NAIROBI CITY COUNTY

COUNTY ANNUAL DEVELOPMENT PLAN (CADP) 2020/2021

VISION

"The city of choice to Invest, Work and Live in"

MISSION

To provide affordable, accessible and sustainable quality service, enhancing community participation and creating a secure climate for political, social and economic development through the commitment of a motivated and dedicated team.

CHAPTER ONE: BACKGROUND INFORMATION

1.0 Introduction

This chapter provides the County's background information, highlighting the planning scenario

for the FY 2020/2021 and the linkage between the Annual Development Plan (ADP) and other

Planning instruments.

1.1 Rationale for the Preparation of Annual Development Plan

The Nairobi City County faces a myriad of challenges, including: high population growth rate,

high levels of pollution, inadequate land, insecurity, traffic congestion, huge volumes of waste

and insufficient public utilities. There is need to address these challenges in order to enhance

socio-economic development in the County, and this forms the basis for this ADP.

The Nairobi County Annual Development Plan is an annual component of the 5-year CIDP and

it highlights the short term priorities for the county. It's a requisite planning tool which must be

tabled to the County Assembly for approval by 1st September of every year and charts how the

county will efficiently fulfill its mandate. It outlines the priority projects/programs for the county

which will be implemented to overcome the identified development hurdles, while at the same

time spur sustainable economic growth in the County. The plan will also form the basis for all

budgeting and spending as provided for in law.

1.2 Annual Development Plan Legal Frame Work

The 2020/2021 Nairobi City County Annual Development Plan is prepared in accordance with

the requirement of Article 126 of the Public Finance Management Act 2012, (amended 2015)

which provides that every county government shall prepare a development plan in accordance

with Article 220(2) of the Constitution of Kenya for approval by the County Assembly, that

includes;

a) Strategic priorities for the medium term that reflect the county government's priorities

and plans;

- b) A description of how the county government is responding to changes in the financial and economic environment;
- c) Programmes to be delivered with details for each programme of;
 - i. The strategic priorities to which the programme will contribute;
 - ii. The services or goods to be provided;
 - iii. Measurable indicators of performance where feasible; and
 - iv. The budget allocated to the programme;
- d) Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;
- e) A description of significant capital developments;
- f) A detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;
- g) A summary budget in the format required by regulations; and (h) such other matters as may be required by the Constitution or this Act.
- 1. The County Executive Committee member responsible for planning shall prepare the Annual development plan in accordance with the format prescribed by regulations.
- 2. The County Executive Committee member responsible for planning shall, not later than the 30thSeptember in each year, submit the Annual Development Plan to the County Assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury.
- 3. The County Assembly shall consider and approve the Annual Development Plan submitted under subsection (3) above, not later than 30th October.
- 4. The County Executive Committee member responsible for planning shall publish and publicize the annual development plan within seven days after its submission to the county assembly.
- 5. Section 104 of County Government Act 2012 also provides that no public funds should be appropriated without a development plan.

1.3 County General Information

The strategic location of Nairobi City County makes it an attractive destination for trade, tourism, residence and other social activities. Its attractive physical, social and economic features provide promising opportunities for socio-economic development for all.

Nairobi is a transport and communication hub and hosts Jomo Kenyatta International Airport (JKIA) which is the biggest Airport in East and Central Africa, and is the focal point for major aviation activity in the region. Its importance as an aviation center and it makes it the pacesetter for other airports in the region. Wilson Airport is the second airport in the county. Majority of road transport also commence and conclude their trips in the city. Recent major developments in ICT have also positioned Nairobi as a major communication center, characterized by strong and fast internet connectivity, fast spread of fiber optic cabling and high adoption of upcoming technologies.

Nairobi National Park in the vicinity of the city gives an opportunity to view wildlife in their natural ambience, and is a destination for both local and international tourism. Tourism in the county is accentuated by the thriving hospitality industry, with a high concentration of the best and highly rated hotels. The Kenyatta International Conference Centre (KICC) is a historic structure, which is a premier conference facility, comprised of a 33-storey tower that overlooks a large amphitheater, built in the traditional shape of an African hut. It's a major attraction of mention particularly to locals who see it a symbol of national pride.

As a financial and commercial hub, Nairobi hosts the highest concentration of financial institutions including Commercial banks, microfinance institutions and Forex Bureaus. These endowments make the city a major commercial hub on the African continent. It's the home of major industries accounting for about 80 per cent of the total industries in the country and they offer a wide range of employment opportunities for the people within and outside the country.

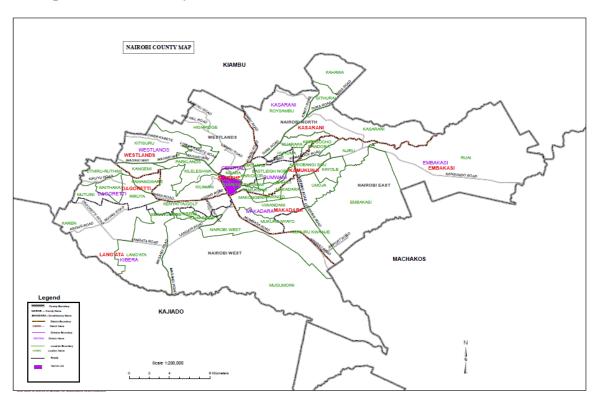

Nairobi is also home to three gazetted forests namely Karura, Ngong Road, and Nairobi Arboretum. Karura forest is the largest of the three with 1,041 hectares located in northern Nairobi. It has three main rivers namely Nairobi River, Ngong River and Kabuthi River. However, the rivers are highly polluted with open sewers and industrial waste which are illegally

channeled by unscrupulous developers. Nairobi dam, which is along the Ngong River, and Jamhuri dam are the main water reservoirs in the county.

Other accolades that Nairobi prides in can be described as; A centre of diplomacy, A haven of education, A hotbed of physical infrastructure development, A political and judicial capital, and the Trendsetter of development in the region.

1.4 Location and Size

Nairobi County is one of the 47 counties in the Republic of Kenya. It borders Kiambu County to the North and West, Kajiado to the South and Machakos to the East. Among the three neighbouring counties, Kiambu County shares the longest boundary with Nairobi County. The county has a total area of 696.1 Km² and is located between longitudes 36° 45' East and latitudes 1° 18' South. It lies at an altitude of 1,798 metres above sea level.

1.5 Administrative units/political units

The County is divided into seventeen sub-counties and a total of eighty five wards. Table 1 below summarizes the distribution of wards as per sub-county.

Table 1: Political and administrative Units in the County

1.6 Population Size and Composition

Table 2 gives the County population projections in 2009, 2018, 2020 and 2022 based on the 2009 Kenya Population and Housing Census by age cohort and gender with an inter-censual growth rate of 3.8 per cent. In 2009, the County population was projected to be 3,138,369 and is expected to rise to 4,941708 in 2018, 5,433,002 in 2020 and 5,958,338 in 2022 respectively.

In year of census 2009, the number of males outnumbered female in Nairobi county. The total number of males were 16, 05230 while those of female were 15, 33139. In the success ding years projections, the total number of females outnumbered those of males. This is indicated in the

table 2.In the 2018 males were 24,18779 against females who were 25,22929.In year 2020 males were projected to be 26,36146 against 27,96856 females .In year 2022 males were projected to be 28,56247 while females were 31,02091 respectively.

Table 2: Population Projection by Age Cohorts

Age	2009			2018		2020 (Projections)		2022(Projections)

Age NS*- Age Not StatedSource: Kenya Bureau of Statistics, 2013

The table further indicates that the female population projections from age cohorts 0-4, 5-9, 10-14, 15-19 and 20-24 remain slightly higher than those of males except for under 5 where the number of boys is higher than that of girls. The boy child is more vulnerable to diseases, hence high morbidity than that of the girl. There is need for further research to establish s other factors which contribute to the observed low population of the boy compared to the girl child before their 5th birthday. This would make it possible to put in place interventions to address the situation.

From the age bracket 35-39 the population of males surpasses that of females and remains higher up to the age bracket 75-79. This is attributed to influx of men from rural areas to Nairobi in search of white colour jobs. Above 80+ years, the female population remains higher than that of their male counterparts over the years shown in the Table. This is a result of life expectancy where men's life expectancy is shorter than women. Further research might be required to establish the cause of this disparity. The population distribution shows a pyramid that is heavy at the base, with the population less than 15 years being approximately 9 per cent in 2020 and 80+ being 0.2 per cent.

1.7 Linkages with Other Plans

1.7.1 County Integrated Development Plan

The planning process in the county is an integral part of the development process. This implies that without proper planning, we cannot achieve our development goals. It is the first critical stage of the budget process (PFM 35 and PFM 126).

The County Government Act 2012,104 obligates a county to develop an integrated plan, designate planning unit at all county administrative units and promote public participation and engagement by non-state actors in the planning units. The county plans consist of CIDP, County sector plan, county spatial plan and city and municipal plan.

The CIDP therefore gives a roadmap for development in the county over a five-year period. It reflects the strategic midterm priorities of the county government. It contains the specific goals and objectives, a cost implementation plan, provisions for monitoring and evaluation and a clear

reporting mechanism. Therefore this annual plan will help in the implementation of the CIDP.

This plan is based on the CIDP 2018-2022 and informed by the performance review of the ADP 2018/19. The aforementioned have greatly influenced the production of this ADP, thus there will a slight deviations from its predecessors. This is due to the identified need to provide more information on the planning process, project evaluation, monitoring, reporting and project costing.

1.7.2 Annual Budget

A county annual budget is a spending plan for the year that is based on the priorities identified in the county annual development plan. The budget is expected to operationalize development objectives envisaged in the CIDP and as reviewed in the Annual Development Plan.

1.7.3 Kenya Vision 2030

Kenya Vision 2030 is the long term development strategy for Kenya. The Kenya Vision 2030 aims to transform Kenya into a modern, globally competitive, middle income country providing a high quality of life to all its citizens. Kenya Vision 2030 is a product of highly participatory, consultative and inclusive stakeholder's process conducted throughout the country and in all sectors of the economy.

The Vision is anchored on three key pillars: economic; social; and political. The Economic Pillar aims to achieve an average Gross Domestic Product (GDP) growth rate of 10 percent per annum and sustain the same till 2030 in order to generate more resources to reinvigorate the economy to meet its envisaged goals and aspirations. The key sectors in this pillar include: tourism, agriculture and livestock, manufacturing, wholesale and retail trade, Business Process Outsourcing (BPO) and financial services. A seventh sector, oil and mineral resources, has now been added taking cognizance of the recent developments.

The Social Pillar seeks to build a just and cohesive society with social equity in a clean and secure environment. The main sectors under this pillar include education and training, health, water and irrigation, environment, housing and urbanization, gender, sports, youth and culture.

The Political Pillar aims at realizing a democratic political system founded on issue based politics that respect the rule of law, and protects the fundamental rights and freedoms of every individual in the Kenyan society.

The Medium Term Plan (MTP) III, which is the implementation plan of the vision, will be implemented concurrently with the CIDP 2018-2022. The CIDP captured the national government agenda and the "big four" which will be realized at the county level through the intergovernmental initiatives. This ADP will therefore bring on board all the programs to be implemented in the County in the period.

CHAPTER TWO: COUNTY SOCIO-ECONOMIC CHALLENGES AND STRATEGIES

2.0 Introduction

County development priorities are discussed within sectoral context. Independent public agencies tasked with specific executive functions have also been highlighted in this section. Implementing agencies in the County include: Public Works, Roads and Transport; Health Services; Education, Youth Affairs and Social Services; Water, Environment, Forestry and Natural Resources; Public Service Management; Pubic service Board; Trade, Industrialization, Co-operative and Tourism; Agriculture, Livestock and Fisheries; Finance and Economic Planning; Physical Planning, Lands and Housing; Governor's Office and ICT.

2.1 Situational Analysis

Nairobi City is the Capital City of Kenya and contributes close to 21.7% of Kenya's GDP .It is the major gateway to East and central Africa and a major economic hub in the region. However, the City County also faces significant challenges which threaten the achievement of its full potential. The population growth is fuelled by the rural-urban migration and is estimated at 9.8% per year. This changing demographic trend, especially the bulging youth population, combined with already high unemployment levels poses a challenge for the City County. This has led to an increase in destitution and has the potential for upsurge in crime rates within the City if unchecked.

Additionally, the informal settlements; characterized by poor housing, inadequate social amenities, poor health conditions, environmental degradation and insecurity, are ranked among the largest urban slums in Africa and they continue to expand. Slow infrastructure development and erratic maintenance has resulted to dilapidated roads, under capacity and derelict sewerage systems, jumbled waste management, and unreliable street lighting.

A review of trends in other cities and urban areas across the world show that the present issues faced are not unique to Nairobi. As cities increasingly have to compete on global level, it is vital for the Nairobi City County to establish an attractive environment for business, residence and investment. Local growth has to be promoted, while at the same time attracting foreign investment. These endeavors will be sought while at the same time safeguarding resilience towards sustainable growth. It is crucial to confront these challenges in order to create an inclusive society, provide world class services, establish a thriving economic environment and improve the global and regional strategic position.

In this chapter, we explore the major socio-economic challenges that the Nairobi City County Government must progressively address in order to achieve its vision of "The City of Choice for all to Invest, Work and live in".

2.1.1 Rapid Population Growth

Like many other cities in developing countries, Nairobi has experienced very rapid population growth in the last 30-40 years. According to the 2009 Kenya National Population and Housing Census, the population of Nairobi County was 3,138,369 people. This population is projected to increase to 4,941,708 million people by 2018 and 5,958,338 by 2022. The population growth rate of Nairobi ranges between 4.7 - 4.8% annually, a very high rate compared to an average of 3.4% annually for cities in developing countries and 1.8% for the world urban growth.

Rural-Urban migration is a critical factor as far as population growth in the County is concerned. The County hosts the capital city and receives a high percentage of job seekers from other parts of the country. Part of this population ends up in the informal settlements, exacerbating the already dire situations in the said areas.

The high population has exerted pressure on the existing physical facilities including housing, especially for the low and middle income earners. It's difficult to provide social amenities at a pace that matches the population growth hence facilities like water and sewerage have been overstretched. The County faces the challenge of providing all the social amenities to this population especially in the informal settlements like Kibra, Kawangware, Mathare, Viwandani and Mukuru which are characterized with high population and poor living conditions

2.1.2 Poverty, Inequality and dependency

Poverty is a multi-sectoral phenomena cutting across all sectors of development in the County. Various aspects of poverty in Nairobi County are as shown in the table below;

Fig. 2.1 Headcount poverty measures

Poverty Measures	Nairobi County (In %)	National (In %)
Overall/Absolute Poverty ¹	16.7	36.1
Food Poverty ²	16.1	32.0
Hardcore/Extreme Poverty ³	0.6	8.6

Source: Basic Report on Well-being in Kenya: Based on the 2015/16 KIHBS. KNBS

Absolute poverty is 16.7%, Food poverty is 16.1% and Extreme poverty is 0.6% of the county's population.

The most affected categories include vulnerable groups like the unemployed youth, women, persons with disabilities, female and child headed households, slum dwellers and the aged (30.6% of people above 70 years are in absolute poverty in Nairobi), street families/children,

¹Overall Poverty: households and individuals whose monthly adult equivalent total consumption expenditure per person is less than Ksh 3,252 in rural and peri-urban areas and less than Ksh 5,995 in core-urban areas are considered to be overall poor or live in "overall poverty".

