FOREWORD

County Annual Development Plan (CADP 2022/2023) is the eight ADP prepared since inception of County Governments. This document has been prepared in line with section 126 of the Public Finance Management Act 2012, and as stipulated by the Article 220(2) of the Constitution. The Plan outlines the proposed strategic priority development programmes and projects that will be implemented in the financial year 2022/2023.

County Governments have a very critical responsibility to undertake in the development of the county as enshrined in schedule four of the Constitution of Kenya. County Government's fulfillment of its mandate is highly dependent and influenced by formulation and implementation of appropriate policies and strategies that spur investment, create opportunities, enhance residents' income earnings and establish an effective and efficient public service delivery system. This plan thus outlines a short term road map of key priority programs for implementation during the next financial year 2022/2023 in fulfillment of the county government's obligations to the people of Trans Nzoia.

The priority development programmes and projects set in the ADP 2022/2023 have originated from the County's long term plans as contained in the Sector Plans and from programmes and projects that had not been completed in County Integrated Development Plan, (CIDP) 2018-2022. The plan is anchored to the National long term plan, the Vision 2030, the big four agenda and other international obligations like the Agenda 2063 and Sustainable Development Goals. The plan seeks to catapult the county into a development trajectory and promote the well being of the county residents. It further aims at consolidating the development gains realized during the implementation of earlier development initiatives in the county.

Further, this Annual development plan is a product of responses from citizens' views captured from memoranda received. The County line ministries/sectors played a vital role in identifying priority projects and programmes and providing input that shaped the production of this plan. The preparation process began by issuance of circular to all the county departments. The circular contained the guidelines for preparation of Annual Development Plan from the National Treasury, state department for Planning.

The sectors programme and projects were developed by departmental technical officers during working sessions. The technical backstopping was offered by Economic Planning team. Final draft was then presented to the cabinet for additional input and approval.

The major projects and programmes that have been identified in this plan for financial year 2022/2023 to provide the development needed to transform Trans Nzoia County's economy include;

Completion and equipping of Trans Nzoia Teaching and Referral Hospital, provision of affordable and high quality health care, Construction of Kitale Business Centre, Extension of

Water gravity schemes, sinking and equipping boreholes, provision of safe drinking water to county residents, Promotion of conservation agriculture techniques through use of modern conservation agriculture equipment; Improving post-harvest management and support to farmers through installation of grain driers and provide subsidies on storage materials such as hematic bags, Revitalize cooperative societies, value addition of agricultural and livestock products and promotion of trade and investment. Further, ECDE and vocational institutional development, provision of learning materials and equipment are among the programmes to be implemented in the Education sector. Other programmes include, improving the county road network and transformation of the county public service into an efficient and effective work force.

This Annual Development Plan is also expected to provide the feedback necessary for carrying out the monitoring and evaluation of projects and programmes so as to enable informed evidence-based decision making at the County as well as National level. It is anticipated that successful implementation of the projects/programmes contained in this Annual Plan will contribute to better delivery of County goods and services, employment creation, faster economic growth, as well as poverty reduction in the County.

My appeal is to all those who will be implementing this plan, the stakeholders and other leaders of this County to provide the necessary support and cooperation to ensure that this plan is fully implemented for the betterment of the lives of our people and ensure a brighter future for posterity of this great County.

Hon. Bonface Wanyonyi

Executive Member for Finance and Economic Planning

ACKNOWLEDGEMENT

The County Annual Development Plan 2022/2023 provides a summary of proposed priority programmes and projects for implementation during the financial year by the county government. The development proposals in this plan are expected to hurl the county towards the realization of its overall development goals as articulated in the county plans. The plan was successfully formulated because of the immense efforts of various stakeholders who contributed towards its preparation and finalization. I would wish to first and foremost thank His Excellency P.S. Khaemba the Governor of Trans Nzoia County, His Excellency Dr. Stanley Tarus, the Deputy Governor and all the Members of the Executive committee of the Government of Trans Nzoia for the invaluable contributions and support towards the preparation of the plan.

My sincere gratitude goes to the County Departments and in particular the respective County chief officers, county directors and their technical staff for their dedicated effort in provision of input and drafting phases of producing the ADP.

I acknowledge the contribution of the County Technical working group who spearheaded and coordinated collection of sector specific input towards of this plan. I appreciate the directorate staff members in my office including: Mr. Moses Otieno, Mr. Ben Rutto, Senior Economists, Ms Sisily Kemboi, Abel Labero and Daniel Eng'ory, Economists/Statisticians and other department staff for working tirelessly in coordinating various aspects and tasks that led to the finalization of this plan.

I also thank key stakeholders among them the County assembly for their role in validation of the document and members of the public for their invaluable submissions and contribution that led to the overall improvement of this Plan.

Milton K. Koech

Chief Officer Economic Planning

EXECUTIVE SUMMARY

This County Annual Development Plan is the first phase in the preparation of the County budget estimates for the FY 2022/23 and is the foundation for the Budget as provided for in the Public Finance Management Act, 2012. The County Annual Development Plan (CADP) was prepared inline with the requirements of the existing legislations and policy documents that include the PFM Act 2012, and the Constitution of Kenya 2010. The plan has been aligned to the County's medium term development blue print- the 2nd Generation CIDP, the Kenya Vision 2030 and its third Medium Term Plan, the big four agenda, and international Commitments like the Sustainable Development Goals (SDGs).

The information in the CADP is organized in five chapters. Chapter one provides the Overview of the County including position, physiographic and natural conditions, administrative and political units and demographic features. The chapter highlights the linkage of the CADP with the CIDP and other development plans. It also provides information on the process followed in the preparation of the document. Chapter two provides the review of the implementation of the previous Annual Development Plan (ADP 2020/2021); it provides analysis of the Capital and Non-Capital projects of the previous CADP, Challenges, Lessons learnt and recommendations thereof.

Chapter three highlights the County's strategic priorities, programmes and projects to be implemented during the plan period 2022/2023. It also provides Capital and Non-Capital projects, Cross-sectoral implementation considerations, Payment of grants, benefit and subsidies.

Chapter four provides resource allocation criteria, proposed budget by programme, proposed budget by sector, Financial and Economic environment and risks, assumption and mitigation measures during the implementation period.

Chapter five provides a framework that will be used to monitor and evaluate the implementation of the programmes and projects, outlined in chapter three. The framework also contains key project performance indicators that will be used in assessing the project impacts.

The preparation of this plan was done in a participatory manner involving all the sectors in the County. The Plan was validated and approved as per the legal requirements.

Legal Basis for Preparing the Annual Development Plan

Legal Basis for Preparing the Annual Development Plan The ADP 2018-2019 has been prepared as pursuant 126 of the Public Finance Management Act (PFM), 2012: Every county government shall prepare a development plan in accordance with Article 220 (2) Of the Constitution that includes: -

- Strategic priorities for the medium term that reflect the county government's priorities and plans;
- A description of how the county government is responding to changes in the financial and economic environment.

CHAPTER ONE: INTRODUCTION

1.1 Overview of the County

1.1.1 Position and Size

Trans Nzoia County is one of the forty seven counties in Kenya that is ranked 37th in terms of size .The County has its headquarters in Kitale town. The County lies approximately between latitudes 00° 52′ and 10° 18′ north of the equator and longitudes 340° 38′ and 350° 23′ east of the Great Meridian. The County covers an area of 2,495.6 square kilometres.

The County borders the Republic of Uganda to the West, Bungoma and Kakamega Counties to the South, West Pokot County to the East, Elgeyo Marakwet and Uasin Gishu Counties to the South East. The County is situated in the North Rift of the former Rift Valley province. The County is home to Mt.Elgon the second highest mountain in Kenya, a trans-boundary feature shared with the Republic of Uganda. The International Trunk road A1 that links Isebania to Tanzania border and Nadapal to the Southern Sudan border, transverse the County. Figure 1 shows the location and size of Trans Nzoia County on the Kenyan Map.

Figure 1: Location of Trans Nzoia County in Kenya

1.1.2 Physiographic and Natural Conditions

Physical and Topographic Features

Trans Nzoia County is characterized by a flat gentle undulation rising steadily towards Cherangany Hills in the east and Mt. Elgon in the northwest with an altitude of 4,313 metres above the sea level. Mt. Elgon is the second highest mountain in Kenya with an important ecosystem shared between Trans Nzoia and Bungoma Counties in Kenya and the Republic of Uganda hence it is a unique resource for environmental and wildlife conservation.

On average the County has an altitude of 1,800 metres above sea level. The altitude varies from 4,313 metres above sea level in Mt. Elgon and gradually drops to 1,400 metres towards the north. Due to the undulated nature, especially the northwest and the eastern parts of the county, there are difficulties in transportation especially during the rainy season when roads become impassable.

There are three main rivers in Trans Nzoia County namely; Ewaso-Rongai with its tributaries being Kabeyan, Kissawai, Kipkulkul, Tongaren, Kabuyefwe and Machinjoni. Noigamaget River with its tributaries being Kapolet and Sinyereri while Sabwani River has Kiptogot, Mubere, Kaibei, Kimothon and Chepchoina as its tributaries. These three rivers are the major tributaries of river Nzoia which drains into Lake Victoria. The water from the rivers is utilized for domestic consumption, small scale irrigation and also has potential for hydroelectric power generation to support rural electrification, industrialization and fisheries. River Nzoia catchments and its tributaries are however threatened by encroachment, agriculture and other human activities.

The largest natural forest cover in the county is found in Mt. Elgon and the Cherang'any Hills. However, continued pressure from human activities has significantly affected the forest cover. The forests are critical to the climatic conditions of the territorial boundaries of the county and beyond as they are the water catchments for Lakes Turkana and Victoria.

Ecological conditions

The County is divided into three major agro-ecological zones which include: the Upper Highland Zones, Upper Midland Zones and the Lower Highland Zones.

Upper Highland Zone: The Zone covers the hills and slopes of Mt. Elgon, Cherang'any hills and the boundary zone towards West Pokot County. The zone lies between altitude 2,400 metres and 4,313 metres above sea level and constitutes about 16 percent of the county land area. The area is covered with high vegetation, shallow stony soils and rocky outcrop. Mt. Elgon National Park situated in this zone is a major tourist attraction. Establishment of a transition zone around the Mount Elgon National Park would play a significant role as a buffer zone for the protected area and mitigation against human-wildlife conflicts. The area also has limited potential for sheep and dairy farming especially at the transition area.

Lower Highland Zone: The Zone covers the slopes of Mt Elgon and Cherang'any Hills with an altitude ranging from 1,800-2,400 metres above sea level. This zone covers 848.64 square kilometres and it constitutes 34 percent of the total area of the county. The soils found in this zone are red and brown clay derived from volcanic ash. These soils are fertile with a high content of clay mineral which gives a continuous supply of plant nutrients. This zone supports agricultural and livestock activities. This zone can support farming activities that include cultivation of pyrethrum, wheat, tea, maize, barley, sunflower, coffee and horticulture as well as rearing of cattle and sheep. Despite the high potentiality of these areas, there is inadequate transport network that hinders efficient transportation of the farm produce to markets.

Upper Midland Zone: The zone covers 1,248 square kilometres which is approximately 50 percent of the total area of the county. It lies between altitudes 1,700 and 2,000 metres above sea level. The mean annual rainfall in this zone is between 900 to 1,400mm per annum. The region includes the Endebess Plains stretching east of the Kitale Plains and further towards the areas below the slopes of Cherang'any Hills. The zone stretches to the border of Tongaren Scheme in Bungoma County to the south and West Pokot County towards the north. The Zone is covered with well drained deep red and brown clays and sandy clays derived from the basement complex. There is a considerable size of land with black cotton soil along the Koitobos River in the Endebess Plains. Farming activities in this region include cultivation of maize, sunflower, coffee, wheat and barley as well as dairy, beef, sheep and horticulture production.

Climatic Conditions

Trans Nzoia County has a cool and temperate climate with mean maximum (day time) temperatures ranging between 23.4°C and 28.4°C and mean minimum (night time) temperatures ranging between 11.0°C and 13.5°C. The maximum and minimum extreme temperature are recorded in February (about 34.2°C) and January (about 6.5°C) respectively.

The county receives annual rainfall ranging from 1000mm to 1700mm. Western parts of Endebess, Saboti and Kiminini Sub Counties, and North Western parts of Cherang'any Sub County receive the highest rainfall ranging between 1,300mm and 1,700mm per year. The eastern parts of Saboti and Kiminini Sub Counties, southern parts of Kwanza Sub County, western and central parts of Cherang'any Sub County receive moderate rainfall ranging from 1,200 to 1,300mm. The parts of the County that receive the lowest rainfall (1,000mm - 1,200mm) are Northern parts of Kwanza Sub County, Eastern parts of Endebess Sub County, South Eastern parts of Cherangany Sub County (Tuigoin) and South Eastern parts of Kiminini Sub County (Waitaluk). Figure 2 shows the distribution of annual mean rainfall by Sub County.

The annual rainfall is distributed into three major seasons namely; Long rainfall season-March, April, May (MAM), Intermediate Season- June-July-August (JJA); and short rainfall season- October-November-December (OND). The long and intermediate seasons are more reliable for agricultural production as compared to the short rainfall season. In the recent past,

drought, dry spells and floods hazards have increased in frequency and complexity, probably exacerbated by climate change. The level of devastation due to drought, dry spells and floods are becoming increasingly severe with loss of livelihoods and negative impacts to key sectors within the county.

1.1.3 Administrative and Political Units

Administrative Subdivision

1,300 - 1,700

Trans Nzoia County is divided into five administrative sub counties namely Kiminini, Saboti, Cherang'any, Endebess and Kwanza. The sub counties are further sub-divided into twenty five administrative wards. Table 1.0.1 below provides the county's total area by administrative boundaries.

Under the National government, the county comprises of five administrative sub counties namely; Kiminini, Trans Nzoia West, Trans Nzoia East, Endebess and Kwanza. The sub counties are further sub divided into 39 locations, 63 sub locations and 1,610 Villages. Figure 3 provides the county's administrative and political units.

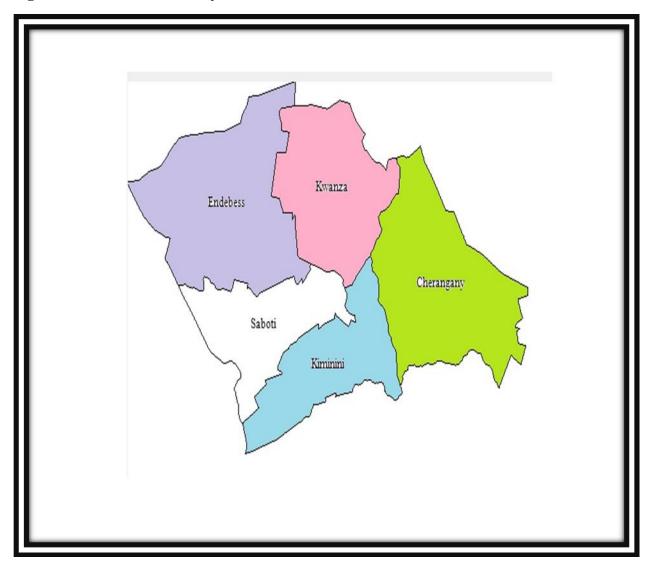

Figure 3: Trans Nzoia County Administrative and Political Units

Table 1: Area by Sub-county and Ward

Administrative Units by Sub County	Area (km²)	Wards
Kiminini	395.3	6
Saboti	323.6	5
Cherangany	629.8	7
Endebess	680.0	3
Kwanza	466.9	4
Total	2495.6	25

Source: CIDP, 2018-2022

Endebess Sub-County is the largest of the five Sub Counties covering an area of 680 km² followed by Cherangany with 629.8km². Saboti Sub County has the least area covering 323.6km². Conversely, Cherangany Sub County has the highest number of wards while Endebess Sub County with three wards has the least number.

Political Units (Constituencies and Wards)

Trans Nzoia County has five constituencies namely Kwanza, Endebess, Saboti, Kiminini and Cherangany. These constituencies are further sub-divided into 25 electoral wards.

Table 2: Trans Nzoia County Electoral Wards by Constituency

Constituency	Ward
Kwanza	Kwanza; Keiyo; Bidii; Kapomboi
Endebess	Endebess; Matumbei; Chepchoina
Saboti	Kinyoro; Matisi; Tuwan; Saboti; Machewa
Kiminini	Kiminini; Waitaluk; Sirende; Hospital; Sikhendu; Nabiswa
Cherang'any	Motosiet; Sitatunga; Kaplamai; Makutano; Sinyereri; Cherang'any-
	Suwerwa; Chepsiro-Kiptoror

Source: CIDP, 2018-2022

Cherangany and Kiminini Constituencies have the highest number of electoral wards with 7 and 6 wards respectively. These are followed by Saboti and Kwanza Constituencies with five and four wards respectively while Endebess Constituency has three electoral wards.

1.1.4 Demographic Features

Population size and composition

Trans Nzoia County is a cosmopolitan county with cultural diversity comprising majority of the 44 Kenyan tribes residing in the county. The Kenya Population and Housing Census (KPHC) of 2019 enumerated a total of 990,341 persons in Trans Nzoia County, with 489,107 being male and 501,206 being female and 28 being inter sex. According to the KPHC 2019, the county population density is 397 persons per square kilometre while the average house hold size is 4.4 persons. Using the inter censal growth rate of 3.6 percent for population projection, the population for the County in 2022 is projected to be 1,103,256 persons and by the year 2023 it is projected to increase to 1,143,697 persons. Table 1.3 shows the population projections by age cohorts for the years 2022 and 2023 respectively.

Table 3: Population Projections by Age Cohorts

Age	2019 (Census)			2022 Projections			2023 (Projections)

Source: County Economic Planning Department, 2021

In the table above the highest proportion of the population in Trans Nzoia is Children of Age 0-17 which accounted for 51 percent of the county population in 2019. The county has generally a youthful population with 851,098 of her population below 35 years of age, representing 77 per cent of the total projected population for the county in 2022 and 24,167 persons in the age cohort, 70+ representing the population of the elderly persons. On the other hand, the labour force mainly of ages 15-64 years has a projected population of 595,029 persons in 2022 representing 54 percent of the total county projected population in 2022.

^{*}Intersex population is excluded from the table since it is too small to be distributed by age

Table 4: Population Projections by Urban Centres 2022 and 2023

Urban	2019 (Census)			2022 (Projections)			2023 (Projected)

Source: Source: County Economic Planning Department, 2021

In accordance to the Urban Areas and Cities Act, 2011 Trans Nzoia County has two main urban centres namely Kitale and Kiminini towns. The 2019 KPHC enumerated 162, 169 persons in Kitale town and 16,560 persons in Kiminini township respectively. The total projected urban population for these towns is 199,113 in 2022 and 206,417 in 2023 respectively. Table 1.0.4 shows the census population in 2019 and projected population for Kitale and Kiminini for the years 2022 and 2023.

Population density and distribution

Table 1.0.5 shows the population distribution by Gender and Sub County in 2019, and projections for 2022 and 2023 while table 1.0.6 shows the projected population density by Sub County for the years 2019, 2022 and 2023.

