chapter discusses the resource requirement for financing this annual development plan, the resource allocation criteria and proposed sectoral program allocations. The chapter further discusses how the county government is responding to changes in the financial and economic environment and the risks likely to adversely impact implementation of priorities in this document and the mitigating measures for the identified risks.

Resource allocation criteria

Resource allocation to county government entities in this document has been guided by the following criteria.

- ➤ Provision for both discretionary and non-discretionary expenditure such as Personnel Emolument (PE) and funds for routine operational requirements.
- ➤ County development priorities as espoused in the County Integrated Development Plan for 2018-2022.
- Nature of sectors. Some sectors like health are more complex in terms of functions executed and human resources requirement therefore such sectors would receive considerably more resources.
- ➤ Based on fiscal responsibility espoused in section 107 of PFMA 2012 that resources allocated to development expenditure with the medium term should be thirty percent and that total recurrent expenditure should not exceed the total revenue anticipated
- Provision for Pending Bills across sectors will also determine how resources are allocated.
 Sectors with high pending bills will be allocated more resources.

4.1 Proposed budget by Sector and Programme

The proposed total budget for the 2022-2023 ADP is Ksh. 11,324,244,754. The table below shows proposed budgets for programs in various sectors

Summary of Proposed Budget by Sector and Programs

| Sector | Programme | Amount (Ksh.) |
|--------------------------------|----------------------------------------------------------|---------------|
| | General Administration, Planning and Support services | 572,887,515 |
| Governance and Administration | Office of The Governor and Deputy Governor | 37,260,000 |
| | County Public Service and Administrative Services | 65,000,000 |
| | Public Participation and Civic Education | 14,210,000 |
| | Human capital management | 24,060,000 |
| | Strategic Monitoring and Evaluation | 24,750,000 |
| | Information Communication services | 3,650,000 |
| | Coordination of Devolved Services | 123,900,000 |
| Sub Total | | 865,717,515 |
| Office Of the county Attorney | Office Operations | 34,000,000 |
| Sub Total | | 34,000,000 |
| E' | General Administration, planning and support services | 704,393,790 |
| Finance and Economic Planning | Economic Planning and budget supply Services | 74,273,577 |
| | Financial services | 78,062,068 |
| Sub Total | | 856,729,435 |
| | General Administration, Planning and Support Services | 265,000,000 |
| Agriculture, Food, Livestock | Crop and Land Management | 504,000,000 |
| and Fisheries Development | Fisheries Management and Development | 100,000,000 |
| 1 | Livestock Management and Development | 135,000,000 |
| | Veterinary Services | 85,000,000 |
| Sub Total | , | 1,089,000,000 |
| | Water Resources Development and Management | 162,000,000 |
| Water, environment and Natural | Natural resources conservation and management | 24,500,000 |
| Resources | General Administration, planning and Support services | 48,600,000 |
| Sub Total | 501,1005 | 235,100,000 |
| Sub Total | County-Pre- Primary Education | 456,000,000 |
| Education, Youth Affairs, | Vocational Education and Training Development | 101,500,000 |
| Gender, Sports and Social | County Social Security and Service | 21,000,000 |
| Services | General Administration Planning and Support Services | 211,988,000 |
| | Sports talent development and management | 454,245,000 |
| Sub Total | Sports tarent development and management | 1,244,733,000 |
| | Curative, Rehabilitative and Referral Services | 475,000,000 |
| | Preventive and promotive Health Care services | 269,559,700 |
| Health and Sanitation | General Administration Planning and Support Services | 1,894,836,474 |
| | Waste Management | |
| Sub Total | | 2,639,396,174 |
| Lands, Physical Planning, | General Administration, Planning and Support Services | 114,163,630 |
| Urban Development and | County Land Administration and Surveying | 153,500,000 |
| Housing | Land Use Planning | 36,000,000 |
| | Housing and Urban Development | 137,000,000 |
| Sub Total | | 440,663,630 |
| Siaya Municipal Board | General Administration, Planning and Support Services | 40,000,000 |
| | Resource mobilization | 30,000,000 |
| | Urban infrastructure development, beautification | |
| | and management | 170,000,000 |

