FOREWORD

The 2023/24 FY Annual Development Plan (ADP) implements the first-year layer of the five years development programs, policies, strategies and projects prioritized under the 2023-2027 County Integrated Development Plan (CIDP III). The ADP sets out development priorities, classified into programs and sub-programmes in the five sectors of the county. These sectors are health, infrastructure, productive and economic, social and administrative and governance.

CIDP III identified nine pillars on which ADPs priorities will be anchored on. These nine pillars are, 1) Efficient and high-quality healthcare system, 2) Modern roads and transport infrastructure, 3) Water secure communities in habitable environment, 4) Accelerated growth through human settlement and urban development, 5) Food security and wealth creation, 6) Commercial empowerment for investments and industrialization, 7) Quality, equitable and accessible education and training, 8) Empowerment through sports, social welfare, and inclusion, 9) Transformative leadership through accountable governance. As such the process of preparing the 2023/24 FY ADP ensures that these objectives of each pillar are accommodated for the purpose of deliberate focus on the desired development outcomes by 2027.

In addition, in compliance with the relevant legislations, the 2023/24 FY ADP was prepared, in accordance with the principles contained in the national and international development agenda. As such the development objectives of the Kenya Vision 2030, the Bottom-up Economic Transformation Agenda (BETA) of the new national Administration. and the targets contained in the Sustainable Development Goals (SDGs) have been aligned to this ADP. Also, the Constitution of Kenya (COK), and the relevant national laws including the County Governments Act, 2012 and Public Finance Management Act, 2012 and the Equitable Development Act (EDA), 2015 which is the local legal framework for allocation of development expenditure amongst wards and county level development priorities.

The ADP was prepared through a consultative approach whose outcomes included the prioritization of ward projects popularly referred to as 'EDA projects' amounting to Kshs. 1,099,447,279 divided into Wards according to the allocation formula contained in the EDA, 2015 and one project - Industrial Park co-financing - of Kshs. 100,000,000 to enable the actualization of the BETA agenda of creating employment, value addition, industrialization and investments.

In the EDA Projects allocations in wards, the 2023/24 FY ADP has adopted an hybrid strategy geared towards balancing the physical projects citizens needs with the necessary empowerment oriented programs whose impacts will spur production, trade, increase employment opportunities, innovation, improved quality of life and reduced cost of projects implementation. In this regard, several common empowerment-oriented programs have been included in this ADP for each wad. These programs include medical drugs supplementation, youth Wezesha program, PEPEA program, Afya Bora program, acquisition of water rigs, Talanta Hela sports tournament, Internship program, bursary enhancement, one cash crop per ward program, physical planning of urban centers amongst other programs.

Notwithstanding the marginal increase in the county's equitable share under the 2023 Budget Policy Statement (BPS) and the slow growth in the Own Source Revenue (OSR), we expect significant impact

on the economy and the lives of citizens from the prioritized development priorities under this ADP. Coupled with the administrative and governance reforms adopted by the new county leadership since its ascendance to power in August 2022, it is our belief that our country is headed for major development leaps in the coming years.

We therefore urge all the country's development stakeholders to undertake their respective development agenda in an harmonious and coordinated approach.

ALPHAEUS TANUI
CECM FINANCE AND ECONOMIC PLANNING

ACKNOWLEDGEMENTS

The Annual Development Plan is a critical document that sets out our strategic direction for the upcoming year, the preparation of the financial year 2023/24 Annual Development Plan benefited from the wise counsel and guidance of H.E Wisely Rotich, the Governor, H.E Prof Grace Chesereck, the Deputy Governor, and the County Executive Committee Members. Equally, we received a lot of support and great contributions from fellow Ag. Chief Officers and Directors of the various departments within the county.

This document was prepared by a technical team of officers from the directorate of Economic Planning and Budgeting, under John Maritim, the Director. The untiring efforts, willingness to collaborate and their dedication to producing quality work is a testament to their professionalism and commitment to excellence. Also, the immense contributions from monitoring and evaluation focal point persons derived from all departments are greatly appreciated.

Once again, I would like to thank everyone for their contributions and commitments. May the support gotten during the preparation of this document continue even during the plan's implementation.

JOHN MARITIM
DIRECTOR ECONOMIC PLANNING AND BUDGETS

DEFINITION OF TERMS

Affirmative Action: A policy or programme of intervention to increase representation or to address discrimination through measures that enhance equity.

Topographic zone: A zone that represents a particular area in detail, including everything natural and man-made, i.e., hills, valleys, roads, or lakes. It's the geographical contours of the land. It entails the Highlands, Lowlands (Valley), and Escarpment (Hanging Valley).

Ecological zone: A zone or area with broad yet relatively homogenous natural vegetation formations, similar in aspects of the structure of vegetation.

Geomorphology: The study of landforms, their processes, form and sediments at the surface of the Earth.

Reticulation system: A system that helps water move from the original source to the consumer.

Gross Enrolment Rate: The total enrolment in a specific level of education, regardless of age, expressed as a percentage of the population in the official age group corresponding to this level of education.

Industrialization: The process of transforming the economy of a nation or region from a focus on agriculture to a reliance on manufacturing.

Artificial Insemination: The process of manually depositing semen/sperm into the reproductive tract of a female animal.

Communicable disease: An illness that is transmitted through contact with disease-causing agents or microorganisms that cause an infection.

Community health unit: It is a health service delivery structure within a defined geographic area covering a population of approximately 5,000 people.

Community health worker/volunteer: A frontline public health worker who is a trusted member or has an unusually close understanding of the community served.

County hospital: Healthcare institution providing patient treatment with specialized medical and nursing staff and medical equipment.

Disaster risk reduction: Systematic development and application of policies, strategies and practices to minimize vulnerabilities and disaster risks throughout a society, to prevent or to limit (mitigation and preparedness) adverse impact of hazards, within the broad context of sustainable development.

CHAPTER ONE: OVERVIEW OF THE COUNTY

2.1 Overview of the County

1.1.1. Position and Size

Elgeyo Marakwet County spans an area of 3029.6 km², making up 0.4% of Kenya's total landmass. The county is situated between latitude 0° 10' and 1° 20' North, and longitude 35° 10' to 35° 44' East. It is bordered by West Pokot County to the North, Baringo County to the East, Trans Nzoia County to the Northwest, and Uasin Gishu County to the West. The county has an elongated shape, located between the Uasin Gishu Plateau to the West and the Kerio River to the East. The Kerio River, which originates in the Southern highlands of the county, flows into Lake Turkana.

1.1.2. Physiographic and Natural Conditions

Elgeyo Marakwet County has three distinct topographic zones, the Highlands, Lowlands (Valley), and Escarpment (Hanging Valley), which are separated by the Elgeyo Escarpment. Each of these zones has attracted a different pattern of settlement. The highlands, which make up 49% of the county's total land area, are heavily populated due to their fertile soils and reliable rainfall. In contrast, the Escarpment and Lowlands, which constitute 11% and 40% respectively, have low rainfall and are vulnerable to natural disasters such as drought, rockfalls, and landslides. As a result of these harsh climatic conditions and high levels of insecurity, these areas have a high poverty rate and a sparse population.

1.1.3. Ecological conditions

Elgeyo Marakwet County has three distinct ecological zones, the Highlands, the Escarpment, and the Valley. The Highlands, which constitute 49% of the county's total land area, are suitable to produce dairy cows, wool from sheep, potatoes, maize, wheat, and beans. In the Escarpment, which makes up 11% of the total land area, crops such as maize, millet, sorghum, and beans are grown despite the risk of soil erosion, landslides, and rock falls. Meanwhile, in the semi-arid Valley, which covers 40% of the county's land area, farmers raise zebu cattle, poultry, goats, and sheep and grow crops such as fruits, millet, sorghum, groundnuts, and green grams. Most of the farmers in the county are smallholders, with an average of 1.36 ha of land, while large-scale farmers have an average of 17.3 ha of land.

1.1.4. Climatic conditions

Elgeyo Marakwet County has a relatively cool climate with varying levels of rainfall across the county. This is due to the county's geomorphology and topography, which is characterized by three distinct agro-ecological zones, the Highlands to the west, the Escarpment (Hanging Valley), and the Lowlands (Valley) to the east. The altitude varies greatly within the county, from 900 m above sea level in the Valley to over 3000 m above sea level in the Highlands, resulting in significant differences in climatic conditions. The average maximum temperature in the county ranges from 25°C to 28°C, while the average minimum temperature ranges from 18°C to 22°C. The average annual rainfall ranges from 700 mm in the semi-arid Valley to 1700 mm in the Keiyo and Marakwet Highlands (Cherangany Hills). The County shows a trend of decreasing rainfall from west to east, and it is the eastern lowlands of the county that have lower and less reliable rainfall, making it more susceptible to droughts and floods.

The relative humidity in the county ranges from 53% to 69%, and the wind speed is around 8 knots (15 km per hour)

1.1.5. Administrative and Political Units

The county is divided into four sub-counties, which are: Keiyo North, Keiyo South, Marakwet West, and Marakwet East. Each of these sub-counties is further divided into 20 wards, with 72 locations and 206 sub-locations.

Marakwet East and Keiyo North have four (4) electoral wards each while Marakwet West and Keiyo South have six (6) electoral wards each respectively. In addition, Marakwet East has a land area of 784.3Km² (25.9%), Keiyo North 541.0Km² (17.9%), Keiyo South 899.7Km² (29.7%) and Marakwet West 804.6Km² (26.6%).

Table 1: Area by Sub County, Wards, Location and Sub Location

Constituency	No. of Wards	Area Km ²	Wards		Locations	Sub-locations
			Name	Area (Km ²)		
Keiyo North	4	541.0	Emsoo	152.3	2	9
			Tambach	176.1	2	7

Total	20	3029.6	20	3029.6	72	206

Source: KNBS (2019) National Population and Housing Census, and IEBC Reports

1.1.6. Demographic Features: Population Size and Composition

The sub-counties within Elgeyo Marakwet are evenly distributed on either gender. There is a greater population of males and females in Marakwet West (males; 68,948 females; 68,560) and Keiyo South

(males;60,919 females; 59,827) sub-counties compared to Keiyo North (males;49,601 females; 49,574) and Marakwet East (males; 47,849 females; 49,190).

The inter-censual national population growth rate as at the 2019 population census is 2.3%: An increase from 38.6 million in 2009 to 47.6 million in 2019. The population census as per district administrative units in the 2009 census (Marakwet and Keiyo) was 369,298 (KNBS,2009) compared to 454,480 in the 2019 population census. This gives a population increase of 18.74% and a inter-censual population growth rate of 1.87%

The county's population growth rate during the period between censuses is lower than the national growth rate, but it is still substantial enough to increase pressure on the county's resources. The county government needs to prioritize planning in areas such as healthcare, employment, and food production to accommodate this growth.

1.1.7. Socio-economic and infrastructural information

More than 80% of the population of the county is involved in farming and associated endeavours, making agriculture the backbone of the county's economy. The county is also renowned for its distinctive tourism niches, such as the Rimoi National Game Reserve, athletics, paragliding, and the people's rich culture, among other activities that contribute to the county's revenue. Additionally, the county is collaborating with neighbouring counties, including Baringo, Uasin Gishu, West Pokot, Nandi, Turkana, Trans Nzoia, and Samburu, through the North Rift Economic Block (NOREB), to improve tourism, trade and investment opportunities.

The county boasts a comprehensive road network spanning 3,207 kilometres in total, with 245 kilometres (7.6%) of it being made of bitumen and another 467 kilometres (14.6%) being upgraded to meet the bitumen standard. Additionally, 1,740 kilometres (54.3%) are made of gravel surface, while 755 kilometres (23.5%) are earth surface roads. The presence of all-weather roads facilitates mobility of people, goods, and services, thus promoting trade, investment, agribusiness, and information dissemination. Furthermore, this infrastructure also improves access to essential services such as healthcare, education, and other government services.

2.2 Annual Development Plan Linkage with CIDP

The County Integrated Development Plan (CIDP) outlines broad directives for the development process, which include conducting an analysis of the county's resource potential, establishing a basis for allocating resources, defining roles and responsibilities of stakeholders, providing a framework to assess performance, improving development coordination, ensuring timely project implementation, creating a database of project information to support informed decision-making, and promoting effective community involvement in the development process.

The CIDP outlines the overarching priorities and strategies that will be implemented during the plan's duration. These priorities include promoting county competitiveness, modernizing agriculture, diversifying tourism, managing human settlement, protecting the natural environment, enhancing the transportation network, providing suitable infrastructure, and spearheading industrialization efforts.

