COUNTY EXECUTIVE

Part A: Vision.

A leading department in public policy formulation, coordination, supervision, resource management in the county

Part B: Mission.

To provide overall leadership and policy direction in resource mobilization management and accountability for quality service delivery.

Part C: Performance Overview & Background for Programme(s) funding

The executive services comprises of the office of the governor and deputy governor and county executive committee. The executive authority of the county is vested in and exercised by the county executive.

Major achievements for the period include; Construction and completion of the Governor's Office which is now complete, purchase of more office furniture improving working environment for the staff and the clients seeking services from this office and purchase of 3 hard top land cruisers for efficient delivery of services by the directorates in the office of the Governor.

Further improvement of ICT services, initiating Performance Contracting System for the County staff with major objective of ensuring achievement of the vision of the County was developed. Employment of more personnel in Human Resources and Communication units to enhance service delivery of the directorates and successful implementation of the Moyale peace restoration programme in collaboration with other stakeholders such as National Government and United Nations team and Provision of emergency relief food to various parts of the County affected by the prolonged drought. Economic advisory and successful bench-marking visits to various countries which has attracted investors and donors from energy and livestock sector.

Part D: Strategic Objective of the Programmes

PROGRAMMES	OBJECTIVE			
P1: Management of county affairs	To ensure good management for maximum and appropriate utilization of both human and material			
	resources in the county.			
P2: County advisory services To provide appropriate direction for the coule leadership, focusing on development.				
P3: County Information and Communication Services	To collect, collate and disseminate credible information to promote knowledge based society			
P4: Inter - Governmental Relations	To efficiently coordinate the inter-governmental functions.			
P5: Legal Services	To promote rule of law, good governance and provision of quality legal services.

County Treasury

Part A: Vision

To be a department of excellence in economic and financial management

Part B: Mission

To pursue prudent economic and fiscal policies and effectively coordinate county financial operations for rapid and sustainable development

Part C: Performance Overview and Background for Programme(s) Funding

Finance and Economic Planning in the County is responsible for Accounting; Revenues; Audit; Procurement; ICT; Budgeting and Planning. One of the key objectives is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The County Treasury is critical in creating and facilitating sustainable development to allow the coordination of County financial affairs. The Treasury is responsible for the distribution of funds to various sectors and programmes. The Treasury ensures compliance of various conditions set to allow the access of funds from the National Treasury. The mobilization of revenue from local sources is a key responsibility of the department. The department ensures that the funds are distributed in order of priority.

During the financial year 2014/2015, the County Treasury was allocated a recurrent budget estimate of Kshs. 649,917,729.40. This amount includes Ksh. 194,983,565 pending recurrent bills carried forward from financial year 2013/2014, Ksh. 65M allocated to CEC members for car loans and mortgage and Ksh. 200M for civil contingency and famine relief. The amount also included Ksh. 20M allocated to scholarship and other education benefits, Ksh. 40M emergency fund and Ksh. 33M allocated to motor vehicle insurance for all the County motor vehicles.

The County Treasury was further allocated Ksh. 1,196,213,997 development expenditure. This amount included Ksh. 1,072,213,997 being pending development bills brought forward from FY 2013/14, Ksh. 100M as pro – poor and other institutional support programme and Ksh. 7M for monitoring and evaluation. A further Ksh. 10M was allocated to investment promotion programme and Ksh. 4M to establish revenue collection centres. The department further allocated Ksh. 3M for the development of county assets management register.

During the FY 2015/2016, the allocation towards the county treasury was Ksh. 986,268,307. This amount is inclusive of Ksh. 426,268,307 (Recurrent), Ksh. 500M as pending bills and 60M for other development projects including Pro-poor and other institutional support programmes.

During the financial year under review, the county treasury managed to make full utilization of the IFMIS and Internet Banking systems in making all its payments with minimal network challenges.

The County Treasury also faced a number of challenges in discharging its mandate. Lack of adequate number of PFM staff at the treasury greatly hampered the turnaround time in processing of payments. This is a challenge that the treasury would firmly address during the financial year 2018/19.

During the financial year 2018/19, the department intends to do a capacity building for all the CEC members, chief officers and all the technical staff of the county departments on programme based budget linked to outputs and outcomes with performance measurement system.

The County Treasury shall also provide guidelines to ensure that government procurement opportunities for women, youth and persons with disability are adhered to and further do capacity building on the new procurement law.

For the successful implementation of Budget 2018 /19 and for future Budgets, the County Treasury shall at all times conduct public participation exercise in the budget process and ensure that at the very minimum, all the budget documents as required by the PFM law, are published and publicized in a timely fashion.

Budget implementation especially for the development expenditure is a recurring problem and there seems to be no significant traction by departments in resolving the causes of low absorption rates. Low absorption was also attributed to delay in the release of national shareable revenue to the County. With the improvement of exchequer releases expected in future, adequate focus on institutional capacity and systems at the County shall be put in place to improve budget implementation to the level that is consistent with desired outputs and goals.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and	To facilitate the delivery of services to empowered,
Support Services	informed customers by an efficient, effective and
	service-oriented County Treasury staff.
P2: Public Financial Management	To develop, sustain and safeguard a transparent
	and accountable system for the management of
	public finances.

