REPUBLIC OF KENYA COUNTY GOVERNMENT OF NANDI

FINANCE AND ECONOMIC PLANNING

COUNTY ANNUAL DEVELOPMENT PLAN (CADP) 2022/2023

AUGUST 2021

COUNTY VISION AND MISSION

Vision

"To be the leading county in Kenya where people are empowered economically, socially and politically through equitable sharing of resources to achieve the highest standards of living".

Mission

"Improve the living standards of all residents of Nandi County by offering quality and sustainable services in an equitable and transparent manner through modern technology, innovation, enhanced workforce, environmental sustainability and entrepreneurship in all spheres of life".

FOREWARD

The 2022/2023 Annual Development Plan (ADP) was prepared in accordance with section 126 of Public Finance Management Act 2012. The ADP lays a foundation for the next financial year and sets out the priority projects and programmes for sustainable economic growth as well as addressing the development challenges that face the county.

This ADP guides the implementation of projects and programmes from each County Department as they are stipulated in the County Integrated Development Plan (CIDP). The CIDP seeks to transform Nandi County into a prosperous and competitive county in economic, social and political development offering high quality services to its people. The ADP is therefore aligned to the CIDP and national development framework as envisioned in Vision 2030 and Millennium Development Goals.

Success in projects/programmes implementation requires sacrifice, hard work, self-determination and discipline. I encourage all the people of Nandi County to commit themselves to the pursuit of successful plan implementation and to play their key role in the implementation of this plan to realize faster economic growth and development. The implementation of this plan requires adequate financial resources. I have no doubt that all stakeholders will work in partnership to help mobilize resources as well as fully participate in the implementation, monitoring and evaluation of the programmes, projects and policies that will inspire economic growth of this County.

Finally, we look forward to the delivery of services promised to the residents/electorates by the Government. The annual plan will be successful if the objective is met in a way that demonstrates improvements in the quality of life for the citizens.

CPA ALFRED LAGAT,

CECM -FINANCE AND ECONOMIC PLANNING.

ACKNOWLEDGEMENT

The development of the 2022/2023 Annual Development Plan was achieved through a comprehensive consultation and cooperation between the department of Finance & Economic Planning and all the County Departments. The department of Finance & Economic Planning played a coordinating role in the preparation process while all other departments provided valuable inputs into the process. I sincerely extend my gratitude to all County Executive Committee Members and Chief Officers for providing leadership to their Directors and other staff in the preparation of inputs to this document.

Special thanks goes to the technical team from Economic Planning and Budget divisions that put together and brought to completion this 2022/2023 Fiscal year Development Plan. I am also aware there are many individuals whom I have not named though they actively participated in one aspect or the other in the process. To all those who were involved, I would like to express my personal and County Government gratitude for the participation and contribution. The department of Finance and Economic Planning acknowledges that the greater challenge is for us to implement the county annual development plan in order to achieve the county goals and aspirations so as to build a just, equitable and prosperous Nandi County.

FELIX K. SAMBU,

CHIEF OFFICER - ECONOMIC PLANNING

GLOSSARY OF COMMONLY USED TERMS

Activities: Actions taken or work performed during which inputs are used to

produce outputs

Beneficiaries: A group among the stakeholders, who will directly or indirectly

benefit from the project;

Capital Projects: A group of related activities that are implemented to achieve a

specific output and to address certain public needs;

County Assembly: The County Assembly of the County Government of Nandi; **County Executive** County Executive Committee of the County Government of

Committee: Nandi established in accordance with Article 176 of the

Constitution;

Evaluation: Planned and periodic assessment of programs or project to assess

the relevance, effectiveness, efficiency and impacts it has had on the

intended population;

Flagship/ These are projects with high impact in terms of employment

Transformative **Projects:**

creation, increasing county competitiveness, revenue generation;

Green Economy: The green economy is defined as an economy that aims at reducing

environmental risks and ecological scarcities and that aims at sustainable development without degrading the environment;

Impacts: The long-term consequences of the program or project may be

positive or negative.

Indicators: A measure that can be used to monitor or evaluate an intervention.

Indicators can be quantitative (derived from measurements associated with the intervention) or qualitative (entailing verbal

feedback from beneficiaries);

Inputs: All the financial, human and material resources used for the

development intervention;

Monitoring: The continuous and systematic collection and analysis of

information in relation to a program or project that provides an

indication as to the extent of progress against stated objectives;

Objectives: A measurable statement about the end result that an intervention is

expected to accomplish within a given time period;

Outcomes: The medium-term results for specific beneficiaries which are the

consequence of achieving specific outputs. Outcomes are often further categorized into immediate/direct outcomes and

intermediate outcomes;

Outcome Indicators: Outcome indicators measure the quantity and quality of the

results (change) achieved through the provision of services;

Programme: A group of similar projects and/or services performed by a

Ministry or Department to achieve a specific objective;

Project: A set of coordinated activities implemented to meet specific

objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a Programme;

Stakeholders - A group of people, organizations and institutions who have a direct

or indirect interest, or a role, in the project, or who affect or are

affected by it.

Outputs: These are the final products, goods or services produced as a result

of a project activities;

Performance indicator: A measurement that evaluate the success of an organization or

of a particular activity (such as projects, programs, products and

other initiatives) in which it engages;

EXECUTIVE SUMMARY

The preparation of this County Annual development Plan (CADP 2022/23) complied with the requirements of the PFM Act, 2012 which inter-alia lays emphasis on the CIDP as the overall guide in the budget making process and that each County is expected to prepare an Annual Development Plan (ADP) which is derived from the CIDP. The plan details the prioritized development Programmes and Projects to be implemented by the Government in the FY 2022/23. The implementation of the plan is expected to contribute to the realizing of the Government transformative Agenda and is integrated with the National and international Agenda.

The key priorities for the County Government as outlined in this ADP will focus on economic empowerment for sustainable livelihoods and will be anchored on: water development; infrastructural development; value addition; youth development, Payment of Pending Bills and Completion and Operationalization of ongoing programmes and projects.

The preparation of the plan entailed close collaboration with various stakeholders including the County leadership, the County Budget and Economic Forum (CBEF), County Government Departments, development partners and members of the public. The Plan was prepared using guidelines issued by the State Department for Planning and is outlined into the following five chapters:

Chapter One provides an overview of the county in terms of the location; size; demographic profiles; administrative and political units. It highlights a summary of the socio-economic and infrastructural information that has a bearing on the development of the county. The Chapter further summarizes the linkages between the County Annual Development Plan with the County Integrated Development Plan and the plan preparation process.

Chapter Two provides a review of implementation of the previous County Annual Development Plan. It summarizes key achievements of the sectors, payment of Grants, Benefits and Subsidies, challenges and lesson learnt from the implementation of the plan.

Chapter Three presents detailed departmental priority programmes and projects based on the Medium Term Expenditure Framework budgeting system. It also provides the sector vision, mission, development needs, priorities and strategies. In addition, the chapter analyses the programmes/projects and key stakeholders per department.

Chapter Four gives a summary of the proposed budget by programme and sector/ sub sector. It also presents risks, assumptions and mitigation measures during the implementation period.

Chapter Five highlights the monitoring and evaluation (M&E) framework that will be used to track progress on implementation of projects and programmes undertaken during the plan period. It also specifies objectively verifiable performance indicators that will be used to monitor prioritized programs and projects.

LEGAL FRAME WORK

The 2021/2022 ADP was prepared in reference with the following article of the Public Finance Management Act (PFM) 2012) 126 which stipulates that;

- 1. Every county government shall prepare a development plan in accordance with Article 220 (2) of the Constitution that include:
 - a) Strategic priorities for the medium term that reflect the county government's priorities and plans;
 - b) A description of how the county government is responding to changes in the financial and economic environment.
 - c) programs to be delivered with details for each program of The strategic priorities to which the program will contribute;
 - i. The services or goods to be provided;
 - ii. Measurable indicators of performance where feasible; and
 - iii. The budget allocated to the program;
 - d) Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;
 - e) A description of significant capital developments;
 - f) A detailed description of proposals with respect to the development of physical, Intellectual, human and other resources of the county, including measurable Indicators where those are feasible
 - g) Such other matters as may be required by the Constitution or this Act.
- 2. The County Executive Committee member responsible for planning shall, prepare the development plan in accordance with the format prescribed by regulations.
- 3. The County Executive Committee member responsible for planning, shall, not later than 1st September in each year, submit the development plan to the county assembly for approval, and send a copy to the Commission on Revenue Allocation and National Treasury.
- 4. The County Executive Committee member responsible for planning shall publish and publicize the annual development plan within seven days after its submission to County Assembly.

CHAPTER ONE

1.0 INTRODUCTION

1.1 Overview of the County

This section provides an overview of the county in terms of the location; size; physiographic and natural conditions; demographic profiles; and the administrative and political units. It also highlights a summary of the socio-economic and infrastructural information that has a bearing on the development of the county.

1.2 Location and Size

Nandi County being one of the 47 counties is located in the North Rift region of Kenya. The County is home to many world-renowned athletes which led to the county being branded 'Source of Champions'. The County lies between latitude 0034N and longitude 34045E to the West while the Eastern boundary reaches Longitude 35025E. It covers an area of 2,884.4 Km²; and borders Kakamega County to the West, Uasin Gishu County to the North East, Kericho County to the South East, Kisumu County to the South and Vihiga County to the South West.

MAP 1 LOCATION OF NANDI COUNTY ON KENYA'S MAP

Source: Nandi County Statistics Office (2017)

1.3 Physical and Topographic features

Nandi County comprises of five (5) distinct topographic features: the rolling hills to the West, the Kapsabet plateau, the Tinderet Volcanic mass, the King'wal Swamp and the Nyando escarpment on the Southern border.

The Kapsabet plateau stands at 2,020m above the sea level; and comprises of an undulating land surface traversed by various rivers among which is rivers Kipkaren, kimondi and Birei. The Tinderet highlands are an extension of the Kenya highlands and have in some places, rocks jutting out to height of 2,500m. Various rivers in the Tinderet highlands include Kipkurere, Kibos, Kundos and Ainabng'etuny which flow through forming deeply incised valleys. Some of these rivers produce substantial waterfalls and

rapids that have potential for harnessing hydroelectric power. Lastly, the Nyando escarpment comprises of extremely rugged terrain that consists of granite and volcanic rocks. The Equator runs alongside the scarp-line.

1.4 Ecological Conditions

Agricultural activity in the County depends on rainfall and altitude amongst other factors. 12 percent of the total land area comprises of forests. They include Tinderet, Serengonik, Nandi South and Nandi North forest which is an extension of the tropical Kakamega Forest. It is characterized by high rainfall and diverse species of trees.

The forests comprise of mixed indigenous hardwoods and exotic plantations at Kimondi and Serengonik forests measuring besides the 2,635.8 Ha. The total boundary length of forest in the county is about 363.8km. The medium potential areas are covered by shrubs and bushes and are mainly found on the eastern plateau parts and portions lying below the scarp on the Nyando plains. The Table 1 presents the various agroecological zones of the County; and the main agricultural activities and potential.

1.5 Climatic Conditions

The Northern parts of the County receive rainfall ranging from 1,300mm to 1,600mm per annum; while the Southern half which is affected by the Lake Basin atmospheric conditions receives rainfall as high as 2,000mm per annum. The County receives an average rainfall ranging from 1200mm to 2000mm per annum. The lowest rainfall is experienced in the Eastern and North eastern parts of the county, while the highest is recorded in the Kobujoi-Tindinyo area in Aldai Sub-County. Across Nandi, the highest rains are experienced in Kaptumo in Nandi South, Nandi Hills, Kapsabet and Kobujoi. The long rains start in early March and continue up to end of June; while the short rains start in mid-September and end in November. The dry spell is usually experienced from end of December to mid-March.

The rainfall distribution and intensity has a direct bearing on the economic activities in the County. Those areas that receive 1500mm and above (LH1 and UM1), are under tea cultivation. The relatively drier areas to the East and Northeast, which receive an average rainfall of 1200mm per annum, mainly grow maize, sugarcane and coffee. The reliability of rainfall across the County implies that it has high potential for growing a wide range of agricultural crops.

Most parts of the County experience mean temperatures ranging between 18oC to 22oC during the rainy season; but the part adjacent to the Nyando escarpment (at 1,300m above sea level), experiences average temperatures as high as 26oC. During the dry months of December and January, the temperatures are as high as 23oC; while in the cold spell, the night temperatures drop to as low as 14oC, in the months of July and August. The County in general has moderate to warm temperatures; with no cold and hot extremes throughout the year.

1.6 Administrative and Political Units

The county has six administrative units and 11 Divisions. Nandi County has a total of 99 locations and 299 sub-locations. The map 2 shows the sub Counties in the county

1.8 Population Size and Composition

Demographic characteristics are important in development planning as they provide a basis for sharing the limited resources. They also determine the size of labour force as well as the expected utilization of social amenities. Informed consideration of demographic characteristics enables sound decision making in the provision of essential services in urban areas.

