FORWARD

An Annual Development Plan (ADP) refers to a summary of specific development projects/programs for a given financial year.

Mandera county Annual Development Plan 2022/2023 considered proposals contained in the second Generation County Integrated Development Plan (2018-22).

This Annual Development Plan will inform and guide the budgeting process for the coming financial year.

Successful implementation of the programs/projects envisaged in this Annual Development Plan will result into better delivery of services to our people while contributing immensely to the growth of the local economy.

It is important to note that as a county government we have developed a county integrated development plan which is our blue print and hence no public funds shall be appropriated outside a planning framework developed by the county executive committee and approved by the county assembly. The County Integrated Development plan (CIDP) provides the foundation for the preparation of the County Annual Development Plan (CADP) which provides comprehensive baseline information on infrastructural and socio-economic characteristics of the county and will be the basis of spending and budgeting in the county for financial year 2022/2023. It is expected that successful implementation of the programs/projects envisaged in this Annual Development Plan will result into better delivery of services to *mwananchi* while contributing immensely to the growth of the local economy.

This Annual Development Plan for the Financial Year 2022/2023 implements the fifth County Integrated Development Plan 2018-2022(CIDP) pursuant to section 126 of the Public Finance Management Act (2012). It outlines the broad development programmes and objectives, with clear outputs and indicators to be achieved by the county in FY 2022/2023.

It is important to note that as a county government we have developed a county integrated development plan which is our blue print and hence no public funds shall be appropriated outside a planning framework developed by the county executive committee and approved by the county assembly. The County Integrated Development plan (CIDP) provides the foundation for the preparation of the County Annual Development Plan (CADP) which provides comprehensive baseline information on infrastructural and socio-economic characteristics of the county and will be the basis of spending and budgeting in the county for financial year 2022/2023. It is expected that successful implementation of the programs/projects envisaged in this Annual Development Plan will result into better delivery of services to *mwananchi* while contributing immensely to the growth of the local economy.

Finally, to the people of Mandera County what will matter most is the delivery of services promised to them by the Government. The annual plan will be successful if that objective is met in a way that demonstrates improvement in the quality of life for the citizens.

SULEKA H. HARUN CECM FINANCE AND ECONOMIC PLANNING MANDERA COUNTY GOVERNMENT

ACKNOWLEDGEMENTS

The Mandera County Annual Development Plan (ADP) 2022-2023 has been made possible through the integrated efforts of all the county departments. Despite the challenges faced in the collection of information and in meeting the statutory requirements for public participation in this planning process, the CADP 2022-2023 has been prepared in the prescribed format.

I wish to express my gratitude to H.E The Governor **CAPTAIN ALI IBRAHIM ROBA** and H.E The Deputy Governor for providing direction and support in the preparation of this annual plan. Special thanks also goes to the County Executive Committee Member for finance and Economic Planning **Hon Suleka H. Harun** for the motivation, guidance, support and visionary leadership he provided in the preparation of this plan. I also appreciate County Executive Committee Members, my colleagues Chief Officers, CSPB and municipality manager for their dedication, contributions and unwavering support.

I wish to also particularly recognize and acknowledge the technical officers from various Sector Working Groups for designing of programs and submission of reports, The County Planning Unit and ADP preparation Secretariat headed by Deputy Director Mr. Ali Wethow, Senior Fiscal Analyst, Mr. Shakir Adan, the county economists including Mr. Abdi Ibrahim, Mr. Osman Abdikarim, Mr. Abdullahi Abass, Mr Adan Ahmed, Mr Ahmed Mohamed, Mr. Ibrahimrashid Mohamed and Mr Mohamed Adan for co-ordination and compilation of the document.

I wish to take this opportunity to express my personal and institutional gratitude to all those individuals and organizations I could not mention by name but in very diverse ways made production of this County Annual Development Plan 2022/23 a success.

Finally, I am confident that CADP will be a special tool in decision making in all departments, budgeting and spending in the county for efficient and effective service delivery and in attaining developmental aspirations as indicated in vision 2030 and sustainable development goals (SDGs).

