## FOREWORD

Since its establishment in 2013, the County Government of Elgeyo Marakwet has consistently honoured its statutory obligations in accordance with Kenya's laws and principles. The preparation and submission of annual budgets by counties are guided by section 12 of the second schedule of the Public Finance Management (PFM) Act, 2012, complemented by a budget calendar that outlines the timeline for various planning and budgeting documents, including the Annual Development Plan (ADP), County Budget Review and Outlook Paper (CBROP), County Fiscal Strategy Paper (CFSP), and the County Integrated Development Plan (CIDP). The 2024/25 FY Budget Estimates have integrated inputs, recommendations, and resolutions from these planning documents.

This year's Budget Estimates marks the second fiscal year for implementing the third-generation County Integrated Development Plan (CIDP) covering 2023-2027, which serves as the overarching framework for the county's planning and budgeting processes. Insights gained from prior budget cycles have been instrumental in shaping this budget, despite challenges that affected the desired level of participatory preparation.

Despite these challenges, the objectives outlined in the 2023/24 fiscal year Annual Development Plan (ADP) have significantly influenced the developmental aspects of this budget. Moreover, the departmental needs analysis conducted via the 2023/24 fiscal year County Fiscal Strategy Paper (CFSP) has informed allocation priorities, influencing budget ceilings for various departmental programs and sub-programs. Additionally, in line with the County Equitable Development Act, 2015, this budget ensures equitable distribution of development allocations among all wards.

The total resource envelope for the 2024/25 FY budget allocation amounts to Kshs. 6,292,075,789. Of this, Kshs. 4,873,385,244 (77.5% of available funds) will be sourced from equitable share allocation guided by the Commission on Revenue Allocation (CRA), with Kshs. 297,784,971 (4.7% of the total budget) coming from the county's Own Source Revenue (OSR). The remaining amount of Kshs. 1,120,905,574 is sourced from conditional grants.

In terms of expenditure allocations, Kshs. 2,147,762,620 (34.1% of the total budget) is allocated to development, while the remaining 65.9% (Kshs. 4,144,313,169) is allocated to recurrent expenditure, covering Personal Emoluments (PE) and Operations and Maintenance (O&M). The continuous rise in the wage bill, due to salary increments and welfare obligations, poses challenges to managing recurrent expenditure within sustainable limits. One effective strategy to mitigate this is non-replacement of exiting staff through retirements and natural attrition, redirecting savings from PE to other county priorities.

The budget for the 2024/25 fiscal year adheres to the legal requirement of maintaining a balanced budget, despite relatively low levels of equitable revenue share and Own Source Revenues (OSR). The county plans to adopt emerging effective practices in OSR management to enhance revenue collection and unlock the county's revenue potential in the medium term.

## **ACKNOWLEDGEMENT**

The Budget Estimates were developed through a collaborative and inclusive process aimed at ensuring participation from various stakeholders, including all departments and the County Assembly. This involved discussions on the Annual Development Plan (ADP), analysis of the County Fiscal Strategy Paper (CFSP), and extensive public participation. The document outlines the available resource envelope for the 2024/25 FY and the prioritized expenditure allocations. Allocating resources within a resource-constrained institution requires careful balancing and trade-offs to avoid disagreements and conflicts stemming from mismanagement.

We extend sincere appreciation to all county officials and officers who contributed to formulating these Budget Estimates on behalf of the county. We are deeply grateful for their tireless dedication and unwavering commitment to advancing the initiatives aimed at improving the livelihoods of our citizens. This includes CECMs, Chief Officers, Directors, and all other staff members. In particular, we acknowledge the diligent technical team from the Department of Finance and Economic Planning, especially those at the Economic Planning and Budgeting Directorate.

We would like to recognize the leadership of Alphaeus Tanui, the County Executive Committee Member (CECM) of the Finance and Economic Planning Department, whose invaluable support and guidance to the technical team played a significant role in preparing this document successfully. Additionally, we appreciate the contributions of the county leadership, citizens, and all others involved in bringing this document to fruition. Their participation in the Budget Estimates preparation process is highly valued.