1.10 Annual Development Plan Linkage with CIDP

The Kenya Vision 2030 is the National blueprint that forms the national development agenda that is being implemented through a series of 5-year Medium Term Plans (MTPs) and therefore the CIDP 2018-2022 has been aligned to the Vision through MTP III.

The county Government has prepared the County Integrated Development Plan (CIDP 2018-2022) which forms the basis for planning in the five-year period, as stipulated in Article 201 and 220 (2) of the Constitution and Part XI of the County Governments Act 2012. Additionally, Section 104 (1) of the County Governments Act states that a County Government shall plan for the county and no public funds shall be appropriated without a planning framework developed by the County executive and approved by the County Assembly.

The County Integrated Development Plan (CIDP) contains programs with specific goals and objectives, costed implementation plan, monitoring & implementation framework and clear reporting framework. The CIDP forms the basis for all the budgeting and planning in the county.

The County Annual Development Plan (CADP) guides resource allocation to priority projects and programmes in a particular year by linking the County Integrated Development Plan (CIDP) with the county annual fiscal plan – the budget. It prioritizes components of CIDP sectorial strategies and the long and medium term county development objectives to be funded in a given fiscal year.

1.11 MEDIUM TERM STRATEGIC PRIORITIES

The County Government of Nandi is committed to implementing priority programmes under the MTP III to achieve the aspirations of its inhabitants as outlined in the County Integrated Development Plan (CIDP 2018-2022) while taking into account the need to optimally allocate the scarce resources to high impact programs during the plan period. The county has since devolution set up a solid foundation for quality service delivery based on strong linkage between policy, planning, resources allocation and feedback mechanisms for delivering planned outcomes.

Whilst consolidating earlier gains, the Annual Development Plan for the period 2022/2023 will primarily focus on operationalizing and actualizing priority programmes aimed at economic transformation as anchored in H.E the Governors manifesto and agenda. These priorities notwithstanding, the Government will strive to ensure that public spending leads to high quality outcomes within a sustainable and affordable framework.

In this regard, spending will be directed towards the most critical needs at the backdrop of easing COVID 19 pandemic with its containment measures hence resources shall be redirected to the ongoing transformative and flagship projects from the COVID-19 response and containment measures with the view of bringing services closer to people.

It is worth noting that despite much investment on COVID-19 related supplies which mostly are consumables, the county was able to develop 2 fully equipped ICU facilities in Kapsabet and Nandi hills which are essential even as KCRH is destined to be level 5 hospital.

Further, the County Treasury will ensure that the sectors requests for resources are realistic and take into account the resource constraints due to declining economic performance nationally due to the effect of Covid -19 pandemic. In light of this, the Government priority programmes and projects will entail:

- Completion and operationalization of on-going projects: emphasis is given to completion, operationalization and equipping on-going capital projects and in particular infrastructure projects with high impact on poverty reduction, equity and employment creation, these include: Hospital Complex with Mother and Baby Unit at KCRH, Nandi Cooperative Creameries (NCC) at Kabiyet, Nandi Textile (NATEX), Eliud Kipchoge Modern Athletics training camp.
- Equipping with requisite equipment the complete yet not operational projects; these relate majorly to health facilities, ECDE centres and cooling structures among other
- *Post-Covid-19 Recovery;* Consideration is further given to interventions supporting Post-Covid-19 recovery as indicated in the socio-economic recovery and reengineering document including disaster and emergency preparedness.
- Settling of pending bills; the county government anticipates to settle the pending bills accrued and bring them to minimum levels
- Strategic policy interventions; further priority is given to policy interventions covering the entire county on social equity, socio-economic wellbeing especially on special groups interests and environmental conservation.

Strategic Priority I: Investment in health services; to ease accessibility to quality health care.

The Constitution underscores the "right to health" while the CIDP, the Medium-Term Plan III as well as the "Big Four" (4) agenda for the National Government recognizes provision of equitable, accessible and affordable health care of the highest attainable standards to all Kenyans under the Universal Health Care program.

The County Government prioritizes expansion and modernizing of Kapsabet County Referral hospital and equiping it with all essential drugs, medical supplies and specialized equipment necessary to handle all health related cases as well as referrals in view of upgrading to level five standard. In the FY 2022/23 and over the medium term, the County Government will bring to completion all the new health facilities, refurbish existing and adequately stock with requisite drugs and equipment all the sub-county hospitals and ward level Health Centres and dispensaries. This will reduce the radius of access to health care facilities to the desired less than 5km as per World Health Organizations standards. The prioritized programs and projects aim at achieving improved accessibility, affordability of health services, and reduction of health inequalities and optimal utilization of health services.

Strategic Priority II: Continued investment in Infrastructure.

Good Infrastructure is a key enabler to development of all the other sectors as it eases movement of goods, services and people thus facilitating Agriculture, Trade and commerce among others.

The county will scale up investment in infrastructure by opening up more new roads, upgrading and conducting routine maintenance of existing roads, as well as

construction of bridges and footbridges with the aim of significantly reducing the cost of doing business in the county and easing mobility. The Medium term investment in roadwork upgrade throughout the county will be realized through outsourcing road works contracts, use of county machines as well as hiring more equipment to complement the county owned machines. The County Government also intends to tarmack some kilometres within Kapsabet township to ease accessibility within the urban area.

Strategic Priority III: Boost agricultural productivity and cooperative development; to ensure food security and overall poverty reduction.

The County endeavors to increase agricultural production and profitability as a major enabler to potential rise in per capita income in the rural economy alongside production of primary raw materials that set stage for industrialization. Completion, equipping, operationalization and commissioning of the Nandi Cooperative Creameries at Kabiyet will be a great milestone. This is enabled by the continuous investment by the Government on the subsidized A.I program, continuous pest n disease control through disease surveillance and vaccinations to curb any disease outbreak as well as rehabilitation and construction of new dips to control disease causing pests as well as promoting cooperative movement by supporting community-led development strategies.

Strategic Priority IV: Infrastructural developments in Basic Education and Vocational Training facilities.

Over the Medium Term, the Government shall endeavor to increase access to quality basic education through provision of adequate bursary to all needy and deserving students; completion and equipping with furniture and reading materials all ongoing ECDE centres; provide partial scholarship to youths to acquire technical skills in our Vocational Training Centres as well as developing to standards the training centres.

Strategic Priority V: Increased accessibility to clean and safe water.

Efficient use of natural resources is central to economic, social and cultural development. Due to the finite nature of these resources they should be conserved and utilized in a sustainable manner. The County is undertaking strategies aimed at conserving the environment, natural resources and rehabilitation and protection of water resources which include ongoing preparation of the county spatial plan, developing land information system and issuing genuine title deeds to all land owners. Over the medium term the County Government shall endeavor to continue providing clean and accessible water to all residents in the County through completion and operationalization of all the ongoing water projects, with the aim of doing distribution lines to ensure a greater population of households is connected to clean and piped water.

Strategic Priority VI: Supporting Investment and Trade for Wealth and Employment creation aimed at creating jobs and improving the overall economic growth.

Trade is a key productive sector due to its immense potential for wealth and employment creation as well as poverty reduction. Given its catalytic effect to sustained inclusive growth and huge potential for job creation and poverty reduction, the County Government will deepen business regulatory reforms facilitate capacity building and simplify and modernize regime for small and medium businesses in order to amplify their multiplier effect on employment opportunities and accelerating growth.

Strategic efforts are being made to diversify markets by providing an environment conducive for business and ensuring that there is investor confidence. This is being achieved through construction and commissioning of market stalls, market shades and fresh produce markets in most trading centres as well as regulating open air markets across the County. All the ongoing construction of the bodaboda will be compled so as to support the youth against harsh weather. Further, the County is focusing on industries that are labour intensive, with the potential to export and increase market opportunities for small and medium industries. Among the interventions to be implemented in the year include completion, equipping and operationalization of the Nandi County textile at Mosoriot unit as well as recruitment of personnel to the industry.

Strategic Priority VII: Sports and Youth Empowerment

Nandi County is the indisputable source of world champions in athletics and other sporting activities with celebrated personalities. Over the medium term, the county will continue investing in sporting infrastructure and diversify its talent potential to include other sports and arts in order to consolidate and strengthen its position as a sports hub. Over the medium term and as a priority, the county will complete, equip with all necessary facilities the Kipchoge Athletics training camp, Nandi hills and Kaptumo Stadia as well as other ongoing sporting facilities in the County.

1.13 Preparation process of the Annual Development Plan

The plan was prepared through a participatory process and involved data collection from the County Government Departments and input from all other stakeholders. The departments prioritized their programmes and projects for the year in line with the guidelines from the State Department for Planning and the County Integrated Development plan (CIDP 2018-2022). Views from the sector stakeholders were also incorporated into the plan.

The preparation process of FY 2022/2023 ADP adopted a broad-based consultative approach. The department of Finance and Economic Planning organized for a meeting of the County Budget and Economic Forum with chief officers and the sub county administrators to review, select and prioritize departmental Strategies Programmes and Projects in the draft ADP. The proposed priority programmes and projects were later subjected to the members of the public for their input before approval of the plan by the cabinet. Upon approval, the plan was submitted to the County Assembly for deliberation and approval in line with the legal provisions.

CHAPTER TWO

2.0 REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

This chapter provides a review of sector/ sub-sector achievements, challenges and lessons learnt.

2.1 HEALTH AND SANITATION

2.1.1 Introduction

Department of Health and sanitation is among the largest department in the county therefore a lot pertaining development have been realized. In the FY 2020/2021 the department was allocated **Ksh.462,772,918.00** for the development programs which included works in progress from the FY 2019/2020

2.1.2 The strategic priorities

- ✓ Strengthen referral systems
- ✓ Enhance availability of modern medical equipment in health facilities
- ✓ Scale up specialized services
- ✓ Establish youth friendly services
- ✓ Increase the rate of skilled deliveries.

TABLE 12: ANALYSIS OF PLANNED VERSUS ALLOCATED BUDGET

s/n	Programs for Development	Planned Budget	Actual Budget
1.	Renovation of facilities	90,000,000	60,000,000
2.	MCH (PHASE IV)	90,000,000	0
3.	New Morgue	30,000,000	0
4.	Incinerator at KCRH	5,000,000	0
5.	Kobujoi Hospital Complex	10,000,000	5,000,000

7.	Utility Vehicles	12,000,000	0
8.	Mogobich health Centre	0	10,000,000
9.	Chepterwai hospital complex	0	50,000,000

2.1.3 Key achievements

- The department managed to acquire medical equipment.
- Construction of new hospital complex with mother and Baby unit at the KCRH ongoing.
- Acquisition of 10 more fully equipped ambulances
- Ongoing Construction, renovation and equipping of health facilities across the county.
- Oxygen plant established and fully operationalized at Kapsabet.
- Generators installed both at KCRH and Nandi hills Sub County hospital

2.1.5 Challenges experienced during implementation of the previous ADP (2020/2021)

- ✓ Late release of development funds from the exchequer
- ✓ Delay in the procurement of works and services due to late supplementary budget done

2.2 TRANSPORT AND INFRASTRUCTURE

2.2.1 Introduction

During the financial year 2020/2021, the department of Transport and Infrastructure was allocated a total of Ksh.443, 939,552 for development projects. These include the works in progress for the FY 2019/2020. The department's key priority areas were; improving of the existing road network to sustainable standards and opening up of new roads to improve access and enhance connectivity in the rural areas. The department surveyed and opened up new and existing roads that had been encroached especially in the urban Centres.

2.2.2 Strategic priorities of the sector

- Opening up new roads and construction of bridges and footbridges to improve accessibility through collaboration with relevant authorities (KeNha/Kura/Kerra) to give priority for upgrading roads to bitumen standards
- Acquisition of murram for road works
- Establishing an independent road survey department
- Establishing a Materials Laboratory for material testing. Acquiring concrete batching plant & concrete self-loading machines, mobile concrete truck Mixer and self-loading concrete mixer and all necessary machines to improve on construction of culverts, box culverts and bridges
- Design, develop and maintain/repair institutional facilities.
- Supervision of construction works for institutional facilities.
- Establishing a Quality assurance and Quality control unit to supervise all concrete works in the County.

2.2.3 Key Achievements

A significant progress was noted in the implementation of projects of FY 2020/2021 as most of the projects are complete. Implementation of a few projects was carried forward to the financial year 2021/2022.

- The department graded 195Km and graveled 135kmof road under RMLF.
- The department graded 238.3km and graveled 89.9km of road using county and hired machinery
- It also constructed 2 bridges
- Completed opening up of new roads whose implementation commenced in the financial year 2019/2020
- The department also supervised 83 projects from other county departments
- The department installed 1500m of culverts in the County.

2.2.6 Payments of Grants, Benefits and Subsidies

TABLE 19: PAYMENTS OF GRANTS, BENEFITS AND SUBSIDIES

Type (e.g.	of	payment	Budgeted Amount (Ksh.)	Actual Amount paid (Ksh.)	Beneficiary	Remarks*
Road Levy F			160,365,516		30 wards in Nandi county	allocated. 25 projects
						are complete and 22

are ongoing.