FARTUN BULLE IBRAHIM CHIEF OFFICER, DEPARTMENT OF ECONOMIC PLANNING & STATISTICS

EXECUTIVE SUMMARY

The Mandera county Annual Development Plan for the FY 2022/2023 is the fifth to implement the medium term development plan (CIDP 2018-2022). It is prepared pursuant to Section 126 of the Public Finance Management Act. The plan starts by providing brief background from which development programs, projects and priorities are identified and continues to outline key projects and programs that will be implemented by County government departments and agencies during the plan period.

The Plan is divided into five chapters as follows;

Chapter One: gives the background information on the socio-economic and infrastructural status that has a bearing on the development of the County. The chapter provides description of the County in terms of the location, size, demographic profiles as well as the administrative and political units.

In addition, it provides information on infrastructure and access; crop, livestock and fish production; forestry, environment and climate change; mining; tourism; trade, industry, cooperatives and labor; water and sanitation; health and nutrition; education and literacy; energy; transport and communication; and community development and social welfare.

Chapter Two: reviews the performance of the county in terms of implementing the 2020-2021 ADP giving the achievements (CIDP Implementation milestones), challenges, and strategies to mitigate the challenges and proposed programs and projects.

Chapter three: provides an outline of development projects, programs and priorities to be implemented in the plan period. In each sector, the chapter outlines the county sectorial vision, mission, and sectorial project and program priorities. Each sector outlines the Program, objective(s) and outcome of the program and all projects under the program are presented in a matrix form consisting of: name of project; description of activities; target; location; provisional budgetary allocation in the financial year; the key performance indicator that will be used to measure progress and the expected key output of each project.

Chapter four: gives a summary of the proposed budget by programs and sectors. It also provides a description of how the county government of Mandera is responding to changes in the financial and economic environment

Chapter Five: This Chapter describes Monitoring and Evaluation structure in the County. It further details the process involved including data collection, analysis and reporting. This chapter helps in tracking implementation of programs and projects.

Legal Basis for the Preparation of the ADP and the Link with CIDP and the Budget

The annual development plan is prepared in accordance with section 126 of the Public Finance Management Act, 2012. The law states that:

(1) Every county government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes—

Strategic priorities for the medium term that reflect the county government's priorities and plans; A description of how the county government is responding to changes in the financial and economic environment:

programmes to be delivered with details for each programme of-

- I. The strategic priorities to which the programme will contribute;
- ii. The services or goods to be provided;
- iii. Measurable indicators of performance where feasible; and
- iv. The budget allocated to the programme;

Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;

A description of significant capital developments;

A detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;

A summary budget in the format required by regulations; and Such other matters as may be required by the Constitution or this Act.

The County Executive Committee member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations.

The County Executive Committee member responsible for planning shall, not later than the 1st September in each year, submit the development plan to the county assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury

LEGAL BASIS FOR THE PREPARATION OF ANNUAL DEVELOPMENT PLAN

The annual development plan is prepared in accordance with section 126 of the Public Finance Management Act, 2012. The law states that:

Every county government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes—

Strategic priorities for the medium term that reflect the county government's priorities and plans; A description of how the county government is responding to changes in the financial and economic environment;

programmes to be delivered with details for each programme of- i The strategic priorities to which the programme will contribute; ii The services or goods to be provided; iii Measurable indicators of performance where feasible; and iv The budget allocated to the programme;

Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;

- a description of significant capital developments;
- a detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;
- a summary budget in the format required by regulations; and

Such other matters as may be required by the Constitution or this Act.

The County Executive Committee member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations.

The County Executive Committee member responsible for planning shall, not later than the 1st September in each year, submit the development plan to the county assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury.

1.2Annual Development Plan Linkage with CIDP

County Integrated Development Plan (CIDP) is a five year plan which set the strategic mid-term priorities of the county government. It contains programs with specific goals and objectives, costed implementation plan, monitoring & implementation framework and clear reporting framework. The CIDP forms the basis for all the budgeting and planning in the county and is implemented through a series of one-year plans known as County Annual Development Plans (CADPs).

