## **FOREWORD**

---

This ADP is the first policy document for 2018/19 Financial Year's budget calendar. It will be the first plan to be implemented under the second generation CIDP, 2018-2022 whose preparation was done concurrently during the CIDP preparation ward public participation forum. From the public participation forums, the public did propose their most felt priorities which formed the contents of the priority programs/projects initiatives to be implemented in the 2018/19 financial year.

ADP links policy, planning and budgeting and highlights the strategic objectives of the relevant programs/projects aimed at transforming lives, empowering citizens and improving socio-economic welfare of the county's citizenry. Some of the strategic objectives being focused on include: improvement of agricultural productivity; opening of rural areas through road construction, ensuring ease of access of goods and services; and increasing irrigation and water supply services in the county.

The preparation of this ADP benefitted from the able leadership of HE the Governor, Deputy Governor and my fellow County Executive Members. Equally, we received support and contributions from Economic planning staff, departmental monitoring and evaluation focal point persons and other departments' officials. We greatly value their support and I would like to extend my appreciation to everyone.

## 1.1 RATIONALE AND LEGAL JUSTIFICATION

### 1.1.1 Rationale for ADP

The County Integrated Development Plan (CIDP) provides road-map for development process including; providing an analysis of county's resource potential, offering a basis for resource allocation, assigning roles and responsibilities to stakeholders. It also provides a yardstick against which performance can be evaluated, enhances development coordination, ensures timely project implementation, provides a data bank of project information that ensures informed decision making and facilitates effective community participation in development process.

In striving to link policy, planning and budgeting, annual development planning is vital in prioritizing proposals of the county into annual targets, aggregating into the achievements of county aspirations as captured in the five-year CIDP. In addition, annual development planning is a tool upon which approved annual budgets can be executed within a framework of public participation, informed prioritization, good governance, integrity, transparency, accountability, sustainable development and performance measurement.

### 1.1.2 Legal Framework

The Annual Development Plan's preparation is in compliance with constitutional and legal provisions as stipulated in Article 220(2) of the Constitution and the Public Finance Management Act, 2012, Section 126 respectively.

The aims of these constitutional and legal provisions are to ensure that ADP adheres to the following requirements;

- a) Strategic priorities for the medium term that reflect the county's priorities and plans
- b) A description of how the county will respond to changes in the financial and economic environment
- c) Programmes to be delivered including;
  - i. The strategic priorities to which the programme will contribute
  - ii. The services or goods to be provided
  - iii. Measurable indicators of performance where feasible
  - iv. The budget allocated to the programme
- d) Payments to be made on behalf of the county, including details of any grants, benefits and subsidies that are to be paid

- e) A description of significant capital developments
- f) A detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible
- g) A summary budget in the format required by regulations
- h) Such other matters as may be required by the Constitution or this Act

### **1.1.3 Annual Development Plan (ADP) and County Equitable Development Act (EDA) Alignment**

The 2018/19 FY ADP adheres to the provisions of EDA whose objective is to realize equitable allocation of resources for development projects within the twenty Wards and taking into account public views during ward public participation forums.

The main provisions of EDA, 2015 include;

- ) 60% of funds appropriated for development be equally shared among all wards
- ) 40% of the funds allocated for development purposes are equitably shared among all wards based on a pre-determined formula as detailed below;
  - o 38% in accordance with the population
  - o 23% in accordance with County flagship projects
  - o 22% according to poverty index in the wards
  - o 8% in accordance in accordance with the land area
  - o 5% be allocated for emergencies
  - o 2% in accordance with the fiscal responsibility and
  - o 2% be allocated to arid and semi-arid Lands (ASAL)

## 2 CHAPTER TWO

### 2.1 GUIDING LAWS, POLICIES, PRINCIPLES AND ASSUMPTIONS

#### 2.1.1 Principles Guiding Allocations

- I. The county's resource envelope is projected to be KSh5,020,012,841 of which Ksh 3,768,000,000, Ksh657,302,096 and Ksh 464,710,745 being CRA equitable share, conditional grants and anticipated roll-over funds respectively as per the draft 2018 Budget Policy Statement (BPS) and the county's own source revenue as shown in table 1.
- II. Development initiatives in 2018/19 FY have been put at 38% (1,923,997,254) of the total budget.
- III. The remainder of the resource envelope will be allocated to recurrent expenditure which is composed of Personal Emoluments and Operation and maintenance

#### 2.1.2 Resource Envelope
