## **FOREWORD**

The 2017/18 Nyeri County Annual Development Plan is prepared in accordance with the requirements of the Public Finance Management Act 2012; section 126. This Annual Development Plan (ADP) is framed against a broad fiscal policy and reform measures underpinning the budget for the year FY 2017/18, outlining expenditures on priority projects and programmes and allocating resources according to each department's development direction.

This Annual Development Plan gives priority to programmes and projects aimed at scaling up levels of investment in economic and social infrastructure, supporting rapid economic growth and development, creation of employment opportunities, and uplifting the wellbeing of the most vulnerable members of the society.

Nyeri County faces myriad of challenges among them inaccessibility to credit facilities, inadequate rainfall, undeveloped marketing systems, limited access to ICT services, limited tourist class hotels, limited processing industries, increased number of OVCS and street families, insecurity incidences, increased gender based violence , environmental degradation, unsustainable water resource management practices, inadequate sanitation facilities in urban areas, poorly planned and inaccessible housing in informal settlements, and lack of mechanism of sharing of tourism revenue between the National and County government.

The Annual Development Plan is premised on the following County Strategic objectives:

- ❖ To improve road infrastructure for effective service delivery;
- ❖ To ensure value addition on our agricultural products for increased incomes;
- ❖ To ensure efficiency and effectiveness in public service delivery;
- ❖ To enhance service delivery by use of modern ICT;
- ❖ To improve health service delivery through community based approach;
- ❖ To cushion the poor against the social economic challenges.

Dr. Charles G. Githinji, PhD.

Ag. County Executive Secretary

**Finance and Economic planning**

## **ACKNOWLEDGEMENTS**

The preparation of the 2017/2018 County Annual Development Plan was participatory where all the County Departments were actively involved as it was the case with the preparation of the CIDP2013-2017. They provided their departments' priorities for the year 2017/2018 towards the achievements of the CIDP objectives. We do appreciate and recognise the role played by the County Executive Committee Members and all the Chief Officers towards the preparation of the County Annual Development Plan (ADP) 2017/2018.

We also appreciate the support from the entire staff of the County Government as in one way or another they have contributed in the production of this important blue print in the development of our county. Special gratitude goes to the following officers in the department of Finance and Economic Planning: Mr. Gibson T. Mwangi, Mr. Elvis M. Mundanya and Mr. Chris G. Muguro who steered the whole process of data collection, analysis, compiling and editing the CADP. Special thanks also go to Dr. Charles Githua Githinji, PhD, Ag. County Executive Committee Member-Finance and Economic Planning, Mr. Richard Kimani, Ag. Chief Officer – Finance and Accounting for their continued technical guidance during the entire process.

We are grateful for the support given by the various government agencies in providing the relevant data required. We also appreciate the role played by all stakeholders in different capacities. The ADP will play an important role in allocation of resources during the budgeting process for the year Financial Year 2017/2018.

The department will be preparing quarterly reports on progress made under this fourth CADP which will be shared with the Executive Committee, the Controller of the Budget, County Assembly, and the public. This is expected to promote efficiency and accountability in planning and implementation process.

**Francis M. Kirira**  
**Chief Officer, Economic Planning, M&E**

## **EXECUTIVE SUMMARY**

The 2017-2018 County Annual Development Plan (CADP) has been prepared in accordance with the policies stipulated in the County Integrated Development Plan 2013-2017. It is also aligned to departmental strategic plans and the aspirations of the Kenya Vision, 2030. It is organized in five chapters;

*Chapter one* gives the background information on the socio-economic and infrastructural aspects that has a bearing on the development of the county. The chapter provides a description of the county in terms of the location, size, physiographic and natural conditions, demographic profiles as well as the administrative and political units.

*Chapter two* provides the highlights of socio-economic development, challenges, and cross-cutting issues in the county.

*Chapter three* outlines the resource mobilization process; county expenditure; finance management; challenges likely to be experienced and the possible solutions.

*Chapter four* indicates sector vision and mission, sector development direction and projects and programmes to be implemented by the county departments, as envisaged in the fourth schedule of the Constitution of Kenya, 2010. These include; ongoing projects and programmes, new project proposals and their estimated cost.

*Chapter five* provides the monitoring and evaluation framework that will assist in assessing implementation of the ADP. The ADP provides county strategic priorities for the fiscal year 2017/2018 and reflects on our policy direction which is mainly to devote more resources towards infrastructure development.

**Legal Basis for the County Annual Development Plan (ADP)**

***It is prepared in reference with the following article of Public Finance Management Act (PFM) 2012***

126. (1) Every county government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes—

- (a) Strategic priorities for the medium term that reflect the county government's priorities and plans;
- (b) A description of how the county government is responding to changes in the financial and economic environment;
- (c) Programmes to be delivered with details for each programme of-
  - (i) The strategic priorities to which the programme will contribute;
  - (ii) The services or goods to be provided;
  - (iii) Measurable indicators of performance where feasible; and
  - (iv) The budget allocated to the programme;
- (d) Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;
- (e) A description of significant capital developments;
- (f) a detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;
- (g) A summary budget in the format required by regulations; and
- (h) Such other matter as may be required by the Constitution or this Act.

(2) The County Executive Committee member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations.

(3) The County Executive Committee member responsible for planning shall, not later than the 1<sup>st</sup> September in each year, submit the development plan to the county assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury.

(4) The County Executive Committee member responsible for planning shall publish and publicise the annual development plan within seven days after its submission to the county assembly.

## **CHAPTER ONE**

### **COUNTY GENERAL INFORMATION**

#### **1.0 Introduction**

This chapter gives the background information on the socio-economic and infrastructural aspects that has a bearing on the development of the county. The chapter provides a description of the county in terms of the location, size, physiographic and natural conditions, demographic profiles as well as the administrative and political units.

#### **1.1 Position and Size**

Nyeri County is located in the central region of the country covering an area of 3,337.2 Km<sup>2</sup>. Its headquarters is Nyeri town 150 Km from Nairobi. It lies between longitudes 36°38" east and 37°20" east and between the equator and latitude 0° 38' south. It borders Laikipia County to the north, Kirinyaga County to the east, Murang'a County to the south, Nyandarua County to the west and Meru County to the northeast.

**Figure 1: Location of the County in Kenya**

## **1.2 Physiographic and Natural Conditions**

### **1.2.1 Physical and Topographic Features**

The main physical features of the county are Mount Kenya (5,199m) to the east and the Aberdare ranges (3,999m) to the west. The western part of the county is flat, whereas further southwards, the topography is characterized by steep ridges and valleys, with a few hills that affect the pattern of rainfall. The major rivers and the numerous streams found in the county, if well tapped, can make the county to be self-sufficient in water resources for domestic, agriculture and industrial development.

### **1.2.2 Climatic Conditions**

The county experiences equatorial rainfall due to its location within the highland zone of Kenya. The long rains occur from March to May (between 1,200mm-1,600mm), while the

short rains come in October to December (between 500mm-1,500mm), but occasionally this pattern is disrupted by abrupt and adverse changes in climatic conditions. The county register's monthly mean temperature ranging from 12.8°C to 20.8°C and lies between 3,076 meters and 5,199 meters above sea level.

### **1.3 Administrative and Political Units**

#### **1.3.1. Administrative Units**

Nyeri County is divided into sub-counties, divisions, locations and sub-locations. The county has eight administrative sub counties that includes; Kieni East, Kieni West, Mathira East, Mathira West, Nyeri Central, Mukurweini, Tetu and Nyeri South. The county is further subdivided into 21 divisions, 69 locations and 253 sub-locations.