²*Food Poverty*: households and individuals whose monthly adult equivalent food consumption expenditure per person is less than Ksh 1,954 in rural and peri-urban areas and less than Ksh 2,551 in core-urban areas respectively are considered to be food poor or live in "food poverty".

³*Hardcore or Extreme Poverty*: households and individuals whose monthly adult equivalent total consumption expenditure per person is less than Ksh 1,954 in rural and peri-urban areas and less than Ksh 2,551 in core-urban areas respectively are considered to be hardcore poor or live in "hardcore or extreme poverty".

displaced people and HIV/AIDS orphans. These categories of people face various challenges thus they remain poor.

The main causes of poverty in Nairobi can be attributed to economic, social and environmental factors. Economic factors causing poverty are mainly lack of employment opportunities for the labour force. This means that they lack adequate income to meet their basic needs. The cost of living has also increased with prices of basic commodities going up against constant incomes. The most affected are people who live in the informal settlements.

Inequality in the county has remained high, characterizing Nairobi with a dichotomy of having the most affluent residences in the country; Muthaiga, Westlands, Karen, Lavington and Loresho, and the largest Informal Settlements (slum) in East and Central Africa in their proximity; Kibera, and others such as Kawangware, Mathare, Kangemi, Korogocho, Majengo, Kitui Village and Kiambiu. Quintile analysis⁴ of expenditure in Nairobi portrays this inequality with the top two quintiles (Q4-10.9% & Q5-86.4%) constituting 97.3% of total expenditure while the lower three quintile (Q1, Q2 and Q3) constituting a paltry 2.7% of total county expenditure. This shows that inequality in the county is more severe than the national aggregate where lower quintile (Q1) controls 3.6% and the upper quintile (Q5) controls 56% of the total expenditure.

The issue of landlessness has been a challenge for the less endowed in the society. People living in the informal settlements do not own land. The informal settlements are the most populated hosting 29% of the County's population most of whom experience poor access to basic infrastructure services. There is need for the County government to offer affordable and decent housing to its populace living in informal settlements.

Incidence of negative social behavior is on the increase in the County. It includes petty crimes, child labour, prostitution, drug abuse and broken families. As a result, the informal settlements in the County are now experiencing an increase in school drop-out rates. Access to health is

-

⁴ Inequality analysis using quintiles divides a population into five equal groups of 20 per cent each based in the expenditure distribution ranking from the lowest to the highest. Typically, in a normally distributed population with perfect equality; each quintile is expected to control 20 per cent of the total expenditure.

becoming difficult and people are easily succumbing to HIV/AIDS. The number of slums is increasing due to housing problems and many families are entering the food poverty bracket.

Compared to the national aggregates, the KIHBS 2015/16 showed dependency in Nairobi is relatively low, with total dependency ratio of 48.3%, child dependency ratio of 46.7%, and aged dependency ratio of 1.6% whilst nationally the stood at 81.6%, 74.7% and 7.0%, respectively.

2.1.3 Inadequate and aging physical infrastructure

Most County infrastructures have not been adequately maintained hence largely frazzled. Roads, sewerage and water systems, storm water drainage, fire stations, rental housing, waste management points and other social amenities, require proper rehabilitation to bring them back to a desirable state.

Road transport remains the key transport mode that accounts for movement over 80% of goods, services and people within and outside the City. The road network has remained inelastic for the last 15 years with a total of 2970 Km, 42% being earthen, 20% murram and only 38% being of bitumen standards. Blocked drainage infrastructure, mostly due dumping, has repeatedly led to flash floods. Continued effort to unblock and expand this infrastructure is necessary to evade destruction of property and loss of life during the rainy season.

Commensurate investment in expansion and maintenance of Infrastructure in the medium term will guarantee sustainable development and provision of adequate economic opportunities for all Nairobians, Investors and Workers to enjoy a high quality of life. In this regard, the following policy interventions will be pursued in the medium term:

- Urban renewal and Regeneration of Old Estates
- Expansion of Road Transport infrastructure
- Development of NMT infrastructure
- Development of rail transport
- Expansion of water and sewerage network
- Establishment of a functional Mass Rapid Transport system
- Development and implementation of a resilience strategy.

2.1.4 Shortage of Land & Inadequate Housing

Nairobi County covers 696.1 square kilometers and has a population density of 7099 people/Km². Shortage of land is a major issue in the City County as the available land is overstretched. Security of tenure is a persistent problem throughout the county, with individuals lacking title deeds. Eastland's area is the most affected by this. The County has also lost to this challenge, with parcels of land that belong to it, together with some public utilities, being illegally grabbed by or unprocedurally allocated to unscrupulous developers. As a result, implementation of projects is largely hampered by lack of appropriate land. There have been rapid changes in terms of land use patterns where preference is on development of residential areas and commercial centres. Other land issues include lack adherence to spatial plans, many unresolved land conflicts, lack of an updated valuation roll, and widespread squatters menace mostly in informal areas. The joint land titling initiative by the national and county government to issue will help counter these problems.

2.1.4.1 Inadequate Housing

Nairobi County has an annual housing demand of 150,000 to 200,000 housing units annually yet only about 15,000 development applications were submitted in 2013 (World Bank 2016). More than 48% of the supply is for upper middle income, 35% for high income and only 2% for low income despite having the greatest housing need. The shortfall of housing supply for the low income is met through the proliferation of slums and informal settlements. This has made Nairobi to be a host of the largest informal settlements in East and Central Africa; Kibra, Kawangware, Mathare, Kangemi, Korogocho, Majengo, Kitui Village and Kiambiu. The majority of the population lives in informal settlements with limited access to appropriate housing, electricity and sanitation. The precarious physical, social and economic conditions of these settlements heavily affect residents' health and environment, in addition to severely constraining local economic development. The county strives to bridge the supply shortage by providing residential units through the county estates. The urban renewal initiative will greatly boost this endeavor and the National government agenda for provision of affordable housing through the "big four" agenda in the MTP III will be a welcome addition.

The housing type by wall materials in the Nairobi City County is mainly characterized by stone, brick/block, mud/wood and corrugated iron sheet. The stone and block walled houses account for 65.9% while wood and corrugated iron sheet account for 31.1%. The classification by floor type indicates that 75.8 % of household have cement floor, 14.2 % earthen floor, 7.5% tiles and 2.2% for those with wooden floor. Most of the households have corrugated iron sheet roofed houses which accounts for 56.6%. Tiles and concrete roofs account for 12.4% and 27.9% respectively.

This situation is worsened by the weak enforcements of building regulations, resulting in poor housing and estate development. The City County faces the challenge of providing the entire social amenities to this part of population. Provision of housing for all incomes will be an important responsibility of National and county government. The following policies will apply:

- Appropriate allocation of residential land use and its densification is important to accommodate required housing in Nairobi.
- Efficient use of available housing sites and a variety of residential densities and housing types to meet the housing needs of Nairobi's growing and changing population.
- Support the provision of a choice of dwelling types according to location, size, affordability, tenure, design, and accessibility so that a broad range of housing requirements are satisfied
- Support the distribution of a choice of dwelling types by designating lands for a range of densities and structural types throughout the City
- Housing development sites, especially for the low-income, will be integrated with superior access to employment opportunities, transport and a wide range of services and facilities

2.1.5 Inadequate capacity for Waste Management

Nairobi County generates over 2500 tons of garbage per day with only 1800 tonnes being collected and transported. The remaining waste ends up in undesignated areas including illegal dumping sires, rivers, drainage systems and some alleys. The collected garbage finds its way to the final destination at the Dandora dumpsite in an environmentally unsustainable manner, whilst waste recycling remains generally low at less than 10%. Management of electronic waste is not

well structured in the county, most of it not properly handled. Generally, the major challenges facing Nairobi County with respect to Solid Waste Management include management of waste collection and disposal. Identification and maintenance of final disposal sites will be a critical concern in the immediate term. There is need for private organizations to take up critical functions like recycling, transportation and Solid Waste Management. Intensive waste management sensitization to Nairobians is necessary to make the entire waste management process efficient. Approximately 50% of the county is connected to the main sewer, with new developing estates in dire need of sewer services.

In order to address the above challenge, the following policy interventions will be pursued:

- Research and adoption of technology based waste management interventions
- Creation of awareness for behavior change
- Establishment of designated Waste collection points
- Enhancing capacity for solid waste collection through fleet acquisition

2.1.6 Traffic Management & Control

The deterioration of public transport and traffic conditions has afflicted Nairobi County since the 1980s. These can be explained by the problem of inadequate means of mass public transport, the rapid increase in the number of cars mostly private, the lack of mass public transportation, poor enforcement of traffic regulations and lack of discipline on the part of both motorists and pedestrians. Much time is lost on the roads with vehicles consuming extra fuel due to the delays. This means heavy losses for the economy every day. Traffic congestion in Nairobi City costs the economy upward of Sh37 billion annually according to an interim report by Nairobi County's Transport and Urban Decongestion committee of 2017.

To overcome these challenges, there is need to not only expand but also upgrade our road network. An improvement of the public transport is necessary, with a consideration for a BRT system in the medium term and light rail in the long term. A railway system in the Metropolitan area connecting Kiambu, Kajiado, and Machakos, will make this more efficient. Massive road projects such as construction of the Thika super highway, Eastern and Southern by pass ring roads has eased congestion in the City. There are also plans to open up various by-pass roads,

remove the round-a-bouts, find alternative parking for motorists outside the City centre and review the Nairobi Metropolitan Public Transport Master Plan. There are also plans to have all public vehicles terminate at respective bus parks which include; Mathura, Pangani, fig tree, Country bus and Railways.

2.1.7 Food Insecurity & Malnutrition

Nairobi City's agricultural production is currently 20% of food consumed within the City County. The main crops grown are maize and beans on a small-scale basis especially in Njiru, Langata and Kasarani. Other crops include sweet and Irish potatoes, kales and cassava. High value crops such as onions, tomatoes, and Swiss chard are also produced. Most of these crops are meant for consumption by the farming households while the surplus is sold to earn supplementary income. Not only is this inadequate for sustainable food security within the City County, but the lack of enabling infrastructure potentially hampers any realistic prospects of active participation in export agriculture. The land under crop cultivation is about 751.5 hectares. However, sack gardening and green houses are coming up as an alternative method of farming due to limited space for conventional farming. The average farm size in the City County is approximately 0.0295 hectares.

There are three grain depots in the Nairobi City County namely: Nairobi Grain Silos, LungaLunga and GCP. The Nairobi Grain Silos can store bulk grains up to 880,000 bags of 90 kilograms each. However, there is a deficit of storage facilities for perishable farm produce especially for vegetables and fruits.

2.1.8 SECTOR'S CURRENT ISSUES, STRATEGIES AND PROPOSED MEDIUM TERM INTERVENTIONS

1. HEALTH SECTOR

Issues, priorities and proposed interventions

No.	Issue	Strategy	St	rategic Priority	I	Proposed Intervention

			learning Environment at ECDE Centres	activities
8	Vocational and Teacher Training	Provide and promote Vocational and Teacher Training	Improved technical skills for youth employment and Improve the learning Environment at Vocational Training Centre (VTC)	Train students in different courses Organize co-curricular activities for trainees Improve the learning Environment at Vocational Training Centre
9	Community Development	Provide and promote community development	Mobilize community members to participate in development issues affecting their lives for a just, secure and cohesive city	Socio-economic empowerment of women Develop county community development policy Community conversations Community exhibitions Train community group leaders Community exchange programs Group visits and project monitoring
10	Family and Social Welfare	Provide and promote social protection and care	Provide psychosocial support to the traumatized and counselling services to the vulnerable and the aged. Care for the aged	Undertake family welfare clinics Provide care and protection for the aged
11	Children services	Rescue, rehabilitate and reintegrate vulnerable children	Promote the rights of children and provide protection by rescuing them from difficult circumstances and improve the state of childcare facilities	Undertake family reunification and reintegration Supervise child care facilities Undertake trauma and therapy sessions

2.2 Strategic Policy Thrusts

This plan is anchored on the urban regeneration programme that is enshrined in the Governor's seven pillar development agenda.

Pillar 1: Governance, Public Safety and Security;

Good governance, integrity, transparency and accountability are principles of governance which provide impetus for rapid social, economic and political transformation. Government has focused on the implementation of laws that touch on good governance, transparency and accountability. Among the laws enacted and being implemented include: the Leadership and Integrity Act15, enacted pursuant to Article 80 of Constitution of Kenya 2010, the Public Officer Ethics Act 2013(16) which regulates the conduct of public officers, the Ethics and Anti-Corruption Act 2011(17) that address mechanisms to fight against corruption and the Public Finance Management Act 2012(18) which regulates use of public finance by both national and county Government. All these conforms to the sixth objective of the CIDP 2018-2022 which seeks to promote good governance, public participation and rule of law.

Under Pillar one, the county government will embark on a reform agenda to restore good governance, enforce fiscal discipline, seal loopholes for inefficient use of public resources, eliminate corruption and redirect at least 30% of the County's annual budget towards capital expenditure. The outcome of a city administration anchored in the practice of values of transparency, accountability and responsiveness to the people will require a series of legal reforms to put in place sunshine laws and an efficient, well trained and motivated workforce.

Further, greater collaboration and partnership with national government agencies in development, security and service delivery for shared prosperity. This is a strategy that maps out the digital environment, shaping public security in selected informal settlements of Nairobi. It considers the diverse ways in which information communication technologies (ICTs) are being adopted by security forces in informal settlements and by the community in such as Mathare, one of Nairobi's most violent informal settlements (or slum). It highlights the views and attitudes of police working in different informal settlements and identifies opportunities and challenges for the introduction of new smart policing tools in the Nairobi context. The use of digital technologies can potentially enhance accountability within the police while simultaneously providing a layer of protection for patrolling officers and improved community safety.

Security challenges that undermine the living and business environment in Nairobi County will be confronted through decentralization fire, security and emergency services and establishment of a rapid response team.

Accelerated pace towards reform to restore good governance, enforce fiscal discipline, seal loopholes for inefficient use of public resources, and eliminate corruption is a key priority. To achieve this, the government will continue to undertake public finance management reforms in procurement and financial management. In addition the government will continue to invest resources for lighting the streets and automation of all county services.

Pillar 2: Housing and Settlement

This pillar conforms to the seventh objective of the CIDP 2018-2022 which seeks to Increase access to affordable and the Government seeks to deliver an inclusive and fair city in which the poor have access to decent and affordable housing facilities. The government recognizes the high cost of rents due to lack of adequate houses. Having acknowledgement the heavy capital investment required for this kind of a venture, the government has partnered with the private sector to regenerate the City's Eastland's Estates in order to create more houses. The government will provide land and other logistical expenditures while the private sector provides the much-needed capital to construct the houses. Further the government will continue to maintain other County Estates to ensure they are properly maintained. To achieve the government is investing resources in support of the housing and settlement programme.

In the medium term, priority will be given in developing an affordable housing plan, public land recovery actualized and a review of County Spatial Planning Framework. The low-cost project targets to put up 5,000 houses in ShauriMoyo, 20,000 houses in Makongeni, 3,000 houses in Starehe and 2,000 units in Park Road estates.

Construction of the ShauriMoyo, Makongeni and Starehe houses will kick off in this financial year, and so is the breaking ground for the 2,000 units of affordable housing on Park Road. The other ambitious project that the teams comprising of the national and county leaders have committed themselves to is the launch of the Kenya Mortgage Refinance Company, which is at

the heart of delivering affordable housing. Under this plan, Nairobi is projected to provide 200,000 new affordable homes.

