A. BUDGET SUMMARY 2023/2024 FISCAL YEAR

1.0 Introduction

The FY 2023-2024 budget estimates give recurrent and development expenditure allocated to the various departments. The priorities to which allocation has been given is based on the County Integrated development Plan (CIDP) 2023-2027, Annual development plan (ADP), 2023-24 and the County Governments manifesto. The CIDP is itself a representation of the social and economic development aspirations of the people of Meru County, recognizing that these are consistent with the aspirations of all of the people of Kenya under Vision 203 and the National Governments agenda.

Section I04 of the County Government Act 2012 requires a County Treasury to prepare the annual budget for the county and coordinate preparation of estimates of revenue and expenditure of the county government. In line with the requirements of the Public Finance Management Act (PFMA), 2012, these Programme based budget estimates are also guided by a three-year Medium-Term Expenditure Framework covering the period from 2023-2024 to 2025-2026.

The estimates are further informed by budget ceilings approved by the County Assembly through the County Fiscal Strategy Paper (CFSP).

Formulation of 2023-2024 PBB Estimates represents a highly consultative and participatory process that involved extensive public participation in CIDP and ADP preparation, CFSP presentation and the budget estimates. The County Treasury held successful public participation from FY 2023-2024 in all the sub counties for the County Fiscal Strategy Paper and Budget Estimates whereby Contributions, comments and criticism were welcomed and openly addressed.

Inputs from other stakeholders have been duly incorporated into these budget proposals. Intense internal deliberations among the County Executive Committee led to unanimity in the approval of these estimates.

1.2 Legal Compliance and Fiscal Responsibility.

The Constitution of Kenya and Section 129 of the Public Finance Management Act, 2012, requires the County Executive Member for Finance to submit the Budget Estimates of the County Government for the following financial year by the 30th April in the format and content prescribed therein, together with other information and documents supporting the submitted estimates.

The Budget of FY 2023/24 and The Medium Term, is prepared under a restructured calendar which is issued to departments and government entities by 30th of every financial year.

Accordingly, the County Treasury has prepared the following information and documents to accompany the FY 2023/2024 budget estimates:

- i) Budget Summary that includes:
 - ❖ A budget summary containing budget policies including policies on revenue, expenditure, debt and deficit financing.
 - ❖ An explanation of how the budget relates to the fiscal responsibility principles and the financial objectives.
 - ❖ A memorandum by the County Executive Committee member for Finance explaining how the resolutions adopted by the county assembly on the budget estimates have been taken into account
- ii) Budget estimates that include:

- ❖ A list of all county government entities that are to receive funds appropriated from the budget of the county government
- ❖ Estimates of revenue projected from the equitable share over the medium term
- ❖ All revenue allocations from the national government over the medium term including conditional and unconditional grants
- ❖ All other estimated revenue by broad economic classification
- ❖ All estimated expenditure, by vote, and by programmes, clearly identifying both recurrent and development expenditures.

B. POLICY FRAMEWORK FOR FY 2023/2024 AND THE MEDIUM TERM

2.1 Introduction

The 2023/24-2025/26 Medium-Term Fiscal Policy aims at supporting a sustainably wealthy and vibrant County by providing high quality services to improve the livelihoods of its citizens. The County Government will pursue prudent fiscal policies to ensure economic growth and development. In addition, these policies will provide support to economic activities while allowing for sustainable implementation of projects and Programs. Adhering to these policies will also enhance local revenue collection which will ensure there are adequate resources for capital investments.

In respect to Own Source revenue generation, the County Government is striving to institute corrective measures to reduce revenue leakages through the County Revenue Board which is responsible for revenue mobilization and management. Further the County is in the process of procuring a new revenue system that will enable us do cashless payment of revenue collection streams and curb revenue leakages.

The County Revenue board are also preparing the Finance bill which will ensure that we maximize all collection centers/ streams in the aim to achieving our revenue potential of the County.