| Sector | Programme | Amount (Ksh.) | |
|----------------------------------------------|----------------------------------------------------------|----------------|--|
| | Environment and Social Services | 30,000,000 | |
| Sub Total | | 270,000,000 | |
| | Trade Development and Promotion | 184,150,000 | |
| | Cooperative Development and Management | 116,335,000 | |
| | Promotion of Fair-Trade Practices and Consumer | 9,300,000 | |
| Enterprise and Industrial | Protection | | |
| Development | General Administration, Planning and Support Services | 96,520,000 | |
| | Waste Management | 78,000,000 | |
| | Liquor licensing | 17,300,000 | |
| Sub Total | | 501,605,000 | |
| | Tourism Development and Promotion | 206,000,000 | |
| Tourism, Culture, Arts and ICT | General Administration, planning and support services | 90,000,000 | |
| Sub Total | | 296,000,000 | |
| | Transport Infrastructure Development | 2,500,000,000 | |
| Doods Dublic Works Engage | County Government Building Services | 216,800,000 | |
| Roads, Public Works, Energy and Transport | Energy Sector Management | 26,000,000 | |
| | General Administration, planning and Support services | 108,500,000 | |
| Sub Total | | 2,851,300,000 | |
| Total | | 11,324,244,754 | |

4.3 Financial and Economic Environment

The CADP 2022-2023 envisages unfavorable macroeconomic conditions likely to be occasioned by high borrowing by the National Government, transitions between governments as a result of General Elections, high employment rate in the country and effects of Covid-19. The county will therefore put strategic measures to mitigate the anticipated conditions. These strategic measures will include; partnering with other stakeholders in implementation of projects and programmes, enhancing own source revenue, implement change management strategy, provide employment opportunities through implementation of projects and programmes and prioritize covid-19 mitigation measures. The county will also implement the policy shift that directs priority to be given to completion of ongoing projects and ensure operationalization of existing projects.

The county expects to finance its priority areas from the National Government exchequer, support from development partners and own source revenue.

4.4 Risks, Assumptions and Mitigation measures

This section discusses risks that may be experienced during the ADP implementation and the necessary measures various sectors have put in place to remedy such risks. In addition, there are certain assumptions the sectors have also put forward in the implementation of the ADP as shown in the table below

Risks, Assumptions and Mitigation measures

| Sector | Risks | Mitigation Measures |
|-------------------------|-----------------------------------------------|---------------------------------------------|
| Governance and | Late exchequer release | There is need to observe timely |
| Administration | | disbursements to the Counties |
| Finance and Economic | Late exchequer release | Align work plans and cash flows to |
| Planning | | exchequer release trends |
| | Unmet OSR | Implement own source revenue |
| | | enhancement strategy |
| | Non disbursement of conditional grants by | Revise the budget to address budgetary |
| | development partners | deficit |
| Agriculture, Food, | Uncertainties in funding | Public Private Partnership |
| Livestock and Fisheries | Uncertainties in cash flow | Effective Forecasting and projections on |
| Development | | funds required |
| | Climate change | Climate smart technologies |
| | Pest and disease outbreaks | Pest and disease control |
| Roads, Public Works, | Loss and damage by fire, Flood, | Insurance of the works |
| Transport and | earthquake, storm etc | Disaster management/ emergency fund |
| Infrastructure | Delays due to non-performance by the | Performance Bond |
| | contractors | |
| | Defective works | 10% Retention |
| | | Certificate of making good defect |
| | Stalled/ abandonment of projects due | Adequate and early disbursement of funds |
| | Inadequate/ Delayed funding | |
| Tourism, Sports, | Poor workmanship | Enhanced supervision in coordination |
| Culture and Arts | | with relevant departments |
| | Community hostility | Enhanced public participation |
| | No budgetary allocation | Lobbying with the relevant stakeholders |
| | | and treasury to ensure allocation is made |
| | Inadequate budgetary allocation | Ensure allocation is made according to the |
| | | planned activities |
| | Climatic conditions | Develop workplan that take into |
| | | consideration bad weather conditions. |
| | Frustrated projects | Enhanced supervision in coordination |
| | | with relevant departments |
| Education, Youth | Vandalism of the projects | Sensitization of the community (Public |
| Affairs, Gender and | | Participation) |
| Social Services | Initiating projects without compliance to all | Ensure that all Government regulations |
| | regulations | are adhered to (ie NEMA approvals) |
| | Parents not keen on paying school fees for | Public participation and sensitization that |
| | their children | the County Government is playing a |
| | | helping role and not overall responsibility |
| Enterprise and | Untimely enactment of relevant Acts | Timely formulation, presentation and |
| Industrial Development | | processing of the bills and policies |
| | Inconsistent project | Timely procurement and execution of |
| | implementation/management | projects |
| | Loan default | Sustained supervision and strict adherence |
| | | to lending requirements |
| Governance and | Lack of Funding | There is need to observe timely |
| Administration | | disbursements to the Counties |

