FOREWORD

The Public Finance Management Act, 2012 requires that each county government prepares an Annual Development Plan (ADP) as one of the main documents required in the annual budget preparation process

The 2022/23 FY ADP presents the county strategic priorities, programmes and projects that aim at implementing the theme "economic recovery for improved quality of life", to achieve the county's development agenda. key strategies of achieving this theme they include: Sustainable food security, improved nutrition and value addition; Ensure healthy lives and promote the well-being of citizens; Investment in social welfare to improve livelihoods and; Promote productive employment and entrepreneurship.

To implement the 2022/23 ADP, the County Government is required to mobilize approximately Kshs.13.9 billion through the main sources of revenue; i.e Equitable share,

This County intends to continue implementing programmes and projects outlined in the CIDP 2018-2022 while on the other hand aligning the same to the post-COVID 19 economic recovery strategies.

The plan has been formulated within the framework of sectoral planning for enhanced resource allocation, effective policy formulation as well as implementation. This Plan therefore forms the basis for resource allocation for the 2022/23 fiscal year and therefore informing the revenue mobilization strategies to ensure effective and efficient delivery of policies, programme and project outputs and outcomes.

I therefore call upon all the stakeholders and the county citizenry to work together in supporting the implementation of this plan.

Michael Semera CECM – Finance, Economic Planning and ICT

ACKNOWLEDGEMENT

The preparation of this 2022/23FY ADP was well coordinated by the County Treasury to provide a basis for budgeting in the next financial year. Its formulation was through collaborative effort from various stakeholders within the county. This ADP will create a means for financing the priorities for implementation in the 2022/23 financial year and over the medium term to ensure achievement of county targets.

First and foremost, I wish to appreciate H.E. the Governor Joseph Ole Lenku and the Deputy Governor H.E Martin Moshisho for spearheading the county's transformative development agenda. I extend my appreciation to the County Executive Committee Members (CECMs) in charge of various county government departments for their support through the process. Special acknowledgement goes to the CECM in charge of Finance, Economic Planning and ICT, Mr. Michael Semera for his guidance throughout the plan preparation. I also recognize the role played by the County Assembly through the leadership of the Hon. Speaker Mr. Johnson Osoi, all the County Assembly Sectoral Committees and more specifically the Committee in charge of Finance and Economic Planning led by Hon. Kitesho Meshuda.

I also wish to acknowledge all the Accounting Officers, Directors, Heads of Departments and all the Sector Working Groups (SWGs) for their input which informed the preparation of this plan. Special appreciation goes to the core team from the Budget and Economic Planning section for their commitment and effort in putting together this plan. In addition, I take this chance to thank the entire staff of the County Government of Kajiado for their commitment, sacrifice and dedication to public service.

I conclude by appreciating the citizens of Kajiado County for their continual and relentless support while preparing this plan.

Lekina Tutui Chief Officer: Finance, Economic Planning

ANNUAL DEVELOPMENT PLAN OUTLINE

This 2022/23FY Annual Development Plan (ADP) comprises of four chapters. Each chapter if briefly summarized in the following sections.

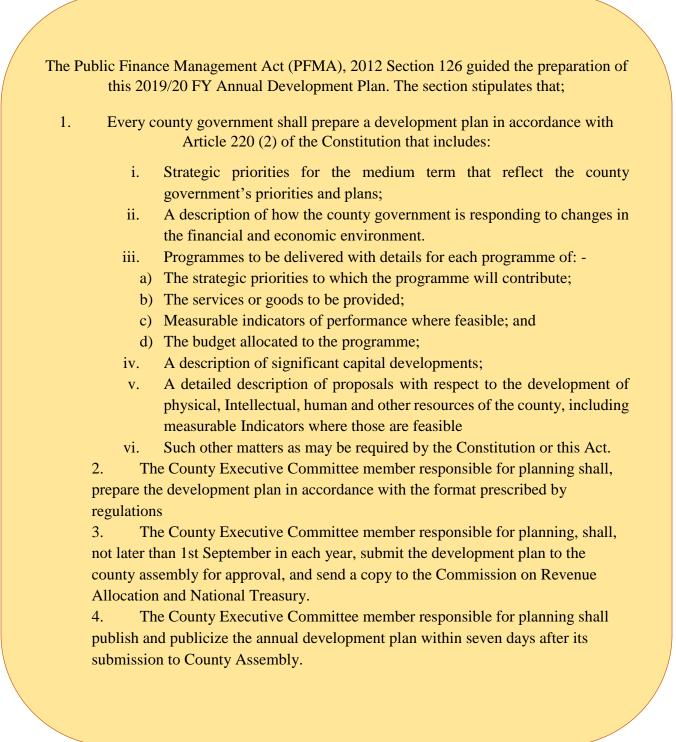

Chapter one gives a brief introduction of the general county information including: county size and location; administrative and political units; demographic profiles; and socio-economic information. It also highlights on the linkages of this plan together with the second Generation County Integrated Development Plan for the period 2018-2022. It further gives the process employed in preparing this 2022/23 Financial Year (FY) Annual Development Plan (ADP).