Source: County Economic Planning Department, 2021

According to KPHC 2019, the County has a population density of 397 people per square Kilometre and is projected to increase to 442 people per square Kilometer in 2022. This is expected to rise further to 458 by 2023 .Trans Nzoia County is among top fifteen densely populated counties in Kenya. The report indicates further that Kiminini Sub County has the highest population and is also the most densely populated sub county. On the other hand, Endebess Sub County is the least populated with a population of 111,782 persons and a population density of 165 persons per square kilometer.

1.1.5 County Infrastructural Information

Roads and Rail Network

According to Kenya Roads Board, final road register report 2018, Trans Nzoia County had a total of 2778.85 kilometers of road network out of which paved surface is 197.157 KM, gravel surface is 1129.88 KM and earth surface roads is 1451.81 KM. The major classes and some of the roads under the classes in the county include;

- Class A1: Webuye-Kitale-Kapenguria –Lodwar-South Sudan Border;
- Class B2: Eldoret-Kitale-Endebess-Suam;
- class C: Kitale-Kachibora- Chepkoilel;
- Class D: Maili Saba-Sibanga-Kaplamai-Nzoia roads; Maili Saba (along kitale-Eldoret road)-Kachibora-Kapcherop.
- Urban roads: Hospital Road, Show ground- Bikeke;
- Kenya Wildlife service roads which serve the National Parks and Game Reserves like Saiwa and Mt. Elgon National parks

The various classes of roads are managed by different entities. The County Government manages class D, E and unclassified rural roads. On the other hand the Kenya National Roads Highway Authority (KENHA), Kenya Urban Roads Authority (KURA) and Kenya Rural Roads Authority (KURA) manage the national trunk roads, urban roads and class C roads respectively.

The County has the old colonial railway line of 23 KM that terminates at Kitale town but is not functional. Additionally the County has one functional airstrip at Kambimiwa which

requires expansion and modernization. Currently major infrastructure works are being undertaken to modernize the bus terminus which also includes completion of a Business Centre in Kitale town.

Information Communication Technology

According to the Kenya Population and Housing Census (KPHC 2019), the report indicates that 40.4 percent of the population own mobile phones compared to the national figure of 47.3 percent. The County is fairly covered by the three main mobile service providers namely Safaricom, Airtel and Telkom. On the other hand, the report classifies radio and television as the mostly used mass media in the County with coverage of 57.3 percent and 34.3 percent respectively. Further, 16.9 percent of the county residents have access to the internet and the use of computer is 7.1 percent. The installation of fibre optic cables in Kitale Town has enabled businesses and households mainly in urban areas to be connected to the rest of the world through fast internet.

The County is served with one Huduma Centre located in Kitale town Post office. The County has 3 post offices and 6 sub post offices. Increasingly, private courier services have taken over postal services and filled a gap that could have hampered delivery of parcels and letters.

Energy Access

The main sources of energy in the County according to Kenya Population and Housing Census 2019 are electricity, paraffin, liquid petroleum gas, firewood/charcoal, solar, and biogas. Access to energy however varies between rural and urban areas. Wood fuel and solar are the most preferred source by a majority of the rural households for cooking and lighting while electricity and liquid petroleum gas are most preferred in the urban centres.

Lighting

The main sources of lighting fuel in the County are Electricity and paraffin. According to KPHC 2019, 37.9 percent of the households surveyed use electricity and this can be attributed to the scale up in the rural electrification program. On the other hand, 23.9 percent of the households use solar for lighting while 16 percent of the households use paraffin tin lamp and 9.8 percent use paraffin lantern. Similarly, other sources of lighting fuel used are torch/spotlight solar charged, candle, torch /spotlight dry cell, paraffin pressure lamp, gas lamp, wood and battery car charged at 7.5 percent, 2 percent, 1 percent, 0.4 percent and 0.1 percent respectively. The report further indicates that 0.7 percent of the county households use wood and 0.7 percent use car battery charged as other energy sources for lighting.

Cooking Fuel

According to the KPHC 2019, 69.8 percent of the households interviewed use firewood for cooking, 17.3 percent use charcoal, 8.7 percent use liquid petroleum gas, 3 percent use paraffin, 0.6 percent use electricity, 0.4 percent use biogas and 0.2 percent of the households use solar.

The above figures clearly indicate that majority of the residents use non-renewable sources of energy for lighting and cooking fuel. The biggest type of energy used for lighting and heating is wood fuel yet the County intends to increase her forest cover. This is a development challenge that needs to be addressed before it becomes a crisis in the future.

Fire fighting

The County fire unit plays a key strategic function to protect and rescue properties and life against fire. The fire incidence majorly occur in institutions such as schools, public facilities; Hospitals and in residential and commercial properties. The fire station has been strengthen in the past few years through acquisition of two (2) new firefighting engines; employed 34 firefighting personnel and constructed a fire station.

Housing Types

Housing is one of the basic requirements for growth and development of the economy. In Kenya housing is classified in terms of roofing, walling and flooring materials. It can also be classified based on the location either in an urban or a rural setting. According to KPHC 2019, the main materials used for roofing are grass/twigs, makuti / thatch, dung/mud, iron sheets, tin cans, asbestos sheet, concrete/cement, tiles, decra/versatile and nylon/cartons/cardboard. Corrugated iron sheet is the leading roofing material at 94 per cent of the houses while the grass/twigs constitute 2.3 percent, asbestos roofed house at 1 percent, thatched or makuti roof houses constitute 0.1 per cent while tile roofed houses and concrete cement roofed houses both constitute 0.6 percent.

The main types of walling material according to KPHC 2019, include mud /cow dung ,bricks ,stone with mud ,covered adobe , iron sheets grass reeds and off cuts. Mud /cow dung accounting for 59.5 percent, brick or block accounting for 18.5 percent, stone with mud accounting for 6.6 percent and iron sheets accounting for 1.4 percent of the dwelling units in the County. Other types of walling material used in the County include grass reeds, covered adobe, timber and others. According to KPHC 2019, the main types of flooring materials used by households in the County include dung accounting for 39.7 percent ,earth /sand that accounts for 20.4percent and concrete cement/terrazzo accounting for 32.2 percent of the dwelling units. Other types of flooring include ceramic/ tiles, wood /timber, parquet/polished wood and others. The usage of the above materials also differs between urban and rural areas. There is need for the government to invest on research for appropriate housing technology to ensure affordability and appropriateness in the construction of dwelling units.

In terms of ownership of dwelling units, 67.7 percent of the households in the County live in their own houses while 32.2 percent live in rented housing units (KPHC 2019). In addition, there are 1145 National Government houses and 1052 County Government houses in the County.

1.1.6 Land and Land Use

Land ownership categories/ classification

Land in Kenya is categorized into public, private and community land. In the County land is held both publicly and privately. Public land is under ownership of public institutions while private land is owned by individuals or registered private groups, organization or companies. Majority of land in the County is under private ownership as either leasehold or freehold. In addition, some land in urban areas is also held on temporary basis under Temporary occupation Licenses (ToLs).

Mean holding size

The average land holding in the County is 0.607 hectares for small farm holders and 12.15 Hectares for large scale farm holders. The mean holding land size is however continuously reducing due to subdivision of land occasioned by population pressure.

1.1.7 Employment

Labour force

According to KPHC 2019, number of persons in the labour force in the County is indicated to be 360,674 workers, those seeking for work are 38,655 and those outside the labour force are 456,613. On the other hand it is indicated that female workers are more than male in the workforce with 184,805 being female and 175,862 being male.

In Trans Nzoia County Government, Staff establishment is currently at 3,666 comprising 2,038 female and 1,632 male. In terms of job classification 1,921 of the employed are permanent employees, 1,118 are contractual employees while 627 are temporary employees (source: County Public Service Management Department).

Unemployment Levels

Unemployment rate is the proportion of unemployed persons to the total labour force. Unemployment rate in the County is indicated to be 53.34 percent. The number of unemployed males is 222,220 persons while the unemployed female are indicated to be at 234,381 persons. This gives a total of 456,613 unemployed people according to Kenya Population and Housing Census 2019.

1.1.8 Education, Skills, Literacy and Infrastructure

Pre -School Education

The county has a total of 803 ECDE centres with 402 public ECDE centres and 383 registered private ECDE centre. On the other hand the total enrollment rate in the county is 69,308 pupils out of which 34,863 pupils represent boys while 34,455 represent girls. The County has initiated the construction of classrooms in ECDE centres and equipping in a bid

to improve the learning environment so as to increase transition rates thereby enhancing the quality of learning and teaching in these centres.

Primary Education

Primary Education is a National Government function as per the Constitution of Kenya 2010. However, the County Government depends on primary education provision of administrative roles over the Pre-School education and provision of site/location/land for construction of the ECDE classrooms.

There are 382 public Primary Schools and 260 Private primary Schools in the County with a total enrollment of 270,634 pupils with 137,234 being boys and 133,400 being girls. The enrollment in the Primary Schools is dependent on the transition of pupils from Pre-School to Primary Education. It's important to note also that the performance of pupils in Primary Education is dependent on the quality of education provided at Pre-School. Therefore, the County Government as well as the National Government needs to work under close collaboration so as to reduce the dropout rates from Pre School as well as increasing retention and transition rates between the two levels of learning.

Secondary Education

In Trans Nzoia County there are 241 Public and 19 Private Secondary Schools with a student population of 98,550 out of which, 49,566 are boys and 48,984 are girls.

Despite the fact that provision of Secondary Education is a National Government function, the County is a key partner in the Education sector. The County has put intervention measures such as provision of bursaries to needy students in secondary schools.

Vocational Training centre

The county has a total number of 31 VTCs with a total enrolment of 2760 Students, out of which 1567 are male and 1,193 are female students. The County has invested in the construction of VTCs centres and equipping in a bid to improve the learning environment so as to increase transition rates thereby enhancing the quality of learning and teaching in these centres.

1.1.9 County Broad Strategic Priorities and strategies of the Plan period

The priorities outlined in this document are consistent with the aspirations in the County Integrated Development Plan (2018-2022).

The County government plans to focus on the following key priorities;

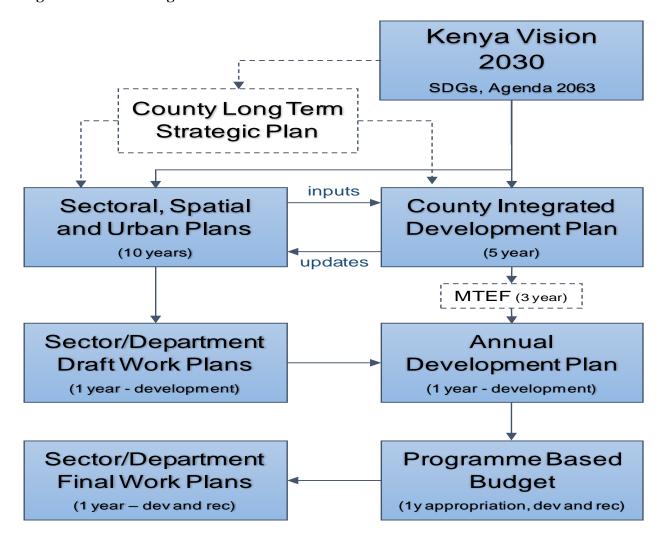

- i) Promotion of health care To be achieved through Completion of County Teaching and Referral hospital, construction of new health facilities, rehabilitation and expansion of existing health facilities, and sustainable supply of pharmaceuticals and health commodities
- ii) Improving road infrastructure This will be achieved through continuous maintenance and construction of earth, gravel and bitumen roads as well as bridges and river crossings. Acquisition of road construction equipment in addition to investment in the modern road construction technology

- iii) Promoting the Agriculture sector To ensure a food secure county, the government will upscale subsidization of farm inputs, land and soil management, Artificial Insemination (AI), Value addition in agricultural produce, and revamping extension services.
- iv) Improvement of education standards This will be achieved through Expansion of ECDE and VTC infrastructure, provision of the Elimu Bursary Fund, provision of modern equipment for VTCs, learning and instructional materials among other initiatives
- v) Provision of clean, safe and adequate water This will be achieved through extension of Water Gravity Schemes, sinking and equipping boreholes, rehabilitation of water dams and investing in efficient waste management.
- vi) Promotion of trade, fair business practices and Industrial development This will be achieved through completion of Kitale Business Centre, Construction of modern Wholesale and retail market, revival of the Jua Kali sector, provision of business financing to micro and small enterprises, and opening the Suam Border Point for Trade and Investment.
- vii) Social protection and Youth empowerment This will be achieved through Promotion sports, culture, tourism and performing arts and support the vulnerable by establishing safety nets to ensure they enjoy quality life.
- viii) Good governance This will be achieved through strengthening of governance administrative systems, strengthening of public participation structures, institutionalize performance management system, establish disasters response and mitigation structures and undertake continuous staff training programmes.
- vix) Developing appropriate policies and plans that will guide resource allocation and strategies to support revenue mobilization.

1.2 Rationale for the Preparation of Annual Development Plan

The Kenya Vision 2030 is the national blueprint that forms the national development agenda that is being implemented through a series of 5-year Medium Term Plans (MTPs) and therefore the CIDP 2018-2022 has been aligned to the Vision through MTP III. The CIDP identifies specific projects and programmes for implementation over the five year period. On the other hand, County Annual Development Plan provides a pull out of the key priority and strategies from the CIDP to be executed in the financial year 2022/2023. The plan will also form the basis for all budgeting and spending as provided for in the law.

Figure 4: ADP Linkage with other Plans

1.3 Preparation process of the Annual Development Plan

Annual Development Plan is prepared in reference to Section 126 of the Public Finance Management Act 2012 stipulating that every County Government shall prepare a Development Plan which outlines the strategic priorities for the medium term that reflect the County Government's priority broad programs to be delivered during the coming year. The act further requires that the County Executive Committee member responsible for planning shall not later than 1st September submit the Annual Development Plan to the County Assembly.

The preparation of this plan was done in a participatory manner involving all the sectors in the County. The process began by issuance of circular to all the departments. The circular contained the guidelines for preparation of County Annual Development Plan. It further stipulated the timelines for the finalization of the document.

The County Technical Working group (TWG) which comprised of technical officers from the 10 county departments, CPSB, Kitale Municipal Board and the county Assembly was formed to coordinate various aspects of production of this plan. The County Departments made submissions which were validated during the sector working group sessions and there after the revised submissions were consolidated into a draft document. During the participatory validation process the teams ensured that all the programmes and projects were aligned to the CIDP 2018-2022 priorities. The Economic Planning secretariat then retreated, did desktop review and analysis as well as consolidated inputs from all stakeholders and produced the first draft. The draft was then submitted to the County Executive Committee Member for Finance and Economic Planning for review with the cabinet and onward submission to the County Assembly for deliberation and Approval.

CHAPTER TWO: REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

2.0 Introduction

This section discusses the County Government's performance during the previous financial year 2020/2021. Performance is detailed as per the various sectors/subsectors and the chapter provides information showing achievements in various County sector/subsectors against planned targets.

2.1 Agriculture, livestock, fisheries and cooperative development

2.1.1 Background Information

The Sector comprises of Agriculture, Livestock, Veterinary services, Fisheries, and cooperative development sub-sectors. Agriculture as sub sector plays a significant role in contributing to economic and social development through enhancing food security; income generation; employment and wealth creation; foreign exchange earnings as well as security of land tenure and public land management. The sub sector contributes 10 percent economic growth rate under Vision 2030 as well as 80 percent to the county's economy. It also contributes to economic growth through forward and backward linkages with other sectors in the county and at the country at large. In Trans-Nzoia County, the Food Poverty Estimates (individual) is 33.3 percent based on the 2015/16 Kenya Integrated Household Budget Survey (KIHBS). This food poverty is estimate substantially high for a County which boasts to be a bread basket of Kenya, therefore the sub sectors major focus is therefore reducing food poor households.

2.1 2 Sector Achievements in the previous financial year 2020/2021

Planned versus Allocated budget

The sector was allocated **Ksh 554, 060, 624** in the financial year 2020-2021 compared to the planned budget of Ksh **658,306,872**.

Key Achievements

Notable achievements of the previous plan for agriculture sub sector include; procurement of assorted specialized agricultural machinery to implement new technologies such as soil conservation agriculture, acquisition and distribution of coffee seedlings, Tissue Culture banana seedlings, Avocados and macadamia seedlings. Further through ward specific funding activities undertaken were; acquisition and distribution of appropriate soil and crop specific fertilizers, grading of rural access roads, promotion of hermetic storage bags, construction of tea buying/collection centres and supporting farmers with spraying equipment.

The sector performance in the FY 2020/21 was affected by COVID 19 pandemic which hit farmers hard as well as the business community. However the department of agriculture rolled out various initiatives as mitigation measures to cushion the farming community.

These included the COVID 19-KCEP-CRAL PLUS programme, that supported 3675 (2075 CAT1,1600 CAT 11) farmers with farm inputs for cultivation of 1 acre of maize crop, 1 acre of beans crop and half an acre Irish potato. A total of 2007 farmers both in Kwanza and Cherangany sub counties were also supported with post-harvest equipment namely 273 Tarpaulins and 1,734 hermetic bags under the same initiative.

For the period under review, a total of 15,000 (50 kgs) bags of Mavuno fertilizers were distributed to vulnerable farmers under the fertilizer grant. Similarly other milestones achieved by the sub sector included distribution of 41,000 avocado seedlings, 25,000 coffee seedlings and 15,000 macadamia seedlings under the crop diversification initiative. During the year under review two tractors were acquired to support Conservation Agriculture, while in modernizing agriculture, 25 (1 per ward) model farms were established for demonstration of good agricultural practices and technologies at the ward level. However field days and exhibitions were put on hold due to public health restrictions. Additionally, through the support of National government 900 litres of assorted pesticides was distributed to combat Fall Armyworm from the national government. Ten youth groups were also capacity build on spray service provider's use of chemicals.

Under the NARIGP programme whose objective is "to increase agricultural productivity and profitability of the county communities, the 4 priority value chains implemented in the year under review included; Dairy cow milk, banana, Tomato & local chicken and 4 multi community projects; Chesucheki, Muroki, Chepkaitit and Amani. Consequently, the sub sector also implemented the ASDSP programme under which the value chain actors and value chain organizations database was developed.

For the Livestock, Fisheries and Cooperative subsectors, the achievements in the year under review included improvement of Livestock Productivity through promotion and demonstrations on fodder bulking and conservation under which 432 farmers in groups were assisted in establishment of improved pastures and fodder namely the bracharia, Rhodes, Napier, maize and sorghum for silage. In promoting poultry production and productivity a total of 15 groups of 330 farmers were capacity built on various aspects of chicken production, marketing and value addition. The sub sector also facilitated for acquisition of 10,000 improved Kienyeji chicks from KALRO Naivasha which were distributed to 500 farmers in 25 groups in Bidii Ward. Other activities under taken included improvement of livestock breeding technology adoption by working with individual farmers on selection, breeding, upgrading and ensuring quality AI services to farmers by AI service providers through regular field supervisions and accreditation of qualified AI technicians to eliminate quacks. Technical advice was also given to 2,600 farmers using AI on selection, breeding and upgrading.

