1.3 Submission of the County Integrated Development Plan 2018-2022

The budget process is a cycle with various stages as depicted in Section 126(1) of the Public Finance Management Act 2012 (PFMA 2012) which commences with the integrated development planning process which shall include both long term and medium term planning i.e. The County Integrated Development Plan (CIDP).

The CIDP 2018-2022 is a five year plan which details clear goals and objectives, an implementation plan with clear outcomes, provisions for monitoring and evaluation and clear reporting mechanisms as per the Section 108(1) of the County Governments Act, 2012 (CGA 2012).

The CIDP 2018-2022 was submitted to the office of the Clerk on Tuesday the 26th of June 2018 for purposes of the County Assembly's approval by virtue of the its mandate vested upon it by Article 185(4) of the Constitution of Kenya, 2010 (CoK, 2010) to approve plans and policies for the management and exploitation of the county's resources and the development and management of its infrastructure and institutions.

1.4 Committal to the Committee on Budget and Appropriations

The Honorable Speaker committed the CIDP 2018-2022 to the Committee on Budget and Appropriations on Tuesday the 26th day of June 2018 for consideration and subsequent reporting to the County Assembly.

1.5 Committee Meetings

The Committee began its deliberations on the CIDP 2018-2022 on Tuesday the 26th day May 2018 all through to the culmination of this Report.

1.6 Public Participation

The Committee facilitated public hearings on the CIDP 2018-2022 in all the eight sub-counties in line with the provision of Articles 10(2)(a), 174(c), 196(1) and 201(a) of the CoK 2010; Sections 104(4) and 115(1) of the CGA 2012 and Section 125(2) of the PFMA 2012.

1.7 Consultations with Spending Units and respective County Assembly Sectoral Committees

The Committee undertook consultations with each spending unit County Executive Committee Member (CECM) and the respective County Assembly Sectoral Committee on the various aspects of the CIDP 2018-2022.

1.8 Consultations with the County Executive Committee Member for Finance, Economic Planning and Service Delivery

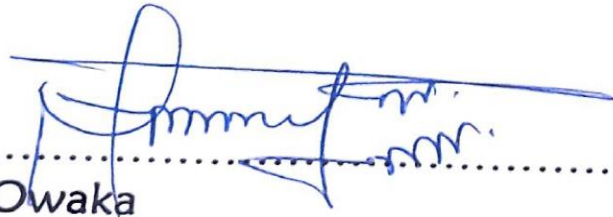

The views of the CECM responsible for Finance, Economic Planning and Service Delivery were taken into account prior to the Committee finalizing the recommendations to County Assembly.

1.9 Acknowledgement

May I take this opportunity to thank all Members of the Budget and Appropriations Committee for their input and valuable contributions during the deliberations. The Committee also takes this opportunity to thank the Offices of the Speaker and the Clerk to the County Assembly of Homa Bay for the logistical support accorded to it during the exercise. We are also appreciative of the *secretariat* attached to this committee for their effectiveness and efficiency throughout the report writing process and preparation of this report.

On behalf of the Committee on Budget and Appropriations pursuant to the provisions of Article 185(4) of the Constitution of Kenya 2010, and Section 108 of the County Governments Act, it is my pleasure and duty to present to the County Assembly, the Committee's Report on the Homa Bay County Integrated Development Plan 2018-2022.

Thank you.

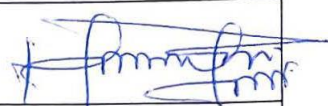

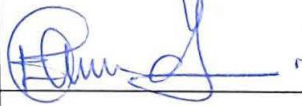

Signed
Hon. Nicholas Owaka

2.0 BACKGROUND

2.1 Underpinning Legal Framework for the County Integrated Development Plan 2018-2022

2.1.1 The County Governments Act, 2012

(a) Section 102 provides for the principles of planning and development facilitation. It states;

