FOREWARD

The PFM Act, 2012 Article 126(1) stipulates that every county government shall prepare a an annual development plan (ADP). the county government prepared the plan taking into account, the requirement of the County Government Act 2012 Article 115(1) that public participation be carried out in the county planning.

The county carried out public participation in all 35 wards from 11th August to 19th August 2016 to seek views of the residents on their priority projects as follows: -

There were an average of five teams teams visiting a similar number of wards per day. In each of the teams there was a representative of the County Budget and Economic Forum. The teams were composed of officers from Finance and Planning department.

The Annual Development Plan is divided into four chapters with the first chapter providing the general information of the County such as the area, population, climate physical and ecological features.

Chapter two presents information on the County socio-economic development challenges and strategies. It provides a review of the last Annual Development Plan and implementation status of the previous budget including major challenges to the development of the County.

Chapter three is mainly on resource mobilization presenting sources of revenue for the County, the expenditure framework and management of County finances.

The fourth Chapter of the Annual Development Plan is a presentation of development programmes and projects identified by the people during the public participation meetings. These projects have been shared with the relevant departments for the purpose of ownership and technical input by the departments.

ACKNOWLEDGEMENTS

The preparation of Annual Development Plan is the first and very important step in the budgetary circle for the County. The participation of all stakeholders in the County is therefore very crucial. I wish to thank all those who participated in the exercise including community members in the wards who provided vital information about their developmental needs.

I wish to take this opportunity to thank His Excellency the Governor for providing focused leadership and his support to this department in its functions including preparation of this plan

My sincere gratitude goes to the department of finance and planning that took the lead in ensuring that this exercise is a success. I thank the Chief Officers of Finance and Economic Planning for providing the necessary resources in good time and for their support during the public participation forums. I also wish to thank the directors who played a vital role in the preparation of the plan.

My gratitude further goes to all CECs, Chief Officers and Directors for their inputs and advice during the compilation of the project lists identified in their sectors.

Finally, I wish to thank members of the County Budget and Economic Forum for working very closely with us in ensuring that the interests of Kisumu County residents are safe guarded.