Chapter two presents county thematic priority policies/ programmes/projects to enable the recovery of the economy after the negative effects of COVID-19. They include Sustainable food security, improved nutrition and value addition; Ensure healthy lives and promote the well-being of citizens; investment in social welfare to improve livelihoods and; Promote productive employment and entrepreneurship.

Chapter three provides implementation matrix giving information on sector programmes, sub programmes, objectives, outcomes, key outputs, key performance indicators, planned targets and budgetary requirements for 2020/21 financial year.

Chapter four highlights strategies to be applied by the County Government of Kajiado in resource mobilization for successful implementation of this Annual Development Plan. It also provides the overall resource allocation per county sector for successful implementation of this plan.

LEGAL BASIS FOR THE COUNTY ANNUAL DEVELOPMENT PLAN

CHAPTER ONE: INTRODUCTION

The Annual Development Plan (ADP) is a statutory document that guides the implementation of priority programmes and projects in a specific year of the County Integrated Development Plan (CIDP) five years' development blue-print. The ADP gives general guidelines on the development process including; spelling out the annual county development priorities, county's resource potential, and resource mobilization strategies.

The FY 2022/23 ADP was prepared in consideration of the Corona Virus Disease (COVID-19) negative effects on the economy. The plan has been prepared in line with the requirements of the constitution of Kenya 2010 article 220(2) and the Public Finance Management Act 2102 section 126, sub-section 3. It outlines the broad strategic framework for development and highlights the county's spending plan in the financial year 2022/2023 and the medium term period.

1.1.Overview of the County

This section provides background information of the county in relation to size and location; administrative and political units; and demographic profiles. It also outlines summary of socioeconomic and infrastructural information that has a bearing to county's development.

1.1.1 Location and Size

Kajiado County is located in the Southern part of Kenya. It borders Nairobi County to the North East, Narok County to the West, Nakuru and Kiambu Counties to the North, Taita Taveta County to the South East, Machakos and Makueni Counties to the North East and East respectively, and the Republic of Tanzania to the South. It is situated between Longitudes 360 5' and 370 5' East and between Latitudes 10 0' and 30 0' South. The county covers an area of 21,871.1 square kilometres (Km2)

1.1.2 Administrative and Political Units

Kajiado County is divided into 5 sub-counties and 25 Wards with Kajiado West being the largest and Kajiado North Sub-county being the smallest in terms of area in Km2. Political units/constituencies in the county bear the same names as the sub-counties. Politically, the county comprises of five constituencies namely; Kajiado Central, Kajiado West, Kajiado North, Kajiado East and Kajiado South all accounting for a total of 25 electoral wards

1.1.3 Demographic Profiles

According to the 2019 Kenya Population and Housing Census (KPHC) report, the population of Kajiado is 1,117,840 persons of whom 557,098 were male while 560,704 were female and 38 were identified as intersex. The county has 316,179 households with an average household size of 3.5. The county has a land area of 21,871.1 square kilometres and a population density of 51 persons per square kilometer.

1.1.4 Socio-Economic and Infrastructural Information

This subsection summarizes socio-economic in addition to infrastructural information that has a bearing on the development of the county.

Health is one of the key indicators of human capital development in any economy. On this, there are several health facilities in the county to ensure provision of quality, effective and affordable healthcare services to promote well-being and ensure healthy lives for all. Through the county department of health, the county government is upgrading Kajiado sub-county hospital and other healthcare facilities to increase accessibility to health services.

Like health, education is also another indicator of human capital development. Education is key in contributing to achievement of county development agenda. As per the 2018-2022 CIDP, there are 888 Early Childhood Development (ECD) Centres; 771 primary schools comprising of 446 public schools and 325 private schools; 121 secondary schools of which 70 are public and 51 are private schools; and six (6) vocational Training centres.

Water is an essential driver of socio-economic development. However, this important commodity is scarce in the county; to mitigate on this, various measures/strategies have been implemented to ensure availability and accessibility of water for both industrial and domestic purposes. These include drilling of boreholes, excavation and rehabilitation of water pans, extension and revamping of water pipelines, among others. The county through collaborative partnerships is in the process of actualizing the construction of mega dams as a flagship project.

Pastoralism is the mainstay of the county more so in the rural parts. Cattle, sheep and goats are the common livestock kept which thrive well in the county except during disease outbreak and harsh weather conditions like drought. Trading of livestock and livestock products such as beef, milk, chevon, mutton, hides and skins offer alternative sources of nutrition, household income as well as employment. Beef ranching is another economic activity practiced in ten communal ranches

situated in Kajiado South and West sub-counties. Bee keeping mainly known as apiculture is a potential economic activity owing to the availability of flora within the county.

