County Vision and Mission

Vision

A wealthy and vibrant County offering high quality services to its residents

Mission

To improve the welfare of the people of Kakamega County through formulation and implementation of all-inclusive multi-sectoral policies

Foreword

The Annual Development Plan (ADP) is one of the main documents required for the appropriation of public funds and annual budget preparation process as required by the Public Finance Management Act, 2012. This plan provides the strategic priorities for the medium-term programmes/projects to be delivered in the financial year 2022/2023.

Despite the challenges encountered, notably the effects of Covid 19 pandemic and irregular flow of resources, the County has achieved development milestones under the County Integrated Development Plan 2018-2022 through implementation of flagship projects. These include; upgrading of gravel roads to bitumen standards, ongoing upgrading of Bukhungu Stadium to international standards (Phase II), ongoing construction of the Kakamega County Teaching and Referral Hospital, Youth empowerment programme, construction of markets, establishment of smart farms, construction of ECDE centres and polytechnics among others.

This plan has prioritized completion of the ongoing projects and focuses on major areas which include; water provision to ensure all households access safe and clean water, improved the level of road infrastructure, improved quality of health care and boost agricultural productivity in the county. Various strategies have been proposed under each sector in the county whose overall goal will be to improve the welfare of the people of Kakamega County.

This document is geared towards the implementation of the unaccomplished programmes/projects in the previous development plans and memoranda submissions from the public.

Thank you.

Dr. Beatrice Sabana
**County Executive Committee Member,
Finance, Economic Planning & ICT**

Acknowledgement

The County Annual Development Plan for the Financial Year 2022/23 was consultatively prepared by stakeholders drawn from all County Departments and agencies. The whole process was guided by the Directorate of Economic Planning.

First and foremost, I acknowledge the valuable leadership and support of H.E the Governor and The Deputy Governor. I further wish to appreciate the CECM Finance, Economic Planning and ICT Dr. Beatrice Awimbo Sabana, PhD under whose guidance the preparation of this Plan was made possible. Great thanks to all the CEC Members, the County Secretary and the Chief Officers for their overall coordination of their departments and support throughout the Plan preparation process.

In addition, I wish to acknowledge and pay special tribute to the team of Economists and Statisticians who worked with various County Departments, provided guidance and leadership in their respective sector working groups and ensured valuable information was provided. Lastly, I wish to appreciate the County Budget and Economic Forum members and the general public for their input.

Thank you.

Amb. CPA James Ochami
Chief Officer, Finance and Economic Planning.

Executive Summary

The County Annual Development Plan is the first stage in the preparation of the County budget estimates for the FY 2022/23. It forms the foundation for the Budget as provided for in the Public Finance Management Act, 2012.

The Plan is organized in five chapters. In the first chapter it provides the County background information in terms of size, physiographic, natural conditions and population profile. The second chapter provides the performance review of the ADP 2020/21 and comparison of ADP 2021/22 against approved budget of FY 2021/22. In chapter three, the Plan further presents sector strategic priorities, projects and programs. In its fourth chapter, the plan highlights the overall resource requirement for the FY 2022/23, the resource gaps and measures to mitigate against the identified gaps. Finally, the plan indicates how the projects and programs will be implemented, monitored and evaluated during the planned period in its fifth chapter.

The agricultural sector is the backbone of the County economy that accounts for 52% of the County's Gross County Product (GCP). With this recognition, the County has invested enormously in this sector. The County continues to support the dairy production, farm input subsidies and training of farmers on modern production technologies. To improve access to health services, the County is completing the construction and equipping County Teaching and Referral Hospital Phase I and upgrading other health facilities. In addition, more emphasis has been put on community health strategy as well as maternal and child health care.

Education and training has improved through the construction and equipping of ECDE centers, County polytechnics and provision of capitation. To enhance access to quality education, the County Government has scaled up the bursaries and scholarships to the needy but bright students in the County. With this support, the students are able to access quality education in the country and even abroad. Moreover, road network and connectivity has been enhanced through construction and maintenance of bitumen, gravel roads and bridges. To promote a 24 hour working economy, the erection of high mast flood lights at strategic market centers and enhancing access to electricity through power transformers procurement and installations across the County.