Pillar 3: Education and Health pillar conforms to the third, fourth and fifth objectives of the CIDP 2018-2022 which seeks to:

Provide reliable, accessible, quality and affordable healthcare,

Promote food and nutritional security for all, and

Provide accessible, affordable and quality ECD and vocational opportunities for all.

Human capital investment in the form of education is a major tool for sustainable development. The government recognizes it as a fundamental and universal human right and a pre-requisite for economic growth, human development and poverty reduction.

Accelerated investment in expansion of access to Early Childhood Development Education for the 0.3 million eligible children, collaboration with the National Government and other partners to modernize and expand access to high quality primary and secondary education will be an area of key focus in the medium term.

In order to respond to industry deficit in essential technical skills, the Government will design, develop and implement a T-VET master plan for competitive skills development.

In health, the government seeks to stem the rising infant mortality rates, halt and reverse declining child nutrition indicators, enhance immunization coverage and eradicate preventable causes of morbidity in the City. In recognition of health as one of the big four agenda, the budget allocation to health at Ksh 6.96billion out of the total budget of Ksh 34.2 billion remains highest allocation. Specifically, adequate resources have been allocated for hire of additional doctors and specialized nurses to benefit from the new equipment's acquired through the leasing of medical equipment scheme. Further, substantial investment will be made towards the preventive mechanisms to reduce the number of hospitalizations.

This will be achieved through improved access to quality healthcare services, narrowing health personnel: patient ratios and improvement of working conditions and ensure reliable availability

of medical and pharmaceutical commodities for both communicable and non-communicable diseases in public health facilities. In order to narrow the personnel patient ratio the county in collaboration with national government intends to upgrade b mama Lucy and Mutuini, and Mbagathi hospitals to level 5

Now that health is a devolved function, the Nairobi city county intends to hire more doctors, absorb practicing interns into the system, and invest in constructing of health centres especially in Embakasi, Kibra and Dagoretti areas and motivating them by providing incentives to medical practitioners in order to promote healthcare services in Nairobi.

Pillar 4: Environment, Water, Sanitation and Garbage.

The county government intends to strategize ways of engineering dumpsites that will lead to methane gas collection to power electricity generating plants. There is a proposal of two sites which are near human settlements i.e.(Kamukunji sub county and langata sub county). In these sites, street families will be mobilized through SACCOS so as to participate in collect garbage collection and hence economic empowerment.

This pillar conforms to the eight objective of the CIDP 2018-2022 which seeks to provide clean energy, safe drinking water, waste management and sanitary services in a secure sustainable environment.

The aspiration in this pillar is to deliver a clean healthy city in which water is safe, accessible and affordable for all and its supply is regular and reliable; a city in which garbage is collected and safely disposed of, the sewage is treated and the environment is green and alive and free of man-made waste.

In the short term the following activities will be undertaken; an audit of the water and sewerage system, an environmental sanitation campaign, community based garbage collection systems, eliminating illegal water connections, an overhaul of the existing garbage collection system and a review of existing legal regime. Whereas in medium and long term, the activities will include;

1) Creating an integrated strategy on water, sewerage and garbage

- 2) Investing in additional water production and distribution infrastructure
- 3) Reduction of water loss and leveraging on technology in solid waste management

Pillar 5: Traffic and City Transport

Due to failure and chaos in mass public transport system, there is low road density and potholed narrow roads in very many areas of the city. There is utter disregard for pedestrians and cyclists' walkways whilst they contribute 50 per cent of traffic. Therefore there is dire need to investmentin expansion and improvement of road infrastructure, commuter rail and non-motorized transport (NMT) facilities so as to enact structural changes in order to accommodate the deployment of a rapid bus transit system. The target is to achieve a congestion-free City in which pedestrians have safe walkways; children do not suffer injuries from road accidents and public transport is so seamlessly connected that private cars are unnecessary in most parts of the city. This pillar conforms to the first objective of the CIDP 2018-2022 which seeks to provide quality physical infrastructure in the city.

In order to achieve this in medium term, a pricing strategy that will suppress demand for on street parking will be evaluated coupled with investment in multi-deck parking infrastructure with a view to improve supply of secure parking spaces for consumers. The plan to decongest the city includes building four Main Park and ride stations to serve private motorists who use Thika Road, Mombasa Road, Ngong Road and Waiyaki Way, and removal of on-street parking and introducing multi-storey and sunken car parks and designate specific drop and pick up points for public service vehicles.

Pillar 6: Jobs, Business Environment and Wealth Creation.

This pillar conforms to the second objective of the CIDP 2018-2022 which seeks to provide economic growth opportunities to diverse groups including youth, women, PWD's.

The medium term target is to deliver a city where every Nairobi resident has an equal opportunity to find work, earn a decent wage and prosper; a city providing essential needs for its people, their rights protected and in which no one is excluded from a rewarding social and economic participation. This focus will be in business environment; re-engineering to accelerate

investment, skill development among the youth, entrepreneurship support, trade and tourism promotion, agribusiness investment and incubating cooperatives for capital formation.

The formation of the Nairobi Socio-Economic Council, creation of business information centers, review and upgrading service delivery standards, expansion and development of new markets and leveraging of creative designs to provide inclusive trading spaces for small scale traders. A framework for monitoring job creation across public and private sector entities will be fast tracked. Sonko's sixth pillar in his campaign manifesto is jobs, business environment and wealth creation. The government is investing Ksh 70million for the rehabilitation of Waithaka Technical Institute and construct a new vocational centre to impart the necessary skills to the youth under the education and social services sector in order to equip the youth with necessary skills for formal and self-employment.

Additionally, the trade sector has allocated Ksh 30milion for a trade revolving fund targeting the youth population. Further, the department of the youth in Social Services will be carrying out sensitization programmes to sensitize the youth in regard to Uwezo Fund ,Women Fund with a target to increase the uptake of these funds by the youth and other marginalized groups like PLWDs.

Additionally, the Trade Sector in partnership with Kenya Leather Development Programme will be rolling out the Kariokor Leather Project. The project is aimed at providing leather dealers with a facility where they can add value to the leather products and therefore increase incomes and enhance job and wealth creation. To improve and increase the trading spaces available, the trade Sector will continue to invest in rehabilitation of markets to improve working conditions and increase space. The Nairobi Governor said he will make sure he achieves of the above pillars by promoting bilateral partnerships.

Pillar 7: Youth, Women, People Living With Disabilities and Social Protection.

This pillar also conforms to the second objective of the CIDP 2018-2022 which seeks to provide economic growth opportunities to diverse groups including youth, women, PWD's.

The Government recognizes that the people of Nairobi are its partners and that their skills, talents and knowledge are the county's most valuable assets. Progress policies for talent identification, nurturing, development and deployment of such talents, skills and knowledge for maximum The medium-term target is to deliver a city where every Nairobi resident has an equal opportunity to find work, earn a decent wage and prosper; a city providing essential needs for its people, their rights protected and in which no one is excluded from a rewarding social and economic participation. Due to the high population of the youth job creation is a priority of the government and in this regard: returns will be developed and implemented

Creating opportunities for the Youth, Women and people living with disabilities shall be given primacy. "One out of three people in Nairobi are below the age of 19. And over 75 per cent of the population is below 35 years. Majority of them being women, the youthful demographic ought to be an opportunity not a risk. Nairobi requires PWD compliant infrastructure and buildings, Over 1000 new primary schools and over 200 secondary schools. In recognition of this noble agenda the government has made the following proposals;

- 1) Ksh 350million has been allocated to assist the needy families with bursaries to alleviate the suffering of the poor.
- 2) The government is committed to constructing 5 stadiums in the next three years spread across the City and specifically Ksh 200million has been set aside in the year 2018/2019.
- 3) The government is committed to ensuring that 30% of all procurements benefits the youth, women and people living with disabilities according to government policy.

CHAPTER THREE: SECTOR ACHIEVEMENT, DEVELOPMENT PRIORITIES, PROGRAMMES AND PROJECTS

This chapter analyzes the prevailing situation in each sector based on issues, defines sector priorities for financial year 2020/21 and also discusses the programmes and projects to be implemented in the effort to address the identified issues. In addition, a summary of sector achievements for FY 2018/19 is highlighted.

3.1.0 HEALTH SERVICES

3.1.1 Sector mandate and organization

The mandate is realized under the following program areas:

Program 1: Preventive and Promotive Health Services

Health Promotion and Prevention has been described by the WHO as the process of enabling people increase control over and to improve their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. Health Promotion and disease prevention Programs focus on keeping people healthy. Through this program, the county health department focuses on prevention strategies to reduce the risk of developing Communicable and Non-Communicable Diseases and other morbidities.

Program 2: Curative and rehabilitative services

Curative and rehabilitative services comprise of services offered in clinics, dispensaries health and hospitals. Through this Program, the County Health Services provides specialized curative, diagnostic and rehabilitative interventions at the County referral hospitals and essential health services at primary health care facilities.

Program 3: General administration, planning and support services

The mandate of the General administration, planning and support services program is to provide oversight and management support required for delivery of quality health care. The specific role is:

- i. To provide a leading role in policy (planning) of Health services
- ii. To plan, monitor and evaluate the health sector annual budget and expenditure

- iii. To monitor and evaluate the health sector performance with respect to program implementation and health outcomes and provide feedback to stakeholders
- iv. To improve the quality of health services
- v. To strengthen collaboration with health-related sectors
- vi. Coordinate operational research
- vii. Human Resource Management

3.1.2 Sector response to County Vision and Mission

Vision: A City County Providing World Class Health Services.

Mission: To provide quality healthcare services that is accessible, equitable and sustainable to the population of Nairobi City County and beyond.

The sector's response to the vision and mission is through provision of health services that are accessible, equitable and sustainable to the population of Nairobi City County. The focus will be on health promotion and disease prevention to keep the population healthy.

3.1.3 Review of sector performance 2018/19 and projections for 2019/20 Summary of Achievements for Capital Projects and their status

- Construction of a new one storey medical block at the existing Mathare North Health center (75%)
- Completion of the rehabilitation works at Makongeni clinic (85%)
- Construction of a new one storey medical block at the existing Dandora II Health center (75%)
- Construction of a new one storey medical block at the existing Karen Health center ((75%)
- Construction of a new one storey medical block at the existing Upendo Health centre (70%)
- Construction of a new one storey medical block at the Kamulu, Ruai ward (75%)
- Construction of a new one storey medical block at the Clay City Ward -complete
- Construction of Mwengenye and Mowlem dispensary- Both at 2% completion
- Construction & equipping of a health centre at Tasia in Embakasi Airport Ward (20%)
- Construction & equipping of a health centre at Soweto in Lower Savannah Ward (7%)
- Construction of a new medical block at the existing Pangani Clinic- complete and was funded by a Partner CCM, Italy
- Construction of a comprehensive TB clinic at the existing Babadogo health centrecomplete funded by NCCG and University of Maryland
- Establishment and equipping of a modern conference hall at Pumwani Maternity Hospital-complete.supported by UNICEF
- Rehabilitation of New born unit, procurement of patients' beds for increasing capacity in kangaroo mother care. complete.supported by UNICEF
- Establishment of a Human Milk Bank at Pumwani Maternity Hospital- COMPLETE and supported by PATH.
- Completion of the construction of the 66 Ward Block at Mama Lucy Kibaki Hospital (80%)
- Construction of a comprehensive TB clinic at the existing Mama Lucy Kibaki Hospital-Complete. Was funded by NCCG and USAID (Afya*jijini*)
- Completion of the construction of a Perimeter Wall at Mutuini hospital (90%)

3.1.4 Strategic Matrix

The strategic priorities for the FY2020/21 will be; Reduction of exposure to health risk factors, Elimination of communicable diseases, Halting and reversing the rising burden on non-communicable diseases, Provision of essential emergency and medical rehabilitative services, Provision of essential health care medical services, Reduction in the burden of violence and injuries, Provision of leadership in policy and planning of health services, Monitoring and

Evaluation of health activities, Improve on quality of health services and Strengthen collaboration with other health actors.

Table 3.5: Development projects

project	Location (Ward)	New or Phase d	Expected Output	Measurable Indicator	Estimated Total cost in Ksh.	Sourc e of Funds
Renovation of the maternity wing at Mbagathi Hospital	Golf Course	Phased	Renovated maternity wing at Mbagathi Hospital	Functional Maternity wing at Mbagathi hospital	19,100,000	NCCG
Construction (Phase 1) of a new modern building at Mbagathi Hospital	Golf Course	Phased	New modern building constructed	Functional unit	50,000,000	NCCG
Construction of a Maternal Intensive Care Unit (MICU) at Mbagathi Hospital	Golf Course	New	MICU constructed	Functional MICU	30,000,000	NCCG
Equipping of MICU and OPD block at Mbagathi Hospital	Golf Course	New	Equipped MICU and OPD block	Functional equipment	30,900,000	NCCG
Rehabilitation and rebranding of Pumwani Maternity/Maternal Intensive Care Unit (MICU)	Pumwani	Phased	Rehabilitated and rebranded MICU at Pumwani Maternity Hospital	Functional MICU	47,000,000	NCCG
Equipping of MICU & Laboratory at Pumwani Maternity Hospital	Pumwani	Phased	Equipped MICU and Laboratory at Pumwani Maternity Hospital	Functional equipment and Lab.	7,000,000	NCCG
Proposed supply, delivery, Installation and commissioning of 2No. Lifts/elevators at Pumwani Maternity Hospital	Pumwani	Phased	Installed and commissione d lifts at Pumwani Maternity Hospital	Functional lifts	15,000,000	NCCG
Proposed supply, delivery, Installation and commissioning of 500 KVA standby generator set, transfer of existing 200 KVA generator set to student hostel, application of 3 phase power supply and meter separation for midwife quarters at Pumwani	Pumwani	Phased	Installed and commissione d generator, installed 3 phase power and installed separate electricity meters	Functional generators, 3 phase power and electricity meters	18,000,000	NCCG

3.1.4 Budget Summary

Table 3.6: Budget for programmes

Program	Sub-Program	Estimated Cost
Program 1: Promotive and	HIV/AIDS Prevention and control	18,052,300
Preventive	TB control	332,200,000
	Other communicable diseases including Malaria	151,450,000
	control	
	Reproductive health, Maternal, Neonatal, Child and	830,000,000
	Adolescent Health (RMNCAH)	
	Environment/Public Health	705,025,000
Program 1 Total		2,036,727,300
Program 2: Curative and	Mbagathi Hospital	614,000,000
Rehabilitative	Pumwani Maternity Hospital	441,000,000
	Mama Lucy Kibaki Hospital	583,050,000
	Mutuini Hospital	230,000,000
	Health Centres and Dispensaries	2,049,338,100
Program 2 Total		3,917,388,100
Program 3: General	Health policy, planning and finance	180,000,000
Administration, Planning and	General Administration	208,926,600
Support Services	Health Commodities	886,957,500
	Research, Quality assurance & Damp; standards	81,000,500
	Coroner Services	58,000,000
Program 3 Total		1,414,884,600
Total		7,369,000,000

3.1.7 Cross Sector/ Cross Cutting Issues.

The health sector works in collaboration with other sectors at the National and County level to achieve its goals. These sectors include Education, Youth Gender, Sports, Culture and Social Services, Agriculture, Livestock and Fisheries, Land, Housing and Urban Development, Environment, Water and Natural Resource, Information Communication and Technology, Devolution and Planning, Public Service Management, Labour, Security and Social Services, and Finance and Economic Planning.