GEORGE OKOTH-ONGAYA

EXECUTIVE COMMITTEE MEMBER-FINANCE AND PLANNING

HAPTER ONE

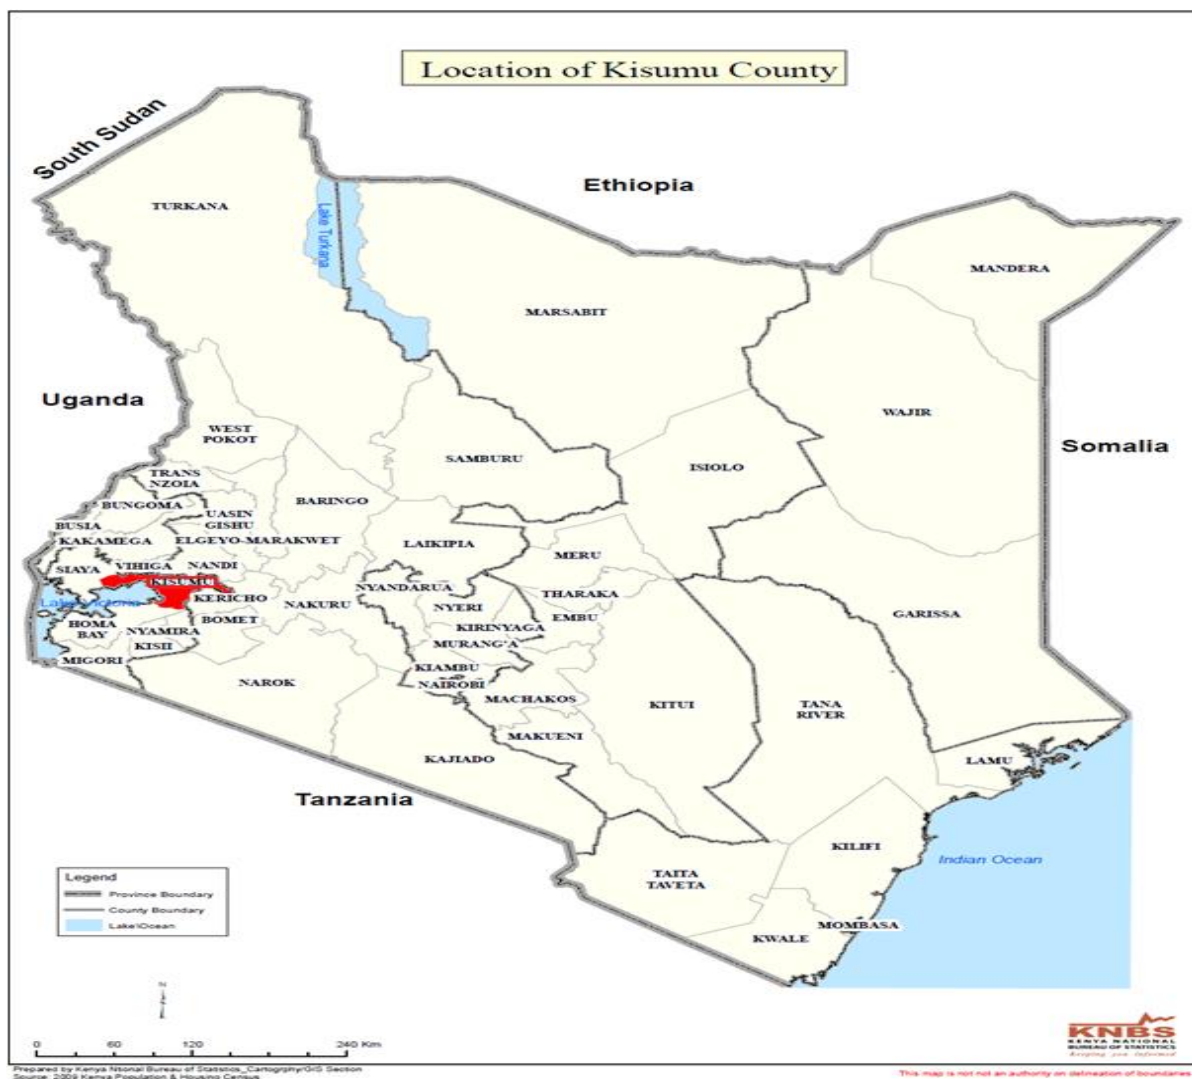

COUNTY GENERAL INFORMATION

1.1 Introduction

This chapter gives the background information on the socio-economic and infrastructural information that has a bearing on the development of the county. The chapter provides description of the county in terms of the location, size, physiographic and natural conditions, demographic profiles as well as the political units. This is meant to highlight important facts about Kisumu as a county with unique features.

1.2 Position and Size of the County

Kisumu County lies within longitudes 33° 20'E and 35° 20'E and latitudes 0° 20'South and 0° 50'South. The County covers a total land area of 2086 km² and another 535 km² covered by water.

Map 1: Location of the Kisumu County in Kenya

1.3 Physical and Topographic Features

The county lies in a down warped part of large lowland surrounding the Winam Gulf, at the tip of which is Kisumu Town. East of Kisumu Town is the Kano Plains occasionally broken by low ridges and rivers. There are some notable physical features such as the scarps in the north, east and south. Others include the hill slopes and piedmont plains spreading across the vast Kano Plains.

The altitude in the county varies from 1,144 metres above the sea level on the plains to 1,525 metres above sea level in the Maseno and Lower Nyakach areas.

1.4 Ecological Conditions

The soils are dominated by lake sediments, commonly sand and clay soils though the red loamy soils are found in the Nyabondo plateau and the Maseno midlands. In Kano plains, the soils are predominantly the black cotton soils generally dark brown and grey in colour, poorly drained and quite unstable commonly associated with the swamps.

1.5 Climate

The mean annual rainfall varies with altitude and proximity to the highlands along the Nandi Escarpment and Tinderet. The area has two rainy seasons, with the long rains occurring in March and May while the short rains occur in September to November.

Table 1: Climate

	Unit	2014
Rainfall (annual average)	mm	725-1,200
Long rains	mm	1,000-1,800
Short rains	mm	450-600
Temperature (annual average lowest)	0C	9-18
Temperature (annual average highest)	0C	25-35
Temperature (annual average)	0C	17-26.5

1.6 Population Size and Composition

The population of the county according to the 2009 Population and Housing Census was 968,909 persons with 474,687 males and 494,222 females. This population is projected to reach 1,146,000 males being 561,471 and females 584,529 in 2017.

1.7 Population Density and Distribution

Table 3 below shows the population in the county by constituency and the associated density per square kilometre based on the 2009 Population and Housing Census. The county's average population density was 482 persons per square kilometre. The population density ranged from 218 in Muhoroni to 5,165 in Kisumu Central Constituency.

Table 2: Population and Density by Constituency/Sub-County

Constituency	Area	Population	Density (Km2)
Kisumu East	135.9	150,124	1,105
Kisumu West	212.9	131,246	616

CHAPTER TWO

**COUNTY SOCIO-ECONOMIC DEVELOPMENT CHALLENGES AND
STRATEGIES**

2.1 Introduction

This chapter provides an overview of the Annual Development Plan and project implementation status of the previous budget and major challenges to the development of the County.