Availability of vast arable land suitable for crop farming contributes to development in the county. Large scale crop farming is mainly practiced in Kajiado South sub-county while other sub-counties do crop farming through irrigation some in green houses. The approximate area under irrigation is 6000Ha composed of both large and small irrigation schemes. Crops produced both for subsistence and commercial purposes include: maize, beans and irish potatoes. Horticulture and floriculture are also practiced in the county.

Fish rearing geared towards enhancing household income and providing alternative source of nutrition is also practiced in the county. The two types of fish farming are capture and culture mainly on fish ponds and wetlands ecosystem respectively, rearing tilapia and cat fish types of fish.

Tourism is an important economic activity contributing to economic growth and development which requires to be sustainably exploited in the county. A number of attraction sites, rich maa culture, variety of birds, range of wildlife promote tourism in the county. Among the attraction sites in the county are: Ngong Hills, Olorgesaile pre historic site, Lake Magadi, Nguruman escarpment, Amboseli National Park and the beautiful scenery of Mt. Kilimanjaro on the Kenyan side located in Kajiado South sub-county.

Infrastructural development mainly touching on road construction, expansion and maintenance supports economic growth and development. The county aims to accomplish *Unganisha* road network flagship project targeting urban areas to ease congestion, reduce travel time and costs and enhance connectivity in urban areas. The total road length in the county is approximately 2,500Km comprising of bitumen, murram and earth roads. There are modern bus parks in Kitengela and Ngong towns and seven airstrips in Magadi, Amboseli National Park, Loitokitok, Ngong, Kajiado Town and Olooitikoshi. The county has a meter gauge railway approximately 138Km connecting Kajiado town and Magadi as an alternative means of transport. Standard Gauge Railway (SGR) project implemented in Phase 2A by the national government passes through the county specifically at Em-bulbul in Kajiado North Sub-County.

The county is endowed with natural resources such as sand which creates employment in the county. There are quarrying sites including Kenya Marble Quarries (KMQ) in Iloodokilani -

Kajiado West; East African Portland in Ng'atataek in Kajiado Central; Kibini, Sholinke, Nkurunka and Kitengela in Kajiado East; and Mbirikani in Kajiado South. The main quarry products are marble stones, limestone, ballast and construction/building blocks. Various sources of green energy also exist in the county including wind, solar and biogas offer alternative source of energy and conserves the environment.

Across the county, mobile telephony stands at 60 per cent with some parts of Kajiado Central, South and West sub-counties facing major signal instabilities. Local Area Network (LAN) and Wide Area Network (WAN) need to be upgraded and expanded to enhance connectivity and promote sharing of official information within the county government entities. Strong collaboration with service providers is key in improving connectivity within the county.

1.2.Annual Development Plan Linkage with CIDP

The Kenya Vision 2030 is the national blueprint that forms the national development agenda that is being implemented through a series of 5-year Medium Term Plans (MTPs) and therefore the CIDP 2018-2022 has been aligned to the Vision through MTP III. The CIDP identifies specific projects and programmes for implementation over the five-year period. On the other hand, an ADP is a development plan that is prepared to implement projects and programmes identified in the CIDP. The 2022/23FY ADP is the fifth to be formulated towards the implementation the county strategic priority policies, programmes and projects in the CIDP 2018-2022.

1.3.2022/23FY Annual Development Plan Preparation process

This section gives data sources which informed the preparation of this plan. It further briefly explains the process employed in the preparation of the 2022/23FY Annual Development Plan.

Kajiado County Integrated Development Plan covering the period 2018-2022 was the main source of data that informed the preparation of this plan in addition to departmental reports submitted by each county entity. Preparation of this plan was also informed by inputs from citizens during countywide forums conducted in the preparation of CIDP. Other sources of data were reports from national government departments, stakeholder meetings, inputs from sector working groups and the County Budget and Economic Forum (CBEF), existing government plans and policies.

Comprehensive consultation and a participatory approach was applied in the preparation of this 2022/23 annual development plan. This approach fosters ownership of the plan and builds a strong

base for successful implementation. Various stakeholders participated in the formulation of this plan including representatives from development partners, Non-Governmental Organizations (NGOs), national government, Faith Based Organizations (FBOs), Community Based Organizations (CBOs) and organizations representing people living with disabilities, youth and women among others.

CHAPTER TWO: ECONOMIC RECOVERY FOR IMPROVED QUALITY OF LIFE

2.0 Overview

This chapter will provide development strategies aimed at improving the economy of Kajiado following the negative effects of COVID-19. The theme for the Medium Term is *"Economic Recovery for Improved Quality of Life"*. In order to improve the quality of livelihoods of the people of Kajiado County, the plan will focus on 4 key thematic areas: Sustainable food security, improved nutrition and value addition; Ensure healthy lives and promote the well-being of citizens; investment in social welfare to improve livelihoods and; Promote productive employment and entrepreneurship.