**Table 1: Area of the County by Administrative Sub-Counties**

<b>Sub County</b>	<b>Area (Km<sup>2</sup>)</b>	<b>Divisions</b>	<b>Locations</b>	<b>Sub-locations</b>
Mathira East	131	4	16	44
Mathira West	165.6	3	9	31
Kieni West	623.3	2	6	26
Kieni East	817.1	2	12	39
Tetu	217.5	2	8	35
Mukurwe-ini	178.6	4	15	32
Nyeri central	167.8	1	4	22
Nyeri south	174.5	3	13	28
<b>TOTAL</b>	<b>*2,475.5</b>	<b>21</b>	<b>83</b>	<b>257</b>

**Source: County Commissioner's Office, Nyeri, 2016**

*\*The total area excludes Mt. Kenya and Aberdare Forests measuring approximately 861.7 Km<sup>2</sup>*

#### **1.3.2 Political units**

The county is divided into six constituencies and 30 electoral wards. The wards are distributed as indicated below.

**Table 2: County Electoral Wards by Constituency**

<b>Constituency</b>	<b>Electoral wards</b>
Mathira	6
Kieni	8
Tetu	3
Mukurwe-ini	4
Nyeri town	5
Othaya	4
<b>Total</b>	<b>30</b>

### **1.3 Demographic Features**

The county has a population projection of 720,708 and 724,167 in 2017 and 2018 respectively. The population growth rate in the county is estimated at 0.48 per cent against the national average of 3.0 per cent and 1.6 per cent for the region.

#### **1.4.1 Population Density and Distribution**

Generally, there are two types of settlements in the county; clustered and scattered. Clustered settlement patterns are mainly found around towns and horticulture producing areas. Scattered settlement patterns are mainly found in Kieni Sub County which is semi-arid. This is mainly due to ecological factors since most people usually settle in fertile lands with adequate rainfall.

Table 3 shows population distribution and density by Sub- County. It provides the data for 2009 census and projections up to the year 2017. The density is largely determined by the type of settlement.

**Table 3: Population Distribution and Density by Sub- Counties**

Sub-County	2,009		2013 (Projections)		2016 (Projections)		2017 (Projections)		2018 (Projections)	
	Pop	Density (Km <sup>2</sup> )	Pop	Density (Km <sup>2</sup> )	Pop	Density (Km <sup>2</sup> )	Pop	Density (Km <sup>2</sup> )	Pop	Density (Km <sup>2</sup> )
Tetu	78,320	360	79,838	367	80,995	372	81,386	374	81,777	376

## **1.5 Infrastructure and Access**

### **1.5.1 Road, Rail Network, Airports and Airstrips**

The county currently has 3,092.73 Km of classified roads with 450 Km of bitumen, 2,094.39Km gravel and 548.34 Km earth surface. The table below shows the categories of various roads by road surface since 2013 to date.

Category of Road Surface by Type	2013	2014	2015	2016
Bitumen	450	450	450	450
Gravel/Murram	1,390.59	1,554.39	1,794.39	2,094.39
Earth	1,252.14	1,088.34	848.34	548.34
<b>TOTAL</b>	<b>3,092.73</b>	<b>3,092.73</b>	<b>3,092.73</b>	<b>3,092.73</b>

*Source: County department of infrastructure development, 2016*

In order for the roads to be fully utilized, bridges and culverts have been constructed at various crossing points. The county has three airstrips that also serve to hasten movement and enhances tourism. There are three railway stations which are not functional.

### **1.5.2 Financial Institutions**

The county has fairly distributed financial institutions which includes; 10 commercial banks, nine micro-finance institutions and 10 insurance companies with their branches in the county.

### **1.5.3 Education Institutions**

The County has 550 primary schools (private and public) with a total enrolment of 141,243 comprising of 71,854 boys and 68,585 girls. Secondary schools in the county are 227 (most of them being public; 204), with a total enrolment of 33,675 boys and 34,339 girls. There are 761 ECD centers where 452 are public and 309 are private. There are two university, five university affiliates, one national polytechnic, two technical training institutes, three teachers' training colleges, five medical training colleges and 49 youth polytechnics.

### **1.5.4 Energy Access**

The county has a total of 208 trading centers and 214 secondary schools connected with electricity. There are also 150 health facilities connected with electricity.

The table below shows the electricity connectivity within the county.

<b>Category</b>	<b>2013</b>	<b>2015</b>	<b>2016</b>
No trading centres connected with electricity	112	208	208
No. of Health facilities connected with electricity	51	141	150
No. of secondary schools connected with electricity	170	<b>214</b>	<b>214</b>
No. of Primary schools connected with electricity		<b>371</b>	<b>371</b>
No. of Kilometers of street lighting	<b>12</b>	<b>42</b>	<b>57</b>
No. of High mast lighting	<b>15</b>	<b>55</b>	<b>55</b>
No. of households connected with electricity	<b>52,263</b>	<b>86,000</b>	

**Source: County Department of Energy, 2016**

### **1.5.6 Markets and Urban Centre's.**

In Nyeri County, there are 208 trading centers with 14,010 registered retail traders and 274 wholesalers. Most of the traders are small scale dealing with locally produced merchandise for household consumption.

### **1.5.7 Housing**

The main types of houses in the county are individual, national and county government-owned. The cost of construction is very prohibitive leading to the presence of informal settlements among the low income earners in the county.

### **1.5.8. Water Access**

The number of households with access to piped water in the county is 117,437 while households with access to potable water are 124,327. The average distance to the nearest water point is 1km.

## **1.6 Land and Land use**

### **1.6.1 Mean Holding Size**

The county has a total area of 987.5 Km<sup>2</sup> and 758.5 Km<sup>2</sup> of arable and non-arable land respectively. The larger part of the land is used for food crop while the rest is used for cash crop farming, livestock rearing and farm forestry. The mean holding size is one hectare for majority of the small holders.

### **1.6.2 Percentage of Land with Title Deeds**

Over 85 per cent of farmers have title deeds for their land as adjudication started early after independence. The main reason for lack of the title deeds by some farmers is domestic wrangles while other landowners in settlement schemes have not cleared their loans.

### **1.6.3 Incidences of Landlessness**

From the year 2013, the county has embarked planning of colonial villages Thunguma and Rititi have been surveyed and the exercise will extend to other areas. The county has also issued 269 title deed for Gatitu, Gitero, Riamukurwe, Muruguru, Kihuyo and Ithenguri to create ownership and reduce cases of landlessness.

## **1.7 Community Organizations/Non-state actors**

### **1.7.1 Cooperative Societies**

The county has 136 active and 26 dormant cooperative societies. The major cooperative societies are coffee, dairy, urban, rural, housing, transport and one union, which are instrumental in mobilization of resources for development of the county. The total registered members are 489,370. The societies have the potential for value addition through vertical integration, enhancing quality and productivity, market development, trade financing, promotion to local and regional markets, establishment of horticulture and aquiculture cooperatives.

### **1.7.2 Non-Governmental Organizations**

There are six main Non-Governmental Organizations which cut across the county namely; Caritas Nyeri, World Vision, Green Belt Movement, Child Fund Kenya, Kenya Red Cross and Farm Concern International. These NGOs are mainly involved in social and economic activities including provision of water in dry areas, promotion of planting of trees and support for the OVCs.