“102. The principles of planning and development facilitation in a county shall—

- (a) integrate national values in all processes and concepts;
- (b) protect the right to self-fulfillment within the county communities and with responsibility to future generations;
- (c) protect and integrate rights and interest of minorities and marginalized groups and communities;
- (d) protect and develop natural resources in a manner that aligns national and county governments policies;
- (e) align county financial and institutional resources to agreed policy objectives and programmes;
- (f) engender effective resource mobilization for sustainable development;
- (g) promote the pursuit of equity in resource allocation within the county;
- (h) provide a platform for unifying planning, budgeting, financing, programme implementation and performance review; and
- (i) serve as a basis for engagement between county government and the citizenry, other stakeholders and interest groups”

(b) Section 103 provides for the objectives of County Planning. It states;

“103. The objectives of county planning shall be to—

- (a) ensure harmony between national, county and sub-county spatial planning requirements;
- (b) facilitate the development of a well-balanced system of settlements and ensure productive use of scarce land, water and other resources for economic, social, ecological and other functions across a county;
- (c) maintain a viable system of green and open spaces for a functioning eco-system;
- (d) harmonize the development of county communication system, infrastructure and related services;
- (e) develop urban and rural areas as integrated areas of economic and social activity;
- (f) provide the preconditions for integrating under-developed and marginalized areas to bring them to the level generally enjoyed by the rest of the county;
- (g) protect the historical and cultural heritage, artefacts and sites within the county; and
- (h) make reservations for public security and other critical national infrastructure and other utilities and services;
- (i) work towards the achievement and maintenance of a tree cover of at least ten per cent of the land area of Kenya as provided in Article 69 of the Constitution; and
- (j) develop the human resource capacity of the county”

(c) Section 104 provides for the Obligations to plan by the County. It states;

“104.

- (1) A county government shall plan for the county and no public funds shall be appropriated outside a planning framework developed by the county executive committee and approved by the county assembly.
- (2) The county planning framework shall integrate economic, physical, social, environmental and spatial planning.
- (3) The county government shall designate county departments, cities and urban areas, sub-counties and Wards as planning authorities of the county.
- (4) To promote public participation, non-state actors shall be incorporated in the planning processes by all authorities.
- (5) County plans shall be binding on all sub-county units for developmental activities within a County.”

(d) Section 105 provides for the Planning for the County. It states;

“105. (1) A county planning unit shall be responsible for—

- (a) coordinating integrated development planning within the county;
- (b) ensuring integrated planning within the county;
- (c) ensuring linkages between county plans and the national planning framework; and
- (d) ensuring meaningful engagement of citizens in the planning process;
- (e) ensuring the collection, collation, storage and updating of data and information suitable for the planning process; and
- (f) ensuring the establishment of a GIS based database system

(e)Section 108 provides for the County Integrated Development Plan. It states;

“108. (1) There shall be a five year county integrated development plan for each county which shall have—

- (a)clear goals and objectives;
- (b)an implementation plan with clear outcomes;
- (c)provisions for monitoring and evaluation; and
- (d)clear reporting mechanisms.

(2)Each county integrated development plan shall at least identify—

(a)the institutional framework, which shall include an organization chart, required for—

(i) the implementation of the integrated development plan; and

(ii) addressing the county’s internal transformation needs;

(b) as informed by the strategies and programmes set out in the plan—

(i) any investment initiatives in the county;

(ii) any development initiatives in the county, including infrastructure, physical, social, economic and institutional development;

(iii) all known projects, plans and programs to be implemented within the county by any organ of state; and

(iv) the key performance indicators set by the county.

(3) An integrated development plan shall—

(a) have attached to it maps, statistics and other appropriate documents;

(b) refer to maps, statistics and other appropriate documents that are not attached but held in a GIS based database system:

Provided that the plans under paragraphs (a) and (b) are open for public inspection at the offices of the county in question.

