

THE REPUBLIC OF KENYA
COUNTY GOVERNMENT OF KISUMU
COUNTY BUDGET REVIEW AND OUTLOOK PAPER

CBROP 2019

FOREWORD

This County Budget Review and Outlook Paper (CBROP), prepared in accordance with the Public Finance Management Act, 2012 under section 118 is the sixth to be prepared under the new dispensation and the second one in the second term of the County Government.

It presents the recent economic developments and actual fiscal performance of the FY 2018/2019 and makes comparisons to the budget appropriations for the same year. It further provides updated forecasts with sufficient information to show changes from the projections outlined in the latest County Fiscal Strategy Paper (CFSP), released in April 2019. In this Paper, we will also provide an overview of how the actual performance of the FY 2018/2019 affected the County's compliance with the fiscal responsibility principles and the financial objectives as detailed in the 2019 CFSP.

The paper also serves as a baseline for financial resource allocation and sector ceilings for 2020/2021 financial year. The base ceilings have been formulated to deliver envisaged results / programmes for socio economic transformation in the County. The same is in line with the interventions highlighted in the County Annual Development Plan for the financial year 2020/2021, which is implementing the CIDP 2018-2022.

This is the second CBROP that has been prepared within the current County Integrated Development Plan 2018-2022 that outlines the County's planning framework that will guide county programmes budgeting, project funding, monitoring and evaluation.

In spite of the several challenges we faced last financial year, some of which hindered the compliance with financial responsibility principles and the achievement of financial objectives, we closed the year satisfactorily. Going forward, the various County government departments will increasingly align their planning and expenditure to meet the objectives of the CIDP. At the same time, growing collaborative dialogue between County government, the citizen of Kisumu County, the private sector and civil society is needed to make the plan a reality. The County infrastructure program is the most immediate contribution to the goals of the CIDP. Capital investments in economic and social infrastructure will relieve serious constraints in agriculture, transport and water allowing for improved economic growth and quality of life for all citizens of Kisumu County

DR. JOHN OBIERO
AG. EXECUTIVE COMMITTEE MEMBER FOR FINANCE

ACKNOWLEDGEMENT

The preparation of the County Budget Review and Outlook Paper (CBROP) was a concerted and consultative effort among various departments and stakeholders that provided useful information required in developing this document.

Special gratitude goes to His Excellency the Governor and Deputy Governor for their leadership roles; providing direction and guiding the preparation of this policy document. I also wish to thank the County Executive Committee Members, their Chief Officers and Directors for their valuable contributions in terms of providing information to the technical team working on this document.

Immense appreciation goes to the County Executive Committee Member for Finance and Economic Planning for the good will and guidance provided during the entire period of preparation of this document. I am really grateful to the Director Budget and the ad hoc team who spent significant amount of time working tirelessly in the development of this document.

Finally, I thank the County Budget and Economic Forum (CBEF) members for their immense contributions in the development of this Paper.

ERICK A. ORANGI
CHIEF OFFICER FINANCE

PREAMBLE

Legal Basis for Preparation of the County Budget Review and Outlook Paper

The Budget Review and Outlook Paper (CBROP) is prepared in accordance with Section 118 of the Public Finance Management (PFM) Act 2012. The law stipulates that:

1) A county Treasury shall;

a. Prepare a CBROP in respect of the County for each year; and

b. Submit the paper to the County Executive Committee Member (CECM) by 30th September of that year.

2) In preparing its CBROP, the County Treasury shall specify;

a. The details of the actual fiscal performance in the previous year compared to the budget appropriation for that year

b. The updated economic and financial forecasts with sufficient information to show changes from the forecasts in the most recent County Fiscal Strategy Paper (CFSP)

c. Information on:

(i) Any changes in the forecasts compared with the CFSP; or

(ii) How actual financial performance for the previous financial year may have affected compliance with the fiscal responsibility principles, or financial objectives in the CFSP for that financial year; and

d. Reasons for any deviation from the financial objectives in the CFSP together with proposals to address the deviation and the time estimated for doing so.

3) The CECM shall consider the CBROP with a view to approving it, with or without amendments, within fourteen days after its submission.

4) Not later than seven days after the CBROP is approved by the CECM, the County Treasury shall:

a. Arrange for the paper to be laid before the County Assembly; and

b. As soon as practicable after having done so, publish and publicize the paper.

Fiscal Responsibility Principles in the Public Financial Management Law

In line with the Constitution of Kenya 2010, the PFM Act, 2012 sets out the fiscal responsibility principles to ensure prudence and transparency in the management of public resources. Section 107 of the PFM Act, 2012 states that: The County Government's recurrent expenditure shall not exceed the County Government's total revenue;

- 1) Over the medium term, a minimum of thirty (30) per cent of the County Government's budget shall be allocated to the development expenditure;
- 2) The county Government's expenditure on wages shall not exceed a percentage of the County Government's total revenue as prescribed by the County Executive Member for Finance in regulations and approved by the County Assembly;
- 3) Over the medium term, the Government's borrowing shall be used only for purpose of financing development expenditure and not for recurrent expenditure;
- 4) The County debt shall be maintained at a sustainable level as approved by County Assembly;
- 5) The fiscal risks shall be managed prudently; and
- 6) A reasonable degree of predictability with respect to the level of tax rates and tax bases shall be maintained, taking into account any tax reforms that may be made in the future.

CHAPTER ONE

1.0 INTRODUCTION

This section presents objectives of the County Budget Review and Outlook Paper (CBROP), its significance in the budget making process and a brief description of the structure of the paper.

The CBROP reviews the 2018/2019 fiscal performance of the County; the updated macroeconomic and financial forecasts; and deviations from the approved County Fiscal Strategy Paper (CFSP) 2018 and reasons for such deviations.

1.1 OBJECTIVES OF CBROP

The CBROP seeks to provide a review of County's fiscal performance in 2018/2019 financial year and how the performance impacts on the financial objectives and fiscal responsibility principles set out in the CFSP 2019. It specifically provides:

- Updated economic and financial forecasts in relation to the changes from the forecasts in the most recent County Fiscal Strategy Paper (CFSP);
- Details of the actual fiscal performance in the previous year compared to the budget appropriation for that particular year;
- Any changes in the forecasts compared with the CFSP;
- Indication on how actual financial performance for the previous financial year may have affected compliance with the fiscal responsibility principles, or the financial objectives in the CFSP for that financial year; and
- Reasons for any deviation from the financial objectives in the CFSP together with proposed measures to address the deviation and the time estimated for doing so.

1.2 SIGNIFICANCE OF CBROP

CBROP is a key policy document that links policy, planning with budgeting. The fiscal performance review of the previous financial year, together with the updated macroeconomic developments and outlook present the basis for revision of the current budget in the context of supplementary estimates and the broad fiscal considerations defining the next budget and over the medium term. In addition, the paper presents indicative sector ceilings informed by macroeconomic and fiscal outlook to guide FY 2020/2021 budget and in the medium term, with fiscal framework and medium-term priorities being affirmed in the 2020 CFSP.

1.3 STRUCTURE OF CBROP

The CBROP has four other sections. Section Two reviews the County's fiscal performance for the previous year, and divided into three sub-sections, namely, The Overview, Fiscal Performance and Implications of Fiscal Performance. Section Three reviews recent economic developments and has subsections, Recent Economic Developments, Economic Outlook & Policies, Medium Term Fiscal Framework and Risks to the Outlook. Section Four presents resource allocation framework where expenditure ceilings are set for each department. It has four sub-sections; Adjustment to the Proposed Budget, the Medium-Term Expenditure Framework, Proposed Budget Framework, and Projected Fiscal Balance. Section Five finalizes with a conclusion of the entire paper, capturing the purpose and value of the CBROP.