Agriculture, Livestock and Fisheries

Part A. Vision

To be the leading agent in food security for all, employment creation, income generation and poverty reduction in Marsabit county

Part B. Mission

To improve livelihoods of Marsabit county community by promotion of competitive farming business through appropriate policy environment, effective support services and sustainable natural resources management

Part C. Performance Overview and Background for Programme(s) Funding

DEVELOPMENT ACTIVITIES: 2013 - 2017:

- Support to Fodder Production Procurement of 2000kgs of various species of pasture seeds.
- Construction of 4 fodder stores Maikona and Hurri Hills.
- Support monitoring, Control and Surveillance Lake Turkana Through Purchase of 4 Motor Boat.
- Support fish harvesting Procurement and distribution of KES.13 M worth of fishing gears.
- Support construction of Fish Cold storage facilities Illeret and Loiyangalani.
- Support to honey production through procurement of bee harvesting kits.
- Procurement of various types of Agricultural seeds 19MT.
- Purchase and distribution of Agricultural chemicals and weed control equipment to control pest outbreaks.
- Desilting of 10 earth pan to support micro-irrigation.
- Support Greenhouse technology Purchase and Installation of 24 green house
- Support installation of Biogas technology at Marsabit and Moyale slaughter houses.
- Promote veterinary public health Renovations of Marsabit, Moyale, Laisamis Slaughter houses.
- Construction of Mini slaughter house at Gas, North Horr sub-county.
- Support construction of Livestock marketing at various locations in the county.
- Purchase of 28 motor bikes to support extension services to farmers.
- Procurement of 11 tractors and tractor accessories to support Agricultural Mechanisation services.
- Purchase of 3 vehicles to support activities of department.
- Installation of 5 solar fridges support cold chain for vaccinations.
- Establish one seed bulking centre.
- Support expansion of 1 Kurungu irrigation scheme at. South Horr

- Support disease Control initiatives Procurement of vaccines and diagnostic services.
- Purchase 1 mobile veterinary clinic vehicles.
- Renovation of Diagnostic laboratory at Shurr.

Part D: Programme Objectives/Overall Outcome

Programme	Objective		
·	To provide efficient and effective support services for		
Support Services	departmental programmes.		
P2: Crop Development and Management	To increase agricultural productivity and outputs.		
P3: Livestock Resources Management and	To promote, regulate and facilitate livestock production for		
Development	socio – economic development and industrialization.		
P4: Fisheries Development and Management	To maximize contribution of fisheries to poverty reduction,		
	food security and creation of wealth.		

Part E: Summary of Expenditure by Programmes, 2018/2019 – 2020/21(KShs.)

Programme	Estimates	Projection	
	2018/19	2019/2020	2020/21

	Exposure tours	Number of exposure tours conducted	2	2
	Stake holders forums	Number of forums conducted	1	1
	Fisheries policies/regulations review and domestication	Number of existing policies/regulations reviewed and domesticated	2	2
	Establishment of new county fisheries regulations/guidelines where appropriate	Number of new county fisheries regulations/guidelines	2	2

	Initiation, Strengthening, Signing and implementation of joint Lake Turkana	Number of Lake Turkana Fisheries Resource Management Plan / Agreements initiated and in place	1	1
	Fisheries Resource Management Plan / agreement (Marsabit/Turkana/Samburu	% of management plan Implemented	30%	40%
	Counties; National government and immediate related stakeholders	Number of projects initiated / stake holders and collaborators or sponsors brought on board	2	2
		Number of annual Management steering groups/members held	1	1
		Number of quarterly Reports Submitted on Management Plan progress status	4	4
Directorate of fisheries	Establishment and operationalization of Fish cold storage facilities and ice	Number of cold storage facilities and ice production centres established	2	2
development	production centres	Number of fish handling and processing facilities (shades) constructed at the fish landing beaches	2	2
		Number of deep freezers/cooler boxes procured for fish storage and handling at landing beaches	2	2
	Up-scaling use of solar driers technology	Number of solar driers established	3	3
	Support private sector to establish Fish eateries or Kiosks or facilitate enabling	Number of fish eateries/kiosks established	3	4
	environment during transportation in Major market sector.	Number of active fish transporters supported	3	4
		Number of fish transportation vessels procured	3	3
	Conduct Eat More Fish Campaign	Number of eat more fish campaigns conducted	4	4
	Advertisement and publicity of lake Turkana Fish market information (Songs	Number of advertisement and publicity done	4	4

and dance)			
Formation and strengthening of BMUs and	Number of B.M.U.s formed and strengthened	10	10
Co-operative and linkage to financial			
Institutions for credit facilities.	Number of financial facilities and institutions linked and accessible to the fisher-folks	2	2
Fish value addition &Mini processing plant establishment	Number of mini processing plants established	1	4
	Number of fish value addition promoted, supported and adopted among the fisher-folks	1	1
Support Routine lake Patrols & M.C.S.	Number of Monitoring, Control & Surveillance (M.C.S) / routine patrols done	3	3
Prosecution of offenders	Number of offenders prosecuted	10	10
Removal and destruction of illegal Fishing gears	Number of illegal fishing gears confiscated and destroyed	200	200
Sea safety and Disaster preparedness trainings to fisher-folks	Number of Sea safety trainings done	3	3
3 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	Number of people trained on Sea Safety and Disaster preparedness / Response	30	30
Provision of sea safety and rescue equipment	Number of safety and rescue equipment procured and distributed	150	150
Emergency rescue response	% increase in Emergency Preparedness and Rescue Response	20%	30%

County Public Service Board

Part A. Vision

A leading county department in coordination, supervision and prudent human resource management

Part B. Mission

To formulate and implement policies, programmes and activities that form the best human resource practices towards a lean, productive and highly motivated Public Service

Part C. Performance Overview and Background for Programme(s) Funding

The County Public Service Board is responsible for ensuring uniformity of norms and standards for establishing and abolishing offices in the County Public Service; appointing persons to hold or act in those offices and confirming appointments. The Board is also responsible for exercising disciplinary control over and removing persons holding or acting in those offices. In addition, it oversees the implementation of policies on human resource management and development; and promotion of labour relations in the County Public Service.