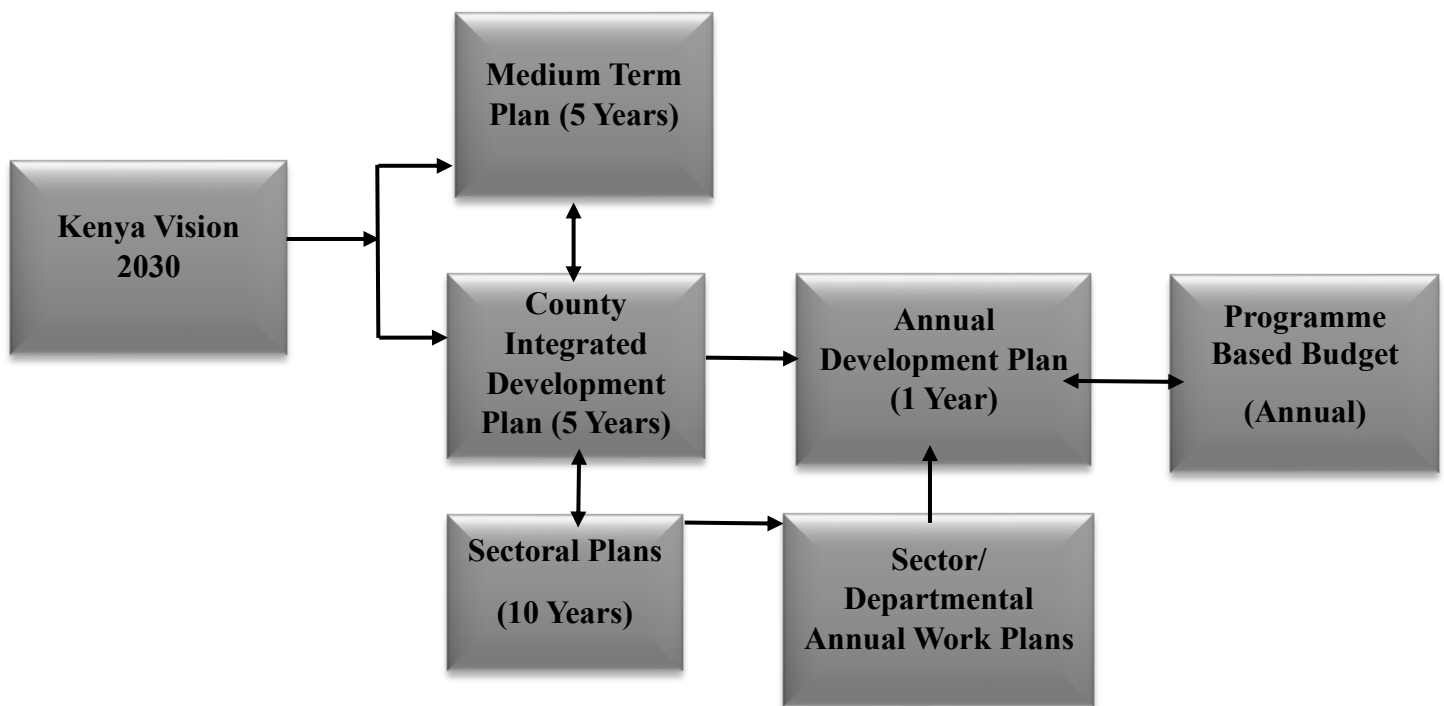

To realize the goals set out in the CIDP, annual development planning (ADP) will be utilized. This process involves consolidating annual prioritized proposals and targets to align with the county's five-

year aspirations as outlined in the CIDP. The ADP serves as a framework for executing approved annual budgets, promoting public participation, informed prioritization, good governance, integrity, transparency, accountability, sustainable development, and performance measurement.

Preparation for annual development planning is undertaken in adherence to constitutional and legal requirements as outlined in Article 220(2) of the Constitution and Section 126 of the Public Finance Management Act of 2012.

The annual development plan (ADP) is the tool used to implement the flagship projects outlined in the CIDP. These priority projects cover a range of areas and are critical to the county's development. In the transport sector, the ADP will prioritize opening of 100 kilometres of roads and maintenance of 1,500 kilometres of roads. The ADP will also focus on modernizing agriculture through the provision of certified seeds, provision of agricultural machinery, and establishment of a county abattoir. Another area of focus is the improvement of health care services, which includes the construction of new health facilities, provision of medical equipment, recruitment of additional health personnel and supply of medical drugs. The ADP also includes the establishment of a waste management plant, construction of low-cost housing units, and promotion of the county's cultural heritage. The successful implementation of these flagship projects through the ADP will significantly contribute to the county's development and help achieve the goals set out in the CIDP.

Figure 1:ADP Linkage with other Plans

2.3 Preparation process of the Annual Development Plan

The preparation process for the annual development plan (ADP) comes just after the new government has been elected to office. Development of ADP forms the beginning and a crucial aspect of the county's planning and budgeting cycle. The process of 2023/2024 ADP began with a review of the previous financial year's plan to evaluate its performance and identify areas that require improvement. This information was then used to develop a baseline for this year's plan. The development of the ADP involved a multi-stakeholder process that included the county government, local communities, and other relevant stakeholders. The process involved extensive public participation to ensure that the priorities of the people are considered. In addition, the county conducted stakeholder consultations and technical meetings with line departments to discuss development priorities and identify projects to be included in the ADP. Once the projects had been identified, they were subjected to a thorough appraisal process to assess their feasibility and alignment with the country's development goals and the new administration manifesto. The projects were then prioritized based on their impact on the county's development, and the available resources were allocated accordingly.

The preparation process for the 2023/24 ADP was a collaborative and consultative process that ensured the inclusion of community priorities and effective use of available resources to promote the county's development. The ADP was then presented to the County Assembly for approval before being implemented.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

2.1 Overview

The previous ADP is literally for F/Y 2022/23. However, this period has not realized project implementation yet. This is a result of delayed disbursement of funds from national government to county government due to continued disagreement between National assembly and Senate on budget to be disbursed to counties and the transition period after the 2022 general elections. The formulation of bills of quantities has been completed and implementation of the projects are expected to commence soon. For this reason, the review of previous ADP will cover F/Y 2021/22.

The total development budget for 2021/22 financial year was Ksh 2,858,559,004. Agriculture and Irrigation sub-sector had the highest allocation of Kshs. 693,222,007. Roads, Public Works and Transport and Water, Lands, Environment and Climate Change Management sub sectors received the second and third highest allocations of Kshs. 633,906,757 and Kshs. 515,548,353 respectively. The sub sectors that received the lowest share of allocations were County Public Service Board (CPSB) and Tourism, Culture, Wildlife, Trade and Industry with Kshs. 2,500,000 and Kshs. 20,350,729 respectively.

2.1.1 Infrastructure Sector

The sector comprises 3 sub sectors namely: Roads, public works, and Transport; Water, Environment & Climate Change and Lands, Physical Planning, Housing & Urban Development sub sectors. The roads sub sector consists of three directorates/sections; Roads, Public Works and Public Works, Water, Environment & Climate Change comprises Water Services and Environment & Climate Change directorates, while Lands, Physical Planning, Housing & Urban Development comprises Surveying unit, Physical Planning unit, Urban Development, Iten Municipality and Housing.

The sector targets improvement of infrastructure including roadworks, bridges, footbridges and public works, increasing access to clean water and sanitation, enhancement of sustainable management of the environment, mainstreaming climate change impacts, improving the sustainable use and management of land resources and promoting sustainable infrastructure in Iten municipality and other urban areas.

Strategic interventions include; Improved access of the county leading to mobility of traffic, reliable appropriate infrastructure development, attain prompt response to fire emergencies and increased access to energy source/electricity. Water services strategies entails harnessing of ground water resources through borehole sinking, equipping, reticulation, construction of new water treatment water works, desilting of dams while promoting use of green energy through the use of solar powered pumps. The strategies for lands, physical planning, housing and urban development entail; planning of urban centers, acquisition of land for public utilities, improved solid waste management, improved urban infrastructure, street light installation and maintenance, and promoting affordable housing projects.

2.1.2 Social Sector

The sector comprises Education and Technical Training and Sports, Youth affairs, culture, Children and Social services sub-sectors.

The ultimate goal of the sector is to ensure full realization of social and civil rights and improved livelihoods of citizens with a particular focus on vulnerable, marginalized and special interest groups for enhanced sustainable development.

To achieve this goal, the sector set out a number of programs which included pre-primary education, post- primary education, i.e., technical and vocational education and training, sports development, social services and cultural preservation.

The achievements attained by the sector are; increasing pre-primary education Gross Enrolment Rates (GER), equipping of ECDE classrooms, hosting Iten International marathon, sports tournaments and championships and mainstreaming of gender in development decisions to enhance equitable development. Other achievements included grading of ward fields, and organizing cultural events.

2.1.3 Health Sector

The sector comprises: preventive, promotive, curative, rehabilitative health services.

The sector is responsible for promoting and protecting the health of residents within the county. This includes a wide range of activities, such as monitoring and responding to outbreaks of infectious diseases, construction, and maintenance of health care facilities, providing public health education and outreach, and coordinating with other organizations to address public health issues. The goal of the sector is to improve the overall health and well-being of the community.

The health sector did not achieve most of the set targets. Poor infrastructural development with Health Services not sufficiently equipped to provide all services at their level continues to hinder efficient and timely delivery of health services. Shortages of staff across all cadres because of attrition has left existing staff with heavy workloads. However, there were key improvements in key indicators as shown in the table below:

Table 2: Key Performance Indicator

Key Performance Indicator	Unit
Proportion of skilled Deliveries conducted in health facilities	65%
Proportion of pregnant women who completed four or more ANC visits	28%
Contraceptive prevalence rate among women of reproductive age	59%
Percentage of children fully immunized at the age of 1 year	70%
HIV Prevalence	2.5%
TB incidence (per 100,000 population)	112
Malaria positivity rate	15%
Latrine coverage	96.5%
Prevalence of Stunting	22%

2.1.4 Productive and Economic sector

This sector comprises: Agriculture, Livestock, Fisheries and Irrigation and Cooperatives, Trade, industrialization, Tourism and wildlife sub-sectors.

Trade sub-sector focused on improving conditions at marketplaces and Centres through construction of toilets and market stalls to enable traders to have a conducive business environment. Industrialization strived to promote investments of small, medium and large-scale industrial ventures. Tourism Unit focused on revamping and developing tourism infrastructure.

Agriculture's strategic interventions targeted addressing the many losses that emerge along the value chains of various farm produce and products such as dairy, sheep, potatoes and mangoes among others by focusing especially on storage related losses and low income. This can only be achieved through value addition. The value-added products can last longer on the shelves and fetch better prices in the market. Livestock sub-sector strategic intervention included improvement of livestock breeds through Artificial Insemination and reduction of animal diseases by enhanced vaccination and disease surveillance initiatives. Another key intervention by the sector was irrigation, which is key in the Kerio Valley farming. This area has a lot of potential for irrigated agriculture.

The achievements realized include; supply of certified seeds and seedlings to farmers, training farmers and farmer groups on good agronomic practices, exposing farmers to new technologies through; farm demonstrations, field days, exhibitions and exchange tours, creating networking linkages with other value chain actors, promoting small irrigation systems by providing irrigation pipes, tanks and pumps, rehabilitating of irrigation furrows, fencing of food security farms, upgrading of cow breeds through Artificial Insemination (AI), construction of toilets and increased tourists and tourist earnings.

2.1.5 Administration and Governance Sector

The sector is responsible for the provision of county leadership and overall policy. Its functions are coordination of county government functions and provision of oversight functions. It is at the forefront in implementation of county development aspirations through improved policy direction, coordination and information sharing between departments and other entities.

The sector comprises the following sub sectors; Office of the Governor and Executive Administration, Public Service, Devolution, Communications, ICT & E-governance, the County Public Service Board, Finance and Economic Planning and The County Assembly.

During the plan period, the sector aimed at enhancing transparency and accountability through prudent financial management practices, open government partnership commitment and open contracting. As a result, in the plan period, the county government maintained a qualified audit opinion level. Similarly, the budget absorption rate improved from 50% in 2018 to 65% in 2022 while the local revenue collected reached 59.62% as a percentage of set target.

While the level of budget transparency on publishing of procurement decisions; the county managed to publish 50% from the initial 30%. These successes were attributed to the publishing of 40,000 county news bulletins and uploading of all key policy documents from 5 to 12 in the county website which led to 71% of budget transparency index as per by Budget Transparency Index report by the

International Budget Partnership (IBP) which undertook an independent survey and ranked the county as the most transparent in 2019 and 2020 and second runners up in 2021. The adoption of an open contraction portal in 2021 made it possible for citizens to access procurement decisions and undertake oversight as a basis of holding the county government accountable on its decisions.