### **1.7.3 Self-help, Women and Youth Groups**

The county has 14,391 social development groups out of which 4,489 are women groups, 8,564 are self-help groups and 1,338 youth groups. The county has 80 and 3,795 persons

benefiting from the Cash Transfer Programmes for the persons with severe disability and aged respectively.

## **1.8 Crops, Livestock and Fish Production**

### **1.8.1 Main Crops Produced**

The main food crops grown in the county are maize, beans, Irish potatoes and vegetables whereas the major cash crops are coffee, tea, horticulture and cut flowers. Tea is grown in the upper zone next to Aberdare's and the Mt. Kenya forest while coffee is grown in the lower region. Cut flowers are mainly grown in Kieni Sub County where there are large land holding sizes.

### **1.8.2 Acreage under Food Crops and Cash Crops**

Total area under food crop is 80,943 hectares while 18,521 hectares are under cash crop production. Food crops are mainly produced on small scale, which is due to the smallholding sizes as a result of population pressure. The area under cash crops is limited since economical production requires large parcels of land.

### **1.8.3 Average Farm Sizes**

The average farm size is 0.7 hectares for small-scale farmers and 4 hectares for large-scale farmers. This is due to high population density though the farms are intensively utilized. Large-scale farms are mainly found in Kieni.

### **1.8.4 Main Storage Facilities**

In the county, the main food storage facilities include; National Cereals and Produce Board in Kiganjo with a storage capacity of 100,000 metric tons; on farm storage granaries and in the farmers houses. Most farmers store their produce in their houses due to low production as a result of small parcels of land.

### **1.8.5 Main Livestock Bred**

The main livestock breeds are dairy cattle, poultry, pigs, goats, donkeys, and sheep. The land carrying capacity (Livestock per hectare) is five. Bee keeping and other small stock such as rabbits; are also on the increase.

### **1.8.6 Number of Ranches**

Given that the land holding per household is generally small, currently there are no ranches established in the county. However, there is potential to establish ranches in the expansive Kieni Sub County.

### **1.8.7 Main Fishing Activities, Types of Fish Produced**

The main fisheries activities in the county are pond fish farming, dam and river line fisheries. There are a total of 2,343 households involved in the subsector with 2,488 fishponds spread across the county. The main fish species include tilapia, catfish, and trout.

## **1.9 Employment and Other Sources of Income**

### **1.9.1 Wage Earners**

In the county, 92,205 persons are wage earners thus contributing 24 per cent of the household income. They are mainly employed by the national and county governments, learning institutions and the business community.

### **1.9.2 Self-employed**

Rural self-employed persons in the county are 15,368 contributing 4 per cent of household income while urban self-employed persons are 4,444 and contribute 13 per cent of the household income. The wages are higher in urban areas than in the rural areas. The county will need to provide affordable credit for the establishment of micro enterprises to create more self-employment opportunities.

### **1.9.3 Labour Force**

By 2017 the projected population aged between 15 and 64 years in the county will be 430,399 comprising of 220,738 females and 209,661 males. This represents 59.7 per cent of the county population.

### **1.9.4 Unemployment Levels**

The unemployment level in the county is 17.5 per cent since out of the potential labor force of 421,298 persons, only 347,502 are employed. The dependency rate in the county therefore stands at 51 per cent of the total population. Apart from affordable credit, there is need of establishing cottage industries to add value on farm produce and hence create more employment.

## **1.10 Health Access and Nutrition**

### **1.10.1 Health Access**

Nyeri County has one level- V hospital, four level- IV, three mission and three private hospitals. It also has one nursing home, 30 level- III, 84 level- II, 33 levels- I, one hospice and 228 private clinics spread across the county. The doctor/population ratio is about 1:4325 and a nurse/population ratio of 1:834 depicting shortage of medical personnel to serve the people. The county through the Public Health and Sanitation sub-sector funded by APHIA II and GOK has been able to train 365 Community Health Workers to help the

households in maintaining good health status and sanitation.

### **1.10.2 Morbidity**

The morbidity rate for the county is 28.8 per cent with that of male being 27.03 per cent and 30.5 per cent for female. In the county, the maternal mortality rate stands at 318 per 100,000, while the child mortality rate stands at 10 out of a 1000.

The most common diseases, in the county, in order of prevalence are Upper Respiratory Trachea Infection, with a prevalence rate of 54.4 per cent, skin diseases 15.4 per cent, rheumatic and joint pains 13.1 percent, hypertension 11 percent and diarrhea 6.2 percent. HIV and AIDS prevalence in the county is 2.1 per cent, affecting mostly the youth between 15-34 years with the highest percentage being among females. HIV and AIDS prevalence is high in peri-urban areas. There is a general increase in non-communicable diseases such as cancer, diabetes, kidney failure among others.

### **1.10.3 Nutritional Status**

There are no severe malnutrition incidences in the county apart from isolated cases which might be found within the informal settlements. There is need to change eating and lifestyle habits.

### **1.10.4 Immunization Coverage**

The children immunization rate stands at 84 percent in 2016 which indicates that there is almost universal access to health care services. This can also be attributed to high literacy levels which stand at 91.8 per cent an indication that the community understands the need for immunization.

### **1.10.5 Access to Reproductive Health Services**

Family planning access has been on the increase due to increased literacy levels in the county. The contraceptive acceptance rate stands at 61 per cent which has contributed to low population growth rate of 0.48 per cent compared to the national average of 3 per cent.

## **1.11 Education and Literacy**

### **1.11.1 Day Care Centre's**

These are meant to nurture children of less than three years of age, so that they are able to grow and develop physically, mentally, cognitively and socially. This will be done through collaborative efforts of county government and other stake holders.

### **1.11.2 Pre-school Education**

The gross enrolment rate for the county stands at 59.2 per cent, indicating that there is a large number of children who are not in school despite having a total of 758 centers.

### **1.11.3 Primary Education**

The county has a total enrolment of 141,243 comprising of 72,227 boys and 69,016 girls. Although the net enrolment rate is high at 99 per cent, the county will require additional investment for infrastructural improvement. The completion rate stands at 89.4 per cent while retention and transition stands at 91 and 85 per cent respectively.

### **1.11.4 Secondary Education**

The county has a secondary school gross enrolment of 31,242 boys and 31,959 girls. The net enrolment rate stands at 95 per cent and it is noted that there is a negligible variance between boys and girls enrolment. The completion rate stands at 86.2 per cent while retention rate is 89 per cent.

### **1.11.5. Adult Basic and Continuing Education**

Currently the county has high literacy levels at 91.8 per cent. The adult education classes stand at 303 with a gross enrolment of 1,885 males and 1,811 females.

### **1.11.6 Technical, Industrial, Vocational and Entrepreneurial Training**

There are 49 youth polytechnics with a total population of 3882 trainees. Plans are being put in place towards revitalizing and staffing of the polytechnics across the county and this is expected to enhance enrolment and offer quality courses in the institutions. There is need to introduce new training curriculum to youth polytechnics that are competitive in the job market. This includes entrepreneurial, agri-business, ICT courses among others.

### **1.11.7 Tertiary Education**

There are two public universities, one Private university campus, three Public university campuses, one national polytechnic, one science and technology institute, nine other public colleges, one private accredited college and six private non accredited colleges.