## **PUBLIC ADMINISTRATION AND GOVERNANCE SECTOR**

---

### **Introduction**

The sector focuses on provision of county leadership and overall policy direction. Its functions are coordination of county government functions and provision of oversight functions. It is at the forefront in implementation of county development aspirations through improved policy direction, coordination and information sharing between departments and other entities.

The sector comprises the following sub sectors, Office of the Governor and Executive Administration, Public Service Management and County Administration, The County Public Service Board, Finance and Economic Planning and The County Assembly.

### **1.1 4362 OFFICE OF THE GOVERNOR AND EXECUTIVE ADMINISTRATION SUB-SECTOR**

---

#### **PART A: Vision**

Accountable leadership in a conducive, inclusive, transparent, and citizen-centered environment.

#### **PART B: Mission**

To develop a democratic atmosphere and a strong governance institution that economically, socially, and politically empowers citizens.

#### **PART C: Background Information and Performance Overview**

The main mandates of this sub-sector are to provide county leadership in implementation of county development aspirations and priorities and to ensure efficient and effective coordination of devolved functions for enhanced service delivery.

The sub-sector comprises of entities including Governor's Office, Deputy Governor's Office, County Secretary's Office, Advisory Office (Economic, Legal, Political and Gender), Liaisons and hospitality Office, County Attorney, Governors Press, Peace Building, Conflict Resolution and disaster Management, Resource Mobilization, Office of the Chief of Staff, Internal Audit and Protocol.

The Office of the Governor made huge progress in efforts to ensure sustainable socio-economic development of the county. In the past financial year, resource mobilization efforts were taken a notch higher by this office. This was achieved through collaboration with national and International Donors and the national government. The County Government continued to seek more partners in several sectors. It managed to partner with Kentegra in promotion of cash crops such as Pyrethrum, coffee among others. In addition, the county as partnered with several universities majorly in Australia and Canada and recently with Handing university USA for continued Airlifting of Students Abroad through PEPEA program. Also, the county is partnering with KCB on Wezesha Tujiajiri Program to empower the youth through youth skills and equipping them with starter pack kits for self-employment.

The department has done facilitation of Memoranda of Understanding (MOU) with various companies, assent of laws and regulations and carried out National and International meetings and have held several peace meetings on conflicts (cattle rustling and banditry) arising along Kerio Valley, the major conflict-prone areas. In addition, the county continues to suffer from emergencies such as heavy rains during the start of the rainy season which resulted to blockages an impassable road hindering service delivery. The county has allocated funds to effectively respond to it as part of the mission to eradicate poverty, reduce inequality and build resilience to crisis and shocks. The county continues to empower the community through Huduma Mashinani program and public participation on opportunities and ways of improving their livelihoods by adopting the programmes being rolled out by the country government.

It also provides overall policy and leadership direction to the county as well as the human resource functions in the public service. It comprises Human resource, Payroll, Alcoholics Drinks Control, Aids Control Unit, Communication and ICT, Citizen participation and civic education, County administration.

The department is intending to equip sub county and ward offices across the county to operationalize and facilitate the administration of services at Sub County and ward level. The department is continuing to empower the ward development committees and project management committees as they participate in the project implementation process. Continuous civic engagement activities are also being undertaken in the entire county. Also, the department has allocated funds for conflict resolutions and elder's meetings to boost security and land conflicts, especially along Kerio valley.

## INFRASTRUCTURE SECTOR

---

### Sector Introduction

The infrastructure sector is charged with the responsibility of developing infrastructure including roadworks, bridges, foot bridges, public works, and street lighting.

### Sector Composition

The sector is comprised of Roads, Public Works and Transport and strives to achieve four main goals namely:

- Improved Access leading to mobility of traffic.
- Reliable appropriate infrastructure development.
- Prompt response to fire emergencies.
- Increased access to energy source/electricity.

These goals will be achieved through the following: -

- Design, construction, rehabilitation, and maintenance of county infrastructure.
- Provision of an efficient and effective fire emergency response system.
- Development and maintenance of Government/Public/Institutional buildings.
- Installation of streetlights in urban areas.
- Purchase and Maintenance of county equipment.