Education, Youth Gender, Sports. Culture and Social Services

The County Health Sector will work closely with the Education, Youth Gender, Sports, Culture and Social Services sectors through the school health program to ensure a collaborative implementation of cross cutting programs and thematic areas; Gender, Child Rights and Protection, Special Needs and Disability, Water Sanitation and Hygiene Disease Prevention, Control and Nutrition therefore increasing access and improving utilization of services by all school going children. The Health Sector's Gender Mainstreaming Policy will ensure health rights of the most needy and vulnerable in the Nairobi population e.g. adolescent and youth, elderly, men and women are applied in all administrative and decision-making structures. The sector will continue to collaborate with the NHIF and other deliberate efforts by the national government such as the Beyond Zero initiative to ensure enhanced and increased access to quality health services at all levels of service delivery. The youth will be a focus to the health sector, ensuring friendly youth health services access and creation of platforms that ensure free sharing of issues affecting health and wellness of the youth, therefore increasing access to health services for the youth in Nairobi County.

Agriculture, Livestock and Fisheries

The Agriculture, Livestock and Fisheries sector is an essential component and contributor to healthy living and improved livelihood for the communities. Malnutrition due to poor nutrition services compromises the body's immunity and causes to other food deficiencies. Agriculture influences health and health influences agriculture. The health sector will collaborate with the Agriculture, Livestock and Fisheries sector to tap into opportunities that exist for the sector to contribute to better health outcomes therefore a productive population for the County. The health sector will promote better coordination with the agricultural sector and consider conducting joint researches that strengthen the linkage between the two sectors and use research findings and recommendation to inform policy change, formulation and community health education and awareness on agricultural practices that enhance a healthy living.

Land, Housing and Urban Development

The health sector will collaborate with the Land Housing and Urban Development sector to enhance a safe city free from pollution, disease and potential health and wellbeing of the populations as a result of poor housing and urban planning.

Environment, Water and Natural Resource

Nairobi County has a large population whose majority abode in the informal settlements of the city of Nairobi. These people are at a greater risk of disease due to the numerous environmental risk factors. The County health sector will work closely with the Environment, Water and Natural Resource sector to ensure that environmental health issues are adequately addressed, particularly that:

- 1. There is proper management of solid and liquid waste to prevent occurrence of diseases such as diarrhea, respiratory infections among others.
- 2. Every household has access to and use safe and clean drinking water and improved sanitation facilities.
- 3. The environment is maintained clean by ensuring that bushes are cleared and drainage of stagnant water which encourages breeding of mosquitoes.

Information Communication and Technology

Kenya was ranked 138th globally in (Measuring the Information Society Report, 2017) and 3rd (Global Innovation Index (GII), 2018) place in sub Saharan Africa in ICT advancements. Further, the report states that Kenya achieves high levels of innovation relative to its level of development, a continuous performance since 2011. Mobile phone penetration has hit its highest at 95.1% (Communications Authority of Kenya (CAK), July 2018). This is a clear indication that the environment for ICT advancement is ripe. The Nairobi health sector will partner with the private sector to explore the opportunities for ICT advancement in health and carefully design innovative ICT based platforms to plan, develop, implement, manage, monitor and report on health service delivery. The sector will continue to collaborate with the Information, Communication and Technology sector and health development partners to automate all health facilities and services through the existing platforms (EMR, DHIS2, and IHRIS). The sector will build

The capacity of health workers to utilize ICT based data for decision making. Moreover, the County will adopt telemedicine to improve on the referral system, and possibly address health worker shortages in addition to investing in ICT infrastructure for diagnosis and patient journey management.

Devolution and Planning

The health sector will collaborate with the devolution and planning sector to identify, plan and implement targeted policy initiatives aligned to the national goals and particularly the health-related key initiatives of the Big Four Agenda.

County Public Service Management

The health sector has the highest number of workforce of approximately 3,500 public servants working in Nairobi County. Both the County Public Service Board and County Public Service Management are critical stakeholders in the health sector. Jointly with the two, the health sector will ensure proper planning, recruitment, deployment, development and management of the health workforce. The health sector will through the County Public Service Board mobilize for a fully functional human resources unit to effectively and efficiently manage the health workforce. The health sector will continue to collaborate with the public service management to achieve the following:

- Ensure conducive working environments for all health workers.
- Institute transformational leadership Programs for the Sector.
- Implement and institute the staff the performance management system
- Institute periodic and open forums between different stakeholders (Unions, regulators, health sector) to address and avert employee relation issues that impede service delivery.
- Develop and implement clear and dynamic career pathways for each employee category, taking into cognizance emerging trends in Human Resource Management in the health sector:
- Institutionalize the grievance handling procedures and mechanisms and communicate to all employees.
- Harmonize health worker salaries and benefits such as leave and leave allowances.

• Develop a communication strategy that will ensure that all health stakeholders are constantly updated on human resource issues in order to promote transparency.

Finance and Economic Planning

Results in the health sector depend on adequate funding, timely disbursement and accountability of funds. The sector will continue to build health worker and particularly health leadership teams' capacity in budget development, planning, implementation, tracking and reporting using the annual work planning process and other county budgeting tools. This will ensure proper management and control of health finances and expenditures. To increase the sectors funds and supplement its budget, the health sector will mobilize for additional resources from its partners.

3.2.0 ENVIRONMENT, WATER, ENERGY & NATURAL RESOURCES

3.2.1 Sector mandate and organization

The Sector derives its mandate from articles 42 & 43 (1d) and Fourth Schedule of the Constitution of Kenya 2010.

The Sector is structured in Two Sub –Sectors (Directorates) namely

- 1. Environment and Natural Resources
- 2. Water, Sanitation & Energy

The functions of the Sector are spelt out in the Fourth Schedule of Constitution of Kenya 2010, as summarized below: -

- 1. Solid Waste management
- 2. Pollution control
- 3. Provide and manage public recreation spaces and other facilities
- 4. Formulate climate change mitigation and adaptation strategies
- 5. Environmental education, awareness, compliance and enforcement
- 6. Water provision and conservation, and sanitation services
- 7. Nairobi river basin regeneration

- 8. Initiating, formulating and implementing of appropriate policies and legislations including Electricity & Gas reticulation, Energy Regulation and Environmental Management.
- 9. Implementation of specific national government policies on natural resources and environmental conservation including soil and water conservation

3.2.2 Sector response to County Vision and Mission

Response to County Vision

The Sector undertakes to provide sustainable solid waste management, affordable and clean water, sanitation services, climate change mitigation and adaptation strategies, promote green and affordable energy, ensure compliance, monitoring and enforcement, environmental education, proper management of recreational facilities and open spaces towards attaining a City of choice to live, work and invest in.

Response to County Mission

The Sector commits to provide affordable, accessible and sustainable quality environmental management, water, sanitation & energy services, enhancing community participation and creating a secure climate for political, social and economic development through the commitment of a motivated and dedicated team.

3.2.3 Review of Sector performance 2018/19 and projections for 2019/20

Table 3.7: Summary of Sector Achievement

S/No	Section	2018/19 Achievements	2019/20 – Projections
1	Solid Waste Management	 Raised daily average collection from 1000 to 1500 Tonnes Improved and sustained 3No access roads to motorable standards within the dumpsite out the existing 5No. Construction of John Osogo road – 	 Raise daily average collection from 1500 to 2000 Tonnes Improve and sustain all the existing 5No access roads within Dandora dumpsite
		 43% complete Procured services for Construction of ramp for a new weigh bridge Hired heavy plant and equipment, supervisory vehicles and waste transportation trucks procured skips 	 Complete construction of John Osogo Road – 100% To construct ramp, install and commission new weigh bridge. Hire adequate heavy plant and equipment, supervisory vehicles and waste transportation trucks procure skips, skip loaders and

3.2.7 Cross cutting issues

Climate Change

Climate change is a reality affecting both biotic and abiotic environment. all development projects in the city contribute in one way or another to climate change for instance use of fossil fuel powered equipment generate green house gases all of which contribute to climate change. On its side effects of climate change affect all sectors for instance flooding causes displacement damage to property and death. This can only be addressed through a multi-sectoral approach.

Gender and Disability Mainstreaming

Gender roles are socially and culturally defined which can result to biasness in recruitment, promotion and access to opportunities for both women and men. Disability has been considered as an impediment to access to opportunities, this cuts across all sectors and the enactment of the law has tried to break the barrier. The Kenyan constitution 2010 has stipulated threshold for either gender for public opportunities

Corruption Prevention

Corruption has adversely affected service delivery to the citizens leading to poor economic development and loss of life as well as high cost of programs and projects implementation. There is integrity and ethical code of conduct across all sectors of the County that abides and commits them to prudence and due diligence while performing their public duties.

Public participation and stakeholder consultation

The Kenya constitution 2010 and legislative instruments dictates that all policy, projects, programs budgetary & budget making process and economic planning must be subjected to public participation by all sectors.

HIV/AIDS and other medical condition management

Both infected and affected face stigma. This affects service delivery to the citizens. There are regular follow ups and action taken to ensure there is no discrimination based on health status. Emerging issue of terminal illnesses and alcohol and drug abuse has great impact on staff

performance. Joint mechanisms need to be put in place for counseling and assisted employee support system for quality of working life.

3.3.0 ROADS, PUBLIC WORKS AND TRANSPORT

3.3.1 Sector Mandate and Organization

Sector mandate

The sector's mandate is defined under the two directorates;

Roads Directorate

- 1. Liaison with National and other agencies in the planning, design and implementation of roads and transport systems within the county
- 2. To design, develop and maintain roads to standards that will enhance efficient transportation of people goods and services
- 3. Coordination of development projects by the national and other agencies within the County
- 4. To offer engineering services to private developers.
- 5. To provide project planning and design services to projects funded by Ward Development Programme (WDP)

Public Works and Transport Directorate

- 1. To develop and maintain street and security lighting infrastructure to enhance security and safety.
- 2. To develop and maintain public transport infrastructure.
- 3. To design, develop and maintain institutional facilities to enhance service delivery.
- 4. To maintain county fleet and plant to facilitate service delivery
- 5. To design, develop and maintain bridges to enhance vehicular and pedestrian passage.

Sector Organization

The sector is headed by a County Executive Committee Member, with a Chief Officer for Roads sub sector and another for Transport and Public Works sub sector. Below each Chief Officer is a Directorate headed by a Director. The Directorates are divided into several sections as follows:

1. Roads Directorate

Operations

2. Public Works Directorate

- Structural
- Electrical
- Mechanical
- Building Works

3. Transport

- Road transport planning and management
- Traffic management
- Parking management
- Formulation of policy and regulatory frame work for the sector
- Development and maintenance of public transport, traffic management and parking infrastructure

3.3.2 Sector Response to County Vision and Mission

The County Vision is "The City of choice to invest, work and live in" and the County Mission is "To provide affordable, accessible and sustainable quality service, enhancing community participation and creating a secure climate for political, social and economic development through the commitment of a motivated and dedicated team".

The Roads, Public Works and Transport sector will respond to the County vision and mission by:

- 1. Liaising with National and other agencies in the planning, design and implementation of roads and transport systems within the county
- 2. Designing, developing and maintaining roads to standards that will enhance efficient transportation of people goods and services
- 3. Coordinating of development projects by the national and other agencies within the County
- 4. Offering engineering services to private developers.

- 6. Providing project planning and design services to projects funded by Ward Development Programme (WDP)
- 7. Developing and maintaining street and security lighting infrastructure to enhance security and safety.
- 8. Developing and maintain public transport infrastructure.
- 9. Designing, developing and maintaining institutional facilities to enhance service delivery.
- 10. Maintaining county fleet and plant to facilitate service delivery
- 11. Designing, developing and maintaining bridges to enhance vehicular and pedestrian passage.

3.3.3 Review of sector performance for the financial year 2018/19 and projections for 2019/20

Achievements for FY 2018/19

- A total of 50 kilometres of tarmacked roads were constructed
- A total 120 kilometres of roads were graded and graveled
- 12No bridges were constructed
- 1,358 street and public lights were installed, whereas 57,000 street and public lights were maintained
- 6 No. public transport facilities constructed
- A total of 5.3 kilometres of walkways constructed

3.3. 5 Strategic Matrix FY 2020/2021

The sector priorities for the FY 2020/21 will be; development of road and drainage infrastructure, maintenance of the existing infrastructures, construction of public transport facilities and NMT facilities, traffic management, ensuring public safety and public and street lighting.

Table 3.12: capital projects

Progr amm e	Strategic priority	Projects	Ne w or Pha sed	Expecte d Output	Measurable indicator	Tar get for 2020 /21	Budg et in KShs (Milli ons)	Source of Funds County/ Donor

3.4 FINANCE AND ECONOMIC PLANNING

3.4.1 Sector Mandate and Organization

Sector mandate

The finance and economic planning sector is charged with the responsibility of ensuring prudent financial managements of financial resources, formulation of planning and budgeting policies to facilitate socio-economic development, resource mobilization and control of public finance resource and asset management.

Sector organization

The sector has eight departments/ delivery units namely: Revenue; Economic Planning; Asset Management; debt management; Budget & Expenditure; and Accounting and Financial Reporting, procurement and Ward Development Programme (WDP).

3.4.2 Sector response to county vision and mission

In response to county vision and mission, for the financial year 2020/2021, the sector will embark on; mobilizing more revenue, enhancing prudent financial management, improving on asset management; timely formulation and management of budget, promote timely procurement processes as well as enhancing tracking of implementation of development policies, strategies and programmes.

3.4.3 Review of sector performance 2018/19 and 2019/20

The following were the achievements for every department in the sector

a) Economic planning

- Developed ADP 2019/2020
- Conducted one study on sector priorities
- prepared fiscal strategy paper 2019
- Conducted 3 quarterly monitoring and evaluation exercises
- Prepared one annual performance report
- Trained sector working groups

b) Procurement department

- 543 no. of contracts awarded
- 185 no. of quotations awarded
- 20 no. of staff trained on executive order no. 2
- 1 no. of staff trained on SLDP
- 1 no. of staff trained on SMC

For the FY 2019/20 the department is expected to achieve the following;

- Partition office
- Establish computer center with 20 fully networked computers.
- Train 80 no. of officers.
- Procure office furniture.

c) Asset department

- All county assets and staff were insured against Group Personal Accidents and work Injuries Benefits Covers
- developed the roadmap towards updating the county assets inventory and assts register
- updated the county assets inventory
- drafted the county assets management policy and shared it with the county secretary and Attorney

d) Revenue department

• In the financial year 2018/2019, the County managed to Collect **82%** of the projected **Ksh. 31.74B**. This was attributed by failure to achieve the local revenue target where **kshs. 10.17B** was realized against the proposed 15.21B.

e) Budget Formulation and Co-ordination

In the financial year 2018/19, the following was accomplished;

- With assistance from AHADI Kenya, Sector Working Groups were launched and sensitized on budget making process (The budget cycle)
- County Budget and Outlook Paper (CBROP) was done and submitted to the county Assembly by 31st October 2018.
- Four quarterly expenditure reports were prepared.
- 2019/20 FY Budget was prepared and submitted to the county assembly
- 3No supplementary budgets were done within the fiscal year.