CHAPTER TWO

2.1 REVIEW OF COUNTY FISCAL PERFORMANCE IN 2018/2019

2.1.1 Revenue Outturn

During the year 2018/2019 the County received Kshs.s.7,907,938,180 as disbursements from National treasury consisting of equitable share of revenue of Kshs.s.6,223,197,964 and conditional grants of Kshs.1,684,740,216.

Revenue generated from local sources was Kshs.s.1,012,716,638 against a target of Kshs.s.1,382,567,120 This resulted in a variance of Kshs.s.369,850,482 (27% of the annual local revenue target).

Though the total revenue collection did not meet its target, there was an improvement of 14% from the previous year's collection. This was due to enhanced enforcement, recruitment of revenue support staff and introduction of cashless collection system.

Table 1: Revenue Outturn

ITEM	A Budget Estimate Kshs.	B Actual Kshs.	B-A Deviation Kshs.	Deviation %
Opening Balance to CRF A/C	1,435,837,076	1,669,758,348	233,921,272	16.3

2.2 Challenges and Recommendations

1. Administrative Challenges

a). Institutional challenges

Lack of regulations to operationalize the Kisumu County Revenue Administration Act 2015 has affected revenue collection in the County.

Solution

The County should develop revenue management regulations to make departmental heads accountable for revenue generated from their departments with a view to enhance revenue collection from the departments.

b). Inadequate service delivery

Inadequate provision of essential services such as cleaning of markets, solid waste management, sanitary facilities, fencing of markets, cattle yards, dilapidated state of County houses, market stalls, slabs, lighting etc.

Solution

Relevant departments should be called upon to improve on service delivery to mitigate the low collection of revenues.

c). Weak internal control mechanisms

Inadequate effective internal control mechanisms have led to revenue loss.

Solution

The internal audit department should carry out regular audits and come up with reports, which must be promptly acted on in order to prevent or detect revenue leakages and arrest the situation before it grows in magnitude.

d). Interference in staff deployments

There are incidences when the directorate is faced with challenges in deployment of staff where sometimes they seek patronage from different interested groups to block or influence where they are deployed to and this compromises the directorate's supervisory authority over the staff hence undermines its overall performance.

Solution

The office of the County Secretary should be given a free hand to manage staff in terms of deployments and supervision.

e). Inadequate/Ineffective enforcement mechanisms

The County is faced with acute shortage of enforcement officers and the few available are based at the City of Kisumu.

The enforcement officers operationally and functionally report to their Inspectorate director leaving the directorate of revenue with very minimal control thus affecting implementation of policies and strategies.

Solution

Recruit, train, equip and second more enforcement officers who will be operationally answerable to the directorate of Revenue.

f). Low level automation and non-integration of revenue management systems.

The County has three types of automation systems which have been deployed either fully or partially. The fully automated systems i.e. e-citizen covers the trade license and building construction permits, Funsoft for the health facilities. The e-citizen system has been deployed only in the City of Kisumu. The partially automated systems CountyPro and Laifoms are deployed in the collection of the unstructured revenue heads and a bit of structured revenue heads, e.g. bus parkfees, Cess, Stock rings, markets fees and town parking, Signboards, Surveys, Rents etc.

The absence of an integrated and fully automated system leaves us with the challenge of revenue staff handling cash some of which lead to pilferage of funds.

Issues of monitoring and reporting has also been a challenge to the Directorate.

Solution

- There is a need to either improve the current system or source for a fully automated and integrated system for the collection of all County revenues, deployed in the City and all the Sub- Counties. This will see the County operating on a cashless system which will be able to address integrity issues that come with cash handling by revenue collectors as well as addressing our revenue monitoring and reporting challenges.
- Need to lay ICT infrastructure, with reliable internet connectivity in all Sub Counties to ensure effective operation of the automation system
- There is also need to consult with Counties which has deployed such systems if any in order to learn from their experience.

h). Mobility challenges

Currently the directorate has only 7 vehicles covering both the City of Kisumu and the Sub Counties, this has proved to be inadequate due to vastness and the level of activities at the City of Kisumu and Sub Counties.

Solution

There is need for additional vehicles to the City of Kisumu and the other Sub Counties'

2.2.1 Legislative challenges

- **Absence of revenue policies and legislation**

County governments are required to develop principle revenue legislation and policies on which to anchor fees and charges. The County has not enacted or revised laws on the revenue streams listed below. This presents challenges when enforcement is required to be made in courts as they shall be considered illegal.

	Revenue stream	Legislation required	Department
1.	Agricultural Cess	Agricultural Cess Act	Agriculture, Livestock and Fisheries
2.	Hire of Social halls and Stadium	Public Amenities Act	Education, Youth, Culture and Sports
3.	Land Rates	County Rating Act	Lands, Housing and Physical Planning
4.	Building Plans approval	Planning and Development Control Act	Lands, Housing and Physical Planning
5.	Sign board promotions	Outdoor Advertising Act	Lands, Housing and Physical Planning
6.	Trade License	Trade license Act (Amended)	Tourism, Trade and Heritage
7.	Market fees	Public markets Act	Tourism, Trade and Heritage
8.	Hawkers fee (new)	County Hawking Act	Tourism, Trade and Heritage
9.	Livestock auction fees	Livestock, Admission Auction and Sales Act	Agriculture, Livestock and Fisheries
10.	Bus park fees	Omnibus stations and Parking Act	Roads, Transport and Infrastructure
11.	Parking fees	Designated parking Places Act	Roads, Transport and Infrastructure
12.	Boda Boda fees	Designated parking Places Act	Roads, Transport and Infrastructure
13.	Sand and Murram cess	Sand harvesting and Quarrying Act	Environment and Natural Resources
14.	Solid waste management	Waste management Act	Environment and Natural Resources
15.	Noise Pollution	General Nuisance Act	Environment and Natural Resources
16.	Plant and Machinerie leases fees	Lease of Equipment Act	Public Works
17.	Hotels and Tourist Levy fees	Hotels and Tourist Levy Act	Tourism, Trade and Heritage

Solution

The relevant departments should prepare the necessary bills and present to the County Assembly for approval to enable the Directorate effect revenue collection in the affected streams.

Pending issues

i. Contract with Strathmore University System County Pro

Strathmore University is the service provider of the revenue collection system for Markets fees, Bus Park fees, and Town Parking fees. The system is now 1year and needs review on its performance.

ii. Valuation Roll

The current valuation Roll is outdated and the process to prepare a new one is almost complete. It is expected to be rolled out by January 2020.