2.2.7 Challenges experienced during implementation of the previous ADP

- Delay in disbursement of funds by the National Treasury
- Limited financial allocations to projects
- Resistance by residents to road expansions

2.2.8 Lessons learnt and recommendations

- There is need for increase capacity building for staff
- Ensure an inclusive Public participation in the plan preparation
- There should be a monitoring and evaluation structure in place
- The National Government should ensure timely disbursement of funds to the counties to facilitate timely project implementation.
- The project implementers should stick to the strategic plan, work plans and procurement plan in place.

2.3 AGRICULTURE AND COOPERATIVE DEVELOPMENT

2.3.1 Introduction

The Department of Agriculture and Cooperative Development is charged with the responsibility of improving agricultural productivity, food security and strengthening cooperative movement. In the FY 2019/2020, the Department of Agriculture and Cooperative Development was allocated kshs 521,460,153 against a proposed budget of 545,000,000 in the ADP for its development programmes and activities.

2.3.2 Achivements

- 1. Construction of cooling structures 29 complete.
- 2. Construction of the milk processing plant (phase I) is complete, phase II is ongoing
- 3. Purchase of equipment for the milk processing plant.
- 4. Renovation of 48 cattle dips and construction of 6 new cattle dips complete.
- 5. Promotion of 10 new societies
- 6. Revival of 3 dormant societies.
- 7. Dairy union aggregated and marketed over 400,000 litres of milk during the last financial year.
- 8. Avocado cooperative society aggregated and marketed over 10 tonnes of avocado fruits.
- 9. Technical staff underwent alternative dispute resolution training.

COMPONENT 3: COUNTY COMMUNITY LED DEVELOPMENT

Multi Community Investments Supported							
1. SLM Projects	Implementation Status/ remarks						
Kamasia Catchment conservation	Completed						
Chesumei Catchment conservation	95% Completed						
Kamasia Mass gravity dam and micro- irrigation	Approved by NTAC, pending finalization BQs & designs						
Lengon Valley catchment conservation	Approved by NTAC, implementation to start after completion of Chesumei						
2. Value Chain Infrastructure investments							
NDCU Milk processing equipment	Completed, pending completion of works and installation						
Nandi Avocado Pack house	Approved by NTAC, pending finalization BQs & designs						

2.3.4 National Value Chain Support Programme Nandi Achievements

- 1. 4 county agro dealers up scaled and capacity built
- 2. 19,000 farmers registered in the wards.
- 3. 3,700 farmers issued with subsidized inputs at the rate of 40% subsidy and 60% farmers contribution.
- 4. 30,000 additional acreages under maize increased.

2.3.5 The Strategic Priorities

- Promotion of sustainable food security
- Development and adaptation of new Agricultural technologies
- Aggregation and storage of food crops.
- Value addition and processing of agricultural produce.
- Development of livestock enterprises.
- Creation of disease-free zones.
- Development of fish enterprises.
- Aggregation and marketing of milk and coffee produce
- Intensify capacity building in cooperatives governance

TABLE 24: ANALYSIS OF PLANNED VERSUS ALLOCATED BUDGET

In the financial year 2020/2021 allocated development funds amounted to 521,460,153

No	Programme for Development	Planned Budget	Actual Budget
1.	Construction/Rehabilitation of New dips	18,000,000	17,400,000
2.	Subsidized AI programme	30,000,000	10,000,000
2.	Countywide	30,000,000	10,000,000
3.	Purchase of vaccines and Sera	20,000,000	10,000,000
	Countywide	, ,	, ,
4.	Establishment of Waste disposal management	10,000,000	15,000,000
	system for NCC in Kabiyet	100 000 000	2 (000 000
5.	Purchase of milk processing equipment and operationalization	100,000,000	36,000,000
6.	Establishment of Logistical support (bulk transport)- purchase of tankers, trucks and dispensing coolers and operationalization of the cooling structures In all the 30 wards	30,000,000	0
7.	Fuel for e-extension and Agricultural Mechanization Services (AMS) machinery in Headquarters	5,000,000	0
8.	Purchase of Liquid nitrogen Countywide	6,000,000	0
9.	Seed multiplication center (coffee seeds Tissue culture bananas Avocados Macadamia, Irish potatoes) Countywide)	10,000,000	0
10.	Construction and equipping of a coffee milling plant	100,000,000	0
11.	Construction and equipping of maize milling plant	50,000,000	0
12.	Purchase of coffee seeds, assorted equipment and coffee pulping machines Countywide	15,000,000	3,000,000
13.	Establishment of Agriculture Extension Mobility scheme Countywide	10,000,000	0
14.	Purchase of fish sein nets and assorted equipment Countywide	4,000,000	0
15.	NARIGP Counterpart funds	6,500,000	6,500,000

2.3.7 Payments of Grants, Benefits and Subsidies

This section provides information on total payments done by the county government.

 TABLE 27:
 PAYMENTS OF GRANTS, BENEFITS AND SUBSIDIES

Types of payments	Budgeted amount	Actual amount paid ksh.	Beneficiary ksh.	Remarks
NARIGP	6,500,000	6,500,000	CIGS	
ASDSP	5,500,000	5,500,000	18,965 value chain actors	

Remarks: These are the counterpart funds from the County Government of Nandi and the development partner's contribution to both projects.

2.3.8 Challenges experienced during implementation of the previous ADP (2020/2021)

- Slow procurement process affecting implementation.
- Cooperatives audit services were never offered due to lack of staff in the department
- Inadequate human resource in the department in all directorates
- Low adoption of the fish enterprise.
- COVID -19 pandemic with its containment measures affected the project implementation.
- Delayed rains
- Late acquisition of inputs
- Problem in the use of Equitel lines by farmers- there is a lot of incomplete transactions.
- Validated bean seeds were not available during the season i.e. Rose cocoa beans.
- Late funding of farmers' lines hence late planting and expected to affect the overall crop performance.
- Climate change effects like erratic rains, hailstones and floods. These have resulted to low production to total failure of the crop in some areas due to either poor germination or wilting of crops.
- Unreliable supply of recommended certified seed and especially Rose cocoa and Chelelang bean Varieties. Commitments by the seed companies like Kenya seed and Egerton University of the availability of the seed during the technology validation Stakeholders workshops did not guarantee reliable and adequate supply
- Inadequate cooperative audit staff
- Cooperative audit services were low due to the very few audit staff.
- Inadequate cooperative governance training
- High demand of coffee seeds/machines'
- Delayed disbursement of funds and limited resources thus hampering service delivery.

2.3.9 Lessons learnt and recommendations

- Long process of tendering and payment of contractors has delayed project implementations
- Budget constraints has affected departments' project implementation.
- Farmers appreciated demand driven projects e.g. Field day demonstrations, trainings, tours, shows and exhibitions.
- Increase funding for training of staff and farmers.
- Farmer mobilization for programme uptake has to effectively start very early
- All programme partners need to be on board early into the programme
- County Agriculture field officers need to be committed to their farmers need and targets

- Budgetary allocation for recruiting more staff in the departments and allocation for emergencies be allocated to cater for the uncertainties encountered- COVID 19
- Enhance project funds.
- Employ more cooperative audit staff.
- Intensify education and training on cooperative governance to minimize wrangles in societies.

2.4 EDUCATION AND VOCATIONAL TRAINING

2.4.1 Introduction

During the financial year 2020/2021, the department of Education and Vocational Training was allocated a total of Ksh.168, 368,483 for development. This includes the works in progress for the FY 2017/2017, 2018/2019 & 2019/2020. The department planned for a number of projects including completion of ECDE classrooms and VTC projects under historical pending bills, providing of teaching & learning materials to 78 ECDE Centres and establishing a new Vocational Training Centres at Kamarich in Aldai sub County.

2.4.2 Education and Vocational Training Achievements in the Previous Financial Year

- 1. In order to increase the net enrolment rate in Early Childhood Education, the department managed completion of 29 ECDE Centres with an additional 89 centres funded in FY 2017/2018, 2018/2019 & 2019/2020 ongoing across the county at various levels of implementation.
- 2. Complete construction of 9 VTC classrooms across the our Vocational Training Centres
- 3. Construction of new Jean Marie VTC administration block.
- 4. The disbursement of bursaries was largely affected by the effects of the Covid 19 pandemic which saw departmental allocation for bursaries of about Ksh 30Million being reallocated towards the fight of the virus. However, to increase access to Education at all levels of Education & training, the department managed to disburse bursaries to about 1,387 needy students.

2.4.3 The strategic priorities of Education and Vocational Training

- 1. Construction of ECDE centres across the county.
- 2. Provide modern teaching and learning materials to all ECD centres.
- 3. Recruit suitably qualified care givers and instructors in all ECDE centres and Vocational Training Centres respectively.
- 4. To increase access to education by providing bursaries to the needy students.
- 5. Completion of all stalled projects and construction of new Vocational Training Centres.

2.4.4 Analysis of planned versus allocated budget

	Programmes for Development	Planned budget	Allocated Budget
1.	Development of Early Childhood Education	120,255,000	105,598,658
2.	Development of Vocational training	90,000,000	62,769,825

3.	General education	120,000,000	60,000,000
	Total Development Expenditure	330,225,000.00	228,368,483

Education	60,000,000	14,000,000	The disbursement of bursaries was largely affected
Bursary fund			by the effects of the Covid 19 pandemic which saw
-			departmental allocation for bursaries of about Ksh
			30Million being reallocated towards the fight of
			the virus. However, as the school calendar
			resumes, the department managed to disburse
			bursaries to about 1,787 needy students' thus
			increasing access to Education at all levels of
			Education and training.
Subsidized youth	27,255,000	0	The allocation for the year under review had not
polytechnic			been released by the treasury as at the close of
tuition			financial year.

2.4.6 Challenges experienced during implementation of the previous ADP

- 1. Covid 19 pandemic affected the implementation of the departments plan.
- 2. Due to the limited funding by the treasury, the department plans was largely affected resulting to adopting other plans of construction a single classroom rather than an ECDE centre.
- 3. The department submitted its projects to the department of finance on time for tendering process but this was slowed down by delay in release of funds by the treasury

2.4.7 Lessons learnt and recommendations

- 1. The department should consider strictly follow the departmental work plan of projects to ensure that there is a progress in the implementation of the projects. Going to another financial year before even procuring the previous works has been a great setback of the department.
- 2. The department of finance should provide support in monitoring the implementation of the plans by the department.

LANDS, ENVIRONMENT AND NATURAL RESOURCES

2.5.1 Introduction

The department of Lands, Environment, Natural Resources and Climate Change is one of the core departments undertaking four programs; water service provision, Environmental conservation and protection, land survey and registration and physical planning.

The Department was allocated ksh 423,436,212 for development projects in FY 2020/2021. Water projects (69water projects) are at the procurement stage, this is due to late disbursement of funds. Development of Nandi County spatial plan; to guide land

use is at 60 percent, the process is ongoing. To increase the forest, cover the department partnered with Food and Agriculture Organization (FAO), Anglican Development Services (ADS) among others

2.5.2 Strategic Priorities

- 1. Rehabilitating dormant water projects
- 2. Drilling boreholes and encourage use of gravity water
- 3. Maintaining the existing water projects
- 4. Protecting and conserving existing water sources
- 5. Identifying and restoring wetlands and, riparian ecosystems
- 6. Mapping natural resources within the County
- 7. Mainstreaming climate change in County programmes, plans and policies
- 8. Issuing title deeds to families
- 9. Preparing County Spatial Plan
- 10. To provide plans for 6 urban centers

2.5.3 Analysis of Planned Versus Allocated Budget 2020/2021

		Planned	Allocated
s/n0.	Programmes for Development	budget	Budget
	Construction and operationalization of water		
1.	projects	140,000,000.00	90,000,000
	Spring protection and distribution of clean water in		
2.	each ward -county youth service	24,482,451	00.00
3.	Wetland's conservation, Environmental Protection,		
	Mapping and tree planting	10,000,000.00	2,739,278.00
4.	Land Surveys and registration assistance	10,000,000	0
5.	Subsidy to KANAWASCO	4,000,000	10,000,000.00
6.	Development of a county Spatial Plan	40,000,000.00	15,000,000.00
7.	Works in progress	212,649,569	177,167,118
8.	Pending bills	88,673,522	58,673,522
9.	DONOR FUNDING		
10.	European union water towers	1,632,376	60,669,094.00
	Total Development Expenditure	493,294,532	352,812,131

2.5.4 Key Achievements

- 1. 100 water projects have been completed and operationalized
- 2. Drilling rigs fully equipped with compressors,5boreholes drilled among them
 - Taboyat Water Project
 - Koitale Samoei Borehole
 - Stephen Kositany Secondary Sch Borehole
 - Kapkechui Borehole Wp
 - Kakiptui borehole Wp
- 3. Approximately 200,000 tree seedlings both in public and private lands were planted
- 4. Kingwal and Kibirong Wetlands have been identified and is in the final stages of being Gazetted as Water Towers
- 5. Wetlands Conservation and Management Policy and Act of 2021was approved and enacted, Climate Change Policy and Climate Change Fund Act of 2021 was formulated and gazette and Kingwal and Kibiron Wetland Management Plans 2021-2025 was developed in partnership with FAO

- 6. Digitization of land records on progress. GIS Lab fully operational
- 7. County Spatial Plan preparation is ongoing, Situational Analysis is ready, works are at 60%.