### 1.1 4369 ROADS, PUBLIC WORKS & TRANSPORT

---

#### PART A: Vision

A modern and interconnected transport infrastructure for efficient movement.

#### PART B: Mission

To develop world class transport infrastructure and public works.

#### PART C: Background Information and Performance Overview

The department comprises the following three directorates/sections: Roads, Public Works and Transport services. The county has a total road network of 2,828 Km of which 28 % is Bitumen, 59 % is gravel surface and 13 % is earths' surface. All-weather roads enhance accessibility and thus facilitate mobility of people, goods, and services. This consequently promotes trade, investment, agribusiness, and dissemination of information. It also enhances delivery of health care services, education, and other government services.

During 2023/24 financial year, the department undertook critical maintenance works on all roads, including feeder roads. Several new road projects aimed at further opening the county and facilitating the free movement of people as well as enhancing economic activity were opened. These strategic interventions are intended to achieve; Improved access of the county leading to mobility of traffic and reliable appropriate infrastructure development. During the period under review the works under implementation include opening of more than 100 KM of roads thus additional

length to the total road network, general road maintenance of more than 240 KM, 1 box culvert, 1 footbridge, 720 M of culverts and purchase of a grader, 2 tippers and a low bed. The significant increase in the length opened is attributed to the in-house use of government machinery and the Mechanical Transport Fund. The implementation of 2023/24 works have been greatly hampered by heavy rains but the presence of county machines will enable prompt completion once the rains subside.

The public works unit facilitates Design, drawings, development of BoQs, construction supervision and maintenance of public buildings and other public works within the county. It is charged with the responsibility of ensuring that public buildings are safe, habitable, and meet universal standards. This requires constant supervision, monitoring, and evaluation. But the unit faces budgetary constraints as well as lack of enough supervisory vehicles.

**PART D: Programme Objectives**

Programme	Objective(s)
P.1. General Administration and Support Services	To improve service delivery
P.2. Roads Improvement	To Design, develop, maintain and rehabilitate county road network for economic development
P.3. Public Works	To design, develop, maintain and rehabilitate safe and cost-effective public buildings and civil works

## 1.2 4368 LANDS, PHYSICAL PLANNING, HOUSING, URBAN DEVELOPMENT

---

### **PART A: Vision**

A Well-planned human settlement for accelerated economic development.

### **PART B: Mission**

To effectively administer land resources and provide adequate urban utilities for sustainable development.

### **PART C: Background and Performance Overview**

This department consists of Lands, Physical Planning, Housing and Urban Development units. It is mandated to; administer, manage, and maintain county residential houses, collect, process, disseminate and archive accurate geospatial data for sustainable utilization of resources, facilitate land registration and provide security of land tenure to the landless, ensure efficient administration and management of land. It also ensures attainment of an orderly, progressive, and sustainable urban and rural development.

To achieve efficient and environmentally sound land uses and development in both urban and rural areas. The department intends to develop a county spatial plan and develop urban plans for urban centers and towns alongside implementing developed urban development plans through establishment of sustainable urban infrastructure.

Through the Kenya Urban Support Programme (KUSP) the county has been able to upgrade urban infrastructure which include development of drainage works on the already tarmacked roads, establishment of County disaster unit by construction of a disaster management center. There is a need to acquire a fire engine and its accompaniments.

In order to achieve the objectives of the department there is need to formulate a slum upgrading and prevention strategy, a development control policy, zoning policy, domestication of National Urban Development policy, County land dispute resolution policy, Land Acquisition policies, GIS Based valuation roll and implementation of Urban Areas and Cities Act, 2011 and establishment of alternative justice system (AJS). Management of urban areas can be enhanced through undertaking classification of urban areas, preparation of municipal by-laws and supporting development of institutions of urban governance which in turn will aid in promoting and monitoring the growth of urban areas.