1. Expenditure Outturn

Table 2 shows that total expenditure amounted to Kshs.7,505,936,398 against a target of Kshs.11,875,534,333 representing an under spending of Kshs.4,369,597,935 (or 36.8% deviation from the revised budget). The shortfall was attributed to slight under-performance in the County own revenues, delayed procurement processes and delayed disbursement of fund

Table 2: Expenditure Outturn

Item	Revised budget A	Actual B	Deviation B=C	A- %	Deviation
RECURRENT	7,246,427,558	4,957,088,574	2,289,338,984		31
Compensation to employees	3,939,187,439	3,439,295,636	499,891,803		12
Use of Goods and Services	2,271,673,537	1,205,478,881	1,066,194,656		47
Current transfers and Grants	887,073,361	171,008,453	716,064,908		81
Transfer to other government units	0	109,483,883	(109,483,883)		(100)
Security Benefits	148,493,221	31,821,721	116,671,500		79
DEVELOPMENT	4,629,106,775	2,548,847,824	2,080,258,951		45
Acquisition of Assets	4,629,106,775	2,548,847,824	2,080,258,951		45
TOTAL EXPENDITURE	11,875,534,333	7,505,936,398	4,369,597,935		37

A total of Kshs.5 billion was spent on recurrent expenditure against a target of Kshs.7.2 billion resulting to an under-spending of Kshs.2.3 Million (or 31 per cent deviation from the revised recurrent budget). The highest under-spending was on acquisition of assets with a deviation of Kshs.2.0 billion (or 45 per cent deviation from the revised estimates) while overspending was on

Compensation of Employees with a deviation of Kshs.499,891,803 (or 12.6 per cent deviation from the revised estimates).

The County spent Kshs.**2.5 billion** on development expenditure compared to a target of Kshs.**4.6 billion**. This accounted for an under-spending of Kshs.**2.1 billion** (or 45 per cent deviation from the revised development expenditure estimates).

2.1.2 Fiscal Outturn

The table below presents the fiscal outturn for the 2018/2019 financial year. The actual fiscal performance for the FY 2018/19 is compared by way of deviations to the revised budget estimates for the financial year.

Table 3: Fiscal Outturn

REVENUE	REVISED BUDGET(A)	ACTUAL (B)	DEVIATION (A-B=C)
Opening Balance to CRF A/C	1,435,837,076	1,669,758,348	-233,921,272
Total Share of National Revenue	9,057,130,137	7,907,938,180	1,149,191,957
Gross Locally Collected Revenue	1,382,567,120	1,012,716,638	369,850,482
Total Revenue	11,875,534,333	10,590,413,166	1,285,121,167
RECURRENT EXPENDITURE			
Compensation to employees	3,939,187,439	3,439,295,636	499,891,803
Use of Goods and Services	2,271,673,537	1,205,478,881	1,066,194,656
Current transfers and Grants	887,073,361	171,008,453	716,064,908
Transfer to other government units		109,483,883	-109,483,883
Security Benefits	148,493,221	31,821,721	116,671,500
DEVELOPMENT			
Acquisition of Assets	4,629,106,775	2,548,847,824	2,080,258,951
Other Expenses	-	-	-
TOTAL EXPENDITURE	11,875,534,333	7,505,936,398	4,369,597,935

The FY 2018/19 financing as reflected shows a performance in revised revenue target of Kshs.11.9 Billion against the actual expenditure of Kshs.7.5 billion. This then means in actual terms the budget was under financed by Kshs.4.4 billion.

Based on this analogy, the subsequent budget of 2019/20 FY might be underfinanced by a similar magnitude since the revenue projection base used in establishing the resource envelope for the period might be overstated.

Similarly, as shown in table 1 of the Revenue Outturn against Expenditure Outturn, the huge difference was contributed by late disbursement of fund by the National Government leading to a closing balance at the end of the financial year.

IMPLICATIONS OF 2018/2019 FISCAL PERFORMANCE ON FISCAL RESPONSIBILITY PRINCIPLES AND FINANCIAL OBJECTIVES CONTAINED IN THE 2018 COUNTY FISCAL STRATEGY PAPER

The utilization ration of the Budget FY 2018-19 had great impact on the financial objectives that was set by the County Government of Kisumu on the Fiscal Strategy paper FY 2018 in the following ways; -

The County Revenue target though never reached its expectation, slight improvement was evident. The expenditure projection for the year ended with a closing balance which was included as the opening balance for the Budget Estimate FY2019-2020 to cater for Pending Bills and other Government transfers. In review of the expenditure of the Budget FY 2018-19, and in relation to the Current Budget FY 2019-2020, the personnel Emolument was considered to be insufficient with great deficit in expenditure. The additional fund for the Conditional allocation for roads maintenance fuel levy fund will have great positive impact on amount allocated by CARA, 2019.

This therefore implies that a supplementary Budget should be prepared to increase Personnel Emolument and accommodate County Allocation Revenue Act, 2019.

The fiscal outlook will broadly remain as indicated in the County Fiscal Strategy Paper 2018.

The county underspent on Operation and maintenance and development budget for the FY 2018-19 hence having implications on the base used to project expenditures in the FY 2019/20 and the medium term. The County Treasury will work closely with the implementing departments to improve resource absorption especially through the budget implementation committees and at the same time work out to achieve the revenue targets with revenue generating departments to ensure that the revenues are collected as projected.

The Development allocation Budget was 32 percent with Kshs 4.6 Billion allocated to Development against a total budget of Kshs. 11.9 billion. The expenditure for development FY 2018-19 was slightly below average at only 45 percent performance amounting to Kshs. 2.5 Billion. It was noted that part of the expenditure for development was pending bill.

The County Government has dedicated itself to pay debt through observing fiscal discipline and expenditure management. For the FY 2018-19, the County managed to settle a debt of Kshs. **1,025,317,809** representing 100 percent of the target expenditure.

The County faces a number of Fiscal challenges; Budget deficit, accrued pending bills and underspending is putting immense pressure on the Budget, though a number of fiscal responsibilities have been put in place to provide a clear direction and decision making on management and use of financial resources. The principle set parameters within the County to operate in order to maintain accepted financial outcome and should be viewed as an enabling strategy that aims to provide financial stability, affordability, delivery and value for money on all implemented projects over the short, medium and long term.

A reasonable degree of predictability with respect to the level of tax rates and tax bases shall be maintained, taking into account any tax reforms that may be made in the future. Based on the lessons learnt in significant underperformance in local revenues in the initial years of devolution, the County Government has continued to adopt a more rational approach in revenues and expenditure forecasts based on acute environment and potential of the County to expand its revenue base.

CHAPTER THREE

1. RECENT ECONOMIC DEVELOPMENTS AND OUTLOOK

1. Recent Economic Development

Real Sector Developments

The economy remains resilient and recorded a fairly stable growth of an average of 5.6 percent in the first half of 2019 compared to an average growth of 6.5 percent in the corresponding half of 2018. The growth was mostly supported by growth in the service sector industries such as information and communication, transportation, construction, accommodation and food services, financial and insurance activities.

The first half of 2019, was characterized by slowdown in agricultural activities following delay in the onset of long rains, leading to reduced production of key crops and livestock

products such as Sugarcane, Rice, potatoes, maize, cabbages and milk. Agricultural sector grew by an average of 4.7 percent in the first half of 2019 down from an average growth of 7.0 percent over the same period in 2018 (**Chart 1a**).

The contribution of agricultural sector to the overall GDP growth was at 1.2 percentage points in the first half of 2019, a decline from 1.8 percentage points in the same half of 2018

Chart 1a: Quarterly Economic Growth Rates, Percent

Source of Data: Kenya National Bureau of Statistics

The non-agricultural sector (service and industry) remained resilient and grew by an average of 6.0 percent in the first half of 2019, down from 6.5 percent in the same half of 2018. The services and industry sector contributed 3.9 percentage points to real GDP growth in the first half of 2019 mainly supported by strong performance in the services sector.

Table 11: Sectoral GDP Performance

Source of Data: Kenya National Bureau of Statistics

The performance of the industry sector declined to an average of 4.8 percent in the first half of 2019 compared to an average growth of 5.3 percent in the same half in 2018, and accounted for 0.9 percentage points to real GDP growth in the first half of 2019. This was occasioned by the slowdown in the agricultural sector, which curtailed agro-processing and consequently led to a slowdown in manufacturing activities during the review period.