ADS

(KANAWASCO)

The subsidy given to KANAWASCO is to assist the company break even since the revenues collected cannot sustain it.

2.5.7 Challenges experienced during Implementation of the Previous ADP

- 1. Late disbursement of funds by National Government
- 2. Lack of design equipment for designing of water projects.

DAVMENTS OF GRANTS RENEETS AND SURSIDIES

- 3. Reallocation of funds during supplementary budget affected departmental work plans
- 4. Limited resources made it difficult for some sectoral projects to kick-off(survey), this delayed implementation of county spatial plan which is behind schedule
- 5. Covid-19 pandemic delayed most of the project works and also contributed to reallocation of funds
- 6. No electrical power connection to some of the completed projects were not done, making the project not operational
- 7. Most project works done at the source hence minimal or no connections done
- 8. Political interference, projects implemented are not done on need basis but are politically driven.

2.5.8 Lessons Learnt and Recommendations

1. Increase capacity building

TABLE 33.

Subsidies (KANAWASCO) 10,000,000.00

- 2. Need for Transparency and accountability in procurement process
- 3. There is need for proper project planning especially those done in phases to ensure adequate resource allocation and timely completion
- 4. More solar pumping system and gravity projects should be considered in planning for cost effectiveness and sustainability rather than depending fully on electricity
- 5. Priority of resource allocation should be done on incomplete projects
- 6. There is need for more resource mobilization from development partners to facilitate all the departmental planned activities
- 7. Emphasize on hydrological survey & design and prior site visits so as to get the right project scopes and in deriving the correct Bill of quantities
- 8. Engage stakeholders, external funding and donor funding, in resource mobilization to avoid limited/lack of funds for projects.
- 9. Encourage use of solar power system, gravity schemes and hydrum system instead of electricity as source of power, to reduce on expenses
- 10. County government should encourage project ownership so as the locals can come up with project maintenance and sustainability plans
- 11. Ensure close project monitoring and supervision to avoid project delays and come up with project risk management strategies to reduce effects of uncertainties like the effects of Covid-19 pandemic.

2.6 SPORTS YOUTH AFFAIRS AND ARTS

2.6.1 Introduction

During the financial year 2020/2021 the Department of sports, youth affairs and arts was able to plan for two programmes: sports development and youth affairs and arts development. The sub-programmes include: sports activities, implementation of projects rolled over from previous years and Youth empowerment programmes that is Nandi Youth service

2.6.2 The strategic priorities

- 1. organize and facilitate local and national sports competitions.
- 2. Upgrading of community sport fields.
- 3. Completion of a Modern Training Camp
- 4. Improvement of sports grounds.
- 5. Completion of Nandi Hills and Kipchoge Stadia.
- 6. Encourage youth to form SACCOs to facilitate savings and borrowing.
- 7. Empowering youth through income generating activities e.g., acquisition of welding machines and mechanical tool boxes
- 8. Recruit skilled and unskilled youth labor force to the Nandi County Youth Service to reduce unemployment and its effects

Analysis of planned versus allocated budget

S/No.	Programmes for Development	Planned	Allocated
		budget	Budget
1	Sports development	193	89M
2	Youth development	102	42M
	Total Development Expenditure	295	131M

2.6.3 Key achievements

a) Nandi County Youth Service

The department was able to empower 630 youths by recruiting them—to county youth service. The youths were able to help in cleaning of market places, desilting of water weirs, repairing of distribution pipes as well as doing drainage works in the county roads.

b) Sports activities

In partnership with Athletics Kenya the department was able to organize and facilitate five local and national sports competitions namely; -Under 20 trials, Eldoret city marathon, county, regional and national cross-country competitions.

c) Implementation of projects rolled over from FY 17/18, 18/19 & 19/20

The department oversaw the implementation of projects rolled over from the previous financial years resulting to completion of two community sports fields namely Ndurio & St. Augustine Muruto and two sports grounds namely Kaptumo and Kipchoge Annex sports grounds while Eliud Kipchoge modern training camp phase I was at 95% and phase II was at 85%, Nandi hills stadium phase IV was at ongoing at 60%

2.6.4 Analysis of Capital and Non-Capital projects of the previous ADP

In the year under review, the sector undertook various development projects and programs geared towards nurturing and promoting talents and sports as well as mainstreaming youth programs, tapping and nurturing talent among artists.

- 1. In order to promote sports and talent among youths, the department in partnership with the Athletics Kenya was able to organize and facilitate five local and national sports competitions namely; -Under 20 trials, Eldoret city marathon, county, regional and national cross-country competitions. In addition, the department oversaw completion of two community sports fields namely; Ndurio and St. Augustine muruto making the total number of improved community sports fields to eight from six previously.
- 2. The department was also able to do 95% of phase I and 80% of phase II of Eliud Kipchoge modern athletic training camp. The Nandi hills stadium phase III was stalled while phase IV was ongoing at 50%. In addition, Kaptumo sports ground was at 80% while Kipchoge Annex sports ground was at 75% of completion.
- **3.** To mainstream youth programs, tap and nurture talent among artists the department initiated Nandi County Youth Service programme that saw 630 youths being recruited to the programme from the initial budget target of 600. The youths were able to help in cleaning of market places, desilting of water weirs, repairing of distribution pipes as well as doing drainage works in the county roads.

TABLE 35: PERFORMANCE OF CAPITAL PROJECTS FOR THE PREVIOUS YEAR 2020/2021

	_	financially					

2.6.5 Challenges experienced during implementation of the previous ADP

- 1. Delayed preparation of BQs for some projects e.g BQs for maintenance of sports fields delayed the implementation
- 2. Inadequate allocation of funds to projects negatively affected their implementation e.g Fencing of Kipchoge annex sports ground
- 3. Delay in availing of funds on time which slowed down the implementation process e.g Nandi Hills stadium
- 4. The outbreak of COVID-19 with the accompanying protocols on containment measures led to scaling down of sports programs in the county.
- 5. Ceilings in the budget could not allow implementation of some programs
- **6.** Underestimation of scope of work leading to re-adjustment of the Bill of quantities e.g kaptumo sport ground.

2.6.6 Lessons learnt and recommendations

1. Sites visits should be done before preparation of the BQs to avoid readjustment

- 2. Monitoring and evaluation is very fundamental in the whole process of implementation of projects
- 3. Continuous close supervision of projects to ensure timely execution of works by the contracted firms

	Programmes for Development	Planned budget	Allocated Budget
1	Tourism development	10M	0
2	Promotion and conservation of culture and	57M	0

- 4. The funds should be availed in time by the county finance department
- 5. The department should carry out pre-project evaluation so as to enable effective budgeting
- 6. The department should put COVID-19 containment measures in place to allow gradually resumption of sports programs
- 7. There is need for ealy preparation of BQs so as to ensure timely implementation of projects

2.7 TOURISM, CULTURE, GENDER AND SOCIAL WELFARE

2.7.1 Introduction

During the Financial Year under review, the Department of Tourism, Culture, Gender and Social Welfare was allocated Kshs. 5M for new development programmes and Ksh 22,898,000 as works in progress. The department planned for three programmes: Tourism development with an aim of developing Nandi Rock tourist site and profiling and documentation of tourism sites across the County. It also planned to promote and conserve culture and heritage by developing Kamatargui culture centre, provision of uniforms to cultural groups and collection of artifacts. The Social Welfare sector planned to promote socio-economic empowerment of vulnerable groups by distributing assistive devices and constructing an empowerment centre at Mosoriot.

2.7.2 Strategic Priorities

- 1. To increase the number of tourists to the County.
- 2. To enhance the Nandi culture by preserving and promoting culture heritage for sustainable development.
- 3. Improve the livelihood of the vulnerable members of the society by providing care and support.

2.7.3 Analysis of ADP versus Budget

One out of the 15 projects in the ADP was funded in the budget while the other 14 were not captured in the budget for financial year 2020/2021. This therefore requires that all the 8 projects not funded in FY in 2020/2021 be considered in the subsequent plans.

	heritage		
3	Social and Economic empowerment	118M	5M
	Total Development Expenditure	185M	5M

2.7.4 Key achievements

- 1. The department celebrated and honoured the County's heroes and heroines by holding the annual Koitaleel Samoei Mausoleum in Nandi Hills.
- 2. Conducted authentic & memorable experiences to tourists with an objective of showcasing the normal in travel, encourage domestic travel and instill confidence in the local tourists to travel.
- 3. Training of tourism & hospitality stakeholders virtually on classification criteria by TRA with an objective of improving standards & quality assurance in the industry.
- 4. Promotion of sports tourism through courtesy call of CS of tourism and wildlife to our county (Eliud Kipchoge complex) that promotes Nandi County as a destination of choice.
- 5. Participated in forest conservation and biodiversity during tree planting day in order to enhance ecotourism as a product
- 6. Development of a tourism Bill pending cabinet approval
- 7. Sensitized cultural officers on the UNESCO 2013 and 2015 conventions on culture as well as on the protection of cultural expressions Act 2016, indigenous Knowledge documentation
- 8. Development of cultural heritage bill 2020 awaiting cabinet approval
- Worked with and facilitated the Nandi Kaburwo as well as Myoot council of elders on cultural preservation e.g return of cultural/leadership artifacts from Baringo County
- 10. To cushion the vulnerable members of the society from effects of Covid-19, the sector distributed a 51kg food package to 1500 vulnerable and PWD individuals.
- 11. It also signed a MoU with the Kenya Society for the Blind that has facilitated distribution of 87 white canes and 64 packages of food stuff to the blind. In collaboration with Kings Ambassadors Christian Ministries, the department donated 71special wheelchairs, 26 transport wheelchairs, 105 walkers, 13 white canes and 7 crutches to Pwds across the County. This has led to economic and social empowerment of vulnerable groups across the county.
- 12. In collaboration with Irrip Gaa group of ladies and Equality Now, the sector initiated a girls and women empowerment programme with an aim of reducing cases of teenage pregnancies and sex & gender based violence in the County with focus on Aldai and Tindiret sub counties. It is also in the process of establishing a Safe house at Kapsisiywa health centre. Furthermore, in collaboration with Child line Kenya and the Call Centre, has addressed issues of child abuse within the County.
- 13. To cushion the vulnerable members of the society from effects of Covid-19, in partnership with Church of Jesus Christ for the Latter day Saints distributed a 51kg food packs to 1500 vulnerable families across the County and a 26kg kitchen packs containing a 2kg maize seeds, 2kg bean seeds, 10kg DAP, 10kg CAN and indigenous vegetable seed to 800 vulnerable families across the County.

TABLE 37: SUMMARY OF SECTOR/SUB-SECTOR PROGRAMMES

Programme name: Tourism development
Objective: To explore tourism potential in Nandi County and market it as an excellent tourist destination

Outcome: Tourism potential in Nandi County developed and tourist arrivals into the County increased

2.7.5 Challenges experienced

- 1. Limited budgetary allocation for projects
- 2. Encroachment of existing tourism and cultural sites and some sites lie on private land.
- 3. In accessibility of some tourist and cultural sites.
- 4. Outbreak of Covid-19 pandemic and subsequent restrictions derailed implementation of some programs.

2.7.6 Lessons learnt during the implementation of the previous ADP

1. It is important to actualize planned activities through funding and implementation i.e monitoring and evaluation.

Due to limited resources, there is need for the department to explore funding from other sources such as donors and sponsors so as to achieve their objectives.

2.7.7 Recommendations.

Need to establish departmental Monitoring and Evaluation committee to spearhead Monitoring and Evaluation of all projects in the department through including collection of baseline data and information and provide feedback mechanisms between the citizens and the department.

2.8 ADMINISTRATION, PUBLIC SERVICE AND E-GOVERNMENT

2.8.1 Introduction

Department of Administration, Public Service and e-Government is one of the core departments in the county therefore a lot pertaining development should be realized. In the FY 2021/2022 Administration, Public Service and e-Government was allocated Ksh. 332,783,932, for the development, which translated to five projects and Ksh. 36,904,604.00 As works in progress from the FY 2020/2021 projects, this translated to eight projects.