To achieve effective administration of land resources and provision of adequate urban utilities for sustainable development in both urban and rural areas, 7 urban centers have approved urban

development plans, while the majority of the other urban centers have draft plans prepared. The Department strives to prepare local physical and land use development plans (spatial plans) for 13 urban centers and towns. The county lacks a county spatial plan, which the department also intends to prepare through support from development partners.

Through the Kenya Urban Support Programme (KUSP) the county has been able to upgrade urban infrastructure which include development of drainage works on the already tarmacked roads, establishment of County disaster unit by both construction of the unit and acquisition of a fire engine. The county intends to upgrade urban slums through the Kenya Informal Settlement Programme (KISIP). The county is in the process of Developing the County Spatial Plan (CSP) that will guide the development in the County and Development of By-Laws that will guide the operations within Iten Municipality and other Urban Areas across the County.

### 1.3 4365 WATER, ENVIRONMENT AND CLIMATE CHANGE

---

#### **PART A: Vision**

A water secure community living in a quality, habitable and sustainable environment.

#### **PART B: Mission**

To provide adequate and quality water, conserve and protect the natural environment for sustainability and climate change resilience.

#### **PART C: Background and Performance Overview**

The sub-sector comprises directorates of Water and Environment and Climate Change. The Directorate of Water is mandated with: water resource mapping, hydrogeological survey and design, water infrastructure development and management of government gazetted water supplies. The directorate of Environment and climate change is mandated with environmental protection and tree cover enhancement, climate change mainstreaming, adaptation, and mitigation.

The department has implemented several water projects translating to over 280 kilometers of pipeline constructed, 62 no. masonry water tanks constructed, 22 no. boreholes drilled, cased and equipped and 40 no. intakes constructed. As a result of this, travel distance has been significantly reduced. Furthermore, the two water service providers; Iten Water and Sewerage Company Limited (ITWASCO LTD) and Cherangany-Marakwet Water and Sanitation Company Limited (CHEMAWASCO LTD) have worked hand in hand with the County government through the department of Water, Environment and Climate Change by offering support in last mile connectivity and again reducing travel distance to water points.

To enhance sustainable management and conservation of the environment, the Elgeyo Marakwet sustainable and Tree growing policy 2020, Climate Change Act, 2021, and Climate Change Fund Act 2021 have been formulated and passed. However, there is need to develop regulations to operationalize the policies as well as development of Air and noise pollution policy to control the impacts of pollution in the county. The Elgeyo/Marakwet County Water Management Bill, 2021 has also been formulated for water management services and implementation of National Government Policies on water conservation in Elgeyo/Marakwet County and for connected purposes. There is need for the county government to develop and enforce policies and guidelines for rural water management to ensure sustainability for water projects.

The Department will for the medium-term expenditure framework period focus on building new water intakes, dams, water pans and boreholes to increase access to clean water and upgrade existing water sources to improve their functionality and capacity. It will also invest in water distribution infrastructure by building new water pipelines, tanks and water troughs to transport and store water, making it accessible to more residents. Rainwater harvesting and water conservation strategies to optimize the use of the available water resources will be promoted. The county together with the water Service providers and partnerships support will build water treatment plants to purify water from new or existing sources to ensure safe consumption. To increase the storage volume of a dam and remove accumulated organic material and nutrients, the county will desilt dams periodically.

During the implementation period, Water service providers; Iten-Tambach Water and Sanitation Company (ITWASCO LTD) and Cherangany-Marakwet Water and Sanitation Company (CHEMAWASCO LTD) will continue to implement water metering and billing systems to ensure the sustainability of the water infrastructure. The county will also encourage Public-Private Partnerships (PPPs) and strengthen local government institutions to effectively manage water infrastructure development in the county. Further, a community-based approach will be applied by involving local communities in the initial survey, decision making, project designs and project implementation as well as monitoring and surveillance of drinking-water supplies, maintenance and sustainability through the established reporting mechanisms.