2.2 Challenges Experienced during Implementation of the previous ADP

Infrastructure sector

- Inadequate technical staff to facilitate project implementation especially public works, road engineers, water engineers, plumbers, physical planners and GIS professionals.
- Delay by Contractors who were not able to deliver as per the contract therefore leading to awarding of projects to more than one contractor.
- Encroachment of road reserves and public land
- Lack of research centers (ABT)
- Inadequate road furniture
- Disaster occurrences
- Low water coverage
- Low yields/ dry boreholes
- Lack of drilling and underground water testing equipment
- Price dynamics in the market particularly for construction material
- Inadequate environmental conservation
- Insecurity along the Kerio Valley
- Unplanned urban areas
- Inadequate land for public utilities
- Inadequate solid waste management facilities
- Inadequate resources (building materials, roads, water, surveying and physical planning equipment)

Health sector

- Frequent Stock out of commodities in health facilities
- Topography (Escarpment and valley) makes access to health facilities difficult.
- Cultural barriers lead to preference of traditional medicine.
- Facilities not fully equipped to offer comprehensive health care services.
- Limited diagnostic capacities in most health centres
- Religious beliefs interfere with administration and use of Family Planning services.
- Over reliance on donor funds for implementation of key programs
- High levels of stigma surrounding certain conditions such as HIV/AIDS
- Delayed diagnosis of disease conditions (NCDs)
- High levels of open defecation in some areas particularly along the escarpment and valley
- Low NHIF coverage limits access to healthcare

Social sector

- Difficult terrain for the proposed sites thus increasing the cost of implementation.
- Skewed socio-economic priorities.
- Low sustainability of empowerment projects
- Inadequate policy and legal framework

- Inadequate gender disaggregated data and tools.
- Weak intergovernmental linkages and stakeholder collaboration
- Retrogressive Cultural practices
- High learner: classroom ratio
- Inadequate policy framework establishing ECD centres and a minimum level of funding of pre-primary education and vocational Training Centres
- Weak inter-sectoral coordination necessary to marshal interventions from relevant sectors.
- Gender disparities in implementation and access to ECDE and VTC
- Low linkages with the industry and labour market
- Low VTC enrolment
- Low adoption of digital learning
- Unaffordable post primary education and training

Productive and Economic sector

- Inadequate extension staff
- Low extension services uptake
- Delaid disbursements especially for conditional grants
- Insecurity along the Kerio Valley
- Thinly spread development due to funding of many small projects
- Human - wildlife conflict along Rimoi National Reserve

Administrative and Governance sector

- Weak inter-governmental coordination framework
- Lack of/uncoordinated project monitoring and evaluation framework
- Poor customer complaints handling procedures.
- Lack of up-to-date county statistical database
- Delay of project implementations due to insecurity along Kerio Valley.
- Inadequate funds to support flagship programmes and activities.

2.3 Lessons learnt and Recommendations.

There were key lessons learnt from the implementation of the previous plan and proposed recommendations for improvement. The lessons learnt are as listed in respective sectors.

Infrastructure sector

- Incorporation of climate resilient infrastructure
- Incorporating in the design all partisan parties and enforce traffic control measures.
- Carrying out reconnaissance prior to implementation
- Enhance collaboration with sub location development committees in the entire project implementation cycle.
- Preparation of an inventory of county public land
- Empowering project management team to carry out sensitization in the entire project cycle

Health Sector

- Community engagement is key by institutionalizing mechanism for participation of through facility or community management committees for health facilities.
- Co-creation of health programs with community members, where they are involved in the design, implementation, and evaluation of the program which can increase their sense of ownership and responsibility for the program.
- Developing a culture of data use and evidence-based decision making by encouraging data use and feedback mechanisms to ensure that data is used effectively to inform program design and implementation, and to make necessary adjustments.
- Encouraging ongoing learning and professional development opportunities for healthcare workers.
- Ensure cultural sensitivity by encouraging healthcare workers to become familiar with and sensitive to the cultural beliefs and practices of the patients they serve
- Increase the capacity and capability of healthcare workers through training and professional development opportunities.

Social Sector

- Community engagement, sensitization and awareness is key for effective implementation of education programs.
- Capacity gap in curriculum delivery
- Timely data collection is essential for objective decision making.
- Adequate and safe educational infrastructure promotes non-discrimination in access to quality education.
- Monitoring and Evaluation is a key component in ensuring value for money is realized.
- Partnership approach is key for effective and efficient implementation of programmes and projects in the Sector.

Productive and Economic Sector

- There's need to guide citizens to appreciate the linkage between physical infrastructure and the 'software' requirements in forms of technical and capacity considerations.
- Citizen engagement through dialogue platforms for joint planning, monitoring and evaluating is critical for ownership of projects and promoting accountability and delivery of results.
- Development projects should have adequate M&E budgets which will be consolidated and managed independently by M&E Unit

Administrative and Governance sector

- Proper coordination and collaboration among intergovernmental agencies, CSOs, CBOs, Development partners in service delivery is critical to the successful implementation of projects and programs.
- Data development and management is key in evidence-based development.
- Human resources capacity constraints can be addressed through effective and efficient management and rationalization.
- Proper coordination of peace building along the insecurity areas.

CHAPTER THREE: COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.1 Introduction

This chapter outlines sector and sub-sector strategic priorities, programmes and projects for the year. It includes broad priorities and performance indicators. It also indicates key statistics, vision and mission, goal and targets for the sector/ sub-sector. The programmes and projects envisage a green economy by mainstreaming cross-cutting issues such as climate change; environmental degradation; Disaster Risk Reduction (DRR); Gender, Youth and Persons with Disability (PWD); among others.

3.2 Infrastructure Sector

Sector Introduction

The sector is mandated to enhance the County's infrastructure which includes road network, water and sanitation infrastructure and urban development.

Sector Composition

The sector comprises the following sub-sectors: Roads, Public Works and Transport; Water, Environment & Climate Change and Lands, Physical Planning, Housing & Urban Development.

Vision and Mission

Vision:

A modern Infrastructure system for social-economic transformation.

Mission:

To develop effective and efficient infrastructure systems for sustainable development.

Sector Goals

- Increase access to transport networks.
- Improve the sustainable use and management of land resources.
- Promote sustainable infrastructure in Iten municipality and other urban areas in the County.
- Increase access to clean water and sanitation to the citizens in a sustainable manner.
- Enhance sustainable management of the environment and mainstream climate change impacts.

Table 3: Sector Development Needs, Priorities and Strategies

Programme	Sector Priorities	Strategies
Roads Improvement	Design and development of county roads	<ul style="list-style-type: none">• Survey, Beaconing and opening of new roads• bituminization of priority roads.• Maintenance of roads• Rehabilitation of Roads• Acquire and install requisite road furniture

Programme	Sector Priorities	Strategies
	development of infrastructural data	<ul style="list-style-type: none"> carry out annual road inventory and condition survey (ARICS) develop county road register and spatial maps.
	enhance use of non-motorized traffic	Develop Non-Motorized Traffic (NMT) infrastructure.
Public works	Improve transport connectivity	<ul style="list-style-type: none"> Construction of footbridges and bridges
	enhance adoption of new technologies in building	<ul style="list-style-type: none"> Establishing ABT centres, research and material testing laboratories ensure compliance to building codes
Transport services	improve county transportation	<ul style="list-style-type: none"> Acquire new appropriate equipment and plant, operationalize fleet & fuel management systems.
Water Services	Enhance sustainable access to adequate clean and potable water.	<ul style="list-style-type: none"> Harnessing of ground water resources through borehole sinking, equipping and reticulation especially where surface water is not tenable. Construction of rainwater harvesting structures such as dams and pans ranging from large, medium to small dams Construction of new water treatment works as well as rehabilitating existing T-works. Push for last mile connectivity (water connection to HHs) Periodic desilting of dams and pans for improved storage.
	Improve water quality through reduced pollutions.	<ul style="list-style-type: none"> Periodic water quality checks to monitor pollution of water sources. Adhere to EMCA (1999) laws in entire project cycle Catchment protection, rehabilitation of degraded land (spencer line) & promotion of dryland forestry
	Implement integrated water resources management at all levels.	<ul style="list-style-type: none"> Training of WRUAs and Basin committees for better management of water resources Collaborate with other government departments and state agencies affiliated to water resources.
	Substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater	<ul style="list-style-type: none"> Work closely with WRA to ensure sustainable allocation and use of water resources
Water Service Providers	Increase households Connected with water and improve sanitation	<ul style="list-style-type: none"> connecting households with metered connections Establish decentralised wastewater/ sewerage treatment works
Environmental Management	Enhance forest cover from the current 29.95%) and sustainably manage natural forests for environmental protection	<ul style="list-style-type: none"> -Operationalization of existing policies & laws (Sustainable Tree growing policy,2020; water Act 2021; Climate Change Act, 2021; and Charcoal Act 2017 etc.)
Climate Change Management	Mainstream climate change issues on development projects	<ul style="list-style-type: none"> Carry out community sensitization programs on resilience to climate change impacts
Lands Use Management	Enhance proper administration of Community land.	<ul style="list-style-type: none"> Sensitization of community Preparation of Inventory for community land Registration of community land

Programme	Sector Priorities	Strategies
	Increase land for public utilities	<ul style="list-style-type: none"> Acquisition of land for public utilities and Land banking Development of county public land acquisition policy Repossession of illegally acquired public land
	Proper management of county public land	<ul style="list-style-type: none"> Preparation of inventory of county public land Digitization of county public land records Cadastral surveying and beaconing of centre plots
	Enhance revenue collection and recording	<ul style="list-style-type: none"> Preparation of county valuation roll Processing of compliance to all subdivision and amalgamation scheme plans
	Enhance planning of urban areas within the county	<ul style="list-style-type: none"> Establishment and operationalization of GIS lab Preparation of local physical and integrated land use development plans Establishment of Physical and Land Use Planning institutions.
	Enhance Development Control and surveillance	<ul style="list-style-type: none"> Preparation of development control policy/zoning policy Approval of development applications i.e building plans, change of user, extension of use, Regularization of buildings without approved plans.
Affordable Housing	Increase access to decent and affordable housing	<ul style="list-style-type: none"> Establishment of affordable housing programmes Acquisition/ setting aside land for affordable housing program
Urban Development	Improve Urban infrastructure	<ul style="list-style-type: none"> Construction of urban roads and upgrading to bitumen standards/gravel Construction of walkways, flyovers and stormwater drainage within urban centres Streetlights installation and maintenance Construction of modern bus park and other parking facilities Equipping of the Disaster management Centre through acquisition of fire engines and other fire fighting equipment Establishment of recreational facilities and green spaces
Iten Municipality	Improve Urban infrastructure	<ul style="list-style-type: none"> Construction of urban roads and upgrading to bitumen standards/gravel Construction of walkways, flyovers and stormwater drainage within urban centres Streetlights installation and maintenance Construction of modern bus park and other parking facilities Construction and equipping of modern Abattoirs. Construction of Iten Stimulus Market and Town square Establishment of recreational facilities and green spaces
	Improve access to information and dissemination	<ul style="list-style-type: none"> Establishment of outdoor advertisement
	Enhance pollution control	<ul style="list-style-type: none"> Acquisition of noise pollution control equipment

Programme	Sector Priorities	Strategies
Solid Waste Management	Improve solid waste management	<ul style="list-style-type: none"> • Establishment of material recovery centres and sanitary landfills • Acquisition of skip loaders, Skip containers and litter bins • Construction of Solid waste transfer stations • Carrying out environmental clean ups
Energy	Increase access to electricity coverage and urban street lighting.	<ul style="list-style-type: none"> • Installation of streetlights in urban areas and local centres. • Increased access to electricity.

3.2.1 Water, Environment and Climate Change Management

Composition

The sub-sector comprises Water which mandates water resource mapping, survey and design, infrastructure development and management of water supplies. Environment; Comprises of environmental protection and tree cover enhancement and Climate Change; Comprise of climate change mainstreaming, adaptation and mitigation.

Vision:

A water secure community living in a quality, habitable and sustainable environment.

Mission:

To provide adequate and quality water, conserve and protect the natural environment for sustainability and climate change resilience.

Subsector Goals

1. Increase access to clean water and sanitation services in adequate quantities to the citizens.
2. Implement integrated water resources management at all levels.
3. Enhance sustainable management and conservation of the environment.
4. Mainstream climate change issues in development and implementation of county projects
5. Enhance forest cover from the current 29.95% to 40% by the year 2030.
6. Improve water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater.