(4) A resource mobilization and management framework shall be reflected in a county's integrated development plan and shall at least—

(a) include the budget projection required under the law governing county government financial management;

(b) indicate the financial resources that are available for capital project developments and operational expenditure; and

(c) include a financial strategy that defines sound financial management and expenditure control: as well as ways and means of increasing revenues and external funding for the county and its development priorities and objectives, which strategy may address the following—

(i) revenue raising strategies;

(ii) asset management strategies;

(iii) financial management strategies;

(v) capital financing strategies;

(vi) operational financing strategies; and

(vii) strategies that would enhance cost-effectiveness”

(f) Section 113 provides for the giving effect to the CIDP

“113. (1) A county's integrated development plan shall—

(a) inform the county's budget which shall be based on the annual development priorities and objectives referred to in section 103 of this Act and the performance targets set by the county; and

(b) be used to prepare action plans for the implementation of strategies identified by the county.

(2) Each county integrated development plan shall provide clear input, output and outcome performance indicators, including—

(a) the percentage of households with access to basic services contemplated under Article 43 of the Bill of Rights of the Constitution;

(b) the percentage of a county's capital budget actually spent on capital projects identified for a particular financial year in terms of the county's integrated development plan;

(c) the number of jobs created through any local economic development initiatives including capital projects; and

(d) financial viability of the integrated development plan in accordance with nationally applicable ratios.

(3) Notwithstanding the provisions of subsection (2), the performance management system shall conform to nationally applicable guidelines on the matter.”

2.1.2 The Public Finance Management Act, 2012

(a) Section 125(1) provides for the Stages in county government budget process

“125. (1) The budget process for county governments in any financial year shall consist of the following stages—

(a) integrated development planning process which shall include both long term and medium term planning;

(b) planning and establishing financial and economic priorities for the county over the medium term;

(c) making an overall estimation of the county government's revenues and expenditures;

(d) adoption of County Fiscal Strategy Paper;

(e) preparing budget estimates for the county government and submitting estimates to the county assembly;

(f) approving of the estimates by the county assembly;

(g) enacting an appropriation law and any other laws required to implement the county government's budget;

(h) implementing the county government's budget; and

(i) accounting for, and evaluating, the county government's budgeted revenues and expenditures.”

3.0 COMMITTEE'S GENERAL OBSERVATIONS

3.1 Content of the County Integrated Development Plan

The CIDP ought to contain at least the institutional framework, which shall include an organization chart, required for—

(i) the implementation of the integrated development plan; and

(ii) addressing the county's internal transformation needs;

(b) as informed by the strategies and programmes set out in the plan—

(i) any investment initiatives in the county;

(ii) any development initiatives in the county, including infrastructure, physical, social, economic and institutional development;

(iii) all known projects, plans and programs to be implemented within the county by any organ of state; and

(iv) the key performance indicators set by the county.

(3) An integrated development plan shall—

(a) have attached to it maps, statistics and other appropriate documents;

(b) refer to maps, statistics and other appropriate documents that are not attached but held in a GIS based database system:

Provided that the plans under paragraphs (a) and (b) are open for public inspection at the offices of the county in question.

(4) A resource mobilization and management framework shall be reflected in a county's integrated development plan and shall at least—

- (a) include the budget projection required under the law governing county government financial management;
- (b) indicate the financial resources that are available for capital project developments and operational expenditure; and
- (c) include a financial strategy that defines sound financial management and expenditure control: as well as ways and means of increasing revenues and external funding for the county and its development priorities and objectives, which strategy may address the following—
 - (i) revenue raising strategies;
 - (ii) asset management strategies;
 - (iii) financial management strategies;
 - (v) capital financing strategies;
 - (vi) operational financing strategies; and
 - (vii) strategies that would enhance cost-effectiveness

3.2 Guidelines issued by the Ministry of Devolution and Planning

The Ministry of Devolution and Planning in exercise of its functions in collaboration with stakeholders prepared and disseminated guidelines for preparation of County Integrated Development Plan 2018-2022 for all the Counties in September 2017.

The purpose of the guideline is to give the broad general framework which the CIDP should follow when it is being drafted by the County Executive. Notably, the CIDP submitted does not adhere to these guidelines in certain areas.

3.3. Public Participation and Validation of the CIDP

The county government is obliged by section 91(b) of the CGA 2012 to establish structures for citizen participation including budget preparation and validation fora. In light of this prerequisite, the County Executive Committee Member for Finance, Economic Planning and Service Delivery facilitated a validation forum on the 22nd day of June 2018. The fora included representatives of the spending units, citizens and other states and non-state actors.