To promote sports, the County is upgrading Bukhungu Stadium to international standards. Socially, the senior citizens as well as the vulnerable in the society are under a social safety net programme providing decent shelter.

On water access, the County continues to develop new water schemes and has rehabilitated existing ones to expand their coverage. In addition, the County has improved trading environment through construction of markets, provision of affordable credit facilities as well as modern Kiosks to traders across the County's urban areas.

To improve governance and service delivery, the County Government established and operationalized the Community Area Councils and Subcounty treasuries and the Health Facility Improvement Fund that will be crucial in developing County health facilities.

CHAPTER ONE: INTRODUCTION

1.1 Chapter Overview

The chapter provides the background information of the County in terms of size, physiographic and natural conditions and population profile. The chapter further explains the linkage between this plan and the CIDP and further explains the plan preparation process.

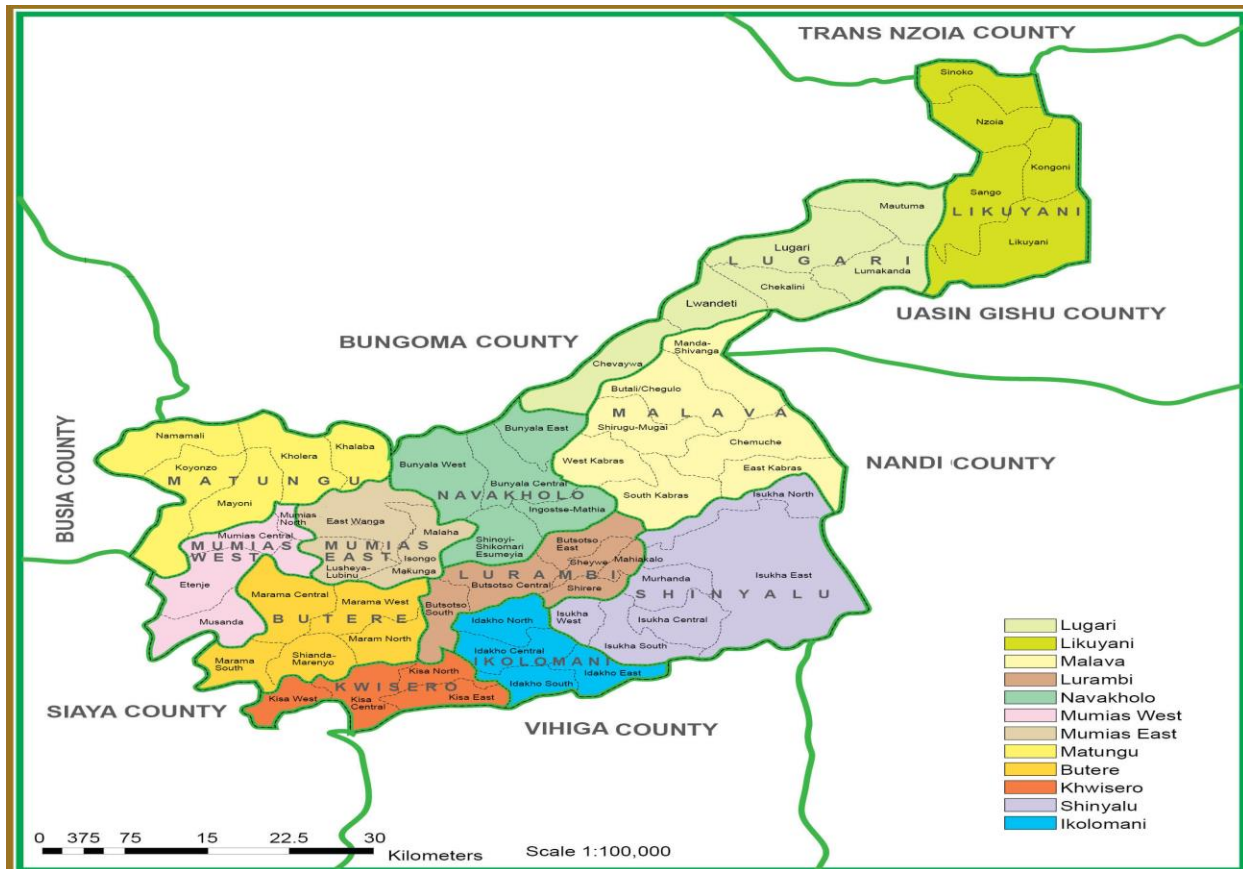

1.2 County Background Information

a) Location and Size

Kakamega County is located in the Western part of Kenya and borders Vihiga County to the South, Busia and Siaya Counties to the West, Bungoma and Trans Nzoia Counties to the North and Nandi and Uasin-Gishu Counties to the East.