2.1 Introduction

The global, regional and global economies suffered huge losses due to the pandemic, causing the projections of the Gross Domestic Product (GDP) for 2020 to decline. However, the GDPs are anticipated to increase in 2021 from the effects of the pandemic following key strategic improvement measures. The global economy is projected to recovery to 5.8 percent in 2020 from a negative projection of 3 percent in 2020 while the Sub-Saharan African economy is expected to grow by 4.1 percent in 2021 from a projection of 1.6 percent in 2020. Similarly, the country will implement strategies, which will stimulate the economy and eventually grow to a 5.8 percent projection in 2021 from a 2.5 percent projection in 2020. The county economy is also expected to accelerate in 2021, through the implementation of economic recovery strategies. This increase in county output will contribute to the national 5.8 percent GDP projection.

2.2 County Economic Recovery Focus Areas

The strategies for recovery will focus on stimulating the economy in order to enhance county economic growth.

i. Ensure healthy lives and promote the well-being of citizens

The Health Sector was considerably affected by the COVID-19, which saw the entity stretch its resources in order to mitigate the pandemic. Some of the significant investment in the sector include: enhancing the Human Resource for Health (HRH); increasing the bed capacity for isolation; engaging development partners to provide support and; improving public health surveillance and response.

The government will continue to make investments in the sector that create awareness to the public on health preventive measures; adoption of healthy lifestyles and; effective promotion of public health practices. The county will continue to promote and implement the Universal Health Coverage (UHC) programme by increasing the number of National Health Insurance Fund (NHIF) beneficiaries. Frontline Health workers and community health workers will also continue to receive capacity building on COVID-19 upcoming containment measures and protocols. On health infrastructure, the county will continue to make investments in upgrading/ construction/ rehabilitate/equip hospitals (level 4 and 5) and all primary care facilities.

ii. Sustainable food security, improved nutrition and value addition

In a bid to have a healthy and productive citizenry, Sustainable Development Goal one (1), requires that countries work towards ending all forms of hunger and malnutrition. The county will implement strategies, which will increase the supply and nutritional value of food commodities by improving productivity. The county will invest in small-scale farmers through: offering extension services to farmers; provision of drought resistant seeds; provision of subsidized fertilizers through the National Government; disease control and management; support of household irrigation; and value addition mechanisms.

The county will invest in nutritional services to children under five (5) years by: deworming and offering Vitamin A supplements; prevention of stunting (low-weight for age) growth; prevention of wasting (low-weight for height) and; promotion of exclusively breast-feeding for infants less than 6 months. The county will continue to providing nutritional meal to pupils through the School Feeding Programme.

iii. Investment in Social Welfare to Improve Livelihoods

Investment in county social welfare will focus on improving the education system; empowerment and protection of vulnerable groups including Youth, Women and Persons With Disabilities (PWDs). Through the department of Education and Vocational Training, the county will provide school bursary to increase the literacy level and help needy children access education. In order to increase the retention rate in early childhood education, the county will providing meals through the SFP. In reference to educational infrastructure, the county will construct/rehabilitate/complete/equip/operationalize ECDEs and vocational training centers countywide.

In order to enhance social protection and empowerment, the vulnerable members of society will be supported through disability mainstreaming strategies, gender mainstreaming, and providing credit to women and youth as a measure of mitigating COVID-19 effects.

iv. Promote productive employment and entrepreneurship

Some of the strategies for promoting productive employment and entrepreneurship include, the provision of accessible credit; offering training on entrepreneurial skills; supporting Micro, Small and Medium Enterprises (MSMEs)and ; providing a conducive macroeconomic environment for businesses. The county will provide credit funding through the Microfinance Youth & Women Enterprise Fund and County Empowerment Fund to the youth and women in a bid to increase their sources of income generation.

The county will also support the role of the private sector in the economy through financing projects through Public Private Partnership (PPPs). In addition, legislative documents such as the Finance Act and Kajiado County Investment Authority Bill, 2019, will provides a legal ground to promote and attract potential investors.

CHAPTER THREE: IMPLEMENTATION, MONITORING AND EVALUATION

This chapter presents implementation matrix highlighting information on sector/sub-sector proposed programmes, objectives, outcomes, key outputs, key performance indicators, planned targets and estimated budget for 2022/23FY. This is useful in tracking planned targets to gauge the performance of the county.

3.1. Introduction

This section gives details of programmes/projects per county sector since sectoral planning was adopted in the county. These sectors are aligned to the Foundations/Enablers for county transformation, Economic and Social Pillars of the 2018-2022 CIDP. These are: i Productive Sector; ii. Health Sector; iii. Water, Environmental Protection and Natural Resources Sector; iv. Education, Youth and Social Services; v. Physical Infrastructure; and vi. County Administration.