During the medium term expenditure framework, the department in collaboration with Development partners like Financing Locally-Led Climate Change Action (FLLoCA) Program among many other development Partners will also champion for environmental management and climate change resilience. This will be done through establishment of model tree nurseries and growing of environmentally friendly trees per ward, community advocacy and greening programs in private farms and institutions, conserving and protection of water catchment areas by growing of endemic and indigenous trees i.e. bamboos, restoration of water towers in Cherangany and Kaptagat forests, promotion of green energy technologies, dams construction will be enhanced to control floods, enhancing agricultural extension services and alternative livelihood and strengthening linkages and partnership collaboration on environmental and climate change mitigation and adaptation.

**PART D: Programme Objectives**

Programme	Objective(s)
P1. General Administration and Support Services	To improve efficiency in water, environment and climate change management for effective service delivery.
P2. Water Services	Enhance sustainable access to clean and adequate water to the citizens.
P3. Environmental Management	Restore, protect, conserve, and manage the environment for sustainable development
P4. Climate Change Management	Enhance climate change mitigation, adaptation, and resilience
P5. Water Service Providers	Enhance access to potable water

## **SOCIAL SECTOR**

---

### **INTRODUCTION**

The social sector covers a large segment of the entire population comprising women, the elderly, youth, PWDs and children. These groups encounter several challenges ranging from illiteracy, health care, unemployment, miss-match of relevant skills set and drug and substance abuse.

This sector aims to enhance social inclusion and equal opportunity for all by enabling active participation for all members of the society in all aspects of life hence providing tremendous drive-in achieving gains in health, education, employment thus improved livelihoods.

A significant number of school-going children are not enrolled in learning institutions and lack nutritional support, the youth who are the majority in the labour force are either not employed or lack relevant skill sets, the women lack sufficient empowerment support in accessing credit and other means of production.

The sector comprises Education and Technical Training and Sports, Youth affairs, culture, Children and Social Services sub-sectors.

### **1.1 4372 SPORTS, YOUTH AFFAIRS, ICT AND SOCIAL SERVICES**

---

#### **PART A: Vision**

A cultured, cohesive, and empowered community active in sports

#### **PART B: Mission**

To provide effective social services, promote sports and preserve culture.

#### **PART C: Background Information and Performance Overview**

The Sub Sector comprises Sports development (Infrastructure & Talent development), Social Services and culture preservation. The department's mandates include sports Stadia development, sports activities enhancements, talents development and mentorship programs, women, special needs groups and youth empowerment, and culture preservation which are geared towards building a better and inclusive County.

Amongst the achievements, the department has met so far includes supporting 41 PWDS groups, 278 Women groups and 191 youth groups with income generating projects and equipped 103 youth with technical skills. More than 769 youth have been trained on technical skills and awaiting graduation under Wezesha Vijana Tujajiri programm. Additionally, cohort 2 of 989 youth under the same programme have been enrolled to different Vocational Training Centers (VTCs) in the county. Various sports tournaments i.e. athletics, football and volleyball were held at the ward level and Iten International Marathon was held at County Level. The National government in partnership with the county government have commenced the process of upgrading Iten and Kamariny Stadia to international standards.

The Department further intends to empower special interest groups (Youth Women, PWDs and other vulnerable persons) through provision of income generating activities, awareness programmes and

social life skills trainings. The County has also prioritized the integration of information and communication technology in implementation of its programs. This will include upgrading of 10 ward sports fields, hosting various sports tournaments to enhance talent identification and development. Further, the county has prioritized empowerment of cultural and traditional registered groups through cultural exhibitions and cultural shows.

The county however faced several challenges during implementation of programs and projects in financial year 2023/24. This was occasioned by heavy downpour at the third quarter of the financial year leading to short term flooding hence delays in implementation of infrastructural projects such as field levelling. Doping is other main challenge facing sports which have led many athletes being banned and risking the nation being banned from participating in international sports. The county has therefore integrated anti-doping campaigns in most of its public participation and awareness programs in collaboration with several stakeholders.

## 1.2 4366 EDUCATION AND TECHNICAL TRAINING

---

### **PART A: Vision**

A Quality and affordable education and training accessible to all.