### **1.11.8 Talent Academies**

Currently the county has no talent academy. There is need to establish an academy to nurture and harness the talents within the county.

## **1.12 Child Welfare and Protection**

### **1.12.1 Orphans and Vulnerable Children (OVC)**

There are 76,269 Orphans and Vulnerable Children (OVC) out of which 24,590 are orphans. The Cash Transfer Programme takes care of 9207 OVC leaving a balance of 67062 OVC who need care protection and support. There are six (6) Community Based Organizations (CBOs) or Local Implementing Partners (LIPs) funded by USAID through a APHIA Plus Kamili who provide some of these OVCs with food, shelter construction, uniform and school fees. The programme reaches 14,602 OVCs. World Vision has also started a programme to assist some of the OVCs in Kieni Sub County.

**1.12.2 Children in Need of Care and Protection**

There are 55,000 children in need of care and protection some of which are neglected, destitute, abandoned and denied education. There are twenty seven (27) Charitable Children's Institutions (CCIs) housing 1,400 children. There are 460 children either living and working on the streets or making appearances on the streets and later going home (slums). There are over 800 cases of children in child labour situations.

On children in conflict with the law (Juvenile Delinquency) the county has one Children Remand Home housing 35 inmates and a Rehabilitation School with 125 boys undergoing rehabilitation. There is need for the county to establish a child rescue Centre to take care of children in especially difficult circumstances.

**1.13 Tourism**

In the county, we have three four star, four thee star, one two star tourist class hotels, various lodges and guest houses and three airstrips to facilitate transportation of tourists. There is great opportunity to increase the number of tourist class hotels since the county is on a major tourist circuit to Mt. Kenya and the northern region. Other tourist attractions include the Lord and Lady Baden Powell graves, Mount Kenya and the Aberdare National Park among others.

## **CHAPTER TWO:**

### **COUNTY SOCIO-ECONOMIC DEVELOPMENT CHALLENGES AND STRATEGIES**

#### **2.0 Introduction**

This chapter provides the highlights of socio-economic development, challenges and strategies in the county. It further analyzes the major development challenges and cross-cutting issues that affect the development of the county.

#### **2.1 Major Development Challenges in the County**

This section addresses the major development challenges that the county will need to address so as to achieve sustainable economic growth and poverty reduction. These Development challenges identified include;

##### **Inaccessibility to Credit Facilities**

Majority of small scale farmers have limited or no access to credit facilities. This is due to the high interest rates, stringent loan conditions and limited knowledge on insurance of agricultural produce. Most banks demand collateral in the form of title deeds especially for prime land areas.

##### **Inadequate Rainfall**

Agricultural and livestock productivity is worsened by limited, unreliable and poorly distributed rainfall pattern. In recent years the rains have become erratic and unpredictable hence making it difficult to plan on farming.

##### **Undeveloped Marketing Systems**

Poor retail marketing systems of agricultural products have greatly contributed to the low incomes for the farmers in the county. Farmers have weak bargaining power due to the high perishability of horticultural produce and inadequate storage facilities. The major cash crops such as coffee are mainly marketed through cooperatives societies. A number of farmers produce poultry and horticultural produce but lack organized marketing systems.

##### **Limited Access to ICT Services**

The county recognizes ICT as a growth sub-sector that has immense potential of unlocking many opportunities in business, education, agriculture, industry and security. Limited access to ICT services, inadequate funding mechanisms, lack of reading culture and high

costs of communication equipment and operation are a challenge to the development of the sub-sector.

**Limited Tourist Class Hotels and Sites**

The county has 19 tourist class hotels, lodges and guest houses and three airstrips to facilitate transportation of tourists despite the huge potential resulting from availability of tourist attraction sites. These tourist attractions include the Lord and Lady Baden Powell graves, the game and scenic sites attractions found in Mt. Kenya and Aberdare national parks.

**Limited Processing Industries**

Lack of processing industries for the agricultural and livestock products is a great challenge especially during rainy season where much of it goes to waste due to over production and inability to reach the market. Lack of such industries may be attributed to limited research on their viability and funding. The county should therefore explore Public Private Partnership to invest in processing industries.

**Increased Number of OVCs**

The number of OVCs and street families in the county is on the increase mainly due to unstable families, domestic violence, rising poverty levels and the effects of HIV and AIDS and non-communicable diseases. There is need to increase the education bursaries and deliberate effort to ensure continuity of learning for those affected.

**Low enrolment in our Youth Polytechnics**

The poor remuneration of the instructors in the youth polytechnics makes it hard to attract and retain qualified personnel, thus hampering the imparting of skills to the youth. To address this challenge, the county has identified eight centers of excellence where more can direct resources to a few well managed facilities.

**Insecurity incidences**

There are various cases of insecurity reported in the county mainly caused by the presence of illegal firearms. These cases are also accelerated by the rising unemployment among the youth and desire for quick and free money. There is need for sensitization on attitude change among the youth, to embrace the culture of hard work. However, cases of insecurity are reported to have declined significantly as a result of lighting the trading centers.

**Increased gender based violence**

Gender based violence is of great concern in the county. It is mainly attributed to the consumption of cheap second generation liquor and high unemployment levels. This has led to men neglecting their duties and responsibilities. There is an increase in cases of domestic violence and there is need to address this imminent challenge by possibly scaling up counseling sessions and rehabilitation centers for couples and drug/alcoholic addicts.

### **Environmental Degradation**

The major challenge involves cultivation on fragile areas such as steep slopes, wetlands, riparian reserves and quarrying activities. This has led to landslides and soil erosion hence reduced productivity. The other challenge is inadequate solid and liquid waste management facilities particularly in the urban and peri urban areas. Use of nylon and plastic paper bags which is on the increase is also a problem which has led to death of livestock upon consumption and clogging of drainage in buildup areas. There is also the problem of continued construction of houses in riparian areas posing the threat of collapsing and thus loss of life.

### **Unsustainable Water Resource Management Practices**

The major challenge is the high seasonal fluctuations between low and high river flows due to inadequate conservation and protection of water catchment areas especially in Mt. Kenya and the Aberdare ranges. This has led to siltation, flooding and landslides during the wet seasons and low flow during the dry season.

### **Inadequate Sanitation Facilities in Urban Areas**

The peri-urban centers; Karatina, Othaya, Mukurwe-ini, Chaka, Mweiga and Naro Moru have inadequate sewerage treatment and solid waste management facilities. This has led to release of effluents into the environment causing pollution of water bodies.

### **Poorly Planned and Inaccessible Housing in Informal Settlements**

Informal Settlements in the county are prone to disasters such as fire and floods. In colonial villages, the land is under the county government and the rapid population growth has impoverished the residents and their needs should be addressed.

### **Sharing of tourism revenue**

There is no clear formula on sharing of revenue generated from tourism related activities between county and national government e.g. KWS continues collecting park entry fee and nothing is brought back despite the county maintaining roads leading to the parks.

## **2.2 Cross-Cutting Issues**

The cross cutting issues that affects development in the county include; Poverty, HIV and AIDS, Gender, Disaster Risk Reduction, Youth, Persons with Disabilities, Environmental Conservation and Management and Security.