During the year under review over 186,000 heads of cattle were vaccinated, 4 cattle dips were also renovated with the aim of reducing incidences of notifiable livestock diseases. Under fisheries promotion, 20 fish ponds were constructed and 59 existing ponds restocked with 86,750 tilapias and cut fish fingerlings valued at Ksh.475,000. In addition 113 ponds of surface area 37,350m² were harvested where a total of 4,971kg of fish was harvested

estimated at Kshs.1, 410,100. In a bid to promote vibrant cooperative movements, registration of 32 new cooperatives was undertaken in addition to reviving 16 dormant cooperative societies. Other routine activities such as auditing of cooperatives and capacity building were undertaken for 25 and 33 cooperatives respectively.

The summarised achievements for the Agriculture, Livestock, Fisheries and Cooperative Sectors is provided in tables.

Type of	Budgeted	Actual Amount	Beneficiary	Remarks*
payment	Amount (Ksh.)	paid (Ksh.)		
Inclusion Grant	Re-allocation	11,926,800	Support to cooperative/POs movement	NARIGP

2.1.4 Challenges experienced during implementation of the previous ADP

Notable challenges in the year under review are as outlined;

- Delay in the approval of the budget occasioned by delayed uploading of procurement plans and the supplementary budget.
- The effects of climate change occasioned by the late onset and poor distribution of rainfall which affected implementation of crop based programmes and the increased infestation of pests such as the Fall Army worm, *Tuta absoluta*.
- The emergence of COVID-19 pandemic among others affected the implementation of sector programs
- Inadequate resources to implement the planned activities occasioned by budget cuts affected implementation of some planned activities.
- Dwindling number of extension staff due to mass retirements
- Inadequate office staff and other office infrastructure
- Lack of water vessels and attachments to exploit dam fisheries (fiber glass boat, out board engine, safety jackets and nets)

2.1.5 Lessons learnt and recommendations

- Development programmes that were implemented using donor funds and counterpart funds like NARIGP and ASDSP II achieved greater level of success in implementation due to timely disbursement of funds from operation accounts.
- Involvement of all relevant stakeholders in the County is key in the achievement of the development targets.
- Value chain analysis is important before implementation of certain projects
- The sector will formulate and strengthen the sector specific policy and regulatory framework for smooth sector operations.
- The sector will strengthen coordination and collaboration by various partners in development initiatives.

2.2 Health services

2.2.1 Introduction

The Trans Nzoia Health Sector was allocated a total of Ksh. 2,144,058, 893 (with 80% comprising recurrent expenditure) during 2020/2021 financial year targeting to serve a projected population of 1,064,245 plus referrals from the neighboring Counties of West Pokot, Bungoma, Elgeyo Marakwet and West Pokot. Among the priority needs in the previous Financial Year were; the requirement to construct and upgrade infrastructural facilities, need to enhance primary health care, address increasing cases of cancer patients, need for specialized maternal health services, need to increase procurement of drugs and other non-pharmaceuticals among others. Outlined are some of the prioritized capital projects for the ADP year 2020/2021;

- i. Completion of the Trans Nzoia Teaching and Referral Hospital (TTRH).
- ii. Construction of New Born Unit at Kitale County hospital
- iii. Construction of single unit staff house at Kapkoi Health Centre.
- iv. Construction of Chain Link Fence and Sentry House at Khalwenge Dispensary.
- v. Construction of OPD wing at Bwake Dispensary.
- vi. Construction of a single unit staff house at Cheptobot Dispensary.
- vii. Renovation works at Simatwet Dispensary.
- viii. Construction of a ward at Goseta Dispensary.
- ix. Construction of Four Door Toilet at Wiyeta, Kesogon and Kimuri Dispensary.
- x. Refurbishment of Berur Health Centre.
- xi. Refurbishment of Sinoko Dispensary.
- xii. Construction of Chain Link Fence and Sentry House at Cheptandan Dispensary.

Non capital programs for the year were:

- policy, legal framework and institutional reforms preventive and promotive health
- reproductive, maternal, neonatal, child and adolescent health (RMNCAH)
- curative health services

2.2.2 Sector Achievements in the Previous Financial Year (2020/2021)

For the year under review key projects implemented by the sector included construction works of the Trans Nzoia County teaching and referral Hospital, Rehabilitation of neonatal unit at the Maternity Block at Kitale County Hospital, Rehabilitation of Mt Elgon Hospital Covid Centre and Doctors Plaza, construction of a single unit staff house at Kapkoi Health Centre, Chain Link Fence and Sentry House at Khalwenge Dispensary among other infrastructural projects at the primary health facilities.

Similarly in the year under review the sector procured medical drugs and non-pharmaceutical supplies and strengthened human resource through employment of 352 health workers of various cadres. However the sector is still faced with human resource challenges in all cadres and mostly due to those exiting the service and opening up of new facilities.

			facilities	reimbursement
DANIDA	16,781,250	22,645,000	Level 2 & 3	Fully utilized. Additional funding was for
			facilities	COVID-19

2.2.4 Challenges Experienced During the Implementation of the Previous ADP (2021/2022)

The following challenges were encountered during the implementation of the precursory ADP (2020/2021):

- i. Exodus of donors and withdrawal of key partners from the county due to global geopolitical dynamics resulted in reduced health financing.
- ii. Over-reliance on some partners led to funding gaps that the departmental budget allocation could not sufficiently cushion.
- iii. The continued challenges of COVID-19 resulted in continued resource constraints towards mitigation measures at the expense of key planned activities.

2.2.5 Lessons Learnt and Recommendations

2.2.5.1 Lessons Learnt

The following lessons can be drawn from the implementation of the previous ADP (2021/2022):

- i. There is need for regular review of the ADP during implementation to ensure priority targets are achieved. Most of the targets the sector monitored throughout the plan period performed comparatively better.
- ii. Key indicators can suffer if funded through secondary sources instead of the county budget. The source of health financing has a direct correlation to the success of priority indicators and overreliance on donor and partner support can hinder the effective implementation of ADPs. Deliberate effort should be made to ensure health financing is sustainably achievable within the county fiscal projections.

iii. Contingency planning is critical in the implementation of an ADP and formulation of Budget. The emergence of COVID-19 was unforeseen and unplanned for. This disrupted planned activity in favour of mitigation measures.

2.2.5.2 Recommendations

Based on the challenges and lessons learnt, the department makes the following recommendations:

- i. That the county government of Trans Nzoia increases the Health allocation to reduce overreliance on donor agencies and partners.
- ii. That all health financing be guided by the prevailing ADP, including expenditure on contingencies fortuities.
- iii. That the ADP monitoring and evaluation framework be strengthened to ensure that the Health sector achieves all planned activities.
- iv. Donor and partner financing should be aligned to departmental priorities to realize the objectives of ADPs effectively and efficiently. While significant health financing was realized from external funders, most of the support was not aligned to the ADP priorities. Joint planning may mitigate this problem.

2.3 Public works, transport and energy

2.3.1 Introduction

The sector comprises of Public works, Transport and Energy. The Public works sub-sector plays a fundamental role as an enabler of Building service provision by designing, costing, implementation of projects and offer technical support during project life cycle, Mechanical sub section deals with management of County garage and repair of County Motor vehicle

The County fire fighting unit plays critical role in protection and rescue of properties and life against fire out break disaster. Energy sub sector do install and maintain security lights in key areas.

2.3. 2. Sector/ Sub-sector Achievements in the Previous Financial Year

Key achievements

In the year under review the sector had notable achievements some such as the ongoing upgrade of County referral Hospital access road to bitumen standards, upgrading of Kiminini township streets to bitumen standards and routine maintaince of approximately 1200Km of County roads among other works. Similarly through the intervention of National government road agencies such KENHA and KURRA, the upgrading key Class B roads have been undertaken. The construction of 29 kilometers Kitale –Endebess-Suam boarder road is ongoing. This road is key for economic growth of the County and Kenya as it connects Kenya and Uganda through the Suam Boarder. Other major road infrastructural projects implemented through KeRRA include the upgrading to bitumen standards roads such as Veterinary – kwanza, Maili Saba –Chepchoina, and Maili saba-Sibanga-Kaplamai roads among others. Additionally the upgrading and rehabilitation of Kitale airstrip is underway. This will enhance the airstrip capacity to handle moderately larger flight.

Management of the MTEF processes	To promote public expenditure management linkage	Sector MTEF Report developed	No of sector MTEF reports developed	1	-	-	CGTN

2.3.4 Challenges experienced during implementation of the previous ADP

The major challenges encountered in the period under review include;

- Delayed payment to suppliers and contractors for the services rendered.
- Inadequate compliance to physical development plans.
- Encroachment of road reserves.

- High rainfall thus impeding road works
- Inadequate transport policies and legal frame work that hampered sector in effectively carrying out its mandate.
- Vandalism of streetlights and high mast floodlights.

2.3.5 Lessons learnt and recommendations

The following are the Key lessons learnt from the implementation of the previous plan and the proposed recommendations thereof;

- Development and strengthening of sector specific policies is necessary for the effective operation of the sector.
- The sector will lobby for more budgetary allocation and pursue other mechanisms to finance its capital projects through arrangements such as the Public Private Partnerships (PPP) framework.
- There is sector will advocate for the recruitment of more technical staff to enhance for effective operation.
- There sector in collaboration with other stakeholders undertake demarcation of all County road reserves.
- There sector will champion for the timely payment of suppliers and contractors to minimize delays in the provision of goods and services.

2.4 Education

2.4.1 Introduction

The sector has two sub sectors namely ECDE Education and vocational training. The county has 420 and 383 public and private ECDE centres respectively. The enrolment of ECDE children currently stands at **69,308** as compared to **57,859** in 2018. The infrastructure in ECDE has improved since early childhood education was devolved although it is still inadequate. The Sub-Sector of Vocational Training has 31 functional Vocational Training centers and there 3 technical training institutes in the county offering technical education. The Vocational training subsector has instructors.

2.4.2 Sector achievements in the previous financial year

The sector had a total allocation of **ksh197**, **727**, **485** in financial year 2020/2021 for development expenditure. In the year under review, in promoting ECDE infrastructure development,25 modern ECDE classrooms and 15 VIP pit latrines were constructed in addition to completion of the 28 NHC ECDE classrooms. Under VTC of the department initiated the construction of twin workshops at Koros, Kapkarwa and Chalicha with the Kapkarwa VTC being completed while Koros and Chalicha VTCs are ongoing. Additionally the sector carried out capacity building of ECDE caregivers on the CBC curriculum besides training for VTCs project managers. For the education sector support, bursary was awarded to 14,000 beneficiaries against a planned target of 15,000 beneficiaries. This initiative is geared towards supporting the needy students thus enhancing retention in learning institutions.

2.4.4 Payment of Grants, Benefits and Subsidies

The sector received Elimu Bursary Fund and Village Polytechnic conditional grant as illustrated in the table;

Table 4: Payment of Grants, Benefits and Subsidies

Type of payment	Budgeted Amount (ksh.)	Actual Amount paid (ksh.)	Beneficiary	Remarks
Elimu Bursary Fund	50,000,000	50,000,000	14,000 beneficiaries	More funds needed
Village Polytechnic	43,000,000	43,000,000	28 VTCs	Funds disbursed
grant				All.

2.4. 5 Challenges experienced during implementation

- Delayed funding from exchequer especially with regard to disbursement of the VTC grants thus affecting projects implementation
- Delays in the procurement process thus slowing the pace of projects execution
- Inadequate policies and legislation for the implementation of some departmental programs/projects such as registration
- Inadequate tools, equipment and instructional materials
- Inadequate trainers/technical staff in the Vocational training centres.
- Lack of departmental Vehicle leading difficulty in Mobility and supervision of projects
- Inability to sustain the trainees due to irregular supply of teaching/leaning materials
- Low staff morale due to irregular/delays in funding and lack of incentives
- The **Covid-19** affected the education calendar and therefore making some of the students to drop out of School

2.4.6 Lesson Learnt and Recommendations

2.4.6.1 Lessons Learnt

- Stakeholder involvement is critical for success in program implementation
- Persistent delays in funding leads to delays in implementation of programs
- Insufficient policies led to gaps in administration thus affecting sector operations
- Partnership among various stakeholders led to improved improves service delivery

2.4.6.2 Recommendations

- The department will lobby for additional resources to meet the increasing demand for development
- M&E for the sector programs will be effected in collaboration with the County monitoring and evaluation unit.
- The sector will formulate and strengthen sector specific policy and regulatory framework for effective operations
- The sector to strengthen coordination and collaboration by various partners in development initiatives

2.5 Water, Environment and Natural resources

Introduction

The sector comprises of water, environment, natural resources and climate change whose key mandate is enhance environmental management, conservation and protection for increased access to clean, safe and adequate water and enhanced sanitation systems in the county for improved livelihood, and sustainable development.

2.5.1 Sector Achievements in the Previous Financial year Key achievements

In the period under review, the department managed to plant 80,000 tree seedlings to increase forest cover, climate change policies were formulated and passed, 50km of water pipelines were laid, 20 boreholes drilled and equipped and 27 springs protected leading to increased access to clean and safe water to 39.6%.

Analysis of planned versus allocated budget

The sector was allocated Ksh. Review 234, 218,397 for its development program in the year under review.

Table 2.5.11: Summary of Sector/ Sub-sector Programmes

Sub	Key Outcomes/	Key performance	Planned	Achieved	Remarks*
Programme/Project	Outputs	indicators	Targets	Targets

2.5.3 Challenges experienced during implementation of the previous ADP

- Inadequate technical staff
- In adequate transport for field staff
- Delayed acquisition of inputs
- Inadequate funding for department projects
- Insufficient solid waste disposal sites
- Challenges with Management of water service provision due to transboundary water service provider.
- Inadequate Policy and Legal Framework
- Encroachment of water catchments especially dams
- Vandalism of water infrastructure

2.5.4 Lessons learnt and recommendation

Lessons Learnt

The lessons learnt in implementing the annual development plan 2020-2021 will greatly inform the implementation of the subsequent plan. The key lessons learnt include;

- Available resources were utilized to address operational challenges especially during the COVID-19 period
- Involvement and coordination of all relevant stakeholders is key in the achievement of the development targets.
- Feasibility and environmental and Social Impact Assessment (ESIA) study is important before implementation of certain sector projects.

Recommendations

- There is need to incorporate a strong M&E system to track ADP implementation in line with annual County budgetary allocations.
- The sector shall formulate and strengthen sector specific policy regulatory framework for smooth sector operations
- The department needs to pursue mechanisms to finance capital projects through arrangements such as the Public Private Partnerships (PPP) framework.

2.6 Trade, Commerce and Industry

2.6.1 Introduction

The sector comprises of trade development, MSE, and weights and Measures directorates.

The sector planned to implement various activities in the period under review which included the continued construction of Kitale Business Centre, formulation of sector specific policies and legislation, markets infrastructure development, alcoholic drinks control licensing, consumer protection and fair trade practices among other among other interventions.

2.6. 2 Sector Achievements in the previous financial year 2020-2021

In the year under review the sector was allocated **kshs 104,756, 291** for development expenditure against a planned budget of kshs. **441,520,000.**

During the period under review, construction the Kitale Business center was continued with 40% completion being achieved, construction of fresh produce market at Tulwet was commenced, market umbrella shades were procured for traders in Bidii ward, commenced the construction of model kiosks at Kapkoi market, construction of model kiosks at Kapsara market was completed, Renovation of Lukhome and Sitatunga fresh produce markets were accomplished and a model kiosk was constructed at Kachibora center. Additionally, construction of Mitume Fresh produce market was commenced. Similarly construction of fresh produce market at Kimila in Hospital ward was also commenced. During the same period Makutano fresh produce Market which had stalled commenced.

The Key sector achievements are summarized as follows;

- Ongoing construction of the Kitale Business center with completion at 40%.
- Procurement and distribution of 642 branded market umbrella shades for Bidii ward
- Construction of 11 model kiosks at Kapsara (6) and Kachibora (5)
- Commenced the construction of fresh produce market at Tulwet and Makutano
- Contract was awarded for the construction of fresh produce market at Kimila, Hospital Ward and Mitume in Tuwan Ward.
- Continued the construction of 12 model kiosks at Kapkoi market
- Continued the licensing of Liquor selling outlets
- 4,400 measuring equipment were calibrated in bid to enhance fair trade practices and consumer protection.

Table 2.6.1 Sector Programmes performance

Programme Name: Medium	and Small Enterprises				
Objective: To enhance trade					
Outcome: Enhanced trade i	n the county

				revolving kitty

2.6.4 Challenges experienced during implementation of the previous ADP

- Late commencement of the procurement process for the FY hence rush in implementation of projects.
- Covid-19 pandemic which came at the onset of the implementation of procurement for goods and services greatly hampered implementation.
- Inadequate resource envelop for development needs, greatly affected implementation of development projects.
- The department lacked enough physical infrastructure such office space and equipment, motor vehicle
- Inadequate Staff
- Lack of public land to implement projects has been a major challenge.
- The department experienced gaps in key data such as the number of traders and the kind of trade they do.
- Political considerations in project selection and design, leading to projects being spread thinly in all the county wards even in situations where this was not feasible.

2.6.5 Lessons learnt and recommendations

- Involvement of all relevant stakeholders in the County is key in the achievement of the development targets.
- There is need for the department to incorporate a strong M&E system to track project implementation
- Feasibility study is important before implementation of projects
- Need for coordination and collaboration by various partners in development initiatives
- The department needs to pursue alternative mechanisms to finance capital projects

2.7 Lands, Housing and Urban development

2.7.1 Introduction

The Land, Housing and Urban Development sector comprises of Lands, Housing, Land Survey, Physical Planning and Urban Development departments. The lands department is responsible for the land administration in the County including land adjudication and settlement. The survey department is responsible for land surveying and mapping including providing topographical data for planning and development purposes. The physical planning and urban development department is responsible for forward planning, development control and enforcement in the County. Housing department is in charge of housing development and management of County Government buildings.

2.7. 2 Sector/Sub-sector Achievements in the Previous Financial Year

There were notable achievements by the department achieve include the conclusion of the development of Trans Nzoia County Spatial Plan and the Kitale Integrated Development Plan which are key documents that guide the planning and development of these key urban centres in the county. The department also facilitated the establishment of Kitale Municipal Board and in conjunction with the department of trade and the established board, continued implementation of Kitale Business centre, KUSP project funded by the World Bank.

2.7.3 Challenges experienced during implementation of the previous ADP

A number of challenges were faced by the Department in implementing the CIDP for the financial year 2021-2022 targets. These challenges and experiences will constitute important lessons which will inform the targets for the plan period 2021-2022. These key challenges encountered in the implementation of the plan are highlighted as follows:

- i) Lack of operational field vehicles
- ii) The department lacks adequate field vehicles which are very key especially for surveying and development control.

iii) Budgetary Constraints

Inadequate resources with competing needs, and in certain occasions late disbursement of funds greatly affected implementation of development projects.

iv) Inadequate technical staff

The department lacks technical staff in certain areas such as research and GIS which are very key in efficient service delivery.

v) Encroachment and illegal possession of public land

This has made implementation of county projects unnecessarily expensive because of the need to purchase land every time.

vi) **Institutional Challenges**

There is too much bureaucracy in the way various departments relate and communicate within the county. This lengthens the time taken to deliver results key projects.