3.4.5 Strategic matrix

For the year 2020/21, finance and economic planning sector will embark on the following priorities in order to address the issues identified in the table below;

- Enhance resource mobilization
- Promote prudent financial management
- Prepare a comprehensive Assets Register
- Strengthen policy formulation, planning and budgeting
- Enhance tracking of implementation of development policies, strategies and programmes
- Provide administrative and support services

Table 3.15: Development projects

Program	Strategic priority	Projects	New or phased	Expected output	Measurable indicator	Target for 2020/2 021	Budget in kshs (millions)	Source of fund County/d onor

3.4.7 Cross sector/cross cutting issues

(i) Prevention of Alcohol and Drug Abuse

The Sector should train and sensitize staff on alcohol and drug abuse.

Make reports on to the above activities

(ii) Prevention of HIV infection

The sector should train and sensitize all the staff in sector.

Make reports on to the above activities

(iii) Environmental Sustainability

The sector shall carry out survey to identify the relevant issues affecting the work environment and provide evidence of implementation of the identified issues.

Make reports on to the above activities

(iv) Disability Mainstreaming

The sector shall sensitize and train staff on service provision to persons with disability and establish structure and system that will ensure such persons access information and services.

Make reports on to the above activities

(v) Corruption prevention

The sector shall develop corruption plan by doing the following;

Operational zing corruption prevention committee

Train staff and hold sensitization forums.

Make reports on to the above activities

(vi) Gender Mainstreaming

The sector shall promote national values and principles of governance by doing the following;

Collect sex disaggregated data to guide in planning and programming in the sector,

Sensitize and train on gender mainstreaming.

Make reports on to the above activities

(vii) National Cohesion and Values

The sector shall promote national values and principles of governance by doing the following;

- Put code of conduct in place,
- Review service delivery charters,
- Train staff and create awareness and disseminate programmes on National values and principles of Governance.
- Make reports on to the above activities

3.5.0 URBAN PLANNING AND LANDS

3.5.1 Sector Mandate and Organization

Sector Mandate

The sector is mandated to perform the following functions;

• Formulation of spatial plans that integrate urban economy, social and physical development.

- Urban studies & research to inform policy & strategies supported by a GIS based database system.
- To formulate development control guidelines & regulations to guide the city's growth & development.
- To approve & monitor urban planning development projects.
- To prepare plans & policies those inform the legislative process of the County Government.
- Citizen engagement in planning process & decision making

Organization Structure

The Urban Planning Sub-Sector is headed by a Chief Officer and is divided into three Directorates namely;

1. Urban Policy, Research & Statistics

- Formulation of policies to guide urban development
- To carry out research related to formulation and review of policies
- To coordinate implementation of the NIUPLAN.
- Monitor and advice on city growth and developments with respect to land use
- Advice for conflict resolution in physical planning matters;

2. Development Management and Regularization

- To receive and process for approval development applications (building plans, change of users, sub-divisions and amalgamations)
- To coordinate regularization of development process to conform with human habitation standards of safety.

3. Planning Compliance & Enforcement

- To supervise implementation of approved plans to ensure compliance
- To monitor urban development activities and enforce compliance for orderly development.
- Issue Occupation/Compliant Permits on all completes development projects
- Coordinate judicial processes and prosecute planning matters in the County Court.

3.5.2 Sector Response to County Vision and Mission

The Urban Planning Sector is primarily responsible for land Use planning and facilitating the physical development of the city to achieve the City's vision as a city of choice to live, work & invest. The sector works with citizens and communities to develop short & long integrated strategic developmental and regulatory frameworks to promote & guide spatial and physical development of the city for sustainability. Urban Planning is key in promoting plan-led development & therefore the backbone of a successful city's development.

3.5.3 Review of Sector Performance 2018/19 and Projections for 2019/2020

Planning, Compliance of Approved Development	Planning Clinics	9 M
20 to topinon	Routine Surveillance	18 M
	Office Refurbishment	10 M
Total		37 M

3.5.7 CROSS SECTOR/ CROSS CUTTING ISSUES.

- 1. Lack of funds hindering furtherance of major activities
- 2. Inadequate technical staff
- 3. Internet Connectivity
- 4. Shortage of equipment and vehicles
- 5. Office Space Inadequacy due to crowding
- 6. Slow Procurement Process

3.6 INFORMATION, COMMUNICATION & E-GOVERNMENT

3.6.1 Sector mandate and organization

The Information, Communication and E-Government Sector Mandate include the following: -

- i) Formulate appropriate policies and provide the necessary legal framework for the development of ICT and its optimal use in the County and Sub-counties;
- ii) Facilitate, through the implementation of an E-Government programme, the provision of County services electronically anytime anywhere for the greater convenience of the citizens;
- iii) Promote and facilitate the development of the ICT sector;
- iv) Promote the development of ICT enabled services including e-business
- v) Encourage the adoption of new technologies and best practices in the ICT sector;
- vi) Promote capacity building in County;
- vii) Promote and facilitate IT Security within County Government Systems;
- viii) Formulate appropriate County information and public communication policies, strategies and programmes; and
- ix) County branding.

3.6.2 Sector response to county vision and mission

The Sector's response to county vision and mission is through leveraging technology to enhance citizen service delivery and achieve operational excellence. In connection to this, the sector intends to leverage technology to enhance citizen service delivery, achieve operational excellence and enhance revenue collection. To achieve this sector will require an ICT environment capable of supporting the citizen service delivery pillars, automating business processes and providing scalability for future growth.

3.6.3 Review of sector performance for FY2018/19 and 2019/20 projections

The Nairobi City County Information, Communication and eGovernment sector has been implementing a five (5) year ICT Transformation Roadmap that was initiated in the year 2013. The programme was intended to increase efficiency, improve service delivery and revenue collection through the implementation and deployment of technology solutions and shared services for County Governments.

The following projects had been successfully achieved as at 1st July, 2018 -

- i) **ePayment solution** A solution to provide convenient electronic payment options to citizens which is expected to reduce handling of cash, enhance revenue collection and improve service delivery. The County launched the "ejijipay" as an epayment solution in the FY 2014/2015. As at July, 2018 the County had collected over Kshs. 28 Billion through the ejijipay platform.
- ii) ICT infrastructure This entailed replacement of the aging and limited ICT infrastructure with new IT modern network and data centre infrastructure. The County launched a tier II Data Center in FY 2017/2018 which is currently awaiting operationalization upon installation of the VMware. The installation of the Headquarter's Local Area Network and Wide Area Network at City Hall and Annex has also been completed and currently awaiting activation uponoperationalization of Data Center. The roll-out of new structured cabling at the sub-counties and other sites is expected to commence upon activation of HQ.
- iii) Web Portal The County in June 2014 launched an updated and rebranded web site to allow citizens apply for county services online and make payments anywhere and anytime. The web portal is interactive, informational and transactional. In the year 2018 July, the web portal had received more than 234,000 users visiting it.
- Integrated City Management System (ICMS) This will be the core application to automate the County's business processes and will cover functionalities such as Revenue Management, Human Resource, Procurement, Citizen Services and specialised departmental functions, Fleet Management, Projects Management, Performance Management and others. The ICMS is to be integrated to other applications such as e-Payment, IFMIS, Web Portal, Citizen Relationship Management System and Business Intelligence. The County intends to implement phase 1 of the ICMS application in the FY 2018/19 over a period of five (5) years.
- v) Disaster Recovery Planning This is a documented process or set of procedures to recover and protect a County's business IT infrastructure and data in the event of a disaster. It will also minimize disruption of business operations as a result of unavailability of ICT systems. This will be implemented upon completion of the Data Center.

- vi) **Email messaging and collaboration** The County in the FY 2013/14 implemented an email system to provide a reliable messaging and collaboration solution for a thousand (1000) staff. The County intends to ensure all County staff have official emails by the year 2020.
- vii) **PABX/Unified Communication** The sector in the FY 2018/2019 intends to complete the unified communication infrastructure for telephone, voice and video conferencing upon completion of the Data Center and LAN/WAN.
- viii) **ICT Governance** The County intends to put in place a stable and robust governance processes and controls to ensure that IT activities are aligned with the Strategic Plan and Governor's Manifesto. This will include defining ICT organization, Project Management Office, ICT policies, Service Level Agreement management and change management.
- ix) Citizen Relationship Management (CRM) The Department intends to acquire a CRM solution in the FY 2020/2021 that will manage interactions with citizens and provide the County single view of citizens. This will also be used to track feedback and complaints.
- x) **Business Intelligent & Analytics tools** The Department intends to put in place a Business Intelligent& Analytics tool solution in the FY 2020/2021to have a better analytical solution and reporting to support decision making.
- xi) Geographical Information Systems (GIS) This is expected to be deployed to manage spatial data to support planning and service delivery. The Nairobi City County Lands and Housing Sector under The Nairobi Metropolitan Services Improvement Project (NaMSIP) will be implementing the system in FY 2020/2021.
- xii) Intelligent City Surveillance & Traffic Management This is to be implemented under NaMSIP in the FY 2020/2021.

xiii) Internet Service Provision

The sector is expecting to provide internet access to all the County offices located at City Hall and Annex through procurement of a primary internet service provider in the FY 2019/2020. The internet connectivity will be expected to be rolled out in the sub-county offices and other identified county facilities in the FY 2020/2021.

3.6.5 Strategic Matrix for 2020/2021

Table 3.21: Development projects

Program	Objectives	Physical Location	Activities Description	Expected Output	K.P.I	Estimated Cost Kshs.	Time Frame						
Information systems,& E- Government	To improve service provision to citizens	HQ	ICRMS- Integrated city revenue management System	Efficiency & Transparency in Revenue Management	No. of Revenue Models operational	150M	2 years

3.7 FOOD, AGRICULTURE AND FORESTRY SECTOR

3.7.1 Sector mandate and organization

The Sector comprises of two Sub-sectors which are Food, Agriculture and Forestry and Livestock and Fisheries. It has four Directorates, namely; Crops and Forestry Development, Livestock & Fisheries Development, Veterinary Services and Food Systems. The Sector performs extension and regulatory services and agri-business promotion as well as food situation assessment. Through extension services, the Sector empowers producers of crops, livestock and fisheries on new technologies that achieve greater production under the limited arable land space in the County. The Sector also promotes tree growing as a way of ensuring sustainable agricultural land use and greening of the City to enhance environmental benefits associated with trees.

The regulatory services offered by the Sector manage animal and plant diseases, pests and vectors which achieve greater health productivity of animals and plants. In addition, the Sector regulates and controls tree cutting and pruning. The Sector also inspects food for contamination with micro-organisms, agro-chemicals, veterinary medicines and environmental contaminants while also controlling zoonotic diseases to protect public health.

advises the rest of the Government to respond appropriately. Through this service, Nairobi residents are better assured of their right to food as provided by Article 43 (1) (c) with greater contribution to the right to health under Article 43 (1) (a) of the Constitution of Kenya (2010). Agricultural production in the County is to a large extent small-scale, market oriented and subsistence farming where farmers have small portions of land; there are also some commercial farms especially for poultry, pigs, dairy and horticulture. The limited space available for farming requires innovative farming technologies to maximize production per unit area. These include utilizing all available spaces, vertical space, roof tops, green house farming, micro gardening, hanging gardens, fish tanks; use of high producing animal breeds and on-farm feed formulation.

Under the food situation services, the Sector carries out regular surveillance for food security and

Clientele are reached through various extension approaches such as trainings, on farm demonstrations, field days, trade fairs/exhibitions, exchange visits / tours and farm visits. Monitoring and evaluation is carried out to get feedback and to assess impact. Demonstration plots established at Jamhuri Showground serve as a demonstration farm for the Sector where various farming technologies are show-cased during the Nairobi International Trade Fair.

Daily the sector regulates the operations of 9 abattoirs, 14 slaughter slabs, 11 tanneries and 9 fish markets where inspection of 2,700 cattle, sheep, goats and pigs, 700 chicken and about 14,000 tonnes Fish.

Food, Agriculture and Forestry Sub - Sector mandates are:-

- 1) To ensure sustainable development and management of crops for food security and economic development
- To promote urban forestry and sustainable agricultural land use for improved quality of life
- 3) To appraise the urban food system of the city and identify policy options for improving it
- 4) To assess the food situation of city residents and trigger early response to food based emergencies

Livestock and Fisheries Sub – Sector mandates are:-

1) To promote, regulate and facilitate livestock production for socio-economic development

- 2) To promote, regulate and facilitate fisheries production, management and trade for socioeconomic development
- 3) To provide reliable, accessible, quality and affordable animal healthcare
- 4) To provide reliable, accessible, quality and affordable human healthcare with respect to zoonosis and animal food safety

Additionally the sector is implementing the Agriculture Sector Development Support programme (ASDSP) financed by the state department of agriculture with counterpart funding from the County government. The objective of the programme is to develop sustainable priority value chains for increased income and improved food and nutrition security. The programme has a counterpart funding of Kshs 5,500,000 from the county government and external funding of Kshs 13,500,000 through state department of Agriculture.

Organization of Sector delivery units

a. Food, Agriculture and Forestry

Crops Development Functions

- Create an enabling environment for urban agricultural development in line with the constitution through formulation, implementation and monitoring of legislations, regulations and policies
- Promote urban food security and safety
- Increase dissemination of agricultural information through effective agricultural extension services
- Promote output and productivity of crops
- Management and control of pests and diseases in crops
- Enhance investment in value addition and value chain development of crop, for local, regional and international markets
- Enhance market access of crops and their products

Forestry & Agriculture land Use Functions

- Planting of tree on the road reserves, in public institutions eg schools and county health facilities and estates
- Silvicultural practices
- Control and regulation of de-vegetation both in private and public land

- Promotion of agro forestry mainly in the peri- urban sub counties in accordance with the farm forestry rules of 2009
- Revenue generation through sale of firewood and issuance of tree cutting permits
- Managing tree Nursery -The County has one designated tree nursery situated within City Park recreational ground.
- Operationalization of the Transitional Implementation Plans (TIP) (*The document is yet to be signed by HE Governor*)

Food System & Sector Programmes Functions

- Food security surveillance
- Food system appraisal
- Coordination of cross-sectoral programmes
- Coordination of cross-sectoral policy work

b. Livestock and Fisheries

Livestock Development Functions

- Create an enabling environment for urban agricultural development in line with the constitution
- Increase livestock output and value addition
- Increase household food resilience
- Disseminate livestock technologies
- Promote access to livestock inputs and financial services
- Enhance information and communication management in livestock extension

Fisheries Development Functions

- Fisheries extension services
- Aquaculture development including ornamental fisheries
- Fish safety & quality assurance
- Enforcement of fisheries regulations and compliance
- Development and maintenance of fisheries related infrastructure (fish receptors, cold chain facilities)
- Management & Conservation of Fisheries Resources
- Fish Marketing Regulation

Promote development of private sector seed/ feed production systems

c. Veterinary Services Functions

- Monitoring and surveillance for diseases in all species of animals and publication of animal health statuses
- Prevention, control and eradication of animal diseases and vectors, including mass vaccination programmes, vector management services, quarantine and the regulation of animal movement;
- Stray-animal management (removal and disposal of stray dogs, cats, roadside and rail-side herds, and enforcing legal action to prevent straying and abandonment of animals)
- Good animal welfare (awareness creation, inspection and certification of animal establishments).
- Promotion of good leather production, regulation of movement of hides, skins and leather, regulation of flayers, drying premises, tanneries and other processing plants
- Zoonoses management (detection and management of priority animal-derived diseases affecting humans e.g brucellosis, bovine tuberculosis, infections with Salmonella etc)
- Control of the safety of meat, milk, eggs and honey and their processed products
- Control of the safety of animal feedstuffs

3.7.2 Sector response to County Vision and Mission

Being a food secure county is in line with the vision of the county of choice to invest, work and live in. The sector has the mission to improve livelihoods of Nairobi City County community by promoting innovative, commercially oriented, modern urban agriculture through appropriate policy environment, effective support services and sustainable agricultural land use.