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

<b>CROSS CUTTING ISSUE</b>	<b>CURRENT SITUATION</b>	<b>MAINSTREAMING OF CROSS CUTTING ISSUE</b>
Poverty	About 27.6 per cent of the county population live below the poverty line	To address the issues of poverty in the county the government has initiated a lot of programmes and projects such as Elimu Fund, Bima Afya, Enterprise Development Fund, Providing water for irrigation, improvement of access roads among others
HIV and Aids	The county HIV and Aids prevalence stand at 4.3 percent as compared to the national's 6.6 per cent.	The county has been providing free ART's to the infected. The county is also providing medical insurance through NHIF to the infected members of the society and has continued to mainstream HIV and Aids in all activities.
Gender	Women constitute 51 per cent of the population and contribute 70 per cent of the agricultural labor force. But not adequately represented in the productive sectors.	The county has been mainstreaming gender issues by ensuring that 30 percent of all tenders goes to the special groups that includes women. There is also general capacity building of women to take their rightful position in the society. The county has also allocated funds for youth, women and PWD's which will greatly improve their wellbeing.
Disaster risk reduction	The most prevalent disaster risks in the county include natural phenomena such as drought, floods, fire, mudslide, landslide and effects of climate change. Other disasters include man-made risks such as road accidents and domestic violence. Drought is the major natural disaster that frequently occurs in the semi-arid regions of Kieni Sub County.	The county has been informing the public on impending disasters such as floods and landslides. The county has also provided appropriate planting materials to avert risks associated with drought in Kieni. We also have standby fire engines in Nyeri and Karatina to respond promptly to cases of fire and avert damages.
Youth	The youth form about 57 per cent of the total active labor force and 34 per cent of the total population. However, due to the high level of unemployment and lack of vocational skills demanded by the economy, most of the youth have not been absorbed in the job market.	The county has continued to ensure involvement of youth in productive activities and earn a decent living. There are also programmes like provision of mobile mechanical pumps (motorized) and grants (Jiinue fund) to youth groups. Youths have been given full access to government tenders where 30 percent has been preserved for the special groups, youth included.
Persons' Living With Disability	The county lacks adequate institutions that take care of needs persons with disabilities who are more than three per cent of the population. The available institutions do not have facilities to offer the necessary training	The county has allocated funds for this special group as a grant so as to uplift their way of life. The group also has equal and unlimited access to government tender opportunities including the reserved 2 percent.

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

	required by these people at secondary and tertiary levels.	
Environmental Conservation and Management	Continuous destruction especially that of forest lands, riparian and wetland for farming and construction of building continue to be an issue in the county. Other environment issues include; planting unsuitable trees on wetlands, landslides, and charcoal burning among others.	The county has been planting suitable trees in riparian areas and public institutions while sensitizing farmers on the effect of climate change due to their actions. There is also continuous sensitization of road contractors on addressing the challenges of storm water and run off.
Security	Insecurity provides uncondusive environment for development and investment. It compromises the investment tempo and scares away outsiders from the county.	County has purchased vehicles for security i.e. C.I.D, A.P and Police fully fueled and serviced by the County Government (PAIC Department).

## CHAPTER THREE:

### RESOURCE MOBILIZATION

#### 3.0 Introduction

This chapter addresses resource mobilization strategies; county expenditure; finance management; challenges likely to be experienced and the possible solutions. Devolution of funds from national government calls for a wider public participation to ensure better utilization by those appointed as custodians. It is important to note that the funds allocated through the CRA will not be adequate and therefore the need to come up with ways and means to mobilize more resources to meet the development needs of the county.

#### 3.1 Source of Revenues

##### Equitable share

This is from the shared national revenue as provided for in Article 202 and 203 of the constitution. The county receives part of the constitutionally approved share from the consolidated fund as proposed in the Budget Policy Statement, recommended by CRA and approved by The National Assembly.

##### Additional resources

In addition to the equitable share of revenue, the County Government is also expected to get additional resources from the following sources:

- *Conditional and unconditional* allocations from share of the national government as contemplated under Article 202(2) of the Constitution.
- *Own revenues* from specific county revenue raising measures through imposition of property taxes, entertainment taxes, as well as any other tax and user fees and charges as authorized to impose.
- *Borrowing* provided national government guarantee is obtained as well as the approval of the County Assembly. This will only occur if the funds will be applied to development activities.
- *Grants and donations* from development partners in accordance with section 138 and 139 of the Public Finance Management Act, 2012 and Public Finance Management Act (County Government) Regulations, 2015. There are other grants not channeled through the county revenue funds but helps the county to achieve its development objectives through collaborations e.g. Upper Tana Natural Resource Management Project.

### **3.2 County Government Expenditure**

The county government is expected to spend its money for recurrent expenditure and development projects. Much of the government resources are spent on recurrent needs due to the huge wage bill leaving inadequate resource for development activities.

### **3.3 Management of County Finances**

The county is fully accountable to the public on the expenditure and utilization of all funds received by or on behalf of the county government. This is done through quarterly budget implementation and project and program status report as required under section 166(4) of the PFM Act, 2012. All financial management systems are required to comply with the requirements of all national and county legislations.

The process of managing the finances will be as follows: The county treasury shall prepare annual budget estimates and seek approval from the county executive committee and the county assembly. The controller of budget will authorize withdrawals from the county revenue funds. The accounting officer is accountable to the county assembly for ensuring that the funds of the entity for which the officer is designated are used in a way that is lawful and authorized. The accounts of the county will be audited by the auditor-General and submit audit reports to the relevant county assembly committees. Internal audits will also be done continuously as a control measure.

### **3.4 Funding Of Development Projects**

Capital projects as contained in this plan will be funded through budgetary allocation from the county government revenue fund, grants and loans from development partners. Over the medium term it is expected that the county will spend not less than 30 percent of its revenue on development as required under section 107(2)(b) of the PFM Act, 2012.

### **3.5 Assets and Financial Management**

The National Treasury has designed and prescribed an efficient financial management tool for the national and county governments to ensure transparency and standard financial reporting as contemplated by Article 226 of the Constitution and The Public Finance Management Act, 2012 and its regulations.

The County Treasury will monitor, evaluate and oversee the management of public finances and economic affairs of the county government including developing and implementing financial and economic policies, preparing the annual budget, coordinating

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

the implementation of the budget and mobilizing resources for funding. The county treasury is the custodian of all county government assets and liabilities.

## CHAPTER FOUR:

### PROJECTS AND PROGRAMMES

#### 4.0 Introduction

This chapter presents a highlight of projects and programmes as contained in the CIDP, 2013-2017 and other specific ones identified through other county forums. The technical departments have a critical role in undertaking feasibility studies, designing and implementing. The listed projects/programmes includes ongoing and proposed for the Fiscal Year 2017-2018.

The information is presented based on the existing county departments namely: Finance and Economic Planning; Agriculture, Livestock, Fisheries and Co-operative Development; Health Services; Public Administration, Information and Communication; Water, Environment and Natural Resources; Lands, Housing and Physical Planning, Infrastructure Development; Special Programmes; Tourism and Culture; Energy and Education, ICT, Trade Industrialization.

For each of the department, projects and programmes which are in the CIDP and yet are not implemented and specific priorities identified during the public participation and focus group discussions (ward forums) are presented as new proposals for implementation in 2017/2018. As a development policy all ongoing projects must be completed first so as to get value for money already spent. The considerations for new projects is the coverage in terms of population and also the facilities being enablers of development.

#### 4.1.1 Finance and Economic Planning

This department consists of Finance, Economic Planning, Monitoring and Evaluation, Budget, Audit and Procurement Directorates. This is a service department responsible for coordination of financial management and development planning.