3.3.1. Productive Sector

This sector is important in supporting the growth and economic development of the county through employment and wealth creation, enhanced food security, and overall poverty reduction. It comprises the following sub-sectors: Agriculture, Livestock and Fisheries; Trade, Industrialization and Enterprise Development; Cooperative Development; Tourism and Wildlife; Lands and Physical Planning and Urban Development.

Sector Vision

A competitive economy that is food secure, innovative, industrious and commercially oriented anchored on sustainable land use.

Sector Mission

Improved livelihoods of Kajiado residents through food and nutrition security, creating income generating activities, employment and wealth creation opportunities with sustainable land use practices.

Sector Goal

To attain food security, enhance wealth creation and promote planned development within the county.

Sector Programmes and Projects

KAJIADO COUNTY ANNUAL DEVELOPMENT PLAN 2021/22

During the plan period the sector will implement various programmes and projects which will contribute to achievement of county's development agenda.

Agriculture, Livestock and Fisheries

During the FY 2022/23 the subsector will invest in construction of Hay. To increase agricultural crop production and productivity, the department aims to complete the conference Hall at Ngong for agricultural training as well as procure farm machinery at Kitengela to promote farm mechanization services.

Under the animal production and Management program, that aims to improve animal production and productivity, the department will establish a county Feedlot Farm in Kajiado West in Ilodokilani Ward and procure feedlot resources for animal husbandry. In addition, the department will establish a livestock breeding and multiplication farm in Kajiado Central, Matapato South Ward and procure breeding stock; construct and equip dairy houses in Kajiado South in Kuku Ward, Kajiado East, Kaputiei North, Kajiado Central, Dalalekutuk Ward and Mosiro Ward, Kajiado West. The department also looks to rehabilitate cattle dips and cattle crushes.

To increase agricultural crop production and productivity,20 tons of crop tolerant crops and 1000 liters of agrochemicals and 3 agricultural farm machineries will be supplied to farmers,10 water pans excavated,200 Ha of land put under irrigation and 10 assorted post-harvest equipment distributed to farmers.

In the same period, the department aims to improve animal production and productivity by rehabilitating 1000 Ha of rangeland as well as vaccinating and treating 2,979,445 animals.

The fisheries department is determined to increase fish production and fish farming income. This will be achieved through construction and equipping of 15 community fish ponds and 10 school fish ponds, establishment of 1 fish cottage industry in Kajiado east and construction of 1 fish trading shed in Kajiado West.

Trade, Cooperatives and Enterprise Development

The sub-sector plays a key role in facilitating linkages within the productive sector thus enhancing wealth creation and employment opportunities. For this to thrive well, the county government facilitates an enabling environment for Small and Medium Enterprises (SMEs) including the large enterprises within the county. Trade promotion and development, Consumer protection, enterprise development, cooperative development and management are the programmes to be implemented by this sub-sector in 2022/23 financial year.

On trade promotion and development, the sub-sector plans to finalize and operationalize various bills. Capacity building of entrepreneurs, linking Producer Business Group (PBG) to industry

experts for product development will also be carried out. The sub-sector also plans to develop trade investments and SMEs digitized database in 2022/23FY. To continually provide a conducive working environment to traders, the sub-sector will develop various market infrastructure through construction and rehabilitation of 5 markets.

In regards to consumer protection, the sub-sector plans to undertake verification of weighing instruments and create awareness on consumer rights through awareness campaigns across the county.

To enhance cooperative development and management, the sub-sector intends to strengthen cooperative governance structures by facilitating audit and compliance with cooperative regulations. Additionally, the sub-sector will work to ensure that new cooperative societies are formed and operationalized as well as reviving dormant ones. Also, the sub-sector will conduct capacity building of cooperative officials and society members; the annual Ushirika day celebrations will also be carried out during the plan period.

Tourism and Wildlife Management

Promotion of tourism and proper management of wildlife in the county is vital as it contributes to economic growth and development in the county. Coordination of local tourism will promotion as well as wildlife management by development and marketing of various products will be undertaken. To ensure organized implementation of activities among various stakeholders, the subsector will take lead in participatory formulation of tourism and wildlife policies. The sub-sector will also promote wildlife conservation and conduct awareness creation with a view of minimizing human-wildlife conflicts in the county.

Lands and Physical Planning

The lands and physical planning sub-sector is crucial in ensuring sustainable land use for enhanced economic development. During the plan period, the sub-sector plan to develop local physical plans, part development plans and zooning plans within the county. The sub-sector will also take lead in resolution of land disputes in the county. Additionally, digitization of topographical as well as thematic maps and land surveys including updating of valuation roll will be facilitated.

Regarding urban development and management, the county intends to establish Kitengela municipality. Formulation of urban development plans, which are linked to the county's medium

term development plan, that is, the 2018-2022 County Integrated Development Plan (CIDP), will also be implemented.