2.7.4 Lessons learnt and recommendations

The key lessons learnt and the recommendations include:

• Involvement of all relevant stakeholders in the department is key in the achievement of planned targets.

- The department will enhance formulation and strengthening of sector specific policies and regulatory framework.
- Feasibility study is important before implementation of sector projects.
- The sector will enhance coordination and collaboration by various partners in development initiatives.
- The sector will champion for the establishment of GIS based a unit which will be an information resource centre for all the sub-sectors in the department.

2.8 Gender, Sports, Culture and Tourism

2.8.1 Introduction

The sector comprises Gender, Youth, Sports, Culture and Tourism sub sectors. Gender sub sector is mandated to improve quality of life of the communities by providing social protection services, coordinating and implementing affirmative action, capacity building and empowering of organized groups. The Sports sub sector is charged with the responsibility of sports promotion, development of sports facilities, sports education and talent identification and nurturing. Culture sub sector is responsible for identification, preservation and promotion of cultural heritage. Tourism sub sector is charged with championing of tourism activities in the county.

2.8.2 Sector achievements for the previous financial year 2020-2021

The Key sector achievements for the period under review, 2020-2021, are analyzed in Table

For the year under review the sector had a budget of Ksh 176,545,880 out of which kshs 53,055,145 was for recurrent and kshs 123,490,735 for development expenditure respectively. During the year the department engaged stakeholders like Agape child ministry and Embrace CBO in addressing the rising population of street children with total of 1173 children being rescued, rehabilitated and reintegrated. In respect to social safety programmes, the sub sector underperformed due to inadequate funding. However in support to the elderly, PWDs and other vulnerable and marginalized groups and individuals, the department managed to improve the quality of life of 4,332 persons in the County. Most of Sector interventions were through the ward specific funding.

During the year the department through sports directorate initiated the process of development of drawings and designs of Kenyatta stadium whose construction is to begin. The department also managed to provide financial support to 11 sports teams/ federations and assorted sports equipment were provided to 30 sports teams. In empowering youth and other vulnerable groups car wash machines and motor bikes were procured for youth groups in Matisi ward. Additionally 3 youth empowerment centres were established in Makutano, Matisi and Hospital wards respectively. However

rehabilitation of ward sports grounds for Sirende, Endebess and Chepsiro Wards were not undertaken due to delays in procurement process.

In culture and tourism sub sector the department provided financial support to 10 cultural groups, preserved 10 cultural sites, identified 3 County tourism products for promotion and participated in one National music festival. Kitale museum was not refurbished as the funds were reprioritized during supplementary budget

Table 2.8.1: Summary of Sector Programmes Performance

Programme: Social Protection

Objective: To enhance community socio-economic empowerment and protection of youth, women and

vulnerable groups

Outcome: socio economic empowerment of community enhanced and youth, women and vulnerable groups

protected

Sub Programme	Key Outcomes/ outputs	Key performance indicators	Planned Targets	Achieved Targets	Remarks*
SP 1: Community Development and Empowerment	Youth and women groups supported with youth and women Development Fund	No of youth and women groups provided with financial support	250	0	No budgetary allocation for the programme
	PWDs supported	Number of PWD vulnerable groups assisted with financial support (grants)	250	0	Difficulties in procurement processes and funds not accessed
	Socially distressed persons supported for improved livelihood	Number of individuals given financial support	250	10	Difficulties in accessing funds by the groups because most of them are not defined in IFMIS
		Number of individuals given material support	200	0	Procurement process difficulties and funds not accessed
	Youth, Women and PWD groups trained to enhance their capacity	Number of groups trained	250	0	Activity not carried out due to COVID -19 Pandemic. Funds reallocated to Covid related activities.
	Kwanza Rehabilitation Centre Hostel Constructed	% completion of the centre hostel	100%	97%	The project is Ongoing Delayed payment of contractor over the years resulting to recurring pending bills

	Bahati children's rescue centre equipped and operationalized	Percentage of assorted items procured and supplied to the centre	100%	50%	The department partnered with stakeholder (Embrace CBO) to operationalize the rescue centre hence the 50% achieved Long outstanding pending bills hindered the dept from achieving set target
	Cherangany Social hall constructed	% of completion	100%	0%	No budgetary allocation during the year under review
Objective: To pro	e: SPORTS DEVELOR mote and develop sports promoted and developed	PMENT			
SP2: Development and Management of sport Facilities	Kenyatta stadium Developed	% completion of designs, drawings and supervision		35%	Designs and drawing done Funds for supervision of the works will be allocated during the actual construction
	Sports grounds rehabilitated	ds Number of sports grounds rehabilitated		0	Delayed procurement processes Delayed supplementary budget
	Youth empowerment centre established	% of youth empowerment centre established	100%	90%	Renovation of staff houses at Cherangany estate (Kitale)for the establishment of <i>Elgon Hub</i> is ongoing
	High altitude training centre established	Number of high altitude training centres established	1	0	No budgetary allocation Negotiation for additional land with ADC and Mt. Elgon trust is in process
SP3: Sports Events and Competitions	Youth sports training centres established	Number of Youth sports training centres established	25	0	No budget for the activity
Competitions	Sports teams supported financially	Number of teams supported	14	11	Budget allocation shared among 11 sports teams Some funds went to payment of pending vouchers
	Sports equipment procured and issued to teams	Number of teams issued with sports equipment	30	20	Sports equipment were procured and issued to Motosiet and Kwanza as per their Ward

					specific budget.

2.8.4 Challenges experienced during implementation of the previous ADP

The challenges experienced by the sector in implementation of previous ADP include;

- Pending bills from the previous financial years thus affecting the current years budgets and programmes
- Inadequate staffing in the various sub sectors of the department
- Inadequate policy guidelines thus hindering sector operations.
- Low budget ceilings for the department which has five sub sectors.
- Inadequate utility vehicles that can be used in service delivery by the department.
- Effects of COVID -19 pandemic resulting to reduced interaction through meetings, trainings and generally slowed service delivery
- General delay in procurement processes at supply chain management office including online procurement system challenges
- Delayed supplementary budget process thus affecting the performance of planned activities.
- Key departments like gender, heath, agriculture and roads among others have no budget allocation for disaster management and when disaster hits, they lack the capacity to address the effects of the disasters, hence there is need to consider the departments with funds allocation
- Ward specific projects allocations are put together in one Vote head. It is necessary that the funds are voted per programme and by sub sector to ease implementation of the projects.

2.8.5 Lessons learnt and recommendations

- Centrally controlled funds at the County treasury create a management gap in control of departmental budget allocations resulting to pending bills. Therefore there is need to decentralize funds to departmental level to enhance effective and efficient service delivery
- Working with development partners enhances funding especially for underfunded projects and programmes therefore improving service delivery
- The department will hasten the formulation of sector specific policies for smooth sector operations
- The department will participate in the budget process at various levels to facilitate for proper voting of the sub sector budget especially for ward specific projects.
- The sector will lobby for increased budget allocation and mobilize resources externally through collaboration with development partners.

2.9 Governance and Public Service Management

2.9.1 Introduction

The sector is comprised of Governance and Public service management. The Governance sector is mainly charged with coordination of county administration. Governance delivery unit services, intergovernmental relations and provision of overall policy direction. On the other hand the public service management is charged with human resource development and management.

2.9.2 Sector achievements in the previous financial year 2020/2021

The sector received a total of 48,683,518 for its development programs in the year under review. The key milestones achieved during the year include administration of the performance management system, development of county competency framework, provision of Wi-Fi services at the county headquarter and the 5 sub counties and procurement of assorted ICT equipment. Further, the department initiated the construction of sub county headquarters with 15 percent completion being achieved for the Kiminini Sub County headquarter. Under human resource development and management, promotion of 537 staff was undertaken in addition to validation of staff job descriptions, training of staff members in various cross cutting areas. Other achievements included the operationalization of the scheme of service for enforcement officers, civic education, Covid-19 mitigation and development of various policies for enhanced service delivery.

2.9.3 Challenges experienced during implementation of the previous ADP

During the implementation of the previous ADP, the department experienced several challenges, and documented a few lessons for continuous improvement as summarized here below;

- General policy gaps and structural challenges that affect the department's overall performance.
- Weak levels of integration amongst the county staff given their different orientations and back

grounds

- Lack of understanding of policies and procedures in risk management, asset, debt and fleet management among the staff
- Insufficient budgetary allocation for staff training and capacity building across the departments and other programmes.
- inadequate infrastructure/work environment inadequate office space

2.9.4 Lessons learnt and recommendations

- Investing in quality, productive and skilled manpower people is a prerequisite for excellent performance.
- Allocation of funds for recruitment and continuous training and development of staff.
- The sector recommends for customizing and developing policies and guidelines on the identified policy gaps.
- Provision of working tools. The sector recommends issuance of equipment is critical in achieving of goals
- The sector should seek for more partners to mitigate against declining budgetary allocation

2.10 County Public Service Board

2.10.1 Introduction

Trans-Nzoia County Public Service Board was established pursuant to the provisions of section 57 of the County Government Act, 2012 whose functions are; on behalf of the County Government to establish and abolish offices in the County Public Service, appoint and confirm appointments, exercise disciplinary control among other functions as clearly set out under section 59 of the Act.

2.10.2 Sector Achievements in the previous financial year

The sector was allocated a total budget of Kshs.65.7M and the actual expenditure was 51,3 M.

- The Board recruited five hundred and seven (507) officers into the county public service (377 on P & P and 130 contract terms).
- The Board renewed contracts for two hundred and fifty one (251) temporary staff.
- The Board confirmed in appointment one hundred and sixty seven (167) officers into permanent and pensionable terms.
- The Board promoted five hundred and seventeen (517) members of staff in various cadres.
- The Board established the office of the county attorney pursuant to the office of the County Attorney Act, 2020 and recruited the office bearers.
- The Board approved a total of thirteen (13) inter-county transfers.
- The Board promptly prepared and submitted its Annual Reports to County Assembly and H.E. the Governor on its execution of functions pursuant to section 59 of the County Governments Act, 2012.
- The Board approved eighty four (84) staff trainings across various county departments.
- The Board inducted its new members and trained the secretariat on employee wellness and team building.
- The Board continued with the construction of a new office block which is currently 98% complete.

Construction of Board offices	Enhanced work environment for effective and efficient Board operations	Office block constructed	100%	98%	Remaining works to be completed in the current plan period

2.10.3 Status of Capital projects

The main ongoing capital project in the period under review was the construction of the Board office Block.

Table 2.10.2: Performance of Capital Projects for the previous year

Project Name/ Location	Objective/ Purpose	Output	Performance Indicators	Status (based on the indicators)	Planne d Cost (Ksh.)	Actual Cost (Ksh.)	Source of funds
Construction of Board offices	To provide employees with a conducive work environment for enhanced service delivery	office Block constructed	percentage completion	98%	3.8 M	2.3 M	CGTN

Performance of Non-Capital Projects for previous ADP

Project Name/ Location	Objective/ Purpose	Output	Performance indicators	Status (based on the indicators)	Planned Cost (Ksh.)	Actual Cost (Ksh.)	Source of funds
Recruitment, selection and succession management	Provide optimal staffing to departments	Optimal staff in County departments	Number of staff recruited and appointed	Five hundred and seven (507) persons were recruited and appointed Contracts for two hundred and fifty one (251) members of staff were renewed	11.4 M	11.4 M	CGTN
	Provide proper succession management plan	Continuity in service delivery	No. of staff promoted	Five hundred and seventeen (517) officers across the departments promoted	-	-	
Training & capacity Development	To build staff capacity for enhanced service	Skilled and professional County public service employees	-No. of training needs areas established	Eighty Four (84) staff trainings for the various	4 M	2.5 M	CGTN

Project Name/ Location	Objective/ Purpose	Output	Performance indicators	Status (based on the indicators)	Planned Cost (Ksh.)	Actual Cost (Ksh.)	Source of funds
	delivery		-No. of officers trained.	county departments approved			
Performance Reporting	To report on the annual performance of the Board and the extent of compliance to the values and principles of governance.	Accountability of service delivery	Annual report presented to the County Assembly by 31st December each year	The Board submitted its 2020 Annual Report to County Assembly and H.E. the Governor	1.5 M	1.5 M	CGTN
Ethics, Governance and National Values	To ensure sensitization and adherence to code of conduct and ethics in the county public service, national values and principles of good governance	Ethical, responsible and accountable public servants	No. of officers sensitized on code of conduct and ethics, national values and principles of good governance	The Board did not undertake this activity due to the challenges posed by Covid – 19	-	-	CGTN
Administration and support services	To facilitate efficient and effective service delivery	Improved work environment and service delivery	-No. of staff provided with adequate working tools	All Board staff remunerated and provided with adequate working tools	41.6 M	39.5 M	CGTN

2.10.4 Challenges experienced during implementation of the previous ADP

The challenges experienced in the period under review included the following;

- Covid 19 pandemic hampered the implementation of the planned projects and programmes particularly on sensitization of staff on code of conduct and ethics, national values and principles of good governance.
- Inadequate funding with regard to budgetary provisions.
- Delays in disbursement of allocated funds from County Treasury.
- Inadequate information and records management system.
- Limited ICT hardware and software infrastructure.

• Inadequate office space, furniture and equipment.

2.10.4 Lessons learnt and Recommendations

2.10.4.1 Lessons Learnt

- To be able to effectively undertake the Board's mandate, adequate and reliable funding is inevitable. The Board should adequately be funded based on its budget.
- There is an expectation gap between members of the public and the Board on recruitment.
- Attraction of competent and qualified applicants for senior positions require attractive remuneration.

2.10.4.2 Recommendations

- The Board should undertake more civic education to enlighten members of the public on its role, thus bridge the expectation gap between members of the public and the Board.
- To be able to undertake its mandate effectively and objectively, the Board should operate as an independent entity as envisaged in the CGA 2012. Resources should follow functions and therefore the Board's budgetary allocation should reflect its vast mandate within the county government.

2.11 Finance and Economic planning

Background Information

The sector comprises Finance and economic planning sub sectors. This Sector is charged formulating economic and fiscal policies to facilitate socio—economic development, resource mobilization and management of financial resources. The sector comprises of Economic planning, Revenue, Budget, Accounting, Procurement and Audit sub sections.

Sector Strategic Priorities

The sector strategic priorities are to enhance planning and budgeting, enhancing financial reporting, improving revenue collection, promotion of value for money audit and effective coordination of supply chain management services.

2.11.1 Key achievements

During the period under review the sector recorded a number of milestones key among them being adherence to the legal framework governing budget formulation with Budget Circular, CBROP, CFSP and MTDSP being formulated and presented within the stipulated timelines. The local revenue as a percentage of the total budget was at The Own Source Revenue (including FIF) target under performed by 160M as only Kshs.340 million was realized against local revenue target of Kshs.500M. Further for the period under consideration the sector prepared the ADP 2021-22 besides initiating the process of Mid Term review of the 2nd generation CIDP 2018-2022. In a bid to strengthen Monitoring and Evaluation and enhance capacities of county department officers in M&E, the sector in conjunction with the GDU facilitated for training of 23 officers in M&E at the Kenya school of Government.

The department further trained 13 officers drawn from all the county departments including sub county administrators on Revenue Administration and Monitoring, The training was all conducted for 11 sub-county Revenue Administration officers. For the year under review the department also held a workshop for county management and county officers to brainstorm on revenue enhancement measures. The process of revenue automation was also undertaken in the year under review through rolling out of a robust revenue automation system namely River Bank, a recommendation arising from the Kisumu stakeholder workshop.

Other achievements attained included compliance with timelines in reporting and preparation of financial statements. Similarly the preparation of the consolidated County procurement plan for 2020-2021 was undertaken besides coordination of supply chain management services.

The sector achievements are summarized in Tables 2.11.1 and Table 2.11.2

2.11.3 Sector Challenges

The challenges underpinning the sector performance in the period under review include;

- Delayed disbursement from the Exchequer thus affecting cash flows to projects
- COVID-19 has affected performance of certain revenue streams leading to under performance in OSR
- Inadequate staff and skill gaps
- Lack of an elaborate M&E system thus hindering tracking of development plans
- Inadequate policy and legal framework e.g. revenue enforcement policy.

2.11.4 Lessons learnt and recommendations

The lessons learnt during implementation of the ADP 2020/2021 include;

- Effective participatory planning requires enhancement of capacities(training) of county line ministries
- Synergies and collaboration among stakeholders is key for the department to execute its mandate
- The county needs to pursue alternative resource mobilization strategies to address shortfall in County revenue
- There is need for strengthening the County research, statistics and documentation unit which will be an information resource centre for all stakeholders and the public.
- The establishment of emergency fund which can be available when emergency need arises such as COVID19.
- Staff training and Development is key for the success of the departments.

2.12 County Assembly

Introduction

This Sector is charged with legislative authority, oversight over county executive, approval of policies, vetting and approving nominees, approving county development planning, approving budget and expenditure among other functions. The main sector priorities for the year under review included;

- Prompt Legislation of bills submitted to the County Assembly;
- Establishment of adequate capacity to develop necessary County legislation;
- Ensuring quality representation;
- Provision of an enabling environment for the assembly to function effectively and efficiently and;
- Providing adequate oversight to the executive.

2.12.1 Sector Achievements in the Previous Financial Year

During the year under review, the County Assembly was able to achieve the following milestones:

- The tender for the construction of the Administration block was advertised and awarded to a contractor who is now on site.
- The installation and commissioning of CCTV was done.
- Renovation of the County Assembly premises was done to completion
- The number of bills passed by the County Assembly was ten in total.

Table: 2.12.1: Sector programmes performance

Performance of Non Capital Projects for previous ADP

Project Name / Location	Objective / Purpose	Outputs	Performance indicators	Status (based on indicators)	Planned cost (ksh.)	Actual cost (ksh.)	Source of funds
Legislation	To promote governance	Bills enacted into Laws	Number of bills passed; Timely passage of bills	10 bills	34 M	4 M	CGTN
Public participation	To enhance public participation in decision making	Feedback received from the public	No of Citizens engaged		34 M	8M	CGTN

2.12.3 Sector Challenges

- There was a delay in getting a competent and qualified construction contractor for the Administration block.
- Most of the funds allocated to the County Assembly for infrastructure development were channeled towards the construction of the Administration building.
- Stalling of projects due to litigation issues cases. Some contractors took the assembly to court.
- The outbreak of Covid 19 pandemic affected implementation of some programs such as public participation forums

2.12.4 Lessons Learnt and Recommendations

- Stakeholder participation and public participation is key for implementation of sector programs.
- Continuous engagement and collaboration between county assemblies is key for achievement of development initiatives.
- The sector will advocate for increased budgetary allocation enhance effective completion of sector projects.
- There is need to adhere to the contractual terms to avoid litigation issues.

