FOREWORD

This County Annual Development Plan (ADP) 2022/23 was formulated in line with the requirements of Section 126 of the Public Finance Management Act 2012, and in accordance with Article 220(2) of the Constitution. The Annual Plan contains the strategic priority development programmes/projects that shall be implemented in the 2022/23 Financial Year.

This Plan has taken into account development strategic priorities/programmes as stipulated in the County Integrated Development Programme (CIDP) 2018 - 2022 and other national plans. The ADP describes how the County Government is responding to changes in the financial and economic environment towards the programmes to be delivered with details for each programme including the strategic priorities to which the programme will contribute to; the services or goods to be provided; the measurable indicators of performance where feasible; and the budget allocated to the programme.

The Annual Development Plan has been developed through a consultative process ranging from public participation across the county, CIDP, county departments inputs where they identified key priorities/programmes to be implemented and their performance standards.

The implementation of this plan require determined effort from all stakeholders both from within and outside to bring on mainstreamed networks and coordination of wider public private partnership and other development partners for the benefit of the citizens. Achievement of the set objectives calls for greater transparency, effectiveness and efficiency in public financial management in order to ensure fiscal discipline.

Mr. MALICHA BORU
County Executive Committee Member
Finance and Economic Planning

ACKNOWLEDGEMENT

This Annual Development Plan, ADP 2022/23 was harmonized by the Department of Finance and Economic Planning with valuable inputs from County departments, public participation, CIDP among others.

I wish to acknowledge H.E the Governor and Deputy Governor for their continued political leadership and support in developing this Annual Plan. Special recognition goes to the County Executive Member for Finance and Economic Planning, Mr Malicha Boru, under whose direction and guidance in this assignment was undertaken and in the discharge of county treasury operations.

Additionally, I appreciate all Chief Officers and Directors together with their respective technical teams for their invaluable inputs. Much indebtedness goes to the County Executive Committee members for guiding through the preparation process. Explicitly, I would like to appreciate the role played by the team from Economic Planning unit for tirelessly working round the clock to coordinate, compile and finalize this plan.

Finally, our thanks go to all stakeholders including Community representatives and leaders who gave their inputs for both Annual Development Plan (2022/23) and County Integrated Development Plan (2018-22).

MR. WARIO JIRMO

Chief Officer – Finance & Economic Planning

EXECUTIVE SUMMARY

The Annual Development Plan (ADP) 2022/23 is the short Term Plan which annually supports implementation of the programmes, projects and initiatives identified in the Second County Integrated Development Plan (CIDP) 2018-22. The County has built up a strong foundation upon which strengthening of the journey to prosperous County for all its residents. This can only be achieved through the adoption of a growth strategy based in Programmes that Improve livelihoods through provision of basic services, maximization of production, building a peaceful and cohesive society, generate employment most rapidly, and improve the income generating opportunities for the poor. To achieve the expected economic growth, create impact in the county and realize the vision of a secure, just, integrated and prosperous county where all enjoy full potential and high quality of life.

Specific Programmes have been identified in each sector. Though these Programmes are County specific they have linkages with the Kenya Vision 2030, third Medium Term Plan (MTP) 2018-2022, the Constitution of Kenya, 2010 and other planning and policy documents. They are also linked to Sustainable Development Goals (SDGs), the National Governments 'big four' (food security, affordable housing, manufacturing, and affordable healthcare), long-term development agenda of the county, among counties, and within sectors in the county is illustrated.

The Plan also takes into account mainstreaming of minority rights into the development process. Some of the minority groups covered in this document that need special treatment are: women, youth and the physically challenged.

This ADP is presented in five sections. Section one provides a legal background and overview of the plan, and the County's response to changes in financial and economic environment. Section two provides county development review analysis for the FY 2020-2021. Section three gives details of the County Strategic Priorities. Section four gives the budget needs and responses and review of expected revenues. Chapter five summarizes the budgetary allocation per sub-programme, and a monitoring and evaluation matrix.

CHAPTER ONE: INTRODUCTION

1.1 County Overview

1.1.1 Position, Size and Population

The County of Marsabit is located in the extreme part of Northern Kenya and has a total area of 70,961.2 sq. km . It has an international boundary with Ethiopia to the North, borders Turkana County to the West, Samburu County to the South and Wajir and Isiolo Counties to the East. It lies between latitude 02° 45° North and 04° 27° North and longitude 37° 57° East and 39° 21° East. The county had a population of 459,785 in the year 2019 as per the 2019 National Population and Housing Census.

1.1.2 Administrative Sub-Divisions

Administratively, the county is divided into four sub-counties: Saku, Laisamis, North Horr, and Moyale. Table 1 shows the area of the county as per each sub-county.