### **PART B: Mission**

To provide and promote an education and training environment conducive for acquisition of desired values, attitudes, knowledge, skills and competencies for global competitiveness by fostering educational excellence and ensuring equal access.

### **PART C: Background Information and Performance Overview**

#### **Pre-Primary Education**

Over the past financial year 2022/2023, enrolment across 506 public pre-primary centres in the county improved marginally from 32,360 to 32,403 representing a 0.13 percent increase. This improvement in enrolment can be partly attributed to county government investment in infrastructure through construction of classrooms, employment of teachers and provision of capitation.

However, the county's pre-primary NER was 75.4 percent in 2023 compared to the national average of 77.2 percent which is an indication that close to 1.8 percent of children who attained pre-primary school-going age are were not enrolled.

During the period under review (FY 2023/24) there were challenges facing the provision and development of pre-primary education in the county mainly regional disparities in access to pre-primary opportunities; inadequate learning inputs and high pupil to teacher ratio(64:1) which impacts negatively on the quality of provision educational services; challenges in full implementation of ECD teachers' terms of service as well as lack of clear parameters for resource allocation establishing a minimum level of financing pre-primary education.

#### **Vocational Education and Training**

During the FY 2022/2023, significant progress was in access and participation in vocational training as enrolment in Vocational Training Centres rose from 1,788 in 2023 to 2032 in 2024 representing 13.64 percent increase. This improvement can be attributed to increased community sensitization efforts on uptake of vocational training and targeted intervention through Wezasha/Tujiajiri program which focus on equipping the youth with skills across all wards in order to build a pool of skilled workforce required to drive growth in the productive sectors of the county's economy.

The county government continued to invest in VTC infrastructure though construction of workshops, capacity building of trainers(instructors) and provision of training inputs through capitation to a number of centres.

However, the VTCs faced a number of challenges in the provision of training services namely high trainees to instructor ratio(52:1), inadequate training inputs as well as lack of clear parameters for resource allocation establishing a minimum level of financing vocational training in the county.

# HEALTH SECTOR

---

## Introduction

The sector is responsible for promoting and protecting the health of residents within the county. This includes a wide range of activities, such as monitoring and responding to outbreaks of infectious diseases, construction, and maintenance of health care facilities, providing public health education and outreach, and coordinating with other organizations to address public health issues. The goal of the sector is to improve the overall health and well-being of the community. The sector comprises: preventive, promotive and curative health services.

Moreover, the health sector recognizes its interdependence with other major productive sectors, namely agriculture, tourism, manufacturing, and energy. These sectors heavily rely on a healthy and productive workforce to thrive. A strong health sector is crucial in ensuring that the workforce remains healthy, reducing absenteeism, increasing productivity, and driving economic growth. In turn, the success of these productive sectors contributes to the overall well-being of the community.

### 4367 HEALTH AND SANITATION

---

#### Part A: Vision

An efficient and high-quality health care system for all county residents.

#### Part B: Mission

To provide quality healthcare services that is accessible, equitable and affordable to all county residents.

#### Part C: Background Information and Performance Overview

Key achievements for the Department during the review period include; improved immunization coverage from 69% to 70%. The proportion of facilities offering immunization services has improved from 60% to 90% through procurement and installation of specialized vaccine storage equipment in over 110 health facilities and 4 sub-county vaccine depots. The number of women delivering under a skilled birth attendant has increased from 67.4% to 69%. The Department has also been able to improve health infrastructure to support provision of specialized healthcare services and capacity building through renovation of Simotwo,

Kapkessum, Msekekwa, Kaptalamwa, Kokwongoi, Kapsait, Mogil, Kamwosor, Biretwo health facilities to improve the standard of the facilities. Also 2 Basic Life support (Single Patient transport) Ambulances for Kabiemit and Kapsowar Wards respectively were acquired, which will be acquired to support emergency care services.

To support implementation of UHC, the Department launched the Community Health Promoters by issuing of kits to 1,260 CHPs and also the payment of stipend of 2,500/- in partnership with the National Government. The Department also registered 19,000 vulnerable households to the National Health Insurance Fund (NHIF) to benefit from social health insurance. A total of 126 community health units have so far been established and 1260 community health promoters oriented on UHC to provide Level 1 services. The Department has also improved access to health data and information through implementation of the Electronic Community Health Information System (eCHIS) reporting system and issued all CHPs with mobile phones.