4.0 OVERVIEW OF CIDP, SECTOR ANALYSIS AND RECOMMENDATIONS

4.1. OVERVIEW OF CIDP 2018-2022

Chapter one deals with the County General Information which provides the background description of the county. This includes position and size of the county, administrative and political units, physiological and natural conditions and settlement patterns. In addition, infrastructure coverage, community organizations, forestry and agro forestry, tourism wildlife and industry are also included. The population profiles and projections form part of county general information.

Chapter two provides the linkages of the County Integrated Development Plan with the Constitution of Kenya 2010, Kenya Vision 2030, and the Third Medium Term Plan, Sustainable Development Goals, the Constitution of Kenya, Lake Region Economic Block, sectoral plans and other plans by development and implementing partners.

Chapter Three explores the implementation of Previous CIDP 2013-2017. The chapter elaborates the reports per department on summary of key achievements versus planned targets focusing on outcomes, recommendations, challenges and lessons learnt while implementing the previous CIDP.

Chapter four unveils the County Development Priorities and Strategies in the CIDP 2018-2022 per sector. It discusses spatial development framework, key county development priorities,

strategies and programmes and projects as identified by stakeholders in the county.

Chapter five illustrates the Implementation Framework of the CIDP 2018-2022. This chapter demonstrates how these institutions will affect the implementation of the CIDP 2018-2022 they include: The County Organogram, Development partners, National government and Public Benefit Organizations and clearly indicate the linkages. Resource Requirement Indicates proposed budget for each sector as derived from the sector programmes while resource mobilization illustrates the strategies which should include: Revenue raising, Asset management, Financial management, Debt management, Capital financing and accountability.

Chapter six outlines the Monitoring and Evaluation Framework. It elaborates the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES) Guidelines. It contains the CIDP Results Matrix which allows implementers and decision-makers alike to assess progress towards county development priorities.

4.2 SECTOR ANALYSIS AND RECOMMENDATIONS

The CIDP encompasses the development priorities, implementation and monitoring and evaluation framework in the nine sectors each having various subsectors. These sectors are;

- i. Agriculture, rural and urban development
- ii. Energy, infrastructure and ICT development
- iii. General economics and commercial affairs
- iv. Education;

- v. Health services
- vi. Public administration and inter/intra government relations
- vii. Social protection culture and recreation
- viii. Environmental protection, water and natural resources

4.2.1 Agriculture, rural and urban development

The sector comprises the two subsectors i.e. agriculture, livestock, fisheries and food security and lands, housing and urban development.

(a) Agriculture, Livestock, Fisheries and Food Security

Sub- Sector Analysis

The Agriculture Sector Development Strategy (2009- 2020) was developed to align the sector initiatives to Vision 2030. The

2011 National Food Security and Nutrition Policy (NFSNP) aims at enhancing food and nutrition security, information management systems and coordination of the roles of various ministries and agencies to achieve food security. Food security is one of the big four agenda.

The National government intends to ensure that all idle arable land will be put to use where the Ministry of Agriculture and Irrigation will publish terms which commercial farmers can lease agricultural land owned by the government.

In light of this, the subsector has ensured to put down programmes that will ensure the realization of the food security in the county as part of the Big Four Agenda.

The development priorities of the subsector are as shown below;

FLAGSHIP PROJECTS

The following are the flagship projects under the subsector;