Table 1: Area of the County by Sub County

Sub County	Area Km2	No. of Wards	No. of Locations	No. of Sub-Locations

1.1.3 Physical and Topographic Features

Most of the county constitutes an extensive plain lying between 300m and 900m above sea level which gently slopes towards the south east. The plain is bordered by hills and mountain ranges and is broken by volcanic cones and calderas to the west and north of the county. The prominent topographical features of the county are Ol Donyo Ranges in the south west (2,066m above sea level), Mt. Marsabit (1,865m above sea level) in the central part of the county, Hurri Hills in the north eastern part of the county (1,685m above sea level), Mt. Kulal in the north west (2,235m

above sea level) and the Sololo-Moyale escarpment in the north east (up to 1,400m above sea level).

1.1.4 Ecological Conditions

Marsabit County lies in four main ecological zones, namely, sub-humid, semi-arid (mainly woodlands), arid (predominantly bushlands) and very arid (scrublands).

1.1.5 Population Density and Distribution

1.2 Annual Development Plan Linkage with CIDP

The County Integrated Development Plan is built on some key areas of intervention whose outcome will deliver the county goals. The broad strategic priority of Marsabit County Government for the 2022/23 FY is built on some key areas of intervention from 2018-2022 CIDP whose outcome will deliver the county goals. Some of these goals includes:

- 1) Good governance - to ensure prudent financial management.
- 2) Health Transformative for effective workforce and overall productivity of the county economy.
- 3) Water and Energy Security - ensure better access to clean and safe water and reliable energy supply through harnessing potential water and energy resources.
- 4) Youth Employment - skills development, support to youth entrepreneurs in Small and Micro Enterprise (SME) and create business environment that ensures enhanced and safe investment, as well as tailored promotion of trade and agribusiness.
- 5) Food Security - through investment in livestock sector and crop farming.

1.3 Preparation process of the Annual Development Plan

The plan was prepared through a consultative platform that included inputs from public participation during ADP(2022/23), CIDP(2018-2022) and Budgets, submissions from county departments, Sector Working Group reports, stakeholders' meetings and inputs from existing government policies, plans and strategies.

4.4 Financial and Economic Environment

Global growth was projected to pick up to 3.4 percent in 2020 from an estimated 3.0 percent growth in 2019. The projected pick up is on account of recoveries in stressed emerging markets and macroeconomic policy support in major economies. In advanced economies, growth is expected to slow down to 1.7 percent in 2020 from an estimated 2.3 percent in 2018 mainly due to trade tensions between the United States of America (U.S.A) and China, uncertainties surrounding the Brexit outcome, rising global oil prices due to tensions between U.S.A and Iran, and the pace of normalization of monetary policy in the advanced economies.

Growth prospects for sub-Saharan Africa continue to strengthen. Growth was projected to improve to 3.6 percent in 2020 from 3.2 percent in 2018 and 2019, supported by higher commodity prices, improved capital market access and contained fiscal imbalances in many countries.

Growth in the East African Community (EAC) region was estimated to improve to 6.0 percent in 2020 from 5.6 percent in 2019 mostly supported by the stable macroeconomic environment, rebound in agricultural activities on the backdrop of favorable weather conditions, ongoing infrastructure investments, and strong private consumption.

The global outbreak and the rapid spread of the Covid-19 Pandemic have led to contraction of the global economy with disastrous consequences. Kenya and Marsabit County has not been spared. The Covid 19 pandemic containment measures aimed at saving lives have disrupted the businesses environment, including trade leading to loss of livelihoods for many people.

Kenya's economic growth was estimated at 6.1percent in 2020 in the medium term from 5.6 percent in 2019 this was to guarantee a revenue growth of at least 2% annually for the county governments. The projected Growth in GDP was greatly affected by Covid 19 pandemic. This has affected opportunities expected to arise for investments and growth in the productive sectors. The agriculture sector, service sector among others has recorded a decreased growth.

An immediate impact on this may be a decrease in the equitable share from the national government due to reduced revenue flows. The county own revenue collection will reduce significantly this year.

On a positive side the County has benefitted from the recovery of the insecurity and has already developed clear strategies and plans and address the issue of insecurity within the county, specifically the areas which are highly prone to insecurity.

4.5 Observing Fiscal Responsibility Principles

The County Treasury recognizes that the fiscal stance it takes today will, in the future have far reaching implications on the general financial wellbeing of the County. In line with the Public Finance Management (PFM) Act, 2012, and in keeping with prudent and transparent management of public resources, the Government has adhered to the fiscal responsibility principles as set out in the PFM Act. The County Treasury will continue ensuring that spending units comply with the PFM Act and other laws in discharging their mandate.