Key Strategies

Table 4: Water, Environment and Climate Change Management Sub-sector programmes

Programme Name: Water Services			
Objective: Enhance sustainable access to clean and adequate water to the citizens			
Outcome: Increased access to clean water in adequate quantities			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Water Services	Intake structures constructed	No. of intake structures constructed	7

	Pipeline laid and extended	Km. of pipeline laid and extended	41
	Masonry Water tanks constructed	No. of Masonry water tanks constructed	9
	Boreholes surveyed, drilled and equipped.	No. of boreholes surveyed, drilled and equipped	2
	Springs protected	No of springs protected	1
	Water equipment & machinery procured	Underground water survey machine/Rigs/test pumping machine/utility truck for carry casings/ vehicle for operations acquired	1
Programme Name: Environmental Management			
Objective: Restore, protect, conserve, and manage the environment for sustainable development			
Outcome: Improved environmental quality and sustainability.			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Environmental Management	Wetlands and riparian areas Protected	Ha. of wetlands/ catchment protected.	1
	Tree nurseries established	No. of tree nurseries established	4
	Tree seedlings planted	No. of assorted tree seedlings planted	7,600
Programme Name: Climate Change Management			
Objective: Enhance climate change mitigation, adaptation and resilience			
Outcome: Enhanced adaptive capacity and resilience to climate Change			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Climate Change Management	Fragile ecosystems Rehabilitated & protected	No. of Planting of trees in fragile ecosystem	3
	Green energy initiatives adopted	No. of solar water pumping systems installed	8
	Advocacy meetings conducted	No. of public meetings conducted	1

3.2.2 Lands, Physical Planning, Housing and Urban Development

Composition

This department consists of Lands, Physical Planning, Housing and Urban Development units. It is mandated to; administer, manage, and maintain county residential houses, collect, process, disseminate and archive accurate geospatial data for sustainable utilization of resources, facilitate land registration and provide security of land tenure to the landless, ensure efficient administration and management of land. It also ensures attainment of an orderly, progressive, and sustainable urban and rural development.

Vision:

A well-planned human settlement for accelerated economic development.

Mission:

To effectively administer land resources and provide adequate urban utilities for sustainable development.

Sub-Sector Goals

1. Achieve efficient, environmentally sound land uses and development in both urban and rural areas.
2. Have a sustainable solid waste management system.
3. Ensure efficient and effective management and administration of land for sustainable development and improved security of tenure.
4. Support establishment and strengthening of urban governance, management institutions and systems to deliver improved infrastructure in municipalities and other urban areas in the County.
5. Support implementation of affording housing within the County.

Key Strategies

Table 5: Lands, Physical Planning, Housing and Urban Development Sub-sector programmes

Programme Name: Land Use Management			
Objective: Ensure efficient and effective management and administration of land for sustainable development and improved security of tenure.			
Outcomes: Secure Land tenure Enhanced Physical and Land use Planning			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
County Public Land Management	Land for public utilities acquired	Acres of land acquired	18.65
	County public land surveyed	No. of public land surveyed and beacons	2
Physical Planning	Urban spatial plans prepared	No. of Local Physical and Land Use Development Plans prepared	17
	Physical and Land Use Planning institutions established	No. of Physical and Land Use planning institutions established	2
Programme Name: Urban Development			
Objective: Support establishment and strengthening of urban governance, management institutions and systems to deliver improved infrastructure in urban areas in the County.			
Outcomes: Sustainable Management of Urban Areas.			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Urban Infrastructure	Informal Settlements upgraded	No. of informal settlements upgraded	4
Programme Name: Solid Waste Management			
Objective: Manage the collection, transportation, and disposal of solid waste effectively, while also promoting recycling and composting.			
Outcome: Improved overall cleanliness of the community			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Solid Waste Management	Waste Bins acquired	No. of metallic non-movable solid waste bins acquired	88

Programme Name: Energy			
Objective: Increase coverage on street lighting and connect all households with electricity within the County.			
Outcomes: Improved urban street lighting Increased access to electricity coverage.			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Energy	Adequate streetlights provided	No. of streetlights installed	127
		No. of centres installed with streetlights	38

3.2.3 Roads, Public Works, and Transport Sub Sector

Composition

The sub-sector comprises of three [3] directorates ; Roads ,Public works and Transport

Sub- Sector Vision

A modern and interconnected transport infrastructure for efficient movement.

Sub Sector Mission

To develop world class transport infrastructure and public works.

Sub Sector Goals:

- Increase access to transport networks.
- Ensure efficient management of public works.
- Modernize transport service management.

Key Strategies

Table 6: Roads, Public Works, and Transport Sub-Sector programmes

Programme Name: Roads Improvement			
Objective: To Design, develop, maintain and rehabilitate county road network for economic development			
Outcome: Improved Accessibility			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Rural Roads Improvement	Rural Gravel Roads Maintained	KM of gravelled roads	94.2
	roads Surveyed	KM of Roads Surveyed	4.2
	box culverts	No of box culverts	6
	Newly opened roads	KM of roads newly opened	71.7
Programme Name: Transport Services			
Objective: To facilitate effective county transportation			
Outcome: Improved mobility			

Sub Programme	Key outputs	Key performance indicators	Planned Targets
Transport & mechanical services	Machines Maintained	no of machines maintained	10
	Workshop maintained	no of workshops renovated	1
Programme Name: Public Works			
Objective: To design, develop, maintain and rehabilitate safe and cost-effective public buildings and civil works			
Outcome: Improved connectivity, efficiency and effectiveness in project management			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Public Works	Foot bridges done	No of Footbridges done	1
	Projects Supervised	% of projects fully supervised	75%

3.3 Social Sector

Sector Introduction

The social sector covers a large segment of the entire population comprising women, the elderly, youth, children and the vulnerable. These groups encounter several challenges ranging from illiteracy, health care, unemployment and drug abuse. The sector aims to enhance social inclusion and equal opportunity for all for enhanced active participation of all members of the society in all aspects of life. In Addition, many school-going children are not enrolled in learning institutions and lack nutritional support, the youth lack relevant skill sets, women lack sufficient empowerment support in accessing credit and other means of production.

Sector Composition

The sector comprises Education and Technical Training and Sports, Youth affairs, Culture, Children and Social services sub-sectors.

Vision and Mission

Vision

A leader in empowering community through socio-economic development in a clean and secure environment

Mission

To create a conducive social environment that enhances cultural values, talent and knowledge development, skills, and competencies acquisition through training and empowerment.

Sector Goals

- To facilitate community awareness through sensitization on the available county social services and other cross-cutting issues
- To improve the quality of physical infrastructure and services provided by the county government.

- To provide support and identify opportunities both locally and internationally to county youth through linkages, scholarships, and bursary.
- To enhance access to county social facilities
- To build capacities of staff for efficient and effective service delivery
- To adopt technological change in education and training
- To mitigate on malnutrition and stunting through school feeding programmes and other nutritional interventions
- To Enhance linkages with relevant national government ministries, NGOs. Religious organizations and private partners on children welfare and educational services.
- Strengthen the management of social amenities in the sector.

Table 7: Social Sector Development Needs, Priorities and Strategies

Programme	Development needs/Priorities	Strategies
Sports Development	<ul style="list-style-type: none"> • Access to standard facilities & Venues for Training and Competition • Tapping of talents • Talent diversification • Viable engagement by the youth • Planned development. • Sports Equipment • Technical Personnel • Regulatory framework 	<ul style="list-style-type: none"> • Upgrading of Ward Fields to Standard Facilities • Establishment of County Sports Academy • Establishing Sub- County Sports Stadia • Hosting talent Scouting, Promotion and Development events • Establishing and Operationalization of Talent Development Centres • Operationalization of athletics Camps • Sports Policy formulation • Coaches and Athletes Development forums • Safeguarding of Training Routes and Lanes • Provision of Sports equipment • Operationalization of Kamariny Sports Complex
Social and economic Empowerment	<ul style="list-style-type: none"> • Economic Marginalization of PWDs & Women in property ownership and leadership. • High illiteracy among women and PWDs due to negative attitude • Low access to information. • Prevalence of GBV and FGM • Inadequate market linkages for women and PWDs who own enterprises due to poor infrastructure. • Low entrepreneurial culture among women and PWDs due to low Self-esteem and negative attitude. • Illicit brewing by Women • Low access to Government Business Opportunities • Lack of security to access Credit. • Create employment opportunities for the youth. • Encourage participation in leadership and governance. 	<ul style="list-style-type: none"> • Formulating guidelines for implementation of Gender Empowerment Policy • Anti GBV and FGM Campaigns • Undertake Behaviour Change initiatives for Illicit Brewers • Supply of Supportive and Aiding Devices • IGAs for Women and PWDs • Establish Gender working groups • Gender Evaluation and Monitoring • Training Youths on Life style, Life skills and Technical skills • Establishing Youth apprenticeship /Internship program • Formation of Youth Forums • Initiating IGAs program for the youth • Setting up Integrated Youth Empowerment Centre • Establishing County youth fund Gender analysis and assessment

Programme	Development needs/Priorities	Strategies
	<ul style="list-style-type: none"> Eliminate Drug and Substance abuse. Enhance Technical/Job related skills and Life Skills Enhance access to credit facilities. Reduce exposure to HIV& AIDS 	
Social Protection	<ul style="list-style-type: none"> Lack of Child welfare and protection services/ structures Low Child rights awareness level Inability to meet basic needs for OVC Inadequate social protection for the Elderly 	<ul style="list-style-type: none"> Training, Sensitization and mobilization on Gender, PWDs and Child rights Strengthened Children protections structures Establish Children assembly Support to Children Homes Establish Social protection medical scheme
Culture Preservation	<ul style="list-style-type: none"> Retrogressive Cultural practices Cultural erosion 	<ul style="list-style-type: none"> Promotion of positive Cultural Practices Alternative Rites of Passage programs Community dialogue initiative Cultural Festivals / Exhibition and Shows Preservation and Rehabilitation of cultural sites/ Botanical Gardens Traditional medicine/ Herbal Medicine Support program Establishment and development of Cultural Centres Development of Museums Establishment of Community Libraries
Technical and Vocational Education and Training(TVET)	<ul style="list-style-type: none"> Lack of skills set to access employment opportunities. 	<ul style="list-style-type: none"> Construction of workshops and provision of equipment for Vocational Training Centres. Rebranding of vocational training centers (VTCs) to ensure that they attract trainees Employ more instructors to meet the TVET recommended ratio of instructor trainee ratio (1:20) Construction of dormitories to improve access and retention in VTCs. Provide Capitation and TVET scholarship to improve access to quality TVET. Establish Business/innovation incubation Hub and Home crafts
Pre-primary education	<ul style="list-style-type: none"> Improve infrastructure development in ECDE centers Low retention rates in pre-primary centres Low nutritional support for pre-primary children. Teacher to learner ratio in pre-primary schools 	<ul style="list-style-type: none"> Recruiting of pre-primary teachers and curriculum support officers Enhancing curriculum support services Providing adequate learning and play materials. Establishing digital learning at pre-primary level of education staff professional training and capacity building provision of appropriate infrastructure provision of education and training support through capitation and scholarships introduction of school feeding programmes at ECDE level of education provision of equipment for digital learning

3.3.1 Sports, Youth Affairs, Children and Social Services Sub sector

The Sub-sector comprises of Sports development (Infrastructure & Talent development), Social Services, and Culture Preservation

Vision

A cultured, cohesive, and empowered community active in sports

Mission

To provide effective social services, promote sports and preserve culture.

Table 8: Sports, Youth Affairs, Culture, Children and Social Services programmes

Program: Sports development			
Objective: To develop sports in all levels			
Outcome: Improved sports participation and performance			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Sports Infrastructure Development	Ward Fields Upgraded/ levelled	No. of Fields Levelled / Upgraded	14
	Training routes/ Circuits and lanes (Roads and Forest) Demarcated and Maintained	KM of Routes/ Trails Demarcation	-
Sports Talent Development	Talent Scouting/ promotion events held	No. of Ward Tournaments	100
	Athletes registered	No. of athletes registered	1,000
Programme: Social Services			
Objective: To Empower Youth, Women and PWDS			
Outcome: Improved wellbeing of the vulnerable, special interest groups and Children			
Social empowerment	Necessity Support (Sanitary Towels Supply)	No. of Pupils	2000
	Behavior Change initiative (Rehabilitation of brewers) Established	No. of Brewers Rehabilitated	200
	Mentorship Program /Motivation Talks Held	No. of Youths Mentored	700
	Social Life-skills Training held	No. of persons Trained on Life Skills	600
Programme: Social Services			
Objective: To protect and empower the vulnerable and special interest groups			
Outcome: Improved wellbeing of the vulnerable, special interest groups and Children			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Social protection	PWDs database established	No. of PWDs Registered	1,840
	Establishment of Children Assemblies Established	No. of Children Assembly	3

	Children Homes Supported	No. Children Homes Supported	9
Programme: Social Services			
Objective: To Empower Youth, Women and PWDS			
Outcome: Increased Youth, Women and PWDS Involvement in productive ventures			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Social - Economic Empowerment (Wezesha Program)	Youth trained on technical skills	No. of Youths trained on Technical Skills	805
	Income Generating Activities (IGA) Grants – Enterprise Development allocation	No. of Groups (Youth, Women and PWD)	842
Programme Culture Preservation			
Objective: To safeguard and manage cultural and natural heritage, practices, knowledge, and movable historical artefacts			
Outcome: Improved cultural and heritage preservation			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Culture Preservation	Community dialogue held on Cultural Practices	No. of Cultural Leaders on reached	12
	Cultural Festivals / Exhibition and Shows held	No. of Cultural Groups Participated	126
	Cultural Centres Established	No. Cultural Centre established	1

3.3.2 Education and Technical Training

Sub-Sector composition

The sub-sector comprises Early Childhood Education and Development and Vocational Education and Training directorates.