2.13 Kitale Municipal Board

2.13.1 Introduction

The Municipality is a creation of the Constitution of Kenya 2010, under article 184. It is specifically covered under the Urban Areas and Cities Act 2011 and also operationalized through the Kitale Municipality Charter and in the legal notice No.2380 of 20th March, 2020. The Municipality Board which is the governing body was officially inaugurated on 4th July, 2019 by H.E. the Governor P.S Khaemba through grant of the Charter.

The Municipality covers an area of 160km square for the Municipality and 226 km square as the planning area covering the entire of Tuwan, Hospital, Matisi and Bidii ward as well as part of Waitaluk and Sirende Wards. The mandate of the board is provided under section 20 and 21 of the Urban Areas and Cities act which is essentially to oversee the affairs of the Municipality. The Board consists of the following Committee;

- Infrastructure, public works, transport and urban development.
- Finance, trade, market and industrialization.
- Audit committee.
- Environment, sanitation and water
- Education, social service, sports and housing

2.13. 2 Sector Achievements in the previous Financial Year

Analysis of planned versus allocated budget

In the year under review the sector was allocated kshs.299, 000, 000 under the Kenya urban Municipal grant for capital expenditure which was used to finance the county flagship project namely the Kitale Business Centre whose main objective is to provide conducive business environment and decongest Kitale. The sector all received ksh.10, 000,000 which for current expenditure. The sub sector expenditure summary is summarized in the table.

Programme	Budgeted Amount (Ksh.)	Allocated Budget (Kshs,)	Remarks
Capital projects			
KUSP –Development	299,000,000	299,000,000	Business center and Barabara mpya Mitume
Total for Capital	299,000,000	299,000,000	
Non-Capital Projects			
Administration and Support Services.	10,000,000	10,000,000	Renovation of offices and furniture.
Total for Non capital	10,000,000	10,000,000	

In the period under review a number of interventions were undertaken. The subsector in Collaboration with other sectors is undertaking the construction works of the Kitale Business center which is a significant county flagship project. The upgrading of 1.75 Kilometers of Barabara Mpya –Mitume Road to bitumen standards is ongoing with 60% percent of the works complete. Similarly the Construction of Bondeni Market is also ongoing with completion rate at 70% completed. Other activities undertaken by the sub sector in the year under focus include development of kitale urban integrated plan, development of municipality by-laws, and enforcement of urban development controls through approval of plans demolition of illegal structures among other activities.

Table: 2.13.1 Sector programmes performance

Programme Name: Mediui	n and Small Enterp	orises

2.13.2 Status of Capital Projects for the previous year

The capital projects implemented by the sector in the period under consideration include the Kitale Business centre flagship project, the Bondeni market and the upgrading of the 1.75 Km Barabara Mpya Mitume roads to Bitumen standards. These objective of implementation of this programs is to enhance urban infrastructural development and eventually contribute to improved standards of living.

Table 2.13.2: Status of capital projects

Project Name/ Location	Objective/ Purpose	Output	Performance Indicators	Status	Planned Cost (Ksh.)	Actual Cost (Ksh.)	Source of funds
Construction of Kitale Business Center in Kitale Town	To provide conducive business environment for traders	Completed Business Centre	% completion of the Business Centre	40	874M	-	KUSP/ Kitale Municipality Board/ Trade
Upgrading of barabara Mpya Mitume to Bitumen standards; Tuwan ward	To Improve quality of road and accessibility	Upgraded road to bitumen	No. of kilometers of road upgraded	1.25	110M	-	KUSP
KMB office Renovation	To provide conducive working environment	Office renovated and equipped	Renovated office	Office renovated	10 M	-	CGTN

2.13.3 Payments of Grants, Benefits and Subsidies

Type of payment	Budgeted	Actual Amount	Beneficiary	Remarks*
	Amount (Ksh.)	paid (Ksh.)		
Kenya Urban Support	10,000,000	-	-	Funds allocated were not
Program (KUSP)				transferred to the fund account
				Funds loaned out were from the
				revolving kitty

2.13.4 Challenges

- COVID-19 pandemic which came at the onset of the implementation of procurement for goods and services greatly hampered implementation of sub sector programs
- The department lacked enough physical infrastructure such office space, equipment.
- Inadequate staff

- Lack of a utility vehicle thus hindering mobility
- Delay in releasing funds from CRF slowed the pace of implementation of sub sector programmes.
- Balancing competing stakeholder interests against limited resources leading to projects being spread thinly in all the county wards even in situations where this was not feasible.
- Delayed transfer of functions and resources to the Municipality from the executive

2.13.5 Lessons Learnt and Recommendations

- Involvement of all relevant stakeholders in the County is key in the achievement of the development targets.
- There is need for the department to incorporate a strong M&E system to track project implementation
- Feasibility study is important before implementation of projects
- Need for coordination and collaboration by various partners in development initiatives
- The department needs to pursue alternative mechanisms to finance capital projects

CHAPTER THREE: COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.0 Introduction

This chapter contains the County's key sector programmes and priorities planned to be implemented in the financial year 2022/2023. It outlines the programmatic key outputs, planned targets and their performance indicators. The Sectoral priorities are guided by various policy frameworks such as; the Kenya Vision 2030, the 3rd Medium Term Plan, the County Governor's manifesto and public input as collected from public participation conducted in the County and contained in the CIDP and medium-term expenditure framework. The Chapter also details the sectoral vision, mission and goals, strategic priorities and significant capital development projects. Cross sectoral implementation considerations are also highlighted for each sector.

3.1 Agriculture, Livestock, Fisheries and Cooperative development

3.1.1 Introduction

The Agriculture sector is comprised of the sub sectors of Agriculture, Livestock, Veterinary Service, Fisheries, Cooperative Development and Marketing. The sector is key to the county's economy as it provides employment for over 80% of the county population.

3.1.2 Sector Vision and Mission

Vision: Innovative, commercially oriented, competitive and modern agriculture, livestock, fisheries and cooperative sector.

Mission: To promote a competitive and sustainable agriculture, livestock, fisheries and a vibrant co-operative movement.

Sector Goal: Innovative, Commercially oriented and modern agriculture

3.1.3 Sector Development Needs, Priorities and Strategies

Sector Development Needs, Priorities and strategies

The sector development needs and priorities for this planning period include:

- Up scaling Crop diversification to profitable value chains.
- Increasing the capacity to meet increasing demands for high quality and disease free fruit trees such as; avocado, macadamia, apples, bananas, coffee and Tea;
- Provision of subsidized non-acidifying fertilizers;
- Provision of reliable response to increasing attacks from Pests and diseases;
- Promoting climate smart agriculture;
- Reducing high post-harvest loses

- Promoting agricultural value addition;
- Promoting small holder irrigation;
- Improving livestock productivity;
- Livestock disease management and control;
- Promoting fish farming and value addition.
- Promotion of good governance in cooperatives and SACCOs

Sector Strategies

The sector strategies in the plan period include:

- Establishment of county model/demonstration farms in each ward;
- Provision of fertilizer subsidies and grant
- Promotion of conservation agriculture techniques through use of modern conservation agriculture equipment;
- Expansion of the capacity of the current nurseries to produce high-quality seedlings for coffee, tissue-culture banana, avocado, macadamia and apples leading to crop diversification;
- Enhancement of markets and marketing channels to ensure that ready markets are available for agricultural produce;
- Promote value addition through strategic support for acquisition of milling plants for coffee and maize;
- Improving post-harvest management and support to farmers through installation of grain driers and provide subsidies on storage materials such as hematic bags
- Establishment of county model/demonstration farms;
- Promotion of value addition.
- Expansion of Artificial Insemination (AI) programme;
- Rehabilitation of the existing communal cattle dips and construction of new ones in every ward;
- Provision of chicks of breeding stocks of indigenous chicken and providing initial chicken feeds to small holder farmers;
- Organizing vaccination initiatives in the county to step up efforts towards disease control.
- Promotion of fish farming and value addition.
- Revitalize cooperative societies
- Promote dairy goat farming for income and nutrition improvement
- Promote apiculture as a means of livestock enterprise diversification for increased and sustained farmers' income generation.

3.1.4 Key Sector stakeholders

The sector interacts with various stakeholders who are involved in the implementation of various programmes and projects whose impacts across the sectors cannot not be ignored. The major stakeholders and their roles are as indicated below:

Stakeholder	Role
KEPHIs	Regulatory
Agrochemical Association of Kenya (AAK),	Training and regulation
PCPB, CABI	Crop Pest and disease control
Kenya Seed Company	Provision of input & Extension services
KALRO	Undertake agricultural Research and extension liaison
ADC	Provision of Input and dissemination technology
Vi- Agroforestry	Provision of extension services
Western seed Company	Provision of agricultural input
Seed Co.	Provision of agricultural input
Bubayi Seeds	Provision of agricultural input
Financial Institutions	Provision of credit facilities
Agrochemical Companies	Provision of agricultural input
Manor House Agricultural Training Center	Training and extension
Universities	Provision of research
National Government	Service delivery and capacity building
Other Programmes and projects e.g. KCEP,	Enhance agriculture production and promotion of value chains
ASDSP,NARIGP, SDCP	
Food and Agriculture Organization	Undertake Capacity building
Media -e.g. West FM, Royal media, NTV, KTN,	Dissemination of information and publicity
North Rift Radio, Imani Radio	
Breeding and Genetic Resources(North Rift	Provision of Quality Semen
Association, KACRG & ADC)	
Kenya Veterinary Vaccine Production Institute(KEVEVAPI)	Cold Storage & Supply of Vaccines to Livestock farmers
Agricultural Society of Kenya. (ASK)	Provide a forum for stakeholder in agriculture industry to meet
rigiteururur Society of Renyu. (ASIX)	& exchange ideas on new technologies & innovations.
KMFRI	Research on marine and fresh water fisheries
USAID, GIZ, SIDA, WB, IFAD	Capacity building and funding of County development
	programmes
MESPT/GEAP	Value chain support and market access -Avocado, Local
	poultry, Export vegetables
Solidaridad	Sustainable Coffee Production
One Acre Fund	Value chain Financing- Maize
Appollo Agriculture	Value chain Financing- Maize
MarkUP	Value chain support and market access -Passion fruit, Snow
	peas and French beans

3.1.5 Sector Programmes

3.1.7 Payments of Grants, Benefits and Subsidies

A proposed payment of grants, benefits and subsidies for the Sector to be done by the county government during the plan period is shown in the table below;

Table: Payments of Grants, Benefits and Subsidies

Type of payment	Amount (Ksh.)	Beneficiary	Purpose
Inclusion Grant (Re-allocation)	11,926,800		Support to cooperative/POs
			movement through
			NARIGP

3.2 Health Services

3.2.1 Introduction

The health sector is organized into the following three interdependent directorates: Health Corporate Services (HCS), Medical Services (MS) and Preventive and Promotive (PP). There are 152 registered healthcare institutions in the County.

The County has eight (8) functional tier-3 public hospitals, 37 tier-2 and 87 tier-1 public health facilities, respectively. Within the urban and peri-urban areas, the average distance to the nearest health facility is one (1) kilometre. In the rural areas, the average distance to the nearest facility is five (5) kilometres.

3.2.2 Sector Vision and Mission

Vision: A globally competitive, healthy, and productive County

Mission To systematically build a responsive, evidence-based healthcare system for

attainment of the highest standard of healthcare services to all the residents of

Trans Nzoia County

3.2.3 Goals, Priorities and Strategies

As hitherto explained, the health sector seeks to realize the following key strategic priorities:

- i. accelerate the reduction of the burden of communicable diseases and conditions
- ii. halt and reverse the rising burden of non-communicable diseases
- iii. reduce the burden of violence and injuries
- iv. strengthen mechanisms for screening and management of conditions arising from health risk factors at all levels
- v. minimize exposure to the major health risk factors
- vi. strengthen collaboration and cooperation with other health-related sectors

To effectively address these goals and priorities, the health sector shall adopt the following strategies:

- i. completion operationalization of the Trans Nzoia County Teaching and Referral Hospital (TNCTRH)
- ii. expansion, rehabilitation and equipping of existing health facilities
- iii. strengthening of community strategy interventions within the context of the Kenya community health policy framework
- iv. increasing health financing through innovative models such as enacting the FIF bill 2019
- v. automation of service delivery and the management of health products, vaccines, and technologies
- vi. recruitment of additional human resource for health including medical specialists
- vii. reduced service disruptions occasioned by labour unrest and industrial action by being more responsive to the welfare of healthcare workers.

3.2.4 Description of Significant Capital and Non-capital Development

Capital development projects relate to capital-intensive infrastructural investments or expensive property, plant, and equipment. These include construction, renovation and equipping of health facilities. Non-capital priorities in the sector relate mainly to health service provision. The tables under section 3.3 depict a summary of the planned capital and non-capital development programs for the period 2022/2023.

3.2.5 Key Stakeholders

The Health sector collaborates with several partners, agencies and civil society organizations in the delivery of its mandate as enlisted below:

Stakeholder	Roles and Responsibilities
County Government of Trans Nzoia	Service delivery.
	Policy implementation.
	Resource mobilization, distribution, and utilization.
	Human resource provision and incidental remuneration.
	Monitoring and Evaluation
National Government (Ministry of	Policy, guidelines and legislation formulation.
health)	Health Financing.
	Regulation of training and capacity building.
	Universal Health Coverage
	Quality Standards Implementation.
	Health Programme Management.
World Bank Group (THS-UC)	Support primary health care services strengthening.
	Capacity building and training support.
	1 st and 4 th antenatal care scale-up;
	Skilled delivery scale-up.
	Immunization scale-up.
	Family planning scale-up
DANIDA	Strengthening Primary Health Care Services at level 2 and 3 especially
	Maternal, neonatal and child health support.
AMPATH Plus	HIV/AIDS interventions.
	Non-communicable diseases (diabetes, hypertension and cervical
	cancer);
	RMNCAH interventions.
	Health systems strengthening.
	Community Strategy interventions.
AMREF	TB interventions;
	Blood transfusion services
	WASH and Neglected Tropical Diseases.
SETH (AAH/HKI)	Health system strengthening and policy development
DSW	Advocacy, awareness and TWG support
IPAS	Family planning interventions;
	Youth friendly services;
	Comprehensive/Post Abortion Care (PAC);
	Capacity building and training on reproductive health;
The Palladium Group	Automation and Health Management Information Systems (HMIS)
Liverpool school of Tropical	Capacity building on BEMONC and essential newborn care
Medicine	
Kenya Red Cross Society	Community strategy strengthening
	Equipment and health financing;
	Service delivery enhancement through training and capacity building
Marie Stopes Kenya	Family planning and reproductive health services
Rotary Doctors Sweden	Integrated outreach services;

Stakeholder	Roles and Responsibilities
	Community health activities;
	Human Resource for Health
Catholic Diocese of Kenya	Service Delivery (Faith-based facilities)
Hindu Sikh Religious Council	Service Delivery
Kenyan Judiciary	Legal redress and GBV support
KMET	Branding and credit facilities for private practitioners
Ministry of Education	Adolescents and youth health;
	School Health programme
Ministry of Agriculture	Nutrition support;
	Joint AMR mitigation strategies
Gender & Social Services	Gender Based Violence;
	Child welfare services
Ministry of Interior and Coordination	Community entry point through local administration;
	Legal Redress
Humanity and Inclusion	Legal support for GBV victims;
	Patient care support for the disabled
I-TECH Kenya	Capacity building in infection prevention and control (IPC) and
	antimicrobial resistance (AMR) interventions
Health Policy Plus	Health Financing
Q-Initiative	HIV testing and counselling for marginalized populations
Kitale Diabetes Association	Support for diabetes interventions
Children's Department	Child Welfare Services
InSupply Kenya (Bill and Melinda	Support for family planning services, commodities and vaccines;
Gates Foundation)	Printing of data tools;
	Support for impact team meetings;
Clinton Health Access Initiative	HMIS solutions (electronic ADT and TB/HIV allocation tools);
(CHAI)	Assessment of facilities on immunization indicators
NASCOP	Support for HIV/AIDS and sexually transmitted diseases (STIs)
HIS Kenya	Printing of data tools
Global Alliance for Vaccines and	Vaccines and cold chain management equipment
Immunization (GAVI)	
UNICEF	Vaccines and cold chain management equipment
Neighbors in Action	HIV testing and counselling in female sex workers (FSWs)
KANGO	Advocacy for immunization
Transwestt SACCO	Yearly CSR support for Kitale County Hospital
Evidence Action	Support for deworming interventions
NUSSSEP	Economic empowerment of community health volunteers' (CHVs);
	Nutrition support

		in palliative HBC.								
Rehabilitative Services	In all the sub- Counties in the County.	Screen Clients for Rehabilitative Services.	Use of ICT	4M	CGTN	2022/2023	% of People with Physical, Mental Injuries and Congenital Abnormalities Receiving Rehabilitative Health Services.	80%	100%	Department of Health
Bio-Medical Services	In all sub-counties in the County	Installation and User Training on Medical Equipment. Maintenance of Medical Equipment Disposal of obsolete Medical Equipment. Conduct Inventory Taking	Use of ICT Careful disposal of obsolete and dilapidated biomedical equipment based on legal provisions	10M	CGTN	2022/2023	% of Maintenance schedules completed	50%	0	Department of Health
County Pharmaceutical and Health Commodity Services	In all sub-counties in the County	Procurement of adequate essential medicines and medical supplies	Use of ICT. Energy saving storage facilities. Use of solar energy.	699,460,000	CGTN	2022/2023	Number of quarters with adequate months of stock for tracer drugs	3	0	Department of Health

3.2.3 Cross-sectoral Implementation Considerations

Programme	g .	Cross-	sector Impact	35.1. 11. 35
Name	Sector	Synergies	Adverse Impact	Mitigation Measures
Universal Health Coverage	Health Services;	Improved access to equitable, high-quality healthcare based on need and without catastrophic health expenditure.	Gatekeeping measures to ensure citizens only seek for needed services at appropriate levels of care	
Preventive and Promotive Health & Curative Health	Water, Environment and Natural Resources	Prevention of waterborne diseases through provision of clean drinking water and sanitation facilities	Poor medical waste disposal leading to exposure to medical risks e.g. disposal of masks	Development of medical waste disposal rules in collaboration with the health sector
	Culture, Youth, Gender and Social Services	Involvement and empowerment of the youth to find solutions to their health-related problems such as the rising burden of teenage pregnancy	Cultural limitations to comprehensive health education e.g. provision of sexual and reproductive health education	Involvement of parents and guardians in the development of youth-related health intervention and advocacy for the school health program
	Education	Implementation of the school health program and reproductive health education	Limited support for the school health program especially from faith-based learning institutions on reproductive health issues.	Comprehensive stakeholder involvement in the development of the school health program curriculum for wider buy-in.
	Agriculture	Provision of food security and adequate nutrition for enhanced health. Collaboration in elimination of	Introduction of unsafe genetically modified foods and use of harmful pesticides that may lead to poor health	Strict regulatory controls over genetically modified foods and use of certified organic pesticides.
	Trade	antimicrobial resistance (AMR) Increased disposable income to the citizenry, leading to more	Congregation of people during trade creates a conducive environment for the spread of	Enhanced infection prevention and control (IPC) measures at all
		household income for health financing	contagious diseases such as COVID-19	marketplaces.
	Roads and Public Works	Inspection of facilities and buildings to ensure conformity to health and safety standards	Poorly constructed diversions during road construction leading to environmental dust pollution and incidental respiratory illness	Strict enforcement of NEMA rules and regulations to protect the citizens from inadvertent exposure to harmful environmental pollution
	Public Service Management	Ensuring adequate, skilled and disciplined human resources for health	Inadequate staff incentivization strategies leading to demotivation of healthcare workers	Staff motivation through welfare support strategies e.g. promotion, recognition, training etc
	Kenyan Judiciary	Enforcement of laws to protect the rights of victims of gender- based violence and sexual assault	Lack of facilitation for clinicians to witness in courts in gender-based violence and sexual assault cases (officers use their own resources)	Explore electronic case attendance via teleconferencing applications such as Zoom.
Policy, Administration, Legal Framework and	County Assembly of Trans Nzoia	Approval of health budgets and expenditure estimates;	Selection of ward specific projects contrary to departmental priorities;	Closer collaboration between the department of Health and the Health Committee;

Institutional	Enactment of health-	Alteration of departmental	
Reforms	related laws	budgets on priority health	Joint planning and
		interventions without	budgeting meetings to
		consultation;	ensure congruence of
			intents;
		Overstretching oversight role	
		to include health	Mutual identification of
		administration	priority County health-
			related interventions

3.2.6 COVID-19 Mitigation Measures

The impact of COVID-19 on the health sector has been significant as summarized along the following 8 pillars:

i. coordination, planning, and monitoring

The COVID-19 coordination framework comprising of the CECM – Health, Chief Officer – Health, Health Financing Team, Logistics Team (Directors), and Coordinators (Training; Surveillance & response, Supplies & IPC commodities; Community strategy; Advocacy, communication & social mobilization; Hygiene, sanitation & enforcement) continues to engage actively with relevant stakeholders.