#### **Sector Vision and Mission**

**The vision:** A leading sector in public policy formulation, implementation, coordination, supervision and prudent resource management.

**The mission:** To provide overall leadership and policy direction in resource mobilization, management and accountability for quality public service delivery.

**Sector Development Direction**

- i. To establish a county database.
- ii. To establish and integrate an effective citizen driven public participation mechanism in annual planning and budget making process across the county.
- iii. To put in place M & E system and form the relevant committees.
- iv. To develop a mechanism for dissemination and follow up on the findings of an M & E information.
- v. To ensure timely production of financial and development progress reports.

**A. Ongoing Projects/Programmes**

Name of project	Objectives	Targets	Description of activities.	Estimated cost in Kshs.
County Data Base	To create an up to date county databank on social economic issues.	1 County database	Identification of data requirements, Data collection, Development of database, Data input into the system.	5m in collaboration with CRA
Refurbishment County treasury	Facilitate effective and efficient service delivery	1 floor refurbished	Refurbishment and equipping to create work station.	7m

**B. Approved Projects/Programmes 2017/2018**

Project Name	Priority Ranking	Objectives	Targets	Description of activities	Estimated cost in Kshs.
County treasury block	1	Facilitate effective and efficient service delivery.	1 block	Construction, equipping	30m

**4.1.2 Agriculture, Livestock, Fisheries and Cooperative Development**

This department comprises of Agriculture, Livestock Fisheries and Cooperative Development sub- sectors.

**Sector vision and mission**

**The vision:** An innovative, commercially-oriented and modern agriculture, livestock and fisheries development.

**The mission:** To improve livelihood of county citizens through promotion of competitive agriculture, sustainable livestock and fisheries development.

**Sector Development Direction**

- i. Modernization of extension service delivery through new technology adoption in ICT and extension group approaches.
- ii. Promote a paradigm shift in agriculture by embracing commercialization in farming.

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

- iii. Lower the cost of production through a deliberate effort to reduce cost of farm inputs thus increase farmers' margins and therefore accelerate rural development.
- iv. Improve working environment by constructing and equipping offices, and providing extension officers with appropriate mode of transport.
- v. Advocate for farmer friendly legislation e.g. in land reforms, value addition and marketing.
- vi. Improved collaboration and partnerships with all stakeholders in the Agricultural Sector.
- vii. Encourage value addition of farm produce before marketing.
- viii. Restocking of rivers and dams and involvement of community in management.
- ix. Establishing a fingerling research/ quality improvement and multiplication centre.
- x. Operationalization of existing livestock market and sales yard.

### **Projects and Programmes**

The section captures county ongoing and proposed projects and programmes.

#### **A. Ongoing Projects/Programmes**

No.	Name of project/Programme	Ward	Description of activities	Objectives of the project/ programme	Targets (What do you intend to achieve)	Estimated Cost (Kshs)
1	Extension services	County wide	Delivery of technical packages	To Increase productivity and improve food security and income	To increase farm production from the current level by 5%	30,812,918
2	Improvement of food security	County wide	Procurement of certified seeds	To improve food security	Improve food security by 3%	9,164,799
	Improve breeding stock	Karima	Completion of rabbit breeding centre	To upgrade the local rabbit breeds	One rabbit breeding centre completed	5,000,000
	Improve breeding stock	County wide	Procurement of breeding rabbits	To upgrade the local rabbit breeds	115 breeding rabbits imported	1,750,000
M	Up scaling of fish farming	County wide	Procurement of fingerlings	To upscale fish farming	146,700 fingerlings procured	2,200,000
	Improvement of Wambugu Agricultural Training Centre. dairy herd	Muruguru/Gatitu	Procurement of pedigree heifers	To increase dairy productivity	Increase milk production from the current 7 liters per cow to 20	8,775,000

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

No.	Name of project/Programme	Ward	Description of activities	Objectives of the project/programme	Targets (What do you intend to achieve)	Estimated Cost (Kshs)
					litres per cow per day	
	Improvement of veterinary public health	County wide	Procurement of vaccines	To improve disease control		6,000,000
	Grant transfer	Nyeri South, Tetu, Mukurweini and Mathira East and West	Ware house construction and leasing, purchase of value addition equipment and coffee infrastructure improvement	To enhance value Addition in coffee	4 farmers' cooperative societies assisted in enhancing value addition	100,000,000
	Transport enhancement		Procurement of motor cycles	To enhance service deliver	6 yamaha motor cycles	3,000,000
	Improvement of working environment	Rware	Completion of Mifugo house	To improve of working environment	100% completion	2,000,000
	Establishing Wambugu A.T.C. as a centre of excellence	Muruguru/Gatitu	Construction of modern gate and fencing	To establish Wambugu A.T.C. as a centre of excellence	One modern gate constructed and	2,000,000
	Enhancement of farm produce marketing	Gatarakwa and Kabaru	Construction of farm produce collection sheds	To enhance marketing of farm produce	2 farm produce collection sheds	2,000,000
	Securing A,M.S farm	Thegu river	Fencing the farm	To secure A.M.S. farm	3 acres fenced	1,000,000

**B. Approved Projects/Programmes 2017/2018**

Project/Programme Name	Ward	Priority Ranking	Description of activities	Objectives of the Project/Programme	Targets	Estimated Cost(Kshs.)
Extension service	County wide	1.	Delivery of extension services	To increase productivity and improve food security and income	Increase farm production from the current level by 5%	20,000,000
Value addition on commercial crops and livestock products	County wide	2.	Providing subsidies to cooperative societies and other producer	To increase productivity and incomes to the farmers	-Coffee -Tea -Milk -Horticulture	100,000,000

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

			groups			
Research and Development	County wide	3.	Farm trials and strengthen Research-farmer-Extension linkage	To improve development and adoption of agricultural technologies	4 farm trials per ward(120)	3,000,000
Improvement of staff mobility	County wide	4.	Procurement of vehicles and motor cycles	To improve staff mobility	2 double cabin vehicles 5 yamaha motor cycles	11,000,000
ICT improvement in the department	County wide	5.	Procurement of lap tops and desk tops and accessories	To improve I.C.T.	Procure 2 laptops and 2 desktops for each of the 8 sub counties and 2 laptops for each of the 5 directorates at the County	3,720,000
Food security	County wide	6.	Provision of subsidized fertilizer	To Improve food security in the county and farm incomes	Procure 20,000 bags of fertilizer	20,000,000
Food security	County wide	7.	Procurement of certified seeds	To improve food security	Improve food security by 3%	15,000,000
Livestock census	County wide	8.	Head count of all livestock	To update the livestock data base	Head count to be carried out in all 30 wards	2,000,000
Milk value addition	7 sub counties	9.	Construction of buildings and electricity installation for milk coolers	To enhance value addition of milk	10 milk marketing groups	25,000,000
Trainings and demonstration on greenhouse technologies	County wide	10.	Procurement and installation of green houses	To train youth and other farmers on greenhouse technologies	Carry out trainings in all the 30 wards	2,000,000
Livestock development and improvement	County wide	11.	Procurement of dairy goats and breeding cocks,	To enhance livestock improvement	30 dairy goat bucks and 1000 improved indigenous cocks	2,000,000

