

## MSEs' Business Environment in Kiambu County

### Introduction

The County Business Environment for MSEs (CBEM) framework was first developed by KIPPRA in 2019 to provide a tool for monitoring the process of improving business environment for growth and survival of MSEs. The four areas of focus were worksites and related infrastructure, market environment, technical capacity, and governance and regulatory framework. An improvement has been done to capture emerging issues that affect MSEs business environment. Thus, the CBEM 2022, has additional indicators including, internet connectivity within the worksites, trade participation in market environment and participation in policy and regulatory framework formulation under governance and regulatory framework.

Further, two broad areas on financial inclusion and risk preparedness and management are included. This policy brief summarizes the MSEs business environment in Kiambu County, spotlights the related constraints, and highlights the relevant policy interventions. The research on the CBEM and associated output reported here demonstrate the role of KIPPRA, as a think tank and research intermediary, in fundamentally fostering the interconnectivity of research stakeholders in order to strengthen the research ecosystem in Kenya. This policy brief also exemplifies the role of KIPPRA in promoting research take-up to support the devolved system of government in Kenya.

Figure1: Kiambu County demographics and output

### MSEs Sector

- County Governments are mandated by the constitution to promote MSEs activities through trade development and regulation including market and trade licences and fair-trading practices. Also, County Governments have a role in physical planning and housing and public works and utilities which have direct effect on MSEs business environment.
- The Sessional Paper No. 05 of 2020 on the Kenya Micro and Small Enterprises is the guiding policy for the sector.
- Credit guarantee scheme was launched on December 8th, 2020, to facilitate MSEs' access to quality and affordable credit.
- MSEs with annual turnover of more than Ksh 1,000,000 but less than Ksh 50,000,000 are eligible for Turn Over Tax payable at 1% monthly gross turnover.

- MSEs constitute over 7.4 million of private enterprises contributing to 24% of GDP (MSME Survey, 2016).
- About 92% of all business in Kenya are MSEs constituting 95% of manufacturing enterprises (MSME Survey, 2016).
- MSEs sector employs over 14.9 million accounting for 93% of total labour force in the economy (MSME Survey, 2016).
- Youth (18-35 years) and female account for 36% and 47% of persons employed by MSEs in Kenya (MSME Survey, 2016).
- Overall, the Kiambu County demographics and output are reported in Figure 1, while the County scores are presented in Figure 2.

## Challenges of MSEs

- MSEs activities are highly vulnerable to external risks, shocks, and hazards.
- MSEs have inadequate incentives to formalize.
- Most MSEs close shop within five years of establishment.
- MSEs sector faces weak coordination and implementation of policies and programs.
- Most MSEs have restricted access to non-collateralized, low-cost, and long-term finance.

## MSEs Business Environment

The scores for MSEs business environment are drawn from the CBEM (KIPPRA, 2022). The MSEs business environment is assessed using the following broad areas: worksites and related infrastructure; market environment; technical capacity; governance and regulatory framework; risk preparedness and management, and financial inclusion of MSEs. The scores range between lowest (0) and highest (100). Kiambu County scored a total of 34.67.

Figure 2: Kiambu County scores

## Worksites and Related Infrastructure

### Scores

- Access to worksite: 50.11
- Access to common manufacturing facilities: 18.10
- Electricity connection: 34.13
- Water connection: 11.41
- Public toilets: 50.31
- Waste management: 41.13
- Internet connection: 6.26

### Constraints

- Inadequate common manufacturing facilities
- Limited electricity connection.
- Delays in water connection in the worksites
- Low internet connectivity due to high costs

## Market Environment

### Scores

- Access to Government Procurement Opportunities (AGPO): 1.43
- Ease of access to road infrastructure: 82.22
- Access to market: 71.84
- Unfair competition practices: 40.05
- Quality of support infrastructure: 47.00
- Trade participation: 12.03

### Constraints

- Low uptake of AGPO due to low awareness
- High levels of unfair competition practices manifested majorly through misinterpretation, counterfeiting, dumping and false advertising
- Inadequate support infrastructure in the market
- Low trade participation due to few approaches used towards promoting local and international trade

## Technical Capacity

### Scores

- Training (capacity building): 15.83
- Coping with new technological trends: 31.95
- Knowledge and skills gap: 56.04
- MSEs survival rate: 59.71
- Access to incubation services: 11.56
- Innovations: 0.32
- Patenting: 0.36