Vision

A Quality and affordable education and training accessible to all.

Mission

To provide and promote an education and training environment conducive for acquisition of desired values, attitudes, knowledge, skills and competencies for global competitiveness by fostering educational excellence and ensuring equal access.

Table 9: Education and Technical Training programmes

Programme: Pre-Primary Education			
Objective: To enhance equitable access to quality and relevant Pre-primary Education			
Outcome: Improved access to quality and relevant pre-primary education			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Pre-primary Infrastructure development	Disability friendly classrooms constructed	No. of disability friendly classrooms constructed	17
	ECD centers equipped	No. of centers equipped	17
Pre-primary quality control and support	ECD learners provided with Capitation	No of capitation beneficiaries	12,010
Programme: Vocational Education and Training			
Objective: To increase access to vocational education and training			
Outcome: Improved access to vocational education and training Improved access to post primary education and training			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
VTC Infrastructure development	Disability friendly Workshops constructed	No of disability friendly workshops constructed	1
	Workshops equipped	No of workshops equipped	1
VTC quality control and support	VTC trainees provided with capitation	No. of capitation beneficiaries	2033
	Students provided with bursary disaggregated by gender	No. of bursary beneficiaries disaggregated by gender	4000
PEPEA	Students provided with international scholarship/linkages disaggregated by gender	No. of scholarship beneficiaries disaggregated by gender.	34

3.4 Health Sector

Sector Introduction

The sector is responsible for promoting and protecting the health of residents within the county. This includes a wide range of activities, such as monitoring and responding to outbreaks of infectious diseases, construction, and maintenance of health care facilities, providing public health education and outreach, and coordinating with other organizations to address public health issues. The goal of the sector is to improve the overall health and well-being of the community.

Sector Composition

The sector comprises preventive, promotive, curative and rehabilitative health services.

Sector Vision and Mission

Sector Vision

An efficient and high-quality health care system for all county residents

Sector Mission

To provide quality healthcare services that are accessible, equitable and affordable to all county residents.

Sector Goals

- Expand and increase the reach of initiatives to improve access to quality health services in the county.
- Upgrade the county health infrastructure and improve geographical access.
- Strengthen health workforce and increase capacity to provide quality health services.
- Ensure sufficiency of health products and equipment and strengthen information management.
- Improve community participation, reduce social cultural barriers, and mitigate health risks.
- Improve county effectiveness and efficiency by strengthening the health leadership and partnerships.

Sector Priorities and Strategies:

Table 10: Health Sector Development Needs, Priorities and Strategies

Sector Priorities	Strategies
Provide appropriate infrastructure and health technology	<ul style="list-style-type: none"> · Infrastructure gap analysis to identify the optimal location for new facilities. · Upgrading and equipping of primary care centers · Construction of specialized units in county hospitals · Automation through installation of Hospital Management Information Systems · Identifying and upgrading of Model Health Facilities through the “Afya Bora program”
Reduce maternal and infant mortality rates	<ul style="list-style-type: none"> · Focus on the continuum of care through pregnancy. · Increasing and maintaining the mother and baby friendly status of health facilities · Improving staff skills integrated management of childhood illnesses. · Improving immunization coverage, reducing malnutrition and its attendant risks and improving developmental screening · Increase antenatal care coverage and improve links to HIV and ART care. · Improving access to surgical delivery and improving staff skills in the essential steps in the management of obstetric emergencies (EOC). · Improve access to standard and emergency family planning. · Improve cervical screening coverage. · Promote breast-feeding and proper nutrition for infants and young children
Prevention, detection and effective management of chronic diseases including HIV and TB	<ul style="list-style-type: none"> · Targeted case-finding for chronic diseases of lifestyle based on a risk profile. · Contact tracing for household contacts for TB. · Focus on missed opportunities in the health services to detect and treat diabetes, hypertension, HIV and TB.
Control the spread of infectious diseases and increase access to vaccines and preventive measures	<ul style="list-style-type: none"> · Conduct surveillance and early detection of communicable diseases. · Provide vaccinations and immunizations. · Implement infection control measures in healthcare facilities. · Promote personal hygiene and sanitation. · Provide treatment and care for individuals with communicable diseases

Sector Priorities	Strategies
Reduce the burden of non-communicable diseases and increase access to screening and early detection	<ul style="list-style-type: none"> · Promote healthy lifestyles and behaviors. · Provide screenings and early detection for chronic diseases. · Provide treatment and management for individuals with chronic diseases. · Implement policies and regulations to reduce risk factors for chronic diseases
Provide timely and effective emergency and trauma care	<ul style="list-style-type: none"> · Establish emergency medical services and trauma care. · Train healthcare workers in emergency and trauma care · Ensure access to emergency care services in remote areas. · Improve response time by ambulances to emergencies
Promote mental health and well-being and increase access to mental health services	<ul style="list-style-type: none"> · Provide mental health services and support. · Promote mental health awareness and reduce stigma. · Provide mental health education for healthcare workers and the public. · Build capacity of county hospitals to manage behaviorally disturbed patients. · Targeted screening for common mental disorders
Promote healthy behaviors and lifestyles and prevent the occurrence of diseases	<ul style="list-style-type: none"> · Provide health education and promoting healthy behaviors. · Implement policies and regulations to promote healthy environments. · Conduct research to better understand and prevent diseases. · Conduct campaigns to improve the sanitation and hygiene status of the community
Ensure access to quality healthcare services for all individuals and reduce healthcare disparities	<ul style="list-style-type: none"> · Implementation of National Quality Standards · Establishment of processes to inspect and assess health facilities for compliance with standards. · Establishment of a county compliance unit through Joint Health Inspectors · Increasing the capacity for quality assurance (QA) · Development of quality improvement plans to address the gaps identified during assessments. · Provide affordable and accessible healthcare services -Implement health insurance programs. · Ensure that healthcare services are culturally appropriate and sensitive. · Put up signages in all county health facilities. · Improving waiting times and the patient experience while waiting · Improving the staff working environment, providing better support and supervision, and staff wellness · Use of information and data in quality improvement cycles · Roll-out of adverse incident reporting system · Establish systems to measure waiting times. · Improving coverage of client satisfaction surveys. · Increasing complaints / compliments reporting coverage
Enhancing Health care financing	<ul style="list-style-type: none"> · Develop and implement a long-term comprehensive financial plan and funding strategy. · Diversifying sources of funding to reduce dependence on a single donor by increasing efforts to mobilize domestic resources for health, such as FIF, Linda Mama Claims, Edu-Afya · Implementing cost-saving measures and improving efficiency in health service delivery to reduce costs. · Prioritize programs and interventions that have a strong evidence base and are likely to attract donor funding and demonstrate cost-effectiveness and impact.

Table 11: Health Services Sector programmes

Programme Name: Health Services			
Objective: To promote, maintain, and improve the health and well-being of individuals families and communities			
Outcome: Improved overall health and well-being of individuals, families and communities			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Health Services	Motorbikes purchased	No. of motorbikes purchased	6
	Ambulances maintained	No. of ambulances maintained	2
	CHVs Supported	No. of CHVs Supported	900
	Client benches installed	No. of client benches installed	1
	Drug store and HF renovated and upgraded	No. of drug store and HF renovated and upgraded	1
	Facilities completed	No. of facilities completed	6
	Facilities connected to electricity	No. of facilities connected to electricity	1
	Facilities fenced	No. of facilities fenced	1
	Facilities partitioned	No. of facilities partitioned	1
	Facilities renovated and upgraded	No. of facilities renovated and upgraded	7
	Gates constructed	No. of gates constructed	3
	General store constructed	No. of general store constructed	1
	HF wired	No. of HF wired	1
	HHs sprayed	No. of HHs sprayed	500
	Indigents supported	No. of indigents supported	2500
	Interns recruited	No. of interns recruited	40
	Laboratories completed	No. of laboratories completed	1
	Laboratories constructed	No. of laboratories constructed	2
	Latrines constructed	No. of latrines constructed	4
	Maternity operationalized	No. of maternity operationalized	1
	Medical screening held	No. of medical screening held	3
	OPD completed	No. of OPD completed	4
Persons screened	No. of persons screened	6000	
Pharmacies constructed	No. of pharmacies constructed	1	

Programme Name: Health Services			
Objective: To promote, maintain, and improve the health and well-being of individuals families and communities			
Outcome: Improved overall health and well-being of individuals, families and communities			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
	Staff houses completed	No. of staff houses completed	2
	Staff houses constructed	No. of staff houses constructed	3
	Transfer centres established	No. of transfer centres established	20
	Wards completed	No. of wards completed	1
	Water tanks purchased and installed	No. of water tanks purchased and installed	11
	X Ray rooms constructed	No. of x ray rooms constructed	1
	Ambulances maintained	No. of ambulances maintained	1
	Ambulances supported	No. of ambulances supported	1
	Facilities renovated and upgraded	No. of facilities renovated and upgraded	2
	HF supported with medical drugs	No. of HF supported with medical drugs	120
	Morgue completed and equipped	No. of morgue completed and equipped	1
	Septic tanks constructed	No. of septic tanks constructed	1
	Wards constructed	No. of wards constructed	1

3.5 Productive and Economic Sector

Sector Introduction

The sector has been identified as the cornerstone for driving socio-economic empowerment of the county and its residents. The MTP IV has laid strategic emphasis in the sector through the thematic rallying goal of enhancing food security and crop diversification, Value chain support, crops and livestock industry revitalization, Agricultural Insurance Programme and Agricultural market access and value addition.

Agriculture, Livestock, Fisheries and Irrigation sub-sector through its stakeholder engagements has aligned its strategies and interventions geared towards achieving the MTP IV objectives through: expanding acreage under irrigation, promotion of high value crops across the county, enhancing extension services and promotion of value addition and market access of crop and livestock products. The other sub-sector is the Cooperatives, Trade, Industrialization, Tourism and Wildlife Sub-Sector. Its

focus is to empower citizens through provision of credit services, exploit business potentials, support cooperative movement and develop tourism for posterity.

Sector Composition

This sector comprises Agriculture, Livestock, Fisheries and Irrigation and Cooperatives, Trade, Industrialization, Tourism and Wildlife sub-sectors.

Vision and Mission

Vision:

To be an industrious, sustainable, innovative, equitable and commercially oriented sector.

Mission:

To empower citizens and improve livelihoods of the people through competitive and sustainable agriculture, tourism and enterprise development.

Sector Goal

The overall sector goal is to contribute to poverty reduction in Elgeyo Marakwet County by enhancing enterprise productivity, income generation and diversification of livelihoods.

Table 12: Productive and Economic Sector Development needs, Priorities and Strategies

Sector Priorities	Strategies
Increase productivity and commercialization of crop value chains.	<ul style="list-style-type: none"> Support farmers to access recommended crop value chain technologies and innovations. Support farmers to access crop input and output storage facilities; and cottage Agro-processing facilities. Improve farmers access to extension services. Mainstream climate change mitigation in crop production system Expand and/or rehabilitate irrigation infrastructure. Strengthen farmers capacity to utilize and manage irrigation infrastructures. Domesticate existing, relevant national laws and regulation in the sub sector. Enact commodity specific laws and regulations for the agriculture sector; National Agricultural Extension policy, AFA, Soil management policy, irrigation policy, National food and nutrition policy, livestock policy, Fisheries policy, fisheries management strategies and veterinary policies.
Increase livestock production and productivity	<ul style="list-style-type: none"> Support adoption of improved livestock breeds and breeding technologies. Promote Diversification of livestock enterprises. Exploit existing potential for fish production. Support farmers to increase quantity and quality of livestock feeds and fodder. Improve farmer’s access to extension services. Mainstream climate change mitigations in livestock production systems. Promote value addition and marketing of livestock products. Reduce staff-farmer ratio. Promote one health clinic approach. Domesticate existing, relevant national laws and regulations.

Sector Priorities	Strategies
	<ul style="list-style-type: none"> Enact commodity specific laws and regulations for the livestock sector; National food and nutrition policy, livestock policy, marketing Act Fisheries policy, fisheries management strategies and veterinary policies.
Reduce disease prevalence	<ul style="list-style-type: none"> Promote livestock disease surveillance and control. Develop capacity of dip management committees
Improve extension and technology uptake	<ul style="list-style-type: none"> Establish implementation and coordination framework for programmes/ projects providing extension services. Building capacity for extension service providers. Strengthen training institutions in the county to facilitate capacity building; Labot and Chebara farms. Enhance financial support to promote effective and efficient extension service delivery
Develop sustainable tourism.	<ul style="list-style-type: none"> Map, protect and improve access to tourist attraction sites by opening roads both leading to sites and those within the sites such as Rimoi National Reserve. Develop key integrated management, strategic plans and policies. Development and diversification of tourism niches such as sports, wildlife, and cultural tourism Tourism marketing and promotion through events and advertising. Establish a resource mobilization strategy to ensure investment on capital-intensive amenities. Encourage investment through incentives to attract investors and establish infrastructure such as cable-car and eco-lodges. Establish community-based tourism enterprises. Develop and sustain an inclusive tourism stakeholder engagement framework.
Improve business environment for trade investment to promote MSMEs	<ul style="list-style-type: none"> Capacity building and training of entrepreneurs Establish a revolving fund as a trade support initiative. Establishment of open air and fresh produce markets. Enhance compliance and enforcement of laws that ensure standards in weights and measures.
Growth and development of cooperatives	<ul style="list-style-type: none"> Revival of dormant cooperatives Market linkages for products Establish cooperative revolving fund. Train management and enhance promotion of good leadership and governance in cooperative societies

3.5.1 Agriculture, Livestock, Fisheries, and Irrigation

Vision

A food secure county creating wealth for all.