2.2 Review of the Previous Budget

The budget for Kisumu County for 2015-2016 is presented in the Table 6 below. The total budget for the year was Ksh. 9,637,623,720/-. The allocation for development was Ksh. 3,930,674,706/- accounting for 40.78% of the total budget.

A number of challenges caused the delays in the implementation of these projects including delayed disbursement of funds by the National Treasury and delays by the contractors to start implementation. While little could be done by the County concerning funds disbursement, the County Government was forced to cancel several contracts due to delays by the said contractors in taking over site.

Problems of quality of work have also been raised and the County Government has now insisted in the formation of Project Management Committees (PMC) to oversee implementation at local level. With the establishment of Ward Administration Offices, it is expected that closer monitoring of development projects will be put in place.

Table 5: Budget Summary for the 2015/16 Financial Year

	PERSONNEL	O & M	DEVELOPMEN	TOTAL
Governance & Administration	81,560,000	309,600,000	150,000,000	541,160,000

2.3 Major Development Challenges in the County

Kisumu County faces challenges which need to be addressed in order to meet both short and medium term development objectives necessary for sustainable economic growth and poverty reduction. These challenges are highlighted below:

2.3.1 Low Food Production

The county is a food deficit county and relies on the neighboring counties to meet its demand for food. This is despite the high potential the county has for food production. Farming methods have generally remained traditional without the use of modern technology and requisite farm inputs.

2.3.2 Poor Physical Infrastructure

Majority of the roads in the county are unpaved and not passable during rainy seasons. Roads leading to fish landing beaches are in poor state yet this is a key economic activity supporting the livelihoods of many residents in the county. Lack of cold rooms at the fish landing beaches has denied fishermen good income since they sell fish to middlemen at throw-away prices for fear of it going to waste. The poor condition of roads has also hindered investors from exploiting the investment potentials of the county.

2.3.3 Inefficient Marketing Systems

Inefficient marketing systems have made it difficult for farmers to fetch good prices for their products, get credit and combine resources which can help in value addition. This is attributed to

poor performance by cooperative societies in the county. Out of 390 cooperative societies, only 282 are active, the remaining 102 are dormant.

2.3.4 Inadequate Credit Facilities

While the county has an established network of major banks and micro finance institutions, majority of the residents have not fully utilized credit services offered due to lack of collateral and high interest rates. In the county, only a few people have title deeds which they can use as collateral to acquire bank loans. This scenario makes it difficult for the local residents to access credit for business, fishing and agricultural activities.

2.3.5 Inadequate clean and safe water

The distance to the water sources especially during the dry spell is still long in some parts of the county. Some of the water sources run dry forcing people to travel even longer distances to fetch water. Women and children are the most affected as they spend more time in search of water. This consumes a lot of productive time and schooling hours leading to poor educational for girls and reduces family income.

2.3.6 Weak Industrial Development

The county has seen the collapse of many industries in the past few years. The cotton industry that was one of the largest employer in the agricultural sector collapsed and effort to revive it have not borne any fruits and with it the only textile factory Kicomi was shut down. All the cotton ginneries were closed down for lack of the raw materials. The county also boasted of a vibrant sugar industry but this has also seen a downward trend with two remaining sugar factories i.e. Chemilil and Muhoroni operating with challenges. This leaves only Kibos which is privately owned.

The county lacks the requisite types and quantities of raw materials necessary to attract agro-based firms due to low production of agro-based products. Establishment of jua kali and cottage industries if explored can create employment opportunities for the growing number of unemployed youth.

However the county has seen a set of emerging industries in flour milling, fish processing and animal feed processing among others. Table 2.2 presents the current status of industries in the county.

2.4 Development Priorities for F/Y 2017/2018

4.2.1 Finance and Economic Planning

Focus will be on improving overall management and general administrative support services to other departments. The treasury intends to promote efficiency in management of public financial resources and revenue collection. E-payment platform is a new innovation upon which the county seeks to accelerate and reduce leakages in revenue collection. Among the activities to be undertaken by the treasury are: rolling out of the e- payment, assets management services, management of public financial resources, budget formulation, coordination and management services, and public debt management.

Other services that will be undertaken include the following: monitoring and evaluation system; capacity building and training; formulation of county planning policy; as well as establishment of huduma centres. In the same period, the department will embark on formulation of the second Kisumu County Integrated Development Plan (CIDP).

4.2.2 Agriculture and Food security

The county will make substantive investment towards food security through provision of Agricultural farm inputs, promotion of livestock production, promotion of market access and product development, promotion of sustainable land use, fish safety and quality assurance and value addition.

4.2.3 Roads and Public works

Infrastructure will remain a top priority in the county during the 2016/17 fiscal year. Emphasis will be on opening up and routine maintenance of feeder roads, expansion and improvement of road network,

4.2.4 Health Services and Promotion of Health Investments

Improved access to high quality health care will be met through completion of ongoing health infrastructure developments, investment in medical equipment for health facilities, and recruitment of additional medical staff.