The County covers an area of 3,051.3 Km² and is the fourth populous County after Nairobi, Kiambu and Nakuru with the largest rural population. Map 1 indicates the Administrative Units in the County and their boundaries.

c) Physiographic and Natural Conditions

The altitude of the county ranges from 1,240 metres to 2,000 metres above sea level. The southern part of the county is hilly and is made up of rugged granites rising in places to 1,950 metres above sea level. The Nandi Escarpment forms a prominent feature on the county's eastern border, with its main scarp rising from the general elevation of 1,700 metres to 2,000 metres. There are also several hills in the county such as Misango, Imanga, Eregi, Butieri, Sikhokhochole, Mawe Tatu, Lirhanda, Kiming'ini among others. There are ten main rivers in the county namely; Nzoia, Yala, Lusumu, Isiukhu, Sasala, Viratsi, Kipkaren, Kamehero, Lukusitsi and Sivilie.

There are two main ecological zones in the county namely; the Upper Medium (UM) and the Lower Medium (LM). The Upper Medium covers the Central and Northern parts of the county such as Ikolomani, Lurambi, Malava, Navakholo and Shinyalu that practise intensive maize, tea, beans and horticultural production mainly on small scale; and Lugari and Likuyani where maize and dairy farming is done on large scale. The second ecological zone, the Lower Medium (LM), covers a major portion of the southern part of the county which includes Butere, Khwisero, Mumias East, Mumias West and Matungu. In this zone, the main economic activity is sugarcane production with some farmers practising maize, sweet potatoes, tea, ground nuts and cassava production.

The annual rainfall in the county ranges from 1,280.1mm to 2,214.1 mm per year. The rainfall pattern is evenly distributed all year round with March and October receiving heavy rains while December and February receive light rains.

The temperatures range from 18 °C to 29 °C. The temperatures in January and February are relatively high compared to other months except for July and August which have relatively cold spells. The county has an average humidity of 67 percent.

d) Demographic Features

i) Population Size and Composition

According to the 2019 Population and Housing Census, the County population was 1,867,579 consisting of 897,133 males and 970,406 females. The county has a population growth rate of 1.1% with a population projection of 1,909,121 by the end of the year 2021.

1.3 Legal Basis for Preparation of ADP

The Constitution of Kenya, 2010 is the basis for the process of devolution in Kenya. To implement the objective of devolution, the National Assembly enacted the County Government Act, 2012 and the Public Finance Management Act, 2012. Part XI of the **County Governments Act, 2012** requires county governments to prepare development plans which include County Spatial Plans, Sector Plans, County Integrated Development Plans (CIDPs), and Cities and Urban Areas Plans.

To implement the CIDP, the PFMA, 2012, through section 126 requires that the county government prepares annual development plans. These plans form the basis for all budgeting and spending in the County and no public funds should be appropriated without a planning framework developed by the County Executive and approved by the County Assembly.