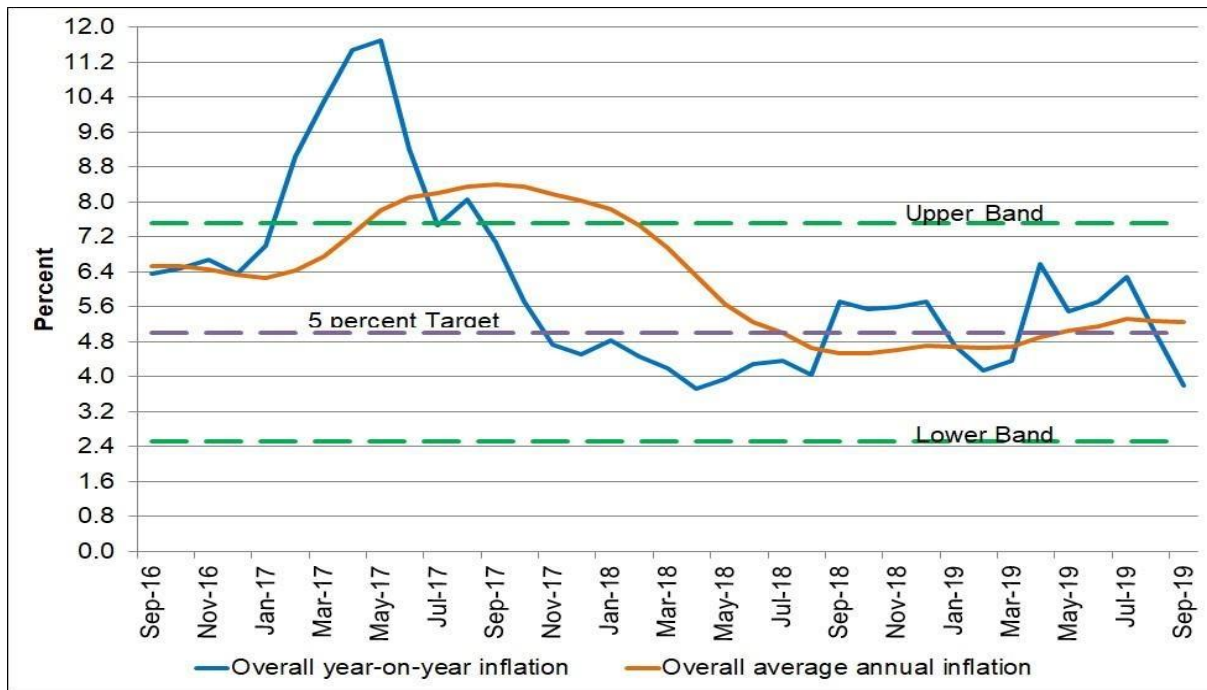

Services sector expanded by an average of 6.3 percent in the first half of 2019 compared to an average growth of 6.7 percent in the same half in 2018. Average growth of activities in information and communication (11.1 percent), accommodation and food service activities (10.4 percent), financial and insurance (5.9 percent), transport and storage (7.0 percent), wholesale and retail trade (5.7 percent), and real estate (4.8 percent) remained vibrant supporting the growth in the services sector.

Services sector contributed 3.0 percentage points to real GDP growth in the first half of 2019 largely supported by wholesale and retail trade (0.4 percentage points), Information and Communication (0.4 percentage points) and Transport and storage (0.5 percentage points).

3.1.2 Inflation

Year-on-year overall inflation remained within the Government target range at 3.8 percent in September 2019 from 5.7 percent in September 2018. The inflation rate for September 2019 was lower than the 5.0 percent rate recorded in August 2019 reflecting lower prices of food crops due to improved supply (**Chart 3a**).

Chart 3a: Inflation Rate

Source of Data: Kenya National Bureau of Statistics

3. Exchange Rates

The Kenya Shilling has been relatively stable supported by continued narrowing of the current account deficit and adequate foreign reserve buffer. The Shilling appreciated against the Euro and the Sterling Pound exchanging at an average of Ksh. 114.4 and Ksh. 128.2 in September, 2019 from Ksh. 117.7 and Ksh. 131.7 in September 2018, respectively. However, against the US Dollar, the Shilling weakened exchanging at an average of Ksh. 103.3 in September, 2019 compared to Ksh. 100.8 in September 2018. The depreciation of the Shilling is attributed to increased demand for import and excess liquidity in the money market (**Chart 4a**)

4. Interest Rates

Short-term interest rates have remained fairly low and stable. The Monetary Policy Committee in September 2019 retained the Central Bank Rate at 9.0 percent. The interbank rate remained relatively low at 6.6 percent in September 2019 from 4.3 percent in September 2018 due to ample liquidity in the money market (Chart 5a). The 91-day Treasury bill rate declined to 6.4 percent in September 2019 from 7.6 percent over the same period in September 2018.

Recently, the National Assembly removed the capping of interest rates and this development is expected to have immediate effect on exchange rates.

The improved liquidity in the money market has resulted in stable commercial bank rates. The average lending rate declined from 13.2 percent in June 2018 to 12.5 percent in June 2019 which is lower than 0.85 percent decline in the average deposit rate.

3.2 MACROECONOMIC OUTLOOK

In Kenya, the expected political stability and favorable macroeconomic environment are likely to be conducive for acceleration in growth in 2019. The on-going investments in infrastructure, improved business confidence, and strong private consumption are likely to support growth in 2019. Weather forecast points to a possibility of sufficient and well spread long rains in 2019 which is likely to be a major boost for activities in agriculture, electricity and water supply sectors. This will in turn be favorable for the manufacturing sector. However, rising oil prices and slow credit uptake by the private sector are likely to dampen growth in 2019.

During the review period, the Government launched a National Trade Policy, aimed at spurring economic growth. The policy targets to enhance export growth through value addition in export-oriented manufacturing and in the services sector. It also pursues diversification to fully exploit the export opportunities in the emerging markets.

3.3 COUNTY SPECIFIC OUTLOOK

The economy of Kisumu County for the FY 2019/2020 is likely to take an upward trend. The county will focus on the following to steer economic growth; Operationalization of Kisumu port, good governance, revitalizing agriculture for food security and agribusiness, ensuring healthy population, conservation of the environment, building modern physical infrastructure, improving housing, harnessing talents through promotion of sports, culture and arts, promoting tourism and strengthening the devolved structures.

1. Governance and Administration

The department's mandate is to provide strategic leadership, clear policy direction and a well thought development agenda crucial for the achievement of socio-economic and political development of people of Kisumu County. Proper management of county affairs including the county public service, maintaining inter-governmental relations, managing communication and protocol will ensure satisfactory service delivery. The executive leadership aims to provide high living standards for the residents of the county and ensure maximum service delivery to the public. To complement these efforts, the service Delivery Unit (SDU) did monitoring and evaluation to track progress, highlight challenges and provide advisory on ways to deliver improved and effective services to county residents.

In FY18/19, the government established a governance structure across departments to promote lean but effective civil service. Various Bills and Policy documents were developed and presented to the County Assembly to enable the government to maximize delivery of its top priorities. The notable ones are Kisumu County Economic and Social Council Act, (2019) and Kisumu County Administration (Village Units) Act 2019 which sets the stage for establishment of Village Councils considering that delineation of village units is now in awaiting approval by the County Assembly.