2.8.2 Administration, Public Service and e-Government Achievements in the Previous Financial Year

- 1. In enhancing service delivery, the performance contracting unit was able to conduct signing of the performance contracts by the CECMs, chief officers and the directors. The department also undertook a human resource audit in regard to the staff establishment leading to proper placement while identifying capacity gaps in various departments. Although the department did not manage to complete the governors block as targeted it was able to align documentation and billing of quantities hence enabling the process of completion commence.
- 2. Urban areas Planning and management was improved through the completion of Nandi hills bus parks adding to the earlier completed Kapsabet bus park. The department also managed to enhance sanitation in Kapsabet municipality financed by the World Bank funds by constructing an ablution block at Kapsabet bus park, and extending the sewer line by 1.5km so as to handle the increasing population. To achieve improved solid waste management, the department did acquired five waste receptacles which were distributed to major urban areas including Kapsabet, Nandi hills, Mosoriot, kabiyet, Baraton, and Kaptumo. Enhanced town planning was also attributed to the completion of the six kilometer non-motorized transport facilities within the Municipality. The department also managed to complete street lighting and seven high mast floodlights in Major Street and urban areas.
- 3. Improved disaster preparedness and risk management though with minimal financing, was achieved leading to improved resilience and better capacity to prevent and mitigate disasters, and this was attributed to the functional disaster response unit which was able to map disaster prone areas within the county
- 4. In enhancing communication through information and Communication Technologies , the department operationalized (--) HMIS and e- memo software during the year under review. The fleet management was still under piloting stage. The prior completed data and call center also contributed to achieving of the outcome hence improved management of public complaints/ compliments, suggestions and emergencies

2.8.3 Strategic priorities

1. To develop adequate office space

- 2. To have properly planned urban areas and trading centres.
- 3. To improve disaster preparedness and risk management
- 4. To provide modern orderly, spacious, accommodative and suitable bus parks and parking bays
- 5. To provide conducive, spacious and business -friendly modern markets.
- 6. To provide suitable solid and liquid waste management solutions
- 7. To improve security in Kapsabet Municipality and other urban areas.
- 8. To improve public service delivery using ICT

2.8.4 Challenges experienced during implementation of the previous ADP

- 1. Reallocation of funds to projects that were not budgeted for initially leading to some projects being omitted in the final implementation work plan.
- 2. Slow procurement / weather patterns/ approvals process occasioned a delay in the implementation of some KUSP programs hence being behind schedule The municipality experienced delays in getting written approvals from government entities (KeNHA, KCCA, Keny a Power, KENAWASCO, Optic Companies)
- 3. Delay in preparation of technical documents for completion of Governor's Office Block
- 4. Change of priorities occasioned by arising political interest on wards within the municipality.

2.8.5 Lessons learnt and recommendations

- 1. There is the need to streamline the urban centers that require street lighting, it was costly to run the lighting in every urban center without proper designs and plans
- Nandi hills and Kapsabet requires a fire stations for quick responses in case of fire emergencies
- 3. The county should increase funding to sewerage system in major urban areas hence improving liquid waste management and general urban sanitation

2.9 TRADE, INVESTMENT AND INDUSTRIALIZATION

2.9.1 Introduction

Department of Trade, Investment and Industrialization is one of the departments that contribute to the economic pillar in the county. In the FY 2020/21 the department was allocated **Ksh.36,339,318** for the development, also, the department was allocated **Ksh.26,660,682** to settle historical pending bills. A total amount of **43,397,232** was brought forward as works in progress from the FY 2019/20 projects. In the current FY 2021/2022 the department is focused on completing and operationalizing all the projects.

2.9.2 Trade, Investment and Industrialization Achievements in the Previous Financial Year

2.9.3 Sector strategic priorities

The strategic priorities of the sector include:

- 1. Providing modern market stalls and other physical market infrastructure to traders
- 2. Facilitating the promotion of exports, creation of an investment friendly climate by having clear regulations and incentives for investors in Nandi County
- 3. Promoting fair trade practices
- 4. Promoting manufacturing and agro-processing industries to create value addition of local raw materials and products
- 5. Organizing trade shows, fairs and exhibitions
- 6. Establishing Nandi County enterprise development fund

- 7. Establishing business incubation centers across the county
- 8. Establishing and developing cottage industries
- 9. Automation of licensing

2.9.4 Analysis of ADP versus budget

Most of the projects which had been planned in ADP were not budgeted in the 2020/2021 FY. 21 out of the 40 projects in the ADP was funded in the budget while the rest was not captured in the budget, this therefore shows that the projects which was not captured in the budget should be prioritized

	Programme name	Planned budget	Allocated budget
1	Trade development	29M	9.3M
2	Weight and measures	2M	0
3	Enterprise development	13M	7M
4	Investment promotion	2M	0
5	Industry development	18M	20M
-	Total development expenditure	64M	36.3M

2.9.5 Key achievements

- 1. Progress has been registered in the industrial development section with the establishment of a textile and apparel unit in Mosoriot. Upon completion, the unit under construction is expected to expand employment opportunities to the residents of the county and attract investors. Other achievements recorded in the section include construction of jua kali shades in kurgung and maraba market which are yet to be issued, notably, jua kali shades in lessos and chepterwai are yet to start
- 2. The department has further promoted fair trade practices in the county by calibrating and verifying weight and measures instruments. Calibration and verification of instruments has enhanced consumer protection and improved fairness in business community. In addition, technical training for one officer has been facilitated on trade fairs practices especially calibration of instruments at the factories. Furthermore, weight and measures standards have been procured and a workshop is yet to be equipped
- 3. The department has improved enterprise sector by constructing a business incubation Centre in kapsabet town which is nearing completion. The incubation centre will help many business people in our county to access more information and learn on issues pertaining business. Furthermore, the department has constructed boda boda shades across the county.
- 4. Market sanitation has improved through the construction of ablution block in kaiboi market and the department is yet to tender 3 more ablution blocks namely, serem, tindinyo and mosombor
- 5. Promotion of trade development has been realized through construction of modern market stalls in lessos market. The 9 stalls in lessos market is on the process of being issued through the market management committee. The department also managed to complete and operationalized kamungei livestock sale yard which had stalled for some time.

	Programme name: Tr	ade developme	ent

2.9.6 Challenges experienced during implementation of the previous ADP

This section provides detailed information on the challenges experienced by the department during the implementation of the previous plan. -Some of the challenges include:

- 1. Inadequate allocation of funds to sector programs
- 2. Lack of a means of transport to facilitate monitoring and inspection of projects, enforcement of trade laws, licensing compliance and provision of weights and measures services.
- 3. Lack of capacity by contractors awarded contracts delay project implementation eg Serem modern market stalls
- 4. Delayed procurement process which affected the commencement of most of the projects
- 5. Covid 19 measures affected most of the departmental programmes and projects

2.9.7 Lessons learnt

- 1. Need for participatory implementation of ADP
- 2. Need to establish sector Monitoring and Evaluation committee to spearhead Monitoring and Evaluation of all projects in the department through including collection of baseline data and information and provide feedback mechanisms between the citizens and the department
- 3. Need for timely preparation of projects Bill of quantities (BQs), drawings and designs to enable efficient project workflow and implementation

2.9.8 Recommendations

- **1.** Have a multi sectorial approach to implementation of projects without which other departments will stall the entire process
- **2.** Proper feasibility study to be carried out early before any project is rolled out so as to curb the site challenges during implementation of the projects
- **3.** Timely preparation of project bill of quantities, drawings and designs to enable efficient project workflow and implementation

2.10 FINANCE AND ECONOMIC PLANNING

2.10.1 Introduction

The Finance and Economic Planning sector is charged with the responsibility of ensuring prudent financial management of county resources through enforcement of existing laws and regulations, formulating and reviewing fiscal economic policies to facilitate socio–economic development, resource mobilization, control of public financial resources, Budget coordination & control and tracking implementation of county development programs.

The sector has six sub sectors namely: Revenue, Budget, Financial Accounting & Reporting, Internal Audit, Supply Chain Management and Economic Planning

2.10.2 Strategic priorities of Finance and Economic Planning

- 1. Strengthening revenue collection process from existing sources
- 2. Enhancing internal financial controls
- 3. Automation of procurement processes and procedures
- 4. Automating of audit processes in the county
- 5. Enhancing stakeholder involvement in planning and budgeting
- 6. Strengthening the planning function through accurate and timely data

TABLE 45: ANALYSIS OF PLANNED VERSUS ALLOCATED BUDGET

	Programmes for Development	Planned budget	Allocated Budget
1	Development of Open Air Markets	4,000,000	0
2	Acquisition of land at Chepterit Market for construction of Open Air Market	23,000,000	0
3	Renovation of Revenue offices across the County	5,000,000	0
	Conduct a County Statistical survey to update Baseline		
4	data	5,000,000	0
5	Acquisition of e -CIMES system	5,000,000	0
6	Acquisition of M&E vehicles	7,000,000	0
7	Valuation Rolls	0	12,560,000
T	OTAL	49,000,000	12,560,000

2.10.3 Key Achievements.

During the year under review, the department recorded the following achievements;

- 1. Prepared and submitted to the County Assembly Budget estimates for FY 2021/2022
- 2. Key policy documents for Economic planning and budgeting done including; Annual Development Plan 2021/2022, County Budget Review and Outlook Paper 2020, County Fiscal Strategy Paper 2021, Budget Estimates 2021/2022, M&E Reports, County Annual Progress Report (CAPR) and Finance bill.
- 3. On Accesses to Government Procurement Opportunities, the department awarded 30% of total contract sum for the year to reserved groups under AGPO rule.
- 4. Timely preparation of financial statements and reports as required under PFM Act 2012.

Conduct a County Statistical survey to update Baseline data		Statistic al surveys conduct ed and data analyse d	Number of Statistical surveys organized, funded and conducted by the department within the year	0	5,000, 000	5,000, 000	CGN
Acquisition of e - CIMES system	Enhance Effective Monitoring and Evaluation	e- CIMES System procure d	No. of functional e- CIMES systems procured within the year	0	5,000, 000	5,000, 000	CGN

2.10.4 Challenges experienced during implementation of the previous ADP

- 1. Reallocation of funds during supplementary budget which in turn affected project implementation
- 2. Non- remittance of Tea Cess by multinational tea companies which has greatly affected amount of on source revenues collected
- 3. Limited resource allocation by the national government affecting project implementation across all sectors
- 4. Late disbursement of funds by the national treasury leading to low absorption of development funds

2.10.5 Lessons learnt and recommendations

- 1. There is need for comprehensive and consultative engagement of all stakeholders during planning and budgeting to avoid unnecessary reallocation of funds
- 2. Mobilization of resources through development partners is required to supplement for the limited county resource envelop.

CHAPTER THREE:

COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.1 HEALTH AND SANITATION

Vision: To support a globally competitive health and productive population.

Mission: To provide Quality health care services that is accessible, acceptable, suitable and equitable to the population of Nandi County.

3.1.1 Sub-sector goals and targets

Goals: To attain the highest possible health standards in manner responsive to the population needs in Nandi County.

TABLE 49: KEY STATISTICS

Category	Number

3.1.3 Cross-sectoral Implementation Considerations

This section should provide measures to harness cross sector synergies and mitigate adverse cross-sectoral impacts of projects where necessary.

3.1.4 Harnessing Cross-sector synergies

- 1. Provision of pure and clean water across the county. (Health and Sanitation, Lands Environment and Natural Resources)
- 2. Public health and Environmental safeguards within our county (Health and Sanitation, Lands Environment and Natural Resources)
- 3. Improve Access to Health facilities through quality infrastructure. (Transport and infrastructure, Health and Sanitation)

3.1.4 Mitigating adverse Cross-sector impact

3.2 TRANSPORT AND INFRASTRUCTURE

The core mandate of the department is to promote access and connectivity through efficient infrastructural development. Its aim is to construct all-weather roads and to open up new roads and design and manage structures. This is achieved through dozing, grading, gravelling and tarmacking for durability during the rainy seasons. It also ensures construction of standard structures through design and management.

3.2.1 Sector composition

The sector comprises two sub-sectors namely; Roads and Transport and Public Works sub-sectors.

- a) **Roads and Transport subsector:** The sub-sector is responsible for road infrastructure development and maintenance, road traffic regulation and safety, industry development as well as road engineering and related standards.
- b) **Directorate of Public Works:** The Public Works Directorate facilitates provision and maintenance of buildings and other public works within the county. It also

oversees development of designs for public buildings, preparation of Bill of quantities for building projects and other public works. The Directorate provides project and contract management services to public building projects

Vision and Mission

Vision: To achieve efficient and reliable transport and infrastructural developments.

Mission: To facilitate provision, construction and maintenance of quality county roads, buildings and other public works to achieve sustainable county socio-economic development.

3.2.2 Sector Goals

The sector goals are to ensure:

- 1. Improved rural access, infrastructure and mobility.
- 2. Reliable appropriate infrastructure development.
- 3. These goals will be achieved through the following strategies:
- 4. Undertaking planning, development and maintenance of infrastructure required in line with national and county government's priorities for sustainable development.
- 5. Designing, developing and maintaining roads and bridges to standards that will enhance efficient transportation of people, goods and services.
- 6. Maintenance of county fleet and plants to facilitate service delivery.
- 7. Designing, developing and maintaining institutional facilities to enhance service delivery.
- 8. Provision of engineering services to private developers.
- 9. Facilitating private developments through approval and inspection of submitted designs that satisfy the technical, design, planning and other requirements.