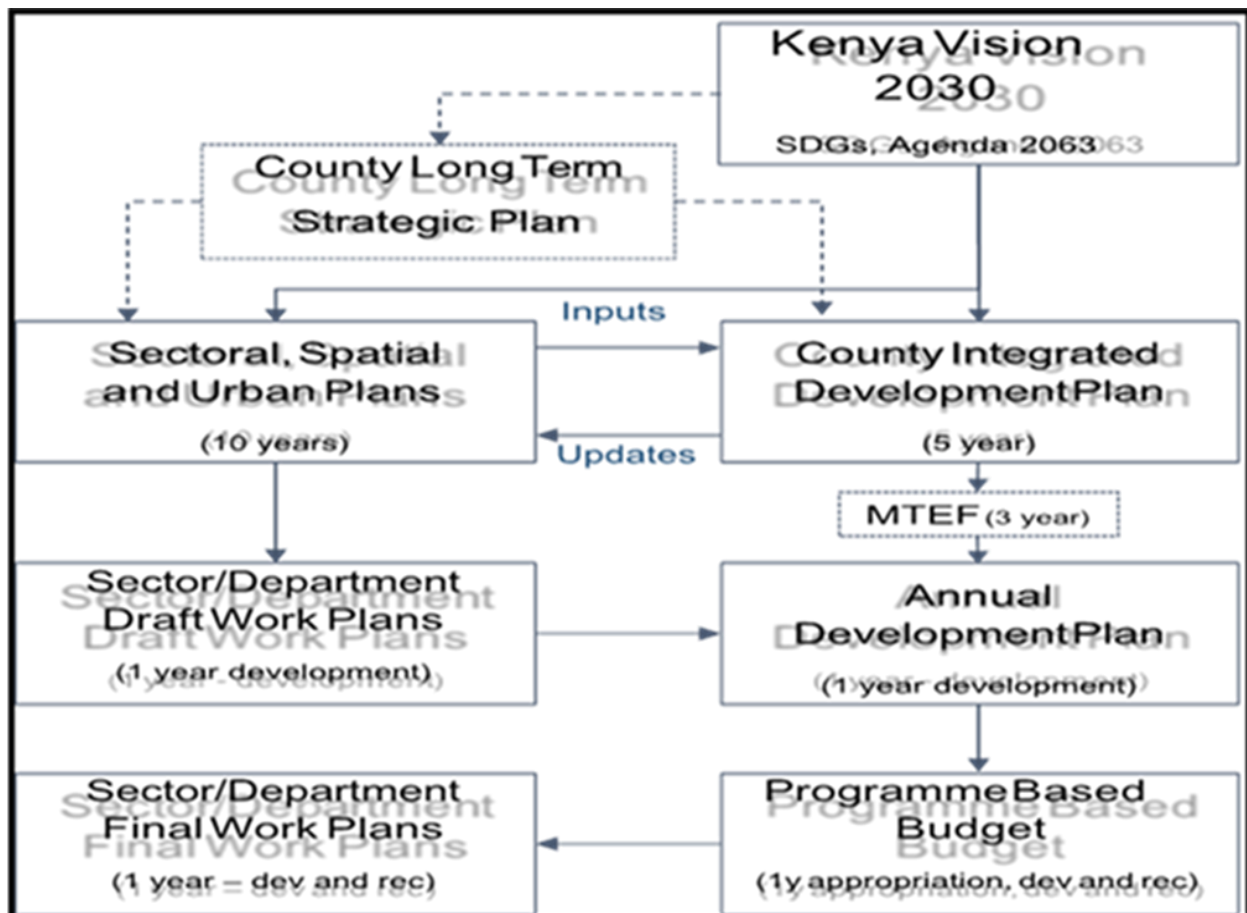

1.4 Linkage of ADP with CIDP and other Development Plans

The Kenya Vision 2030 is the national blueprint that forms the national development agenda that is being implemented through 5-year Medium Term Plans (MTPs) and therefore the CIDP 2018-2022 has been aligned to the Vision through MTP III.

The CIDP identifies specific projects and programmes for implementation over the five-year period. On the other hand, an ADP is prepared to implement projects and programmes identified in the CIDP.

Figure 1 provides a diagrammatic presentation of the link between the ADP, CIDP the Budget and other plans.

Figure 1: ADP Linkage with other Plans

1.5 Preparation Process of the ADP

The preparation of this plan was done in line with the laid down guidelines and within the legal framework. The preparation process was consultative as provided for in Article 201 of the Constitution of Kenya, section 115 of the County Government Act, 2012 and Kakamega County Public Participation Act.

Sector-specific stakeholder forums were held for each department to prioritize programs and projects to be implemented in the FY 2022-23. The submissions were thereafter compiled, analyzed and prioritized to form the ADP 2022/23. The document was presented to the cabinet for adoption and forwarded to the County Assembly for approval.