4.2.5 Commerce, Tourism and Heritage

The county intends to offer high quality tourism products, to increase the number of tourist arrivals and earnings as well as creating an enabling environment for trade and investment to thrive. To achieve this, the department intends to undertake the following programmes: - to provide overall management and central administrative support services to the department; creation of conducive business environment for trade development and to enhance fair trade practices and consumer protection;

4.2.6 Communication, Information and Technology (CIT)

The CIT platform holds greater potential for service transformation in the county. The County will continue investing in modern ICT infrastructure while progressively building human resource capacities for optimal outcome.

4.2.7 Lands, Housing and Physical Planning

The County intends to invest in the purchase of land for development purposes. Other programmes include enhanced enforcement of the building code, spatial planning, regeneration of public spaces and the finalization of the valuation roll will be addressed as a matter of priority.

4.2.8 Education, Culture, Youth, Sports and Social services

Focus will be on enhanced education standards by increasing enrollment and retention in early Childhood Education, accelerating expansion and equipment of Vocational training facilities in order to empower the youth with skills and competencies for the labour market. Programs for promoting good cultural practices, sports and recreational facilities for sustainable development will be implemented.

4.2.9 Energy and Mining

The county aims at providing efficient services to affiliated bodies/departments; developing, rehabilitating and sustaining energy facilities as well as streamlining and exploring mining activities within the County.

4.2.10 Industrialization, Enterprise Development

The County will focus on policy, legal and institutional reforms in the co-operatives sub-sector. Other initiatives include capacity building of co-operative societies and promotion of co-operative marketing and value addition.

Other priorities will include facilitation of appropriate technical skills in deserving MSEs; promotion, formation and registration of MSE sectoral associations; development of a comprehensive data bank of County MSEs and development of business incubation centres and linking them to markets.

4.2.11 Water, Environment and Natural Resources

The county will aim at reducing the average distance families need to travel to a safe water source. Sustainability of water sources and resources as well as availability and access to water and sanitation services are priority goals during coming year. Other priorities of the department include tree planting, environmental conservation and conservation of the Lake Victoria bio-diversity.

4.2.12 Governance and Administration

Strategic leadership, clear policy direction and a well thought development agenda are crucial for the achievement of socio-economic and political development of people of Kisumu County. Proper management of county affairs including the county public service, maintaining inter-governmental relations, managing communication and protocol will ensure satisfactory service delivery.

CHAPTER THREE

RESOURCE MOBILIZATION

3.1 Introduction

This chapter provides sources of revenue for the County, the expenditure framework and management of County finances. The aim is to facilitate effective development strategy through efficient and sustainable resource mobilization, utilization and management. This section also examines the challenges likely to be experienced by the County Government and highlights possible solutions.

3.2 Source of Revenues

Kisumu County receives its share of National Revenue, which accounts for 75% of its annual budget while the remaining 25% is catered for by the local revenue. The County will adopt various strategies towards mobilization of financial and other resources required for development including expansion of its revenue base by bringing on board business segments like boda boda that have not been making any payments to the county for their operations. There are close to 10,000 boda boda operators registered as operating in the county. Other strategies will involve enhancement of compliance and ensuring enforcement by strengthening the inspectorate.

3.3 Local sources of revenue

Locally collected revenue are mainly generated from the main revenue streams as follows: - market fees, parking fees, rents, land rates, single business permits, building plans inspection and approval, liquor licenses and sign board promotion.

Other revenue sources include fire fighting services fees, food handlers fees, food hygiene license fees, court fines, sale of county acts, lease fees from kiwasco and other water companies, boda boda fees, sign boards and advertisement, hire of stadia and social halls, cess fees (quarry and sugarcane) and mobilizing land rates and other property taxes under the county government. Table 11 shows revenues are that expected in FY2017/18.

3.4 Management of County Finance

The County treasury will be responsible of ensuring compliance at the county level with accounting standards prescribed from time to time by the National Treasury or Public Sector Accounting Standards Board established under section 192 of the Public Finance Management Act, 2012. It will also be the responsibility of the County Treasury to comply with the County Public Finance Management Transition Act, 2013 which stipulates clearly prudent use of public resources.