The department's core functions include among other things provision of effective leadership in human resource policy formulation and implementation, development of a coherent, integrated human resource planning and budgeting for personnel emoluments in the county, monitoring and evaluating the organization and administration of county personnel and above all ensure that the County public service is efficient and effective. In the year 2013/2014, the department was allocated Kshs 88.7 million. Some of the major achievements for the period include: recruitment of county civil servants for different departments, conducting interviews and deployment of chief officers and county secretary among others. The department is currently developing a county human resource policy. Some of the challenges include lack of office space and inadequate budgetary resources. In the year 2014/2015, the board was allocated Kshs. 60M recurrent and Kshs. 7M development expenditure estimates. The board carried out a number of activities including skills enhancement programmes and completion and launching of county human resource policy. The board also constructed a registry block and acquired registry equipment. During the same period the board also signed performance contracts with the county government.

Part D: Programme Objectives/Overall Outcome

Programme		Objective
P1 : General Administration, Planning	and	To improve service delivery and provide supportive
Support Services		function.
P2: Human Resource Management	and	To transform public service to be professional,
Development		efficient and effective in the delivery of services.

Education, Skills Development, Youth and Sports

Part A. Vision

To provide competitive and transformative quality education in the county, be a leader in nurturing and empowering youths and sports.

Part B. Mission

To provide, promote and coordinate quality education and training to maximize full potential of the youths and sports persons through participatory engagement that serves their needs and aspirations in building Marsabit County.

Part C. Performance Overview and Background for Programme(s) Funding

The Department consists of four sections namely; Education, Skills development (youth polytechnics), Youth and Sports. In the FY 2014/15 the Department was funded to a tune of Kshs: 228,277,261.90 (two hundred twenty eight million two hundred seventy seven thousand five hundred and sixty one and ninety cents) which Kshs. 72,477,561.90 were recurrent expenditure and Kshs. 155,800,000.00 development expenditure.

The Department has been able to fence Merille and Umuro Youth Polytechnics while construction of masonry workshop at Obbu YP, twin workshop, administration block, 2no.classroom and a double door pit latrine at Saku YP, and a double door pit latrine at Moyale YP are ongoing. The department is also constructing 30 ECDE classrooms all over the County and providing furniture's and learning materials to 90 ECDE centres. We are also in the process of upgrading Marsabit stadium by constructing a perimeter wall and doing internal works.

The department has successfully implemented several programmes. These include;

- I. ECDE teachers in-service course
- II. Standard assessment for schools and polytechnics
- III. Ballgames tournament
- IV. Capacity building for YP principals and boards of governors
- V. Interviews for YP instructors and sub county youth & sports officers
- VI. Recruited and deployed 120 ECDE caregivers
- VII. Recruited and deployed sub county ECDE officers
- VIII. Youth talent search
- IX. Trained 40 youth mobilizers

In the FY 2018/19 the Department intends to continue with infrastructural development and modernizing the procedures and processes in all the institutions.

CHALLENGES AND CONSTRAINTS

- > Due to expansiveness of the county and the poor road network, it has been very difficult to access the institutions as may be required and in good time
- Non-availability of ready transport (office, public and private)
- Lack of adequate facilitation (subsistence allowances) of the officers
- ➤ Lack of adequate office space and equipment
- Inadequate personnel to man all the sub-county offices and youth polytechnics

SOLUTIONS

- Purchase of vehicle to ease transport difficulties
- > Erection of more office space
- > Employment of more officers
- > Procure more lap tops and other working tools for officers
- Provision of internet services

The Department is hopeful that with intense public participation and proper consultation with relevant stakeholders, it will achieve its objective of effectively and efficiently delivering service to its clients.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To provide leadership and policy direction for effective service delivery.
P2: Pre – Primary Education	To enhance access, quality, equity and relevance of education at ECD centres in the County.
P3: Youth Development	To provide access to quality and relevant training to young people in the County.
P4: Vocational Education and Training	To develop and promote access and equity; quality and relevance to vocational education and training for skills development.
P5: Sports	To improve sports performance in the County.

COUNTY HEALTH SERVICES

Part A. Vision

High quality, responsive Health Care System

Part B. Mission

To build, promote and participate in provision of integrated, accessible, acceptable, affordable, efficient and high quality Health Care services to Marsabit County population.

Part C. Goal

To achieve the highest possible standard of Health that is responsive to the needs of the Marsabit County population.

Part D. Performance Overview and Background for Program(s) Funding

The county health Program based budget (PBB) is part of the ongoing reform processes meant to deepen implementation of devolution as stipulated in the County Government Act, 2012. The development of this Budget has been guided by key health sector policy documents namely: Constitution of Kenya, 2010 and other devolution related legislative frameworks (County Government Act, Public Finance Management Act, 2012, Intergovernmental Relations Act, 2012), Kenya Health Policy, 2013-2030, Kenya Health Sector Strategic Plan 2013-2017, Vision2030, Medium Term Plan (MTPII) 2013-2017 and Marsabit County Integrated Development Plan. Community participation was considered in coming up with this budget The County Health Sector Strategic and Investment Plan 2013/14 – 2017/18 provides a common framework meant to guide health sector investment and development for the next five years.

The process

Based on the planning and budgeting guiding principles outlined in County Government Act, 2012, the Public Finance Management Act, 2012, and the guidelines from the Ministry of Health, national government, the County Department of Health established technical working group that steered the development of the budget. The methodology used during this process entailed application of strengths, weaknesses and opportunity (SWOT) analyses. The output of the SWOT informed the priorities and strategies in this plan.