The department also strengthened its linkages and collaboration with community-based organizations, NGOs, CSOs, CHVs and other non-state actors to ensure effective public education on COVID-19.

ii. risk communication and community engagement

The sector continues to invest significantly in targeted and mass COVID-19 messaging through media interviews, TV and radio spots on local channels, bulk SMS service and social media. Community engagements through CHVs, targeted outreach programs, posters and IEC materials were also enhanced. The result has been increased awareness levels on COVID-19 and other contagious illnesses.

iii. surveillance, rapid response, and case investigation

The sector set up one (1) rapid response team at the County level charged with prompt response to alerts and contact tracing. Five (5) rapid response teams were also set up at the sub county level. Facilities also have local response teams for facility-level interventions. Toll-free emergency lines were installed for public reporting to augment the national toll-free reporting lines.

iv. points of entry

At the onset of the pandemic the Health sector set up screening sites at all the four points of entry: Suam (Uganda border); Kapkoi (Uasin Gishu border); Tuigoin (Elgeiyo Marakwet border) and Mucharage border (Bungoma county). All passengers on transit were screened for fever, travel history and subjected to mandatory hand hygiene.

v. laboratory testing

The county has a regional ISO-certified public health laboratory for Coronavirus detection tests. In collaboration with the national MoH, the Health sector made significant investment in human resourcing and infrastructure to activate COVID-19 testing. Occasionally, the county sends samples to MTRH and KEMRI Kisumu when demand overwhelms capacity. A lot of resources are spent in acquiring reagents for the test.

vi. infection prevention and control (IPC)

The sector set up IPC Committees at the county, sub-county, and facility levels. The department of Health also established institutional quarantine facilities for contact cases that cannot safely quarantine at home.

Fever screening of all entrants to all health facilities, governmental and private installations was enforced by the Public Health Unit, including the mandatory provision of hand hygiene facilities. The sector has also been conducting routine disinfection of public marketplaces and government buildings to mitigate against possible spread of the Coronavirus in the county.

The health sector has also enforced the use of masks at all public spaces. All poor and vulnerable groups have been provided with certified cloth masks for their protection against infection. The department of Health also continues to procure quality PPEs for all healthcare workers to protect them from inadvertent exposure.

vii. case management

The county has one operational 32-bed isolation facility for hospitalized care of COVID-19 patients (the Mt. Elgon Hospital). All technical and ancillary staff at the facility has been adequately trained on COVID-19, including case management.

Substantial investment has also been directed at operationalizing the new Trans Nzoia County Teaching and Referral Hospital (TTRH) for an additional capacity of 300 beds following a presidential directive. Staffing needs for the TTRH have been determined and an advert made to fill required posts.

Following national policy directives, the county facilitated the training of CHVs through various partners to support Home and Community Based Care.

viii. operations support and logistics

The usual budgetary channels remain applicable during the COVID-19 pandemic. The department of Health has additionally set up an internal logistics team comprising the three directorates to ensure all expenditure is justified, cost-effective and responsive to emerging COVID-19 needs.

3.2.7 Payment of Grants, Benefits and Subsidies

The following grants, benefits and subsidies are expected in the year 2022/2023:

Type of payment	Amount	Beneficiary	Remarks (Purpose)
	(KShs.)		
HSSF	25,000,000.00	Level 2 & 3	Primary Health Care Strengthening.
		Facilities	
NHIF	15,000,000.00	All eligible	Free Maternity, Capitation, and insurance
		facilities	reimbursement
DANIDA	12,000,000.00	Level 2 & 3	Primary Health Care Strengthening. The County will
		facilities	have to invest an equivalent amount as part of the
			National sustainability plan.

3.3 Public works, Transport and Energy

3.3.1 Sector Overview

The sector is comprised of the departments of Energy, Roads, Transport, Public Works, and firefighting services. This sector is an enabler and key to the prosperity of the other County sectors. Trans Nzoia County has a total of 4421.7 kilometres of road network out of which bitumen surface is 163.3 Kilometres, gravel surface is 2165.4 Kilometres and earth surface roads is 2093 Kilometres. The opening up of new road networks during the plan period 2013-2017 boosted trade and commerce in the major trading centres in the county.

The county has a railway line covering 23 Kilometres that terminates at Kitale town which is however not functional. The County has one functional airstrip at Kambimiwa which is being expanded. Upgrading of Kiminini Township road and referral is ongoing.

The County fire unit plays critical role in protection and rescue of properties and life against fire. The fire station has undergone transformation through construction of a modern fire station.

Sector vision and mission

Vision: To be a committed provider of cost-effective physical and infrastructural facilities and services for a prosperous county.

Mission: To provide an efficient, affordable and reliable infrastructure for sustainable economic growth to Trans Nzoia County residents and development through construction, modernization, rehabilitation and effective management of all infrastructural facilities.

Sector goals and targets: Ensure all roads in the county are motorable and Kitale town roads are all tarmacked or paved.

Sector Development Needs and Strategies

Sector Development Needs

- Ensure all roads in the county are motorable and well maintained
- Increase hours of business in major towns and market centres with enhanced security by providing electrical infrastructure.
- Decongestion of Kitale town by construction of parking facilities;
- Ensure well maintained drainage systems;
- Protection of road reserves and way leaves;
- Enforcement of high quality standards in construction of roads;
- Reduce the cost of maintenance of county vehicles and
- Transforming the county fire and emergency services station.

Sector development strategies include:

- Management and routine maintenance of key county roads;
- Opening of drainage channels, installation of culverts and construction of footbridges at strategic points across the County;
- Purchase of additional new machines and equipment,
- Installation and maintenance of the high mast and street lighting infrastructure,
- Transformation and re-engineering of the fire and emergency rescue units
- Opening up and paving the backstreets in Kitale town

Key stakeholders

The sector collaborates with various stakeholders who are critical for achievement of the sector goals. These key stakeholders are outlined as below;

Stakeholder	Role
Kenya Roads Board(KRB)	Financing road maintenance
Kenya National	Construct and manage trunk roads within the
Highway	county
Authority(KENHA)	
Kenya Urban Roads Authority(KURA)	Manage Urban roads in the county
Kenya Rural Roads Authority(KeRRA)	Manage Rural roads in the county
Kenya Power & Lighting Company	Provide necessary infrastructure for electrification
	Programs
Rural Electrification Authority	Accelerate the pace for rural electrification
KENFIB	Capacity building(fire fighters)
KIHBT	Capacity building and Technical Training

3.3.2 Sector Programmes and Projects

The key projects planned for implementation to catalyze the sector commitment to achieving and attaining the sector vision and mission will include road construction and maintenance of county road network, demarcation of road reserves and construction of footbridges, Box culverts and installation of drainage structures such as culverts and drain channels. The sector has also taken into consideration provision of street lights and installation of high mast flood lights in key points such as market places and on streets. The department is also committed to ensure that property and life is rescued by fighting fire out breaks. The transformation of the fire management unit will be enhanced through provision of modern equipment, well trained personnel and establishment of supportive fire infrastructure. Similarly the sector will also facilitate management of traffic by constructing and maintaining bus parks and construction of bodaboda shades.

3.3.3 Capital and Non-Capital Projects

For the plan period 2022/2023, the sector will undertake a number of capital projects whose focus is on improving the existing infrastructure as well as increasing the stock of the infrastructural investments in the county. The details of the specific projects to be undertaken is provided in the table below

Table 3.3.2 : Capital projects for the FY 2022-2023

3.3.4 Cross-Sectoral Implementation Considerations

Programme Name	Sector	Cross-sector Imp	pact	Measures to mitigate adverse Impact
Name		Synergies	Adverse impact	F
Road Construction and Maintenance	Public Works; Physical Planning; Trade, Water and Environment	Enhanced road transport system	Eviction of traders Encroachment by Sewer pipes, water pipes, fiber cable ,KPLC power supply lines Clearance of vegetation	Strengthen sector integration and coordination during planning and implementation of road works
Lighting and Maintenance	Public Works; Trade;	Lit up streets; Increased business hours; Reduced Insecurity, Aesthetic outlook of the county	Increased cases of drunkenness; Increase in commercial sex workers	Enact laws to control business activities; The County Assembly to pass the Liquor and alcoholic drinks licensing bill to control alcoholic business
Fire and Rescue Management Services	Public Works; Trade; Health; Physical Planning	Enhanced fire fighting and rescue Service delivery	Emission of hazardous materials like halogens leading to ozone layer depletion	Maintenance of hydrants to assist during fire fighting emergency cases Installation of firefighting equipment in all county offices

3.4 Water, Environment and Natural resources

3.4.1 Sector Overview

The sector is comprised of Water, Environment, natural resources and Climate change sub sectors. This sector is responsible for enhanced environmental management, conservation and protection with an increased access to clean, safe and adequate water and sanitation systems for improved livelihood, and sustainable development.

3.4.1.1 Vision and Mission

Vision

Well-conserved, protected and managed water, environment and natural resources

Mission

To provide coordinated policy implementation, enforcement and capacity building through integrated programs for sustainable management and utilization of natural resources for County development

3.4.1.2 Goals, Objectives and strategic Priorities

Sector Goal: Well conserved, protected and managed water, environment and natural resources utilized in a sustainable manner

Sector Objectives

The sector objectives include to be addressed include;

- Access to clean, safe and adequate water;
- Reversing the threats of environmental degradation;
- An efficient waste management system;
- Conservation of natural resources e.g on-farm forests;
- Appropriate and cost effective water harvesting and storage infrastructure; and
- Climate change mitigation and adaptation measures

Sector Strategic Priorities

The priorities areas that the sector seeks to focus on include;

- Develop and implement sector specific policy and legislative framework
- Enhance management of the county water service provision
- Carry out feasibility, design and ESIA on proposed projects
- Development and augmentation of water schemes and pipeline extension
- Ground water development
- Improve rain and surface runoff water harvesting
- Improve catchment management

- Promote the uptake of green energy within the community
- Rehabilitation and protection of Mt. Elgon and Cherang'any hills water towers
- Promotion of agro forestry
- Integrated solid waste management
- Rehabilitation of degraded sites
- Climate change mitigation and adaptation
- Sustainable utilization of natural resources

3.4.1.3 Key Sector stakeholders

Stakeholders	Role
Ministry of Water, Sanitation and Irrigation	Policy formulation and implementation of major water works
Ministry of Environment and Forestry	Policy formulation and coordination
Lake Region Economic Bloc (LREB)	Development of joint policies formulations
North Rift Economic Bloc (NOREB)	Development of joint policies formulations
Lake Victoria North water works development	Implementation of National Government projects, licensing
agency	and asset management
Rift Valley water works development agency	Implementation of National Government projects, licensing
	and asset management
Nzoia water and sanitation company	Management of water services
(NZOWASCO)	
National environment management authority	Formulation and coordination of policies and enforcement of
(NEMA)	regulations
Water resources authority (WRA)	Protect, conserve, control and regulate use of water resources
Kenya forest service	Protection and promotion of Forestry activities
Kenya wildlife services	Conservation of biodiversity
Catholic diocese of Kitale	Community water sources protection
Water missions international	Development of water supplies, water quality and sanitation
	promotion
Water resources and users association	Management and protection of water resources
County departments	Collaboration in project implementation
Ministry of health services	Promotion of environmental sanitation
CARE (K)	Climate change legal framework
UNICEF	WASH Activities
Red cross society	Mapping and support of needy
Vi Agroforestry	Promote Environmental Conservation
Universities	Training and Research services

3.4.2. Sector Programmes and Projects

The Water and environment sector is planning carry Water resources management which will include pipeline extension, Borehole drilling and equipping, Shallow wells and Spring protection; Environmental protection and management with the with the following activities county forestation initiatives, solid waste management, climate change adaptation and mitigation measures and sanitation; and administrative support services. In addition, the sector will

undertake restructuring and capacity development of the county water services providers will be carried out during the year.

Table: 3.4.1

Sub Programme/Project	Key Outcomes/ Outputs	Key performance indicators	Baseline (current Status)	Planned Targets	Resource Requirement (Ksh)
Programme 1: Environ	mental Management and	Protection	,,	_	
	Conservation and Protec		ces		
	ed and conserved environ

3.5. Education

3.5.1 Sector Overview

This Sector is comprised of Early Childhood Education and Vocational Training. The sector has the responsibility of ensuring a conducive environment for quality learning and access to quality skills training for self-employment. The sector collaborates with the National Government and other stakeholders to ensure access, equity, retention and smooth transition in learning Institutions.

3.5.1.1 Vision and Mission

Vision

To have a globally competitive quality, effective and well-educated human resources for the County sustainable development

Mission

To provide quality education training and research for empowerment of individuals to become competent and responsible citizens who meet the global labor market demands

3.5.1.2 Sector Goal

Be a leading provider of Early Childhood Education and Vocational Skills for employment in the Country

3.5.1.3 Sector development Priorities and priorities

The table below outlines the constraints and strategies set to address the same during implementation of the Sector's selected priorities.

Sub Sector	Priorities	Constraints	Strategies
ECDE and	Providing good foundation for	Financial Constraints	Complete unfinished classrooms
Education	children which ensures holistic	Shortage of staff	Equipment of ECD classrooms
Support	development Provision of	Inadequate working tools	Employment of ECDE Teachers
	quality infrastructure	and equipment	Construction and rehabilitation of
			ECD classrooms
			Provision of bursary to poor and
			needy children
			Capacity Building
			Resource Mobilization
Vocational	Improving quality education and	Financial Constraints	Conduct skills needs analysis for the
Training	vocational training	Shortage of staff	purposes of matching them to
		Inadequate tools and	relevant industry needs
		equipment.	Promoting youth enrolment in
			vocational training centres
			Provision of adequate instructional

	materials, tools and equipment to
	sustain trainees
	Establishment of boarding facilities
	in VTCs;
	Proper utilization of Inter-lock brick
	making machines to build
	classrooms/workshops at low costs
	Integration of ICT in vocational
	training centers;
	Rehabilitate, construct and
	adequately equip existing VTCs
	Employ adequate technical staff in
	VTCs
	Timely disbursement of capitation
	fund to VTCs;

3.5.1.3 Key Sector stakeholders

The sector collaborates with several stakeholders in discharging its mandate. They are outlined as follows;

STAKEHOLDER	ROLE
Community	Mobilization of resources to enhance holistic development of children Provide protective environment Link children to other services provided Address the needs of the disabled and disadvantaged children within the community Support community own resource person (CORPS) and other child care service providers through employment, maternal and emotional support
	 Provide feeding program Provision of teaching/learning materials Liaise with institutions to identify appropriate causes relevant to the market demands
Ministry of Public Works	 Preparation of the drawings and bills of quantities Supervision of Infrastructural projects Preparation of payment Vouchers
Department of supply chain	Procurement of servicesInspection of completed projects
Ministry of Health	 Maternal and child healthcare Sanitation and food safety(hygiene) Community mobilization on health services Immunization against immune able diseases Deworming Assessment children with special needs
Ministry of Water	 Provision of clean and safe drinking water Improved sanitation in learning institutions Carries out advocacy on safe water use

STAKEHOLDER	ROLE
County Government	Payment of caregivers and instructors' salaries
	 Support all ECDE and VTC programs
	 Support the inclusion of all children including those with special needs in the ECDE and VTC programs
	Sponsor caregiver and instructors for training, including
	the special needs
National Government	Registration of VTCs
	Provision of grants
	Creates awareness on disabilities through the county
	administration
	Provision of security
	 Sensitization and mobilization of the community on ECDE
	 Provision of birth certificates.
Tools to work	Provision of training to Instructors
	Provision of refurbished tools and equipment
Child Rescue Kenya	Capacity building of trainees
	Provision of start-up tools and equipment for vtc graduates
Finance and Economic planning	Facilitate financial support and capacity building of staff
Banks	Facilitation of banking services to the Institutions.

3.5.3 Capital and Non-Capital Projects

The capital projects to be implemented in the ADP period 2022-2023 include Construction of twin workshops, Administration blocks, Computer laboratories and equipping of VTCS among other projects. On the other had the sector will also continue improvement of the ECDE infrastructure through construction of new ECDE classrooms and rehabilitation of the existing ones. In promoting VTC and ECDE education the sector will strive to enhance the capacity of ECDE and VTC instructors through continuous training and upgrade of skills. To enhance the ability of the ECDEs and VTC to undertake their functions the sector will ensure sustainable supply of VTC instructional materials, equipment and tools and learning materials for ECDEs.

The capital and non capital projects for the Plan period 2022-2023 are summarised in the tables;

3.5.5 Payment of Grants, Benefits and Subsidies

The proposed payment by the county is as follows;

Table 3.5.4: Payments of Grants, Benefits and Subsidies

Type of payment	Amount (ksh.)	Beneficiary	Purpose
Elimu Bursary Fund	50,000,000	Vocational Training Centers	Support for the needy
Capitation for VTCs	4,000,000	All enrolled trainees in the VTCs.	To improve quality of training

3.6 Trade, Commerce and Industry

3.6.1 Sector Overview

The sector is composed of Trade development, Micro and Small Enterprises and weights and Measures sub sectors. The sector is responsible for formulation, monitoring and implementation of trade and industrial development policy, promotion of retail and wholesale trade, development of micro, small and medium enterprises, enforcing fair trade practices and ensuring consumer protection, provision of market linkages and access to finance for micro, small and medium enterprises, promotion of private sector development and development of special economic zones, formulation, and monitoring the implementation of industrial policies at county level, formulating and implementing capacity building programmes for micro and small enterprises, promoting access to markets, promoting innovation and development of products by micro and small enterprises and facilitating technology development, acquisition and transfer by MSEs.