The financial management strategy will ensure high standards in the management of public finances and maintain five year budget projections based on where necessary on alternative scenarios to reflect uncertainty of spending and resource assumptions in order to set the likely context for making final resource allocation decisions on an annual basis. The center of attention will be to:

- (i) Ensure a prudent minimum level of reserves based on a strategic level risk assessment and reassessed annually as part of the budget process.
- (ii) Work within firm cash limits, allocating provision for inflation at start of the financial year.
- (iii) Contain spending within the approved cash limit for the year with no supplementary allocations being made from reserves other than in exceptional circumstances.
- (iv) Get best value for money in services which should always include considerations for quality, risk to achieve sustainability, environmental impact, local economic development and equalities as well as price.
- (v) Keep County tax increases at or below the average increase in general incomes in the Country.
- (vi) According to the Public Finance Management (Amendment) Bill, 2014, the County Treasury shall enforce the following fiscal responsibility principles-
 - (a) The county government's recurrent expenditure shall not exceed the county government's total revenue;
 - (b) Over the medium term a minimum of 30% of the county government's budget shall be allocated to the development expenditure;
 - (c) the county government's expenditure on wages and benefits for its public officers shall not exceed a percentage of the county government's total revenue as prescribed by the County Executive member for finance in regulations and approved by the County Assembly;
 - (d) Over the medium term, the government's borrowings shall be used only for the purpose of financing development expenditure and not for recurrent expenditure;
 - (e) County debt shall be maintained at a sustainable level as approved by county assembly;
 - (f) Fiscal risks shall be managed prudently; and
 - (g) a reasonable degree of predictability with respect to the level of tax rates and tax bases' shall be maintained, taking into account any tax reforms that may be made in the future.

3.5 Financial Management Challenges and Proposed Solutions

Challenges likely to be experienced by the County Government and the possible solutions are highlighted in Table 12 below:-

Table 7: Challenges and Proposed Solutions

Challenge	Proposed solution
1 Anticipated miss-prioritization of resources by departments where money is spent on non-core functions or projects not as per the CIDP and annual development plan.	The County Government will put structures in place and enact legislation to ensure effective application of funds. The county endeavors to get the value for the money and will properly harmonise use of funds to reduce transaction costs.
2 Revenue leakage in the current collections operations within the county	Employ use of point of sales (POS) terminal gargetsfor non-machine use in order to reduce leakages. Also strict supervision of revenue collection will be pursued.
3 Frequent Collection Systems (POS) breakdowns	Strengthening the IT department to ensure all machines are serviced in time
4 Inadequate skills for revenue and accounts staff	In-house and external trainings on financial management will be organized by the relevant department to improve capacity skills.

3.6 Assets Management

The Asset management strategy defines the strategy for implementation and documentation of asset management practices, plans, processes and procedures within the County. The county is yet to put in place a comprehensive asset management plan. The county intends to coordinate with all departments with each department being accountable for assets it controls through the following:

- Making e a register of all assets, their original cost, annual depreciation, maintenance costs and expected disposal costs.
- Determining which assets need to be maintained.
- Developing separate plans for each step of asset management cycle which will define every aspects of managing the facilities to enable efficient day-to-day running of the County.
- Developing a capital development plan that defines assets built with County capital and supporting infrastructure.
- Creating a budget for each department’s asset management plan which will reflect the realistic cost of acquisition of necessary assets and disposal of old assets.

- Developing a strategic asset management framework (SAMF) that provides policies and guidelines to improve asset investment planning and management across the County. The SAMF will be designed to help facilitate quality advice and decision making within the County institutions including the development and review of investment proposals to the County government.

CHAPTER FOUR

DEVELOPMENT PROGRAMMES AND PROJECTS

4.1 Introduction

This Chapter presents the results of public participation exercise carried out in all the 35 wards in the county from 11th August 2016 to 19th August 2016. The objective of this exercise was to engage with the communities for the purpose of obtaining their views regarding their needs to enable the County government to plan for 2017-2018 financial year.

4.2 Proposed Project for 2017/2018

4.2.1 GOVERNANCE AND ADMINISTRATION

Ward /Insitution	ProjectDescription
CentralSeme	ConstructionofMin KudOdengWaterPan
Chemelil	DesiltingBlock8 Stream
Chemelil	DesiltingBlock9 Stream
Chemelil	DesiltingBlock10 Stream
Countywide	Food and NonFood Items
EastKano Wawidhi	DykingAwach Wawidhi
Kabonyo Kanyagwal	DesiltingNduru Nyamurundu Stream
Kabonyo Kanyagwal	DesiltingOmbeyi Kabonyo Stream
Kabonyo Kanyagwal	DesiltingOrijeKabonyo Stream
Kobura	DesiltingBacho Stream
Kobura	DesiltingOmbeyi Kochieng
Kobura	DesiltingMiriu Nyangoto
Kobura	Constructionof Odoa WaterPan
Kobura	Constructionof AbuopaWaterPan
Kolwa East	DesiltingObuso Stream
Kolwa East	DesiltingAnywangStream
Koru Muhoroni	OpeningDrainage MuhoroniTown
Masogo Nyangoma	DesiltingOsengStream
Masogo Nyangoma	DesiltingMuokWaterPan
North Nyakach	DykingAwach Wasare River
North Nyakach	DykingNyando GemRiver
North Nyakach	DykingAwach Rae
North Nyakach	ConstructionofWipiuWaterPan
Ombeyi	DykingNyando Obiayo River
Ombeyi	DesiltingMarega Stream
Ombeyi	DesiltingKeyo Stream
Ombeyi	DesiltingMilenye Stream