Strategic objectives

In this budget the six strategic objectives have been defined to reflect the type of health outcomes that is envisaged after investment and deployment of various health inputs. They are:

- To eliminate communicable conditions.
- To halt and reverse the rising burden of non-communicable conditions
- To reduce the burden of violence and injuries
- To minimize exposure to health risk factors
- Provide essential curative health services
- To strengthen collaboration with health related sectors

Priority Investment areas

To be able to achieve the strategic objectives the Department will focus on priority investment areas:

- Human resources for health. The county will develop policies and systems to support attraction and retention of health workforce
- Essential Health products and technologies. The multiple approaches to procurement, distribution and storage of EHPTs significantly reduce the values in the economies of scale. The county will ensure coordinated EHPTs logistical management.
- Health service provisions. During the budget period the Department will ensure access to quality health services due to coordinated approach to investments
- Health information management systems. The current inadequate and poor quality information is a hindrance to prompt and informed decision.
- Leadership and governance. A coordinated approach to health care delivery by all stakeholders is critical for maximum delivery of health services. Structures and mechanisms for joint planning, implementation and review will be prioritized and capacity gaps addressed.
- Partnerships. Structured partnership amongst health sector players is prerequisite for effective health delivery. During the budget period the potential of private sector to delivery public health services will be explored under various modes of public private partnerships. In addition, the Department will put efforts to strengthen intergovernmental consultative mechanisms to enhance synergy.

Part E: Program Objectives/Overall Outcome

Program	Objective
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive function to sections/sub-departments of health.
P2:Preventive &Promotive Health Services	To reduce incidence of Preventable Diseases and ill Health.
P3: Curative and rehabilitative Health Services	To improve health status of the individual, family and community level by ensuring affordable health care services.
P4: Maternal and Child Health	Reduced maternal and child mortality rates.

Part F: Summary of Expenditure by Programmes, 2018/19 – 2020/21 (KShs.)

Administration, Coordination and ICT

Part A. Vision

To be a leading Coordinating Department for Public Administration, citizen participation and ICT for effective service delivery and implementation of Devolution

Part B. Mission

To provide effective and efficient leadership in Public Administration, citizen participation and ICT through co-ordination of County Government departments and other stakeholders in delivery of services.

Part C. Performance Overview and Background for Programme(s) Funding

Ministerial Performance Review including major achievements for the period; expenditure trends;

The Department of Public Administration, ICT and Disaster Management has four directorates namely Public Administration, ICT, Public Participation & Civic Education and Cohesion and Disaster Management.

The main role of this Department is general public administration & coordination of the devolved functions, provision of ICT services, conflict management and public participation. This Department is vital in ensuring the success of the devolution process.

Since its inception, the Department has made the following milestones: -

- Offices for the Sub County and Ward Administrators in most administration units have been constructed and operationalized. In addition, in most of these units, fencing and other utilities have been put in place to ensure security of each office compound.
- 2) The department has acquired twelve Toyota vehicles and eighteen motorcycles that have greatly facilitated mobility of administrators in the execution of their duties.
- 3) Various capacity building programs in critical areas of Administration, ICT, Public Participation and Conflict Management have been conducted in the past. Some staff have also benefited from similar capacity building programs offered by various institutions especially at the Kenya School of Government.

- 4) Public Participation exercises have been successfully conducted at the various levels of decentralized units during the preparation of the FY 2014/2015, FY 2015/2016, FY2016/2017 and FY 2017/2018, FY 2018/19 budget making cycles. Administrators have been key persons in facilitating this exercise at the various levels of the devolved units.
- 5) Interlinking of all the County and Sub-County offices through Local Area Network (LANs) and Wide Area Network(WAN) with fibre is now complete. This is a major ICT flagship project that involves subscription to broad band internet connectivity through National Optical Fibre Backbone Infrastructure (NOFBI).
- 6) All County staff based at Marsabit headquarters and all Sub County offices (with the exception of North Horr Sub County) now have access to internet services provided by NOFBI which is currently free. This has greatly improved communication of intra and inter departmental transmission of documents and information.
- 7) ICT technical support services for departments at the county headquarters and at the sub counties are offered on a daily basis and ICT services are mainstreamed in all the departments.
- 8) The installation and use of the Integrated Financial Management System (IFMIS) at the Finance and Economic Planning Department and the IPPD system at the Human Resource Unit are all major ICT programs that have been fully rolled out and are fully functional.
- 9) The county website re-design is complete and is now richer, more interactive and informative.
- 10) The Disaster Management Policy document has been developed, validated and presented to the Cabinet for discussion and approval. In addition, the County Government of Marsabit Public Participation Bill and Marsabit County Village Unit Bill are awaiting to be reintroduced to the cabinet and the county assembly for deliberation and approval.
- 11) Successful conflict resolution interventions and strengthening traditional conflict resolution mechanism at conflict hotspots amongst several communities in Marsabit County have been made.
- 12) Awareness creation to enhance and reduce incidents of inter tribal conflict has been conducted in the four sub counties.

- 13) Conducted cross border peace building initiatives among communities living along the Kenya Ethiopia border.
- 14) Supported annual drought assessments and analysis in the county in partnership with National Drought Management Authority.