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

Artificial Insemination and breeding program	County wide	12.	Procurement of semen, liquid nitrogen and equipment	To upscale delivery of A. I. services	30,000 doses of semen, 800 litres of liquid nitrogen and assorted A.I. equipment procured	7,000,000
Construction of liner Ponds	County wide	13.	Excavation of ponds, Procurement of pond liners and procurement of fingerlings	To increase fish production	150 fish ponds constructed and stocking of the ponds	10,000,000
Fish harvesting	County wide	14.	Procurement of fishing gear	To improve fish harvesting	30 fishing gears procured	600,000
Disease surveillance and control	County wide	15.	Procurement of vaccines and acaricides	To improve disease control	30,000 doses of FMD, 30,000 doses of LSD, 15,000 doses of rabies, 15,000 doses of CCPP vaccines	10,000,000
Leather development	County wide	16.	Capacity building on leather development	To improve the quality of hides and skins for value addition	500 leather dealers trained	2,000,000
Veterinary public health	County wide	17.	Licensing of slaughter houses and meat containers	To ensure public consumes quality meat	To license all the slaughter houses and meat containers in Nyeri county	500,000
Veterinary inspectorate services	County wide	18.	Supervise and inspect agro vets and clinics	To improve livestock industry	Inspect all the agro vets in Nyeri county	2,000,000
Establishing Wambugu A.T.C. as a centre of excellence	County project	19.	Capacity building	To establish Wambugu ATC as a centre of excellence	Completion of a modern hostel	10,000,000
Establishing Wambugu A.T.C. as a centre of excellence	County project	20.	Maintenance of building and station	To establish Wambugu A.T.C. as a centre of excellence	Painting of all buildings and repair of pavements	10,000,000

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

Dairy improvement in ATC	County project	21.	Construction of a 20 cubicles zero grazing unit	To improve on grazing systems	Completion of a zero grazing unit	1,000,000
Dairy improvement in ATC	County project	22.	Procurement of in-calf heifers	To improve on revenue collection	Procurement of 20 in-calf heifers	3,000,000
Dairy improvement in ATC	County project	23.	Establishment of Forage	To increase area under forage	10 acres under various fodders	2,000,000
Capacity building of stakeholders	County project	24.	Training farmers and stakeholders	1.To improve technical capacity of farmers and stakeholders 2.To enhance revenue generation	1000 farmers and stakeholders	6,500,000
Kiawaithanji Coffee collection center	Aguthi Gaaki	25.		To assist farmers	200 farmers	1,000,000

### **4.1.3 Health Services**

This sector addresses Preventive, Promotive, Curative & Rehabilitative issues of health and Sanitation. Health is an economic and social right and every person has a right to the highest attainable standards of health, which includes the right to health care services including reproductive health. The county will facilitate progressive realization of this right within the constraints of fiscal space and priority interventions.

#### **Sector Vision and Mission**

**Vision:** An efficient and high quality health care system that is accessible, equitable and affordable for every citizen.

**Mission:** To promote and participate in the provision of integrated and high quality preventive, Promotive, curative and rehabilitative health care services to all Kenyans.

#### **Sector Development Direction**

- i. Carry out health needs assessment in the county.
- ii. Completion of ongoing and reviving of stalled projects.
- iii. Construction, equipping and staffing of new health facilities.
- iv. Sensitizing the public on health insurance scheme.
- v. Establishing and integrated health management system.
- vi. Putting up health staff houses within the institutions
- vii. Promoting reproductive health and behavior change.
- viii. Promote mental health.

**NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018**

- ix. Promote rehabilitation of alcohol and drug addicts.
- x. To construct a sanitary landfill in Kieni, semi-sanitary landfills in Othaya and five transfer sites.

## **Projects and Programmes**

This section provides information on ongoing and proposed projects and programmes.

### **A. On-going projects/programmes**

<b>Name of project/Programme</b>	<b>Ward</b>	<b>Description of activities</b>	<b>Objectives of the project/programme</b>	<b>Targets</b>	<b>Estimated Cost (Kshs)</b>
Completion of maternity unit - Ichamara dispensary	Mukurweini Central	Completion of pending works to user specification	Improve access to maternal Health	completion and commissioning	2 million
Water installation at Thangathi health Centre	Mukurweini Central	Construction of water tank and	Improve water supply at Thangathi Health Centre	completion and commissioning	1 million
Karaba health Centre X-ray& Administration Block	Gikondi/Mukurweini	Design and construction of new X ray block	Improve access to diagnostic services	completion and commissioning	6 million
Completion and equipping of Kariguini Dispensary	Wamagana/Tetu	Completion of pending works to user specification	improve access to health services	completion and commissioning	1.5 million
Wamagana Health Centre	Wamagana/Tetu	Construction of outpatient block	improve access to quality outpatient services	completion and commissioning	4.5 million
Ruruguti Maternity/Nyeri South	Iriani	Construction of maternity unit	Improve access to maternal Health	completion and commissioning	6million

Gichira Health Centre	Aguthi/Gaaki	16	Procure, installation & Commissioning of a Standby	Reliable power supply	Start projects on time and monitor progress through stakeholder collaboration	1,500,000
Mutathi-ini Dispensary	Aguthi/Gaaki		Construction	One block	Start projects on time and monitor progress through stakeholder collaboration	10,000,000
Ihwagi Dispensary Relocation of Dispensary	Iria-ini - Mathira	17	Construct OPD block	Relocate the Dispensary to its land. Currently housed by ACK church	Start projects on time and monitor progress through stakeholder collaboration	5 million

**4.1.4 Public Administration, Information and Communication**

This department consists of the following sub sectors: County Public Administration, Information & Communication and Revenue. It aims at ensuring a harmonious coexistence between various actors in development of the county. The directorates of alcohol control and human resource management are also part of this department.

**Sector Vision and Mission**

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

**Vision:** A secure, just, cohesive, democratic, accountable, transparent and conducive environment for a prosperous county

**Mission:** To ensure effective and accountable leadership, promote a just, democratic environment and establish strong governance institutions to empower citizens for the achievement of socio-economic and political development.

### **Sector Development Direction**

- i. To operationalize the performance contracting to the County Public Service for effective and efficient service delivery.
- ii. To establish an effective citizen driven public participation mechanism.
- iii. To facilitate mobility of security officers.
- iv. To establish and ensure effective administration and governance of county affairs.
- v. Enforce compliance in revenue collection. The starting point would be a county-wide of revenue mapping.
- vi. To increase revenue collection from the current 0.7B in 2015/2016 to 1B by 2017/2018 and an annual increment of 10 percent in the subsequent years.
- vii. To operationalize non-cash revenue collection in all sectors and automate the system.

### **Projects and Programmes**

The section captures an analysis of county ongoing and proposed projects and programmes.

#### **A. On-going projects/programmes**

No.	Name of project/Programme	Ward	Description of activities	Objectives of the project/programme	Targets (What do you intend to achieve)	Estimated Cost (Kshs)
1	Block C	Rware	Refurbishment	Conducive Work Environment	Staff satisfaction	21M

#### **B. Approved projects/programmes 2017/2018**

Project/Programme Name	Ward	Priority Ranking	Description of activities	Objectives of the Project/Programme	Targets	Estimated Cost (Kshs.)

