# 532000000 PUBLIC SERVICE MANAGEMENT

## PUBLIC SERVICE MANAGEMENT

### Part A: Vision

The sector is focused in achieving the county vision to be 'The city of choice to invest, work and live in'

### Part B: Mission

The sector's **mission** is; "To provide affordable, accessible and sustainable quality services, enhancing community participation and creating a secure climate for political, social and economic development through the commitment of a motivated and dedicated team."

### Part C: Performance Overview and background for programmes funding.

The overall objective of the Public Service Management and Transformation in the County is to ensure that functions are properly structured and staffed to facilitate transformation of the entire workforce in the county for efficient and effective service delivery.

The increasing demand for better and quality services by the Nairobian has set the stage for a new order in the management and accountability of county and hence the need to focus more on the welfare of the citizenry. At the forefront in the delivery of services is the need for a robust and efficient Public Service.

The expanding wage bill is a concern as it is impacting negatively to the economic development of the county. Currently, the recurrent expenditure has reached unsustainable levels, crowding out resources meant for development. The total estimated wage

bill is slightly over 70% of overall revenues. This is likely to be worsened if the recently negotiated Collective Bargaining Agreement, recruitments and upgrading and promotions if implemented is likely to increase the wage bill by approximately 15%. This poses a serious threat to the funding of transformational development projects, and has the potential to severely affect the county's economic prospects.

The re-organization of the county is guided by the need to focus on what the county does best and allow it to concentrate on its core functions. The rationalization of the staff will seek to achieve "fit for purpose" organizational structures which will facilitate realization of a devolved system of governance, efficiency and effectiveness in service delivery.

Also, the county is faced with a challenge of an aging workforce that has impacted on service delivery considering that over 70% of the County workforce are support staff.

Most staff are unskilled and require training and development

## 532100000 AGRICULTURE, LIVESTOCK DEVELOPMENT, FISHERIES & FORESTRY

**Part A: Vision** - “A Food Secure County”

**Part B: Mission** - “To improve livelihoods of Nairobi City County community by promoting innovative, commercially oriented, modern urban agriculture through appropriate policy environment, effective support services and sustainable agricultural land use”.

**Part C: Performance Overview and background for programmes funding.**

The sector is mandated to ensure sustainable development and management of crops, livestock and fisheries for food security and economic development. It is also authorized to provide reliable, accessible, quality and affordable healthcare and promote urban forestry and sustainable agricultural land use in the city. Additionally, the sector is mandated to appraise the urban food system of the city and identify policy options for improving it. Assessing the food situation of city residents and triggering early response to food – based emergencies is another aspect of its operations.

- ***Constraints and challenges in budget implementation and how they are being addressed.***

Delayed/ prolonged procurement of goods and services, and delayed or lack of processing of imprests for budgeted activities we are fast tracking through the office of the CECM and CCO. Dwindling and hence inadequate number of technical and administrative staff due to retirement, natural attrition, resignation and transfer to other sectors. This has necessitated that remaining officers have increased workload with larger coverage especially in the sub-counties. Non-payment of suppliers has led to the subsequent years’ budget being used to pay the suppliers debts of previous years. Lack of career progression and promotions has seen the sector continuously budgeting for and recommending officers for promotion but inaction of the Public Service Board has derailed the process. Inadequate funding for the sector leads to reduced critical activities.

Competition for land use as a result of urbanization has led to promotion of technologies which occupy less space for agricultural production. The delay in zoning of the County for various land uses that is required by the Urban and Cities Act is impacting negatively on planning for agricultural production. High poverty level

in the County, especially in the informal settlements, is a challenge to adoption of appropriate technologies, investment and sustainable production and the sector heavily relies on stakeholders to achieve their mandate. Extensive marketing channels such as hawking of products leading to challenges in quality control, safety and dispensing of the same in non-recommended units and the sector works in close collaboration with other departments. High cost of inputs for production, Climate Change and Variability (CCV) adversely affect food security operations and improper building code as presently the building codes are not sensitive to urban agriculture/ in many cities building have been constructed providing for roof gardens, wall garden and even balcony garden and Nairobi should follow suit