C. COUNTY PRIORITY AREAS

3.1 Introduction

The County budget for the FY 2023/2024 and over the medium term will focus on the following key priority areas;

- ❖ Provision of water for domestic and irrigation purposes through construction of water pans, drilling and equipping of boreholes, and distribution of the current water systems.
- ❖ To provide Quality, Affordable and Accessible Healthcare through provision of adequate drugs for all our hospitals, equipping of hospitals and infrastructure development of health facilities.
- ❖ Roads and Infrastructure development through continuous grading, gravelling and murraming of roads, installation of culverts and maintenance of road networks across the county.
- ❖ Investment in agriculture through provision of farm inputs, Purchase of live animals, provision of artificial insemination (AI) services across the County and Livestock improvement.
- ❖ Promotion of education through provision of bursary to the needy students, provision of subsidized school fees in Vocational Training centers, provision of scholarship to students and school feeding programme.
- ❖ Markets infrastructure development to empower the SMES in the county.
- ❖ Waste management: due to lack of an efficient and effective solid waste management system the county is embarking on putting up structures and mechanisms so as to address the perennial menace. During The FY 2023/2024 the county intends to purchase incinerators.
- ❖ The County will continue to work closely with the National Government in Planning and issuance of titles in the medium term and also repossession of all grabbed public land. In this regard, the County will take part in surveying, planning and land mapping to ensure investors and the residents are able to benefit from land as a factor of production.
- ❖ The County intends to exploit and tap into the Youth talents by ensuring we have adequate sporting facilities within the County for them nurture their talents. Provision of funds within the county's budget will empower Women, Youth and Persons living with disabilities so as to improve their standards of living and their quality of life.

D. FISCAL POLICY AND BUDGET FRAMEWORK

4.1 Introduction

The county shall continue enhancing its revenue base with a view to ensuring we increase own source revenue collection and achieve greater efficiency in terms of cost savings from non-crucial expenditure to ensure priority is given to the set priorities.

4.2 Fiscal Responsibility Principles

- a. The County will be undertaking audit of the current county workforce payroll with the aim of bringing down the wage bill towards PFM desired limit of 35%. This will create fiscal space for spending on the key county priorities especially in the social sectors and other development programmes.
- b. Fiscal consolidation while ensuring that county resources are adequate to promote growth. The County Government is committed to a reduction in the recurrent expenditure to devote more resources to development. At least thirty percent of the total county revenue shall be used in the implementation of development projects over the medium term.
- c. The county will continuously exploit the public private partnerships, with potential local and foreign investors as well as other development partners to aid in the county's development.

b. Major Achievements for the Period

Key achievements

This section details major achievements for the department over the preceding three years.

- ❖ Certified seeds procured and distributed under ELRP project
- ❖ Avocado and macadamia seedlings distributed
- ❖ Soil conservation practices and measures on agricultural land were implemented under Upper Tana and NARIGP donor-funded projects
- ❖ 3,200 Tonnage (MT) of fertilizer were distributed
- ❖ 4,727 youths received an assortment of trainings on farming

- ❖ Over 970 farmers were trained on Agri business.
- ❖ Over 24,000 chickens were distributed to farmers under KOPIA and ASDSP projects.
- ❖ Around 1,200 beehives were distributed.
- ❖ Over 200,000 animals were vaccinated
- ❖ Over 170,000 fingerlings were distributed to various farmers

c. Major services/outputs to be provided in MTEF period 2023/24 – 2025/26

- ❖ To improve fish production, Improve nutrition, Food security and wealth
- ❖ To enhance food and nutrition security
- ❖ To improve production of preferred market varieties
- ❖ To enhance livestock productivity
- ❖ Improve the livestock genetic pool
- ❖ Increase livestock value and minimize rustling through traceability

Constraints and challenges in budget implementation

The following are the challenges facing the sector:

- a) **Land ownership** – The sector faces numerous challenges on land ownership including the lack of a settlement of landless/squatters, uncontrolled land sub-division, sprawling of urban settlement and structures into prime agricultural areas and lack of land ownership documents.
- b) **Inadequate markets and market infrastructure for agricultural products** - This challenge is further amplified by inadequate access infrastructure (cold chain facilities, roads and energy to reduce post-harvest losses), market infrastructure and market information.
- c) **High production cost** – A large percentage of the sector’s inputs and imported and expensive resulting into high product cost and consequently lowering the expected farmer incomes.
- d) **Limited diversification of agricultural products and value addition** – The largest proportion of agricultural products are sold unprocessed or in semi-processed forms.
- e) **Inadequate sector funding and delayed disbursement of funds** - Late release of exchequer and austerity measures affects implementation of programmes and projects.

Measures to mitigate the challenges

- a) COG is pushing and campaigning towards prompt and timely disbursement of equitable allocation to counties.
- b) Change of management in the County Revenue Board and adopting more efficient methods of revenue collection to avoid pilferages.
- c) Strict adherence to the SRC recommendations on wage bill control mechanisms.
- d) Lobbying for more donors to complement county budget on development projects.

<ul style="list-style-type: none"> • Information and data management 	<ul style="list-style-type: none"> - Establishment of EMS - Procurement of instruments like GPS

Constraints and challenges in budget implementation and how they are being addressed;

- ❖ Allocation of insufficient funding
- ❖ Timely disbursement of funds
- ❖ Diminishing donor funding to counties and little resources devolution to manage the department

Measures to mitigate the challenges

- e) Prompt and timely disbursement of funds
- f) Lobbying for more donors to complement county budget on development projects.

b. Major achievements in the last MTEF period.

Key Achievements

During the last MTEF Period the department focused on implementation of;

- ❖ Provision of bursary to needy children both in secondary schools and tertiary institutions.
- ❖ Capacity building for ECDE caretakers, purchase of learning materials for ECDE learners,
- ❖ construction of ECDE classrooms across the county, construction and equipping of vocational training centres
- ❖ promotion of progressive culture practices and enhancement of art Appreciation

Additionally, the following projects were implemented: Construction of ECDE classrooms and workshops; capacity building and training of staff for vocational and ECDE trainers Human resource development; provision of bursaries to needy students; scholarships to students; Capitation for VETS; mentorship program,

assessment and evaluation of standards; continuity in empowerment of women, youth, the elderly and PWDs.

c. Major service/ outputs to be provided in MTEF period 2023/24-2025/26

- ❖ Construction of ECDE classrooms
- ❖ Capacity Building for ECDE teachers and officers.
- ❖ Monitoring and evaluation for standards in ECDE curriculum
- ❖ Disbursement of conditional grants to vocational training centers.
- ❖ Construction of workshops and hostels
- ❖ Procurement of tools and equipment's
- ❖ Capacity building of instructors and officers
- ❖ Subsidized exams for VTC trainees
- ❖ Retention enhancement fund and disbursement of scholarships.

Constraints and Challenges in budget implementation

- ❖ Inadequate funding
- ❖ Delay in release of funds

e. Measures to mitigate the challenges

- ❖ Timely release of funds for better project implementation, stable set budget and need for good working relationship between the County Executive and Assembly.

Part D: Strategic Objectives

Programme	Objective
P1. General administration, planning and Support Services	To provide effective and efficient support services and linkages among programmes of the sector.
P2. Basic Education	To enhance access, retention, transition, quality, equity and relevance of Education of ECDE.
P3. Technical Vocational Education and Training	To enhance access, equity, retention, transition, quality and relevance of technical vocational education and training
P4. Culture and Arts	To exploit progressive culture for social-economic empowerment, expand and develop recreational facilities for income generation and recognize cultural diversities as a tool for county and national cohesion and integration.