<b>HUMAN RESOURCE DIRECTORATE</b>						

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

Automation of Human Resource Records	Rware	1	Designing of system development of system user training	Improve records management	Efficiency	3,000,000
Staff capacity building	Rware	2	Training in HR Management	Enhance skills knowledge and abilities	Improve performance	5,000,000
Employee satisfaction survey	Rware	3	Data collection and analysis compilation of report	Assess and Examine levels of job satisfaction among the employees	Address concerns	2,000,000
Provision of working tools and equipment	Rware	4	Requisitions of computer and accessories Desks and office chairs	Improve the working environment	Improve performance	2,000,000

### **4.1.5 Water, Environment and Natural Resources**

The department directly affects lives and livelihood of the communities. It comprises of Water, Irrigation, and Environment & Natural Resources directorate.

#### **Sector Vision and Mission**

**Vision:** Sustainable access to clean, safe and adequate water in a clean and secure environment.

**Mission:** To promote, conserve, protect the environment and improve access to water for sustainable development.

#### **Sector Development Direction**

- i. To construct four sewerage systems (Othaya, Mukurwe-ini, Mweiga and Naro Moru) to address liquid management.
- ii. Annual tree planting targeting 10% cover in the entire county in farms, greening of towns and institutions
- iii. Rehabilitation of 20 quarries.
- iv. To promote green economy.
- v. To expand the water coverage from 45-80% for rural and 60- 95% for urban areas.
- vi. To construct 4 water treatment plants (Mawasco, TeAwasco, Nawasco and Omwasco) to improve quality of drinking water.
- vii. Exploitation of ground water by drilling and equipping 10 boreholes in Kieni East and West.
- viii. To construct irrigation intakes and distribution lines in every ward.

### 4.1.9 Special Programmes

This department consists of Gender, Youth Affairs, Sports and Social Development sub sectors.

#### Sector Vision and Mission

**Vision:** A Gender balance county with sustainable and equitable socio-economic development.

**Mission:** To formulate, mainstream and implement responsive policies through coordinated strategies for balanced socio and economic development.

#### Sector Development Direction

The Sector aims to make progress by instituting the following measures;

- i. Decreasing the number of OVC and Children in Need of Care and Protection in Charitable Children Institutions and reintegrating them back to the families, communities and alternative family care.
- ii. Identify and establish the number of OVCs in the county.
- iii. Strengthen partnership and communication with stakeholders such as NACADA, FBO's, CBO's, NGO's and national government to create awareness in the community and youth on the negative impact of drugs and substance abuse and infiltration of gang elements in schools.
- iv. Promote sports activities.
  - (i) Gender Mainstreaming.
  - (ii) Disaster management and timely response.

#### Projects and Programmes

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

The section captures an analysis of county ongoing and proposed projects and programmes.

### A. On-going projects/programmes

No.	Name of project/ Programme	Ward	Description of activities	Objectives of the project/ programme	Targets	Estimated Cost (Kshs)
1	Issuance of Sanitary Towels	All wards	Procurement of Sanitary Towels Distribution of Sanitary Towels	To ensure retention of Standard 8 girls in schools the whole year. To minimize skipping of school by standard 8 girls due to lack of sanitary towels	Standard 8 girls in all Primary Schools	2.8 Million

### **4.1.12 County Public Service Board**

**VISION:** To be a trend setting, ethical and dynamic institution that enables delivery of quality public services

**MISSION:** To support and enable Nyeri County Government deliver professional, ethical and efficient services through a transformed public service.

#### **The Mandate of the Board**

The County Government Act, 2012, Section 59 empowers the County Public Service Board to:

- i. Establish and abolish offices in the county public service
- ii. Appoint persons to hold or to act in offices of the county public service including in the Boards of Cities, Urban Areas within the county and to confirm appointments.
- iii. Exercise disciplinary control over, and remove, persons holding or acting in those offices
- iv. Prepare regular reports for submission to the county assembly on the execution of the functions of the Board.
- v. Promote in the county public service the values and principles referred to in Articles 10 and 232 of the Constitution.
- vi. Evaluate and report to the county assembly on the extent to which the values and principles referred to in Articles 10 and 232 of the Constitution are complied with in the county public service.
- vii. Facilitate the development of coherent, integrated human resource planning and budgeting for personnel emoluments in counties
- viii. Advise the county government on human resource management and development
- ix. Advise county government on implementation and monitoring of the national performance management system in counties.
- x. Make recommendations to the salaries and Remuneration Commission, on behalf of the county government, on the remuneration, pensions and gratuities for county public service employees.

#### **A. Approved project/programmes 2017/2018**

## NYERI COUNTY ANNUAL DEVELOPMENT PLAN 2017-2018

Project/program name/location	Objectives	Targets	Description of activities
Refurbishment of office space. (phase 2)	To complete refurbishment for a spacious, accessible and secure office	2000 sq feet. i) Board Room ii) Secretariat offices (2) iii) Chairperson`s office iv) Secretary`s office v) Reception vi) Wash rooms (2) vii) Kitchen Store/Archives	Refurbishment - Preparation of BQ - Architectural drawing - Tendering - Award contract - The work commences

### 4.1.13 Infrastructure development

This department consists of Public Works, Roads and Transport sub sectors. All these sub sectors will have a great significance in the development of the county.

#### Sector Vision and Mission

**Vision:** A world class provider of cost-effective physical infrastructural facilities and services.

**Mission:** To provide efficient, affordable and reliable infrastructure for sustainable economic growth and development for the people through construction, modernization, rehabilitation and effective management.

#### Sector Development Direction

- i. Achieve connectivity and smooth flow of motorized and non- motorized traffic.
- ii. Maintenance of existing road network county wide.
- iii. Upgrading of existing roads to bitumen or gravel standards to make them all weather.
- iv. All public buildings must be correctly designed and get the necessary approvals.
- v. Ensure adherence to construction codes and specifications through regular supervision and inspections.
- vi. Develop parking guidelines and regulations to ensure smooth flow of traffic.
- vii. Provide walkways for non-motorized traffic in our major urban Centre.
- viii. Establishment of a County Roads Board and Fund.

#### Projects and Programmes

## **CHAPTER FIVE:**

# **IMPLEMENTATION, MONITORING AND EVALUATION**

### **5.0 Introduction**

This chapter presents the monitoring and evaluation framework that will be used at the county level to track progress on implementation of projects and programmes. An indicative matrix detailing the reporting requirement i.e. projects and programmes, cost and monitoring indicators as well as output and implementation status have been provided below. These are the proposed and ongoing projects and programmes to be implemented in the financial year 2017-2018.

### **5.1 Institutional Framework for Monitoring and Evaluation in the County**

At the National level, Monitoring and Evaluation is conducted through the National Integrated Monitoring and Evaluation System (NIMES), whose main aim is to improve the effectiveness and quality of tracking the implementation of various development policies, strategies and programmes.

It is expected that the county will continue to build and strengthen County Monitoring and Evaluation System to serve the needs of the county government. The system will take cognizance of the projects and programmes included in the Annual Development Plan (ADP) 2017/2018.

## **5.2 Implementation, Monitoring and Evaluation Reporting Template**

The following is the monitoring and evaluation template for reporting on the implementation of the ongoing and proposed projects and programmes during the financial year 2017/2018. Departments and other county entities are required to submit progress reports within ten days after the end of each quarter using the template below.

<b>S/No</b>	<b>Project/ Program me Name</b>	<b>Ward</b>	<b>Monitoring Indicators(s)</b>	<b>Description of Activities</b>	<b>Project Cost (Kshs)</b>	<b>Amount Paid (Kshs)</b>	<b>Outputs</b>	<b>Implementation Status (What has been accomplished)</b>	<b>Challenges / Remarks</b>