3.6.1.1 Sector vision and mission

Vision

To be a national leader in promoting trade, investments and industrial development

Mission

To facilitate trade, investments and industrial development by championing an enabling and sustainable environment

3.6.1.2 Sub-sector goals and targets

The goal of this sector is to facilitate trade, investments and industrial development by championing an enabling and sustainable environment

In the plan period 2022/2023 the sector envisages, formulate sector specific policies and legislation, manage the MTEF processes, undertake sector specific capacity enhancement, undertake County Trade and Exports Market Development, continue with markets infrastructure development, continue with alcoholic drinks control licensing, engage in Regional Economic Integration Initiatives, continue with consumer protection, fair trade practices, legal metrology and conformity assessment, enhance enterprise training and development, enhance business finance and incubation services and exchange visits, continue mapping of markets and trading centers, catalyze industrial development and investment promotion and facilitate industrial research, incubation and innovation.

3.6.1.3 The Key strategic priorities of the sector

The Key sector strategic Priorities include;

- Development of entrepreneurial skills and knowledge especially among the youth and women
- Developing the retail and wholesale market as engines of growth

- Promoting access to affordable credit
- Creating an enabling environment for industrial growth
- Promoting trade and marketing research
- Developing policies and sponsoring legislations that promote trade and industrial growth
- Revamping Nawiri Fund as the source of capital for Micro and Small entrepreneurs
- Construction of jua-kali sheds in selected centers
- Promoting access to research and market information
- Establishing designated commercial and industrial zone.

3.6.1.4 Key Sector stakeholders

The sector collaborates with a number of key stakeholders who undertake various roles in helping the sector fulfill its mandate. The roles played by these stakeholders are outlined in the table;

	Stakeholder	Roles
1	IZ T. 1 1	
1.	Kenya Industrial Estates	Provision of credit, training and industrial accommodation to medium scale industrial ventures
2.	Kenya Industrial	Conducting industrial research and disseminating findings to Micro, Small and
	Research and	Medium ventures engaged in value addition
	Development Institute	
3.	Industrial and	Provision of credit and partnership to large scale industrial investments
	Commercial	
	Development	
	Corporation	
4.	Industrial Development	Provision of medium and long term loans to industrial investors
	Bank Evenout Processing	Durvision of infrastructure for the establishment of entermises appeared in
5.	Export Processing Zones Authority	Provision of infrastructure for the establishment of enterprises engaged in production for export
6.	Special Economic	Provision of social infrastructure for the operation of special economic zones
0.	Zones Authority	enterprises
7.	Export Promotion	Promotion of export products and markets development
	Council	
8.	Kenya Investment	Promotion of attraction of Foreign Direct Investments
	Authority	
9.	Kenya Institute of	Provision of business development services including training, extension and
	Business Training	consultancy services to MSMEs
10.	Micro and Small	Promotion and development of micro and small enterprises
11	Enterprises Authority	
11.	Kenya National Chamber of Commerce	Provision of marketing promotion, lobbying and advocacy services to members
	and Industry	members
12.	Anti-Counterfeits	Control of counterfeiting
	Authority	5
13.	Business Premises	Settlement of disputes arising from protected rented business premises
	Rent Tribunal	
14.	Kenya Bureau of	Ensuring standards of goods through issuance of standardization marks
	Standards	
15.	National Universities	Conducting research and extension services
16.	National Government	Provision of support to the industry and trade sectors
17.	Ministries Financial Institutions	Provision of financial services and capacity building of entrepreneurs
18.	Cooperatives	Promotion of SACCOs and other co-operatives that are centers of value
10.	Cooperatives	addition
19.	Development Partners	Support to organizations development and provision of financial support
20.	Kenya Industrial	Protection of industrial property rights
	Property Institute	
21.	County Government	Planning of urban centers, support to production of raw materials, and transfer
	Departments	of knowledge, skills and attitudes on industrial production
22.	County Alcoholic	Hearing appeals arising from approval/non-approval of applications for
	Drinks Control	licensing for Alcoholic Drinks Control Licensing
23.	Appeals Committee County Alcoholic	Approving for licensing of Recommendations for Alcoholic Drinks Control
23.	Drinks Control Board	Licensing
24.	Sub County Alcoholic	Receiving, vetting and making recommendations for licensing on applications
	Drinks Control	for Alcoholic Drinks Control Licensing and
	Committees	č
		101 Acononic Drinks Condon Licensing and

3.7 Lands, Housing, Physical Planning and Urban development

3.7.1 Sector Overview

The Land, Housing and Urban Development sector comprises of Lands, Housing, Land Survey, Physical Planning and Urban Development departments. The lands department is responsible for the land administration in the County including land adjudication and settlement. The survey department is responsible for land surveying and mapping including providing topographical data for planning and development purposes. The physical planning and urban development department is responsible for forward planning, development control and enforcement in the County. Housing department is in charge of housing development and management of County Government buildings.

3.7.1.1 Sector Vision and Mission

Vision: Sustainable land management, modern urban infrastructure and affordable and quality housing

Mission: To improve the livelihoods of Trans Nzoia citizenry through efficient administration, management of the land resource for equitable access to secure land tenure, affordable, decent housing and organized urban development in Sustainable environment

3.7.1.2 Sector Goal: Sustainable land management, modern urban infrastructure and affordable and quality housing

3.7.1.3 Sector Strategic Priorities

The sector development needs include;

- Acquisition of land for public utilities and development;
- Fast tracking of land titling Programme;
- Development of County Spatial plans to regulate agricultural and physical development of major towns and market centres;
- Protection of road reserves and way leaves;
- industrial zoning to spur industrial development;
- Control of informal settlements in major towns and market centres and
- Develop a land policy to counter the subdivision of land into small uneconomical land sizes.

3.7.1.4 Key Sector Stakeholders

S/No	Stakeholder	Role & Responsibilities
1.	National Land Commission (NLC)	Facilitate compulsory acquisition of land and protection and
		management of public land
2.	Kenya Informal Settlement Improvement	Funding in slum upgrading programmes
	Project (KISIP)	
3.	State Department of Urban Development	Policy development to facilitate implementation urban
	(UDD)	development programmes
4.	World bank	Funding implementation of Kenya Urban Support
		Programme (KUSP)
5.	Council of Governors (CoG)	Facilitate formulation of urban development policies;
6.	Business community	Beautification and maintenance of green spaces in urban
		areas
7.	State Department of Survey/National	Facilitate titling programme
	Titling Centre

3.7.3 Capital Projects

For the upcoming plan period the capital projects prioritized by the sector for implementation will include slum upgrading through provision of supportive infrastructure such as access roads and drainage facility. This will be undertaken through the KISSIP program funded by the World Bank. During the period the sector also plans to acquire land for the establishment of various public utilities. Further, in order to facilitate sector operations, two utility vehicles will be acquired in addition to equipment for smooth sector operations.

3.8 Gender, Youth, Sports, Culture and Tourism

3.8.1 Sector over view

The sector comprises Gender, Youth, Sports, Culture and Tourism sub sectors. The Gender sub sector is mandated to improve the quality of life of the communities by providing social protection services, coordinating and implementing affirmative action, capacity building and empowering of organized groups. The Sports sub sector is charged with the responsibility of sports promotion, development of sports facilities, sports education and talent identification and nurturing. Culture sub sector is responsible for identification, preservation and promotion of cultural heritage. Tourism sub sector is charged with championing of tourism activities in the county.

3.8.1.1 Sector Vision and Mission

Vision

A sustainable and equitable social-cultural and economically empowered Trans Nzoia County residents

Mission

To mobilize the community to preserve culture, promote sports and tourism development, support social welfare and child protection and identify and nurture youth talents

3.8.1.2 Sector goals

A sustainable and equitable social-cultural and economically empowered Trans Nzoia County 3.8.1.3 Sector strategic priorities and strategies

Sector priorities

The Sector's priorities include; Promote and nurture talents among sports persons and performing artists, conservation of culture and heritage, regulation and control of the gaming industry, Building capacity of youth, women ,vulnerable and marginalized groups, social protection services for community development, promoting uptake of gender and disability mainstreaming approaches in decision making, prevention and reduction of drug and substance abuse, Promote and market county tourism products and opportunities.

The strategies will include;

- Development of sector specific policies and legislative framework
- Promoting gender equity and implementation of affirmative action
- Promote youth tailored programmes and projects;
- Talent identification, promotion and development;
- Build capacity for youth, women, PWD and marginalized groups;
- Develop community's ability to mitigate periodic disasters like floods
- Identify and develop sports facilities across the County;

- Establish a drug and substance abuse rehabilitation centre;
- Preserve and promote the diverse cultures and heritage;
- Promote and market tourism products and opportunities;

3.8.1.4 Key stakeholders

Stakeholder	Role
Agape children's ministry	Children's welfare and protection
Handicap international	Support to the vulnerable
Red cross	Support to the distressed
Sports federations	Co-ordination of various sports events
World Vision	Youth empowerment
Trans Nzoia Youth's Agenda	Youth empowerment
Organization	
Anti-doping agency Kenya	Anti-doping campaigns among sports persons
National Aids control council	Control of HIV/Aids
Mt. Elgon Trust	Development of sports facilities
Kenya national sports academy	Identification and nurturing of sports talents
Embrace street child org.	Children's welfare and protection
UNESCO	Cultural promotion
National museums	Preservation of culture, heritage and history
KWS	Tourism promotion
Tourist hotels, lodges	Tourism hospitality
Trans Nzoia Tourism Association	Tourism promotion
KTB	Formulation of tourism policies
Tourism fund	Funding selected tourism activities
Tourism regulatory authority	Regulation of tourism activities
National government	Policy development
	Registration of cultural groups, sports clubs and welfare org.
Kenya tours and travel agency	Marketing tourist destinations

3.8.3 Capital Projects

For the coming plan period the sector has earmarked to undertake a number of capital projects key among them being completion of the Kenyatta stadium, renovation and rehabilitation of ward sports facility, completion of youth empowerment centre and erection of perimeter wall among others. In the gender subsector, the department has plan to renovated the Bahati children home and construct a perimeter wall in addition to equipping of the centre. The department further plans to construct a Hostel at the Kwanza Rehabilitation centre. Under the culture and tourism sub sector the department has planned to renovate the Kitale Museum in addition to construction of cultural buildings. The table 3.8.2 provides a summary of the capital projects planned for the financial year 2022/2023 for the sector.

3.9 Governance and Public Service Management

3.9.1 Sector Overview

The sector comprises of the Office of the Governor, Department of Public Service Management, CPSB and County Assembly. The sector provides overall policy and leadership direction to the County, oversees human resource management and development and the county assembly plays legislation and oversight. The sector is also responsible for coordination of public participation, civic education, intergovernmental relations, special programmes and promotion of peace and cohesion among county communities. In addition, the sector spearheads public sector reforms and provide for information communications and technology services in the county.

The County Staff establishment is currently at 3,666 comprising 2,038 female and 1,632 male. 1,921 of the employed are permanent employees, 1,118 are contractual employees while 627 are temporary employees.

3.9.1 .1 Sector Vision and Mission

Vision

A leading sector in coordination, public policy formulation, legislation, supervision and prudent resource management

Mission

To provide effective leadership in policy coordination, public service delivery and good governance for sustainable socio-economic development.

3.9.1 .2 Sector Strategic Priorities

Development sector priorities are:

- Strengthen institutional organization structure
- Strengthen Human resource management
- Strengthen HR record management systems
- Enhance service delivery innovation
- Enhance county performance management strategies
- Strengthen county inspectorate service
- Strengthen public participation systems and structures
- Development and equipping of a disaster management centre
- Provision of ombudsman's services
- Strengthen intergovernmental forum

3.9.1.3 Key Stakeholders

Stakeholder	Role
General Public	 Public participation in Participation in enactment of laws and policies Efficient and effective public service delivery
County departments	 Submission of bills, policies and development plans for enactment Implementation of the enacted polices and laws
National Government Departments and Agencies	Capacity building and provision of technical advice
The Senate	 Representation of the county and protection of county interests. Law-making function of Parliament by considering, debating and approving Bills concerning counties, as provided in Articles 109 to 113 of the constitution The Senate determines the allocation of national revenue among counties as provided in Article 217, and exercises oversight over national revenue allocated to the county governments.
Development Partners	Collaboration and partnerships through technical assistance and resource mobilization
The Media	 Complimentary cooperation and partnership Publicity and Information dissemination
Academia and Training Institutions	 Employment Internship and industrial attachments Partnership in research and policy formulation Capacity
Regional and International Bodies	 Cooperation, collaboration Benchmarking for best practices Exchange programmes
Council of Governors	Coordinate intergovernmental relations

3.9.5 Cross-Sectoral Implementation Considerations

Sub Program	Sector	Cross-sector Impac	Measures to		
Name		Synergies	Adverse Impact	Harness or Mitigate Impact	
Infrastructure Development	Development/National	A conducive office and residential environment for County Staff;	Environmental aspects associated with physical development; Change of User of land since suitable public land is limited	Proper approval of all building developments; Proper EIA study; Addressing recommendation from study findings	
Human Resource Management and Development		A competent public service hinged on well formulated policies		Ensure timely tabling of bills and draft policies in the assembly More funding for training of staff	
Devolution Support services	Civil Society	A well-coordinated and all-inclusive county public service anchored on transparency and accountability	High cost of holding public forums Non participation of some residents in governance based on political inclinations	Adequate funding for public participation and civic education meetings Capacity building of the public on the importance of their participation in governance	
Disaster preparedness and management	Government, Councils of elders	Provision of relief to affected residents and vulnerable groups and cohesion amongst the different communities in the county	Reliance on government support Difference in cultures and opinions	Allocation of adequate funds for the Programme Inclusivity in all county programmes	
Information, Communication Technology	1	Provision of accurate information	Inadequate automation facilities Poor Connectivity Inadequate funding	Increased allocation of funds Increase connectivity	

3.10 County Public Service Board

3.10.1 Sub sector Overview

Trans-Nzoia County Public Service Board was established pursuant to the provisions of section 57 of the County Government Act, 2012 whose functions are; on behalf of the County Government to establish and abolish offices in the County Public Service, appoint and confirm appointments, exercise disciplinary control among other functions as clearly set out under section 59 of the Act.

3.10.1.1 Vision and Mission

Vision

To be a leading responsive, professional and accountable Public Service Board.

Mission

To provide policy guidance, regulatory framework and develop institutional and human resource capacity for effective delivery of services to the public.

3.10.1.2 Sub sector Objectives

- To strengthen policy, capacity and the county regulatory framework.
- To equip and motivate county staff for enhanced service delivery.
- To enhance the citizens participation in the county public service decision making.
- To provide employees conducive work environment for enhanced service delivery.

3.10.1.3 Strategic priorities of the sector/sub-sector

- Provision of optimal staffing levels in all county departments.
- Enhance career progression of county staff.
- Enhance skills upgrading and multi-tasking.
- Streamline pension and social security services in the county public service.
- Enhance collaboration and cooperation in sharing information and promote adherence to articles 10, and 232 of the CoK 2010.
- Inculcate good work culture in the county public service.
- Harmonize grading and remuneration structure for the county public service employees.
- Ensure sustainability and continuity in public service delivery.
- To strengthen the policy and regulatory framework that governs the Board and the County Public Service
- Establish modern systems for record and information management.
- To improve work environment and enhance efficiency and effectiveness in service delivery.

3.10.1.4 Key stakeholders

Stakeholders	Role/Nature of Collaboration
General Public	Efficient and effective public service delivery
	• Fair representation in recruitment
	Accountability
County Assembly	Enactment of laws and policies submitted before the Assembly
	Promotion of accountability
County Departments	Submit staffing needs
	Disbursement of funds by the County Treasury
	Project management by Public Works
National Government Departments	Guidance and technical advice on matters related to Public
and Agencies	Service policies and programs
County Human Resource Advisory	Recommendations to the Board on various staff matters such as
Committee	promotion, resignation, discipline among others
Development Partners	• Collaboration and partnerships through technical assistance and
	resource mobilization
	Efficient and effective public service delivery
Workers/employers	Employment terms and conditions
Representatives	Industrial relations
	Representations in remuneration negotiations and staff welfare
Private Sector	Efficient and effective public service delivery
	 Partnerships
	Participation
	Accountability and transparency in public procurement
	• Uphold values and principles eluded in articles 10 and 232
	Quality and efficiency in goods /service procured
The Media	 Complimentary cooperation and partnership
	Publicity and Information dissemination
Academia and Training	• Employment
Institutions	 Internship and industrial attachments
	 Partnership in research and policy formulation
	Capacity
Regional and International Bodies	Cooperation, collaboration
	 Benchmarking for best practices
	Exchange programmes

3.10.4 Cross-sectoral Implementation Considerations

Table 3.10.4: Cross-sectoral impacts

Programme	Sector	Cross-secto	or Impact	Measures to
Name		Synergies	Adverse impact	Harness or
				Mitigate the
				Impact
Public service transformation	All departments	The initiatives will result in a professional and committed public service that will be efficient and effective in service delivery	Resistance to change by staff	Training on change management and Staff Sensitization
Governance and administration	All departments	Transparency and proper use of public resources hence citizens get value for money	Politicization of projects that slow down the pace of implementation	Have a well- structured public sensitization programme
Infrastructure Development	Departments of Public Works, Roads and infrastructure and Finance	Conducive work environment for enhanced service delivery	High cost of infrastructure development	Consider private public partnership in financing infrastructural development
Legal Framework and Institutional Reforms and Capacity Building	All departments	Homegrown policies that address issues that are unique to the County	Inconsistencies with existing policies resulting into implementation challenges	Involve all stakeholders in the process of policy development

3.11 Finance and Economic planning

3.11.1 Sector Overview

The sector is composed of Economic Planning, Budget, Revenue, Procurement, Accounting and Audit sub sectors. The mandate of Economic planning sub sector is to provide coordination and guidance in economic policy planning, formulation, and review, guiding preparation of County Strategic Plans, Annual Work Plans and Sectoral plans. Further, the sub sector is responsible for undertaking Economic Research, Studies and Surveys, spearheading the preparation of County Integrated Development Plan and fast tracking its implementation. The Budget subs sector is responsible for budget formulation, MTEF budgets, monitoring and reporting while the revenue sub sector is charged with revenue collection and management. The procurement sub sector is tasked with county procurement planning, making sourcing decisions, Contract management and disposal of county assets, coordinate the implementation of county procurement plans based on approved budget, and offering professional advice and opinions on procurement matters.

The mandate of the Accounting sub sector include continuous liaison with the National treasury, CRA, enhance compliance to disbursement requirements including financial reports, plans and budgets, and implement the integrated financial management information system .

The Audit sub sector is charged with the responsibility of ensuring that county funds are used for the intended purposes, undertaking project verification, undertaking payroll audit and verification of assets and liabilities of the county.