Mission

To improve the livelihood of Elgeyo Marakwet people through promotion of competitive and sustainable Agricultural, livestock and fisheries practices.

Goal

To progressively achieve food security, poverty reduction and employment creation in Elgeyo Marakwet County.

Strategic Priorities

The Sub-Sector development needs include:

- Sustainable food security
- Development and adaptation of new agricultural technologies
- Bio- fortification of food crops
- Value addition and processing of agricultural produce
- Sufficient water for irrigated farming
- Sustainable food security

Strategies employed to address development needs include:

- Enhancement of Research and Extension Linkages
- Promote value addition and Agro processing initiatives.
- Increase area under farming through irrigation.
- Invest in water harvesting and storage initiatives.

Table 13: Significant Capital Development Key Stakeholders

Stakeholder	Roles/ Responsibilities	Remarks
Input Suppliers	Provision of agricultural inputs	Agro vets, Seed merchants, Agricultural machinery suppliers
Farmers/ Producers	Transformation of inputs into primary produce	Individual farmers, farmers groups
Extension service providers	Dissemination of technology, innovations and management practices (TIMPs)	Predominantly public sector driven
Transporters	Aggregation of produce Transportation of produce	Transport service providers (Lorries, Donkeys, Motorbikes, human)
Traders/ Middlemen/ Farmer marketing groups	Storage and aggregation of produce Wholesale and retail of produce	Storage done during glut periods. EMPMCS formed to spearhead marketing
Processors	Value addition of produce into intermediate and final products	Initiatives being undertaken to promote processing
Hotels, Households, Institutions	Utilization of final products	Increased demand of potato to meet food and nutrition security

Financial service providers	Provision of financial services	Low utilization of credit in the sub sector
Legislative and Regulatory bodies	Legislation and regulation of the sub sector	KEPHIS, HCD, County Assembly, KEBS, Parliament
Research Institutions	Development of TIMPs	
Development Partners	Provision of financial and technical support to programs and projects	
NPCK	Market linkages and advocacy	Agri-SOKO platform
Print and electronic media	Advocacy and publicity	

Table 14: Agriculture, Livestock, Fisheries and Irrigation Sub-sector programmes

Programme Name: Crop Development			
Objective: To develop priority crop value chains into sustainable commercial enterprises			
Outcome: 1. Increased crop productivity 2. Increased crop farmer income			
Sub Programme	Key Output	Key Performance Indicators	Planned Targets
Crop Commercialization	Farmers' access to technologies and innovations enhanced	Kilos of certified seeds supplied	6,460
		Number of certified seedlings supplied	37,647
		Number of fruit tree seedling nurseries established	15
	Farmers' access to crop input/output storage and value addition facilities supported	Number of Agro stores availed	1
		Number of Agro-processing equipment available	1
Agriculture extension Services	Farmers trained	Number of farmer business schools established	7
		Number of lead farmers trained	105
		Number of field days, exhibitions and tours	15
		Number of farmers reached with extension messages	1,802
	Extension officers trained	Number of field visits done	4
		Number of agriculture extension motorcycles purchased	3
	CSA model farms established	Number of CSA model farms established	2
Programme Name: Irrigation Development			
Objective: To increase crop productivity through irrigation			

Outcome: Increased area under irrigated agriculture			
Sub Programme	Key Output	Key Performance Indicators	Planned Targets
Irrigation development	Irrigation infrastructure expanded and/or rehabilitated	Number of irrigation water furrows rehabilitated and expanded	5
		Number of irrigation dams desilted	1
		Number of portable irrigation kits purchased	16
		Number of irrigation schemes established	2
	Model food security farms established	Number of food security farms fenced	1
Programme Name: Livestock Development			
Objective: To increase livestock productivity and commercialization			
Outcome: 1. Increased livestock productivity 2. Increased livestock farmer income			
Sub Programme	Key Output	Key Performance Indicators	Planned Targets
Livestock Commercialization	Livestock production, productivity and income increased	Number of heifers purchased and supplied	20
		Number of Sahiwal bulls purchased and supplied	30
		Number of dairy goats purchased and supplied	23
		Number of gala bucks purchased and supplied	103
		Number of dorper sheep and rams purchased and supplied	48
		Number of merino sheep purchased and supplied	100
		Number of indigenous chicks purchased and supplied	2,000
		Number of fishponds established/Renovated	4
		Number of fish farmer groups supported	2
		Number of modern hives purchased and supplied	109
		Number of sale yards constructed/renovated	1
	Pasture and fodder production increased	Kgs of pasture and fodder seeds purchased and supplied	1628
	Farmers trained	No. of lead farmers trained	61

Livestock Extension Services		No of field days and exhibitions conducted	2
	Monitoring visits made	No. of monitoring visits conducted	6
Programme Name: Veterinary Services			
Objective: 1. To reduce prevalence of Notifiable and Tick-borne diseases. 2. To improve cattle breeds			
Outcome: Reduced Livestock disease prevalence			
Sub Programme	Key Output	Key Performance Indicators	Planned Targets
Livestock Disease Control	Animals vaccinated	No. of animals vaccinated	397,000
	Routine inspections conducted	No of inspections conducted	18
		No of dips whose committees were trained	25
		Litres of acaricide purchased	695
Breeding	Cattle inseminated	No. of cattle inseminated	755

3.5.2 Cooperatives, Trade, industrialization, Tourism & Wildlife

This sub-sector comprises Tourism, Cooperatives, Wildlife, Trade, and Industry.

Vision

A globally competitive opportunity for sustainable growth, development, and industrialization.

Mission

To empower citizens, exploit business potentials, support cooperative movement, develop tourism for posterity.

Goals

1. To develop and manage trade and industrialization.
2. To develop and manage tourism within the county.
3. To promote cooperative movement

Key Strategies

The key strategies for the sub sector include enhancing tourism infrastructure development, marketing of tourism, supporting the informal sector development to create employment, providing conducive enabling business environment and increased consumer protection capacity.

Table 15: Cooperative, Trade, Industrialization, Tourism and Wildlife Sub-sector programmes

Programme Name: Tourism Development			
Objective: To enhance tourism development			
Outcome: Increased tourist arrivals to the county			
Sub-Programme	Key Output	Key Performance Indicator	Target
Tourism Development	Development of picnic, tourist attraction and camping sites	No. of picnics and campsites developed	3
	Conservancies established	No. of conservancies established	2
	Animal orphanage established	No. of animal orphanage established	1
	Marketing events, promotions and Exhibitions carried out and attended	No. of events organized	10
		No of Niche products developed	4
		No. of meetings and shows organized or attended	4
	Boat purchased	Number of boats purchased	1
Rimoi National Reserve	Establishment of Animal captive facility	No. of captive facility developed	
	Snake parks developed	No. of snake parks operationalized	1
	Ecolodges constructed	Number of ecolodges	1
	Water pans constructed and desilted	Number of pans dug and desilted	2
	Housing units constructed	No. of housing units constructed	5
	Construction of fence	KM of fence erected	42
	Maintenance of fence	KM of fence Maintained and repaired	42
	Opening of park roads in Rimoi	Km of roads opened	12
	Grading and gravelling of park roads	Km of roads gravelled	12
	Construction of drifts	No. of drifts constructed	3
	Power connection	Km of power line installed	10 30
	Environmental conservation	Acreage of invasive species removed	42
	Construction of drainage system	Drainage system developed	1
	Drilling of and equipping of boreholes	No. of boreholes drilled	5
	Construction of Gate at Kobulwa	No. of gates constructed	1

Programme Name: Trade and Enterprise development			
Objective: To improve business environment for trade investment to promote MSMEs			
Outcome: Increased business within county and Improved business sustainability and resilience			
Sub-Programme	Key Output	Key Performance Indicator	Target
Trade and Enterprise development	Trade fairs and Exhibitions held	No of trade fairs and Exhibitions held	2
	Traders trained	No. of traders trained, sensitized and capacity built	1 56
	Industrial Park	No. of industrial parks	1
	Business incubation centres developed	No. of centres developed	2
	Fluorspar mining established	No. of industries developed\revived	1
	Open air markets established	No. of markets developed	2
	Modern Markets Established	No. of modern Markets Established	1
	Construction of sale yard	No. of sale yard	1
	Lockable shops constructed	No. of shops constructed	18
	Construction of Boda Boda sheds	No. of Boda Boda sheds constructed	3
	Construction of Pit latrines	No. of Pit latrines constructed	8
	Verification of weighing and measuring equipment	No. of weighing and measuring equipment calibrated	5,000
	Sampling of pre-packed items	No. of pre-packed items sampled	3,000
	Weighing and measuring equipment calibrated	No. of weighing and measuring equipment calibrated	250
Grading and gravelling of market	Length of roads gravelled	1	
Programme Name: Cooperative Development			
Objective: To enhance growth and development of co-operatives			
Outcome: Increased turnover for cooperatives			
Sub-Programme: Cooperative Development			
Key Output	Indicator	Target	
Cooperative societies Audited	No. of Cooperative societies audited		1 6

Co-operatives members and management trained	No. of co-operatives members and management trained	85
Capacity building of farmers	No. of farmers trained	1,800
Automation of Cooperatives	No. of purchase of digital weighing scale	1
Motor bikes, women groups and youth groups/cooperatives formed	No. of boda boda SACCOs registered and empowered	1
Purchase of Motorbike for cooperatives	Number of Motorbikes Purchased	1
Cooperatives empowered	Number of societies embracing value addition and product diversification	4
Wool production plant	Number of plants established	1
wool washing machine	wool washing machine	1
cooling Plant	No. Of cooling Plant	1
Tannery plant established	No. of plants established	1
Processing Plant	No. of processing Plants	1
County co-operative union empowered	Registration and operationalizing of the union	1
Cooperatives storage facilities enhanced	Number of stores constructed	8
County Cooperative Revolving fund established	Number of members loaned amount given	5

3.6 Administration and Governance

3.6.1 Public Service, Administration, Devolution, ICT and E-Governance

The sub-sector comprises Human resource, Payroll, Alcoholics Drinks Control, Aids Control Unit, Communication and ICT, Citizen participation and civic education, County administration.

Vision

A leader in transforming the delivery of human resource and services in the public sector.

Mission

To provide quality public services in a timely and competent manner, and to work with the cooperation of all units to create a vibrant and healthy physical, social and economic environment.

Table 16: Public Service, Administration, Devolution, ICT and E-Governance programmes

Programme Name: County Administration and Devolution			
Objective: To provide leadership in governance and management of county government affairs			
Outcome: improved coordination and administration of services Informed citizenry Improved service delivery			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Coordination of government functions	project monitoring and supervision done	no. of quarterly reports prepared	80
	open/accountability forums held	no. of ward/open day forums held	20
	peace forums held	no. of peace building forums held	12
	ward and sub county offices equipped	no. of offices equipped	23
Programme Name: Public Service, ICT and corporate affairs			
Objective: To champion for efficient and effective service delivery			
Outcome Enhanced efficiency and effectiveness of county services Efficient and effective communication of Government information. Increased adoption of ICT infrastructure in services rendered			
Sub Programme	Key outputs	Key performance indicators	Planned Targets
Huduma mashinani	Ward ICT centres equipped and operationalized	no. of operational ICT centres	20

CHAPTER FOUR: RESOURCE ALLOCATION

4.1 Introduction

This chapter presents a summary of the proposed budget by programme and sector/ sub sector. It also provides a description of how the county government is responding to changes in the financial and economic environment.