1.6 Strategic Priorities of the ADP

The priorities outlined in this document are consistent with the aspirations of Kenya Vision 2030, the Governor's manifesto and the County Integrated Development Plan (2018-2022). The County government plans to focus on the following key priorities;

- ❖ To improve food security
- ❖ To improve road network
- ❖ To improve access to universal health care
- ❖ To improve quality of education
- ❖ To improve access to clean and safe water
- ❖ To revamp manufacturing sector in the county

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF PREVIOUS ADP

2.1 Overview

The chapter provides a summary of what was planned and what was achieved by the County Departments and also indicates the overall budget in the ADP versus the actual budget allocation. It also gives a review of County government achievements, challenges and lesson learnt.

2.2 Analysis of 2021/22 ADP Allocation against 2021/22 Actual Budgetary allocation

This section provides a comparison of budget allocation between the planned projects and programmes in the ADP for FY 2021/22 versus what was budgeted for in the same year.

ii) Key achievements

- i. Developed a data base for all water sources in collaboration with KIWASH;
- ii. Increased water connectivity by 210 Km and water storage capacity by 2,555.5 m² which has enabled 2.5% of households access safe piped water;
- iii. Rehabilitated forty three (43) boreholes and drilled 2 boreholes around the county to increase access to clean and safe water;
- iv. Solarized 3 water projects at Makhokho, Shibanga and Imalaba;
- v. Constructed handwashing points in health centres (Bushiri, Shibunama, Eshinamwenyuli, Emusala, Kharanda and Lusheya), Shinyalu market and Emusala schools;
- vi. Constructed 87 rain water harvesting and storage systems at public institutions including schools, polytechnics and health centres in collaboration with development partners;
- vii. Construction of five water projects (Musembe dam (98%), Lumino Dam (75%), Nandamanywa (53%), Kuvasali (69%), Yala/Butwehe (46%), Lwakhupa(97%) through funding from Kenya Devolution Support Programme ongoing.
- viii. Increased the County tree cover by planting over 200,000 trees in selected public institutions, riparian areas and hilltops under the County Greening programme;
- ix. Mapped county natural resources including wetlands and mining sites;
- x. Sensitized artisanal miners across the County on sustainable land use management and safety, in collaboration with the National Environmental Management Authority (NEMA), Directorate of Occupational Safety and Health Administration (DOSH) and the Ministry of Mining;
- xi. Developed legal frameworks to guide implementation of projects and programmes in the Department, including The Kakamega County Climate Change Act 2020;

2.5 Challenges faced during the implementation of the ADP FY 2020/21

Some of the notable challenges faced in the implementation of the ADP include;

- i) Covid-19 – Emergence of the pandemic that was first registered in Kenya in March 2020 has led to disruption of normal economic activities and reallocation of resources to fund Covid_19 programs;
- ii) Delays in disbursement of funds – Delays in release of funds and grants such as the free maternity from the exchequer has negatively impacted the ability of the County government in meeting its development aspirations;
- iii) Low domestic revenue collection – The County government has not been able to realize its targets in collecting local revenue;
- iv) Diminishing road construction materials – Materials used in road construction like murrum/gravel are diminishing in quantities across the County leading to untimely delivery of projects;

2.6 Lessons learnt and Recommendations

- i) Enhance collaboration among County departments and lead agencies to ensure smooth implementation of projects;
- ii) Procurement of contracts preferably to be done during the first quarter to allow for implementation of the same during the second and third quarters, so as to avoid spillage of projects into subsequent financial years;
- iii) The County government to explore other avenues of financing capital projects which requires massive resources from alternative sources;
- iv) Civic education should be upscaled to enlighten the citizenry on the functions of the County Government.

- v) Explore alternative road construction technologies to relieve the County of the already depleted gravel materials;
- vi) Adoption of relevant low cost technology and green energy such solarisation of pumping units and lighting systems in the water supplies assist in reduction of the operation and maintenance costs.

CHAPTER FOUR: RESOURCE ALLOCATION

4.1 Chapter Overview

The chapter presents a summary of the proposed budget by Programme and Sector. It also provides a description of how the County government is responding to changes in the financial and economic environment and further indicates the criteria employed in the allocation of resources by Department and Programme.

4.2 Resource Allocation criteria

County Government resources are allocated based on the following criteria;

- i) Special consideration is given to on-going programmes/projects;
- ii) Expected outputs and outcomes of the Programme;
- iii) Linkage of the Programme with the objectives of the County Government, the Governor's Manifesto and the CIDP;
- iv) Degree to which the Programme addresses core poverty interventions;
- v) Degree to which the Programme is addressing the core mandate of the department; and
- vi) Cost effectiveness and sustainability of the Programme/projects.