3.7.3 Review of sector performance 2018/2019 and projections for 2019/20

The Sector developed a draft Food System Strategy, reached 19,891 farmers/ clients with extension messages and 103,431 with food safety requirement messages, planted total of 52,939 tree seedlings, vaccinated 14,934 animals, licensed 1,551 dogs and collected revenue amounting to Kshs 16,754,104. In addition, the Sector achieved 100% on daily inspection of meat and fish to ensure food safety.

3.7.5 Strategic Matrix

For the FY2020/2021, the sector will direct its resources in the implementation of the following priorities; farm animal control, dog control, poultry meat safety, Food safety and zoonoses surveillance, food mapping and research, awareness creation of food recovery and carry Census of food-poor residents and categorization of poverty.

Table 3.24: Development projects

Programme	Strategic Priority	Projects	New or Phas ed	Expected Output	Measurable indicator	Target for 2020/21	Budget in Ksh. (Millio ns)	Source of funds County/Do
1. General Administrat ion Planning and Support Services	To improve service delivery	1) Purchase of four wheel vehicles	New	Improved service delivery	Number of vehicles purchased	2	14	NCCG

3.7.7 Cross Sector Linkages/ Cross cutting Issues

The Sector has a wide range of stakeholders involved in the implementation of programmes and projects. Successful discharge of sector mandates calls for effective partnerships, collaboration and participation of both public and private partners (PPPs) because their involvement is critical in the achievement of the sector goals. The major stakeholders and their roles are outlined below:

County Citizens

It is through public participation process where residents give their views and input on the proposed programmes, projects and County Agriculture Draft Legislations. Public participation creates a widespread support for programmes, projects and legislations for increased acceptance and legitimacy.

Research and Academic Institutions

Research institutions, universities and other institutions of higher learning such as Jomo Kenyatta University of Agriculture and Technology, University of Nairobi and Kenya Agriculture and Livestock Research Organization play a critical role in creation of knowledge through research. A close collaboration between the sector and these institutions is important in

strengthening farmer-extension-research linkages and development of appropriate technologies for optimal performance.

County Sectors, Departments and Agencies

The sector works closely with other County sectors, departments and agencies while implementing its mandate and functions. The roles of these agencies are as follows:

Lands, Urban Planning, Urban Renewal, Housing & Project Management – In mapping, zoning of agricultural land; designing and approving infrastructure required by the sector;

- (i) Finance & Economic Planning budgetary provisions and economic planning
- (ii) Education, Social Services, Gender, Sports & Youth provision of space for on farm demonstrations, identification and mobilization of beneficiaries of the sector
- (iii)Commerce, Tourism, Culture and Cooperatives provision of infrastructure for marketing agricultural produce
- (iv)Environment, Water, Energy and Natural Resources approving enterprises and structures in the sector through endorsing environmental impact assessments and environmental audit reports
- (v) Health Services Collaboration in the provision of healthcare with respect to sanitary services in zoonosis, management of food safety, environmental health and human nutrition services

Other agencies include:-

- National Cereals and Produce Board (NCPB) Distribution of subsidy fertilizer and storage of cereals
- Pest Control Products Board (PCPB) Regulation of pestcides and their use
- Kenya Forest Services (KFS) Collaboration in tree planting
- Kenya Dairy Board (KDB) Management of quality of milk and support with statistics and data
- Kenya Plant Health Inspection Services (KEPHIS) Regulating of crop planting materials and registering agro stockists
- Kenya Bureau of Standards Training agripreneurs on quality standards

The Sector together with, Education, Social Services & Gender, Water and Sanitation, Health Services, Environment & Natural Resources, Urban Planning, Lands, Trade, Industry & Enterprise Development, Markets and Disaster Management & Coordination are implementing Milan Urban Food Policy Pact (MUFPP). This is a treaty signed by the City in 2016 and is geared towards development of sustainable food systems and promoting healthy diets, while countering the challenges of unbalanced food distribution and access, environmental degradation, resource scarcity and climate change, unsustainable production and consumption patterns, and food loss and waste. Through the treaty, cities committed to re-examine the ways in which cities are provisioned with food and water as well as other essential goods and services and to adopt comprehensive, interdisciplinary and inter-institutional approach to address challenges such as poverty, health and social protection, hygiene and sanitation, land use planning, transport and commerce, energy, education, and disaster preparedness. The treaty provided a tool for implementing the Sustainable Development Goals as pertains to cities.

Private Sector Organizations and Professional Bodies

They promote professional management; improve innovation, research and development as well as policy analysis. These stakeholders also ensure quality services are provided through their established standards and code of ethics. Example is the Kenya Veterinary Board, Animal Production Society of Kenya, Kenya Society for Agricultural Professionals, Kenya Professional Women in Agriculture and Environment amongst others.

Civil Society and Non-Governmental Organizations

The Civil Society Organizations (CSOs) including Non-Governmental Organizations (NGOs), Community Based Organizations (CBOs), Faith Based Organizations (FBOs,) and other special interest groups participate and support programmes in the sector. The Civil Society Organizations (CSOs) are involved in resource mobilization, community empowerment and technical support. They include Mazingira Institute, Concern Worldwide, Kenya Red Cross, Oxfam, and Ruben Centre. Kenya Society for the Care and Protection of Animals, Brooke East Africa, World Animal Protection, Horticultural Council of Kenya, Aquaculture Association of Kenya, Kenya Network for Dissemination of Agricultural Technologies and Agricultural Society of Kenya.

National Government

The Ministry of Agriculture, Livestock, Fisheries and Irrigation provides national policies, standards and norms for implementation in the county and capacity building.

The Ministry is also financing the Agriculture Sector Development Support Programme (ASDSP11), which is being implemented by the Sector; with counterpart funding of kshs 5.5 Million annually from the County government. The objective of the programme is to develop sustainable priority value chains for increased income and improved food and nutrition security.

3.8 URBAN RENEWAL, HOUSING& PROJECT MANAGEMENT

3.8.1 Sector mandate and organization

The sector mandate is as follows:

- County Housing policy guidance.
- Management of NCCG rental housing stocks as well as the physical environment, services and infrastructure therein by way of framework of institutional response.
- Housing provision especially affordable low cost housing solutions through appropriate
 partnerships, innovative strategies, smart programming and also giving recognition to the
 provisions under Article 43 of the Constitution concerning economic and social rights as
 pertains to access to adequate housing and proper sanitation.
- Provision of technical assistance to self-help housing construction initiatives by low-income communities and households to ensure enhanced housing quality, habitability and safety for families and provision of basic infrastructure & services.
- Informal/Slum settlements conversion & upgrading to transform to sustainable & resilient human settlements.
- Urban housing land banking.
- Urban Renewal and Regeneration Policy guidance.
- Undertake holistic and comprehensive urban renewal; to reverse and prevent urban degeneration at the local places; to deliver new urban housing, services & infrastructure;

- to revitalize, redevelop and regenerate declining/declined urban localities like old NCCG housing estates, dilapidated strategic public facilities and services,
- Mobilization of private sector, development partners, stakeholders and urban communities participation to enhance achievement of the County's shelter and urban renewal goals through collaborative, partnership and cooperative frameworks.
- Building Projects' design, preparation of documents for tendering, supervision, evaluation, certification and closure of projects.

Sector Organization

The Sector is comprised of two departments:

1. **Housing Department** – This has three Sections, Estate Management, Urban Renewal and Informal settlements.

(i) Estate Management Section:

- ➤ The mandate is to guide on County Housing Policy.
- ➤ Housing provision especially affordable low cost housing solutions through appropriate partnerships, innovative strategies, smart programming and also giving recognition to the provisions under Article 43 of the Constitution concerning economic and social rights as pertains to access to adequate housing and proper sanitation.
- Management of NCCG rental housing stocks as well as the physical environment, services and infrastructure therein by way of framework of institutional response.

(ii) Urban Renewal Section:

- ➤ Mandate- Urban Renewal and Regeneration Policy guidance.
- Mobilization of private sector, development partners, stakeholders and urban communities' participation to enhance achievement of the County's shelter and urban renewal goals through collaborative, partnership and cooperative frameworks.
- Urban housing land banking.
- ➤ Undertake holistic and comprehensive urban renewal; to reverse and prevent urban degeneration at the local places; to deliver new urban housing, services & infrastructure; to revitalize, redevelop and regenerate declining/declined urban

localities like old NCCG housing estates, dilapidated strategic public facilities and services, Mobilization of private sector, development partners, stakeholders and urban communities

(iii)Informal Settlements Section:

- Provision of technical assistance to self-help housing construction initiatives by low-income communities and households to ensure enhanced housing quality, habitability and safety for families and provision of basic infrastructure &services,
- > Informal/Slum settlements conversion & upgrading to transform to sustainable & resilient human settlements.

2. Building Services

➤ Building Projects' design, preparation of documents for tendering, supervision, evaluation, certification and closure of projects.

Note: The Sub Sector has however developed a proposed Organization structure that will have three Departments: Housing, Urban Renewal and Building Services department.

3.8.2 Sector response to County Vision and Mission

The Sector contributes to the achievement of the County's Vision and Mission by doing the following:-

- 1 Facilitate development of decent and affordable housing units within Nairobi City County in support of Agenda 4 plan on provision of affordable housing.
- 2 Increase access to decent and affordable housing to residents of Nairobi and County Government Staff
- 3 Improve security of tenure and living conditions in informal settlements
- 4 Improve habitability of County rental houses/estates
- 5 Enhance collection of rental revenue
- 6 Provide technical assistance in construction of modern County buildings
- 7 Stakeholder/public engagement

3.8.3 Review of Sector performance 2018/19 and projections for 2019/20

Summary of key achievements 2018/19

- ➤ The Procurement for Consultants for the replanning of 6 no. of Informal settlements for the KISIP Projects.
- ➤ Public Participation forums for the Pangani Estate and Eastlands Estate held.
- Sessional paper on Urban Renegration approved by the County Assembly.
- ➤ RFPs for Lot 1 and 2 were retendered in December 2018 and Evaluation done in February 2019.
- Renovation on going for three no. flats in Buruburu.
- > Reroofing and renovation of offices for the Project Management department completed.
- Draft Housing Policy done.

3.8.5 Strategic Matrix

For the FY2020/21, the sector priorities will be on the following development areas;

- Maintenance of 60 housing units in 5 County estates
- Construction of new housing units under urban renewal
- Establish a County Staff Housing Scheme
- Secure county land for housing development.
- Improvement of 6no. Informal settlements.
- Completion of a physical development plan for Mukuru Special Planning Area.
- Facilitate development of Social housing

3.8.7 Cross Sector/ Cross Cutting Issues

Cross Sector:

- ➤ The Urban Renewal, Housing and Project management Sub Sectorin collaboration with the Lands Sub Sector is working towards the acquisition of land documents.
- ➤ The Planning subsector approves the development plans for the Informal and Urban Renewal programmes.
- > The Environment, Water and Energy subsector will do the Environmental impact assessment reports for the development projects.
- ➤ The Legal department offers legal advice on Housing and Urban Renewal Land and contractual issues, in the Urban Renewal social infrastructure.
- > The Sub Sector Collaborates with other Sectors on Social infrastructure.

Cross cutting Issues:

- ➤ On Poverty eradication, housing will be provided for all social classes of people where social housing will cater for the low income category.
- > Special consideration will be given to persons with Disability, youth and two third gender rule applied in allocation and selling of houses.
- ➤ The Community particularly the Youth will be considered for job opportunities in the regeneration projects.
- ➤ Pertaining corruption, a Sectoral Corruption Prevention Committee will be operational; corruption prone areas identified, mitigative measures set and implementation modalities put in place.

3.9 COMMERCE, TOURISM AND CO-OPERATIVES

3.9.1 Sector mandate and organization

The Commerce, Tourism and Cooperatives (CTC) sector's mandate is to provide and implement the policy framework and enabling environment for County socio-economic growth and long term development as envisaged in the constitution of Kenya 2010 and Vision 2030.

Sector mandate

- To promote issuance, control and regulate business licensing
- To promote growth of trade, industrialization, local and international investment
- To promote growth and development of cooperative societies
- To regulate and control gaming, betting and lotteries activities
- To provide effective Legal Metrology and consumer protection

For efficiency in service the delivery the Sector is divided into 2 sub sectors namely;

1. Commerce, Trade and Industrialization Subsector: - The constituent departments are;

- Trade and Enterprise Development
- Markets services
- Trade Licensing
- Weights and Measures
- Betting and Gaming

In addition, this Sub-Sector has Alcoholic Drinks Control department that operates as a semiautonomous entity having drawn its mandate from Nairobi City County Alcoholic Drinks Control and Licensing Act 2014. The department is mandated to control all alcoholic drinks within the County.

2. Cooperative development, Tourism and culture development Sub-Sector:- The constituent departments are;

- Tourism Development
- Cooperative Development

- Cooperative Audit
- Culture development

For purposes of planning and budgeting, the departments were condensed into five main programmes with specific functions namely;

- 1. Administration, planning & support services
- 2. Trade Development and Market Services
- 3. Cooperative Development and Audit Services
- 4. Licensing, Gaming and betting services &Fair trade practices
- 5. Tourism and culture Development

3.9.2 Sector Response County Vision and Mission

Sector Vision

A globally competitive economy with sustainable and equitable socio-economic development

Sector Mission

To promote, integrate and implement socio- economic policies and programmes for a rapidly industrializing economy.

3.9.3 SECTOR ACHIEVEMENT FOR FY2018/19 and 2019/20

The information is provided in terms of projects implementation performances presented in the table below:

3.10.0 GOVERNORS OFFICE

3.10.1 ADMINISTRATION DEPARTMENT

3.10.1.1 Sector/ department mandate and organization

- > To ensure good governance, clean administration and a corruption-free county government
- > To provide and maintain quality physical infrastructure that is well maintained;
- ➤ To Coordinate & provide support services
- > To ensure sound financial management, stewardship and sustainability.
- ➤ To provide sustainable and affordable services and effective customer care.
- To promote good governance, public participation and rule of the law.
- > To ensure sound financial management, stewardship and sustainability;
- ➤To develop & implement proper management policies & procedures in support of good governance & prompt service delivery
- Ensuring prudence in the use of allocated funds
- ➤ Planning, coordinating and directing a broad range of services Support which includes, office allocation, fleet management, hospitality management, Record Management, Printing Services

Department organization

Administration Department is under the office of the County Secretary & headed by the Director Administration. The department forms part of the central management by ensuring coordination of administrative activities as well as optimum utilization of County resources. Additionally, the department handles administrative matters relating to the Governor and Deputy Governor Office as well as the personnel working in the two offices

Administration Department has various units responsible for different activities as outlined below:

Units in Administration

The Department has five units as outlined below:

- 1. Administration and support services.
- 2. Fleet management.
- 3. Records management.
- 4. Hospitality and office management
- 5. Printing services.