Constraints And Challenges In Budget Implementation And How They Are Being Addressed;

Con	straints and challenges	Mitiç	gation measures
a)	Mistrust and suspicion between two levels of government limiting synergies and cooperation in service delivery.	•	Dialogue between officers at both levels of government at the ward, Sub County and county levels. Sharing of resources between both levels of governmentt e.g. vehicular transport.
b)	Inadequate funds to perform functions of the department.	•	Development of a Strategic Plan which is complete but has not yet been launched. This will enable more efficient planning going into the future.
c)	Poor road network has continued to hinder effective communication and movement of officers especially when it rains	•	Departmentt of Roads and Public Works is improving state of roads in the county through murraming and spot improvement works.
d)	Negative ethnicity and conflicts among communities has dampened growth and development in the county.	•	Civic Education programmes Exchange visits between communities Increase the number of Peace and Conflict Resolution programmes funded by the county government Strengthening the Office of Cohesion And Integration. Coordinate peace and conflict resolution activities of non-state actors.
e)	Some areas are not covered by the mobile telecommunications network. This hampers service delivery and communication.	•	Not currently being addressed but the departmentt can lobby service providers to consider putting up infrastructure to support mobile telecommunication.

Cons	traints and challenges	Mitigation measures
f)	Low literacy levels in the county that hinders access to information and ability to participate in governance.	 Not currently being addressed but the Dept could liaise with the Dept of Adult Education in the Ministry of Education to expand its coverage. Civic education by Office of Public Participation.
g)	Lack of a policy framework to guide peace, cohesion and disaster management activities	Development of a policy framework for cohesion and disaster management
h)	Weakening of traditional leadership and conflict resolution structures	Broaden traditional leadership structure [include women and youth] making it more participatory and inclusive. This would allow more consultation and hence decisions are binding.

Part D: Programme Objectives/Overall Outcome

Prog	ram	Strategic Objectives	
1.	General administration, planning and support Services	To ensure effective Government service	e and efficient delivery of County es.
2.	Coordination Services	To improve synerg Departments.	gies between County Government
3.	ICT Infrastructure Development	To provide efficient services.	and reliable ICT infrastructure and
4.	Public Participation and civic education	To ensure informe government affairs.	ed citizen participation in County
5.	Cohesion, Integration, Non State Actors Coordination and Disaster Management		cohesion and integration ponse to emergencies and other vely

Energy, Lands and Urban Development

Part A. Vision

To be the leading public organization committed to facilitating optimum utilization of the administration and management of land resource within the county.

Part B. Mission

Provide efficient and effective leadership in land management and administration for sustainable socioeconomic of the county.

Part C. Performance Overview and Background for Programme(s) Funding

The department is composed of four sub-sections which include: Energy, Land, and Urban Development. All the four sub-sections are in place and fully operational. In the year 2016/2017, the department was allocated Kshs 116 million for recurrent and Kshs 262 million for development. During this period the department made key strides in the achievements that include completion of deed survey of 4 upcoming towns, registration of parcels of land in the wider Sagante, Hula-Hula, Karare and acquisition of title deeds for Songa and Jirime adjudication areas. In addition cadastral survey for Manyatta Ote has been undertaken, while acquisition of allotment letters for Nyayo road estate is under way. The department also has completed major street lighting projects in several centres in the county and has also began installation of lighting along parts the A2 highway that leads into Marsabit and Moyale towns. The collections of solid waste of seven upcoming towns have been privatized and are being done by different companies. The town beautification projects which begun in 2014- 2015 financial year through development of billboards, wall-clocks and construction of modern toilets in Marsabit and Moyale towns is at completion stage, while a modern bus park has been planned following the completion of the A2 highway.

The department faced a variety of challenges which included Gazettement of Marsabit as land registry which falls within the mandate of National Land Commission (NLC) and By extension Ministry of Land, Housing & Urban Development. Delayed implementation due to slow disbursement of funds by the National treasury, lengthy & slow pace of procurement process hampers timely implementation of planned programs. The department is also faced with extreme shortage of technical staff, especially

Physical Planners, Surveyors, Draughtsman or Cartographers and Inadequate funds to promote development of Renewable energy which compromises the efficiency of service provision.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and	To improve service delivery and provide supportive
Support Services	functions.
P2: Urban Development Services	Ensure sustainable urban development.
P3: Lands and Physical Planning services	Improved controls on land use and development as
	well as effectively designed land use pattern.
P4: Energy Services	Increased access to renewable and sustainable
	energy.

Part E: Summary of Expenditure by Programmes, 2018/19 - 2020/21(KShs.)

Roads, Public Work, Transport & Housing Development

Part A. Vision

A leading Department committed to provision of prompt, effective and efficient technical services in all public works and construct adequate quality safe County road network.

Part B. Mission

To provide technical support for all public works, construct and manage County roads that enhance safe socio-economic growth and prosperity.

Part C. Performance Overview and Background for Programme(s) Funding

The Department of Roads, Public works and Transport is mandated to provide technical support for all public works, manage, develop, rehabilitate and maintain County roads to enhance socio-economic growth and prosperity.

The Department of Roads, Transport and Public Works consist of three main sectors:-

- Roads sector is mandated to design, construct new roads ,maintain both rural and urban roads network and protect county roads reserves
- Transport sector is mandated to conducting suitability test for drivers, inspection of motor vehicles and hire of mechanical plants and equipment
- **Public Works** is mandated with the designing, documentation and supervision of all Government construction works including keeping and maintaining their inventories.

In the year 2016/2017, the Department was allocated a total of Kshs. 374,842,578 comprising of Kshs 69,367,500 for recurrent and Kshs 305,475,078 for development. Since implementation of the County governments in the year 2013 this Department has targeted about 5,000 kilometres of various roads for improvement ranging from grading, gravelling, and new openings. During 2013/2014 2014/2015 and 2015/2016 financial years the department graded 2,500 kilometres and gravelled 300 kilometres making them all weather roads. It also opened up 200 kilometres of roads within the County.