4.3 Proposed budget by Programme

To implement the projects and programmes identified in chapter three, the table presents the proposed budget by Department and Programme.

4.5 County Revenue Sources

i) Total Revenue

The major source of revenue for the County Governments is the equitable shareable revenue, grants and Equalization Fund from the National government. These revenue components are provided in the Kenya constitution and the Commission on Revenue Allocation (CRA) is mandated to oversee their allocation. The revenues from the National government and own sources for the FY 2022/23 are as presented.

ii) Revenue from the foreign governments

In order to address the budget deficit that arise, the County government may seek for funds from foreign governments inform of grants and donations. This will be done through engagement

between sectors and the foreign government targeting specific projects and programmes for example water provision, health and agricultural improvement.

iii) Public Private Partnership

The County government has a potential to build partnership with private organization which would encourage partnership that would bring financial and material support.

iv) Debt Financing

The County Government envisages borrowing to finance budget deficit for its capital projects. Through analysis of borrowing approach, County Government will use the debt model that is less costly and sustainable in the long run. The various sources of borrowing available to the County Government involves: Borrowing from Commercial Banks, Central Bank of Kenya, stock market and borrowing external sources.

4.6 Estimated Resource Gap

The total resources required for implementing development projects and programmes identified in this plan is **KES 8.175 billion**, though the total revenue the government forecasts to raise for the financial year 2022/23 is **KES 14.23 billion** for both development and recurrent expenditure.

4.7 Measures to address the Gap

- i) Strengthening Capacity of Kakamega County Revenue Agency (KCRA)** – The County Government created the KCRA to manage all matters relating to the administration and enforcement of County revenue laws and the assessment and collection of rates, taxes, fees and charges payable by or under the County Revenue Laws. To improve performance of the Agency, the County Government will strengthen its capacity through recruitment of more officers, training the staff and availing the tools and equipment necessary to execute mandate;
- ii) Revenue Collection legislation** – The County Government will continue to review the Revenue Collection Laws with a view to addressing any loopholes that have constrained revenue collection;

- iii) **Revenue Clinics** – The County Government will hold tax clinics to sensitize tax payers on the importance of self-compliance. The tax payers will be informed among other things their rights and obligations;
- iv) **Investment Promotion** – The County Government established Kakamega County Investment and Development Agency (KCIDA) for promotion and coordination of investment in the County;
- v) **Public Private Partnership (PPP) Financing** – Emphasis will be laid on the use of PPPs to finance the flagship projects in the various departments;
- vi) **Debt Financing** – The County Government envisages borrowing to finance budget deficit for its capital project. Through analysis of borrowing approach, the County will use the debt model that is less costly and sustainable in the long run. The various alternative sources borrowing for the County Government involves: Borrowing from the Commercial Banks, Central Bank of Kenya, stock market and borrowing externally.

4.8 Risks, Assumptions and Mitigation Measures

Table 9: Risks, Assumptions and Mitigation Measures

Risk	Assumptions	Mitigation Measures
Political instability	Political stability	Civic education Political truce
Inadequate revenue to implement the plan	There will be sufficient revenue	Expanded revenue streams Sealing of loopholes in revenue leakage.
Erratic weather conditions	Favorable weather conditions	Enhance use of climate smart technologies

CHAPTER FIVE: MONITORING AND EVALUATION

5.1 Chapter Overview

The chapter explains how projects and programmes to be implemented during the plan period will be monitored and evaluated. It also outlines verifiable indicators that will be used to monitor the progress of implementation of projects and programmes.

5.2 Monitoring

Monitoring entails collection and analysis of data to determine whether planned activities have been done. Monitoring of the entire process from planning, designing and implementation is very important as it keeps the planned activities in check, reduces duplication, wastages, allows for remedial measures to be taken and ensures the projects/programmes are delivered on time.

a) Monitoring and Evaluation Exercise

The Monitoring and Evaluation Unit in the department of Economic Planning and Investments will monitor progress of implementation of projects and programmes. The unit will carry out quarterly monitoring and evaluation of the progress of implementation of planned projects and prepare reports for submission to relevant personnel for action.

b) Review Meetings

After preparation of the monitoring report, there shall be review meetings to assess the report and map a way forward. This will keep the plans' activities and outputs on track during implementation, and enable the relevant personnel to identify and take necessary actions to address any emerging issues.