SouthWest Nyakach	Construction of Bungu Merry Water Pan
West Nyakach	Desilting Miriu Nyadina
West Seme	Construction of Kowang Water Pan
West Seme	Construction of Wadhawa water pan
West Nyakach	Desilting Miriu Kona Mbaya
North Kisumu	Administration block and 6 door latrine.
South East Nyakach	Village ward council enacted in the location
South East Nyakach	Building ward administration office at Nyamaroka
South East Nyakach	Creation of village administrators
South East Nyakach	In all our village efficient governance
South East Nyakach	Civic education on devolution
South East Nyakach	Provide relief food to Mitigate failed crops
West Nyakach	Construction of Chief camp for Lower Kadiang'a Sub-location
Kajulu	Construction of administration office of the ward at Obwolo chief camp
Kolwa East	Construction of a police post at Landi Matope
Market Milimani	Fencing security officer/ customer area
Nyalenda A	Employment of opportunities
Nyalenda "B"	Fumigation and Pest management.
East Seme	Desilting of Kahera-Nyandiwa river
East Seme	Desilting of Nyamgun river
Central Kisumu	Gabions along river Kisian
Masogo Nyang'oma	Nyadundo gully
Masogo nyang'oma	Ngiti gabion
Ombeyi	Control of soil erosion along feeder roads within Ramula sublocation
Ombeyi	Preservation of papyrus reeds along Ombeyi river for breeding of Indigenous birds e.g Kingfisher for attraction.
Ombeyi	Fumigation services to control bedbugs and mosquitoes
Ombeyi	Cash transfer for old aged persons and orphans
Ombeyi	Kigoche miriu river
Ombeyi	Ayiecho dyke
Ombeyi	Maintenance of Ombeyi river dykes
Ombeyi	Cash transfer for old aged persons and orphans
Nyalenda "b"	Pest control in western unit.
Kolwa central	Drainage of oyola village
Kolwa central	Disiltation of river maenya
Kolwa central	Disiltation of river nyamasaria towards nyamthoi to lake victoria
Kolwa central	Disiltation of odeso river towards nyamthoi to lake victoria
Kolwa central	Clearing, escuvating and disiltation of moulem water pan
North nyakach	Construction of dykes along river nyando
North nyakach	Completion and fencing of east nyakach resource centre
North nyakach	Establishment of library at onyuongo resource centre
North nyakach	Disiltation of kokoto, kamula, koyombe and kaluko water pans

North nyakach	Disiltation of cut off drain kawili-kowano- asao river
Miwani	Fire station and equipment at nyangeta market
Miwani	Kajaramogi- fencing/ toilets/solar light A.P camp
Railways	Driving school training for car washers
Railways	Providing gumboots for car washers
West nyakach	Rehabilitation and reclamation of land Gulley in the location
West nyakach	Maintenance of Kong'ou Rota shore line (Planting of water reeds)
Kolwa east	Excuvation of Okuta –Koging –Kobuogo-Komuom then to Mayenya River
Kolwa east	completion of Sidho Kolwa Boundary -150 M(Desiltation)
Kolwa east	Drainage of clogged water from Kabuong –Omollo Onyuro Obuso in Rweya unit
Kolwa east	Flood control –desiltation of Gabriel Ambuso –Anywang Mayienya –lwanda Bridge
Kolwa east	Disiltation of river Laja –Kanyalaji to river lielango
Kolwa east	Permanent weir at Laja river –upgrading of dairy cattle
Manyatta "b"	Sewerline along the Auji River
Manyatta "b"	Sewerage line to be build along river Auji
Ahero	Evacuation centre at chief camp
Ahero	Evacuation of kamalo Pan.
Ahero	Fumigation of households to control mosquitoes and bedbugs
Ahero	Desiltation of river Nyando course at Mr. Ageke's farm.
Ahero	Desiltation of Nyakmaki canl utpo Ahero Bridge.
Ahero	Disilting of River Ng'adi.
Ahero	Building of evacuation Centre
Ahero	Evacuation Centre at bunde.
Ahero	Construction of Evacuation Centre.
Ahero	Opening of Oyani canal.
Kobura	Desilting of Rivers-Miriu and Mbega
Kobura	Desilting of Orije and ombeyi rivers
Kobura	Desilting of Miriu River
Kobura	Artificial Insemination services
Nyalenda a	REASOURCES TO BE ALLOCATED FOR CLIMATE CHANGE TRAINING
Kajulu	Drainage construction from Kamongam to riverside (Awach river)
Kajulu	Construction of a rehabilitation centre for the physically handicapped at Obwolo chief camp
Nyalenda "b"	Set up pest control team to help cub mosquitoes and bedbugs.