Project Name	Location	Objective	Output /Outcome	Performance indicators	Time frame (Start-End)	Implementing Agencies	Cost (Ksh.)
Establishment of County ATC	Riwa in Karachuonyo Sub-County	To enhance institutional capacity for farmers' training	Fully established and operational ATC	operational ATC	2017/18 to 2020/21	Department of Agriculture	200M
Accelerated value chain development on dairy improvement	All sub-counties	To increase the population of high value dairy cows	Number of dairy cows inseminated	Increased milk production in the county	2017/18 to 2021/2022	Department of Agriculture	100M
Establishment of Community grain storage facilities	Suba sub county (Kigoto) and Ndhiwa sub county	To enhance food security and farm household income	Enhanced food security and increased farm household incomes	No of grain storage facilities constructed and being used to store farmer's produce.	2017/18-2018/19	Department of Agriculture	60M
Provision of subsidized inputs (fertilizer and seeds/planting materials)	County wide	To increase agricultural productivity and output	Agricultural productivity and production increased	Number of farmers accessing subsidized seeds and fertilizers	2017/18-2019/20	Department of Agriculture	364M
Revitalization of Monitoring, Control & Surveillance (MCS) activities	Rachuonyo, Homabay, Rangwe, Suba North (Mbita), Suba South	To increase capture fisheries productivity & output	Enhanced food security & improved livelihood	Increase tonnage of fish produced	2017-2022	Fisheries Division	242.5 M
Promotion of Farmed fish production.	All the 40 wards in the county	To increase farmed fish productivity & output	Enhanced food security & improved livelihoods	Increase tonnage of fish produced	2017-2022	Fisheries Division	322.5 M

RECOMMENDATIONS

- The subsector must ensure that the programmes are realized in order to ensure that the Big Four Agenda comes to fruition. The implementation, monitoring and evaluation framework must be adhered to the latter in order to achieve this.
- The department in its fisheries development programme, intends to undertake farmed fish production by ensuring that the existing 160 fishponds are rehabilitated at a cost of 10M. However, this financial projection is insufficient since the department intends to construct an additional 160 fishponds which will still need to be continuously rehabilitated. (page 126)
- The County Assembly in exercise of its legislative authority passed the Homa Bay County Abattoirs Act 2015 and the Homa Bay County Sales Yards Act 2015. Unfortunately, these pieces of legislation are yet to be published as Act of the County thereby hindering its implementation.
- The sugar cane farmers in the county (sugar belt) have received minimal or little or no development assistance throughout the County planning processes. The sugarcane farming is a source of livelihood to the people of Homa Bay County as well as a revenue source for the county government. In light of this, their concerns including but not limited to the provisions of quality seedlings, subsidized fertilizer; marketing of produce; and training of farmers. Going forward these matters should be included in the CIDP 2018-2022, ADP and Budgets 2018-2019.

(b) Lands, Housing and Urban Development.

Sector Analysis

The national government in its Big Four Agenda targets to ensure that half a million Kenyans will be able to own affordable and decent homes by 2022 by reducing mortgage and construction costs. In light of the aforementioned the subsectors development priorities are as shown below;

Programme Name: Land and Physical Planning

RECOMMENDATIONS

- The subsector must ensure that the programmes are realized in order to ensure that the “Big Four Agenda” comes to fruition. The implementation, monitoring and evaluation framework must be adhered to the latter in order to achieve this.

4.2.2 Energy, infrastructure and ICT development

The sector comprises the three subsectors i.e. Transport and Infrastructure; Energy and Mineral Resources; Information and Communications Technology

(a) Transport and Infrastructure

Sector Analysis

The implementation of the proposed County Integrated Development Plan 2018-2022 for the Department of Roads, Transport and Infrastructure is estimated to cost Kenya Shillings 8,628,000,000. Out of this amount, 3.4 Billion is expected from

the county Government Budget while 5.4 Billion from donor and National Government funding.

The development priorities of the subsector are as shown below;

Sub Program	Key Outcome/output	Baseline	Key performance Indicators	Planned Targets					Total Budget
				Year 1	Year 2	Year 3	Year 4	Year 5	
Program Name: Road Development and Maintenance Services

FLAGSHIP PROJECTS

The following are the flagship projects under the sector;

Project Name	Location	Objective	Output /Outcome	Performance indicators	Timeframe (Start-End)	Implementing Agencies	Cost (Kshs.)
Transport & Infrastructure sub sector							
Bituminization of Marindi/Magina/Pala/Kowuonda Road.	Ndhiwa Sub-county	Improve Mobility within the sub county.	Increased economic growth	No. of Km Rehabilitated	2018- 2021	County Government	1.2 Billion

Solar power project in public institutions	40 wards	To enhance levels of security and service delivery in under-served health centres.	Enhanced security and efficient service delivery in our health centres.	No of health centers installed with solar-power	2018- 2022	Dept. energy	200M

RECOMMENDATIONS

- The department in its Road Development and Maintenance Services programme, under the road development services subprogramme intends to bitumize roads in the County at a cost of kshs 1.2B. However the planned targets throughout

the five years are omitted. Planned targets are of utter importance for purposes of ensuring resource mobilization, monitoring and evaluation (Page 140 CIDP).