5.3 Evaluation

Evaluation entails checking the impacts the project/Programme activities have had on the community. It builds on the monitoring process by identifying the level of short to medium-term outcomes and long-term impacts achieved; the intended and unintended effects of these achievements; and approaches that are working well and those that do not work well.

The evaluation process will be done at the end of the plan period to ascertain the level of implementation of the Programmes and achievement of the plan objectives. This will involve checking on appropriateness, effectiveness, efficiency, lessons learnt and also provide feedback.

5.4 M & E Structure in the County

The following is the M&E structure in the county;

i) County M & E Committee (CoMEC)

This is a Committee based at the County level chaired by the County Secretary and whose membership comprise of County Chief Officers and Clerk of County Assembly. The Chief Officer County planning is the Secretary and convenes the Committee meetings.

ii) Technical Oversight Committee (TOC)

The Committee is chaired by the Chief Officer Planning and membership includes the representatives of heads of County departments. The secretary and convener is the head of County M & E unit.

iii) M & E Unit

The Unit is chaired by the Head of County Economic Planning department and membership comprise of M & E Officers of the various departments. The secretary and convener is the County M & E officer.

iv) Department M & E Committee (DMEC)

The membership of the committee comprises the department sectional heads. It is chaired by the department Chief Officer and the secretary is the department officer in charge of Planning. The convener is the Chief Officer. This Committee is in charge of coordinating M & E activities at the department level.

v) Sub-county M & E Committee (SCoMEC)

The committee is chaired by the Subcounty Administrator and the secretary is the officer in charge of Planning at the Subcounty level. The convener is the Subcounty Administrator.

The membership comprises of the Subcounty heads of departments and the Committee is in charge of coordinating M & E activities at the Subcounty level.

vi) Ward M & E Committee (WaMEC)

The committee is chaired by the Ward Administrator and the secretary is the officer in charge of planning at the Subcounty level or his/her representative. The convener is the Ward Administrator. The membership comprises of the ward heads of departments and the Committee is in charge of coordinating M & E activities at the ward level.

5.5 Reporting

Reporting is important in this process because it provides feedback to establish the challenges, successes and weaknesses in the implementation of various projects and programmes and whether the set objectives have been achieved or are on course. Monthly Monitoring and Evaluation Reports will be prepared and submitted to the County Planning Unit (CPU) in order to prepare progress reports.

County, Sector and Subcounty Quarterly Monitoring and Evaluation Reports will be prepared and submitted on quarterly basis. A County Quarterly Monitoring and Evaluation Report (CQMER) and a County Half Year Monitoring and Evaluation Report will also be prepared to capture progress during a quarter period of the year and half period of the year respectively. Finally, a County Annual Monitoring and Evaluation Report (CAMER) is to be produced and submitted to the County Planning Unit for preparation of Annual Progress Report. These reports will outline in summary from projected targets achievements, facilitating factors and challenges faced. These reports prepared by CPU are for submission to the Governor's office for information, use and dissemination to the stakeholders. Issues requiring policy interventions will be submitted to the County Executive Committee for action.

5.6 Data Collection, Analysis and Reporting

The monitoring and evaluation exercise will be carried out by the officers from the County department of Economic Planning and Investments together with relevant technical officers from the implementing department and public works personnel where necessary. The exercise will entail physical observation of the projects and programmes being implemented, actual

verification of items delivered where applicable and survey of stakeholders to ascertain the impact of the projects/programmes.

The Monitoring and Evaluation data will be analyzed and reports prepared for submission to the Governor for his information and appropriate action. These reports will outline in summary the period achievements, shortcomings, challenges faced and recommendations. The reports shall be stored manually in the manual files as backups but shall also be stored electronically. All implementation progress reports will be posted on the official County website. The annexed tools will be used for data collection during the field exercise.

5.7 M & E Indicators

A list of indicators relating to the overall strategic objectives of the plan has been developed. This will enable the monitoring of the activities of the projects and programmes being implemented and provide information on whether the aims are being met.

The following are the indicators developed;
