## **FOREWORD**

The County Government of Laikipia annual estimates for financial year 2021-2022 have been prepared in line with chapter 12 and Article 220 (2) of the Constitution of Kenya (2010) and section 125 of the Public Finance Management Act, (2012). These estimates reflect the County Government's plans and priorities for the year 2021-2022.

The ordinary estimated resource basket for the financial year 2021-2022 is Kshs 6,890,372,055 which includes Equitable share, own source revenue and grants from development partners and the National Government. Expected funding from the 1<sup>st</sup> County infrastructure bond will amount to Kshs 1,247,627,355.

The county continues to embrace fiscal responsibility in line with the Public Finance Management Act 2012 Sec. 107 and the Public Finance Management Regulations (County governments), 2015, Sec. 25.

There are deliberate efforts to restore the productivity of sectors affected by the economic downturn during this covid19 periods (i.e. Enterprise Development, Trade Tourism and Co-operatives, Agriculture Livestock and Fisheries, Infrastructure and Health).

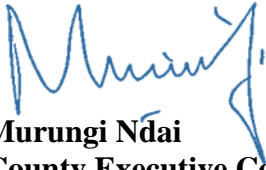

During this period the key focus areas will be

- a) Continuing Harnessing innovation with the aim of achieving industrialisation through incubating industries and supporting manufacturing with priority being county VTI's and establishment of Industrial parks within the county.
- b) Enhancing Support to business through economic stimulus interventions that include financial and capacity building support to micro, small and medium enterprises in collaboration with financial stakeholders.
- c) Improving agriculture productivity through investments in water for production through irrigated agriculture, better seed varieties, improved animal husbandry, feedlots investments and management.
- d) Improving access to timely and quality health services with great emphasis on preventive health.
- e) Infrastructural development to spur economic development through purchasing, leasing, partnering with government and non-government agencies to provide machinery and equipment, skills, expertise and management required to improve our road network, finalise the county spatial plan and upgrade our towns to smart-town standards.
- f) Improve education standards and transition of ECDE pupils into primary school, secondary school and ultimately to tertiary education through provision of bursary, mentorship, other materials and social support.
- g) Supporting SAGAs and independent County entities for better service delivery (NAWASCO, NYAHUWASCO, Laikipia County Development Authority, Laikipia County

Revenue Board, Nanyuki Teaching and Referral Hospital, Nyahururu County Referral Hospital, Rumuruti Municipality and the Laikipia County Public Service Board)

In order to realise these targets, the county government shall continue to enhance Own source revenue through expansion of tax base, land value capture and updating of the valuation roll among other interventions.

Stakeholder management is key component in planning and budgeting processes, in line with the requirements of the Public Finance Management (PFM) Act and the Constitution of Kenya 2010 and in cognisance of the challenges brought about by the COVID 19 pandemic, stakeholders were engaged through online platforms and submission of written memoranda.

## **EXECUTIVE SUMMARY**

Programme-based budgeting is the required form of public sector budgeting in Kenya. It is a form of budgeting that links the government budget and its use of resources directly to defined public policy objectives and intended outcomes through programs. It requires these programs to stretch beyond one fiscal year and to have embedded in them effective measures for its outputs (services) and outcomes - the final tangible impacts ‘on the ground’. It is performance based so that spending is assessed against defined performance indicators to ensure its effectiveness, efficiency and value-for-money.

These estimates have adopted programme-based approach anchored on the County’s Vision of “The greatest county with the best quality of life” with focus on enterprise development, industrialisation, manufacturing, agricultural production and infrastructure development. The estimates are arranged in three broad sections.

The First Chapter provides a summary of expected County resources (revenues) and overall expenditures. It details the amounts expected under each category. It gives the county government priority interventions, a summary of Sector ceilings/ Allocations 2021-2022 including conditional grants, statutory obligations, Contractual obligations, transfers to County semi-autonomous entities and a list of entities guiding appropriation of funds.

The Second Chapter provides details of sector vision, mission, and performance overview, major services offered, program objectives, the sector allocations for development and recurrent activities under programmes and sub programs, program outputs and performance indicators of the following county sectors: Public Service, County Administration, and ICT, Finance planning, county development and enterprise development, Medical Services and Public Health, Agriculture, Livestock, Irrigation and Fisheries Development, Lands, Housing and Urban Development, Education and Social Services, Trade, Tourism, Enterprise Development and Co-operative Sector, Water Environment and Natural Resources Sector and the semi-autonomous county entities which are: the County Public Service board, Laikipia County Revenue Board, Laikipia County Development Authority, Co-operative Revolving Fund, Enterprise Development Fund and Innovation, Executive Committee and staff Car & Mortgage fund, Nanyuki Teaching and Referral Hospital ,Nyahururu Teaching and Referral Hospital and Rumuruti Municipality. This is also cognisant of the new County Government organisation structure.

The Third Chapter provides a summary of the estimates by sector, programmes, sub-programs, specific projects to be undertaken, their location and the estimated cost.

## VOTE TITLE: MEDICAL SERVICES AND PUBLIC HEALTH

**A. Vision:** A healthy and productive county

**B. Mission:** To build a responsive, client centered and evidence-based health system for accelerated attainment of highest standards of health to all in Laikipia.

**Sector Objective:** To provide equitable, affordable, quality health services at the highest attainable standards.

### C. Performance Overview and Background for Programme(s) Funding

The health infrastructure consists of 85 public facilities and 44 private facilities. Of the 85 public facilities, 2 are county hospitals while 5 are sub county hospitals. In addition, there are 15 health centers and 63 dispensaries. The sector has continued to support hospitals, health centers and dispensaries with staffing, essential medical supplies and equipment. In addition, infrastructure improvement at all levels has gained incremental funding for upgrading, expansion works and construction of new facilities.

### **Major Services/Outputs to be provided in MTEF period 2021/22-23/24**

The master plan for water enhancement will guide the short term, medium term and long-term needs in the county spending. Dominant rural areas have been prioritized through rehabilitation of water supply sources (dams, boreholes, springs, storage tanks) as well as establishment of new water schemes in identified clusters. Wildlife-human conflict mitigation initiatives will be addressed through electric fences, community patrols and strengthening resource user associations. Solid waste and drainage management will also get increased funding to address the existing gaps towards ensuring a safe and a secure environment through acquisition of dumpsites, cemeteries and garbage collection trucks. Interventions on climate change adaptation and mitigation, disaster reduction, increasing community resilience and livelihoods will also be addressed in 2021/22 and the medium term. Collaboration with the national government and

development partners will also be strengthened on rangeland management, wetland and forestry protection, development of mega dams and irrigation schemes.

Towards realizing the prioritized programs, the sector is allocated a total of KShs. 202,030,567 in 2021/22 FY, with KShs. 23,019,589 being recurrent expenditure and KShs. 295,261,194 as development expenditure.