In the next financial year 2024/25, the Department will focus on: continued roll-out and implementation of UHC focusing on social health insurance; management of public health disease surveillance and emergency response; preventive and promotive healthcare; use of technology for telemedicine and health data; non-communicable diseases control through community-based screening of key populations, and expansion of specialized services in the 7 sub county hospitals in non-covered areas and densely populated areas across the county. The Department will also operationalize 4 primary health care networks (PCNs) and centralization of ambulance services. Further infrastructural upgrades and maintenance of existing facilities will improve access to quality healthcare through: construction Kipsoen Dispensary, Kapteren H/C, Katalel H/C, Epke dispensary; Completion of Kapyego H/C, Tabare Dispensary, Fluorspar H/C; Construction of modern wards at Chebororwa H/C, Kaptalamwa H/C; Construction of staff houses at kapsiw dispensary, Kipsoen Dispensary, Tulwobei, Kipiriria H/C, Kapkitony H/C, Chesubet Dispensary, Kapterit Dispensary.

# PRODUCTIVE AND ECONOMIC SECTOR

---

## INTRODUCTION

This sector comprises: Agriculture, Livestock, Fisheries and Irrigation and Cooperatives, Trade, Industrialization, Tourism and Wildlife sub sectors.

The sector is the cornerstone for driving economic empowerment of the county and its residents. The sector has aligned its strategies and interventions to the national and international economic development goals and aspirations such as Kenya Vision 2030, Medium Term Plan (MTP), and Sustainable Development Goals (SDG).

### 1.1 4364 AGRICULTURE AND IRRIGATION

---

#### **PART A: Vision**

A food secure county creating wealth for all.

#### **PART B: Mission**

To improve the livelihood of Elgeyo Marakwet people through promotion of competitive and sustainable Agricultural, livestock and fisheries practices.

#### **PART C: Background Information and Performance Overview**

The Department is comprised of Agriculture and Irrigation units.

Elgeyo Marakwet County is agriculturally based with more than 80% of the households deriving their livelihood from the sub sector. About 55% of the population experience seasonal food insecurity caused by over-reliance on rain-fed agricultural production coupled with poor storage and distribution systems.

Over the years, the department has promoted cash crops in a bid to improve the farmer's livelihood. The crops promoted include coffee, tea and pyrethrum. Horticultural crops promoted range from macadamia, avocado, Irish potato and passion fruits. The major challenges over the years have been the untimely supply and delivery of these crops in line with planting season.

Irrigation in the Kerio valley is key in sustaining farming and there is a lot of potential along the valley for irrigated agriculture. The county government has made significant efforts in engaging partners to promote irrigation through irrigation schemes. Rehabilitation of existing furrows, expansion of Kabanon/Kapkamak scheme, construction of Kipchukukuu irrigation scheme and promotion of individual and group irrigation activities has led to improved water conveyance and increased land under irrigation. As a result of increased acreage of land under irrigation, it has fostered food security and increased income and ultimately reduced poverty along the Kerio Valley.

#### **PART D: Programme Objectives**

Programme	Objective(s)
-----------	--------------

P1. Administration and general support services	To enhance effective and efficient service delivery
P2. Crop Development	To develop priority crop value chains into sustainable commercial enterprises

## 1.2 LIVESTOCK, VETERINARY SERVICES AND FISHERIES

---

### **PART A: Vision**

A food secure county creating wealth for all.

### **PART B: Mission**

To improve the livelihood of Elgeyo Marakwet people through promotion of competitive and sustainable Agricultural, livestock and fisheries practices.

### **PART C: Background Information and Performance Overview**

The Department is comprised of Livestock, veterinary services and fisheries units.