TABLE 52: TRANSPORT AND INFRASTRUCTURE STATISTICS

Key Indicator	Achieved
No of km of roads tarmacked	284
No of km of roads graded	3217.35
No of km of roads gravelled	1782.51
No of km of roads newly opened	483.8
No of footbridges constructed	3
No of bridges constructed	19
M.of culverts installed	4814
No of projects designed and supervised	507

3.2.3 Strategic priorities

- 1. Opening new roads and construction of bridges and footbridges to improve accessibility through collaboration with relevant authorities (KeNha/Kura/Kerra) to give priority for upgrading roads to bitumen standards.
- 2. Acquiring/leasing land with gravel for road works.
- 3. Acquiring modern plant and equipment for road construction and constructing a County workshop unit for maintenance of county machines.
- 4. Establishing an independent road survey department.
- 5. Establishing a Materials Laboratory for material testing. Acquiring concrete batching plant & concrete self-loading machines, mobile concrete truck Mixer and self-

- loading concrete mixer and all necessary machines to improve on construction of culverts, box culverts and bridges
- 6. Design, develop and maintain/repair institutional facilities.
- 7. Supervision of construction works for institutional facilities.
- 8. Establishing a Quality assurance and Quality control unit to supervise all concrete works in the County.

TABLE 53: CAPITAL PROJECTS FOR THE FY 2021/2022

3.2.4 Cross-sectoral Implementation Considerations

TABLE 54: CROSS-SECTORAL IMPACTS

Programme Name	Sector	Cross	s-sector Impact	Measures to Harness or Mitigate the Impact
		Synergies	Adverse impact	
Public Works	All sectors	Designing and project management	a)Structures not well designed and supervised leading to collapse, loss of life and property	, , , , , , , , , , , , , , , , , , , ,
Road Work	All sectors	Access to government institutions, schools, Business and agricultural centres/Markets and tourist sites.	,	 a) Soil erosion control measure on drains b) Grass &tree planting on landslide areas and filling up murram pits. c) Gabion erection on landslide prone areas. d) Stone pitching. e) Watering during construction to limit dust. f) Use of protective gear during construction

3.3 AGRICULTURE AND COOPERATIVES

The department is responsible for the County's production and productivity, Food and Nutrition security and a vibrant cooperative movement. It will also Promote access to quality farm inputs including, management of crop and livestock pests and diseases, provision of animal breeding services and support crop and livestock research organizations in terms of setting research themes and data collections. The sector will also strive to enhance the cooperative movement

3.3.1 Agriculture and Cooperative Development composition

The sector is composed of five subsectors namely: crop production, livestock production, veterinary services, fisheries and cooperative development

Vision and Mission

Vision: to be the leading agent toward achievement of food security for all, employment creation, income generation, poverty reduction and a competitive and vibrant cooperative sector in Nandi County.

Mission: to improve the livelihoods of Nandi county residents by promotion of competitive farming as a business through appropriate policy environment, effective support services, sustainable natural resource base management and commercially and innovative cooperative movement.

3.3.2 Sector Goals

The goal of the sector is to increase food and nutrition security, commercialization of agriculture and effective and efficient marketing systems in the sector.

The goal(s) will be achieved through increasing agricultural productivity and ensuring improved household food and nutrition security and also increasing commercialization of agriculture.

3.3.3 Key statistics

3.4 Education and Vocational Training

3.4.1 Introduction

The department of Education and Vocational Training has the following plans for the Financial Year 2021/2022; Completion and operationalization of all new VTCs and ECDE centres under historical pending bills, improving infrastructure in existing Vocational Training Centres, Construction and equipping of 30 new ECDE Centres across the county as well as equipping all completed ECDE centres.

3.4.2 Sector Vision and Mission Vision

To provide quality education and training to the people of Nandi, that makes learners creative and innovative.

Mission

To create learning environment that will equip learners with desired values, attitudes, knowledge, skills and competencies in technology, innovation, entrepreneurship and embrace research.

3.4.3 Sub-sector goals and Targets

To provide education geared towards development of child's mental capabilities, physical growth and self-confidence as well as providing equal access to affordable vocational training with the aim of eliminating wealth and gender disparities

TABLE 61: DEVELOPMENT NEEDS, PRIORITIES AND STRATEGIES

Programme	Development needs/ Priorities	Strategies
Development of Early Childhood Education	 Inadequate infrastructural development in ECDE centers across the county. Low retention rates in preprimary centres. 	Construction of new ECD centers across the county.
	• Low Teacher to learner ratio in pre-primary schools.	•Employment of more preschool caregivers and trainers.
	• Poor and Inadequate learning environment.	• Provision of adequate furniture and fixtures in all existing ECDE Centres county wide.
	• Low enrollment in pre- primary education.	Provision of teaching learning resources.
Development of Vocational Training	• Inadequate physical infrastructure for effective teaching and learning	Construction of workshops and provision of equipment to all Vocational Training Centres.
	• Negative attitude towards vocational education and training usually referred to as 'polytechnics'	• Rebranding of vocational training centers (VTCs) to ensure that they attract trainees through ICT
	• Lack of skills set to access employment opportunities	Adopt Competency Based Curriculum (CBC) in education and training
	Low enrollment in Vocational Training Centres	 Provide Capitation and TVET scholarship to improve access to quality TVET. Provision of county bursary to students across the county.
	• Low instructor student ratio in most of the VTCs	• Recruitment of more instructors in VTCs
General Administration &Education	Poor mobility in supervision of education projects and programmes	Purchase of motorbikes to sub county ECDE assistant directors and vocational training officers

Payments of Grants, Benefits and Subsidies

Type of payments (e.g. Education bursary, Biashara fund etc.)	Estimated Cost (Ksh.)	Remarks
Education Bursary fund	120,000,000	The selection of bursary beneficiaries will be done at the location levels being the lowest level of the ward. The selection will be done purely by the public in the ward.
TOTAL	120,000,000	

3.5 DEPARTMENT OF LANDS, ENVIRONMENT AND NATURAL RESOURCES

3.5.1 Introduction

The department in the FY 2022/2023 intends to prioritize completion, equipping and operationalizing projects rather than initiating new projects.

Completion of the County spatial plan which is ongoing is key as it forms basis for infrastructure provision, development control and investment across the county. Survey

and Planning of land for the purposes of issuance of title to increase planned settlements countywide will be implemented as stated in the governors' manifesto.

Increased access to clean and safe water will be achieved through completion of ongoing/stalled water projects across the county, the department will also spearhead the ground works required to complete the flagship water projects (Nandi Hills & Keben).

Subsidy funds are normally allocated to KANAWASCO for it to operate efficiently without affecting water distribution in Kapsabet& its environs and Nandi hills Towns, this is because it's not self-sustaining and revenues collected cannot be able to pay bills like electricity.

The department will work towards increasing forest cover by promoting tree planting across the county and engaging stakeholders willing to partner towards the same goal.

Department Vision

To be a leading department in steering the County into achieving sustainable land management, participatory forest management and provision of clean water in order to achieve the highest standard of living

Department Mission

To ensure equitable and sustainable utilization of the County's natural resources and promote maintenance of a healthy environment for the current and future generations

Department Goal

To have a developed and sustainable county through efficient utilization of its natural resources and to protect, conserve, enhance water supply and manage habitat and environment to ensure use for present and future generations.

TABLE 63: WATER AND SANITATION STATISTICS

Key performance indicator	Achievement		
No. of households with access to piped water	33,932		
No. of households with access to potable water	3,765		
No. of permanent rivers	6		
No. of shallow wells	3,038		
No. of protected springs	68		
No. of un-protected springs	1,358		
No. of water pans	-

Nandi County Water strategic plan 2014-2018

Development Needs and Priorities Strategies

Development	• Priorities	• Strategies				
need		- G				
Low portable water coverage	Rehabilitating dormant water projects	• All water projects that have become dysfunctional will be revived and rehabilitated				
	Drilling boreholes and encourage use of gravity water	 The County Government will collaborate with communities and NGOs to drill boreholes to be managed by community groups 				
	 Rehabilitating dams, spring protection and guide on appropriate water storage mechanisms 	Dams will be rehabilitated wherever they exist				
	Maintaining the existing water projects	• Community and Ward-level structures will constantly monitor existing water projects to ensure that they remain serviceable at all times				
Declining forest cover	Promoting tree planting by institutions & individuals	the establishment of tree nurseries in collaboration with schools, groups and public administration. • The County Government will identify and ring-fence all wetlands and riparian ecosystems away from encroachment • A GIS based map will be prepared showing all-natural resources in the				
	 Identifying and restoring wetlands and, riparian ecosystems Mapping natural resources within the County 					
	 Establishing arboreta in the County Mainstreaming climate change in County programmes, plans and policies 	 Possible sites for the arboreta will be identified and developed All county plans and programmes will incorporate climate change as a component 				
Insecure land tenure	Developing a Land Information System	Collecting all relevant data pertaining to existing land ownership; scanning and digitally storing				
	Documenting all public land in the CountyFormulating a land policy, laws	 Conducting a search in existing and past records to identify all public land. Land policies, laws and regulations will 				
	and regulations	be formulated and implemented				
Lack of framework for	• Preparing and implementing zoning plans	• The County Government will prepare a zoning plan in respective areas				
spatial development	Preparing County Spatial Plan	In collaboration with development partners, the County Government will prepare the County Spatial Plan				
	• To provide plans for 6 urban centers	• The County Government will prepare GIS based Strategic Urban Development				

		Plans
Environment	Mapping environmentally fragile	• The County Government will map the
degradation	areas in the County for	environmentally fragile areas using GIS
	protection	technology
	Increasing forest cover	• The public will be sensitized and
		encouraged to adopt on-farm forests by
		utilizing 10% land cover
	• Improving environmental	• Improving on solid and liquid waste
	sanitation	management
Inadequate	• Establishing and enhancing an	• The County Government will develop
capacity for	institutional and legal	the requisite legal framework
disaster	framework for the fire, rescue	
management	and disaster management	
	department in the County	

3.5.2 Key Stakeholders

The department has several partners among them FAO, UN- Habitat, World Bank and United Nations Environmental Programme (UNEP)

EU-Water Tower Programs have been key in restoring of wetlands and degraded areas across the county.

Tree planting activities are carried out mostly in partnership with Food & Agricultural organization (FAO), Anglican Development Services (ADS), National Environment Management Authority (NEMA) and Kenya Forest Service (KFS).

Programme Name	Sector	Cross-	-sector Impact	Measures to harness or mitigate the Impact
		Synergies	Adverse Impact	minigate the impact
Environmental conservation and protection	All sectors	 Proper Waste disposal Good farming practices Protecting wetland areas Protecting forest cover 	 Reduced agricultural land Boundary conflicts majorly when protecting wetlands Human wildlife conflicts Climate change 	 Encouraging agro forestry in the county Sensitization on the importance of protecting the environment and impact of climate change Creation of a directorate of climate change Collaboration with NGOS, CBOS within the county level Encouraging the use of green energy, solar, wind and other recyclable sources of energy Creation of county policies safeguarding the environment
Water service provision	LENR, agriculture, livestock and fisheries	 Mapping possible Dam areas Sourcing funds for irrigation flagship project 	 Water conflicts Water pollution Soil erosion and degradation 	 Creation of county policies on irrigation water use Good agricultural practices Creation of water user's association to handle the irrigated zones Conservation of water catchment areas. Collaborating with

				national water authority
				on guidelines on
				irrigation water use.
Land planning, survey and registration	All sectors	 Creation of land registry Creation of county land policies 	 Political conflicts Land inheritance conflicts Intergovernmental conflicts 	 Setting aside funds to facilitate land adjudication process Empowering county land legal department Public participation on land policies Political goodwill Increase of staff handling land related issues.
Disaster management	All sectors	 Creation of disaster management boards Zoning of areas prone to disaster (mudslides and floods) Sensitization of energy procedures 	 Internally displaced displaced persons Political crisis and boundary disputes 	 Establishment of early warning system Setting aside disaster management funds Sensitization on impact of disaster (e.g., Tindiret mudslide affected areas.) Empowering and equipping the disaster management board Relocating persons living in disaster prone areas

3.5.3 Payments of Grants, Benefits and Subsidies

This section should provide information on proposed payment of Grants, Benefits and Subsidies to be done by the county government during the plan period.

The department intends to set aside 10M as a subsidy to KANAWASCO, meant to settle electricity bills.

Type of payments (e.g., Education bursary, Biashara fund etc.)	Amount (Ksh.)	Beneficiary Remarks
KENAWASCO Subsidy	10,000,000	To ensure consistent supply of water to Kapsabet municipality and its environs, the department will subsidize the cost of water supply by KENAWASCO.
TOTAL		10,000,000

3.6 DEPARTMENT OF SPORTS, YOUTH AFFAIRS AND ARTS

3.6.1 Introduction

Sports, youth affairs and arts department is keen on diversification of sports, to take care of the rich and enormous talents among its people. Sports' infrastructure is the hallmark of talent development as it creates opportunities to identify, nurture and develop talents. Youth is a key component of the county thus the sector is keen on tapping this rich area through youth mainstreaming as well as initiating programs aimed at engaging the youth in social and economic development of the county.