3.3.2 Finance and Economic Planning and Development

The department's main agenda will be to improve management and general administration to other departments. It will ensure that socio-economic crisis is avoided by taming or minimizing financial misappropriation and economic mismanagement.

In the 2019/2020 FY the department focused on the midterm review of County Integrated Development Plan (CIDP) 2018 – 2022 with the hope of redirecting the development plans priorities in tandem with the prevailing circumstances in the County.

Resources were also allocated towards construction of Huduma Centres spread in six sub counties with four (4) of them complete; Kisumu West, Seme, Muhoroni and Nyando. The operationalization of the departmental strategic plan will promote timely preparation of policy documents as well as the tracking and reporting on development projects implemented in the County.

3.3.3 Agriculture, Food, Livestock and Fisheries

The prosperity for Kisumu County is anchored on the County making substantive investment in Agriculture which is its pillar number one. The sector is the mainstay for 62.7% of the population who depend on farming and fishing as a major source of livelihood. Focus will be on improvement of agricultural production, promotion of market access and product development, promotion

of sustainable land use, access to credit and agricultural inputs, fish safety and quality assurance and value addition

The Pillar compares well to Agricultural transformation and food security pillar in the Budget policy statement which prioritizes investment in agricultural reforms and productivity enhancement as a way of raising rural incomes and making lasting inroads into poverty reduction.

The major achievements during the period included; promotion of mechanization through investment by the County Government in procuring 4 new tractors to improve opening of more land for timely production, Improving Food Security through the provision of fertilizers; DAP and CAN and pesticide to farmers to improve production and control of army worms. The county was also able to invest in Dairy flagship project by bringing in improved breeds of livestock in a bid to increase the production levels in the livestock sector. There was also livestock disease surveillance and vaccination to control disease outbreak.

The impending reopening of KICOMI portends boundless opportunities in cotton growing. Following the recent conclusions of tests on the efficacy of BT cotton growing and subsequent approvals for production, an avenue has opened for farmers from the cotton growing potential areas. The ongoing activities of ridding Lake Victoria of water hyacinth will make it more navigable and positively impact on fishing activities.

The strategy to promote the gains so far realized by the County in agriculture will include agricultural mechanization to increase acreage under production, rehabilitation of irrigation schemes, making available high quality planting materials and inputs, zoning and earmarking specific crops for high yield regions and forging partnerships with the National Government to ensure availability of subsidized fertilizer.

4. Public works, Roads and Transport

During the period under review, the department opened and improved 230km of new roads. Additional 150km of roads were maintained through the Roads Maintenance Levy Fund and departmental plants and equipment, five-foot bridges have also been constructed.

The department continues to improve the county's infrastructure with planned acquisition of more plants and equipment, opening and improvement of 88 new gravel roads, 2km of bitumen standard roads and maintenance of a further 47 roads through the Roads Maintenance Levy Fund in the FY 2019/2020.

The County Roads Maintenance Policy has been developed and passed in the County Assembly. Operationalization of the same is expected to commence in the FY2019/2020. The budget for this is already set aside and it is expected to train locals on labor-based roads maintenance and create over 1000 jobs for the residents of Kisumu County.

3.3.5 Water, Environment and Natural Resources

On the environmental front: increased generation of waste coupled with slow adoption and segregation of waste, overexploitation of resources and weak enforcement of environmental laws and policies are the major challenges. In recent times there has been a great need to control noise pollution, which has emerged as a great nuisance in growing market centers.

As the population of Kisumu County grows, so will its urbanization both at the city and countryside. The department will therefore focus on development of green spaces such as leisure parks, open spaces, arboretums and nature walks and better solid waste management systems including setting up of transfer stations and putting up a sanitary landfill. To create employment and promote county revenue generation, emphasis will be laid on enforcement of environmental laws and regulations. In order to address issues of degraded landscapes, the department will promote afforestation and biodiversity management.

On the water sector, the department shall focus on connecting portable water to households. This will involve pipeline extensions, drilling and equipping of boreholes. The department will however require another water rig to implement this across the sub counties. There is also need to purchase more water bowsers to supply water during dry spells.

Supervision and monitoring of water projects is still a challenge that has led to the delay of operation of the projects. However, the most outstanding challenge is the high cost of energy in pumping of water and drilling of boreholes; a lot of resources are spent on payment of electricity bills. To tackle this challenge, the sector together with other partners is exploring alternative sources of energy for pumping of water especially solar energy

3.3.6 Physical planning, Lands, Housing and Urban Development

The FY 2019/20 could be the turning point for the Department. The proposed organogram is set to be adopted with recruitment of key management staff expected. The department had commissioned the preparation of urban physical development plans for Ahero and Maseno towns, which has been successfully concluded. To improve service delivery and spur infrastructural development in the satellite towns, we recently gazetted Maseno, Katito, Kombewa, Ahero and Muhoroni as towns. With regard to housing, a key component in the delivery of the National ‘Big Four Agenda’, the County through the support of the Kenya Informal Settlements Improvement project (KISIP) and the World Bank has prepared the Housing Policy. The policy recommends the establishment of the county housing fund and recognition of its rural housing as the biggest component in the county housing interventions.

The Council of Governors and the Swedish government are jointly implementing a project dubbed ‘Symbiocity’ in 7 counties. Kisumu being one of the participating counties chose Ahero town as the project beneficiary. The projects ‘Quick win’ phase involved refurbishment of drainage channels, waste receptacles, training of environment champions and general monthly clean ups. The second phase, called the ‘Change Project’ is currently underway.

A survey by State Department of Housing and Urban Development of the National government together with KISIP were undertaken within Shauri Moyo, Kaloleni in the City and Sangoro in Nyakach and Muhoroni. This component led the county to process over 300 title deeds in the planned settlements which are ready for issuance.

The County intends to invest in the purchase of land for development purposes. Other programs include enhanced enforcement of the building code, spatial planning, regeneration of public spaces and the finalization of the valuation roll will be addressed as a matter of priority.

3.3.7 Education, Human Resource Development, ICT, Women and Youth Affairs

Focus will be on enhanced education standards by increasing enrollment and retention in early Childhood Education, accelerating expansion and equipment of modern Vocational training facilities. Provision of teaching and learning materials in order to empower the youth with skills and competencies for the labor market in addition to capitation, scholarship and bursary programs to the students.

Programs for strengthening Gender responsive practices in policy, planning and implementation processes, good cultural practices, provision of safe spaces for sustainable development will be implemented as we observe mainstreaming and inclusion strategies.

In the Pre-Primary Education Program, the County Government is on course in delivering our dream: *access to free, quality and safe ECD education to pre-primary children in Kisumu County*. Our structure picked out Infrastructure development, Furniture supply, school feeding program, provision of teaching and learning materials, teacher recruitment, monitoring and capacity building, collaboration, and sanitation as result areas.

The Department will focus on employment creation for youth by training them for successful tender bidding at county and national levels. It will also create county road maintenance teams which will comprise the county youth and women trained in road maintenance and promotion placement, internship & mentorship programs. The county will construct a business innovation facility at rotary, community libraries at sub-county levels and empowerment centers at ward levels and strong PPP framework for youth placement, internship and employment.

The IT platform holds greater potential for service transformation in the county. This is because the IT Department has been restructuring and re-energizing to offer professional Information and Technological services. The county will continue investing in modern IT infrastructure while progressively building human resource through ICT literacy and provision of IT equipment for online employability.