ANNUAL DEVELOPMENT PLAN

| Sector | Risks | Mitigation Measures |
|------------------------|-------------------------------------|--------------------------------------------|
| Lands, Physical | Changes in the supplementary budget | Preparation of work-plans and |
| Planning, Housing and | | implementing expeditiously |
| Urban Development | Cash flow from the treasury | Preparation of work-plans and |
| | | implementing expeditiously |
| | Lack of means of transport | There is a budget to purchase a vehicle |
| | | |
| Water, environment and | Vandalism of Water project | Sensitize the public on project to enhance |
| Natural Resources | | ownership |
| | Land ownership where projects are | The public will be sensitized to |
| | implemented | understand the importance of transferring |
| | | ownership |

CHAPTER FIVE:

MONITORING AND EVALUATION

5.1 Introduction

The Monitoring and Evaluation (M&E) system is coordinated through the Office of the County Secretary. It is used to guide overall development and review of the county M&E plans, tools and policies, tracking progress on implementation of county interventions, Key performance Indicators (KPI), synthesis and analysis of data for summary and thematic reports on M&E findings and the development and implementation of policy, system and appropriate tools to promote organizational learning and documentation.

The M&E system has also been mainstreamed in Departments through the establishment of M&E focal units. Each department is therefore required to prepare periodic progress reports on program implementation, in addition, there is the Governor's Service Delivery Unit, which is responsible for ensuring accelerated service delivery. The unit tracks progress in program implementation, and identifies and addresses institutional bottlenecks that may hamper service delivery within the agreed timelines.

5.2 Data Collection, Analysis and Reporting Mechanism

ADP is a policy document that is used to implement the County Integrated Development Plan (CIDP). Tracking progress on implementation of ADP starts with collecting and analyzing data on the extent to which the planned activities are included in the annual programmed based budget (APBB). From the budget, progress of implementation of ADP targets will be conducted at departmental levels and periodic progress reports prepared.

To ensure evidence-based reporting, data will be collected from the lowest unit through a standard data collection tool.

Reporting Flow Chart

Data will be collected on indicators to measure progress and trends in the short and medium-term at three levels (input, output, and outcome). Implementation units will systematically collect

qualitative and quantitative data on progress of implementation against the planned targets. Data will be collected on project, policy and programme implementation periodically.

The following reports will be prepared to track implementation of the plan:

Monthly Departmental Reports: Report on selected indicators to inform management on progress Quarterly Departmental Activity Plan Reports: Reports on implementation of Departmental work plan

Annual Departmental Activity Plan Reports: Comprehensive report on implementation of Departmental work plan/ programs

Special reports: These are reports to facilitate decision making on a need basis. To be submitted as directed in the request for the report.

County Annual Progress Report (CAPR)