3.3.2. Health Sector

The health sector is mandated to provide quality health care within the county. Good health guarantees an active population that immensely contributes to the overall productivity and economic development of the county and the country at large. The county is committed to implementing strategic interventions aimed at accelerating the attainment of this goal.

The sector comprises of two (2) sub-sectors namely; Medical Services and Public Health and Sanitation.

Sector Vision

A prosperous, healthy and globally competitive County free from preventable diseases and ill health

Sector Mission

To promote provision of sustainable, accessible, quality and equitable health care that is evidenced based, technology driven and client centered to all the people of Kajiado County.

Sector Goal

To eliminate communicable conditions; Halt, and reverse the rising burden of non-communicable conditions; Reduce the burden of violence and injuries; Provide essential healthcare; Minimize exposure to health risk factor; and Strengthen collaboration with private and other sectors that have an impact on health in the county.

Sector Policies, Programmes and Projects

This section gives a summary of policies/programmes/projects that the Health Sector will implement during FY 2022/23. These interventions will be financed by the county Government of Kajiado (CGK) and various development partners.

Under the health access programme, the department plans to complete ongoing projects under the Level 4 and Level 5 hospitals and 14 primary care facilities. The department will also enhance the accessibility of services countywide by extending community outreach services and establishing additional community units.

In order to reduce the burden of diseases in Kajiado County, the department will focus on preventive and promotive measures. These include: enhancing immunization coverage; promotion of effective and efficient public health practices; sensitization of the public on Non-Communicable Diseases (NCDs), Communicable Diseases (CDs) and Neglected Tropical Diseases (NTDs); enhanced nutritional practices; and improving environmental health.

Under the Health Quality Assurance programme, the department will engage in human resource management; health information and; governance issues.

3.3.3. Water, Environmental Protection and Natural Protection

This sector comprises of Water infrastructure; Irrigation; and Environment and Natural Resources sub-sectors. It is responsible to ensure increased access to safe water; ensure clean and safe environment and promote sustainable utilization of natural resources in the county.

Sector Vision

To ensure sustainable access to adequate and reliable safe water in a secure environment

Sector Mission

To enhance water accessibility, promote sustainable use of natural resources and environmental conservation for socio-economic development

Sector Goal

To ensure sustainable development in a clean and secure environment.

Sector Policies, Programmes and Projects

This sector focuses on increasing access to reliable, safe and clean water; as well as promoting conservation and management of environment including natural resources in the county.

The sector plans to implement water resource management and supply with the aim of enhancing access to safe water for domestic and industrial use. This will be achieved through development of water infrastructure including; connecting piped water to consumers, supplying water to households, supplying households with water from the dams and pans, connecting institutions with clean water

To improve management of water supply services, the sector plans to training of community water committees and completion of one water policy. On management of storm water, gullies will be

rehabilitated and storm water drains constructed. The sector also intends to construct sand dams and fence water catchment areas as well as replace diesel powered boreholes with solar power to promote utilization of green energy. In addition to these the department also aims at developing a strategic plan for water resources and mapping of sub counties for water resources location. Further, the sector also plans to accomplish the following flagship projects; construction of mega dams to supply citizens with water.

3.3.4. Physical Infrastructure Sector

This sector is responsible to ensure that the county is well equipped with efficient, affordable and reliable infrastructure as well as organized urban development for sustainable economic growth and development. The subsectors that make up this sector are: Roads and Transport, Energy, Public Works, Housing and Urban Development.

Sector Vision

A world class provider of quality and affordable physical infrastructure facilities and services

Sector Mission

To provide efficient, affordable and reliable infrastructure for sustainable economic growth and development through construction, modernization, rehabilitation and management of all infrastructural facilities

Sector Goal

To provide reliable and affordable infrastructure in order to attain sustainable development and economic growth.

Sector Policies, programmes and Projects

Infrastructure development is basically through grading of roads, opening of new roads, gravelling culverts installation, Drainage works and installation of floodlights. The sector also works in collaboration with other partners like Kenya National Highway Authority (KeNHA), Kenya Rural Roads Authority (KeRRA) and the World Bank in tarmacking of roads in Kajiado county. The sector has also over the years embarked on very ambitious programs of improving security and

making towns in Kajiado County a twenty-four-hour economy by installing street lights and floodlights. The impact of this is already being felt in most of the major towns and markets.

In Fire Disaster Management, the sector targets to establish and operationalize one fire station, and procure and operationalize an additional fire engine and a water truck to strengthen fire emergency response in the county

The sector aims at expanding and sustaining physical infrastructure to support growth and development of the economy. The sector also endeavors to provide excellent service in the construction and maintenance of public buildings and other infrastructural works by preparing and acting upon requested project designs.

The sector also targets to promote alternative source of energy by collaborating with development partners on green energy

In housing, the focus will be on renovating and rehabilitating of existing government houses within the entire county to ensure decent living for the staff.