### Constraints

- Limited skills
- Low rate of understanding and adaptation of new technology
- Inadequate incubation services
- Low uptake of innovation and patenting

## Governance and Regulatory Framework

### Scores

- Licensing and issuance of permits: 35.58
- Corruption manifestation: 52.79
- Crime and public security: 74.61
- Self-regulation: 84.31
- Policy and regulatory framework: 15.53

### Constraints

- High cost of acquisition and renewal of licenses and permits
- High levels of corruption within the worksites
- Inadequate awareness on existing policies and laws and low participation in their formulation

## Risk Preparedness and Management

### Scores

- Status of risk preparedness and management: 24.48
- Knowledge and uptake of social security: 36.71

### Constraints

- Insufficient risk preparedness and management and low uptake of social security including health and business insurance

## Financial Inclusion

### Scores

- Access to savings and credit facilities: 14.79
- Financial innovation literacy and use: 38.68
- Taking advantage of the Credit Guarantee Scheme: 20.74

### Constraints

- Undiversified access to financial services
- Limited awareness on Credit Guarantee Scheme

### Note

1. A higher score on unfair competition practices indicates existence of few such practices.

## Policy-cum-Practice Interventions for Creating an Enabling Business Environment

1. **Worksites and Related Infrastructure**
  - County Government to enhance partnership with Micro and Small Enterprises Authority and other relevant stakeholders to provide adequacy of common manufacturing facilities and upgrade the worksites with electricity connection, accessible water supply and internet connection.
2. **Market Environment**
  - County Government to partner with The National Treasury to enhance awareness and uptake of AGPO.
  - County Government to enhance the mechanisms to protect MSEs against unfair competition by partnering with Competition Authority of Kenya, Anti-Counterfeit Agency, Kenya Revenue Authority, and other relevant authorities to curb practises such as dumping, misrepresentation, false advertising, and counterfeiting.
  - County Government in collaboration with relevant key stakeholders to enhance provision of quality infrastructure within market including roads and other necessary amenities to support MSEs market activities.
  - County Government to enhance collaboration with State Department for Trade and other relevant stakeholders, to promote cross county and international trade for MSEs.
3. **Technical Capacity**
  - County Government to collaborate with Kenya Institute of Business Training, National Industrial Training Authority, and other relevant stakeholders to offer training and certification to MSEs to strengthen their skills development.
  - County Government to collaborate with relevant stakeholders, both government organizations such as Kenya Industrial Research and Development Institute, Kenya Industrial Estates and Kenya Industrial Property Institute and other non-government stakeholders to ease access of incubation centres to enhance innovation and patenting.
4. **Governance and Regulatory Framework**
  - County Government to endeavour to offer affordable acquisition and renewal of licenses and permits fees.
  - County Government to enhance collaborations with Ethics and Anti-Corruption Commission, National Police, and other relevant stakeholders in addressing corruption.
  - County Government to create awareness on existing policies, and legislative framework and enhance participation of MSEs in the policy formulation process.
5. **Risk Preparedness and Management**
  - County Government in collaboration with other relevant stakeholders to build capacity for MSEs in their preparedness and management of risks and create awareness on social security including health and business insurance hence uptake.
6. **Financial Inclusion**
  - County Government to partner with formal financial institutions to promote financial literacy and use of non-traditional collaterals and enhance uptake of alternative sources of finances for MSEs.
  - County Government to partner with formal financial institutions to promote financial literacy among the MSEs, promote uptake of non-traditional collaterals and enhance uptake of alternative sources of finances for MSEs.

## Acknowledgement

KIPPRA wishes to acknowledge funding of the CBEM work by the Research and Innovation Systems for Africa (RISA) Fund, a multi-country project funded by the U.K. Foreign, Commonwealth and Development Office (FCDO) focusing on strengthening research and innovation systems in target countries, combining the fund manager requirements of two funds under the RISA umbrella: Strengthening Research Institutions in Africa (SRIA) and African Technology and Innovation Partnerships (ATIP). KIPPRA also thanks the RISA Fund team as well as the FCDO team who worked closely with KIPPRA colleagues and the research stakeholders in Kenya – the collaboration made it possible to deliver a high quality project on time.

### About KIPPRA Policy Briefs

KIPPRA Policy Briefs are aimed at a wide dissemination of the Institute's policy research findings. The findings are expected to stimulate discussion and also build capacity in the public policy making process in Kenya.

KIPPRA acknowledges generous support from the Government of Kenya, and development partners who have continued to support the Institute's activities over the years.