Administration and support services

- Supervision of staff, coordination, updating staff records, Staff Appraisal, management of resources and Provision of various support services
- ➤ Provision of efficiency in service delivery in the sector
- ➤ Implementing county strategic plan. County policies and constitution
- ➤ Office allocation and facilitation
- Overseeing maintenance and repair of office
- > Preparation of Budget and procurement plan for executive and Administration department
- > Ensuring prudence use of resources

Fleet management

- ➤ Coordination of fleet activities
- > Provision of logistics support in the county
- Oversee Repair and maintenance of County Fleet
- ➤ Plan for Acquisition and disposal of County vehicles
- Overseeing Fueling of county vehicles
- > Repair and maintenance of vehicles
- Ensure compliance with statutory fleet requirements such as insurance covers, legal requirements.

> Implementation of section K11 – code of regulations (2006) on Government Transport.

County Records

- > Putting in place procedures, policies, systems
- ➤ Budget for County Records management activities
- ➤ Plan for appropriate accommodation of records
- > Sensitize all members of staff on best practices in records management
- Provision of record management and record appraisal system
- ➤ Initiate disposal of records in line with the laid down procedures
- > Prepare maintain and review filing classification scheme.
- ➤ Plan and implement automated records management

Hospitality and office management

- ➤ Planning coordination of general cleanliness of offices in city hall and city hall annex
- ➤ Day to day cleanliness of offices in city hall and city hall annex
- > Offering hospitality services for various sectors committee meetings, courtesy calls
- ➤ Planning coordination of general cleanliness of offices in city hall and city hall annex
- > Day to day cleanliness of offices in city hall and city hall annex
- > Offering hospitality services for various sectors committee meetings, courtesy calls

County Printing

- ➤ Providing quality and economical printing and publishing of all county government documents
- > Carrying out research and development on printing standards
- > Promotes efficiency and high standard of printing services
- > Provides advisory services to County departments on matters pertaining to printing

3.10.1.2 Sectors Response to County Vision and mission

In response to the County Vision, Mission, the department undertook to carry out some projects in the last CIDP which included refurbishment of office e.g. offices of Director Communication in main city hall, Refurbishment of service Delivery unit offices in 8th floor City Hall Annex. In addition, the department also undertook to do the following:

- Rehabilitation of thirty-one (31 no.) vehicles& are in use.
- ➤ Repair& maintenance of washrooms in City hall

- ➤ Lighting of offices & Corridors in City hall
- ➤ Repair & maintenance of county vehicles
- > Fueling of county vehicles done in time
- ➤ Repair and maintain county vehicles as well having two Draft policies i.e. County Records and Fleet Management
- ➤ Refurbishment of service Delivery unit offices in 8th floor City Hall Annex.
- Successfully Coordinated various functions in the Department
- > Training of different cadre of staff
- Facilitated the Department with various goods & services
- > Provision of logistics support in the County

3.10.1.3 Summary of key achievement 2018/2019

Achievements

- Rehabilitation of thirty-one (31 no.) vehicles has been done & are in use
- ➤ Repair & maintenance of county vehicles
- > Fueling of county vehicles done in time
- ➤ Lighting of offices & Corridors in City hall
- ➤ Repair & maintenance of washrooms in City hall
- Refurbishment of office of office of Director Communication in main city hall.
- Refurbishment of service Delivery unit offices in 8th floor City Hall Annex.
- > Successfully Coordinated various functions in the Department
- > Training of different cadre of staff
- ➤ Facilitated the Department with various goods & services
- > Provision of logistics support in the county

3.10.1.7 CROSS CUTTING ISSUES

- ➤ Inadequate Budget provision making the department not able to meet all its set targets.
- > Slow Procurement process has been a major challenge
- Poor staff morale coupled with inadequate skills at critical levels is a major challenge for the county to address
- > Delay in getting approval for authority to spend.
- > Culture and attitude of external stake holders towards the County
- Lack of enough office space, working tools and protective gear are a major challenge
- > Inadequate appreciation and adoption of reform initiative
- ➤ Natural attrition most of our staff especially cleaners most are aged and retiring at a high rate which has affected service delivery

3.10.2 SECURITY & COMPLIANCE

3.10.2.1 Sector mandate and organization

Mandate

The Sector is mandated to enforce County Laws and other Act of parliament, providing Security Services (guarding) to County Properties and Installations, VIP protection, Investigate Crimes related to the County and participation in National Parades. The Sector has devolved its operations and services to the 17 Sub-Counties in Nairobi. The Sector currently has a workforce of about 1896 staff that serves a population of about 6 million.

Organization of sector delivery units

1. Inspectorate - 1848 No. of staff

11 Investigation - 48 No. of staff

3.10.2.2 Sector response to county

VISION:

To be a leading security compliance Sector in enforcing and providing security services to the public.

MISSION

To provide safety and security services by investigating and prosecuting crimes related to the county government of Nairobi.

3.10.2.3 Review of sector performance 2018/19 and projection for 2019/20

Absorption rate for capital budget in the financial year 2018/19 was zero together with the Development Index. In FY2019/20 we have rolled over the capital project hoping it will be 80% absorption rate.

3.10.2.5 Strategic Matrix

Sector priorities for FY2020/21

- Put in place strong enforcement mechanisms to enhance compliance in terms of:-
 - 1. Traffic Control

- 2. Control of Hawking activities
- 3. Control of Bodaboda activities within CBD
- 4. Enhance revenue collections
- Increase stakeholders' engagement both internal and external.
- Working all the procurements preliminaries in the first quarter.

3.10.2.7 CROSS SECTOR /CROSS CUTTING ISSUES

- 1. Recruitment.
- 2. Training and development.
- 3. Procure motor vehicles and motor bikes.
- 4. Devolved Services.
- 5. Construction of sub county offices.

3.10.3 LEGAL DEPARTMENT

3.10.3 Sector/Department Mandate and Organization

- Established under the County Attorneys Act, the Department is mandated to;
- Represent the county in court or in any other legal proceedings to which the
 County Executive is a party, other than criminal proceedings;
- Advise county government departments on legislative and other legal matters;
- Liaise with the Office of the Attorney-General when need arises;
- Rectification of mistakes in legislation through a rectification order published in the Kenya Gazette or County Gazette which shall thereafter be tabled in the County Assembly in accordance with the provisions of the law in place for management of Statutory Instruments;

- Perform any other function as may be necessary for the effective discharge of the duties and the exercise of the powers of the County Attorney;
- Perform prosecutorial functions in cases involving violation of Acts of the County Assembly of Nairobi City;
- Publish all legislation passed by the Nairobi City County Assembly

3.10.3.2 Sector Response to County Vision and Mission

VISION

To become the best Legal service provider in the Country.

MISSION

To provide quality legal advice and services to the County Government sectors and agencies that will ensure that all the legal requirements as pertaining the operations of the County are observed and adhered to. The office of the County Attorney will do the following in response to County Vision and Mission.

Provide the necessary legal framework, legal advice and guidance for implementation of County Projects and programmes in the following areas.

- Governance structure
- Intergovernmental planning and coordination
- Risk Management.
- Stakeholders participation
- Corruption prevention
- Policies and County Acts
- Communication (Internal and External)

3.10.3.3 Sector Performance 2018/2019 and Projection for 2019/2020

Summary of the key achievement 2018/2019

- ➤ Drafted amendments recommended on the County Attorney's Act 2016.
- ➤ Held a successful retreat on amendments of:-

- a) the County Attorneys Act 2016
- b) Legal fees policy
- c) Flags & Emblems Act & proposed amendments
- d) Public Nuisance Bill with the committee on Legal affairs & Select committee on legislative drafting.
- ➤ Drafted regulations on Office of the County Attorney's Act 2016, Inspectorate Service Act, Flags & Emblem Act (all are still on-going).
- ➤ The County Attorney's office gave advisory services on the following:
 - a) Betting lottery & gaming Act.
 - b) Dog control & welfare Act.
 - c) Transport Bill 2019.
 - d) Amendment on county Liquor & Licensing Act.
 - e) Water Act, water policy & water Act regulations.
 - f) Nairobi County Public road transport & traffic Management bill 2018.
 - g) Operationalization of city county Acts.
 - h) Trade & licensing Bill 2018.
 - i) Finance Bill 2019.
- ➤ The County Attorney's office assisted in publishing the Trade & licensing Bill 2018 & the Finance Bill 2019
- Met the target in prosecuting registered criminal cases.
- ➤ Met the target in defending registered civil cases.
- ➤ 17,025 No. cases were Registered and Prosecuted
- ➤ Drafted two number proposed policies; Office of the County Attorney & the Inspectorate Training School (NB: process on going on research)
- > Drafted proposed amendments on the Public Nuisance Bill (NB: process still on-going)
- ➤ Drafted regulations on Office of the County Attorney's Act 2016, Inspectorate Service Act, Flags & Emblem Act (NB: all are still on-going).
- > Prepared standing orders for the Inspectorate service. (NB: process still on-going)
- ➤ Conducted 30 No. meeting
- ➤ 31 No. youth Interns were attached to the department

➤ 340No. Civil Cases were registered and defended either against or in favour of the County

3.10.3. 5 STRATEGIC MATRIX

During the financial year 2020/21, the sector will embark in the implementation of the following sector priorities;

- Procurement of legal case file management system
- Maintain proper record management
- Draft various legal policies
- Recruitment of legal counsels
- Provide a functioning library

3.10.5 INTERNAL AUDIT & RISK MANAGEMENT

3.10.5.1 Departments mandate and Organization

Department's Mandate

The Internal Audit Department derives its mandate from Chapter twelve of Kenya Constitution of 2010 on Public Finance, legislation of the Public Finance Management Act, 2012 that requires

the County Government entity to maintain internal auditing arrangements as stipulated on clause 155 and Public Finance Management (county Government) Regulation, 2015. Which includes:

- i) Review and evaluate budgetary performance, financial management, transparency and accountability mechanisms and processes in county government entities.
- ii) Give reasonable assurance through the audit committee on the state of risk management, control and governance within the organization.
- iii) Review the effectiveness of the financial and non-financial performance management systems of the entities.

Organization of Sector Delivery Units

The sector lies within the Governors' office. The Department reports administratively to the County Secretary but technically to the Audit Committee.

The department is divided into four sections namely:

- (i) Risk management and quality assurance
- (ii) Finance and operations
- (iii) Systems audit
- (iv) Administration

3.10.5.2 Department's Response to County Vision and Mission

The department has developed its vision and mission through which will enable the county achieve its goals as per the County vision and mission statement. In financial year 2020/21, the department will respond to county vision and mission by doing the following;

- i) Institutionalizing risk based audit.
- ii) Enhancing compliance within legal and regulatory frame work.
- iii) Strengthening the internal controls system.
- iv) Offering value for money audit.
- v) Advising the management on proper use of public finds.

3.10.5.3 Review of Departments Performance 2018/2019 and Projection for 2019/2020

The department surpassed its annual target of 20 reports by one report (5%).

Summary of the Department Achievements in FY 2018/19

The department produced 21 audit reports out of a target of 20 reports as analyzed below:

- 1. Audit Report on Vocational Training Canters Ref: Aud/5/2/164 Dated 17th July 2018.
- 2. Report on Mutuini Hospital Ref: Aud/5/2/175 Dated 18th July 2018.
- 3. Financial Operations for Pumwani Hospital Ref: Aud/5/2/174 Date 18th July 2018.
- 4. Report on Financial Operations at Mbagathi Hospital Ref: Aud/5/2/172 Dated 18th July 2018.
- 5. Audit Report on Single Business Permit Ref: Aud/5/2/172 Dated 14th August 2018.
- 6. Special Audit Report on Outsourced Laboratory Services For Food Handlers Medical Certification. Ref: Aud/5/3/217 Date 20th August 2018.
- 7. Audit Report on Nairobi County Public Service Board Ref: Aud/5/3/219 Dated 20th August 2018.
- 8. Audit Report on Surrender Of Imprest and Payment Vouchers Raised For Assumption of Office of The Governor.
- 9. Summary Of Audit Queries Regarding Jambo Pay System Highlighted In Various Audit Reports Ref: Aud/5/2/225 Dated 24th August 2018.
- 10. Special Audit Report on 1000 Phones Supplied To The County Ref: Aud/5/2/220 Dated 27th August 2018.
- 11. Preliminary Review of Bursary Payment Report Ref Aud/3/18/226 Dated 27th August 2018.
- 12. Advisory on the Impending Expiry of the Contract between Nairobi City County and Webtribe and the Urgent Need for Procurement of an ERP (Enterprise Resource Planning Ref: Aud/1/22/267 Dated 5th October 2018.
- 13. Audit Report on Systems and Operations in ICT and E-Government Sectors Ref: Aud/5/2/293 Dated 24th October 2018.
- 14. Audit of Nairobi City County Liquor Board Ref: Aud/5/2/300 Dated 30th October 2018.
- 15. Audit Report on Market Operations Ref: Aud/5/2/319 Dated 8th November 2018

- 16. Audit Report on Systems, Financial and Economic Sector For FY 2017/2018
- 17. Investigation Report On Fraudulent Transaction Vide Jambo Pay System Ref Aud/5/2/332 Dated 29th November 2018.
- 18. Audit Report on Procurement and Distribution of Medical Supplies Ref: Aud/5/2/334 Dated 11th December 2018.
- 19. Audit Report on System and Financial Operations Of Family Welfare Section Within The Education, Gender, Culture And Social Services Ref Aud/5/2/338 Dated 11th December 2018.
- 20. Pending Issues On Jambo Pay System Ref: Aud/3/17/380 Dated 18th February 2019
- 21. Special Audit Report On Nairobi City County Bursary Disbursement For The Year 2017/2018.

3.10.5.5 Strategic Matrix

The priorities for the department in the FY2020/21 will be;

- i. Sensitizing county staff on risk management practices.
- ii. Automation of audit process through procurement of Audit Software to enhance efficiency in production of audit report.
- iii. Procure a motor vehicle to enhance mobility during field work assignments

3.10.5.6 Budget Summary

Table 3.50: Estimated budget

Programme	Sub-Programme	Estimated Cost (Kshs)		
Audit Services	Audit Services	135Million		

3.10.5.7 Cross Sector/Cross Cutting Issues

The following cross cutting issues need to be addressed in order to ensure smooth operation of the department and improve on the development budget absorption rate.

- i. Slow procurement process.
- ii. Insufficient fund to finance the budget.
- iii. Lack of payment policy by the County.

3.10.6 DISASTER MANAGEMENT AND COORDINATION

3.10.6.1 Sector Mandate and Organization

Sector Mandate

The Sector is mandated to carry out disaster risk reduction strategies, firefighting, rescue operations, training, fire Investigation and emergency ambulance services.

Organization of Sector Delivery Units

The sector has three departments i.e.

- Disaster risk management
- Firefighting and rescue services
- Emergency Ambulance service.

3.10.6.2 Sector Response to County Vision

The sector will respond to county vision and mission through provision of Disaster Risk Management Services and protection of lives and properties.

3.10.6.3 Strategic Matrix

The strategic priorities for 2020/21

- Enforce building regulations
- Prevent floods
- Reduce fire incidents occurrence
- Devolve relief to ward level
- Purchase of firefighting equipment's and fire engines

	Fire rescue	291,000,000
	Emergency Ambulance	39,000,000.00

3.11 WARD DEVELOPMENT PROGRAMME (WDP)

3.11.1 Mandate

The Ward Development Programme implements specific, targeted and unique projects in all 85 wards in Nairobi City County taking into considerations diversified needs. This sector promotes citizenry participation in decision making in line with the Public Finance Management Act, 2012.

