

## MSEs' Business Environment in Nyeri County

### Introduction

The County Business Environment for MSEs (CBEM) framework has been developed to monitor key issues that require policy interventions in creating an enabling environment for the Micro and Small Enterprises (MSEs) sector in the counties. The framework covers four key areas affecting the operations of MSEs: Worksites and adequacy of their infrastructure; Market environment; Financial and technical capacity; and Governance and regulatory framework. This brief indicates the business environment for MSEs in Nyeri County.

### Nyeri County Demographics and Output<sup>i</sup>

1

Total population, 759,164; Female, 50.7%  
Contribution to total GDP: Average 2.2% for the period 2013-2017  
Contribution to Gross Value Added: 2.3% in 2017

2

Sectors driving growth in economic activity: Manufacturing (2.1%); Agriculture (53%); and Services (40%)

### Importance of MSEs and Challenges<sup>ii</sup>

#### IMPORTANCE

1999

Employed 50.0% of working population  
Contributed 18.9% of GDP

2016

Employed 81.0% of working population  
Contributed 24.7% of National output  
and 23.6% Gross Value Add

#### CHALLENGES

Due to poor business environment MSEs in Kenya are faced with the challenges of:

Low survival rate of MSEs

Limited skills

Capital and workspaces

Informality

Low productivity

## MSEs' Business Environment

All the scores for MSEs business environment are drawn from the CBEM framework (KIPPRA, 2019). The MSEs business environment is measured using the following: Worksite and related infrastructure; Market environment; Financial and technical capacity; and Governance and regulatory framework. The scores range between lowest (0) and highest (100). Nyeri County scored a total of 25.9.

Figure 1: Nyeri County scores

## Worksites and Infrastructure for MSEs

### Scores

- Access to worksites: 48.4
- Electricity connection: 64.4
- Water connection: 35.7
- Access to common manufacturing facilities: 5.8
- Availability of public toilets: 21.6
- Waste management services: 10.4

### Constraints

- Inadequate workshops
- Insufficient worksites
- Lack of adequate tools, machinery and equipment
- High electricity and water connection costs
- Frequent power outages
- Pending electricity bills
- Inadequate designated areas for waste disposal
- Inadequate common manufacturing facilities

## Market Environment for MSEs

### Scores

- Road infrastructure: 41.0
- Access to physical markets: 26.9
- Access to Government Procurement Opportunities(AGPO): 4.7
- Fair competition: 16.5

### Constraints

- Unfair trade practises manifest through: contract enforcement, counterfeiting, dumping (substandard goods) and misrepresentation (through weight, price, ingredient).
- Low uptake of AGPO due to information asymmetry and informality

## Financial and Technical Capacity for MSEs

### Scores

- Training (capacity building) for MSEs: 19.5
- Knowledge and skills mapping: 24.9
- MSEs survival rate: 8.9
- Access to digital finance: 5.9
- Innovations: 1.5
- Patenting: (-)

### Constraints

- Fragmentation due to multiplicity of players who offer training and capacity building
- Low uptake of digital finance
- Lack of a training and apprenticeship programme for artisans
- Lack of training needs assessment for MSEs
- Lack of monitoring and evaluation of training programmes
- High cost of doing business

## Governance and Regulatory Framework for MSEs

### Scores

- Licensing and issuance of permits: 60.2
- Self-regulation: 41.0
- Crime and public security: 47.5
- Corruption and governance issues: 32.7

### Constraints

- Multiple licences and permits
- Corruption
- Misallocation and exploitative tendencies within the worksites
- insecurity

## Way forward in Creating an Enabling Environment for MSEs

### a) Worksite and adequacy of infrastructure

- Work with Micro & Small Enterprises Authority (MSEA) and other relevant agencies to facilitate access of common manufacturing facilities.
- Enhance provision of sanitation and waste management facilities in/around worksites and market centres.

### b) Market Environment for MSEs

- Collaborate with the Anti-Counterfeit Agency and Kenya Revenue Authority to curb counterfeits and dumping of goods to enhance fair trade.
- Collaborate with the AGPO secretariat to promote and enhance sensitization of MSEs on this affirmative action to increase uptake.

### c) Financial and Technical Capacity for MSEs

- Collaborate with relevant training institutions such as Kenya Institute of Business Training and National Industrial Training Authority to enhance provision of relevant entrepreneurial training and technical training, apprenticeship and certification programmes to MSEs.
- Collaborate with national institutions such as Kenya Industrial Research and Development Institute (KIRDI) and Kenya Industrial Property Institute (KIPI) to carry out sensitization to MSEs on innovations and patenting. KIRDI and KIPI should also work out on mechanisms of subsidizing cost of innovations and patenting, respectively.

### d) Governance and Regulation Framework

- Collaborate with MSEA and Ethics and Anti-Corruption Commission to curb misallocation and exploitative tendencies within the worksites.

### About KIPPRA Policy Briefs

KIPPRA Policy Briefs are aimed at a wide dissemination of the Institute's policy research findings. The findings are expected to stimulate discussion and also build capacity in the public policy making process in Kenya.

KIPPRA acknowledges generous support from the Government of Kenya, and development partners who have continued to support the Institute's activities over the years.