For the County to achieve and adhere to the above fiscal responsibilities the following controls will be exercised;

- a) Executive Control: This will be exercised through the County Treasury in conjunction with other departments. The county treasury will manage, supervise, control and direct all matters related to financial affairs. The accounting officers in each department will ensure accuracy, propriety and accountability in expenditures.
- b) Legislative control: The Authority of raising revenue and their appropriation is provided by the County Assembly. The County Executive will work closely with the county assembly to ensure legitimacy of collection of taxes and appropriation of revenue so received or collected.

c) The Controller of budget: the office of the controller of budget will oversee the implementation of county budgets.

d) The Auditor General : The office of the Auditor general will be involved in auditing of all accounts, the propriety of the expenditure and the appropriateness of all county public finance matters. Fiscal Reforms. The County has great potential to improve its revenue collection and administration. The County Treasury will work towards improving efficiency in collection, enforcement of revenue collection guidelines and employing new methods to enhance revenues as well as expanding revenue base. The improvement in County revenue collection and administration will be informed by the need to reduce the cost of revenue collection through offering more innovative and efficient procedures. The focus of the county government will be to sustain the ongoing reforms in revenue collection and administration. To achieve this, the county will leverage on the following:

i. Legislation

The County government will enact the required legislation to anchor its revenue administration process. These will include legislation on property rates, County revenue administration and trade licenses among others. There will be adequate public participation in the public finance management to increase the compliance of rate payers while at the same time reducing the incidences of litigation against the County.

ii. Computerization and Automation

The County plans to computerize and automate all the activities related to revenue administration in the near future.

iii. Leverage and maximize on the role of auditing (internal and external)

This will ensure compliance as well as evaluate effectiveness of internal controls in revenue administration. It will involve regular audits with dedicated follow up on auditor's recommendations.

iv. Capacity building

Treasury will build the capacity of revenue clerks to make them more efficient. Besides, through awareness creation about the finance acts, it is our hope that revenue collections will improve in the medium term.

4.6 Risks, Assumptions and Mitigation measures

Table 10: Risks, Assumptions and Mitigation measures

Risk	Assumption	Mitigation measures
Internally, public expenditure pressures particularly wage related recurrent expenditures	-	Risks materialize we shall revise again the macro framework and the Medium Term Sector Ceilings in the 2020/21 Budget
Local revenue shortfalls that continue to pose a fiscal risk	Expanded county own Revenue streams	Automation and creation of efficiency in revenue collection, management and reporting. Revenue Collection legislation Creation of a dedicated Corporate body to manage all matters relating to the administration and enforcement of County revenue laws and the assessment and collection Revenue Clinics to sensitize tax payers on the importance of self-compliance Profiling of revenue sources
Adverse Weather Conditions	Favorable Weather Conditions	Setting up disaster and emergency funds to address the weather changes effects and impacts
Insecurity	Prevailing Security	With the National Government in managing security issues in the County.
Capacity of the county staff to implement the programmes	Prevailing of lack of enough technical staff in county sectors	Building capacities of the existing staff and recruitment of new staff
Political Stability	Enhanced political stability	Issue based, people centered, result-oriented and accountable to the public
Pending bills from the implementation of previous CIDP	-	Strict adherence to plans and budgets
COVID 19 pandemic		Coordinate with national government, different stake holders to curb the pandemic.

CHAPTER FIVE: MONITORING AND EVALUATION

5.1 Chapter Overview

The chapter explains how projects and programmes to be implemented during the plan period will be monitored and evaluated. It also outlines objectively verifiable indicators that will be used to monitor the progress of implementation of projects and programs.

5.2 Monitoring

Monitoring is the process of continuously keeping track of implementation of a Programme or project activities within a period of time at specified intervals to assess progress. It entails collection and analysis of data to determine whether planned activities have been done. Monitoring of the entire process from planning, designing and implementation is very important as it keeps the planned activities in check, reduces duplication, wastages, allows for remedial measures to be taken and ensures the projects/programmes delivery on time.

a) Monitoring and Evaluation Exercise

The Monitoring and Evaluation Unit in the department of Economic Planning will monitor progress of implementation of projects and programmes. The unit will carry out quarterly monitoring and evaluation of the progress of implementation of planned projects and prepare reports for submission to relevant personnel for action.

b) Review Meetings

After preparation of the monitoring report, there shall be review meetings to assess the report and map a way forward. This will keep the plans' activities and outputs on track during implementation, and enable the relevant personnel to identify and take necessary actions to address any emerging issues.

5.3 Evaluation

Evaluation entails checking the impacts the project/Programme activities has had on the community. It builds on the monitoring process by identifying the level of short to medium-term outcomes and long-term impacts achieved; the intended and unintended effects of these achievements; and approaches that are working well and those that do not work well. The evaluation process will be done at the end of the plan period to ascertain the level of implementation of the Programmes and achievement of the plan objectives. This will involve checking on appropriateness, effectiveness, efficiency, lessons learnt and also provide feedback.

5.4 M&E Structure in the County

To ensure the required emphasis on M&E receives full attention from all county staff involved in its preparation and reporting, M&E targets and indicators should be linked directly to the performance management of the county, including Performance Contracts of CEC members and the work plans of chief officers and departments. Quarterly performance reviews by the departments and for the entire county should be chaired by the CEC Member and the Governor respectively.