- The department in its Road Development and Maintenance Services programme, under the road rehabilitation and routine maintenance subprogramme intends to rehabilitate 10 bridges at a cost of kshs. 48M. However this cost is under projected since the department must maintain the 15 existing bridges and culverts as well as the 10 planned for construction in the next five years(Page 140 CIDP).
- The department in its Public Works Services, under the safety inspection and standards of buildings subprogram intends to inspect buildings at a cost of kshs. 10M. However the planned targets throughout the five years are omitted. Planned targets are of utter importance for purposes of ensuring resource mobilization, monitoring and evaluation (Page 141 CIDP).
- The department in its Public Works Services, under the design and supervision of county government buildings subprogram intends to design new projects and renovate buildings at a cost of kshs. 5M each. However the planned targets throughout the five years are omitted. Planned targets are of utter importance for purposes of ensuring resource mobilization, monitoring and evaluation (Page 141 CIDP).
- The construction of Boda Boda shades in all the wards should be included in the CIDP.

(b) Energy and Mineral Resources

Sector Analysis

The development priorities of the subsector are as shown below;

Outcome: Improved exploration and exploitation of mineral resources in the county									
Minerals development and marketing services	To fast track implementation of proposed interventions around resources.	0	No of plans. Policies and regulation implemented	1	0	0	0	0	5M

RECOMMENDATIONS

- The department in its energy services programme under the electrical power services sub programme intends to install full

street lights in eight sub counties at a cost of kshs. 200M. However the planned targets i.e 7 streetlights installed in the sub counties is not in line with the projected cost of kshs. 200M. Perhaps the planned target ought to refer to the sub counties and not the street lights. (Page 140)

- The department in its energy services programme under the low cost energy technologies promotion services intends to establish three (3) briquette manufacturing plants at a cost of kshs. 50M. However the performance indicator measuring the percentage of people using the energy saving technologies is not measurable as such should be deleted. (Page 143)

(c) Information and Communications Technology

RECOMMENDATIONS

- The department should endeavor establish the County Gazette which will cater for various publications within the county as well as generate revenue.

4.2.3 General economics and commercial affairs

The sector comprises the two subsectors Trade, Industrialization, Investments, Cooperatives and Enterprise Development and Tourism.

(a) Trade, Industrialization, Investments, Cooperatives and Enterprise Development

Sector Analysis

The development priorities of the subsector are as shown below;

Programme 1: Trade, Cooperative and Entrepreneurship Development Service									
Objective: To improve the business environment, promote growth of entrepreneurs and improvement in governance, marketing and investment within cooperative framework

RECOMMENDATIONS

- In order to actualize the subsectors programmes the department must ensure that enabling legislations are drafted and subsequently enacted by the County Assembly. These legislations include;
 - i. The trade licensing Bill;
 - ii. The Trade and Markets Bill; and
 - iii. The Rating Bill;
- The County Assembly in exercise of its legislative authority vested upon it by dint of Article 185 of the Constitution of Kenya 2010, passed the Homa Bay County Trade Fund Act and the Alcoholics Drinks Control Act. However, the department need to formulate regulations for the better implementation of these legislations.
- The department should implement the Homa Bay County Trade Fund Act by ensuring that the loans advances to the small traders are secured and the loans are recovered. Further the department must formulate a loans recovery strategy for kshs. 23.7M already issued as loans.