4.2.2 FINANCE AND PLANNING

Ward /Insitution	ProjectDescription
County-Wide	ConstructionofHuduma/(Documentation Centres)

County-Wide	Equipping of Huduma Centres
County-Wide	Ward Development Fund-Development
City-Wide	Extension of City Hall Offices on 1st floor
City-Wide	Modern shade at Fire Station
City-Wide	Repair of Institutional houses

Kobura	ConstructionofNyangotoDispensary
Kobura	Completion ofConstruction ofLela Health Centre
Kolwa Central	Completion ofConstruction ofNyalunya Dispensary
Kondele	Completion ofConstructionofKosao Dispensary
LowerNyakach	ConstructionofNyadina Dispensary
Manyatta B	ConstructionofKuoyo DispensaryStaffHouse
MarketMilimani	Completion ofConstruction ofLumumba Health Centre wards
Masogo/Nyangoma	Completion ofConstruction ofMakindu Dispensary
Masogo/Nyangoma	Completion ofConstruction ofMigere Dispensary
Masogo/Nyangoma	Completion ofConstruction ofMasaka Dispensary
Miwani	Completion ofConstruction ofNyangete Dispensary
Miwani	Completion ofConstruction ofNyakoko Dispensary
Miwani	Completion ofConstruction ofGariDispensary
Muhoroni/Koru	Completion ofConstruction ofJaber Dispensary
NorthKisumu	Completion ofConstruction ofDago Kokore Health Centre
NorthKisumu	Completion ofConstruction ofBarB Dispensary
North Nyakach	Completion ofConstruction ofMichura Dispensary
North Nyakach	Completion ofConstruction ofKibogo Dispensary
North Nyakach	Completion ofConstruction ofOnyuongo Dispensary.
North Nyakach	ConstructionofMiruka Health center
North Seme	Completion ofConstruction ofMaternityBlockat Koleny Dispensary
Northseme	FencingofRataDispensary
NorthWest	Completion ofConstruction ofofSunga StaffHouse
Nyakach West	Completion ofConstruction ofSangoro Dispensary
NyalendaB	Completion ofConstruction ofNyalenda HealthCenter
Ombeyi	Completion ofConstruction ofObumba/Yawo Dispensary Maternity

Railways	Completion of Construction of Kanyakwar Dispensary.
South East Nyakach	Completion of Construction of Radienya Dispensary
South East Nyakach	Completion of Construction of of Male Ward at Sigoti Dispensary
South West	Completion of Construction of Paga Dispensary
South West	Completion of Construction of Kisian Dispensary
South West Kisumu	Construction of Uradi Dispensary
South West Nyakach	Completion of Construction of Gari Dispensary Staff House
West Kisumu	Construction of Twin Staff House at Riat Dispensary
West Kisumu	Completion of Construction of Newa Dispensary.
West Kisumu	Completion of Construction of Gombe Kokulo Dispensary
West Kisumu	Completion of Construction of Lwala Kadawa Dispensary Staff House
West Seme	Completion of Construction of Arito Langi Dispensary
West Seme	Completion of Construction of Osewre Dispensary Staff House
North kisumu	Ambulance
North kisumu	Maternity ward
North kisumu	Paediatric ward
North kisumu	Theatre
North kisumu	X ray department
North kisumu	Perimeter fence
North kisumu	Mortuary
North kisumu	Dago thin health centre land and construction.
North kisumu	Akingli health centre
North kisumu	Ambulance
North kisumu	Maternity wing nyahera
Central seme	Oriang health centre maternity
East seme	Construction of Langi-Kawino staff house and maternity ward
East seme	Construction of Malela Dispensary
East seme	Construction of laboratory at Kuoyo kaila dispensary
East seme	Construction of Maternity
East seme	Upgrading Rodi Dispensary to Health centre
East seme	Construction of Nyadado Dispensary
East seme	Construction of dispensary Ombo
North seme	Dispensary construction at langi kochiel
North seme	Training of community health workers
North seme	Kopingo dispensary
North seme	6 door toilet for ecd children at dago and omuya
North seme	Dispensary at chienga nyar odundo site next to kondik market
North seme	Laboratory at otieno owala health centre
North seme	Bongo konyango maternity ward, water tank, furniture
North seme	Korwenje maternity ward; beds
North seme	Staff houses at ratta dispensary

North seme	Dispensary at papa kawamanya, and kipasi
North seme	Maternity ward for nduru kadero health centre