3.3.8 Business, Cooperatives and Markets

The mandate of the department is to promote trade within the County and between the county businesses and the external world. Apart from this core function, the department also aims at supporting the growth of business enterprises and cooperative societies especially on capacity building and value addition.

Trade directorate has implemented a number of projects in market centres with the objective of creating conducive business environment to traders through building market shades, toilets, improving drainage systems in market centres and fencing to improve security to traders. Modern retail markets have been constructed in Awasi, Korowe, and Kombewa markets. Pap Onditi market in Central Nyakach is still under construction and according to plans should be completed by the end of the year.

In the last financial year 2018/2019, the department disbursed a total of Ksh. 8.7 million to traders within the County with an aim of boosting their businesses. The department in collaboration with the department of Agriculture donated 20 dairy cows to Seke society in North Kisumu ward to boost milk production, provide raw materials for value addition processes by the Co-operative Society.

3.3.9 Energy and Industrialization

Industrialization is an anchor in the county development agenda hence the need to revive and encourage establishment of new industries. Various initiatives have been rolled out to this end in the FY2018/2019 notably; the establishment of Ahero rice mill, chicken, cotton seeds, fish production and processing plants. In the FY 18/19 the department established and equipped Akado Industrial Incubation Centre C.I.D.C in Kolwa Central, Kisumu East sub county as the main flagship project. The project entailed construction of the innovation block, fencing works,

renovation of buildings and introduction of the following business areas: honey processing mini-plant and production of block machines. Its impact will be to produce pure honey and create employment.

Under renewable energy, the County Government is promoting the use of clean energy through distribution of 280 Ethanol jikos as a pilot in various wards. Benefits of the programme will include reduction of green-house emissions, improved tree cover and reduced indoor air pollution.

In collaboration with the national government, the department set to enable establishment of a Special Economic Zone (SEZ) in Ombeyi and Miwani wards. The SEZ will attract both local and foreign investments; Expansion and diversification of produce of goods and services for domestic and export markets; Enhance technology development by Industrial parks, innovation and promotion of rural and regional industrialization and creation of employment.

3.3.10 Tourism, Culture, Arts and Sports

The County Government of Kisumu is actively promoting the Western Tourism Circuit by aggressively marketing the tourism space in the region. This a joint collaboration between the fourteen Lake Region Economic Bloc (LREB) Counties, hoteliers, Kenya Wildlife Service (KWS) and airline united in the desire to have this region fully open for business and travel.

The first ever countywide talent search competition in the County took place between February and May 2019, under the banner '*I am Kisumu Talent search*' that enlisted more than 1,500 participants in auditions at the Sub county level. The I am Kisumu Talent search remains a good example of how partnership between government and the private sector may be harnessed for development of talents in the creative industry.

In this financial year, the department of Tourism will focus on the development of three key cultural sites; Kit Mikayi, Lwanda Magere and Maseno Equator. Investment in tourism infrastructure has remained very low and these are corrective measures that the government will extend into successive financial years. The department has also embarked on branding and marketing campaigns for the county in a bid to strategically place the county as a destination of choice for investment and tourism. The department also plans to develop a snake park at Nyakach Sub-County.

Under the Culture sub-sector the department plans to refurbish heritage sites such as Abindu caves and Kit Mikayi. The Department also plans to equip cultural centers such as Katito community cultural center. There is also a planned rehabilitation of village halls in 3 wards in the sub-counties.

In sports, the County Government has rehabilitated sports pitches for Hockey, netball and basketball at Jomo Kenyatta Sports ground for the respective teams in the city. A tender has been awarded for the construction of an ultra-modern sports complex. Architectural designs are ready and the construction is set to begin at the end of 2019. Plans are also underway to rehabilitate sub-county stadia at Pap Kadundo in Seme and Muhoroni. The department also plans to distribute sports equipment to different sports disciplines in the sub-counties.

3.3.11 Health Services

In line with our second commitment as contained in the manifesto, which is to ensure a healthy population living in a clean environment, the Department of Health in the FY 18/19 managed to successfully implement the following projects:

1. Implementation of the Universal Health Coverage pilot which has led to an increase in hospital utilization to 113.5%
2. Completed majority of infrastructure projects in both regional hospital JOOTRH and peripheral facilities.
3. Engaged community Health workers by paying them stipends to ensure they perform their tasks effectively.
4. Recruited additional healthcare workers comprising of radiographers, medical laboratory technologists, pharmaceutical technologists, registered nurses, clinical officers who have slightly bridged the health workforce deficit.
5. Procured assorted diagnostic and health technology products for use by the health facilities in the county.

In the just concluded FY 2018/2019, the government installed and operationalized maternity theatres at Kombewa, Ahero and Muhoroni County hospitals. Provisions have been made in the 19/20 budget to set up maternity theatres in the remaining county hospitals of Nyakach, Gita and Chulaimbo.

To ensure easy movement of patients in dire need of emergency health services, the government has established measures to put in place a well-managed 'Kisumu County Ambulatory and Emergency Service' with a budget to procure eight modern ambulances to serve each sub county. So far, one has already been deployed to Gita hospital to serve Kisumu East Sub County.

In the last financial year, the government purchased a generator and an X-Ray machine for Nyakach sub county hospital and a theatre table and lamp for Muhoroni County hospital. We acknowledge Novartis for constructing an ultra-modern pediatric research centre at Kombewa hospital which is expected to be operational by mid-2020.

3.3.12 City of Kisumu

Kisumu City enjoys uniqueness for being the only city in a country that also has a rural setting and also the gateway to the East African region and the Great Lakes region. One of the successes of this administration is the relocation of the more than 40 years old, ten and half acres' Kachok dumpsite. The huge mountain of waste had to be relocated and this has now resulted into the City having more green spaces for the public. A programme has been designed of waste management at source.

The City is implementing Rotary Innovation and Incubation Centre. This is a flagship project to be a 'stop shop' for innovation and market linkage for youth's entrepreneurial ideas. The flagship project whose construction commenced in June 2019 will be completed in June 2020. It will have the capacity to help provide solutions to the problems in the work environment, while encouraging creativity and innovation.

Through KUSP, as phase one of the envisaged fire management systems, the City is putting up a modern main fire station at the works yard site along Obote road, renovation of the current fire station on Ang'awa street in the central business district, and a substation at Kibuye market.

CHAPTER FOUR

4.1 Resource Allocation Framework

4.1.1 Adjustment to 2019/2020 Budget

The County actual local revenue collection was at approximately 73.0% of the budgeted amount. It is noted that the underperformance in local revenue collection for the month of August, September and October 2019 was caused by demolition, relocation and flight of businesses, Inadequate POS machines, and industrial unrests. The building bridges initiative fronted by the political leadership has brought political stability in the county and its projected that the development of the Kenya Railways and the Kisumu Lake Port will stimulate new and the existing businesses. Therefore, it's reasonable to anticipate that the budgeted revenue for financial year 2019/2020 will grow by 32%. This will adjust the budgeted locally collectable revenues to approximately Kshs 1.438B (Ref Financial Report of 30th June, 2019).