The County Annual Development Plan (ADP) guides resource allocation to priority projects and programmes in a particular year. It is prepared in accordance with Section 126 PFMA, 2012 that requires county governments to prepare an Annual Development Plan (ADP) in accordance with Article 220 (2) of the constitution.

CADP is a one year plan drafted from the five year county integrated development plan CIDP.CADP is developmental tool that is used to implement the CIDP in order to achieve the effective, efficient and relevant outcome as clearly explained in the national vision 2030 and sustainable development goals. CADP also borrows the timeframe of tasks completion, estimated costs to be incurred and the indicators towards the desired goal from CIDP.

1.3 Preparation process of the Annual Development Plan

The plan was prepared through a participatory process and involved data collection from the County government departments, general public and other stakeholders. A circular prepared by the County Executive Committee member of Finance and Economic Planning was sent to all accounting officers to guide them on how to prepare sector reports. The sectors were to incorporate views from key stakeholders into their reports and ensure the development priorities and strategies were in line with the County Integrated Development plan (2018-2022). The reports were used in the production of the County Annual Development Plan of FY 2021/2022.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP.

2.1: Introduction

This section should provide a summary of what was planned and what was achieved by the sector/sub sector. The section should also indicate the overall budget in the ADP versus the actual allocation and expenditures as per sector/ sub-sector.

2.2. Sector/Sub-sector Achievements in the Previous Financial Year

Outline the achievements in sector/sub-sector of the county using the following format;

2.2.1 Office of the Governor

The office of the Governor provides overall county leadership and coordination in the County Administration.

Strategic priorities of the sector

- ➤ Provide strategic leadership to county executive committee in executing their mandate in the county's governance and development.
- Overall coordination of County government activities Promote democracy, governance, unity and cohesion
- ➤ Coordinate intergovernmental, non-state actors and donor relations

> Promote peace, integration and order within and outside the county •Promote competitiveness of the county through performance management

CHAPTER FIVE: MONITORING AND EVALUATION

This chapter should discuss the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES). The outline of the section should contain the following:

5.1 Introduction

This chapter presents the monitoring and evaluation framework that will be used to track progress on implementation of programme and projects at the county level. This will be conducted through Mandera County Integrated Monitoring and Evaluation System (CIMES) whose main aim is to improve the effectiveness in tracking the implementation of various development policies, strategies and programme. To ensure that there is a clear way of measuring performance; Mandera County will develop a Performance Management Plan that will see that all commitments made in the ADP are translated into performance contracts with public officers in the county.

5.2 Institutional Framework for Monitoring and Evaluation in the County

Monitoring and Evaluation framework will be managed at the departmental level and coordinated by the Economic Planning. The CIMES guidelines and structures will be followed in M&E at the County level. The public and implementing agencies will be engaged through these structures in monitoring and evaluating the implementation of the CIDP.

Evaluation will be conducted with project improvement and policy enlightenment hence acting as "decision-oriented" evaluation. This will provide valuable insights into how the project is operating, the extent to which it is serving the intended beneficiaries, its strengths and weaknesses, its cost – effectiveness and potentially productive directions for the future. This evaluation will also provide the information for decision – thus helping to set priorities, guides the allocation – of resources, facilities the modification and refinement of project structures and activities; and signal the need for additional personnel & resources. Finally, it is also intended to determine a change of course for a project. Actual results of development projects shall be measured in relation to the planned outcomes.

All projects will have a component on monitoring and evaluation right from the initial stages. Project planning accountability will entail an effort to meet the diverse information interests and expectations of all those who have a stake in a project – e.g. beneficiaries, managers, staff, donors, public at large.

The county will undertake two types of evaluations for various projects namely mid-term and end of project evaluations: Mid-term will be undertaken to review progress and propose alterations to project design during the remaining period of implementation while end of project evaluation will be conducted at the completion of the project period. The specific types and timing of evaluations for various projects will be determined at the design and planning stage of each project. The matrix details the names of sub programme, costs, timeframes, monitoring indicators, monitoring tools, implementing agencies, source of funds and implementation status for the various sectors. For effectiveness, participatory methods and tools will be used throughout the project stages from design to evaluation. Monitoring will entail continuous collection of data, collation and analysis of data for decision and for use in subsequent evaluation events.