The improved road network in the county has led to many advantages which include; enhancing the communities' ability to travel across the county, improved the economic status of community, eased the movement of students especially those who are in secondary schools, reduced car breakdowns which were caused by poor roads and it has also reduced distance of transportation through opening up of new roads.

In Moyale, roads that link the town to areas like Arosa, Bori and Heilu-Mansile have been given a face lift giving the regions quick access to town and provided an alternative exit to the Moyale-Marsabit road. The roads have further opened up these areas for development and it has enhanced security since law enforcers patrol these areas frequently.

The Dukana-North Horr road has also been graded to a better status and it will revive the town for more business investments since it links the town to major destinations like Illeret, North Horr and is also

close to the Kenya-Ethiopia border. The road is also going to increase supply of goods and services to Dukana area which has perennially lacked behind in development due to inaccessibility.

The department of roads has also rehabilitated and expanded sections of the road that lead to Mt Kulal to facilitate two way traffic. Previously Mt Kulal was among the least visited places due to poor state of the road where a section of it had fallen off. Hula Hula-Kargi-Falam road has also been renovated and its strategic position serves as a short cut to Loiyangalani from Marsabit town. This road also joins the Isiolo-Marsabit road at Hula -Hula junction providing an important link for goods and services from interior regions to the highway.

The design, advert and award for the upgrading of 4.018 kilometres of roads within Marsabit Central Business District [CBD] to bitumen standard has been concluded and tarmac work will commence any time. Design works and other accompanying documentations for the upgrading of 2.5 kilometres of roads within Moyale town to bitumen standard is complete for advertisement.

On Monitoring, Evaluation and Reporting- the department is doing its best to closely follow-up with all development projects including the flagship projects to ensure quality and compliance with specifications by the service providers. However, the Department is faced with the challenge of transport for the technical team to effectively execute monitoring and evaluation of development projects.

On administration, support and planning, the Department has already recruited seven additional technical staff to provide technical support to County Government line Departments to provide efficient services. The additional staff is in the category of Road Engineer, Road overseers, Building and Electrical engineers.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To support and increase efficiency in service delivery.
P2: Road Transport Infrastructure Development	To develop, maintain and rehabilitate roads network, transport facilities and government buildings to enhance security, mobility, efficiency and safety through firefighting and fire prevention.
P3: Public Works Services	To develop and maintain cost effective public civil works.
P4: Low Cost Housing Development	To provide low cost housing.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (Kshs.)

Water, Environment and Natural Resources

Part A. Vision

To promote, conserve and protect the environment and improve access to water and housing for sustainable county development.

Part B: Vision

Sustainable access to adequate water and housing in a clean, cohesive and secure environment

Part C: Strategic Objectives

- To enhance access, affordable clean, potable water, sustainable usage and management of environment and natural resources
- To ensure the universal and efficient supply of water and environmental services and facilitated equitable and socio economic development
- To mainstream environmental, climate and mineral concerns into overall planning, implementation and monitoring of County government and partners, so as to reduce environmental degradation and strengthen the role of environment and natural resources in reducing poverty;
- To raise real awareness of the importance of environmental matters within County; stressing social
 and economic importance as well as ecological consequences. Key issues for inclusion include
 monitoring, mitigation and adaptation to Climate Change, Water resources development and
 management, Sustainable Land Management, tap on Carbon markets through carbon trading
- To generate, disseminate and use knowledge and information for the better conservation and management of environment and natural resources
- To ensure all County development activities are environmental friendly by complying with environmental laws and regulation as stipulated in the Kenyan Constitution.

Part D: Context for Budget Intervention

> Expenditure trends;

In the current financial year 2017/18 the department of water environment and natural resources development budget was ksh 585.450milllion and is expected to implement over 170 projects ranging from purchase and distribution 401 water storage plastic tanks of (5000-10000litres spread across in the four sub-counties, 39 underground tanks which are predominantly in North-Horr sub-county, de-silting and development of 24 water pans, drilling, equipping, rehabilitation of 50 boreholes as well as installation with

solar system, expansion of distribution lines for rural water supply and protection of shallow wells amongst others.

The sums total of aforementioned enlisted projects, for tanks in the four sub-counties is ksh 125.85million; earth pans/dams kshs 79.9million, boreholes kshs 229.1million, shallows and troughs kshs 6.1million, and expansion of water from sources to settlements through piping kshs 144.6million. However, despite reasonable budgetary allocation to the water sector with the objective of easing water deficiency in the county, challenge of access to clean, and potable water to citizens of Marsabit County still persist. Water governance is also sticky in this county that needs concerted efforts by all players in the sector to improve delivery, management and increase revenue.

In the Environment and Natural resource sector, the expenditure trend is on low scale since the environment sector was merged with the water sector through engagement of a single accounting officer for financial year 2016-17. Thus the budget allocation for the environmental components was very lean. There was tree planting activities in three (3) locations at a cost of 7.3 million only in terms of development.

Water sector

- Major achievements for the period;
 - > Preparation of bill of quantities for water works to facilitate timely projects implementation
 - Improved water access and reduced distance to water source for humans and livestock population
 - > Enhanced borehole maintenance and response
 - > Improved personal hygiene due to increased water availability at the households
 - > Reduced livestock deaths due to drought related water scarcity
- Constraints and challenges in budget implementation and how they are being addressed; and
- > Delayed funds availability due to delayed disbursement hampering timely project implementation
- Centralized procurement system delays project implementation
- Inadequate technical personnel for execution-designing, implementation and monitoring
- > Vastness of the county and limited logistic support affects effective project supervision.
- A lot of unsettled claims from previous projects.
- Noncompliance to project work plan
- Problems of projects costing by the communities during public participation in under costing as well as enlisting numerous projects resulting into wards allocation so thinly hence less impact.