Vision

To be a leading county sector in the formulation, coordination and implementation of projects and programs aimed at empowering all members of the society to lead dignified and productive lifestyles

Mission

The sector is committed to provision of equitable services to all members of the society through nurturing of talents, empowering the youth, and the challenged for improved livelihoods.

3.6.2 Goals and targets

- 1. To exploit sports talent to the full potential among sports persons
- 2. To empower youth to be self-reliant
- 3. To tap the rich and varied talents among the artists

These goals will be achieved through the following

- 4. Establish of a Modern Athletic Training camp
- 5. Construction and upgrading of sports facilities within the county
- 6. Organize competitions for different sports disciplines
- 7. Train doping control officials and establish a doping control unit in collaboration with ADAK
- 8. Encourage youth to form SACCOs to facilitate savings and borrowing

- 9. Construction of the State of the Art Studio
- 10. Recruit skilled and unskilled youth labor force to the Nandi County Youth Service to reduce unemployment and its effects.

TABLE 65: KEY STATISTICS FOR THE SECTOR/ SUB-SECTOR

Sports Sector	Key statistics

3.7 TOURISM, CULTURE AND SOCIAL WELFARE

3.7.1 Introduction

The department of Tourism, Culture, Gender and Social Welfare is charged with the responsibility of tourism development, cultural and heritage conservation and social protection. In the financial year 2022/2023, the department shall focus on developing and operationalizing more tourist sites, promotion of culture and heritage through research and documentation and socio-economic empowerment through acquisition and distribution of assistive devices and women empowerment. It shall also plans to distribute care packs to the vulnerable in the society.

3.7.2 Sector Mission and Vision

Vision: To be the leading agent for globally competitive tourism, heritage conservation and community empowerment

Mission: To develop, preserve and promote unique tourism products, cultural heritage and provision of equitable services for the people of Nandi

3.7.3 Goals and Targets Sector Goals.

The sector strives to achieve the following main goals:

- 1. Increase Tourism arrivals, bed nights by domestic tourists and develop additional beds in high quality accommodation facilities across the county.
- 2. Preserve and promote cultural heritage for sustainable development.
- 3. Provide care and support to vulnerable members of the community.

TABLE 71: KEY STATISTICS

S/No.	Sector	Key statistics
	Number of tourism and cultural sites	140
	identified and documented	
	Number of hotels in Nandi	420
	Number of registered cultural practitioners	420
1	<u> </u>	995 711 and of ruleigh 441 250 and Mala ruleila 444 420 and
1.	Total population	885,711 out of which 441,259 are Male while 444,430 are
		Female
2.	PWDs	sight0.6%, hearing0.3%, mobility0.8%, cognition 0.4%,

		self-care 0.3%, communication 0.2%		
3.	Women	444,430 out of 885,711		
4.	Children (0 to 18 years)	436,288 or 49.3% of Total county population		
5.	Average household size	4.4		
6.	Sub-county with highest female	Aldai with 89,029 out of 172,750		
	population			
7.	Sub-county with lowest female	Tinderet with 57,039 out of 115,931		
	population

TABLE 72: THE STRATEGIC PRIORITIES

Programme name	Development needs	Priority strategies
Tourism development	Limited products & identified tourism attraction sites	Branding Nandi County as a tourist destination of choice and marketing the existing tourism potential
	Inadequate tourism infrastructure and facilities	Researching and compiling data on all tourism attraction sites/hospitality industry
Conservation and Preservation of Cultural heritage	3.6 Low capacities of community's/ cultural practitioners to harness cultural heritage potential	Capacity building of cultural stakeholders and organizing Cultural Exhibitions, competitions and festivals. Acquisition of uniform and equipment for cultural groups and collection and documentation of artifacts
Socio-Economic empowerment	Economic Marginalization of PWDs & Women in property ownership and leadership. Low entrepreneurial culture among women and PWDs due to low Self-esteem and negative attitude.	Supply of Supportive and Aiding Devices Setting up a vulnerable group Empowerment Centre

3.8 ADMINISTRATION, PUBLIC SERVICE AND E-GOVERNMENT

3.8.1 Introduction

The sector comprises of three (3) sub sectors namely; Administration and Devolved Units, Public Service and ICT & e-Government. Each sub-sector is headed by a Chief Officer. The sector/department is one of the ten (10) other departments of the County Government. Each sector is assigned the functions as per H.E the Governor's Executive Order. Our planned programmes are therefore based on the assigned roles as per the same order.

Vision and mission

Vision: To be a leading sector in the County Government of Nandi in the provision of services to the residents of Nandi County.

Mission: To provide quality services to the residents of Nandi County Government in an efficient, effective and transparent manner using limited resources.

Department Goal

The sector's goal is to facilitate the growth, diversification and the stability of Nandi County's socio-economic position with a view of creating employment and social opportunities, expanding the economy to provide a sustainable future for all residents of Nandi County.

Development needs, priorities and strategies

Table 76: Sector/subsector Development needs, priorities and strategies.

Development Needs	Development Priorities	Strategies			
Inadequate offices in the County	• To develop adequate office space	 Mobilizing extra- budgetary resources for financing the office program including strategic partners. Identifying an ideal land for construction of offices 			
Existence of unplanned urban centres and settlements	• To have properly planned urban areas and trading centres.	 Sensitization of policy makers and other stakeholders Amendment of the Integrated Developed Plan to include spaces for recreational areas, pedestrian streets, open spaces, urban identities 			
Disaster preparedness and Risk Management	• To improve disaster preparedness and risk management	 Recruitment of skilled and trained personnel Allocation of funds for disaster preparedness and management Develop disaster and risk management policy 			
Inadequate Sanitation facilities – Kapsabet Municipality, Nandi hills and other urban areas	• To reduce waterborne diseases and other health hazards.	 Allocation of funds for expansion of sewerage infrastructure in all urban areas. Acquisition of liquid waste exhausters Identification of potential partners to collaborate. 			
Road Network	• To ensure accessibility to all-important amenities in urban centers in line with approved physical development plans.	Providing Non -motorized transport facilities e.g. pedestrian walkways			
Lack of appropriate Bus Parks and Parking Bays	• To provide modern orderly, spacious, accommodative and suitable bus parks and	• Improving the existing bus park			

	parking bays			
Inadequate space for Markets	• To provide conducive, spacious and business - friendly modern markets.	 Construct storey buildings markets in Kapsabet Municipality, Nandi hills and other urban areas. . 		
Solid and Liquid waste management facilities	To provide suitable solid and liquid waste management solutions	 Purchasing of land for dumpsites Purchasing of equipment for solid waste management Expansion of sewerage management infrastructure in urban areas 		
Lack of human resource management and development policies	• To establish clear human resource management and development procedures	Develop a human resource management and development policies		
Absence of County Pension scheme	• To secure the benefits of staff	Identifying an appropriate pension scheme for all staff		
Lack of workman compensation policy	• To improve employee health and safety	• Establishing a workman compensation policy		
Absence of Medical Scheme	• To ensure healthy workforce and to accord them a comprehensive medical cover	• Establish a staff medical scheme

3.9 TRADE, INVESTMENT AND INDSUTRIALIZATION

3.9.1 Introduction

The core mandate of the sector is to promote trade, facilitate investment and promote manufacturing and industrialization; a key agenda amongst the Presidents Big Four agenda. The sector also seeks to facilitate Micro, Small and Medium Enterprises (MSMEs), and large enterprises to improve trade that promotes wealth and employment creation. This is achieved through creation of an enabling environment, provision of loans to traders and entrepreneurs and leveraging on the existence of skilled youthful population

Department composition

The sector has six subsectors that carry out various programs. These are:

- 1. Trade development
- 2. Investment promotion
- 3. Industrialization
- 4. Enterprise development
- 5. Weights and measures
- 6. Trade Licensing

Vision and Mission

Vision

To be the first choice of investment destination and most preferred address of any new business ventures

Mission

To create a socially stable, business friendly environment that will attract indigenous and foreigners to seek wealth creating opportunities in Nandi County

3.9.2 Department goal

- 1. Promoting and facilitating trade, Investment and Industrial development in the county
- 2. Promoting business development in micro, small and medium size enterprises (MSMEs)
- 3. Enhancing public private partnership and linkages with other agencies

These goals will be achieved through establishing and equipping Business Information Centers, Providing modern market stalls and other physical market infrastructure—to traders, facilitating the promotion of exports, creation of an investment friendly climate, Creation of special economic zones, establishing a county diaspora desk, promotion of fair trade practices, promoting agro-processing and value addition of our products, organizing and hosting trade fairs and exhibitions, lobbying Development Agencies to facilitate our development programs, development of micro, small and medium enterprises and enhancing public private partnership and linkages

3.9.3 Key statistics for trade, Investment and Industrialization Markets

There are 223 trading centers under the jurisdiction of County of Nandi, 34 under the Urban Council of Kapsabet and 12 under the Urban Council of Nandi Hills.

Special Economic Zones

There are no special economic zones in the county. However, the county government through the department of Trade, investment and Industrialization in

partnership with EPZ is setting up an Export Promotion Zone in Chemase aimed at creating employment, improve agro processing and value addition to the locally produced agricultural products and improve the general economy of the county's residents. There also exist *Jua Kali* shed that are operational in the two major towns i.e. Nandi Hills and Kapsabet.

Major industries

There are 15 major tea factories in the county, and a number of cottage industries are coming up. They include timber lumbering, coffee, milk, honey value addition and other agro processing cottage enterprises. The county government is in the process of setting up an EPZ zone in Chemase. There is also a coffee factory coming up in Mlango in Chesumei Sub County. Several milk cooling plants exist throughout the county and a major cooling plant belonging to Kenya Cooperative Creameries is located in Namgoi Emgwen Sub County. Various collection points for sugar factories exist within the county. A textile apparel unit is being set up through the Department of Trade, Investment and Industrialization. As a result of setting up the industries, we are anticipating to create employment opportunities the unemployed youth. The county intends to do value addition to our locally produced agricultural products to improve the rate of returns.

TABLE 81: DEVELOPMENT PRIORITIES AND STRATEGIES

Programme	Development needs	Strategies
General Administration and support services Trade Development	Need to improve service delivery Inadequate office space, furniture Lack of monitoring and evaluation of projects implemented Inadequate market infrastructure and facilities Inadequate data and information on business activities Inadequate capacity building of traders	-Conducting staff training Provision of office space furniture and equipment Establishment of Sector Monitoring and Evaluation committee Establishment of open air/fresh produce markets Construction of modern market stalls Construction of Bus Parks Provision of sanitation facilities Mapping and zoning of businesses Conducting baseline and Market surveys Providing online marketing training
Fair trade practices	Low public awareness in fair trade practices and consumer protection	Carrying out calibration, verification and standardization of weighing and measuring instruments across the county Constructing and equipping weights and measures workshop Holding public awareness campaign on fair trade practices and consumer

		protection\

TABLE 82: DEPARTMENT STRATEGIES

Objectives	Strategies	Description of Strategy
To promote and facilitate trade, Investment and commerce in Nandi County	(i) Establishing and equipping Business Information Centers with ICT facilities that will avail up-to date data and information on trade and investment opportunities;	- Develop brochures and pamphlet-The information

		database on trade and
		investment opportunities in
()		the County.
(ii)	Providing modern market	-This strategy will entail
	stalls and other physical	construction of modern
	market infrastructure to	market structures and other
	traders	facilities by means of
		tendering, utilizing TVETs
		trainees and public private
		partnership model
(iii)	Facilitating the promotion of	-Formulation of an investment
()	exports, creation of an	policy and legal framework
	investment friendly climate	-Enactment and subsequent
		_
	by having clear regulations and incentives for investors	implementation of investment
		laws
	in Nandi County	-Crafting investor friendly
		incentives and regulation e.g.,
		investor friendly licensing and
		taxation, provision of land
(iv)	Creating an industrial park	-Facilitating Establishment of
	for investors and Export	special economic zones with a
	processing zone.	view of providing space for
		industrial parks, science parks,
		ICT hubs, Export processing
		zone etc.
(v)	Establishing a county	-Appoint goodwill
()	diaspora desk to enable	ambassadors to market our
		county abroad
	trade and investment	-Identify and twin Nandi
		County and its entities with
		international states and
		organizations
		-Create an investor friendly
		environment by providing
		information on investment
		opportunities and procedures.
(vi)	Promoting fair trade	-Enforcing regulation, control,
` /	practices	licensing and weights and
	1	measures standards
		-sensitization and civic
		education on healthy business
		_
		practices
		-Automation of all licensing
		processes
		- Engaging multi agency
		approach to control unfair and
		illegal trading activities
		NACADA, Anti counterfeits,
		KBS, Weights and measures,
		Regulatory authority to
		protect consumers
<u> </u>		1