- The department in its Trade, Cooperative and Entrepreneurship Development Service programme under its Trade infrastructure and development services sub-programme intends to establish 7 modern markets at a cost of Khs. 700M. However the projected revenue is kshs. 12.5 which translate to 1.7% of the total cost of establishing the model markets. Better strategies ought to be in place to realize the full revenue potential of the model markets.
- The Assembly is in the process of formulating the Homa Bay County Investment Development and Cooperatives Bill 2018 into an Act of the County Assembly which intends to establish an investment cooperative. However, this has not been reflected in the CIDP as part of the department's activities.

		-	No of tourist arrivals	0	0	600	720	850	

RECOMMENDATIONS

- The county is endowed with various tourist attraction sites. The department should endeavor to tap this natural resource as a revenue stream.
- The data on the number of tourists to each site should be maintained and availed for purposes of projecting possible revenue.
- The department in its Tourism Promotion Services under the Development of Tourism promotion services subprograms expects 2170 tourists in the next five years yet the county will inject at least kshs. 150M towards this venture.

RECOMMENDATIONS

- The department in its General Administration and Quality Assurance programme under the Quality Assurance Services programme intends to assess ECDE Centers and VTCs at a cost of kshs. 150M. Notably, the intends to assess only five(5) institutions. These planned targets are far too low as compared to the allocation therein. (page 160)
- The department in its ECDE and Vocational Training Services programme under the ECDE Services programme intends to construct 32 classrooms each year at a cost of kshs. 200M. However, in exercise of the principle equality, the planned targets should be increased to 40 classrooms each year.
- The department in its ECDE and Vocational Training Services programme under the ECDE Services programme intends to recruit 100 new teachers each year at a cost of kshs 16M. The allocation is not sufficient for the teachers' salaries as the teachers will only earn kshs. 2,667 per month. Alternatively, the

department should increase the allocation or reduce the number of teachers to be recruited.

RECOMMENDATION

- The department should endeavour to formulate strategies and mechanisms of bridging the gap in deficits in the projects funded by partners in order to ensure the projects are completed and the positive impact felt on the people of Homa Bay.

4.2.6 Public administration and inter/intra government relations

The sector consists of, Office of the Governor, Finance, Economic Planning and Service Delivery, the County Public Service Board and the County Assembly Service Board.

(a) Office of the Governor,

The development priorities of the subsector are as shown below;

OFFICE OF THE GOVERNOR										
Programme Name: Governance and Coordination Services										
Objective: To provide strategic leadership and coordination that supports service delivery and facilitates transformation towards sustainable and inclusive development at all devolved levels										
Outcome: Improved service delivery for sustainable and inclusive development

Construction of the County Office Complex	Homa Bay Town	To House all key offices	An office complex built and occupied to enhance coordination	Cumulative % of planned works completed	2019-2020	Office of the Governor	KSh. 300M

RECOMMENDATION

- The Office of the Governor in its Governance and Coordination Services programme under the disaster coordination and management subprogramme intends to improve disaster coordination, response and mitigation through the county at a cost of kshs. 15M. Disaster preparedness, mitigation, response, and restoration is quite a costly vital venture as such the allocation should be increased.(page 177)

RECOMMENDATIONS

- The department its planning, budgeting and development facilitation services programme under the Economic planning and development facilitation services sub programme intends to allocate kshs. 150M in the first year towards the Lake Region Development Bank.

This project has been allocated kshs. 50M during the supplementary budget FY 2017/2018 and the Appropriation Act 2018. Unfortunately, the department is yet to submit requisite documentation to the county assembly for its action i.e. the policy for the establishment of the Bank; and the requisite legislation for the establishment of the regional block.(page 178)

- The department its general administration and support services programme under the devolution and service delivery support services sub programme intends to allocate kshs. 36M in the first year towards the contribution for the G47 project.

Unfortunately, the department is yet to submit requisite documentation to the county assembly for its action i.e. the policy from the Council of Governors.(page 179)

- The department its financial management services programme under the accounting and financial report services sub programme intends to purchase two (2) fire engines at the Cost of kshs. 130M. However this has already been includes as part of the programmes for the public works department. Further, the purchase of fire engines is not an activity that should fall under the accounting and financial report services. (page 179)

(c) The County Public Service Board

The development priorities of the subsector are as shown below;