4.1.2 Medium-Term Expenditure Framework (MTEF)

In the medium term, the following reforms will be undertaken;

- 1) Enhancing revenue mobilization; institutionalizing the e-revenue, re- introduction of rapid results initiative (RRI) and Develop County Property Valuation Roll.
- 2) Expenditure rationalization; engagement of new employees specifically on revenue collection where and when necessary to cover those areas which had not been covered before.
- 3) Expenditure efficiency and effective implementation of budget programs by strengthening the following:
 - i. All departmental IFMIS rolling outs
 - ii. Enhancing implementation of E-procurement
 - iii. Training of personnel on use of Hyperion module in preparation of budgets
 - iv. Preparation of MTEF program-based budgets through Hyperion module of IFMIS
 - v. The county will post on its website the programs and projects proposed financial year 2019/2020. This will significantly reduce the cost of advertisement.
 - vi. The county will enhance the functions of the Directorate of Revenue to ensure that all revenue is collected efficiently.
 - vii. The county will ensure strict adherence to accounting standards to ensure maximum accountability.
- 4) Continued training roll out of and use of financial operations process manual.
- 5) Investing in Primary Health Care under Universal Health Coverage (UHC), nurturing care framework for early childhood development, investing in food production and Market access infrastructure (access roads) will in the long term contribute to Household savings.
- 6) Creation of Conducive social and economic environment in order to encourage innovation, investment, growth and expansion of Economic and employment opportunities.
- 7) In line with the submissions by the public from the public participation forums the county government will:

- i. Progressively increase budget allocations to provision of water services
 - ii. Promote diversification of farming enterprises to increase production, value addition and profitability.
- 8) Promote effective cascading of devolution to the lowest level including fully established village councils for better service delivery and enhanced rural economic development.
- 9) Ensure inclusive provision of socio-economic safety nets through the following:
- i. Grassroots support and development program
 - ii. Provision of Primary Health care through Universal Health Coverage (UHC).

Table 4: Total Expenditure Ceiling for the MTEF period 2019/2020 – 2020/2021-2021/2022
NB-All values are in Ksh. Millions.

TABLE 5				PROJECTIONS		PROJECTIONS

4.2 BUDGET FRAMEWORK FOR FY 2019/2020

The 2019/2020 budget framework is set against the background of the updated medium-term fiscal framework set out above. There was a drop of GDP from 4.9 % in 2017 to 6.3 % in 2018. The economic performance over the last year was occasioned by the slow economic activity in the major sectors of the economy such as slowed construction sector, slow service and banking sectors and general unemployment caused by slump in credit flow within the economy. In Kisumu County the economic activities have slowed due to capital and business flight, re generation and rejuvenation of the city, and slump in revenue collections due to social and technical inefficiencies. Performance across the various sectors of the economy varied widely, with Catering, accommodations, hotel services Information and Communication Technology recording marginal growth. Therefore, in FY 2019/2020 there is an expectation of some marginal growth on the GDP.

The growth prospect is underpinned by continued prospect of good performance across all sectors of the economy especially in areas of the Big Four Agenda namely: Health, Manufacturing, Housing and Food Production. This is presumed in a situation where all factors that influence growth remain favorable. Inflation is expected to remain below 5% (4.95%) and stable, reflecting continued implementation of a prudent monetary policy. The medium-term growth prospects are projected at 7.0% especially with the focus on the Big Four Agenda as Governments and Private sectors invest in the focus areas. The optimistic scenario on the Vision 2030 and the Big Four

Agenda therefore gives the prospects of growth of the Kenya's GDP from 6.0% in 2018, 6.4% in 2019 and 7.5% in 2020. (Kenya Bureau of statistics 2019)

The delays in exchequer disbursement for the financial year 2019/2020 resulted into an opening balance of 1.524 Billion for the financial year 2019/2020 which was however, factored in the approved budget 2019/2020 Kshs.574 million introduced in the opening balance will be factored for recurrent expenditure and 950 million takes care of development expenditure.

significantly over the same period and therefore dampened the overall growth in 2017.

4.3 REVENUE PROJECTIONS

The 2019/2020 budget targets of local revenue collection of 10% of total revenues net of the opening balance. As noted above, this performance will be underpinned by on-going reforms in revenue administration. Therefore, total revenues including allocation from national share are expected to be **Ksh10.28 billion** excluding opening balances of **Ksh1.524 billion**.

Table 5: Proposed Budget Revision and Projections for the MTEF 2019/2020-2020/2021

--------------------	-----------------------	-----------------------	-----------------------

Note: Others in locally collected revenue include; Water, Roads Equipment, Energy & Mining, Green Energy, and Environment (Pollution, Nuisance and Administration charges).

4. EXPENDITURE FORECASTS

In view of the trend of expenditure in FY 2018/19 and adjustments in both revenue and expenditure budget of FY 2019/2020 the revised total budget for FY 2019/2020 is expected to amount to **Kshs11.81 Billion** to be funded by opening balance of **Kshs.1.524 Billion** and the previously approved budget of **Ksh.10,281,469,313**

Recurrent expenditures are expected to peak at 61.89% of the total expenditure of the FY 2019/2020, hence sparing 38.11% of the total expenditure for development.

Expenditure ceilings on goods and services for departments will adhere to the allocations in the FY 2019/2020 with cognizance of the demands and priorities of the County government as contained in the Governor's 10-point manifesto, national government agenda (The Big Four Agenda), CIDP, ADP and CFSP.

It should be noted therefore that the CFSP ceilings for the financial year 2019/2020 did not include the opening balances for that financial year.

CHAPTER 5: CONCLUSIONS, NEXT STEPS

Priority areas as covered in this section underscores the purpose and value of the Budget Review and Outlook Paper, reflect change in circumstances and are in tandem with the fiscal responsibility principles outlined in the PFM Act. The County Integrated Development Plan (CIDP) and County Annual Development Plan (CADP) objectives have also been factored by the county government as a basis for public resources allocation.

Going forward, the departments will be tasked to support their programs with detailed project concepts detailing viability, costs, and interlinkages with other departments and how these programs achieve the desired objectives of the Governor as outlined in his **10 Point manifesto** and the National Government's **Big 4 Agenda**.

The County Treasury will provide guidelines on project investment management, which will outline how the programs will be structured. Departments are asked to participate fully in the process, as each will be tasked to present their departmental programs, and demonstrate how the programs are geared to realize set results of socio-economic transformation. The government will continue to strengthen the performance management, monitoring and evaluation to ensure the cashless system of revenue collection is improved to boost on source of revenue collected by the county government in the year 2019/2020. A reasonable degree of predictability with respect to the level of tax rates and tax bases will be maintained, taking into account any tax reforms that may be made in the future.

The Sector Working group reports will form the basis from which the resource allocation panel will determine departmental resource distribution. Resources will be allocated across departments, and affected in the in 2020 CFSP and Budget for FY 2020/21. Accounting officers are advised to plan within the set sector ceilings. Revision of ceilings within a sector/pillar can be done during sector/pillar hearings. An increase in a sub-sector's ceiling will require corresponding reduction of another sub-sector ceiling within the same, to offset changes.

The Government will decentralize to village units to enable efficacy and efficient service delivery. The capacity of the existing administrative structures will be enhanced to ensure prompt articulation of development issues in their respective jurisdictions. The Government will also realign the participatory budgeting model to ensure focus on more transformative projects at both the Ward and the Head Quarters. The participation at the Village Units will be guided by the key result areas as highlighted in the ward development plans customized from the CIDP. Communities will be tasked to prioritize interventions that will realize the set targeted results.

The County Government will also realign the participatory budget process to ensure needs are identified and met through better designed programs. Progressive increase of budget allocations to provision of water services and other critical infrastructure will be factored. The accounting officers will be reminded of important budget making events and dates to ensure participation to factor.

In conclusion the broad picture of this CBROP is as highlighted in the matrix below.