Environment and Natural resource Sector

Achievements;

- > Tree plantings in Moyale and North Horr sub counties.
- > Training on natural resource management and conservation especially for Elle dhimtu community
- Development of Environment bills waiting approval at the county assembly

Climate change and adaptation mainstreaming guidelines developed, reviewed and validated.

Challenges

- Limited resource allocation- no budgetary allocation to effectively carry out the environmental activities.
- Mergence of the entire sector
- ➤ Limited local knowledge on importance of environment conservation
- Non prioritization of activities or projects for environmental subsector by communities during public participation stage of budget making.
- Lean staffing level
- Inadequate logical support to effectively carry out activities
- Major services/outputs to be provided in MTEF period 2018/19 2020/21 (the context within which the budget is required)
- Water sector output-
 - plastic tanks 300 units purchased and distributed
 - underground tanks 20No. units constructed
 - Boreholes 12 No. drilled and equipped (installed) coupled with reservoir storage tanks
 - Boreholes rehabilitated 15 NO.
 - Solar powered boreholes 15 No.
 - Construction of medium to large Subsurface dam= 2dams
 - Rock catchment 8No.
 - Pipeline extension and expansion and water kiosks 15No.
 - Troughs 20 No
 - Desilting and dams expansion 6 No.
 - Decompresion and rehabilitation of existing water springs 8 No.
 - Protected shallow wells 16 No
 - Water equipment and machineries
 - Purchase of machinery spares
 - Drought Water provision for remote villages
 - Water governance
 - Urban and rural water automation
 - Coordination of water sector actors

Water management, supply policy and bills 2 No

Flagship projects

- 1. Development and rerouting of Ngobole water supply system to desert museum and Elmolo Villages and primary school in Loiyangalani -25M
- Building of water laboratory and additional offices -10M
- Marsabit water sanitation and sewerage company MARWASCO-70M

Environment and Natural resource sector

- Environmental conservation and management
 - Protection of catchment areas and fragile ecosystem areas 4 No.
 - Soil and water conservation 4 No.
 - Supported environment education for community groups and environmental clubs in schools 6 No. in 4 sub counties
 - World environmental days celebrated
- Climate change and adaptation
 - Mainstreamed climate change in all sectors (climate proofed and climate smart technology) 4No
 - County climate change mitigation and adaptation action plan implemented 4 No.
 - Climate change entrepreneurship initiated 4No.
 - Linkage and coordination at national, regional and international levels 4 No.
- Forestry section
 - Reafforestation- 20% dry land and degraded land reclaimed-4No.
 - Tree covers in institutions improved 10No
 - Farmland afforested 6No
 - Forestry education and awareness for community groups, youths, women and schools 8 No.
 - Forestry product harnessed, value added and marketed 4 No.
 - Energy efficient jikos 200 No.
 - County tree nurseries revived and strengthened 4 No
 - Forestry resources mapped and documented 1No
 - Afforestation and indigenous forest restored 4 No
 - Forested policies and forest management plans established 1 No
 - Protection of endangered tree species (sandal wood)
- Wildlife conservation and biodiversity management

- Community wildlife conservation promoted and supported 1 No.
- Grants for wildlife conservation 1 No.
- Wildlife habitat/corridor/buffer zones and rangelands mapped inventories and protected 1 No
- Wildlife governance management and ecotourism support 1 No.
- Natural resource management
 - Range resource mapped, harnessed and marketed 4 No.
- Mining and mineral resources development
 - Mineral survey conducted and mapped 1 No.
 - Mineral exploitated value added and marketed 4 No
 - Market linkage created and information accessed 5No.
 - Supported youth, women groups in mining industry 4 No
 - Mining policy domesticated
- Human resource Gaps and development
- Human resource capacity gaps and development
 - Engineer 2No
 - Hydrologist 1No.
 - Plumbers 4No.
 - Planners and Designers 4No.
 - Plant operators 4No.
 - Data officer 2No.
 - Lab technicians 2No.
 - Electrician 2No.
 - Chemical attendant.1 No.
 - Pump attendant 4No.
 - Director climate change 1 No.
 - Office staff secretary 1 No.

Justification.

The vast Marsabit County has lagged behind for decades in terms of development and access to basic services including water services. The water requirement and undaunting scarcity of the precious commodity remains still unmet even with birth of devolution. The vagaries of drought and its associated

shortage of water availability and environmental destruction and degradation is further aggravated by negative climate change effects that pose a big challenge to mitigate. While a good proportion of the devolved fund to the county had been allocated to water and environment department, water emergencies are still a daily occurrence. The multi million projects been implemented from start of devolution in 2013 to date are still but a tip of an iceberg. The sparsely distributed human and livestock settlement patterns coupled with poor accessibility, frequent, severe and recurring drought patterns and vastness of the county reduces the water budgetary allocation to piecemeal hence negligible positive impact. The inadequate staffing and human resource capacity over stretches the available skills and expertise at times making project supervision, monitoring and crisis response a challenge. Delayed promotion and staff stagnation in the various cadres reduces staff motivation and performance.

In order to adequately improve water service delivery and reduce environmental degradation, there is need to consider more budgetary allocation to the department to effectively carry out its mandate in provision of quality water to the citizens of Marsabit County and to ensure sustainable environment and natural resource management for the current and future generation.