4.1.1 Resource Envelope

Table 17: Resource Envelope Estimates

REVENUE SOURCE	Financial Years				
	Approved 2020/21	Approved 2021/22	Approved 2022/23	Estimates 2023/24	Projection 2024/25
CRA Share	3,861,300,000	4,606,532,480	4,606,532,480	4,796,087,483	4,939,970,107
Local Revenue	144,000,000	266,100,000	246,239,212	265,101,562	273,054,609
Balance B/F (Roll over funds)		1,078,886,623	1,185,317,485		
Nutrition International		10,000,000	15,000,000	10,000,000	10,300,000
World Bank - Dev. Of Youth Polytechnics	27,904,894				
Kenya Climate Smart Agriculture Project (KCSAP)	280,000,045	350,000,000	85,593,752	27,216,000	28,032,480

4.1.3 Proposed budget by Sector/ sub-sector

Table 19: Summary of proposed Budget by Sector/ Sub-sector

Sector	Sub-Sector	Ward allocation	Flagship Project	Conditional Grant	Total	As a percentage (%) of the total budget
Infrastructure	Roads, Transport, & Public works	160,996,415		-	160,996,415	10.88
	Water, Environment and Climate Change Management	195,656,469		77,962,500	273,618,969	18.49
	Lands, Physical Planning, Housing and Urban Development	54,838,016		41,196,087	96,034,103	6.49
Social	Education and Technical Training	144,193,100		-	144,193,100	9.74
	Sports, Youth affairs, Children and Social services	88,902,315		-	88,902,315	6.01
Health Services	Health Services	250,169,000		-	250,169,000	16.90
Productive & Economic	Agriculture, Livestock, Fisheries and Irrigation	104,076,031		61,484,567	165,560,598	11.19
	Cooperatives, Trade, industrialization, Tourism & Wildlife	47,494,164	100,000,000	100,000,000	247,494,164	16.72
Public Administration & Governance	Public Service, Administration, Devolution, ICT & Corporate Governance	53,121,769		-	53,121,769	3.59
	Total	1,099,447,279	100,000,000	280,643,154	1,480,090,433	100

4.2 Financial and Economic Environment

The risk to the economic outlook for 2023/24 and the medium-term on the domestic front is risks emanating from climate change resulting in unfavourable weather conditions. This could affect agricultural production and result in domestic inflationary pressures. Externally, the unpredictable socio-economic and political changes in advanced economies such the Russia - Ukraine conflict which could heighten the risk of oil and commodity price volatility and elevated inflationary pressures; lingering effects of COVID-19 (coronavirus) pandemics; and global monetary policy tightening, especially in the United States, could increase volatility in the financial markets. Others are escalating public expenditure pressures, especially recurrent expenditures. The burden that wage-bill weighs on the budget is heavy and it is expected to continue posing fiscal risk to the National and County Governments.

The county government will continue to rationalize expenditure to improve efficiency and reduce overlaps and wastage. Expenditure management will be strengthened through capacity building of personnel, regarding the use of the Integrated Financial Management Information System (IFMIS) and other appropriate financial management systems across all sectors and Departments.

4.3 Risks, Assumptions and Mitigation measures

Table 27: Risks, Assumptions and Mitigation measures

Risk	Assumption	Mitigation measures
Low local revenue collection	Reduced incidences of insecurity during the implementation period	<ul style="list-style-type: none"> • Tighten enforcement measures. • Amendment of the Finance Act to broaden revenue base and streams
Limited budget versus service delivery demands	Political stability will be experienced	<ul style="list-style-type: none"> • Encourage departments to source for partners, • Enhance Public Private Partnerships
Slow procurement process	Enhance skills of accounting officers and procurement officers and sensitization of contractors	<ul style="list-style-type: none"> • Capacity building procurement staff and sensitization of contractors • Prospective bidders on e-Procurement Investment in automation of all procurement procedures
Over-expenditure	Spending will be as per the approved budget estimates	<ul style="list-style-type: none"> • Tightening expenditure controls measures including vote book maintenance at departments, preparation of procurement plans • Each department has a designated planning/budgeting officer and an accountant
Protracted labour disputes especially on promotions	There shall be no labour unrests	<ul style="list-style-type: none"> • The cabinet has developed a road map for promotion of staff who are long overdue starting with health, • The Government also aim to maintain employee numbers at a constant level over the next three years, with exceptions to this cabinet directive requiring a compelling explanation. • Head count is being undertaken to ascertain the exact staff establishment
Disasters	Reduce in disaster occurrence/ incidences	<ul style="list-style-type: none"> • The government has provided for emergency response and mitigation funds to address the challenges associated with natural disasters prone to occur in the county e.g., landslides. • A joint inter-governmental committee has been instituted to coordinate disaster preparedness, response and mitigation

CHAPTER FIVE: MONITORING AND EVALUATION

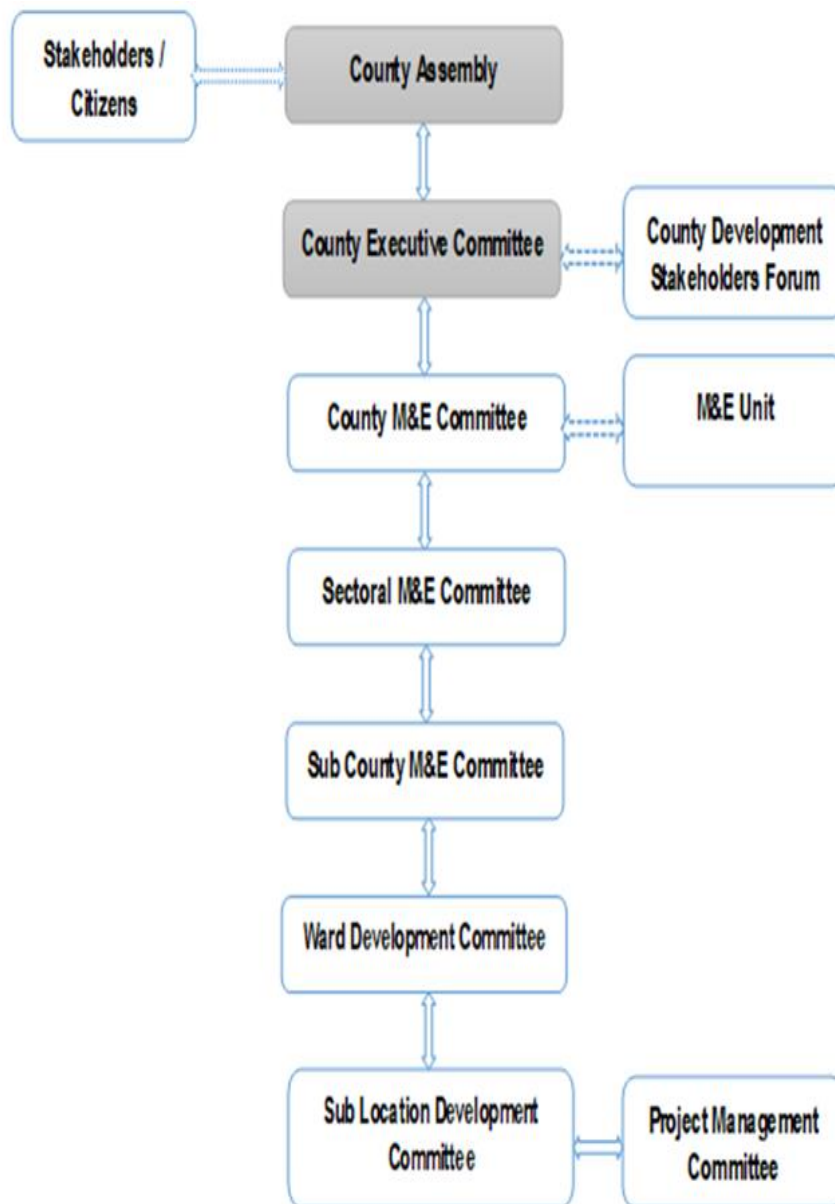

5.1 Introduction

This chapter seeks to highlight the Monitoring and Evaluation institutional arrangements that will track and report on CIDP implementation progress. It describes county monitoring and evaluation structure, data collection analysis, reporting and information sharing.

Monitoring and review processes will be done at both the operational and the strategic levels. At the strategic level, the monitoring process will be in line with monitoring support towards the strategic objectives of the plan. On the other hand, the operational monitoring will focus on monitoring progress towards the strategic priorities for respective sectors. Strategic monitoring will be done on a quarterly and annual basis.

The county plans to establish the County Monitoring and Evaluation System (CMES) to track and evaluate development projects and initiatives. The CMES outlines the tasks required for effective monitoring and evaluation, as well as the roles and responsibilities of all involved parties. The CMES covers data collection, indicator formulation, research and analysis, documentation and dissemination, project monitoring and evaluation, capacity building, and policy coordination. The County Monitoring and Evaluation Policy will establish the following committees to oversee the CMES: the County M&E Committee (CoMEC), the County Technical M&E Committee, the Sub-County M&E Committees (SCoMEC), and the Sector Based M&E Committees and the Ward M&E Sub Committees. These committees will become active once the M&E policy is approved. These committees will be in operation upon the approval of the M&E policy. The structure of the M&E committees is illustrated in Figure 2.

Figure 2: Monitoring and Evaluation Committee Structure

5.2 Data collection, Analysis, and Reporting

All sectors in the county will be involved in the process of strategic monitoring, including partners. Each level of service delivery will carry out its own monitoring and evaluation. Operational monitoring will be carried out monthly, quarterly and annually. It will focus on monitoring progress against interventions and activities set out in respective sub-sector annual operational plans. Indicators will be utilized to measure progress against set targets. The indicators will be used in two ways:

Sector-wide indicators: The set of indicators each sector will use to inform on progress at the strategic level. Collection and monitoring of progress will be the responsibility of the sector.

Programme outcome/output indicators: Indicators that the respective programme areas will use to inform on progress towards programme objectives. The number will depend on the specific programme areas. Monitoring of progress will be the responsibility of the respective programme area.

The county departments will strive to do quarterly and annual surveys on key areas of county statistical information both qualitative and quantitative, disability surveys, customer satisfaction surveys and surveys on alcohol consumption and alcohol-related harm. It will also carry out actual field visits on project implementation and progress. The county monitoring and evaluation committee will then compile the primary data and analyse following the established M&E Plan. The M&E committee will prepare quarterly reports and share with the County Executive for discussion and submission to the county assembly for approval. Thereafter the report will be availed to the various stakeholders and the public as provided for in the existing legal framework. M&E reports will provide information on progress, challenges and emerging issues in the process of implementing the county government projects. This ensures that essential data required for systematic and continuous assessment of project implementation, performance, and progress towards objectives is routinely collected, analysed and reported.

5.2.1 Data collection

The county M & E unit will carry the mandate of establishing and overseeing the common data architecture. The respective sectors will identify sector indicators for monitoring and evaluating the implementation of county targets. The common data architecture will provide the data sources for these indicators as defined in the county indicator handbook. Data collection will be done through scientific measurements for primary data using mobile mappers, total station, tapes to arrive at the location, elevations, geographical coordinates, length, area, the volume of quantities. Surveys will be done quarterly to form a database of inventory, i.e., annual road inventory conditional survey, AWP sampling materials such as sand, aggregates, steel for testing.

5.2.2 Data Analysis

- Use of Reference manuals such as R2000 & Road design manuals.
- Generation of drawings for structures/cross sections/ elevations.
- Analysing test results versus standard specifications.

5.2.3 Reporting and dissemination

The county recognizes that different data is used by different actors for their decision-making processes and investment decisions. For this, data needs to be translated into information that is relevant for decision-making. Data will be packaged and disseminated in formats that are determined by the needs of the stakeholders. All the information will be published on the county website and be updated on a regular basis.

County and sub-county monitoring and evaluation committees shall prepare their M&E quarterly and annual reports. These sectoral based reports shall include amalgamated reports from the County and National Government Departments and other stakeholders within the sector and will be submitted to the County Executive Committee.

The County M&E Policy will facilitate vertical (from the village, ward, sub-county to county levels) and horizontal (between and among state and non-state actors) reporting / engagements. A county central

repository for M&E information will be established in consultation with all stakeholders. This will provide a single platform for accessing reports and studies done on policies, programmes and projects implemented in the county.

Horizontal reporting within the County shall involve heads of departments and non-state actors. These officers shall present quarterly reports on programmes and projects under implementation to CoMEC. Non-State actors who include Civil Society Organizations, Private Sector Organizations, Foundations, Faith-Based and Community based organizations shall report through their respective sectors. The Sub-County M&E reports shall be forwarded for consolidation into county reports. Consequently, the consolidated county reports will be shared with stakeholders. CoMEC will advise on actions to be taken, including evaluations of projects and programmes to ascertain if they are meeting their intended objectives. State and non-state actors within the will be required to submit timely and accurate progress reports of policies, programmes and projects in line with approved reporting standards, formats and frequency.