3.3.5. Education, Youth and Social Services Sector

The sector ensures the provision of quality basic and vocational education; youth empowerment; sports development; social protection services; and cultural conservation.

Sector Vision

The sector vision is to be a national leader in provision of high quality, diversified and equitable education and training and have a productive workforce and a vibrant sports industry.

Sector Mission

The sector mission is to provide, promote and coordinate quality education and training for sustainable development and promote sustainable employment, productive workforce, empower communities and vulnerable groups; nurture diverse sports talent to enhance cohesiveness and county competitiveness.

Sector Goal

The overall goal for the sector is to increase enrolment and retention at ECD level, enhance uptake of vocational training, develop VTCs infrastructure & support services, increase employment opportunities, enhance youth participation in socio-economic activities, develop additional sports facilities and nurture & promote youth talents.

Sector Policies, Programmes and Projects

The sector will focus on key strategic objectives namely: access to basic and tertiary education; improvement of quality and standards of education; learners' retention in educational institutions; improvement of governance in education; youth empowerment and development and; sports development. Also, promoting gender equality; empowerment of vulnerable groups; enhancing inclusion and participation for all vulnerable groups in socio-economic development; and cultural and heritage conservation.

The Education and Vocational Training

The subsector plans to implement the following programmes/projects: construct/rehabilitate/equip ECDs; provide school bursaries to needy learners; school feeding program for ECD learners; continually rehabilitate Vocational Training Centers (VTCs); equip VTCs with Specialized Tools and Equipment; and continually capacity build ECD and VTCs teachers/instructors.

Under the access to basic and tertiary education, the sub-sector will undertake programmes and projects to construct/rehabilitate and equip public pre-schools to enhance early childhood education within the county. Further, the sub-sector plans to provide SNE services to learners with special needs by conducting psycho-education assessment and placements for children with special needs and disabilities. Access to tertiary and vocational education will be enhanced through improvement and renovation of public VTC infrastructure and equipping of public VTCs through provision of specialized tools and materials.

Under the quality assurance and standards programme, the sub-sector will focus capacity building of VTC instructors and ECDE training care givers. Further, the sub-sector plans to provide teaching and learning materials and develop CBET programs.

To retain learners in learning institutions, the sub-sector will provide school feeding programme to ECDE pupils and disburse bursary funds to needy and deserving students in secondary and tertiary learning institutions. Additionally, the sub sector will work with partners to mobilize support in addressing matters affecting girls' retention in school; providing sanitary towels, campaigns against FGM and early marriages.

Gender and Social Services

The sub-sector ensures gender mainstreaming through policy development, mentorship, provision of sanitary towels to girls and advocacy on Gender Based Violence (GBV), FGM and child marriage. The sub-sector also oversees social economic empowerment of women groups by providing access to the Kajiado County Youth and Women Enterprise Development Fund (KCYWEDF). Further, the sub-sector is involved in social protection services through social welfare and vocational rehabilitation, HIV/AIDS mainstreaming, childcare support and protection, control of drug and substance abuse, betting and gaming control, disability mainstreaming.

Youth and Sport Development

The sub-sector provides youth empowerment services through youth mentorship and capacity building and construction of Youth Empowerment/Resource centers. Youth empowerment is enhanced through the provision of training opportunities and access to KCYWEDF to youth groups. The sub-sector also manages sports development activities through the provision of sports infrastructure and sponsorship of sports events and competitions.

Culture and Arts

Under culture, the sector aims to protects and safeguard cultural heritage, establish Maasai Cultural Centre and community culture language centres. To protect the Natural Products Industry initiative, the subsector will plant indigenous medicinal plants. Under arts, the subsector will develop and promote the arts industry by constructing *Ushanga* sheds and developing *Ushanga* group businesses.

3.3.6. County Administration Sector

This sector constitutes of the following sub-sectors: Finance and Economic Planning; Public Service, Administration, Legislation and Oversight. The sector's main role entails leadership; administration; human resource management; public financial management; representation, oversight and legislation for effective service delivery.

Sector Vision

Vision: "A leading sector in legislation, public policy formulation, coordination, supervision and prudent resource management."

Sector Mission

"To provide quality public service delivery through coordination and management of human resources, resource mobilization, leadership in public policy and accountable systems"

Sector Goal

The sector aims at offering quality public services that respond to the needs of the citizens by providing leadership in public policy formulation, coordination and supervision of government services, prudent resource management and excellence in legislation and oversight.

Sector Policies, Programmes and Projects

The sector's main responsibility is to provide leadership and overall coordination in the public service, thus ensuring effective and efficient service delivery within government. The Sector main role includes public service, human resource management and development, promoting citizen

engagement in the county government development processes, public finance management, ICT, county executive coordination, legislation, oversight and representation.

The sector plans to undertake programs are planned under the respective county department to achieve the sector goal.

