The County Assembly of Kiambu utilized its 2019/20 budgetary resources to implement its various programmes and activities. A wide range of outputs were realized conducting capacity building forums, report writing and passing of bills. The process of constructing ward offices also kicked off.

- viii. Construction of a banana collection centre at Marigi in Komothai ward
- ix. Procurement and distribution of 160,000 sweet potato vines to farmers across the county

Some of challenges experienced include inadequate rainfall during the short rains which affected crop performance and yield, outbreak of fall army worm across the county which affected cereals, inadequate transport thus affecting mobility of extension officers, high urbanization rates and industrialization diminishing land sizes and low level of value addition among others.

During the MTEF period 2020/21-2022/23, the department intends to implement the big 4 agenda on food security and nutrition. Completion of the ongoing infrastructural development will be undertaken, procurement of more vehicles to reach farmers with extension services, procurement and distribution of quality maize and bean seeds to farmers, improve accessibility to quality and affordable agricultural inputs as well as completing the initiated irrigation projects. This will not only increase production and productivity but will also increase farmers' income. In addition, it will also coordinate implementation of programmes and projects through establishment of sector working groups and agricultural committees, upgrade Waruhiu ATC and revitalize Agricultural Mechanization Services (AMS). Value addition and Agro processing of agricultural produce and development of Agribusiness market and value chain development will also be carried out.

Developed the draft Climate Change policy ,undertaken sustainability audits (with a focus on energy use) in county premises in all the sub county offices, Mapped and undertaken energy needs assessment in learning and health institutions and informal settlements and Initiated the process of establishing a County Climate Change Coordination Unit (CCCU).

However, the department faced the following challenges of inadequate budgetary allocation to fund projects and programs, delayed funding, Low level of awareness by the community in matter related to environment laws and policies, big expectation gap by the community, Illegal dumping of waste in all the sub-counties, overlapping mandates between county and National government institutions e.g. KFS, NEMA and WRA, Inadequate technical staff to coordinate and

implement climate change and natural resources and forestry activities at the Sub-County level and Lack of space for establishment of Climate Change Coordination Units/ Resource centers that need to be established at ward levels

Moreover, the FY 2020/2021 budget will enhance provision of Water, supplies and distribution, facilitate drilling and equipping of boreholes, completion of the incomplete projects, and enhance solid waste management in the county, sewerage extension networks, construct, rehabilitate and refurbish of sanitation blocks, procure storage tanks, 25 No. of skips and refurbish garbage trucks, establishment of tree nurseries, rehabilitation of abandoned quarries, purchase and planting of tree seedlings while focusing on renewable energy and climate change initiative.

## 4068000000 HEALTH SERVICES

### Constraints & challenges

- Non-communicable diseases (NCDs) such as cancer, hypertension, heart diseases and diabetes are on a rising trend and exerting pressure to the health systems. This was confirmed by the STEPS survey commissioned by the Health sector to determine the levels of NCDs in the population. The survey results show huge disease burden attributed to NCDs.
- Childbirth related conditions continue to pose significant challenges, especially inadequacy of emergency services for delivery, under-utilization of existing antenatal services and inadequate skills and competences of health workers in this area
- There is low uptake of reproductive health services in the county due to; social cultural, political influence, lack of information coupled with misinformation and inadequate supply of RH commodities in the health system.
- The sector faces emerging and re-emerging threats of diseases such as Covid -19, health workers unrest which has a direct impact on service delivery as well as negatively impacting on the gains made in health outcomes
- High out of pocket expenditure on health continues to be a major issue. Public spending has been skewed towards high-end curative services which are both inefficient and inequitable.
- Health Infrastructure: There is lack of adequate physical space for treatment and management of patients to fully benefit from the planned UHC rollout and Managed Equipment Services placements done at Thika, Kiambu and Gatundu level 5 hospitals. In addition, timely rehabilitation and supportive maintenance remains a key challenge.

There also exists obsolete health equipment that requires replacement with modern ones.

- Health research and development: Funding for health research remains donor-driven, fragmented and uncoordinated. Currently, research is conducted, managed, and financed by a diverse number of organizations. In addition, research agenda priority setting at both the national and international level is not based on evidence based requirements. There is limited accountability and impact analysis of research on the critical health needs. This

## **4068000000 HEALTH SERVICES**

leads to low levels of impact on investment in research productivity and overall improvement of health standards and evidence based decision and policy making.

- Health Management Information System: The sector has disparate reporting systems (iHRIS, LMIS, DHIS-2, EMRS etc.) that are underfunded and lack adequate capacity to analyze major health issues. This has led to inadequate use of available data to inform policy planning both at the national and county level. In addition, reporting from the private healthcare providers is also weak. Innovations in e-health have remained at pilot level with none going to scale due to lack of funding. Poor Interoperability among independent data management systems also poses a challenge in management of Health data.
- Severe human resource for health shortage; many officers are exiting the service through retirements, deaths, resignations, search for greener pastures. Replacements are not forthcoming following the austerity measures put by finance department which included freezing of new recruitment of staff.
- Delays in reimbursement of revenue collected by the Level 5 and 4 hospitals. These include Facility Improvement Fund (F.I.F) and NHIF hence hampering smooth operations.
- The department lacks adequate vehicles in terms of ambulances and utility vehicles. This has hampered support supervision across the 12 sub counties. There are only 10 serviceable ambulances hence challenges in picking patients from lower facilities to county referral hospitals. Upward referrals to Kenyatta National Hospital are occasionally delayed hence bad health outcomes.

### **Major services to be provided**

Priority in resource allocation for will be based on the following:-

- Scaling up Universal Health Coverage (UHC) in line with the big four Government Agend
- Improving quality of healthcare through the revamping and expansion of health infrastructure
- Building capacity in human resources for health at all levels of the healthcare system.
- Ending AIDS, TB, Malaria and NCDs as a public health threat by 2030.

## 4068000000 HEALTH SERVICES

- Increase access to County referral health facilities and specialized services, including mental health and other specialized health services.
- Strengthening health research
- Enhance norms and standards and regulations in Kiambu County.
- Promote automation and interoperability of Healthcare Services in Kiambu County and strengthening of Health Information Systems (HIS) and Community Health Information Systems