ANNEXES: FY 2023/24 ANNUAL DEVELOPMENT PLAN (ADP) PROJECTS

Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	14	100,000	Error

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Veterinary Services	Livestock Disease Control	Tick and pest control	Supply acaricides to 5 dips (Kilos, Togota, chepkewa, kapchemutta, chesuman),	Litres of acaricides supplied	5	300,000	Error
Veterinary Services	Livestock Disease Control	Capacity development of ward dips committees	Training of ward dips management committees	Number of dips whose committees were trained	5	100,000	Error
Livestock Development	Livestock Commercialization	Improved Indigenous chicken promotion	Purchase and supply of one month old improved kienyeji chick	Number of indigenous chicks purchased and supplied	500	175,000	Error
Livestock Development	Livestock Commercialization	Upgrading of local meat goats	Purchase and supply of galla bucks	Number of galla bucks purchased and supplied	23	350,000	Error
Livestock Development	Livestock Commercialization	Pasture and fodder promotion	Purchase, Supply and deliver Boma Rhodes and desmodium seeds	Kgs of pasture and fodder seeds purchased and supplied	30	205,000	Error
Crop Development	Crop commercialization	Promotion of pyrethrum value chain	Identification & training of beneficiaries and supply of materials	Number of certified seedlings supplied	1400	700,000	Chepkorio
Crop Development	Crop commercialization	Promotion of potato value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	125	500,000	Chepkorio
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, sheep, goats and dogs	Number of animals vaccinated	43000	400,000	Chepkorio
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	40	300,000	Chepkorio
Livestock Development	Livestock Commercialization	Bee keeping promotion	Supply and Deliver Modern hives, accessories and equipment	Number of modern hives purchased and supplied	40	400,000	Chepkorio

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Crop Development	Agricultural Extension Services	Ward extension services for crops, livestock and veterinary	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of lead farmers trained	1	547,696	Chepkorio
Crop Development	Crop commercialization	Establishment of tea	Site identification, supply of materials, training of attendants and setting up of nurseries	Number of nurseries established	1	700,000	Cherangany/ Chebororwa
Crop Development	Crop commercialization	Establishment of coffee	Site identification, supply of materials, training of attendants and setting up of nurseries	Number of nurseries established	1	1,000,000	Cherangany/ Chebororwa
Crop Development	Crop commercialization	Promotion of avocado value chain	Identification of beneficiaries and supply of materials	Number of certified seedlings supplied	1,825	912,810	Cherangany/ Chebororwa
Crop Development	Agricultural Extension Services	Ward Extension Services	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of field days, exhibitions and tours done	1	600,000	Cherangany/ Chebororwa
Irrigation Development	Irrigation Development	Irrigation development	Completion of Kondabilet irrigation scheme	Number of schemes established	1	1,713,521	Cherangany/ Chebororwa
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, sheep, goats and dogs	Number of animals vaccinated	93,000	700,000	Cherangany/ Chebororwa
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	70	500,000	Cherangany/ Chebororwa
Livestock Development	Livestock Commercialization	Sheep breed improvement	Purchase, Supply and delivery of Merino sheep	Number of Merino sheep purchased and supplied	100	1,500,000	Embobut/ Embolot
Livestock Development	Livestock Extension Services	Capacity building of Livestock lead farmers	Identification of beneficiaries, development of training materials and training of lead farmers(3 farmers per sub location)	Number of lead farmers trained	21	600,000	Embobut/ Embolot

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Livestock Development	Livestock Extension Services	Ward extension services for Agriculture, Livestock, veterinary and Cooperatives	Ward extension services for Agriculture, Livestock, veterinary and Cooperatives	No of field days and exhibitions conducted	2	600,000	Embobut/Embolot
Crop development	Crop commercialization	Promotion of pyrethrum value chain (Embolot Location)	Identification of beneficiaries and supply of materials	Number of certified seedlings supplied	1,600	800,000	Embobut/Embolot
Crop development	Crop commercialization	Promotion of coffee value chain (Kipchumwa location)	Identification of beneficiaries and supply of materials	Number of nurseries established	1	800,000	Embobut/Embolot
Crop Development	Crop commercialization	Promotion of Irish Potatoes value chain (Embobut Location)	Identification of beneficiaries and supply of materials	Number of stores constructed/operationalized	1	800,000	Embobut/Embolot
Crop development	Agricultural Extension Services	Purchase of motorbike	Purchase and supply of motorbike for Embobut/Embolot ward	Number of motorcycles purchased	1	580,000	Embobut/Embolot
Veterinary Services	Livestock disease control	Tick and pest control	Supply acaricides to 5 dips	Litres of acaricides supplied	150	500,000	Embobut/Embolot
Veterinary Services	Livestock disease control	Capacity development of ward dips committees	Training of ward dips management committees	Number of dips whose committees were trained	5	106,210	Embobut/Embolot
Livestock Development	Livestock Commercialization	Improved Indigenous chicken promotion	Purchase and supply of one month old improved kienyeji chick	Number of indigenous chicks purchased and supplied	500	175,000	Emsoo
Livestock Development	Livestock Commercialization	Pasture and fodder promotion	Purchase, Supply and deliver Boma Rhodes, bracharia, Desmodium, Lupin, Fodder sorghum and fodder maize seeds	Kgs of pasture and fodder seeds purchased and supplied	223	202,242	Emsoo
Livestock Development	Livestock Commercialization	Upgrading of local meat goats	Purchase and supply of galla bucks	Number of galla bucks purchased and supplied	40	600,000	Emsoo

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Crop development	Crop commercialization	Promotion of coffee value chain	Identification & training of beneficiaries and supply of materials	Number of certified seedlings supplied	1,000	500,000	Emsoo
Crop development	Crop commercialization	Promotion of cotton value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	500	500,000	Emsoo
Crop development	Agricultural Extension Services	Ward extension services for crops, livestock and veterinary	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of field days, exhibitions and tours	1	500,000	Emsoo
Irrigation development	Irrigation development	Irrigation development	Completion of Kipchukukuu irrigation scheme (fencing)	Number of schemes established	1	1,600,000	Emsoo
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, sheep, goats and dogs	Number of animals vaccinated	23000	500,000	Emsoo
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	28	200,000	Emsoo
Veterinary Services	Livestock disease control	Tick and pest control	Supply acaricides to 2 dips	Litres of acaricides supplied	40	100,000	Emsoo
Crop development	Crop commercialization	Promotion of cotton value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	1000	1,000,000	Endo
Crop development	Crop commercialization	Promotion of sorghum value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	400	1,000,000	Endo
Crop development	Agricultural Extension Services	Ward extension services fr crops, livestock and veterinary	Holding trainings, demos, field days, exhibitions and tours	Number of schools established	1	795,280	Endo

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Irrigation development	Irrigation development	Irrigation development	Rehabilitation of Kamariny and Karamwar furrows	Number of furrows rehabilitated and/or expanded	2	1,500,000	Endo
Irrigation development	Irrigation development	Irrigation development	Fencing of food security farms	Number of farms fenced	1	1,500,000	Endo
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, sheep, goats and dogs	Number of animals vaccinated	30000	617,198	Endo
Veterinary Services	Livestock disease control	Tick and pest control	Supply acaricides to 5 dips	Litres of acaricides supplied	80	200,000	Endo
Crop development	Crop commercialization	Promotion of pyrethrum value chain	Identification & training of beneficiaries and supply of materials	Number of certified seedlings supplied	376	188,000	Kabiemit
Crop development	Crop commercialization	Promotion of potato value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	60	253,920	Kabiemit
Crop development	Crop commercialization	Establishment of crop/fruit tree nurseries for coffee and tea	Site identification, supply of materials, training of attendants and setting up of nurseries	Number of nurseries established	1	403,950	Kabiemit
Crop development	Agricultural Extension Services	Establishment of farmer business schools	Site identification, supply of training and demo materials setting up of demo plots and in-field training of farmers	Number of schools established	1	100,000	Kabiemit
Crop development	Agricultural Extension Services	Capacity building of crop lead farmers	Identification of beneficiaries, development of training materials and training of lead farmers	Number of lead farmers trained	21	105,800	Kabiemit
Crop Development	Agricultural Extension Services	Capacity building of general farmers	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of field days, exhibitions and tours done	1	120,000	Kabiemit

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Crop development	Agricultural Extension Services	Capacity building of general farmers	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of farmers reached	212	211,600	Kabiemit
Crop Development	Agricultural Extension Services	Climate smart agriculture (CSA)	Promotion of CSA technologies, innovations and management practices	Number of model farms practicing CSA	1	40,000	Kabiemit
Crop development	Agricultural Extension Services	Monitoring and evaluation	Routine field monitoring and follow up visits	Number of visits made	2	100,000	Kabiemit
Irrigation development	Irrigation development	Irrigation development	Purchase and supply of portable solar irrigation kits	Number of kits purchased and supplied	10	2,000,000	Kabiemit
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	50	374,424	Kabiemit
Veterinary Services	Livestock disease control	Capacity development of ward dips committees	Training of ward dips management committees	Number of dips whose committees were trained	5	100,000	Kabiemit
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, and dogs	Number of animals vaccinated	12,000	700,000	Kabiemit
Livestock Development	Livestock Commercialization	Bee keeping promotion	Supply and Deliver Modern hives, accessories and equipment	Number of modern hives purchased and supplied	13	125,000	Kabiemit
Livestock Development	Livestock Commercialization	Fish farming promotion	Supply and deliver 5,000 fingerlings, 1 fishing boat, 6 fishing nets, and fishing gears.	Number of fish groups supported	2	140,000	Kabiemit
Livestock Development	Livestock Commercialization	Improved Indigenous chicken promotion	Purchase and supply of one month old improved kienyeji chick	Number of indigenous chicks purchased and supplied	500	175,000	Kabiemit
Livestock Development	Livestock Commercialization	Breed Improvement	Purchase and distribute Dairy Goats	Number of dairy goats purchased and supplied	23	350,000	Kabiemit

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Livestock Development	Livestock Extension Services	Capacity building of Livestock lead farmers	Identification of beneficiaries, development of training materials and training of lead farmers	Number of lead farmers trained	20	70,000	Kabiemit
Livestock Development	Livestock Extension Services	Monitoring and evaluation	Routine field monitoring and follow up visits	Number of M&E visits made	2	100,000	Kabiemit
Livestock Development	Livestock Commercialization	Pasture and fodder promotion	Purchase, Supply and deliver Boma Rhodes, bracharia, desmodium, lupin and fodder maize seeds	Kgs of pasture and fodder seeds purchased and supplied	104	214,423	Kabiemit
Crop development	Crop commercialization	Promotion of pyrethrum value chain	Identification of beneficiaries and supply of materials	Number of certified seedlings supplied	2000	1,000,000	Kamariny
Crop development	Crop commercialization	Promotion of avocado value chain	Identification of beneficiaries and supply of seedlings	Number of certified seedlings supplied	2,000	1,000,000	Kamariny
Crop development	Agricultural Extension Services	Ward extension services	Farmer trainings	Number of lead farmers trained	36	600,000	Kamariny
Irrigation development	Irrigation development	Irrigation development	Desilting of Karakacha irrigation dams	Number of dams desilted	1	2,000,000	Kamariny
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, and dogs	Number of animals vaccinated	12000	200,000	Kamariny
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	70	500,000	Kamariny
Livestock Development	Livestock Commercialization	Bee keeping promotion	Purchase of modern hives and equipment	Number of modern hives purchased and supplied	13	250,000	Kamariny
Livestock Development	Livestock Commercialization	Fish farming promotion	Excavate, construct and Stock fishponds.	Number of fishponds established	2	300,000	Kamariny

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
Livestock Development	Livestock Commercialization	Sheep breed improvement	Purchase, Supply and delivery of dorper sheep and rams	Number of dorper sheep and rams purchased and supplied	23	300,000	Kamariny
Crop development	Crop commercialization	Promotion of pyrethrum value chain	Identification & training of beneficiaries and supply of materials	Number of certified seedlings supplied	3000	1,500,000	Kapchemutwa
Crop development	Crop commercialization	Promotion of potato value chain	Identification & training of beneficiaries and supply of materials	Kilos of seeds supplied	250	1,000,000	Kapchemutwa
Crop development	Agricultural Extension Services	Ward extension services	Holding of farmers trainings, demos, field days, exhibitions and tours	Number of farmers reached	200	818,200	Kapchemutwa
Veterinary Services	Livestock disease control	Vaccination campaigns	Purchase vaccines and Equipment carry out vaccinations of cattle, sheep, goats and dogs	Number of animals vaccinated	10,000	800,000	Kapchemutwa
Veterinary Services	Breed Improvement	Dairy cattle breed improvement	Purchase Semen, Liquid Nitrogen, supplies and pregnancy test kits	Number of cattle inseminated	57	400,000	Kapchemutwa
Livestock Development	Livestock Commercialization	Pasture and fodder promotion	Purchase, Supply and deliver Boma Rhodes, bracharia, desmodium, lupin and fodder maize seeds	Kgs of pasture and fodder seeds purchased and supplied	270	540,500	Kapchemutwa
Livestock Development	Livestock Commercialization	Fish farming promotion	Excavate, construct and Stock fishPonds.	Number of fishponds established	2	200,000	Kapchemutwa
Crop development	Crop commercialization	Promotion of pyrethrum value chain	Identification & training of beneficiaries and supply of materials	Number of certified seedlings supplied	3000	1,500,000	Kapsowar
Crop development	Crop commercialization	Establishment of coffee nursery	Site identification, supply of materials, training of attendants and setting up of nurseries	Number of nurseries established	1	1,500,000	Kapsowar

Programme	Sub-programmes	Project Name	Project Description	Performance Indicator	Target(s)	Estimated cost(ksh)	Ward