1.2 Part D: Programme Objectives/Overall Outcome

Programme	Objective		
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive functions.		
P2: Water Resources Management To increase access and availability of adequate water resources.			
P3: Environment Management and Protection	To protect, conserve and sustainably manage environment.		
P4: Natural Resources Conservation and Management.	To sustainably manage and conserve forest and wildlife resources.		

Part E: Summary of Expenditure by Programmes, 2018/19 – 2020/21 (KShs.)

Programme	Estimates	Projected Es	stimates

Trade, Industry and Enterprise Development

Part A: Vision

To be the leader in promoting business innovation and value addition for wealth creation in the country

Part B: Mission

To create a vibrant and conducive environment for enterprise development and social-economic growth for the people of Marsabit

Part C: Performance Overview and Background for Programme(S) Funding

The department has various roles and mandates including

- ✓ to promote both local and international Tourism and make Marsabit a destination of choice,
- ✓ to formulate legislative and regulatory framework to facilitate quality service delivery, Market infrastructure development
- ✓ to promote Human resource development Training & Incentives
- ✓ to nurture Entrepreneurship development Youth, Women, partnership, Business competition
- ✓ to mobilization resources from the following key institutions; Youth enterprise Fund, Women enterprise Fund, UWEZO fund, Banks etc
- ✓ to establish County Stimulus Fund
- ✓ to register Livestock Market Unions
- ✓ to establish Global and National linkages
- ✓ to enhance Industrialization Abattoir, Minerals, Education, Tannery
- ✓ to encourage Public Private Partnership –Inter County Trade, International trade and Capacity building

One other key objective is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The department operates on three strategic goals, to develop and promote sustainable Trade, Industry & to develop, promote commerce and enterprise development for prosperous and to enhanced social economic progress, hence improved livelihoods.

.

The department was further allocated KShs. 175,700,000 Development expenditure. This amount included KShs. 10,000,000 being for the county enterprise fund, meant to promote SME's through increased access to finance.

The department faced a number of challenges in discharging its mandate.

- Poor infrastructure; the county has very poor roads that hinder the access of the areas rich wildlife. This has made the industry hard to develop.
- Inadequate funding. The budget allocated could not adequately cater for the needs of the department.
- Lack of proper data for businesses and tourism activities within the county.
- Logistics, the department has only one vehicle for the three sub sectors and with the vastness of the County, it has been a struggle getting around reaching various locations.

During the financial year 2018/19, the department intends to remedy the above challenges by putting in place various measures as well as capacity building through training for all its staff in various areas for better service delivery to the residents of Marsabit County.

Part D: Programme Objectives/Overall Outcome

Programme	Objective	
P1: General administration and	To support the delivery of efficient service in the department	
financial support services		
P2: Trade and Industrial	To improve trade and stimulate industrial development	
development		
P3: Enterprise development	To promote and provide support to SMEs and jua kalis	
P4: Co-operative development &	To promote co-operative development	
Management

Tourism, Culture and Social Services

Part A. Vision

A cohesive, Integrative and socially responsive sector that taps on its Tourism potential for socio-economic development

Part B. Mission

To formulate, mainstream and implement responsive strategies for sustainable socio-cultural and Tourism for socio-economic development

Part C. Performance Overview and Background for Programme(s) Funding

The department has various roles and mandates including

- ✓ to harness the full potential of County's cultural heritage,
- ✓ to promote, preserve and develop all functional aspects of culture for sustainable development,
- ✓ to formulate legislative and regulatory framework to facilitate quality service delivery,
- ✓ Provision of social protection funds to vulnerable people,
- ✓ to promote gender equality through gender mainstreaming as well as
- ✓ Advocacy for Art and Art facts.

One other key objective is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The department operates on two strategic goals, promote and preserve the County's culture and heritage for posterity and to enhance quality social service delivery for improved livelihoods.

During the financial year 2014/2015, the department was allocated a recurrent budget estimate of Kshs. 48,000,000.

The department was further allocated Ksh. 119,000,000 Development expenditure. This amount included Ksh. 10,000,000 being for the social protection program, meant to better lives of the disabled and the elderly.

During the FY 2015/16, the department was allocated Ksh. 238,622,233. This amount includes Ksh. 56,722,233 being recurrent expenditure and Ksh. 181,900,000 being development expenditure. The department was allocated Ksh. 20,000,000 for social protection programme. During the year under review the department was allocated a total of Ksh. 185,794,316. The development amount allocation was Sh. 144,221,833 and recurrent was Ksh. 41,572,483.

The department faced a number of challenges in discharging its mandate.

- Poor infrastructure; the county has very poor roads that hinder the access of the areas rich wildlife. This has made the industry hard to develop.
- Inadequate funding. The budget allocated could not adequately cater for the needs of the department.
- Lack of proper documentations on culture and social activities of the people.
- Logistics, the department has only one vehicle for the three sub sectors and with the vastness of the County, it has been a struggle getting around reaching various locations.

During the financial year 2018/19, the department intends to remedy the above challenges by putting in place various measures as well as capacity building through training for all its staff in various areas for better service delivery to the residents of Marsabit County.

Part D: Programme Objectives/Overall Outcome

PROGRAMMES	OBJECTIVES
P1: General Administration, Planning and Support Services.	To support efficient and effective service delivery in the departmental functions, programs and activities.
P2: Cultural Services	To improve heritage and culture awareness, knowledge, appreciation and conservation.
P3: Social services	To support vulnerable people across the County
P5:Tourism services	To place Marsabit on the National and global maps and make Marsabit a tourism destination of choice.

Part E: Summary of Expenditure by Programmes and Sub programmes, 2018/19 -2020/21(KShs.)

Programme	Estimates	Projected Estimates