Public Service, Administration and Citizen Participation: The department intends to implement Human resource management and development, specific outputs include formulation of county organizational charters for each department; development of a HR management framework, and coordination of county government service delivery.

Implementation of the county performance management to ensure that departmental work plans are aligned to individual staff targets. This will in turn enhance service delivery across government. The department will continue to facilitate staff medical cover as well as to administer the car and mortgage fund with an aim of addressing human resource welfare and motivation.

The department will enhance accountability in the management of the County human capital whereby regular verification and audit of the payroll data will be done. The estimated personnel expenditure for the county executive amounts to **Kshs.3.65 billion** based on the 2021/2022 approved expenditure.

The county government will continue to rally citizens to participate in development and decision activities through organized civic education forums with the support of development partners.

County administration unit will ensure that government services are further devolved for the county headquarters to the sub-county, ward and village levels. Through the county inspectorate unit, the county will ensure that legislations are implemented without compromise while ensuring maintenance of law and order.

In coordination of the county executive affairs, the Office of the Governor takes lead in coordinating policy formulation and implementation. The county government will further work towards establishing partnership and seek additional funding to finance county programmes and projects. This will also entail intergovernmental relations where institutions, national government as well as county governments collaborate with the county for a common goal. This will include strengthening operations of the newly formed Narok and Kajiado County Economic Block (NAKAEB).

The county will enhance disaster risk preparedness and continue to provide guidance on coordination of emergencies.

The County Assembly key role entails legislation, oversight and representation as envisaged in the Constitution. Through legislation and oversight, the County Assembly supports the County Executive in delivering on its mandate while through representation, aspirations of the citizens are articulated. The County assembly chambers and the Speaker's residence construction will be funded to ensure that they are completed.

Public Finance Management is a critical function coordinated by the County Treasury. The main function entail development and implementation of financial and economic policies as per the Public Finance Management Act, 2012. Specific responsibilities entails to monitor, evaluate and oversee management of public finances and economic affairs including mobilization of public resources, ensuring effective accountability procurement for use of the resources.

The County Treasury plan for the 2022/23 Financial Year include: Preparation of budgetary policy documents; quarterly budget implementation reports, Quarterly audits conducted and acted upon and quarterly expenditure reports and the annual final accounts.

Under local revenue mobilization, the county targets to collect 85% of the budgeted revenue reflecting 59 % growth of OSR. Additionally, the revenue unit targets to attain a 90% level of automation of all revenue streams.

To facilitate formulation of sound economic and financial policies, the sector through the department of Budget and Economic planning will prepare the 2023/24 Annual Development Plan, 2022 County Annual Progress Report, a County M&E Policy and roll out of e-CIMES.

In an effort to improve access to government services and improve communication among Government departments, ICT unit plans to connect three additional departments into the fiber network and increase network points to 150.

CHAPTER FOUR: RESOURCE MOBILIZATION

The chapter presents various resource mobilization strategies to be used in order to meet the financial requirements to implement the county government policies, programs/ projects for the 2022/23 fiscal year. This being the last annual plan to implement the county's five-year development objectives, enhanced resource mobilization strategies are laid down to ensure availability of finances. The County is also working towards economic recovery form the advance effects of COVID-19 that greatly affected the business environment and the overall productivity.

Mobilization of stakeholders and development partners will be a major priority of the government to ensure that the very capital intensive projects are implemented as per the plan. The County Treasury will spearhead formulation of the 2022 Finance Act to provide a framework for Own Source Revenue collection.

The County Government main revenue streams include equitable share, local revenue and conditional grants. The projections are as indicated in the following table.

| Type of Revenue | 2022/23 FY |
|--------------------|-------------------|
| Equitable share | 7,954,768,229.00 |
| Local revenue | 1,605,355,500.00 |
| Conditional grants | 1,097,069,390.00 |
| Other sources | - |
| Total | 10,657,193,119.00 |
| ADP Financing | 13,904,000,000.00 |
| Deficit | 3,246,806,881.00 |

Projected Resource Requirement 2022/23 FY

The county requires to mobilize a total of **Kshs.13.9billion** to implement the 2022/23 FY Annual Development Plan. This is against a total budgetary projection of **Kshs.10.7billion** as per the 2021/22 -2023/24 medium term expenditure framework. This indicates that the county will only manage to finance 77 percent of the annual planed priorities.

The County Government will put in place strategies to enhance resource mobilization to finance the 2022/23 annual development plan.

The table below outlines a summary of proposed budget requirement by sector, subsector and programmes.

| Sector | Sub-Sector | Programmes | Amount (Ksh.) Millions | As a % of the total budget |
|--|---|---|------------------------------|----------------------------------|
| Productive Sector | Agriculture, Livestock and Fisheries | Crop Production and Management | 44 | |
| | | Animal Production and Management | 236.6 | |
| | | Fish production and Fisheries management | 30 | |