The varied Agro-ecological zones in the county influences livestock breeds reared by farmers within the county which consists of both dairy and beef animals. The department plays a critical role in ensuring food safety, protecting livelihoods and preventing zoonotic diseases from getting to humans. The department does this through a network of individual farmers, farmer groups and cooperatives. Animal breed improvement has been successfully implemented with artificial inseminations and livestock breed improvement being given enhanced attention. The main cattle breeds kept in the county include Ayrshire, Friesian, dairy crosses, zebu and Sahiwal; Goat breeds in the county include Small East African goats, Toggenburgs and alpine dairy goats while sheep breeds include the hair and wool sheep. The Poultry breeds kept include indigenous, improved indigenous, broilers and layers.

The sub sector plays a significant role in the County's economy, food security, nutrition and poverty reduction. Potential area for dairy farming is approximately 94,123 hectares. The average dairy farm size is about 1.7 hectares with average milk production per cow per day of 4 litres.

The county has high potential for beekeeping. There are about 53,000 indigenous log hives, 1,000 KTBHs and 950 Langstroth hives. The average yield is 20kg, 10kg and 5 kg of raw honey per year per hive for Langstroth, KTB and indigenous respectively. A honey processing facility has been installed in Emsoo ward in addition to the KVDA operated honey refinery in Rokocho, Soy North.

Fish farming is being promoted in the county as a commercial enterprise. Out of 179 fishponds constructed through the county and national government initiatives, 154 fishponds are operational covering 46,200 square metres. Annual estimated yield realized is 5.6 tons. The main fish types reared are tilapia, mud fish and trout.

Livestock disease breakout usually creates a heavy burden and results in huge direct & indirect economic losses to both government and farmers in equal measure. With this realization the Veterinary unit, a county wide vaccination has been conducted on all notifiable livestock diseases and renovated cattle dips in the wards to enhance tick and pest control.

**PART D: Programme Objectives**

Programme	Objective(s)
P.1 Administration and general support services	To enhance effective and efficient service delivery

## 1.1 4371 TOURISM, CULTURE, WILDLIFE, TRADE, AND INDUSTRY

---

### **PART A: Vision**

An enterprising society with opportunities that ensure sustainable growth and development.

### **PART B: Mission**

To empower citizens, exploit business potentials, support cooperative movement, develop tourism and foster posterity

### **PART C: Background and Performance Overview**

This sub-sector comprises of four units: **Cooperative, Trade, Industry, Tourism and Wildlife**

The main tourist attraction in the County is Rimoi game reserve which is richly endowed with diverse flora and fauna. For wildlife, the elephant provides a unique characteristic: the largest herd of elephants found in one location in Central and East Africa. Other wildlife found in the game reserve are giraffes, water bucks, antelopes, warthogs, crocodiles, snakes and the pangolin which is a highly endangered species. Also, a variety of bird species is found in the reserve and nearby forests.

Tourism Unit focuses on revamping and developing tourism infrastructure. The national game reserve has been opened for tourists after the construction of main gate, erection of watch tower, opening up of roads, development of a camping site and the provision of energy and water utilities. Due to the dwindling resources, the game reserve has been receiving minimal allocation and in the last financial year it received zero budget leading to underdevelopment of the facility with major concern being the state of roads and the solar fence that needs urgent intervention. The department is committed to leverage on the county's competitive advantage and niche to embark on robust marketing strategy to enhance tourist arrivals to the county through collaboration strategies with development partners.

Trade focuses on establishment of acceptable and fair standards of trading. Industrialization strives to promote investments of small, medium and large-scale industrial ventures. The small-scale business people have been empowered through improvement of market stalls. The weight and measures unit of the department continued with mapping of operation centers and calibration of weight as provided for by law.

Cooperatives unit focuses on cooperative development. The focus is enhancing agricultural marketing by establishing cooperative societies and construction of storage and processing facilities for farm products.

**PART D: Programme Objectives**

Programme	Objective(s)
P.1 General Administration and Support Services	To improve efficient, effective and quality service delivery to the public
P.2 Tourism Development	To enhance tourism development.
P.3 Trade and Enterprise Development	To improve business environment for trade investment in order to promote MSMEs