	(vii) Promoting manufacturing and agro-processing and value addition of our products (viii) Organizing trade shows, fairs and exhibitions	<u> </u>
To promote business development in micro, small and	 (ix) Lobbying Development Agencies to facilitate our development programs (i) Profiling and building the capacities of Common Investment Groups (Chamas), 	
medium enterprises	youth and SACCOs; (ii) Establishing a textile tailoring unit in partnership with Rivatex	pitching for tenders, access to business financing, connecting them with angel investors -Implementing the MOU with Rivatex
	(iii) Conducting regular business development/entrepreneurship training for MSMEs (iv) Establishing Nandi county	-This strategy will entail organizing and training of MSMEs on ICT, E-commerce, franchise models and other emerging technologies - Enactment and subsequent
	Biashara fund (v) Establishing business incubation	implementation of Nandi county enterprise development fund -Partnering with other
	centers across the county (vi) Establishing and developing cottage industries	institutions to build business incubation centers Identifying potential entrepreneurs and building
		their capacities to establish cottage industriesPartnering with TVETs to train youth on entrepreneurial skills and management of cottage industries
To enhance public private partnership and linkages with other agencies	(i) Formulating public private partnership policy and legal framework	-Drafting and implementing public private partnership policy -Harmonize existing legal frameworks
	(ii) Strengthening linkages with the National Chamber of Commerce – The Nandi Chapter(iii) Establishing linkages with	-Involvement of National chamber of commerce in policy making and implementation -Operationalization of the
	the EPZ and EPC	MOU

3.9.5 Key Stakeholders

The major stakeholders are classified into three categories as follows;

- 1) Primary Stakeholders
- 2) Key Stakeholders
- 3) Secondary Stakeholders

PRIMAR	RY STAKEHOLDERS						
	STAKE HOLDERS	ROLES	INTEREST				
1.	Nandi County Government Executive	-Provision of resources	-Service delivery				
2.	Employees	-Provide technical expertise	-Meeting departmental targets				
3.	Business community	-Provide goods and services -Improve county economy	-Conducive business environment -Access to County Government services e.g Licensing -Fair trade practices				
4.	General public (citizens)	- Consumption of goods and services	-Access to goods and services i.e economic services				
5.	Regulation agencies e.g. Health and KBS	-Regulate health standards in trading facilities	-Adherence to standards				
KEY STA	KEHOLDERS						
1.	National Government	-Provision of policy, regulation and enforcement	-Implementation of national policies and regulations				
2.	Development partners e.g. investment authorities, EPZ, KIE, SME's Authority	-Provide technical and financial support	-Smooth implementation of their programmes -Access to information -An enabling environment				
3.	NGO's	-Provide technical expertise trainings and mentorship programs -Provide financial and social support to the community	-Improvement of community livelihoods				
SECONI	DARY STAKEHOLDERS						
•	Suppliers of goods and services	-Provision of	-Access to business opportunities for				

		goods and	profit gains				
		services	-Enabling business environment				
			-Timely payments for goods and				
			services delivered				
•	External Investors	-Provision of	-Exploring of available resources				
		goods and	-Safeguarding of their properties				
		services					
		-Technology					
		transfer					
•	Local savings groups(chamas)	-Provision of	-Access to loans				
		financial	-Get training and capacity building				
		support

3.10 FINANCE AND ECONOMIC PLANNING

3.10.1 Introduction

The sector strategic priorities, programmes and projects for the year 2022/2023 have been highlighted and will be executed through the various sections in the sector namely; Revenue, Budget and Economic Planning, Financial Accounting & Reporting, Internal Audit, Supply Chain Management and Monitoring and Evaluation.

Vision: A leading sector in public finance management, economic policy formulation and development coordination.

Mission: To provide overall leadership and policy direction in resource mobilization, management and accountability for quality public service delivery.

3.10.2 Sub-Sector Goals

The sub-sector goals are to:

- 1. Increase revenue levels of the county
- 2. Ensure fully operational integrated IFMIS support functions
- 3. Automate the procurement processes
- 4. Automate audit processes
- 5. Increase budget absorption
- 6. Enhance efficiency in planning though timely and accurate data
- 7. Establish M&E systems in the county

TABLE 85: DEVELOPMENT NEEDS AND STRATEGIC PRIORITIES

Sub Programme	Needs	Priorities	Strategy
Revenue	Improve revenue	Strengthen	Acquisition of land for markets

Co-operative Development	Governance and Administration	Better managed Co-operative Organizations	Collapsed Cooperative organizations and loss of revenue	Improve Cooperative governance structures

CHAPTER FOUR

RESOURCE ALLOCATION

4.1 Chapter Overview

The chapter presents a summary of the proposed budget by Programme and Sector. It also provides a description of how the County government is responding to changes in the financial and economic environment and further indicates the criteria employed in the allocation of resources per Sector and per Programme.

4.2 Resource Allocation criteria

Resources are allocated based on the following criteria;

- 1. Special consideration is given to the on-going programmes/projects;
- 2. Expected outputs and outcomes of the Programme;
- 3. Linkage of the Programme with the objectives of the County Government, the Governor's Manifesto and the CIDP;
- 4. Degree to which the Programme addresses core poverty interventions;
- 5. Degree to which the Programme is addressing the core mandate of the department; and
- 6. Cost effectiveness and sustainability of the Programme/projects.

4.3 Proposed sector budget by programme

TABLE 91: HEALTH AND SANITATION

		Amount (Ksh)
1.	Curative and rehabilitative health services	230.5M
2.	Preventive and promotive health services	40M

Total Development	1,614,899,794	100.00		

4.4 Financial and Economic environment

Nandi County is affected by the existing economic situation which affects the satisfactory provision of efficient service delivery to its citizens. Nandi County has close to half of its population living below the poverty line according to the KNBS report of the well-being in Kenya. The County since the inception of devolution has tried to respond to this situation by introducin major programmes with an aim of improving the living standards of its population. Such programmes include:

- i. Infrastructure development- the county government has opened rural roads, done footbridges, upgraded gravel roads to bitumen standard, and improved lighting through installation of solar and high mast flood lights at various strategic positions;
- ii. Improved agricultural services- The county government has introduced Farm mechanization, seed subsidized programme with an aim to improve food security. The county has also enhanced A.I subsidized initiative programme, poultry development and smart dairy programme among other livestock programmes;
- iii. Trade promotion-The county government has introduced trade loans to small medium enterprise citizen, improved market infrastructure including kiosks and construction of markets stalls with an aim economic activities thus improving on the living conditions;
- iv. Improved health services and infrastructure- The County government has improved on the health sector by providing ambulance services, child maternity programmes and construction of hospital and health centres as well as steady supply of drugs to all facilities and addressed the welfare of the health workers.

Going forward the County Government will enhance the above programmes by allocating the available resources to the strategic priorities while engaging all relevant stakeholders in prioritizing the programmes

4.4.1 Risks, Assumptions and Mitigation Measures Assumptions of the Plan

i) Expanded Revenue streams

The County gets her revenue from a number of sources namely; Own Sources, Equitable share of National Revenues and Conditional Grants all of which are not sufficient to service the vision. For the plan to be adequately implemented, more financial resources for investment in the projects and programmes identified must be raised especially by putting in place measures and policies to expand the own source revenue base.

ii) Political Stability

This refers to an environment that is issue based, people centered, result-oriented and accountable to the public. This will enhance stability which helps the government to effectively deliver services to the people without any distraction that comes with political instability.

iii) Macro-economic Stability

Macro-economic variables that affect the economy include inflation, interest rates, exchange rates, wage rates and Employment levels. The vision assumes that these variables will remain stable and predictable for the period of implementation of the vision.

iv) Security

Security is a social need that is paramount for social coexistence of all entities within a setup. It is one factor that will create a conducive environment for the implementation of the vision. To achieve this, the County Government will collaborate with the National Government in managing security issues in the County.

v) Favorable Weather Conditions

The County is endowed with conducive climatic conditions for good agricultural production. Rainfall performance is above average exhibiting a bimodal distribution with

two distinct seasons occurring in March-April-May and October-November-December (long and short rain seasons). Long rains average at 1000 - 1200 mm per year while short rains average at 500 - 800 mm per year which is good for production of most of the staple crops planted in the county. This also helps recharge both ground and surface water in the County.

The average air temperatures range between 10.0 OC – 30.0 OC while evaporation ranges from 400 – 800 mm per year which is favorable for crop and animal production. Obviously, fluctuation in climatic conditions result in attendant fluctuation in water levels in river and steams hence affecting water supply.

With projected climate change patterns, the plan assumes that the prevailing good climatic conditions will continue.

Mitigation Measures

- i) Automation The county Government of Nandi has undertaken automation of all its local revenues in a bid to enhancing its revenue collection and curbing on any leakages that may result to revenue loss.
- **ii)** Revenue Potency Study The County Government has engaged a consultant to carry out a revenue potency study and all the County Revenue base in order to help profile all sources of revenue, their potential and collection mechanism as well as the recommendation of new sources of Revenue that have not been tapped.
- **iii)** Revenue Collection legislation The County Government on realizing the short comings of the current revenue collection Act it has embarked on the revision of the Revenue Collection Laws.
- **iv)** Revenue Clinics On realizing the importance of an informed tax payer Society, the County Government is planning to have tax clinics to sensitize tax payers on the importance of self-compliance. The tax payers will be informed among other things their rights and obligations.

CHAPTER FIVE

5.1 MONITORING AND EVALUATION

5.2 Introduction

This section provides an overview of the County's Monitoring and Evaluation framework. Monitoring and Evaluation forms part of a results culture in the public service that is meant to provide value and services for all citizenry. In the planning and implementation of development efforts, Monitoring and Evaluation ensures that intended targets are achieved, remedies are taken when projects are off-track, and that lessons learned are used to promote efficiency and effectiveness.

In monitoring, programme and project implementers will be expected to systematically collect qualitative and quantitative data on implementation progress against the planned targets. These data will provide implementers and other stakeholders an indication on the extent of progress made towards achieving the set objectives. The monitoring process shall be guided by a framework in the draft County M&E Policy that stipulates indicator identification; indicator data; frequency of data collection; responsibility for data collection; data analysis and use; reporting and dissemination.

Evaluation will be undertaken at the end of the plan period to answer specific questions regarding development interventions. The evaluations will mainly focus on why results are being achieved or not, project/programme relevance, effectiveness, impact and sustainability. Evaluations will be either internal or external with stakeholders participating in all phases including planning, data collection, analysis, reporting, feedback, dissemination and follow-up actios-taking and review.

Monitoring and Evaluation of the plan will be conducted within the County Monitoring and Evaluation System (CIMES) structure, which will define the development initiatives and projects to be monitored and evaluated, the activities needed for monitoring and evaluation to be successfully implemented, and the roles and responsibilities of different players in the monitoring and evaluation exercise. The scope of the CMES will entail: data collection, indicator development, research and results analysis, documentation and dissemination for advocacy and sensitization, project monitoring and evaluation, and capacity development and policy coordination. This is further defined in the Draft County Monitoring and Evaluation Policy which sets up committees that will make CIMES operational and will include: County M&E Committee (CoMEC), County Technical Oversight Committee, Sector Based M&E Committees, Sub-County M&E Committees (SCoMEC) and Ward M&E Committees. These committees will be fully in operation upon the approval of the County M&E policy.

5.3 Data Collection, Analysis and Reporting:

All sectors in the county will be involved in the process of strategic monitoring, including partners. Each level of service delivery will carry out its own monitoring and evaluation. Operational monitoring will be carried out monthly, quarterly and annually. It will focus on monitoring progress against interventions and activities set out in respective sub-sector annual operational plans. Indicators will be utilized to measure progress against set targets. The indicators will be used in two ways:

• Sector/sub sector -wide indicators: The set of indicators each sector will use to inform on progress at the strategic level. Collection and monitoring of progress will

be the responsibility of the sector.

 Programme indicators: Indicators that the respective programme areas will use to inform on progress towards programme objectives. The number will depend on the specific programme areas. Monitoring of progress will be the responsibility of the respective programme area.

The county departments will strive to do quarterly and annual surveys on key areas on county statistical including information both qualitative and quantitative on customer satisfaction. It will also carry out actual field visits on project implementation and progress. The county monitoring and evaluation Unit together with the Technical Oversight Committee will then compile the primary data and analyze following the established M&E Plan. The M&E committee will prepare quarterly reports and share with the County Executive for discussion, lesson learning and decision making. Thereafter the report will be availed to the various stakeholders and the public as provided for in the existing legal framework.

M & E Indicators

A list of indicators relating to the overall strategic objectives of the plan has been identified and will be refined during preparation of the CIDP indicator hand book. This will enable monitoring the outputs and outcomes of the projects and programmes being implemented and provide information on whether the aims are being met. The following are the Key County Indicators to be monitored per department in the plan period:

5.3.1 Health and Sanitation

This chapter should discuss the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES).

TABLE 102: MONITORING AND EVALUATION PERFORMANCE INDICATORS

Sector/sub-sector	Key performance	Beginning of ADP year situation	End of the ADP year situation	
Curative and Rehabilitative Health	No. of Theatres established	3	7	
services	No. of maternity established	20	30