3.11.1.1 Sector Vision and Mission

Vision: A leader in public policy formulation and financial management

Mission: To coordinate policy formulation, prudent resource management and accountability for quality service delivery

3.11.1.2 Sector Goal

Transform policy formulation and public expenditure management for sustainable development.

3.11.1.3 Sector Strategic Objective

- To strengthen planning and policy formulation in the County
- Improve tracking of implementation of development policies, strategies and programmes
- To strengthen Human Resource capacity in the Department to enhance service delivery.
- To enhance own source revenue mobilization
- Enhance efficiency and effectiveness in use of public funds

3.11.1.4 Sector Strategies

The key strategies to be implemented in the sector include;

- Coordination of preparation of County development plans
- Statistical data collection, information generation and sharing to inform policies and plans
- Facilitation of department Human Resource Training and Development
- Automation of revenue collection
- Expansion of Revenue Base
- Strengthen MTEF budget Framework
- Strengthen audit function
- Strengthen procurement function

3.11.1. 5 Sector key stakeholders

Stakeholder	Role
Public/citizens	Provide opinions/views during forums for budget and
	county development plans formulation
Employees	Implementers of the government policies and service
	providers
National government e.g The	Policy formulation and legislation;
National Treasury and planning	Technical backstopping
Suppliers/contractors	Supply goods and services as per the contract
Development Partners	Provide financial/non-financial resources
Unions	Champion rights/interest of their members
Faith based organizations(FBO)	Provide financial/non-financial resources
Kenya National Bureau of	To provide policy guidelines on data collection,
Statistics (KNBS)	compilation, disseminations and maintenance of the
	national statistical system;
	Provision of key statistics
NCPD	Provides policies on population and development
CRA	Determine the proportion of revenue to be shared
	between the National and County governments
SRC	Review and determine salaries and remuneration to be
	paid out to state officers and other public officers
KRA	Collection of taxes

3.11.2 Sector Programs and Projects

The sector is mainly tasked with coordination and facilitating the performance of other sectors and is thus most of the sector's programs are non-capital in nature. For the ADP period 2022-2023 the key sector priorities will geared towards strengthening policy formulation, planning and budgeting, enhancing financial management and reporting and improving revenue collection. To realize these the sector has identified a number of interventions to be implemented in the plan period and these include; refurbishment of the County planning unit, End term review of the 2nd generation CIDP and coordination of development of the 3rd generation CIDP, establishment of county statistics/documentation unit, formulation of county development plans, preparation of budget policy documents, financial reporting and revenue automation among other initiatives.

The sector programs proposed for implementation are summarized in the table 3.11.1;

Table 3.11.1: Summary of sector programs

		No of audit reports developed	Ongoing	4	2
		Audit automation system acquired	New	TEAMMA TE audit system acquired and installed	5

3.11.3 Capital Projects

The sector projects are mainly non capital in nature. However for the coming plan period the sector has proposed to implement some capital projects namely office refurbishment, installation of backup generator, acquisition of utility vehicles and motor cycles to enhance revenue collection and management. Further sector plans to enhance revenue automation to cover more revenue streams and geographical coverage to sub county level.

These are summarised in the table 3.11.2;

Table 3.11.2: Capital projects for the FY 2022/2023

Project Name and Location	Objective/Purpose	Description of key activities	Green Economy consideration	Estimated Cost (Ksh.)	Source of funds	Time frame	Targets	Status	Implementing agency

Audit automation	To promote effective auditing	Source for specifications and install and commission audit		10M	CGTN	2022-23	TEAMMATE audit system acquired and installed	New	Audit Department

3.11.4 Cross-sectoral Implementation Considerations

Programme	Departments	Cross-sector Impact		Measures to
Name		Synergies	Adverse impact	Harness or Mitigate
				the Impact
Revenue mobilization and administration	All departments	Undertake joint Mapping of sectors revenue sources and sectors participation in revenue collection	Pilferage of revenue	Automation of revenue collection system in all revenue raising departments.
Financial management	All departments	Ensure efficient and effective utilization of funds	Non adherence to PFM principles	Ensure adherence to PFM principles
County development planning	All departments	Sectors involvement in participatory planning	Uncoordinated planning and budgeting	Enhance public participation and participatory planning
County monitoring and evaluation	All departments	Sector participation in Collection and analysis of data that is useful for decision making	Inadequate sector specific data; Inadequate data collection skills	Development of a robust monitoring and evaluation system; Training and capacity building of sector actors

3.12 County Assembly

3.12.1 Sub Sector Overview

The County Assembly is an arm of the County government responsible for legislation, representation and oversight. It enacts County laws and oversees all the affairs of the County such as approving development plans, policies of the County and also approval of the County budgets and expenditures.

The mandate of the County Assembly is drawn from Article 185 of chapter 11 of the Constitution. The assembly consists of twenty five elected, fourteen nominated members and the Hon Speaker, who is an ex-officio member. The following are the roles of the members of the County Assembly;

- Vet and approve nominees for appointment to county public offices as provided for in the County Government Act No. 17 of 2012.
- Approve the budget and expenditure of the county government in accordance with Article 207 of the Constitution.
- Approve the borrowing of the County government in accordance with article 212 of the Constitution and county development planning.
- Legislative role as contemplated in Article 220(2) of the constitution, guided by Articles 201 and 203 of the constitution.
- Oversight over the county executive committee and any other county executive organs.
- Representation of the electorate.

3.12.1.1 Sector Vision and Mission

Vision: An assembly of global excellence in empowering the society, defending the constitution, freedom and devolution.

Mission: To offer quality services to the society through oversight, representation and legislation by ensuring autonomy and impartiality of the County Assembly.

3.12.1.2 Sub-sector objectives

- To strengthen policy, capacity and the County legislative framework
- To enhance Citizen participation in the legislative process

3.12.1.3 Sub Sector Priorities and Development Needs

The priorities and development needs includes;

• Prompt Legislation of bills submitted to the County Assembly;

- Establishing adequate capacity to develop necessary County legislation;
- Ensuring quality representation;
- Providing an enabling environment for the assembly to function effectively and efficiently and;
- Providing adequate oversight to the executive.

3.12.1.4 Sector Strategies

The key strategies include:

- Drafting bills in consultation with County Departments;
- Capacity building of County Assembly Members on oversight, legislation and representation function;
- Providing better working environment for Hon. Members and assembly staff;
- Enhanced security for Hon. Members and assembly staff and equipment
- Improving the image and profile of the county assembly

3.12.1.5 Sector/sub-sector key stakeholders

The county assembly collaborates with a number of stakeholders in discharging its mandate. The role played by these stakeholders is as outlined below;

Stakeholder	Role/Nature of Collaboration
General Public	Public participation in Participation in enactment of laws and policies
	Efficient and effective public service delivery
County Executive	Submission of bills, policies and development plans for enactment
	Implementation of the enacted polices and laws
National Government Departments and Agencies	Capacity building and provision of technical advice
The Senate	Representation of the county and protection of county interests.
	 Law-making function of Parliament by considering, debating and approving Bills concerning counties, as provided in Articles 109 to 113 of the constitution The Senate determines the allocation of national revenue among counties as provided in Article 217, and exercises oversight over national revenue allocated to the county governments.
Development Partners	Collaboration and partnerships through technical assistance and resource mobilization
The Media	Complimentary cooperation and partnership
	Publicity and Information dissemination
Academia and Training	Employment
Institutions	Internship and industrial attachments
	Partnership in research and policy formulation
	Capacity
Regional and International	Cooperation, collaboration
Bodies	Benchmarking for best practices
	Exchange programmes

3.12.2 Sector Programmes and Projects

Table 3.12.1: Summary of sector programmes

	Consultancy services offered	No. of consultancy services offered	New	1	50M

3.12.3 Capital Projects

For the plan period 2022/23 the sub sector has prioritized completion of ongoing capital projects initiated under the previous ADP. Similarly the sub sector will also implement the programs that had been planned for implementation but faced challenges such as budget constraints and litigation issues.

These capital projects include; construction of modern assembly block, construction of speakers house, installation of Hansard equipment among other capital projects,

Table 3.12.2 Capital projects for the 2022-2023 FY

<u> </u>	Description of activities	Green Economy consideration	Estimated cost (Ksh.)	Source of funds	Time frame	Performance indicators	Targets		Implementing Agency

3.13 Kitale Municipal Board

3.13.1 Overview

The Municipality is a creation of the Constitution of Kenya 2010, under article 184. It is specifically covered under the Urban Areas and Cities Act 2011 and also operationalized through the Kitale Municipality Charter and A legal notice No.2380 of 20th March, 2020. The Municipality Board which is the governing body was officially inaugurated on 4th July, 2019 by H.E. The Governor through grant of the Charter.

The Municipality covers an area of 160km square for the Municipality and 226 km square as the planning area covering the entire of Tuwan, Hospital, Matisi and Bidii ward as well as part of Waitaluk and Sirende Wards. The mandate of the board is provided from under section 20 and 21 of the Urban Areas and Cities act which is essentially to oversee the affairs of the Municipality. The Board consists of the following Committee;

- Infrastructure, public works, transport and urban development.
- Finance, trade, market and industrialization.
- Audit committee.
- Environment, sanitation and water
- Education, social service, sports and housing

3.13.1.1 Sector Vision, Mission and Goal

Sector vision

A commercial and industrial hub with an efficient, effective and sustainable land, Housing, infrastructural and Transport Management Systems

Mission

To be an effective Municipality in provision of infrastructure and service delivery **3.13.1.2 Sector goal**

A municipality with an efficient infrastructure and effective service delivery system

3.13.1.3 The strategic priorities of the sector

3.13.1.4 Sector strategic priority needs include;

The sector needs and strategies includes;

- Promote, regulate and provide for refuse collection and solid waste management services.
- Promote and provide for water and sanitation services and infrastructure (in areas within the Municipality not served by the Water and Sanitation Provider)

3.13.1.5 Key interventions/strategies;

- Construction and maintaince of urban roads and associated infrastructure
- Construct and maintain storm water drainage and flood controls
- Construct and maintain walkways and other non-motorized transport infrastructure
- Construct and maintain recreational parks and green spaces
- Construct and maintain street lighting
- Construct and maintain parking facilities and regulate traffic
- Construct and maintain bus and taxi stands
- Construct, maintain and regulate municipal markets and abattoirs
- Construct and maintain fire stations; provision of fire-fighting services emergency preparedness and disaster management;
- Promote, regulate and provide municipal sports and cultural activities
- Promote, regulate and provide animal control and welfare
- Develop and enforce municipal plans and development controls
- Manage administrative services and maintain administrative offices.
- Promote and undertake infrastructural development and services within the municipality

3.13.1.5 Key stakeholders

Stakeholders	Role
Ministry of Water, Sanitation and	Policy formulation and implementation of major water works
Irrigation	
Ministry of Environment and Forestry	Policy formulation and coordination
North Rift Economic Block (NOREB)	Development of joint policies formulations
Nzoia water and sanitation company	Management of water services
(NZOWASCO)	
National Environment Management	Formulation and coordination of policies and enforcement of
Authority NEMA)	regulations
Water resources authority (WRA)	Protect, conserve, control and regulate use of water resources
Kenya forest service	Protection and promotion of Forestry activities
Kenya wildlife services	Conservation of biodiversity
Catholic diocese of Kitale	Community water sources protection
Water Missions international	Development of water supplies, water quality and sanitation
	promotion
Water resources and Users association	Management and protection of water resources
County departments	Collaboration in project implementation
Ministry of health services	Promotion of environmental sanitation
Red cross society	Mapping and support of needy
Vi Agroforestry	Promote Environmental Conservation

Universities	Training and Research services							
Business communities	Corporate Social Responsibility

CHAPTER FOUR: RESOURCE ALLOCATION

1.0 Introduction

This chapter presents a summary of resource requirement towards implementation of the proposed Sector Programmes and Projects. It further outlines briefly the County's revenue forecast in the 2022/2023 fiscal year, the underlying assumptions and forecasted risks and mitigation measures in the financial and economic environment within which the County operates and a description of how the County Government is responding to changes in the financial and economic environment.

1.1 County Revenue Sources

The major source of revenue for the county government is the equitable shareable revenue, grants and from the National government and Donor funding. These revenue components are provided in the Kenya constitution and the Commission on Revenue Allocation (CRA) is mandated to oversee this. The funds are shared based on the formulae developed by the Commission.

The revenues from the national government and own sources projections for 2022/2023 is shown in table 9 below;

Table 7: Projected County Revenue for Fy. 2021/22-2023/24

Classification	Proposed	Projected 2022/23	Projected 2023/24
	2021/22 Ksh.	Ksh.	Ksh.
Equitable share	7,186,157,670	7,904,773,437	8,695,250,781
Local Revenue Projection	529,500,000	550,000,000	605,000,000
Other grants and transfers	724,984,356	797,482,792	877,231,071
Unspent Balances brought forward	-	-	-
Total Projected Revenue	8,440,642,026	9,252,256,229	10,177,481,852

Source: County Treasury

In order to address the budget deficit that arises as a result of inadequate resources, the County Government has an option to seek funds from foreign governments in form of grants and donations. This will be done through engagement between the county government and foreign governments targeting specific projects and programmes such as health promotion, agriculture productivity improvement and water provision.

The County government has a potential to build partnership with private organization which would encourage partnership that would bring financial and material support.

In addition, there is need to review the own resource base and temporary waivers on fees and other charges to ensure availability of fund. There is need also to provide initiatives that will enhance local revenues.

The key initiatives to be undertaken to increase the revenue base includes; - improvement on the automated revenue collection system, simplification of Collection process in line with national best practices and improved compliance with enhanced administrative measures.

In addition, the County Government will undertake various researches in view to identifying new sources, improving tax compliance levels and expanding revenue base. The county will also embrace asset financing, endorsement of PPP as well as seeking for donor support in form of grants and loans from domestic and external sources, in line with the regulations as set out in the PFM Act and other financial regulations.

The total resources required for implementing development projects identified in this plan is KES 5,104,900,000 whereas the total revenue the government projects to raise is KES 9,252,256,229 for both development and recurrent expenditure.

1.2 Resource Allocation Criteria

Resources are allocated based on the following criteria;

- i. Special consideration is given to the on-going programmes/projects;
- ii. Linkage of the Programme with the objectives of the County Government, the Governor's Manifesto and the CIDP;
- iii. Programmes addressing core poverty interventions;
- iv. Programme addressing the core mandate of the department; and
- v. Cost effectiveness and sustainability of the Programme/projects.

Proposed Budget by Programme

Proposed budget for the programmes identified in chapter three.

1.3 Financial and Economic Environment

In the financial year 2022/23, the funding for development programs is expected to decrease due to the uncertainties in revenue collection both at the National and County level as a result of

adverse impact of COVID-19 pandemic. The allocation to specific programs will be guided on how these programs are aligned to the county government's medium term development theme 'The take-off: pathway to economic transformation and prosperity'. In line with the development theme the county strategy thrust has been on reducing poverty, increasing land productivity and economic transformation through value addition for productive sectors. To achieve this noble strategies objective, the priority areas of investment include;

- Investing in modern farming technologies;
- Crop diversification;
- Enhance capacity of the county in disaster preparedness and management;
- Empowering the marginalized and vulnerable groups;
- Building capacity of MSE and 'Jua kali sector';
- Investing in post harvest management facilities;
- Investing in value addition;
- Investing in infrastructural development in areas such as county roads, fresh produce markets, street lighting and provision of water;
- Investing in quality and an d accessible health care services and quality education as well as
 strengthening the social safety net to reduce the burden on the households and promote shared
 and equitable growth ,and
- Support the county public service for better service delivery

To enhance delivery of these programs, the county will develop and implement various key policies required to create a conducive environment for the implementation of envisaged programs.

CHAPTER FIVE: MONITORING AND EVALUATION

5.0 Introduction

This chapter discusses the county monitoring and evaluation framework as outlined in the County Integrated Monitoring and Evaluation System (CIMES). It focuses on development of the monitoring and evaluation framework for specific projects and programmes for the sectors that will be implemented during the planned period. The chapter also specifies the objectively verifiable indicators that shall be used to monitor projects/programmes implemented by various sectors.

5.1 Monitoring and Evaluation structure in the county

The county M&E structure is comprised of the following committee;

• Inter-Governmental Forum/CBEF

This forum is chaired by the Governor and membership includes the county executive committee members, county commissioner and civil society representative. The committee is responsible for harmonisation of service delivery in the county, giving policy directions on M&E at the county level and coordination of inter-governmental functions. This forum receives M&E reports from CoMEC, reviews and passes to the County Assembly Committee responsible for monitoring and evaluation.

• County M&E committee (COMEC)

This is a Committee based at the County level chaired by the County Secretary and whose Membership comprises of County Chief Officers and Clerk of County Assembly. The Chief Officer responsible for monitoring and evaluation is the Secretary and he/she convenes the Committee.

• Technical oversight Committee

The Committee is chaired by the responsible for monitoring and evaluation and membership includes the representatives of heads of County departments. The secretary and convener is the head of county monitoring and evaluation unit.

• M & E Unit

The Unit is chaired by the Director Project implementation, Monitoring and Evaluation and M & E Officers from governance delivery unit and the department of Economic Planning. The secretary and convener is the County Director Project implementation, Monitoring and Evaluation.

• Sub-county M & E Committee (SCoMEC)

The committee is chaired by the Sub-county Administrator and the secretary is the officer in charge of monitoring and evaluation at the Sub-county level. The convener is the Sub-county Administrator. The membership comprises of the Sub-county heads of departments and the Committee is in charge of coordinating M & E activities at the Sub-county level.

• Ward M&E committees

The committee is chaired by the Ward Administrator and the secretary is the officer in charge of planning at the Sub-county level or his/her representative. The convener is the Ward Administrator. The membership comprise of the ward heads of departments and the Committee is in charge of coordinating M & E activities

5.2 County Monitoring and Evaluation Institutional Framework

Monitoring and evaluation towards the achievement of the policies, projects and programmes as outlined in the ADP will be undertaken through the County Integrated Monitoring and Evaluation System (CIMES). The CIMES will be anchored on the County monitoring and evaluation policy which will guide its operation. The County monitoring and evaluation unit

domiciled at the Governance delivery unit is charged with coordination of the M&E function and providing technical backstopping to the county line departments.

The Monitoring and evaluation system will be rolled up to the sub county level and ward levels. Further, the ADP shall be monitored and evaluated in a participatory manner bringing together various stakeholders who will be charged with different responsibilities.

5.3 Evaluation

The evaluation of the ADP will be done in the end term to assess the extent to which the plan is meeting its implementation objectives and timelines and also seek to explore the following thematic issues:

- i. **Effectiveness (Impact):** The extent to which the implementation of ADP programs met the set out objectives and strategies.
- ii. Lessons Learnt: Documentation of the lessons learnt for future decision making
- iii. **Feedback**: Disseminate lessons learnt, best practices, achievements, challenges faced that inform the preparation of the next plan

5.4 Monitoring and Evaluation Performance Indicator

Table 5.1 below presents the key performance indicators by programme which will be used during monitoring and evaluation at the end of the implementation period 2022/2023.