b. Major Achievements for the Period FY 2019/20 – 2021/22

Key Achievements

The strategic priorities and achievements for Health Services Department

- ❖ Increased access to the health services as 10 new dispensaries opened and 3 maternities built in Runogone, Kimachia, Timau and Timau outpatient hospital.
- ❖ Grievance Redress Mechanism (GRM) set up to address complaints by clients. Health inspection of health facilities for patient safety. Walkways at Muthara. Designed and displayed signage at 15 Level IV and 25 Level III Health Facilities.
- ❖ Histopathology Laboratory was equipped and commissioned at MeTRH and Conducted health education on COVID-19 and TB through Media
- ❖ Launched Human Resource for Health strategic plan
- ❖ Increased targeted health promotion and education through Media engagements on COVID-19 and TB.
- ❖ Improved community health through 40 community health units formed, held 90 dialogue days and 920 dialogue days. 1870 action days. Mapped 116,372 households for Universal Health Coverage. CHVs issued with 1500 Blood Pressure and blood sugar machines.
- ❖ Improved and upgraded health infrastructure i.e Installed and commissioned Oxygen Plant and Oxygen piping in MeTRH. Renal in MTRH and Nyambene are operational. Operational blood bank and transfusion center, ICU and COVID-19 Molecular Lab at MTRH. Maternity theatre extension. 12 facilities fenced.
- ❖ Reduced health burden of communicable diseases including HIV AIDS, STIs and TB, diarrheal, worm infestation and malaria. Screened 2500 clients for cervical cancer and 3619 for TB during outreaches. 4 targeted TB outreaches. 751 TB contacts traced. 2 TB trainings on quality of care. 4 TB data review meetings. Trained 60 Health Care Workers on TB.
- ❖ Reduced the health burden of non-communicable diseases including Cancer, diabetes, hypertension, Malnutrition, obesity etc. Public health Lab for Aflatoxin.
- ❖ Eradicated Neglected Surgical Diseases by performing 282 cataract surgeries.
- ❖ Improved integration and coordination of healthcare services Initiated Public Private Partnership with World Bank in establishment of Cancer Centre at MTRH that included selection of transaction advisory and selection of cancer centre site.
- ❖ Signed MOUs with Mario Stopes on Post-Abortion Care, Meru Hospice on Palliative care and Jacaranda Health to improve Maternal and neonatal health services.

c. Major services/outputs to be provided in MTEF period 2023/24 – 2025/26

- ❖ Provision of adequate healthcare services across the county including but not limited to consultations, diagnostics, physiotherapy, psychotherapy, counselling, medicines dispensing, surgeries, and public health inspections.

- ❖ Face-lifting/renovations of health facilities
- ❖ Provision of ultramodern medical equipment
- ❖ Construction of support amenities in PHC facilities
- ❖ Creation of awareness on proper health seeking behavior
- ❖ Expansion of morgue services
- ❖ Operationalization of Hub and Spoke model for effective referral system

Constraints and challenges in budget implementation and how they are being addressed;

- ❖ Delayed disbursement of equitable share to counties
- ❖ Missed targets in own-revenue collections
- ❖ High wage bill especially in health since it's a labor-intensive sector
- ❖ Inadequate resources to concentrate on one or few projects to completion within a budget calendar, thus, leading to stalled projects
- ❖ Diminishing donor funding to counties and little resources devolution to manage health sector.

Measures to mitigate the challenges

- g) COG is pushing and campaigning towards prompt and timely disbursement of equitable allocation to counties.
- h) Change of management in the County Revenue Board and adopting more efficient methods of revenue collection to avoid pilferages.
- i) Strict adherence to the SRC recommendations on wage bill control mechanisms.
- j) Lobbying for more donors to complement county budget on development projects.

b. Major Achievements for the Period
Key Achievements

- ❖ 600Km of roads graded.
- ❖ 430Km of roads murramed.
- ❖ 1,852m of culverts done.
- ❖ 2 bridges constructed.
- ❖ 3Km of Low-Volume Seal (LVS) roads paved.
- ❖ 10Km of cabro-paving done.
- ❖ 50 gabions constructed.
- ❖ Installed 5 low-mast floodlights.
- ❖ Installed 17 high-mast floodlights.
- ❖ 531 floodlights, street lights & lighting equipment maintained.
- ❖ Maintained and insured 290 motor vehicles.