	DEPARTMENT	PRIORITIES	CONSTRAINTS	STRATEGIES
	Governance and Administration	To provide service delivery throughout the County Monitoring and evaluation of projects	<ul style="list-style-type: none"> Inadequate office space for administrators within the sub-counties. 	Decentralize administration to village units Ensuring tracking and reporting on development projects Building of offices for the administrators
2	Finance and Economic Planning	To ensure socio-economic crisis is avoided by minimizing financial misappropriation and economic mismanagement	<ul style="list-style-type: none"> Delayed disbursement of funds from the National exchequer Inadequate revenue collection 	Timely/adherence to timelines as stipulated in the PFM Act. Enhance enforcement of revenue collection
3	Agriculture, Livestock and Fisheries	Innovative, commercially oriented and modern agriculture in Kisumu county.	<ul style="list-style-type: none"> Untimely disbursement of funds Inadequate funding Delayed procurement 	Agricultural mechanization and rehabilitation of irrigation schemes Providing high quality planting materials and inputs Forging partnerships with the National government to ensure availability of subsidized fertilizer.
4	Education, Gender, Youth, Human Resource Development, ICT and Social Services	To provide quality pre-primary services to all children including the marginalized. To empower youth with appropriate vocational skills and knowledge so as to	Inadequate resources for development of ECDE centers.	Advocating for more resources

		realize their full potential.		
5	Health and Sanitation	Ensure a healthy population living in a clean environment	<ul style="list-style-type: none"> • Inadequate personnel • Inadequate health infrastructure 	<p>Implementation of UHC</p> <p>Purchase of modern ambulances for every sub county</p> <p>Recruitment of additional health workers.</p>
	Tourism, Culture, Sports and Information	<p>Diversification and development of tourism products.</p> <p>Tapping into the massive potential in the creative sector</p>	<p>Over reliance on wildlife and beach tourism</p> <p>Inadequate funds for the implementation of projects</p>	<p>Development and refurbishment of heritage sites</p> <p>Equipment of cultural centers and rehabilitation of village halls and sports pitches.</p>

DETAILS OF PROJECTS 2018-2019

1. CHEMELIL

S/No.	Project Name	Department	Amount Allocated	Percentage Completion	REMARKS
1.	Opening And Improvement Of Gatundu Tamu Access Road	Roads	4,587,132	20%	Ongoing
2.	Construction Of Owino Maundas Ebenezer School	Roads	4,009,746.45	100%	Completed
3.	Opening And Improvement Of Tamu Centre – Tamu Dispensary Access Road	Roads	2,379,714.48	100%	Completed
4.	Opening And Improvement Of Kibigori Health Centre	Roads	2,379,714.48	100%	Completed
5.	Construction Of Daraja Mbili Water Project	Water	623,317	5%	Handed Over And The Contractor Is In Mobilization Process

6.	Construction Of Kibigori Health Centre Staff House	Health	2,111,475	20%	Work Ongoing
7.	Completion Of Maternity Wing At Ogen Dispensary	Health	2,657,537	20%	Sub Structure And Part Of The Wall Done
8.	Completion Of Oduwo Dispensary	Health	999010		
9.	Completion Of Maternity Wing At Tamu Dispensary	Health	3,000,000	100%	Completed
10.	Completion Of Makiundu Ecde	Education	1,000,000	100%	Complete
11.	Completion Of Lwala Ecde	Education	846,104	50%	Site Hasn't Been Handed Over Due To Bq Problem
12.	Distribution Of Dairy Cows	Agriculture	1,100,000	100%	Delivered
13.	Purchase And Distribution Of Langstroth Bee Hives	Agriculture	81600	100%	Delivered
14.	Completion Of Gul Yago Ecde	Education	999,966	50%	Walling And Roofing Done
15.	Completion Of Oneno Nam Ecde	Education	980,810	0%	Contractor Hasn't Reported To Site
16.	Daraja Mbili Springs	Water	623,317	0%	

2: OMBEYI

S/No.	Project Name	Department	Amount Allocated	Percentage Completion	Remarks
-------	--------------	------------	------------------	-----------------------	---------

1.	Opening And Improvement Of Obumba Odinga Road	Roads	3,000,000	90%	Completed
2.	Opening And Improvement Of Kotura -Ramula Kongonglo Access Road	Roads	4,999,859.90	20%	Works Ongoing
3.	Proposed Construction Of Ramula Health Centre	Health	1,928,801.60	20%	Sub Structure Ongoing
4.	Proposed Completion Of Kango Dispensary	Health	699,502		Incomplete To Be Handed Over

5	Improvement Of Mitando Bacho Access Road	Roads	3,000,737.88	90%	Completed
6	Construction Of Onyalobiro-Keyo Access Road	Roads	4,481,022	50%	Ongoing Currently
7	Improvement Of Ombeyi-Ramula Healthcentre-Onyalo Biro Access Road	Roads	4,058,802.30	20%	Ongoing Currently
8	Completion Of Yawo	Education	1,411,928.80		Done Upto Linton
9	Reclamation Of Kigoche Vtc By Building Dykes & Drainag	Education	1,932,490.40		Completed
10	ECDE Desks	Education			Completed
11	Construction Of Market Shade At Ombeyi		1,000,000	50%	Construction Done To Foundation Level Contractor Made Application For Part Payment Of Work Done

12	Construction Of Rice Warehouse	Agriculture	4,952,295	50%	Contractor On Site Work Going On
13	Proposed Purchase Of Sports Gear	Tourism	1,347,400	100%	Already Bought And Not Yet Distributed
14	Proposed Construction Of Farmers Shade At Alungo Rice Scheme	Agriculture	4,500,000	98%	Completed
15	Equiping, piping & raising tank at Masara	Water	4,500,000		Completed
16	Construction of Alungo/Asunde intake	Water	4,500,000		Completed
17	Environmental conservation & communityService	Water	2,000,000		Completed

3: MASOGO NYANGOMA

S/No.	Project Name	Department	Amount Allocated	% C Completion	Remarks
1	Opening And Improvement Of Chemelilnyakunguru	Roads	4,851,958		Works Ongoing
2	Opening And Improvement Of Owiyenyarenda Access Road	Roads	4,017,268	100%	Completed
3	Completion Of Okwatch Makindu Access Road	Roads	1,986,707	100%	Completed

4	Bio Energy Centre In Masogo Nyagoma	Green Energy	12,204,234	30%	Change of contractor
5	Proposed Purchase Of Sports Gear	Tourism			Not Yet Done
6	Completion Of Maternity Wing At Chemelil Dispensary	Health	1131684	0%	To Be Executed
7	Equiping & elevating water tower at Magare	Water	1,250,000	100%	Completed
8	Borehole at Osiri Migere	Water	1,250,000	100%	Completed

9	Borehole at Kamarawa village	Water	1,250,000	100%	Completed
10	Construction of 4 door pit latrine at Chemelil market	Business	1,400,000	100%	Complete
11	Fencing and gating of Chemilil market	Business	1,600,0000	100%	Complete
12	Proposed 8 door pit latrine kibigori market	Business	1,600,000	100%	Complete
13	Completion Of Maternity At Osiri Migere	Health	1043296	100%	Completed
14	Completion Of Masaka Dispensary	Health	1051942	100%	Completed
15	Completion Of Maternity At Milenye	Health	2593934	100%	Completed

4. MIWANI

S/N	Name Of The Project	Department	Project Status	General Comments
1	Opening And Improvement Of Jua Kali Sec Iii Access Rd	Roads	100% Done	Work Completed