Chemelil/Tamu	Staff hse at Songo Dispensary
Chemelil/Tamu	Maternity wing at Tago Dispensary
Chemelil/Tamu	Construction of Kware Health Centre
Chemelil/Tamu	Completion of Tago Dispensary staff hse
Kajulu	Drugs for tick control At every school in Got –Nyabondo,At Soweto market.
Kajulu	Dispensary at Bukna

Kajulu	Three staff houses.
Kolwa Central	Construction of toilets at ofunyu market
Kolwa Central	Construction of health facility at tido
Kolwa Central	Rehabilitation of nyalunya health centre
Kolwa Central	Employment of staff ,clinical, nurses, laboratory at ndunya health centre
Kolwa Central	Construction of psc centre at nyalunya health centre
Kolwa Central	Construction of kunya health facility at kunya primary school
Kolwa Central	Construction of health centre at kachumba
Kolwa Central	Sewage system and toilets in ooyi obunga ecd
Kolwa Central	Construction of health dispensary at moulem
Kolwa Central	Construction of toilet at otera ecd centre
Kolwa East	Electrification of Orongo Health Center
Kolwa East	Construction of a dispensary at Obino village
Kolwa East	Equipping Chiga dispensary and employment of staff
Kolwa East	Constructing two staff houses at Chiga dispensary
Manyatta "B"	Equipping Kuoyo Dispensary
Nyalenda "B"	Stipends for CHV within Nyalenda B
Nyalenda "B"	Construction of portable toilets in the community for proper waste human disposal.
Nyalenda "B"	Set up community health volunteers.
Nyalenda "B"	Operationalize Dunga dispensary
Ahero	Health Centre at chiefs camp
Ahero	Partitioning male ward at County hospital
Ahero	Construction of wards at kadinda health Centre.
Ahero	Doctors house at Bunde dispensary.
Ahero	Construction of Ombaka dispensary.
Awasi Onjiko	Water at health center at oren
Awasi Onjiko	Access road to health center at oren
Awasi Onjiko	Doctors, furniture & quarters/ maternity at oren health center
East kano Wawidhi	Extension Kachuoyo- Wawidhi girls to Magedo Rd
East kano Wawidhi	Transformer at Chavare New apostolic church and another at community worship centre
East kano Wawidhi	Water tower at Katolo Secondary sch
Kabonyo Kanyagwal	Kalegion Dispensary
Kabonyo Kanyagwal	Dispensary at Kapiyo sublocation(land available @Osaria)
Kabonyo Kanyagwal	Construction of Dispensary in Village3
Kobura	Korowe health centre
Kobura	Nyangoto health centre
Kobura	Maternity wing at Absalom Wangulu Health Centre
Kobura	Toilets at Karombe Primary School
Kobura	Construction of Nyamkebe Dispensary
Kobura	Completion of construction of Okana Dispensary

Kobura	Fencing of Okana dispensary
Shaurimoyo/ Kaloleni	Modern toilets
Kondele	Empowering the community through C.H.V.S
Market Milimani	Laboratory and inpatient room
Market Milimani	Maternity building
Market Milimani	Staff houses (stereo building)
Market Milimani	Perimeter wall
Market Milimani	Mortuary
Market Milimani	An incriminator
Market Milimani	Renovation of bathrooms and toilets
Market Milimani	Construction of toilets for staffs and students
Migosi	Construction of public toilets(5 in number) like Ezra Gumbe,Obolla, Nairobi Area,Sigalagala ,Olympic Area
Nyalenda A	Additional of experts to nyalenda health facility
Nyalenda A	Community health workers to be employed on a permanent basis as this will encourage them to work more
Nyalenda A	Buy land to set up ecd's hall and dispensary
Nyalenda A	Increased number of public toilets and the ones that are there should be put into function
Nyalenda A	Mobile clinics
Nyalenda A	Dispensaries at awich kodingo
Nyalenda A	Public toilets
Nyalenda A	Dispensary
Nyalenda A	Payment of chvs
Nyalenda A	Construction of public toilets
Nyalenda A	Construction of more community toilets
Nyalenda A	Dispensary
Nyalenda A	More health centers
Nyalenda A	Dispensary
Railways	Toilets at upper estate
Railways	Toilets and bathrooms for special groups
Railways	Sanitations
Railways	3 toilets at cereal boards and pipeline
Railways	1 public toilet at eloveated
Railways	Completion of kanyakwar dispensary including tiolets

4.2.4 EDUCATION GENDER CULTURE AND SPORTS

Ward /Insitution	ProjectDescription
Ahero	Renovation of Ahero VTC
North Seme	Promotiobn of sports
North Seme	Promotion of sports among people with disabilities

South East Nyakach	Villages youth sport club
South East Nyakach	Balls for ECD schs
South East Nyakach	Village youth talent search