c. Major services/outputs to be provided in MTEF period 2023/24 – 2025/26

- ❖ Improve road infrastructure through opening up of new access roads, rehabilitation of existing roads, upgrading of rural roads, and construction of new roads with land acquisition.
- ❖ Provide adequate, safe and quality source of sustainable energy through promotion and adoption of alternative energy e.g., Biogas, solar and wind energy.
- ❖ Energy policies development such as CEP.
- ❖ Improve fleet management through purchase, Insurance, lease & maintenance of vehicles, disposal mechanism for obsolete vehicles, and purchase & maintenance of earth-moving plants and equipment.

d. Constraints and challenges in budget implementation and how they are being addressed;

- ❖ Slow contractors' response.
- ❖ Lack of human capacity
- ❖ Political interference in the prioritization and implementation of the projects hence slowed down development.
- ❖ Several statutes governing the Road Subsector are not harmonized creating cases of conflicts with each other.
- ❖ Overlap in planning due to inadequate coordination by the Authority and County Government.
- ❖ Inadequate construction and maintenance funding for projects.
- ❖ Poor development of roads reserves and drainage.

e. Measures to mitigate the challenges

- ❖ Retendering and change of procurement method from ONT to RQF.
- ❖ Recruitment of staff.
- ❖ To avoid political mistrust and competition among elected leaders by forming a regularized leadership forum that promote engagement platform for discussing and agreeing on the development trajectory.
- ❖ Liaise with other relevant statutory organizations to harmonize all road related statutes for smooth operation of the Authority.
- ❖ Sharing of work plans, Memorandum of Understanding and proper coordination between the Authority and devolved units.
- ❖ Adopting alternative technologies to ensure value for money and lobby for increased funding from donors, eg KDSP.
- ❖ Demarcate road reserves & mapping of the road corridors, and public sensitization to keep off road reserve.

c. Major services/outputs to be provided in MTEF period 2023/24 – 2025/26

- ❖ Capacity building of members & leaders through trainings
- ❖ Addressing compliance issue to improve governance

Constraints and challenges in budget implementation and how they are being addressed

- ◆ Inadequate budgetary allocation for departmental projects
- ◆ Delay in disbursement from the national treasury negatively affects implementation of the departmental projects
- ◆ Inadequate skilled manpower and facilitation of project technical team to project sites
- ◆ Non-adherence to the budget guidelines
- ◆ inability to meet standards of market goods for international market
- ◆ Limited capacity to provide training to entrepreneurs
- ◆ Undercapitalization-particularly in SACCOs, JLBS and other co-operative institutions which access credit for onward lending
- ◆ Exploitation of traders by middlemen
- ◆ Limited access to formal financial services, high interest rates and insufficient long-term financing has inhibited the competitiveness and growth of MSMEs, and community-based enterprises in the sector.
- ◆ The low levels of penetration and high cost of ICT infrastructure has hindered access and usage of ICT, leading to increased costs of production and low access to technological and market information. This has contributed to slow industrialization, trade development, tourism promotion and development of the enterprises.
- ◆ Various insecurity concerns such as high crime rates, piracy and terrorism have resulted in high insurance costs, costly security programmes and low tourist arrivals.
- ◆ Inadequate means of transport to various parts of the County affected project implementation, monitoring

Measures to mitigate the challenges

- i. County Treasury has been engaging the national treasury and controller of budget continuously in an effort to address the delay in disbursement
- ii. Adequate funding
- iii. Land development and promotion of sustainable management of agribusiness
- iv. Conducting capacity building
- v. Raising agricultural productivity through exploiting irrigation potential
- vi. Commercialization through structured marketing
- vii. Enacting of favorable legal and policy framework
- viii. Strengthening of multipurpose cooperatives to facilitate access to financial resources