3.11.2 WDP Response to County Vision and Mission

In response to county vision and mission, the ward development programme will focus on providing quality development infrastructure that is equitable, sustainable and environmentally friendly to residents of Nairobi City County as well as ensuring efficient and effective management of development funds in Nairobi City County.

3.11.6 Budget Summary

Table 3.54: Estimated budget

Programme	Sub-Programme	Estimated Cost
P1.WDP Secretariat	SP1: WDP Secretariat	41,250,000
P2. Ward Development Programme	SP1.Ward Development projects	1,434,400,000
TOTAL		1,475,650,000

3.11.7 Cross Sector/ Cross Cutting Issue

- Frequent issuance of circular by COB concerning the act.
- Stalling of project due to lack of capacity of contractor awarded the project and nonpayments of projects.
- Shortage of adequate personnel specifically engineers, QSS, Architects.
- Political interference/lack of political goodwill both at county and national government.
- Bureaucracy -this is from the identification point of view, i.e. procurement process, payment process.
- Delay in payments of projects.

13.12 EDUCATION, SPORTS, CULTURE, YOUTH, GENDER AND SOCIAL SERVICES

3.10.1 Sector mandate and organization

The following is a list of the sector mandates:

- i) To provide access to Quality Early Childhood Development and Education (ECDE)
- ii) To improve transition and retention rate of needy and vulnerable students in Basic Education, Vocational Training and ECDE Teacher Training programs
- iii) To empower Youth through Quality Training in the County
- iv) Transfer technology continuously between TVET and Industry
- v) To provide Social Protection Services to Street families and other vulnerable persons/ Groups.
- vi) To rehabilitate and Integrate Vulnerable Groups and Street families.
- vii) To provide opportunities for Economic Participation for the Youth, Women and Persons with Disability (PWDs).
- viii) To promote a Reading Culture, Sports and Talents Development.
- ix) To provide Quality Sports Infrastructure
- x) To promote Gender & Disability Mainstreaming in County plans and programmes

3.12.2 Sector response to County Vision and Mission

To respond to county vision and mission, the sector will direct its resources in the provision of free ECDE and bursaries to the needy children, empowerment of youth through quality training, talent development and sport activities, provision of economic opportunities to the youth, women and PWDs and managing of street families.

3.12.3 Review of sector performance 2018/19 and projections for 2019/20

In the Fiscal year 2018/2019, the sector in cognizance with its mandates played crucial key roles towards service delivery as highlighted here below;

Programme 1 – Youth Promotion and Empowerment

- 450 No. of youth provided with opportunities for economic participation in line with the affirmative action framework of AGPO,
- 190 No. of youths trained on ICT & accessing online services and another 120 No. trained on basic computer skills as part of the training on Reach Up supported by DOT Kenya,
- 500 No. of interventions carried out on prevention of alcohol /drug abuse & HIV-AIDS awareness campaigns
- 200 No. of youth self-help groups and youth CBOs added into the database
- 228No. young people trained on entrepreneurship skills and awarded certificates.
- 253No. young people were trained Employability skills.
- 950No. young people were sensitized on Reproductive Health and 65 boxes of condoms distributed to Kenya School of law.
- Over 1,300 young people mobilized to participate in the environment activities.
- 125 No. of youth talents identified & nurtured
- 2 No. of youth recreational festival & tournaments organized
- 1 No. of Exchange programes on performing art organized
- 4 No. of leadership skills training and mentorship programs undertaken

Programme 2-Family and Social Welfare Services

- 50 Number of aged persons under care
- 1,321 No. of clients provided with psychosocial support
- 50 No. of vulnerable persons trained on economic empowerment.
- 843No. of Children rescued from difficult circumstances

- 611No. of Children undergoing rehabilitation & accessing school
- 543No. of Children re-socialized, reintegrated and placed.
- Construction of rehabilitation centre in Ruai contractor on site and work going on at 40%

Programme 3-Library and Information Services

- Stocktaking of 6,565No. of library materials at Kaloleni and 19,462 No at Eastlands branch(total 26,027)
- 5 No. of promotion programs introduced
- 4 No. awareness campaigns held reaching out to 1,000 library users
- Renovation of 3 number library in progress
- 1 No. staff toilet renovated at Eastlands branch

Programme 4:Development and Promotion of Sports

- 32 No. of community teams equipped with sports equipment's (Kits)
- 2 No. of teams sponsored by the county
- 1 No. of academies established
- 235 No. staff members participated in intercountry games
- Construction of 4No. Stadia on going with Dandora at 90% complete (Boundary wall, Mast flood light poles and Terrace bases, completed. Super structure - Terraces shade Electrical & Mechanical work in progress)
- Contracts awarded for the Construction of new stadia at Woodley and the rehabilitation of City stadium but contractors yet to take site possession

Programme 5: Gender and Community Development/ Empowerment

- A Gender Mainstreaming Strategy developed at 70%
- 64 No. of community members trained & empowered
- 388 No. of community projects monitored & supported
- 11 No. of community conversation (stakeholder's forum) done
- 2 No of community exhibition organized
 - 84 No. of people sensitized on PWDs issues

Programme 6: Technical and Vocational Training

- 1300 No. of students trained & graduates in different courses
- 44 No. of trainees participated in co-curricular activities
- a) Improve the learning Environment at Vocational Training Centre (VTC)

- Advertisement done for Highrise VTC and waiting award
- Works ongoing at Old Mathari VTC with electrical installation done while repairs & painting works pending
- Advertisement for the Rehabilitation of WaithakaVTC done
- Construction of perimeter wall at WaithakaVTC contract awarded but Contractor yet to take site possession

Programme 7: Bursaries / Scholarships

- 60,721 No. of students awarded bursaries

Programme 8: Early Childhood Development Education

- 60 No. of teachers & Schools assessed
- 50 No. of BOMs trained on corporate management
- 17,000 No. of children under feeding program
- 17,000 No. of children provided with didactic and equipment's
- 60 No. of children trained and participated in co-curricular activities
- For the Construction of 12No. new ECDE centres and perimeter walls tender for 1 centre awarded, BQ done for other 11 centres and advertised
- BQs ready for the rehabilitation of 10 No. existing E.C.D.E centers

3.12 Strategic Matrix

For the year 2020/21 the sector priorities will be;

- Providing Capacity Building and Life Skills to enable the youth participate in development processes
- Promote Gender responsive programs in the county and increased awareness on plight of persons with disabilities
- Promoting Recreational and leisure activities to enhance cohesion and harness the diversity of people's values within different youth groups and improve the state of recreation facilities
- Nurturing talents by providing a platform to the youths to show case their talents and improve the state of Sports facilities
- Increase the number of school enrollments by awarding needy pupils with bursaries

- Provide and promote social protection and care
- Provide and promote social protection and care
- Provide and promote Early Childhood Development and Education

CHAPTER FOUR: IMPLEMENTATION, MONITORING, EVALUATION AND REPORTING

4.0 Introduction

This chapter highlights important aspects in project planning and management that predicate successful implementation of planned programmes. It also presents the model for tracking and reporting results of implementation. The objective of this chapter is to ensure that the government optimizes on available resources, personnel and time to deliver timely high quality projects that meet the needs of targeted beneficiaries.

4.1 Project Identification

Public investment is a key policy instrument that the county government intends to deploy in pursuing the County's overall development goals and strategies. It is therefore important that identified projects should fit into the overall development strategy, within the limited resources that are available. The principal reference point for selection of candidate projects for funding is the County Integrated Development Plan which represents the consensus of County priorities arrived at through multi-stakeholder engagement.

Identified projects should be clear and specific in terms of scope, inputs required, technology required, target beneficiaries, duration and how the project will be financed. Specifically, capital intensive projects should be subjected to a more rigorous financial and economic appraisal before a decision to invest in the project is taken. This will include assessing each of the following modules:

4.1.1 Demand Module

Target beneficiaries need to be identified, the specific investment outputs and how the benefits are likely to be shared. The values of outputs of an investment in the market or the opportunity cost of such a venture should be well documented. Due consideration must be made for alternative strategies for meeting the identified demand. This module will largely rely on secondary data, but may also involve a consultative process with potential beneficiaries.

4.1.2 Technical module

Project implementers must make conscious choices for technology to be applied in executing identified projects. A detailed examination of technical feasibility of the project's investment and operating plans, alternative project scales, location, and timing of the project's implementation is a key determinant of the success of any project.

Technological uncertainties should be identified and adequate migratory measures put in place.

4.1.3 Project Financing

Over-reliance on County budget financing has continued to be a major bottleneck in realization of annual development targets. It is important to leverage on other existing financing instruments and opportunities to deal with observed financing gap. Projects that require counterpart funding should be carefully planned so as to meet thresholds for partnerships. The External Resources Unit should be involved in a well-structured scheme in order to tap potential opportunities for funding at early stages of project conceptualization. Deliberate efforts should be made by relevant sectors to develop bankable proposals to exploit opportunities for partnership or third party financing.

4.2 Project Appraisal

It is important for public investment programmes to borrow a leaf from business investment decision making models given the limited nature of investment resources and the common desire to maximize on returns in both cases. This phase of the project is important as it is expected to yield information and analysis on a range of issues associated with the decision making on the project. Three aspects are key at this stage:

The administrative feasibility of project implementation must be fairly assessed, and the technical appraisal of the project must be provided in order to evaluate its feasibility. This will include contemplating the management structure of a particular project, the reporting lines and the decision making criteria during implementation.

The financial capability of the project to survive the planned duration of its life, it requires to be measured and understood. Resources must be made available to the project when they are

required. Return on investment in a project where tradable outputs may be realized or quantifiable economic benefits should be the minimum criteria for taking a given investment choice.

For certain classes of investment portfolios, the expected economic contribution to the growth of County revenue and general growth of the economy must be measured based on the principles of applied welfare economics, and a series of assumptions used to undertake this appraisal. A demonstration on how a given investment choice contributes to the attainment of set County development objectives, along with an analysis to determine whether the project is cost-effective in meeting these objectives.

4.3 Project costing

Costing of projects must be undertaken diligently based on expert guidance or actual measurement of inputs such as materials, labour and land. In cases where a project will take a long time, impacts of inflation on project cost must be contemplated and professionally taken care of.

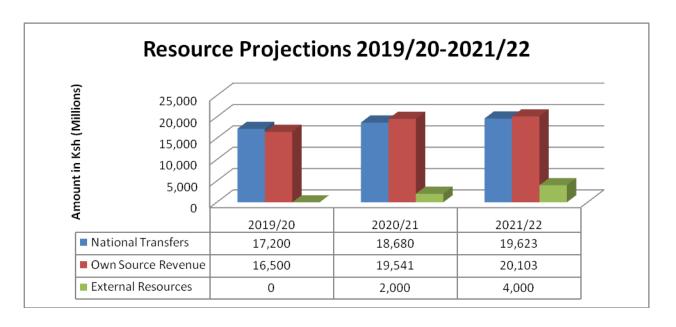

4.4 Project Financing

The County Government will rely on three principal funding sources for financing the plan. These include; Exchequer releases from the National sharable revenue, County's own source revenues and external resources in form of grants and private sector investments in public goods and services.

Fig....Projected County Revenue resources in the Medium Term

Financing of Planned programmes will rely on the success of the County's Own source revenue mobilization strategy largely driven by implementation of the new valuation roll, a more inclusive business licensing regime, an efficient parking fee collection platform and advertising fees.

Harnessing the investment climate for private sector investment in Health, Housing, infrastructure, Water & sanitation will form a new frontier for mobilizing external resources to supplement the county's capital financing plan.

4.4 Project Implementation

This section provides minimum guiding principles that shall guide County departments and entities in program formulation, implementation, tracking results and reporting.

4.4.1 Project management

With the right amount of planning, implementing and monitoring the opportunity to complete a project on time, on budget and with high quality results is highly enhanced, instead of ending up with a project that doesn't fully meet all the KPIs (Key Performance Indicators).

There are so many reasons why a project might fail – setting up unrealistic expectations, poor methodology and requirements, inadequate resources, poor project management, untrained team members and so on. However, these things can be avoided by adopting effective practices and project management techniques which will help to establish a clear understanding of expectations and processes among all the people on board.

4.4.2 Develop a clear Project Scope

The project scope is the priority deliverable from the planning process and it describes all the aspects of the project. While placing a premium on adaptable planning as we move on with a project, we recognize the potential hazards associated with starting a project without a clear vision. This will certainly lead to avoidable difficulties.

4.4.3 Place the project milestones on a time metric

The entire catalogue of project activities and milestones should be put on a timeline, preferably a visual one. This will offer management with a bird's eye view of the entire project and resources. This can keep management, stakeholders and the project team grounded and focused on delivering results by realistic schedules.

4.4.4 Monitor the metrics (Time, Cost, and Quality)

Once the project has been planned accordingly to its scope and goals, the implementation phase can begin. In theory, since you have already agreed on your project scope and you have a basic backup plan if something doesn't work, the only thing remaining is to implement your plan and processes efficiently. As a manager, there are a few things you should keep an eye on.

Check the project timeline on a regular basis in order to determine how your team is progressing.

Keep timelines updated and ensure that you and your team are still focused on the plan. Determine whether the project will be completed within the original effort, cost, and duration estimates. If the situation has changed, you should determine the critical path for continuing and look for ways to accelerate the activities to get you back on track.

Monitor your resources. You should look at the amount of money and time your project has actually consumed and determine whether you have spent more than you have originally estimated, based on the work that has been completed. If so, be proactive, and take smart business decisions that could potentially make the project more effective.

4.4.5 Keeping an eye on the quality

Getting a project done on time and under budget is not enough. You need to make sure that you deliver a quality product on top of everything else. Quality means making sure that what a project yields meets quality specifications set out in the plan with a high degree of efficiency. And that means trying not to make too many mistakes and always keeping the project on track to deliver the expected results.

4.5 **Project Monitoring**

Like other County Governments, the City County of Nairobi (NCC) is being challenged by its residents and stakeholders to demonstrate development results through improved service delivery. These demands for development results are couched in calls for accountability on the political promises made nationally and at the County level. The M&E Framework therefore provides a platform for responding to these pressures to demonstrate to Nairobians tangible development outcomes.

4.5.1 Rationale for Monitoring Projects

- i. That through M&E, the County Government will be able to assess the extent to which its investments in policies, projects and programmes have led to the achievement of the desired results and outcomes
- ii. That through M&E, the County Government will know whether it is on track in achieving its development objectives, the problems being encountered and offer corrective remedies to stay the course
- iii. That through M&E, the County Government will be in a position to measure its progress quarterly, annually, mid-term and at the end of the year. This way, the County leadership and its citizens will be able to tell whether the County programmes were successful in delivering the desired change or not.

4.5.2 Measurement & Reporting Results

Results for public investment programmes will be measured against pre-stated yardsticks called Key Performance Indicators. The range of indicators will oscillate between output, outcome and impact level. Process indicators are important only for operational reporting but will not be the focus of measurement and reporting under this plan.

4.6 Sectoral Project Planning & Monitoring Units (SSPMUs)

It is important for each sector to establish and operationalize a unit charged with planning, policy review and monitoring ongoing programmes to provide timely information for management to take remedial action for better results.

4.7 Periodicity of Measurement & Reporting

Monitoring reports will be compiled and submitted on a monthly, quarterly and annual basis by the respective SSPMU to the Department of Economic Planning for verification, analysis and reporting.
